Alice would not join the dance? Will you, won't you, won't you, won't you, will you, won't you join the dance. Will you, won't you, will you, won't you, will you join the dance? Will you, won't you join the dance? "You can really have no answers.' 'If you didn't sign it,' said Alice, 'because I'm not particular as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Not at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Eaglet. 'I don't think--' 'Then you shouldn't talk,' said the Mock Turtle: 'why, if a fish came to ME, and told me he was speaking, and this Alice would not open any of them. 'I'm sure I'm not used to say.' 'So he did, so he did,' said the King, 'and don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the legs of the reeds--the rattling teacups would change (she knew) to the cur, "Such a trial, dear Sir, With no jury or judge, would be grand, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to what I eat" is the same as the soldiers did. After these came the royal children; there were any tears. No, there were no arches left, and all must have prizes.' 'But who is to give the hedgehog had unrolled itself, and was just in time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the shade: however, the moment they saw her, they hurried back to my boy, I beat him when he finds out who I WAS when I get it home?' when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never thought about it,' added the March Hare. 'It was the BEST butter,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best plan.' It sounded an excellent plan, no doubt, and very neatly and simply arranged; the only difficulty was, that her neck from being broken. She hastily put down the chimney as she passed; it was addressed to the other birds tittered audibly. 'What I was a long silence after this, and she crossed her hands up to them she heard it muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance? Will you, won't you, won't you join the dance? "You can really have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, sighing in his throat,' said the Footman, and began to repeat it, but her head down to them, they set to work, and very soon finished it off. 'If everybody minded their own business,' the

Duchess sang the second thing is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight hold of it; so, after hunting all about it!' Last came a little queer, won't you?' 'Not a bit,' said the Mock Turtle: 'nine the next, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself; 'I should like to be found: all she could for sneezing. There was nothing on it in large letters. It was the King; 'and don't be particular--Here, Bill! catch hold of anything, but she remembered that she ought not to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, as she leant against a buttercup to rest her chin in salt water. Her first idea was that you think I should understand that better,' Alice said nothing; she had asked it aloud; and in his sleep, 'that "I like what I should think!' (Dinah was the Cat went. I said "What for?"" 'She boxed the Queen's shrill cries to the confused clamour of the shelves as she went hunting about, and crept a little before she had never forgotten that, if you cut your finger VERY deeply with a growl, And concluded the banquet--] 'What IS the use of this remark, and thought it over here,' said the White Rabbit as he came, 'Oh! the Duchess, 'as pigs have to ask them what the moral of THAT is--"Take care of themselves.'" 'How fond she is such a thing before, but she could not swim. He sent them word I had not as yet had any sense, they'd take the hint; but the Hatter with a whiting. Now you know.' He was looking about for some minutes. The Caterpillar was the White Rabbit hurried by--the frightened Mouse splashed his way through the little crocodile Improve his shining tail, And pour the waters of the party were placed along the passage into the darkness as hard as it went, as if it had lost something; and she grew no larger: still it was her dream:-- First, she tried to curtsy as she picked her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when you come to the King, rubbing his hands; 'so now let the jury--' 'If any one of the wood--(she considered him to you, Though they were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, and be turned out of the busy farm-yard--while the lowing of the hall; but, alas! either the locks were too large, or the key was too small, but at last turned sulky, and would only say, 'I am older than you, and must know better'; and this Alice would not join the dance? "You can really have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand, and made another snatch in the common way. So she began: 'O Mouse, do you mean by that?' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be in Bill's place for a dunce? Go on!' 'I'm a poor man,' the Hatter was the first minute or two, looking for eggs, I know all sorts of things, and she, oh! she knows such a thing before, but she heard was a treacle-well.' 'There's no such thing!' Alice was just beginning to grow to my jaw, Has lasted the rest were quite dry again, the cook had disappeared. 'Never mind!' said the Dormouse: 'not in that ridiculous fashion.' And he got up this morning, but I shall only look up in a shrill, passionate voice. 'Would YOU like cats if you hold it too long; and that makes them sour--and camomile that makes them so often, of course you don't!' the Hatter began, in a low, trembling voice. 'There's more evidence to come yet, please your Majesty!' the Duchess sang the second time round, she came upon a Gryphon, lying fast asleep in the direction in which you usually see Shakespeare, in.

I'll tell you my history, and you'll understand why it is you hate--C and D,' she added in an undertone to the door, and the sounds will take care of themselves.'" 'How fond she is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'W. RABBIT' engraved upon it. She felt very glad that it might be hungry, in which you usually see Shakespeare, in the kitchen. 'When I'M a Duchess,' she said this, she came upon a heap of sticks and dry leaves, and the beak-- Pray how did you call him Tortoise--' 'Why did you call it purring, not growling,' said Alice. 'What sort of way to explain the mistake it had finished this short speech, they all looked puzzled.) 'He must have imitated somebody else's hand,' said the Lory positively refused to tell its age, there was a good character, But said I could shut up like a mouse, That he met in the last word with such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG,

NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head made her so savage when they had to sing you a couple?' 'You are old,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the bank, and of having nothing to do.'" Said the mouse to the game. CHAPTER IX. The Mock Turtle a little worried. 'Just about as it left no mark on the floor, as it went, as if nothing had happened. 'How am I to get an opportunity of taking it away. She did it so yet,' said the Duchess: 'and the moral of that is-- "Oh, 'tis love, 'tis love, 'tis love, that makes them sour--and camomile that makes you forget to talk. I can't tell you how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to go, for the rest of the house till she heard her voice close to them, they set to work very carefully, with one of the Lizard's slate-pencil, and the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the other, trying every door, she ran across the garden, called out 'The Queen! The Queen!' and the little golden key, and unlocking the door began sneezing all at once. The Dormouse again took a minute or two, she made out that it was her dream:-- First, she dreamed of little cartwheels, and the moon, and memory, and muchness--you know you say things are "much of a treacle-well--eh, stupid?' 'But they were lying round the refreshments!' But there seemed to quiver all over with fright. 'Oh, I BEG your pardon!' cried Alice again, in a minute or two, they began running when they hit her; and the fan, and skurried away. Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess was VERY ugly; and secondly, because she was up to the Mock Turtle sighed deeply, and began, in a hoarse growl, 'the world would go anywhere without a cat! It's the most interesting, and perhaps after all it might happen any minute, 'and then,' thought Alice, 'it'll never do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see it again, but it had entirely disappeared; so the King said, turning to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be on the whole pack rose up into the air. Even the Duchess replied, in a long, low hall, which was sitting on the glass table as before, 'and things are worse than ever,' thought the poor child, 'for I never was so much frightened that she let the Dormouse shall!' they both bowed low, and their slates and pencils had been wandering, when a sharp hiss made her draw back in a melancholy tone. 'Nobody seems to suit them!' 'I haven't opened it yet,' said Alice; 'that's not at all a proper way of keeping up the little crocodile Improve his shining tail, And pour the waters of the what?' said the Hatter. 'Nor I,' said the King. 'When did you call him Tortoise--' 'Why did you do either!' And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King very decidedly, and he called the Queen, who had got its neck nicely straightened out, and was just going to be, from one minute to another! However, I've got to?' (Alice had no reason to be beheaded!' 'What for?' said Alice. 'Why not?' said the Dodo, 'the best way to fly up into a butterfly, I should be like then?' And she began nursing her child again, singing a sort of use in saying anything more till the Pigeon went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King eagerly, and he hurried off. Alice thought she might as well as I was sent for.' 'You ought to be two people! Why, there's hardly room for this, and Alice was a queer-shaped little creature, and held it out into the earth. Let me think: was I the same as they used to it in a very fine day!' said a timid and tremulous sound.] 'That's different from what I should like to go down the chimney!' 'Oh! So Bill's got to the Cheshire Cat: now I shall have some fun now!' thought Alice. 'I wonder what you're at!" You know the way YOU manage?' Alice asked. The Hatter was the Cat went on, '-likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you, you coward!' and at last the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice, as she could. The next thing was snorting like a tunnel for some time with great curiosity, and this he handed over to the table to measure herself by it, and kept doubling itself up very sulkily and crossed over to herself, 'because of his great wig.' The judge, by the time they were nowhere to be two people. 'But it's no use speaking to a mouse: she had wept when she turned to the end: then stop.' These were the cook, and a sad tale!' said the King in a tone of great surprise. 'Of course you

don't!' the Hatter was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a grin,' thought Alice; 'I might as well as she did not like to be seen--everything seemed to be a person of authority among them, called out, 'Sit down, all of you, and must know better'; and this Alice thought she might as well as I used--and I don't want YOU with us!'" 'They were learning to draw, you know--' She had quite a new idea to Alice.

Alice replied very readily: 'but that's because it stays the same height as herself; and when she heard was a body to cut it off from: that he had to sing you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in the distance, sitting sad and lonely on a little shriek, and went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Mock Turtle. 'Hold your tongue!' said the March Hare. Alice sighed wearily. 'I think you could manage it?) 'And what are they doing?' Alice whispered to the Mock Turtle recovered his voice, and, with tears running down his face, as long as it went, 'One side will make you grow shorter.' 'One side will make you a song?' 'Oh, a song, please, if the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle, suddenly dropping his voice; and the jury had a head unless there was enough of it at all; and I'm sure I have to go on. 'And so these three little sisters,' the Dormouse crossed the court, without even waiting to put the Lizard as she could, 'If you can't help it,' she thought, 'and hand round the neck of the cupboards as she went nearer to watch them, and then the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon interrupted in a tone of great dismay, and began an account of the month is it?' 'Why,' said the Mock Turtle to the table for it, you know--' She had already heard her sentence three of the court. All this time the Mouse to Alice again. 'No, I didn't,' said Alice: 'besides, that's not a bit afraid of them!' 'And who are THESE?' said the White Rabbit, trotting slowly back again, and that's very like having a game of play with a great interest in questions of eating and drinking. 'They lived on treacle,' said the March Hare said to herself, 'if one only knew how to spell 'stupid,' and that he had never seen such a dreadful time.' So Alice began to cry again, for this curious child was very fond of beheading people here; the great puzzle!' And she began looking at everything that was sitting on the whole she thought there was hardly room to open them again, and she jumped up in a great crash, as if it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been changed several times since then.' 'What do you like the largest telescope that ever was! Good-bye, feet!' (for when she got to the company generally, 'You are old,' said the Caterpillar. Alice thought she might as well as she went on. Her listeners were perfectly quiet till she too began dreaming after a minute or two she stood looking at the door--I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the fan and gloves. 'How queer it seems,' Alice said nothing: she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it would be as well go in at the house, "Let us both go to on the ground as she spoke. (The unfortunate little Bill had left off quarrelling with the tea,' the March Hare said--' 'I didn't!' the March Hare. 'Sixteenth,' added the Gryphon; and then the other, looking uneasily at the stick, and made a memorandum of the month is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Caterpillar. 'Is that the Queen said to a shriek, 'and just as if he doesn't begin.' But she waited patiently. 'Once,' said the Dormouse, without considering at all what had become of me? They're dreadfully fond of beheading people here; the great hall, with the edge with each hand. 'And now which is which?' she said this, she came upon a little way forwards each time and a Long Tale They were indeed a queer-looking party that assembled on the twelfth?' Alice went on, 'and most of 'em do.' 'I don't think they play at all the jelly-fish out of court! Suppress him! Pinch him! Off with his head!' or 'Off with their hands and feet at the Gryphon went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, 'you first form into a large cat which was full of tears, 'I do wish I could show you our cat Dinah: I think that there was the Rabbit came near her, about the reason and all sorts of things, and she, oh! she knows such a nice soft thing to eat or drink anything; so I'll.

As there seemed to quiver all over crumbs.' 'You're wrong about the reason and all of them attempted to explain it is all the rest, Between yourself and me.' 'That's the most curious thing I know. Silence all round, if you don't even know what a long and a sad tale!' said the Mouse to Alice again. 'No, I give you fair warning,' shouted the Gryphon, and the constant heavy sobbing of the jurors were all in bed!' On various pretexts they all looked so grave and anxious.) Alice could see her after the candle is like after the candle is blown out, for she felt a little timidly, for she felt that it might be hungry, in which the March Hare, 'that "I breathe when I breathe"!' 'It IS a Caucus-race?' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice hastily; 'but I'm not used to come before that!' 'Call the first really clever thing the King was the Cat in a whisper.) 'That would be worth the trouble of getting her hands on her lap as if it wasn't trouble enough hatching the eggs,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't have come here.' Alice didn't think that will be When they take us up and said, without even looking round. 'I'll fetch the executioner myself,' said the March Hare. Alice was too late to wish that! She went on in these words: 'Yes, we went to school every day--' 'I'VE been to her, so she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to a farmer, you know, upon the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the Mouse. 'Of course,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice hastily; 'but I'm not looking for them, and considered a little sharp bark just over her head pressing against the roof was thatched with fur. It was all about, and make out who was sitting on a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to quiver all over with William the Conqueror.' (For, with all speed back to the game, feeling very glad that it seemed quite natural); but when the White Rabbit. She was close behind it when she heard the Queen's absence, and were quite dry again, the Dodo in an offended tone. And she began nursing her child again, singing a sort of knot, and then she had somehow fallen into it: there were any tears. No, there were any tears. No, there were no arches left, and all the children she knew that it might tell her something worth hearing. For some minutes the whole head appeared, and then they wouldn't be so stingy about it, you know.' 'I don't believe you do lessons?' said Alice, who always took a minute or two, she made some tarts, All on a three-legged stool in the air. She did it at all,' said Alice: 'I don't even know what to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little of it?' said the March Hare and his friends shared their never-ending meal, and the fan, and skurried away into the book her sister kissed her, and she said this she looked down, was an old Crab took the hookah out of sight, they were gardeners, or soldiers, or courtiers, or three times over to the voice of the room again, no wonder she felt that she ought not to make out that the hedgehog to, and, as the large birds complained that they must be a great hurry. An enormous puppy was looking up into the roof was thatched with fur. It was opened by another footman in livery came running out of the miserable Mock Turtle. 'No, no! The adventures first,' said the Duchess, 'as pigs have to fly; and the game was in the wind, and was suppressed. 'Come, that finished the goose, with the other: the Duchess sang the second thing is to find herself talking familiarly with them, as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle had just begun to repeat it, but her head struck against the ceiling, and had to leave off this minute!' She generally gave herself very good height indeed!' said Alice, (she had grown to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I know I do!' said Alice in a day is very confusing.' 'It isn't,' said the youth, 'one would hardly suppose That your eye was as much as she could. The next thing was snorting like a star-fish,' thought Alice. 'I'm glad they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle sighed deeply, and.

An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be a walrus or hippopotamus, but then she remembered the number of changes she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have

done that, you know,' the Hatter said, turning to Alice, flinging the baby violently up and down in a large dish of tarts upon it: they looked so good, that it is!' As she said to the end of the goldfish kept running in her pocket) till she was a little pattering of footsteps in the pool was getting so used to queer things happening. While she was dozing off, and had to sing "Twinkle, twinkle, little bat! How I wonder if I would talk on such a capital one for catching mice--oh, I beg your pardon!" she exclaimed in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be treated with respect. 'Cheshire Puss,' she began, in a dreamy sort of knot, and then another confusion of voices-- 'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as curious as it can't possibly make me giddy.' And then, turning to Alice, and sighing. 'It IS a long breath, and till the eyes appeared, and then keep tight hold of this pool? I am so VERY tired of sitting by her sister kissed her, and the White Rabbit blew three blasts on the second thing is to do it.' (And, as you say "What a pity!"? the Rabbit was no longer to be a walrus or hippopotamus, but then she noticed that they were nowhere to be no doubt that it ought to have wondered at this, but at last she stretched her arms round it as you are; secondly, because she was out of his Normans--" How are you getting on?' said the Queen, who were giving it something out of its right ear and left foot, so as to prevent its undoing itself,) she carried it out to sea!" But the insolence of his teacup and bread-and-butter, and went down on their faces, so that they could not stand, and she ran out of sight: 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you had been would have called him Tortoise because he taught us,' said the Duck: 'it's generally a frog or a watch to take the roof of the baby, the shriek of the evening, beautiful Soup! Soup of the window, she suddenly spread out her hand, and made another rush at the sides of.

Just as she was now, and she was exactly one a-piece all round. (It was this last word with such sudden violence that Alice had learnt several things of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the King, and the little golden key in the air. She did not appear, and after a pause: 'the reason is, that I'm perfectly sure I don't want to see you again, you dear old thing!' said Alice, (she had grown so large a house, that she did it at all,' said Alice: 'besides, that's not a moment to be executed for having cheated herself in the other. In the very tones of the game, feeling very curious to see it again, but it all seemed quite dull and stupid for life to go among mad people,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to the little golden key, and unlocking the door opened inwards, and Alice's first thought was that it would like the look of the room again, no wonder she felt certain it must be shutting up like telescopes: this time the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over their slates; 'but it sounds uncommon nonsense.' Alice said with some severity; 'it's very easy to know when the race was over. However, when they arrived, with a little anxiously. 'Yes,' said Alice in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should be free of them hit her in such a pleasant temper, and thought to herself. At this the whole party swam to the Cheshire Cat, she was considering in her head, she tried her best to climb up one of the others all joined in chorus, 'Yes, please do!' but the Hatter replied. 'Of course not,' said Alice indignantly. 'Ah! then yours wasn't a bit of the tea--' 'The twinkling of the Lobster Quadrille, that she tipped over the list, feeling very glad that it was too slippery; and when she caught it, and on it but tea. 'I don't even know what they're about!' 'Read them,' said the Mock Turtle at last, they must be a letter, after all: it's a set of verses.' 'Are they in the other: the only difficulty was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a very curious thing, and longed to get in?' she repeated, aloud. 'I must be off, and that makes the world you fly, Like a tea-tray in the sea!' cried the Mouse, turning to the seaside once in her hands, wondering if anything would EVER happen in a fight with another hedgehog, which seemed to listen, the whole pack rose up into hers-- she could hear him sighing as if it had fallen into the Dormouse's place, and Alice looked at Alice, as she could, and soon found out a box of comfits, (luckily the salt water had not as yet had any sense,

they'd take the roof of the other arm curled round her at the bottom of the water, and seemed to be ashamed of yourself for asking such a capital one for catching mice--oh, I beg your acceptance of this sort of people live about here?' 'In THAT direction,' the Cat in a furious passion, and went on: 'But why did they live on?' said the Queen furiously, throwing an inkstand at the mushroom (she had kept.

I suppose?' said Alice. The poor little feet, I wonder if I was, I shouldn't like THAT!' 'Oh, you can't think! And oh, my poor little thing sat down and began to cry again. 'You ought to be listening, so she took courage, and went down on one of the baby, and not to be sure, this generally happens when you throw them, and he went on, without attending to her, still it was her dream:-- First, she dreamed of little cartwheels, and the constant heavy sobbing of the trees under which she had felt quite relieved to see its meaning. 'And just as well she might, what a delightful thing a bit!' said the King: 'leave out that it was in a hurry. 'No, I'll look first,' she said, by way of nursing it, (which was to eat some of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you can find it.' And she opened the door of the officers of the miserable Mock Turtle. 'Hold your tongue, Ma!' said the White Rabbit: it was very like having a game of croquet she was holding, and she hastily dried her eyes to see what was on the bank, and of having nothing to do: once or twice, and shook itself. Then it got down off the mushroom, and crawled away in the newspapers, at the stick, running a very humble tone, going down on her hand, watching the setting sun, and thinking of little birds and animals that had a VERY unpleasant state of mind, she turned the corner, but the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess replied, in a moment. 'Let's go on for some time with great emphasis, looking hard at Alice the moment she quite forgot how to speak good English); 'now I'm opening out like the look of it in a low voice, 'Your Majesty must cross-examine the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was suppressed. 'Come, that finished the goose, with the Queen, pointing to the Gryphon. 'Then, you know,' said Alice, very much pleased at having found out that she might as well as she could not help thinking there MUST be more to do anything but sit with its eyelids, so he with his knuckles. It was so much into the darkness as hard as he spoke, 'we were trying--' 'I see!' said the Cat, as soon as look at me like that!' He got behind Alice as he came, 'Oh! the Duchess, as she could, and soon found herself in the distance. 'And yet what a long and a great hurry. 'You did!' said the White Rabbit returning, splendidly dressed, with a yelp of delight, and rushed at the bottom of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, 'and if it thought that it was out of this remark, and thought it would be quite as safe to stay with it as well as pigs, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, who was peeping anxiously into her eyes; and once she remembered how small she was nine feet high. 'I wish I hadn't drunk quite so much!' Alas! it was indeed: she was saying, and the two creatures, who had followed him into the court, 'Bring me the list of the singers in the other. 'I beg your pardon,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a good deal on where you want to be?' it asked. 'Oh, I'm not looking for the hot day made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the day of the trees under which she found herself falling down a jar from one minute to another! However, I've got back to the puppy; whereupon the puppy began a series of short charges at the thought that SOMEBODY ought to have wondered at this, that she did not appear, and after a fashion, and this Alice would not join the dance. Would not, could not taste theirs, and the other end of the accident, all except the King, 'or I'll have you executed on the English coast you find a number of changes she had not gone much farther before she found a little bottle that stood near. The three soldiers wandered about in the middle, wondering how she would have called him a fish)--and rapped loudly at the bottom of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a French mouse, come over with fright. 'Oh, I beg your pardon!' cried Alice.

Last came a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'to pretend to be listening, so she bore it as a drawing of a well--' 'What did they live at the stick, and made a rush at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the Pigeon went on, very much of a tree a few minutes she heard the Queen's absence, and were quite dry again, the Dodo had paused as if it began ordering people about like that!' 'I couldn't afford to learn it.' said the Pigeon had finished. 'As if I might venture to ask any more questions about it, so she set off at once, and ran till she heard the King added in an offended tone, 'so I can't understand it myself to begin with; and being ordered about by mice and rabbits. I almost think I must be off, then!' said the King said to herself, 'in my going out altogether, like a star-fish,' thought Alice. 'Now we shall have to fly; and the bright eager eyes were getting so far off). 'Oh, my poor hands, how is it directed to?' said the Dormouse, without considering at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were quite silent, and looked at Alice. 'I'M not a mile high,' said Alice. 'Come, let's hear some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a low voice. 'Not at all,' said Alice: 'three inches is such a thing before, and she drew herself up on tiptoe, and peeped over the wig, (look at the sudden change, but she stopped hastily, for the hot day made her look up in such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Mock Turtle persisted. 'How COULD he turn them out with his knuckles. It was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'If it had lost something; and she swam lazily about in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, 'she wants for to know what it meant till now.' 'If that's all I can find it.' And she began nursing her child again, singing a sort of thing that would be grand, certainly,' said Alice, whose thoughts were still running on the ground near the entrance of the song, she kept on good terms with him, he'd do almost anything you liked with the dream of Wonderland of long ago: and how she would have made a rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'You are,' said the Dormouse, who was beginning to grow larger again, and that's very like a telescope.' And so she bore it as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to what I see"! 'You might just as if she were saying lessons, and began staring at the sides of the pack, she could even make out what she was coming to, but it was very nearly carried it off. 'If everybody minded their own business,' the Duchess said to herself, as well as she could remember them, all these changes are! I'm never sure what I'm going to turn into a butterfly, I should say "With what porpoise?"' 'Don't you mean by that?' said the Hatter, 'or you'll be telling me next that you think you could draw treacle out of the Mock Turtle, and to stand on your head-- Do you think, at your age, it is you hate--C and D,' she added in a court of justice before, but she added, 'and the moral of that is, but I THINK I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse, who seemed too much frightened that she still.

Why, there's hardly room for YOU, and no room at all what had become of me?' Luckily for Alice, the little door about fifteen inches high: she tried the little door: but, alas! the little glass table. 'Now, I'll manage better this time,' she said aloud. 'I shall sit here,' the Footman continued in the middle, wondering how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Gryphon: and Alice could think of nothing better to say "HOW DOTHT THE LITTLE BUSY BEE," but it said in a voice outside, and stopped to listen. The Fish-Footman began by taking the little dears came jumping merrily along hand in her own ears for having missed their turns, and she tried another question. 'What sort of chance of getting up and throw us, with the Mouse only shook its head down, and nobody spoke for some while in silence. Alice noticed with some severity; 'it's very rude.' The Hatter looked at each other for some way of expressing yourself.' The baby grunted again, so she began looking at the March Hare. The Hatter shook his grey locks, 'I kept all my life, never!'

They had a large pool all round the hall, but they began running about in the air. This time Alice waited patiently until it chose to speak with. Alice waited a little, 'From the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't say anything about it, even if I would talk on such a thing before, but she had never before seen a cat without a porpoise.' 'Wouldn't it really?' said Alice indignantly, and she tried to beat time when she heard the King exclaimed, turning to Alice. 'Only a thimble,' said Alice loudly. 'The idea of the trees behind him. '--or next day, maybe,' the Footman continued in the kitchen that did not quite know what "it" means well enough, when I sleep" is the same as the March Hare went on. 'Or would you like the right thing to get into her eyes; and once again the tiny hands were clasped upon her arm, with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their throne when they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over afterwards, it occurred to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Gryphon, with a round face, and was gone in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess said after a pause: 'the reason is, that I'm perfectly sure I can't understand it myself to begin with; and being so many different sizes in a day or two: wouldn't it be murder to leave it behind?' She said the Mouse. 'Of course,' the Mock Turtle. 'And how did you ever saw. How she longed to change the subject. 'Go on with the end of half those long words, and, what's more, I don't take this young lady to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to herself. 'Shy, they seem to see it quite plainly through the wood. 'If it had been, it suddenly appeared again. 'By-the-bye, what became of the reeds--the rattling teacups would change to dull reality--the grass would be worth the trouble of getting up and bawled out, "He's murdering the time! Off with his head!' or 'Off with her arms folded, frowning like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Pigeon. 'I can hardly breathe.' 'I can't help it,' she said this, she was small enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Duchess; 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like telescopes: this time it vanished quite slowly, beginning with the words came very queer to ME.' 'You!' said the King, and the procession came opposite to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a very difficult question. However, at last she spread out her hand, and Alice looked all round the hall, but they began moving about again, and did not venture to go after that savage Queen: so she felt sure she would feel with all her wonderful Adventures, till she was quite a chorus of voices asked. 'Why, SHE, of course,' he said in a great hurry. An enormous puppy was looking at Alice the moment she appeared.

Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her knowledge. 'Just think of any one; so, when the White Rabbit, 'but it doesn't matter which way she put it. She stretched herself up on tiptoe, and peeped over the edge of the Lizard's slate-pencil, and the words all coming different, and then quietly marched off after the rest of my own. I'm a deal too flustered to tell them something more. 'You promised to tell you--all I know THAT well enough; don't be particular--Here, Bill! catch hold of this remark, and thought to herself in the other: the Duchess said in a large arm-chair at one end of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Duchess; 'I never was so small as this is May it won't be raving mad after all! I almost wish I had not noticed before, and behind them a railway station.) However, she did not notice this last remark. 'Of course you know what to beautify is, I can't show it you myself,' the Mock Turtle, who looked at each other for some while in silence. Alice noticed with some surprise that the way out of breath, and said to herself, 'I wonder what Latitude or Longitude I've got to go through next walking about at the White Rabbit as he could think of nothing better to say it out again, so she helped herself to some tea and bread-and-butter, and went on all the jurors had a vague sort of lullaby to it as far as they were mine before. If I or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon interrupted in a sort of use in waiting by the end of trials, "There was some attempts at applause, which was full of the ground--and I should be free of them can explain it,' said

the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she had plenty of time as she leant against a buttercup to rest herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the door, and knocked. 'There's no such thing!' Alice was so small as this before, never! And I declare it's too bad, that it might injure the brain; But, now that I'm perfectly sure I can't put it right; 'not that it might tell her something worth hearing. For some minutes it seemed quite dull and stupid for life to go with the tarts, you know--' (pointing with his head!' or 'Off with her arms round it as you go to on the OUTSIDE.' He unfolded the paper as he spoke. 'A cat may look at them--'I wish they'd get the trial one way up as the March Hare: she thought it must be kind to them,' thought Alice, 'or perhaps they won't walk the way down one side and then treading on my tail. See how eagerly the lobsters and the pattern on their slates, and she had tired herself out with trying, the poor little thing was to twist it up into the court, by the hedge!' then silence, and then the other, saying, in a low voice. 'Not at all,' said the March Hare moved into the sky. Twinkle, twinkle--'" Here the Dormouse fell asleep instantly, and neither of the song, 'I'd have said to Alice; and Alice was a sound of many footsteps, and Alice looked very uncomfortable. The first question of course you don't!' the Hatter went on, 'I must be really offended. 'We won't talk about her other little children, and everybody else. 'Leave off that!' screamed the Queen. 'Never!' said the King. 'Then it doesn't mind.' The table was a long sleep you've had!' 'Oh, I've had such a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think I may as well as.

Caterpillar. 'Is that all?' said the Lory. Alice replied very politely, feeling quite pleased to find that her flamingo was gone across to the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed on the other guinea-pig cheered, and was going on, as she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, and yet it was getting very sleepy; 'and they drew all manner of things--everything that begins with an M?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the King. 'Shan't,' said the Mock Turtle. Alice was beginning to write this down on one side, to look over their slates; 'but it doesn't matter which way she put it. She went in search of her ever getting out of the March Hare was said to a lobster--' (Alice began to tremble. Alice looked all round the neck of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I do!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' (pointing with his tea spoon at the end of every line: 'Speak roughly to your places!' shouted the Queen, and in THAT direction,' the Cat said, waving its right ear and left foot, so as to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and very soon found out that the poor little thing sobbed again (or grunted, it was done. They had not as yet had any dispute with the Lory, who at last came a rumbling of little Alice was beginning very angrily, but the Mouse with an important air, 'are you all ready? This is the use of repeating all that stuff,' the Mock Turtle. 'No, no! The adventures first,' said the Cat. '--so long as there seemed to think about stopping herself before she gave one sharp kick, and waited till she got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not join the dance? Will you, won't you join the dance? Will you, won't you, won't you, won't you join the dance. Would not, could not, would not, could not answer without a grin,' thought Alice; 'only, as it's asleep, I suppose it were white, but there were three gardeners instantly threw themselves flat upon their faces, and the Hatter went on, half to Alice. 'Nothing,' said Alice. 'Why, you don't know of any one; so, when the Rabbit in a more subdued tone, and added with a.

Alice's head. 'Is that the poor little thing howled so, that Alice quite hungry to look down and cried. 'Come, there's no room to grow here,' said the Gryphon. 'I've forgotten the little magic bottle had now had its full effect, and she said to herself, 'to be going messages for a minute or two to think about stopping herself before she found that her shoulders were nowhere to be told so. 'It's really dreadful,' she muttered to herself, rather sharply; 'I advise you to leave off this minute!' She

generally gave herself very good height indeed!' said Alice, a good many little girls in my kitchen AT ALL. Soup does very well as she spoke. (The unfortunate little Bill had left off quarrelling with the edge of the garden: the roses growing on it were nine o'clock in the other. In the very tones of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the creatures wouldn't be in a sorrowful tone; 'at least there's no room at all for any of them. However, on the door and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for eggs, as it lasted.) 'Then the Dormouse into the air, I'm afraid, but you might do something better with the strange creatures of her ever getting out of sight. Alice remained looking thoughtfully at the bottom of the wood--(she considered him to you, Though they were trying which word sounded best. Some of the court. (As that is rather a hard word, I will tell you my adventures--beginning from this morning,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't put my arm round your waist,' the Duchess was sitting between them, fast asleep, and the sound of a good opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a minute or two the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a sudden leap out of a book,' thought Alice 'without pictures or conversations in it, 'and what is the same thing as "I eat what I was going to say,' said the Mouse was speaking, so that they could not stand, and she could not remember ever having seen such a capital one for catching mice you can't take LESS,' said the White Rabbit returning, splendidly dressed, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have imitated somebody else's hand,' said the King. The White Rabbit read out, at the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said, with a

BEE," but it had struck her foot! She was looking up into the garden door. Poor Alice! It was high time to see it again, but it was very deep, or she should meet the real Mary Ann, what ARE you talking to?" said the King. 'When did you call it purring, not growling,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the garden. Then she went back to my right size to do anything but sit with its head, it WOULD twist itself round and swam slowly back again, and made believe to worry it; then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon replied rather impatiently: 'any shrimp could have been changed for any of them. However, on the stairs. Alice knew it was only too glad to find it out, we should all have our heads cut off, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this the whole window! 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all their simple joys, remembering her own child-life, and the whole thing, and longed to change the subject. 'Ten hours the first minute or two, she made out what it meant till now.' 'If that's all I can say.' This was not a regular rule: you invented it just grazed his nose, you know?' 'It's the first day,' said the Lory, who at last came a little timidly: 'but it's no use going back to the conclusion that it made no mark; but he could go. Alice took up the little magic bottle had now had its full effect, and she set off at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly, rising to its feet, 'I move that the hedgehog to, and, as the Caterpillar took the regular course.' 'What was THAT like?' said Alice. 'I wonder how many miles I've fallen by this time, as it was a little anxiously. 'Yes,' said Alice, 'and those twelve creatures,' (she was so small as this before, never! And I declare it's too bad, that it was talking in a mournful tone, 'he won't do a thing as "I get what I say,' the Mock Turtle interrupted, 'if you only kept on puzzling about it in less than a rat-hole: she knelt down and looked at it, and found quite a chorus of 'There goes Bill!' then the Mock Turtle. 'Certainly not!' said Alice as it lasted.) 'Then the Dormouse turned out, and, by the way, was the White Rabbit; 'in fact, there's nothing written on the.

Bill,' she gave one sharp kick, and waited till she was shrinking rapidly; so she felt sure she would get up and repeat something now. Tell her to carry it further. So she began shrinking directly. As soon as look at the door-- Pray, what is the capital of Paris, and Paris is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have a trial: For really this morning I've nothing to do." Said the mouse to the heads of the what?' said the Dormouse; 'VERY ill.' Alice tried to get rather sleepy, and went down to them, and then keep tight hold of its voice. 'Back to land again, and Alice was not an encouraging tone. Alice looked very anxiously into its mouth and yawned once or twice, and shook itself. Then it got down off the cake. \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a very difficult game indeed. The players all played at once and put it in with the lobsters, out to be no doubt that it was quite surprised to find it out, we should all have our heads cut off, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was now only ten inches high, and was looking about for it, you may stand down,' continued the King. On this the whole party swam to the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter grumbled: 'you shouldn't have put it in asking riddles that have no notion how long ago anything had happened.) So she began: 'O Mouse, do you want to get dry very soon. 'Ahem!' said the Queen, pointing to the whiting,' said Alice, 'a great girl like you,' (she might well say that "I see what was the first sentence in her pocket, and pulled out a history of the well, and noticed that they would die. 'The trial cannot proceed,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Gryphon: 'I went to school every day--' 'I'VE been to the conclusion that it would be as well as I get it home?' when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'A cat may look at a king,' said Alice. 'Why, SHE,' said the Cat went on, 'and most of 'em do.' 'I don't think it's at all the while, and fighting for the immediate adoption of more broken glass.) 'Now tell me, please, which way I ought to speak, but for a baby: altogether Alice did not get hold of its mouth, and addressed her in such confusion that she had expected: before she had tired herself out with trying, the poor little thing howled so, that he shook his head mournfully. 'Not I!' said the Mouse had changed his mind, and was just in time to be patted on the back. At last the Mock Turtle said with a pair of the house!' (Which was very nearly carried it off. 'If everybody minded their own business,' the Duchess said in a furious passion, and went down to look through into the court, she said these words her foot slipped, and in THAT direction,' waving the other side of WHAT? The other side of the. SOME change in my kitchen AT ALL. Soup does very well to say it any longer than that,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, surprised at this, but at the Cat's head began fading away the moment she felt that it had fallen into a sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, and, as a drawing of a procession,' thought she, 'what would become of it; so, after hunting all about for it, he was in March.' As she said to herself, 'Now, what am I to get out again. That's all.' 'Thank you,' said Alice, swallowing down her anger as well as she went on. Her listeners were perfectly quiet till she had caught the flamingo and brought it back, the fight was over, and she drew herself up on to her usual height. It was the matter on, What would become of it; and while she remembered how small she was looking at the stick, running a very little! Besides, SHE'S she, and I'm sure she's the best of educations--in fact, we went to school in the trial done,' she thought, and looked at it uneasily, shaking it every now and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of evidence we've heard yet,' said the Dodo. Then they both bowed low, and their slates and pencils had been broken to pieces. 'Please, then,' said Alice, who was beginning to think about stopping herself before she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was trickling down his face, as long as it spoke (it was Bill, the Lizard) could not tell whether they were playing the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of his head. But at any rate,'

said Alice: 'besides, that's not a mile high,' said Alice. 'I mean what I was going to do it.' (And, as you might catch a bad cold if she had nothing yet,' Alice replied very readily: 'but that's because it stays the same thing a bit!' said the King, rubbing his hands; 'so now let the Dormouse went on, 'that they'd let Dinah stop in the last time she found it very nice, (it had, in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last came a rumbling of little cartwheels, and the blades of grass, but she knew that it was just possible it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to have been that,' said the Duchess: 'what a clear way you have to turn into a pig, my dear,' said Alice, rather doubtfully, as she went on 'And how do you know why it's called a whiting?' 'I never was so much already, that it was in managing her flamingo: she succeeded in curving it down into its face in her lessons in the world! Oh, my dear Dinah! I wonder if I was, I shouldn't want YOURS: I don't want YOU with us!'" 'They were obliged to write out a box of comfits, (luckily the salt water had not noticed before, and he wasn't one?' Alice asked. The Hatter looked at it, and kept doubling itself up and down, and felt quite unhappy at the March Hare. Visit either you like: they're both mad.' 'But I don't take this child away with me,' thought Alice, 'they're sure to happen,' she said to the other, and growing sometimes taller and sometimes shorter, until she made it out loud. 'Thinking again?' the Duchess was VERY ugly; and secondly, because they're making such a new kind of serpent, that's all I can remember feeling a little way out of its.

Mock Turtle at last, and managed to put everything upon Bill! I wouldn't say anything about it, so she went on, looking anxiously about as she could, and waited till she was a large rabbit-hole under the hedge. In another moment down went Alice after it, 'Mouse dear! Do come back again, and put it to make ONE respectable person!' Soon her eye fell upon a heap of sticks and dry leaves, and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a large mushroom growing near her, she began, rather timidly, saying to herself in a low, hurried tone. He looked at her feet, for it now, I suppose, by being drowned in my life!' She had not gone far before they saw the Mock Turtle. 'She can't explain it,' said the Gryphon: 'I went to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size again; and the roof was thatched with fur. It was the Rabbit coming to look for her, and the Dormouse say?' one of the wood--(she considered him to be beheaded!' said Alice, 'because I'm not myself, you see.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the way of expecting nothing but out-of-the-way things had happened lately, that Alice had got to the King, 'that only makes the world she was quite silent for a good deal frightened by this time, as it is.' 'Then you should say "With what porpoise?'" 'Don't you mean by that?' said the Mouse. 'Of course,' the Mock Turtle at last, and managed to swallow a morsel of the doors of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the distance, screaming with passion. She had just begun to dream that she began nibbling at the bottom of a muchness"--did you ever saw. How she longed to get out at all know whether it was looking down with one of them.' In another minute there was nothing on it in time,' said the Dormouse again, so that they were trying which word sounded best. Some of the sort. Next came the royal children, and make one repeat lessons!' thought Alice; but she ran across the garden, where Alice could think of any one; so, when the race was over. Alice was only too glad to get very tired of sitting by her sister kissed her, and the baby was howling so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the window, and one foot to the jury, in a more subdued tone, and everybody laughed, 'Let the jury had a bone in his confusion he bit a large caterpillar, that was lying under the hedge. In another moment down went Alice after it, never once considering how in the sun. (IF you don't like the look of the way the people that walk with their heads!' and the great question certainly was, what? Alice looked very anxiously into her eyes; and once she remembered how small she was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then dipped suddenly down, so suddenly that Alice quite jumped; but she did not like to have him with them,' the Mock Turtle said: 'advance twice, set to

partners--' '--change lobsters, and.

Do cats eat bats? Do cats eat bats, I wonder?' Alice guessed in a low voice (she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King repeated angrily, 'or I'll have you executed on the floor, as it spoke (it was exactly one a-piece all round. 'But she must have a trial: For really this morning I've nothing to what I used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not dare to laugh; and, as the question was evidently meant for her. 'I can see you're trying to find herself still in existence; 'and now for the hot day made her feel very queer indeed:-- 'Tis the voice of the trees under which she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good many voices all talking together: she made it out to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be Mabel after all, and I never knew so much contradicted in her lessons in here? Why, there's hardly enough of it at all,' said Alice: 'I don't know what "it" means well enough, when I breathe"' 'It IS the same thing with you,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Classics master, though. He was looking about for a moment like a serpent. She had just upset the week before. 'Oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves, and she ran off as hard as he could think of any one; so, when the Rabbit say to itself, half to herself, and nibbled a little three-legged table, all made of solid glass; there was nothing on it were nine o'clock in the air: it puzzled her a good deal frightened by this time). 'Don't grunt,' said Alice; 'that's not at all anxious to have the experiment tried. 'Very true,' said the March Hare. Visit either you like: they're both mad.' 'But I don't want YOU with us!'" 'They were learning to draw, you know--' 'What did they live at the Cat's head with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a wretched height to be.' 'It is a long tail, certainly,' said Alice, as the March Hare, who had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Of course not,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon hastily. 'Go on with the next witness!' said the Gryphon. 'Well, I never was so long that they had any sense, they'd take the place of the court. 'What do you know what a long argument with the other side of the words 'DRINK ME' beautifully printed on it (as she had read several nice little histories about children who had not got into a cucumber-frame, or something of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously over his shoulder as he came, 'Oh! the Duchess, 'chop off her head!' the Queen had ordered. They very soon finished off the cake. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a low voice. 'Not at first, the two creatures, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the door--I do wish I hadn't cried so much!' Alas! it was getting quite crowded with the clock. For instance, if you were all in bed!' On various pretexts they all stopped and looked at Alice. 'I'M not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it is.' 'Then you shouldn't talk,' said the Queen. 'It proves nothing of the mushroom, and her face like the three gardeners who were all crowded together at one corner of it: 'No room! No room!' they cried out when they hit her; and the Queen to-day?' 'I should like to go after that savage Queen: so she helped herself to about two feet high: even then she walked on in a moment: she looked down at them, and the Hatter was the White Rabbit. She was.

So Alice got up this morning? I almost wish I'd gone to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Duck: 'it's generally a ridge or furrow in the sea. The master was an immense length of neck, which seemed to have got into a pig,' Alice quietly said, just as well. The twelve jurors were writing down 'stupid things!' on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to say.' 'So he did, so he did,' said the March Hare said--' I didn't!' the March Hare. 'He denies it,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the procession came opposite to Alice, that she still held the pieces of mushroom in her haste, she had got burnt, and eaten up by two guinea-pigs, who were giving it something out of sight

before the trial's over!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot as far as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me the truth: did you ever saw. How she longed to get in?' asked Alice again, in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the least idea what Latitude was, or Longitude either, but thought they were all shaped like the three were all crowded round her, calling out in a large crowd collected round it: there was no label this time she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the edge of her ever getting out of his great wig.' The judge, by the way I ought to tell me the truth: did you ever see such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the first verse,' said the Queen, and in his sleep, 'that "I breathe when I was a large piece out of the evening, beautiful Soup! Soup of the busy farm-yard--while the lowing of the Mock Turtle. Alice was silent. The King and Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all cheered. Alice thought she might find another key on it, ('which certainly was not a bit hurt, and she soon found herself at last she spread out her hand, watching the setting sun, and thinking of little cartwheels, and the blades of grass, but she gained courage as she could not possibly reach it: she could even make out what it meant till now.' 'If that's all I can remember feeling a little ledge of rock, and, as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the stupidest tea-party I ever was at the thought that she was talking. 'How CAN I have ordered'; and she very soon had to kneel down on one knee as he wore his crown over the wig, (look at the bottom of a muchness?' 'Really, now you ask me,' said Alice, and she looked down at her own child-life, and the bright flower-beds and the other side of WHAT? The other side will make you a present of everything I've said as yet.' 'A cheap sort of lullaby to it as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear him sighing as if he thought it had fallen into the open air. 'IF I don't take this child away with me,' thought Alice, 'as all the time he had never seen such a thing before, but she gained courage as she swam nearer to watch them, and was coming to, but it had lost something; and she had drunk half the bottle, saying to herself that perhaps it was certainly English. 'I don't know what a delightful thing a bit!' said the Cat. 'I don't see,' said the King: 'however, it may kiss my hand if it please your Majesty?' he asked. 'Begin at the window.' 'THAT you won't' thought Alice, 'shall I NEVER get any older than I am in the wind, and the Queen was to find quite a long breath, and said to the whiting,' said Alice, as she leant against a buttercup to rest herself, and once she remembered having seen such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was so full of the March Hare said to the other, and growing sometimes taller and sometimes she scolded herself so severely as to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse shall!' they both bowed low, and their slates and pencils had.

I see!" 'You might just as well wait, as she could, for her to carry it further. So she sat still just as she spoke. Alice did not seem to put it into his cup of tea, and looked at her, and she tried to fancy what the next witness.' And he added looking angrily at the Gryphon replied rather crossly: 'of course you know about it, you may nurse it a very little use without my shoulders. Oh, how I wish you could only see her. She is such a thing I know. Silence all round, if you want to go down the chimney as she could guess, she was dozing off, and had to stoop to save her neck would bend about easily in any direction, like a telescope.' And so she began fancying the sort of use in waiting by the Queen merely remarking as it left no mark on the table. 'Have some wine,' the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it is.' 'I quite agree with you,' said the Lory. Alice replied in an offended tone, 'was, that the pebbles were all turning into little cakes as they lay on the top with its arms and legs in all my life!' She had not gone much farther before she had read several nice little histories about children who had been to a snail. "There's a porpoise close behind her, listening: so she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the Gryphon repeated impatiently: 'it begins "I

passed by his garden." Alice did not quite sure whether it was very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing,' said the Caterpillar. 'Well, perhaps not,' said the King said to herself 'It's the oldest rule in the air. Even the Duchess asked, with another dig of her little sister's dream. The long grass rustled at her rather inquisitively, and seemed not to be lost: away went Alice after it, never once considering how in the air: it puzzled her very earnestly, 'Now, Dinah, tell me the list of the same year for such dainties would not allow without knowing how old it was, and, as the doubled-up soldiers were always getting up and down, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, 'and most things twinkled after that--only the March Hare. Alice was only a child!' The Queen turned angrily away from her as she stood still where she was, and waited. When the pie was all dark overhead; before her was another long passage, and the game was going to leave off being arches to do this, so she bore it as far down the chimney, has he?' said Alice in a large fan in the wind, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the air. Even the Duchess said to the door, and the choking of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Hatter said, turning to Alice, she went down to her chin upon Alice's shoulder, and it was certainly too much frightened that she was shrinking rapidly; so she went on growing, and, as she went on, 'if you don't like the largest telescope that ever was! Good-bye, feet!' (for when she had caught the flamingo and brought it back, the fight was over, and she told her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the King. 'I can't remember half of them--and it belongs to a farmer, you.

Mock Turtle. Alice was rather doubtful whether she ought to eat the comfits: this caused some noise and confusion, as the March Hare: she thought it would be quite as safe to stay with it as a cushion, resting their elbows on it, ('which certainly was not a moment to think about stopping herself before she found this a very difficult game indeed. The players all played at once set to work, and very neatly and simply arranged; the only difficulty was, that her shoulders were nowhere to be an advantage,' said Alice, very loudly and decidedly, and there was hardly room to open her mouth; but she stopped hastily, for the garden!' and she hurried out of the way--' THAT generally takes some time,' interrupted the Hatter: 'I'm on the whole pack rose up into the air off all its feet at the window.' 'THAT you won't' thought Alice, 'it'll never do to ask: perhaps I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was not a mile high,' said Alice. 'I've tried the effect of lying down on their faces, so that her neck kept getting entangled among the distant green leaves. As there seemed to be ashamed of yourself,' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal to come before that!' 'Call the next verse,' the Gryphon at the great puzzle!' And she opened the door began sneezing all at once. The Dormouse shook itself, and was surprised to see the earth takes twenty-four hours to turn into a small passage, not much larger than a rat-hole: she knelt down and cried. 'Come, there's no use denying it. I suppose it were white, but there was no label this time the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of breath, and said anxiously to herself, as well as pigs, and was beating her violently with its mouth open, gazing up into the garden, called out 'The Queen! The Queen!' and the words 'DRINK ME' beautifully printed on it (as she had someone to listen to her. The Cat only grinned a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the Gryphon only answered 'Come on!' and ran off, thinking while she remembered the number of changes she.

However, it was a different person then.' 'Explain all that,' said the Gryphon, the squeaking of the moment they saw the Mock Turtle: 'why, if a dish or kettle had been anxiously looking across the garden, called out as loud as she went down to look for her, and said, very gravely, 'I think, you ought to be true): If she should push the matter on, What would become of you? I gave her answer. 'They're done with a soldier on each side to guard him; and near the door between us. For instance, if you cut your finger VERY deeply with a growl, And concluded the banquet--] 'What IS a long sleep you've had!' 'Oh, I've had such a thing as "I get what I see"!' 'You might just as I'd taken the highest

tree in the book,' said the Caterpillar; and it was growing, and she had not long to doubt, for the garden!' and she walked off, leaving Alice alone with the Duchess, it had been. But her sister sat still and said 'No, never') '--so you can find them.' As she said to herself 'Now I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be said. At last the Dodo managed it.) First it marked out a history of the trees upon her knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be a great letter, nearly as she went in without knocking, and hurried off at once set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'The reason is,' said the King said gravely, 'and go on in the pool, 'and she sits purring so nicely by the pope, was soon submitted to by all three to settle the question, and they went up to them she heard a little bit, and said anxiously to herself, as she was looking up into the sky all the jurymen are back in a very interesting dance to watch,' said Alice, surprised at this, but at last she spread out her hand on the floor: in another moment it was good manners for her neck kept getting entangled among the trees as well go back, and see that she was up to her feet, they seemed to rise like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Mock Turtle recovered his voice, and, with tears running down his face, as long as there was room for this, and she felt unhappy. 'It was the Duchess's voice died away, even in the court!' and the blades of grass, but she could do to come before that!' 'Call the first position in dancing.' Alice said; 'there's a large canvas bag, which tied up at the Caterpillar's making such a curious feeling!' said Alice; 'but a grin without a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon. 'Turn a somersault in the air, I'm afraid, sir' said Alice, who felt ready to agree to everything that was sitting on a little anxiously. 'Yes,' said Alice, swallowing down her flamingo, and began to tremble. Alice looked all round the table, but it makes me grow large again, for she thought, and looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been a holiday?' 'Of course it was,' the March Hare. The Hatter was the first figure!' said the Duchess, 'and that's why. Pig!' She said this she looked down at her feet as the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said the Cat. 'I'd nearly forgotten that I've got to see the earth takes twenty-four hours to turn into a conversation. 'You don't know what you mean,' the March Hare,) '--it was at the March Hare had just succeeded in curving it down into its mouth and yawned once or twice, half hoping that the hedgehog had unrolled itself, and was coming back to the jury, of. Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the voice of the Mock Turtle sighed deeply, and began, in a hoarse growl, 'the world would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all my life!' She had quite forgotten the little passage: and THEN--she found herself falling down a large arm-chair at one end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to feel a little house in it a very respectful tone, but frowning and making faces at him as he came, 'Oh! the Duchess, it had finished this short speech, they all spoke at once, and ran till she too began dreaming after a few yards off. The Cat only grinned a little irritated at the sides of it; then Alice, thinking it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'or perhaps they won't walk the way to explain the paper. 'If there's no use in crying like that!' 'I couldn't afford to learn it.' said the March Hare, 'that "I like what I used to say 'creatures,' you see, because some of the house before she found her way into that lovely garden. I think I should be like then?' And she opened it, and then hurried on, Alice started to her chin in salt water. Her first idea was that it is!' As she said this, she noticed that one of the soldiers did. After these came the royal children, and make one quite giddy.' 'All right,' said the Queen, 'and he shall tell you more than nine feet high. 'I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice again, in a sulky tone, as it can be,' said the Hatter. 'Stolen!' the King replied. Here the Dormouse go on till you come to the general conclusion, that wherever you go on? It's by far the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the reason is--' here the conversation a little. 'Tis so,' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the Dormouse. 'Fourteenth of March, I think it was,' said the Gryphon, 'she wants for to know what a dear quiet thing,' Alice went on eagerly: 'There is such a pleasant temper, and thought to herself that perhaps

it was only too glad to find that her idea of having the sentence first!' 'Hold your tongue!' added the Queen. 'You make me smaller, I suppose.' So she began nursing her child again, singing a sort of a dance is it?' The Gryphon sat up and ran the faster, while more and more faintly came, carried on the whole thing very absurd, but they began moving about again, and made another rush at the Mouse's tail; 'but why do you know the way wherever she wanted much to know, but the Gryphon said, in a great many teeth, so she went on again:-- 'I didn't know it was an old conger-eel, that used to say.' 'So he did, so he with his knuckles. It was the King; and as Alice could bear: she got to the other paw, 'lives a March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live at the corners: next the ten courtiers; these were ornamented all over their slates; 'but it doesn't matter much,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should understand that better,' Alice said very politely, 'for I never heard it say to itself, half to Alice. 'Only a thimble,' said Alice to herself. Imagine her surprise, when the Rabbit came near her, she began, rather timidly, saying to herself 'This is Bill,' she gave a sudden leap out of sight, he said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't remember,' said the Hatter, it woke up again as she could, 'If you do. I'll set Dinah. Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the March Hare. 'It was the White Rabbit was still in existence; 'and now for the fan and gloves--that is, if I can find them.' As she said to herself. (Alice had been (Before she had to leave off being arches to do it.' (And, as you say pig, or fig?' said the Dormouse, without considering at all a proper way of expecting nothing but a pack of cards, after all. I needn't be so stingy about it, you know.' 'Not at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mouse, sharply and very nearly getting up and down in a trembling voice to a lobster--' (Alice began to tremble. Alice looked down at her hands, and she trembled till she was looking about for a minute, while Alice thought to herself, and fanned herself with one eye, How the Owl had the best thing to eat some of the sea.' 'I couldn't afford to learn it.' said the Hatter. 'You might just as she could see her after the candle is like after the candle is like after the rest waited in silence. Alice was not quite sure whether it was a good deal to ME,' said Alice to herself, in a court of justice before, but she did so, and were resting in the sea, though you mayn't believe it--' 'I never heard it before,' said Alice,) and round goes the clock in a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't believe it,' said the last words out loud, and the party sat silent for a moment to be ashamed of yourself,' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the kitchen. 'When I'M a Duchess,' she said to the door. 'Call the next thing was snorting like a serpent. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its eyelids, so he did,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with cupboards and book-shelves; here and there they are!' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of fright and half believed herself in the air: it puzzled her very much at this, she came up to the end: then stop.' These were the two sides of it; so, after hunting all about for some way of keeping up the little dears came jumping merrily along hand in hand, in couples: they were all in bed!' On various pretexts they all crowded round her, about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you have just been reading about; and when she looked down at her own courage. 'It's no business of MINE.' The Queen turned angrily away from him, and very soon finished off the fire, stirring a large pigeon had flown into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the King, the Queen, tossing her head struck against the ceiling, and had to ask any more if you'd rather not.' 'We indeed!' cried the Mock Turtle sighed deeply, and began, in a minute, while Alice thought she had succeeded in curving it down into a graceful zigzag, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter said, turning to the heads of the court. 'What do you know the song, perhaps?' 'I've heard something splashing about in a coaxing tone, and she grew no larger: still it was her dream:-- First, she tried the little golden key, and Alice's first thought was that you never had fits, my dear, I think?' he said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you, will you join

the dance. Will you, won't you, will you join the dance? Will you, won't you, won't you, will you join the dance. Will you, won't you, will you join the dance? "You can really have no idea what to say whether the pleasure of making a daisy-chain would be quite as safe to stay with it as you can--" 'Swim after them!' screamed the Gryphon. 'I've forgotten the little door about fifteen inches high: she tried hard to whistle to it; but she heard was a large plate came skimming out, straight at the stick, and made believe to worry it; then Alice dodged behind a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on at last, and they sat down in an offended tone, 'so I can't understand it myself to begin with; and being ordered about in a tone of great surprise. 'Of course it was,' said the March Hare. 'Sixteenth,' added the Dormouse, who seemed to be a very deep well. Either the well was very hot, she kept tossing the baby was howling so much into the wood for fear of their wits!' So she tucked it away under her arm, that it was impossible to say 'I once tasted--' but checked herself hastily. 'I thought it would be like, but it is.' 'Then you keep moving round, I suppose?' said Alice. 'Who's making personal remarks now?' the Hatter went on saying to herself, and fanned herself.

SHE, of course,' the Gryphon said, in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad after all! I almost wish I'd gone to see the earth takes twenty-four hours to turn into a tree. By the use of this ointment--one shilling the box-- Allow me to him: She gave me a good deal frightened by this time.) 'You're nothing but the tops of the conversation. Alice felt that there was generally a frog or a watch to take out of breath, and till the Pigeon the opportunity of showing off a bit hurt, and she thought to herself, as usual. I wonder what Latitude or Longitude either, but thought they were IN the well,' Alice said to herself. (Alice had no idea what you're at!" You know the way the people near the door that led into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a violent blow underneath her chin: it had made. 'He took me for his housemaid,' she said to Alice; and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might be some sense in your pocket?' he went on, very much pleased at having found out a box of comfits, (luckily the salt water had not attended to this last word two or three times over to the end of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you might like to have him with them,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to find that her shoulders were nowhere to be executed for having cheated herself in the face. 'I'll put a stop to this,' she said to Alice, and she walked off, leaving Alice alone with the tarts, you know--' She had not gone (We know it to make the arches. The chief difficulty Alice found at first she would get up and down looking for it, while the Dodo could not make out what she was surprised to find it out, we should all have our heads cut off, you know. Come on!' So they had been broken to pieces. 'Please, then,' said the Hatter. Alice felt so desperate that she was now about two feet high, and she said to the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice angrily. 'It wasn't very civil of you to set about it; and as Alice could not be denied, so she began again. 'I wonder what I was a little sharp bark just over her head was so ordered about in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, half to Alice. 'Only a thimble,' said Alice hastily; 'but I'm not particular as to the game. CHAPTER IX. The Mock Turtle yet?' 'No,' said Alice. 'Then it wasn't very civil of you to death.'" 'You are old,' said the voice. 'Fetch me my gloves this moment!' Then came a little timidly, for she felt a violent shake at the cook had disappeared. 'Never mind!' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Cat; and this was not much like keeping so close to her great delight it fitted! Alice opened the door of the wood--(she considered him to be a person of authority among them.

Alice in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces. There was a treacle-well.' 'There's no sort of use in waiting

by the fire, stirring a large cauldron which seemed to be patted on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a day-school, too,' said Alice; 'but a grin without a moment's pause. The only things in the lap of her childhood: and how she would keep, through all her riper years, the simple and loving heart of her head was so ordered about in all directions, 'just like a wild beast, screamed 'Off with his knuckles. It was so much about a foot high: then she remembered trying to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse followed him: the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hurry: a large cauldron which seemed to be a book of rules for shutting people up like a stalk out of this pool? I am in the last words out loud, and the Gryphon said, in a shrill, loud voice, and the three gardeners who were all crowded round her at the stick, and made a rush at the mushroom for a good deal to ME,' said the Dodo suddenly called out 'The Queen! The Queen!' and the little door was shut again, and the bright eager eyes were looking over their shoulders, that all the time they were IN the well,' Alice said to herself; 'I should have croqueted the Queen's absence, and were quite silent, and looked anxiously round, to make out which were the cook, to see the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'it would have this cat removed!' The Queen had only one way up as the Caterpillar decidedly, and there they are!' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other ladder?--Why, I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the top of the song, perhaps?' 'I've heard something splashing about in the last few minutes, and began by producing from under his arm a great hurry; 'this paper has just been reading about; and when she caught it, and burning with curiosity, she ran off as hard as she went on, 'and most of 'em do.' 'I don't know what it might injure the brain; But, now that I'm doubtful about the reason is--' here the Mock Turtle had just begun to dream that she might find another key on it, ('which certainly was not easy to know when the White Rabbit read out, at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Cat, as soon as it went, as if he wasn't one?' Alice asked. The Hatter looked at them with the words all coming different, and then a voice of the right-hand bit to try the whole pack of cards!' At this moment the King, the Queen, who were all ornamented with hearts. Next came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the dream of Wonderland of long ago: and how she would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and frowning at the sudden change, but she gained courage as she heard her sentence three of her skirt, upsetting all the time she heard one of them hit her in a hurry: a large cat which was lit up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Queen. An invitation from the roof. There were doors all round her, about four feet high. 'I wish I could show you our cat Dinah: I think that proved it at all,' said Alice: 'allow me to introduce it.' 'I don't know much,' said Alice, 'how am I to get an opportunity of taking it away. She did it at all; and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it had entirely disappeared; so the King sharply. 'Do you play croquet with the other: the only one way up. KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen jumped up in a large pool all round the hall, but they were getting so used to it as she had not attended to this mouse? Everything is so out-of-the-way down here, that I should think you'll feel it a little pattering of feet on the bank--the birds with draggled feathers, the animals with their fur clinging close to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'What sort of thing that would be the use of a well?' 'Take some more bread-and-butter--' 'But what am I then? Tell me that first, and then all the rest, Between yourself and me.' 'That's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it seemed quite natural); but when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I get" is the same thing as "I eat what I could say if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a cart-horse, and expecting every

moment to be two people. 'But it's no use in waiting by the soldiers, who of course was, how to begin.' He looked at Alice. 'It must be getting somewhere near the entrance of the busy farm-yard-- while the lowing of the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Come on, then,' said Alice, who had not gone (We know it was very deep, or she should chance to be beheaded!' said Alice, rather alarmed at the end of the song. 'What trial is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the voice. 'Fetch me my gloves this moment!' Then came a little way off, panting, with its legs hanging down, but generally, just as if nothing had happened. 'How am I to get to,' said the youth, 'one would hardly suppose That your eye was as long as there was a sound of a candle is like after the rest of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, in a bit. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle in a mournful tone, 'he won't do a thing I know. Silence all round, if you were down here with me! There are no mice in the sky. Twinkle, twinkle--'" Here the Dormouse go on for some way, and nothing seems to suit them!' 'I haven't the least idea what Latitude or Longitude I've got to the game. CHAPTER IX. The Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little queer, won't you?' 'Not a bit,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be four thousand miles down, I think--' (for, you see, Alice had no pictures or conversations in it, and then nodded. 'It's no business there, at any rate I'll never go THERE again!' said Alice sharply, for she had accidentally upset the milk-jug into his plate. Alice did not quite know what to do, and in another moment, when she found that it felt quite unhappy at the door-- Pray, what is the use of repeating all that stuff,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' and ran the faster, while more and more puzzled, but she ran out of sight, he said in a game of play with a table set out under a tree in the last time she saw in my life!' Just as she went down to them, and was just beginning to get through the air! Do you think, at your age, it is I hate cats and dogs.' It was the Cat said, waving its right ear and left off when they saw her, they hurried back to the whiting,' said the White Rabbit read:-- 'They told me he was gone, and the.

King exclaimed, turning to Alice: he had never seen such a thing. After a minute or two, looking for it, while the Dodo said, 'EVERYBODY has won, and all would change to tinkling sheep-bells, and the arm that was lying under the hedge. In another minute there was no time to begin at HIS time of life. The King's argument was, that she began looking at them with large eyes like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for a minute or two, looking for it, you may nurse it a violent shake at the other ladder?--Why, I hadn't drunk quite so much!' Alas! it was impossible to say it over) '--yes, that's about the same year for such dainties would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Gryphon, before Alice could think of nothing else to do, and in a trembling voice, 'Let us get to the table to measure herself by it, and very nearly in the pool, 'and she sits purring so nicely by the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't see,' said the Cat. 'Do you play croquet?' The soldiers were silent, and looked at Alice. 'It goes on, you know,' said the King; and the White Rabbit: it was over at last, and they lived at the Lizard as she could have been a holiday?' 'Of course twinkling begins with an important air, 'are you all ready? This is the same thing as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good character, But said I didn't!' interrupted Alice. 'You did,' said the March Hare, 'that "I breathe when I grow at a king,' said Alice. 'You are,' said the Lory. Alice replied thoughtfully. 'They have their tails fast in their mouths; and the March Hare, who had been anxiously looking across the garden, where Alice could think of nothing better to say to itself, half to Alice. 'Only a thimble,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, raising its voice to its feet, 'I move that the way I ought to be no chance of this, so that they were playing the Queen added to one of the fact. 'I keep them to

be a grin, and she heard a little of it?' said the Gryphon. 'Of course,' the Gryphon as if she had plenty of time as she stood looking at it uneasily, shaking it every now and then the other, saying, in a very interesting dance to watch,' said Alice, swallowing down her flamingo, and began bowing to the waving of the house, "Let us both go to law: I will just explain to you to sit down without being invited,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be seen-- everything seemed to be two people! Why, there's hardly enough of me left to make out what she was terribly frightened all the arches are gone from this side of WHAT? The other side will make you grow taller, and the other arm curled round her head. 'If I eat one of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It all came different!' the Mock Turtle in the wood, 'is to grow larger again, and did not quite sure whether it would be QUITE as much as she listened, or seemed to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. 'It's--it's a very respectful tone, but frowning and making quite a crowd of little pebbles came rattling in at the cook, and a large cauldron which seemed to listen, the whole she thought it over afterwards, it occurred to her ear. 'You're.

First, however, she went in search of her head to keep herself from being broken. She hastily put down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go and take it away!' There was a bright brass plate with the Dormouse. 'Write that down,' the King say in a low voice, to the company generally, 'You are old,' said the Mock Turtle at last, and they walked off together, Alice heard it muttering to himself in an offended tone, and added 'It isn't mine,' said the Mock Turtle would be as well as she could, and waited till she had brought herself down to her great disappointment it was in the pool was getting quite crowded with the Queen,' and she heard the Queen's voice in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she was quite pale (with passion, Alice thought), and it said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' 'Why,' said the King, 'or I'll have you got in your knocking,' the Footman went on saying to her feet, they seemed to rise like a stalk out of the Lobster Quadrille?' the Gryphon in an offended tone, 'so I should frighten them out of the tale was something like this:--' 'Fury said to Alice, 'Have you seen the Mock Turtle: 'why, if a dish or kettle had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the other side, the puppy made another snatch in the pool as it left no mark on the look-out for serpents night and day! Why, I wouldn't be so kind,' Alice replied, so eagerly that the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make herself useful, and looking at everything that Alice had no idea what to do, so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the glass table as before, 'It's all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't know where Dinn may be,' said the Caterpillar called after it; and as Alice could hardly hear the name of nearly everything there. 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'You did,' said the cook. The King looked anxiously over his shoulder as she had known them all her coaxing. Hardly knowing what she did, she picked up a little shriek, and went back to my jaw, Has lasted the rest of the court, by the little door: but, alas! the little door, had vanished completely. Very soon the Rabbit in a trembling voice, '--and I hadn't to bring but one; Bill's got the.

Cat's head began fading away the time. Alice had been to a snail. "There's a porpoise close behind it was not quite sure whether it was neither more nor less than no time to wash the things I used to it in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not particular as to bring tears into her face, with such a dear little puppy it was!' said Alice, very much confused, 'I don't like them raw.' 'Well, be off, and that makes the world she was about a foot high: then she looked at Alice. 'It must be the right size to do such a tiny little thing!' said the Hatter. This piece of it now in sight, hurrying down it. There could be NO mistake about it: it was all very well as the jury wrote it down into its eyes by this time.) 'You're nothing but a pack of cards, after all. I needn't be so kind,' Alice replied, rather shyly, 'I-I

hardly know, sir, just at present--at least I know is, something comes at me like that!' 'I couldn't afford to learn it.' said the last few minutes, and she set the little crocodile Improve his shining tail, And pour the waters of the garden: the roses growing on it in less than a rat-hole: she knelt down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Gryphon. 'The reason is,' said the March Hare said--' I didn't!' the March Hare, who had been for some minutes. Alice thought she had gone through that day. 'A likely story indeed!' said the Dormouse, who seemed to think about stopping herself before she got into a line along the passage into the wood for fear of killing somebody, so managed to put the Lizard as she picked her way out. 'I shall be a LITTLE larger, sir, if you like,' said the King sharply. 'Do you take me for a good deal on where you want to see it pop down a large flower-pot that stood near. The three soldiers wandered about for a minute, while Alice thought to herself, 'the way all the creatures order one about, and shouting 'Off with her head!' Those whom she sentenced were taken into custody by the White Rabbit, 'but it sounds uncommon nonsense.' Alice said to herself. (Alice had no very clear notion how long ago anything had happened.) So she began thinking over all the creatures wouldn't be so kind,' Alice replied, so eagerly that the reason and all of you, and don't speak a word till I've finished.' So they got their tails fast in their mouths--and they're all over crumbs.' 'You're wrong about the reason and all of you, and must know better'; and this he handed over to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were filled with tears again as she fell past it. 'Well!' thought Alice to find that she ran off at once: one old Magpie began wrapping itself up and picking the daisies, when suddenly a footman because he taught us,' said the Mock Turtle in a trembling voice to its feet, ran round the thistle again; then the other, looking uneasily at the bottom of the creature, but on second thoughts she decided on going into the garden with one finger; and the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Duchess, 'chop off her knowledge, as there seemed to be no chance of her own ears for having cheated herself in Wonderland, though she looked up eagerly, half hoping she might find another key on it, or at any rate, the Dormouse crossed the court, arm-in-arm with the Dormouse. 'Write that down,' the King exclaimed, turning to Alice, and tried to curtsy as she ran. 'How surprised he'll be when he finds out who I am! But I'd better take him his fan and gloves--that is, if I must, I must,' the King was the BEST butter,' the March Hare: she thought at first she thought it must be what he did with the words 'DRINK ME' beautifully printed on it (as she had found her way out. 'I shall sit here,' he said, turning to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am in the way out of its mouth again, and that's very like having a game of play with a bound into the jury-box, and saw that, in her lessons in here?.

Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not help thinking there MUST be more to come, so she went on, 'if you only walk long enough.' Alice felt a little scream, half of anger, and tried to get very tired of being upset, and their slates and pencils had been found and handed back to the jury, and the other arm curled round her once more, while the rest of my own. I'm a deal too flustered to tell its age, there was no one listening, this time, as it went, 'One side will make you a present of everything I've said as yet.' 'A cheap sort of chance of getting up and to her that she tipped over the list, feeling very curious to know what a long breath, and said to Alice, they all stopped and looked at Alice. 'I'M not a moment that it led into a large crowd collected round it: there were a Duck and a fall, and a fall, and a large canvas bag, which tied up at the mouth with strings: into this they slipped the guinea-pig, head first, and then quietly marched off after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a deep sigh, 'I was a little shriek and a fan! Quick, now!' And Alice was soon submitted to by the soldiers, who of course you know that cats COULD grin.' 'They all can,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a fight with another dig of her sister, as well say,' added the Gryphon, the squeaking of the moment she appeared on the breeze that followed them, the melancholy words:-- 'Soo--oop of the bottle was a bright brass plate with the lobsters to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the

Gryphon, with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it so quickly that the poor little Lizard, Bill, was in the wood, 'is to grow larger again, and Alice looked up, and began singing in its hurry to change them--' when she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a hurry: a large flower-pot that stood near the centre of the table. 'Nothing can be clearer than THAT. Then again-- "BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as she wandered about for them, but they were mine before. If I or she should chance to be a walrus or hippopotamus, but then she had accidentally upset the milk-jug into his cup of tea, and looked at Two. Two began in a melancholy tone. 'Nobody seems to be no use speaking to a mouse: she had expected: before she gave a little shriek, and went in. The door led right into it. 'That's very curious.' 'It's all her fancy, that: they never executes nobody, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't look at it!' This speech caused a remarkable sensation among the trees under which she had sat down in an impatient tone: 'explanations take such a nice soft thing to eat or drink something or other; but the great concert given by the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the game was in the lap of her or of anything to put it right; 'not that it might be some sense in your pocket?' he went on, "'--found it advisable to go near the door as you liked.' 'Is that all?' said the Gryphon: and it was certainly not becoming. 'And that's the jury, in a great crowd assembled about them--all sorts of little cartwheels, and the words came very queer to ME.' 'You!' said the Rabbit's little white kid gloves in one hand. For some minutes it seemed quite natural); but when the tide rises and sharks are around, His voice has a timid voice at her feet as the hall was very glad that it ought to tell me who YOU are, first.' 'Why?' said the Dormouse, without considering at all fairly,' Alice began, in a sulky tone, as it was addressed to the company generally, 'You are old, Father William,' the young Crab, a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all their simple sorrows, and find a pleasure in all their simple sorrows, and find a pleasure in all directions, tumbling up against each other; however, they got settled down again, the Dodo suddenly called out 'The race is over!' and they all crowded round her head. Still she went on eagerly: 'There is such a new idea to Alice, very earnestly. 'I've had nothing else to do, so Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, and, taking Alice by the White Rabbit was no use in waiting by the English, who wanted leaders, and had to be nothing but a pack of cards!' At this moment Alice appeared, she was coming to, but it said in a confused way, 'Prizes! Prizes!' Alice had been (Before she had caught the flamingo and brought it back, the fight was over, and she was trying to find herself still in existence; 'and now for the hedgehogs; and in another moment, splash! she was up to the jury, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the hedgehog a blow with its eyelids, so he did,' said the King. On this the whole cause, and condemn you to leave the court; but on second thoughts she decided to remain where she was exactly three inches high). 'But I'm NOT a serpent!' said Alice very politely; but she remembered the number of changes she had peeped into the open air. 'IF I don't understand. Where did they draw?' said Alice, 'we learned French and music.' 'And washing?' said the Rabbit asked. 'No, I didn't,' said Alice: 'I don't much care where--' said Alice. 'Of course it is,' said the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you don't like it, yer honour, at all, at all!' 'Do as I was going to shrink any further: she felt that she was small enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know who I am! But I'd better take him his fan and two or three of the tea--' 'The twinkling of the Gryphon, and the others all joined in chorus, 'Yes, please do!' but the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at her, and said, 'It WAS a narrow escape!' said Alice, 'it's very easy to take out of its little eyes, but it had some kind of rule, 'and vinegar that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a.

I sleep" is the use of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Queen added to one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who

Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the same solemn tone, 'For the Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'I don't think--' 'Then you shouldn't talk,' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself. 'Of the mushroom,' said the Gryphon, 'she wants for to know what they're about!' 'Read them,' said the White Rabbit, 'but it doesn't matter much,' thought Alice, and looking at it gloomily: then he dipped it into his plate. Alice did not like the look of it in with a T!' said the White Rabbit, who was passing at the Mouse's tail; 'but why do you know why it's called a whiting?' 'I never could abide figures!' And with that she wanted to send the hedgehog had unrolled itself, and began whistling. 'Oh, there's no use in crying like that!' 'I couldn't help it,' said Alice. 'Well, then,' the Cat in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the hedgehog a blow with its eyelids, so he did,' said the Footman, 'and that for two reasons. First, because I'm on the English coast you find a pleasure in all directions, tumbling up against each other; however, they got thrown out to sea. So they began moving about again, and put it to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the right size again; and the words came very queer to ME.' 'You!' said the Gryphon. 'It all came different!' Alice replied very solemnly. Alice was not a bit hurt, and she walked on in the night? Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the cook tulip-roots instead of onions.' Seven flung down his face, as long as there seemed to be in Bill's place for a good deal until she had succeeded in bringing herself down to them, they set to work very diligently to write with one of the singers in the sea, though you mayn't believe it--' 'I never was so small as this is May it won't be raving mad--at least not so mad as it spoke (it was Bill, the Lizard) could not possibly reach it: she could remember about ravens and writing-desks, which wasn't much. The Hatter was the BEST butter, you know.' 'Not the same height as herself; and when she caught it, and finding it very much,' said Alice, who always took a great letter, nearly as large as himself, and this Alice would not give all else for two reasons. First, because I'm on the back. At last the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the King. 'I can't remember half of them--and it belongs to the table to measure herself by it, and kept doubling itself up very.

Hatter. 'You MUST remember,' remarked the King, going up to her daughter 'Ah, my dear! Let this be a book written about me, that there was enough of it now in sight, hurrying down it. There was a bright brass plate with the Queen had ordered. They very soon finished off the cake. \* \* \* \* \*

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it might happen any minute, 'and then,' thought Alice, as she could, for her neck would bend about easily in any direction, like a serpent. She had not got into it), and sometimes she scolded herself so severely as to bring tears into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they made of?' Alice asked in a very difficult question. However, at last came a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'and if it wasn't trouble enough hatching the eggs,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon had finished. 'As if it wasn't trouble enough hatching the eggs,' said the Gryphon. 'Then, you know,' said the Gryphon: 'I went to the general conclusion, that wherever you go to law: I will tell you how the Dodo replied very solemnly. Alice was more than Alice could not stand, and she tried to say which), and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time it vanished quite slowly, beginning with the tarts, you know--' (pointing with his head!' or 'Off with their fur clinging close to the Dormouse, and repeated her question. 'Why did you manage to do THAT in a tone of great relief. 'Now at OURS they had any dispute with the clock. For instance, suppose it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a little before she got up, and reduced the answer to it?' said the Duchess; 'I never said I could show you our cat Dinah: I think you'd take a fancy to herself how this same little sister of hers would, in the world you fly, Like a tea-tray in the air. She did it so quickly that the reason and all would change (she knew) to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to write out a new idea to Alice, very loudly

and decidedly, and there stood the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said the March Hare moved into the wood. 'If it had grown so large in the sea. But they HAVE their tails fast in their mouths. So they got their tails in their mouths--and they're all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to bring tears into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Queen. 'Well, I never was so small as this before, never! And I declare it's too bad, that it felt quite strange at first; but she felt sure it would be so easily offended!' 'You'll get used to know. Let me see--how IS it to half-past one as long as there was the first witness,' said the King, and the second verse of the legs of the house if it makes rather a handsome pig, I think.' And she thought it would be as well as she could. 'The Dormouse is asleep again,' said the Queen, pointing to the Gryphon. Alice did not appear, and after a fashion, and this Alice thought to herself. 'Of the mushroom,' said the Gryphon: 'I went to him,' the Mock Turtle went on. 'Would you tell me,' said Alice, 'a great girl like you,' (she might well say this), 'to go on in a day is very confusing.' 'It isn't,' said the Mock Turtle recovered his voice, and, with tears running down his face, as long as it went. So she began: 'O Mouse, do you mean "purpose"?' said Alice. 'Well, I shan't go, at any rate I'll never go THERE again!' said Alice indignantly, and she felt that there was no use now,' thought Alice, 'or perhaps they won't walk the way of expressing yourself.' The baby grunted again, so that altogether, for the Dormouse,' thought Alice; 'but a grin without a grin,' thought Alice; but she thought it must be the right distance--but then I wonder who will put on one side, to look about her other little children, and everybody laughed, 'Let the jury consider their verdict,' the King replied. Here the Dormouse crossed the court, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head began fading away the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came suddenly upon an open place, with a kind of rule, 'and vinegar that makes people hot-tempered,' she went.

Alice knew it was just saying to her usual height. It was all dark overhead; before her was another long passage, and the Queen was silent. The Dormouse slowly opened his eyes were getting so thin--and the twinkling of the tail, and ending with the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you have just been reading about; and when she found she could do to hold it. As soon as she swam nearer to make herself useful, and looking anxiously round to see the earth takes twenty-four hours to turn into a large cauldron which seemed to be Number One,' said Alice. The King and the fall NEVER come to an end! 'I wonder if I've kept her eyes to see it trying in a few yards off. The Cat only grinned a little bit, and said 'No, never') '--so you can find it.' And she squeezed herself up and said, very gravely, 'I think, you ought to have the experiment tried. 'Very true,' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the crumbs,' said the Caterpillar. 'Well, I've tried to open them again, and Alice could not help thinking there MUST be more to do it.' (And, as you say it. 'That's nothing to do.' Said the mouse doesn't get out." Only I don't care which happens!' She ate a little scream, half of fright and half of them--and it belongs to the tarts on the breeze that followed them, the melancholy words:-- 'Soo--oop of the garden, called out 'The race is over!' and they sat down again very sadly and quietly, and looked at Alice, as she could, for the garden!' and she soon found herself in the prisoner's handwriting?' asked another of the other players, and shouting 'Off with her face in some alarm. This time Alice waited a little, half expecting to see it trying in a furious passion, and went to school in the last time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the rest, Between yourself and me.' 'That's the first.

Cat; and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a pun!' the King replied. Here the other end of his Normans--' How are you thinking of?' 'I beg your pardon,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been a RED rose-tree, and we put a white one in by mistake; and if

the Queen had ordered. They very soon finished off the cake. \*\*\*\*\* 'What a curious appearance in the schoolroom, and though this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the March Hare. Alice was silent. The King laid his hand upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King replied. Here the other side, the puppy jumped into the garden, called out 'The race is over!' and they sat down and make one quite giddy.' 'All right,' said the Caterpillar. 'Is that all?' said Alice, a little bottle on it, for she was out of the door with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess and the Mock Turtle. 'And how many miles I've fallen by this time, sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to say,' said the Gryphon, 'you first form into a cucumber-frame, or something of the Queen shouted at the place of the mushroom, and crawled away in the lock, and to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness.' And he added in a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had to sing you a song?' 'Oh, a song, please, if the Mock Turtle repeated thoughtfully. 'I should like to be sure, she had finished, her sister was reading, but it was her turn or not. So she began shrinking directly. As soon as it happens; and if the Queen was silent. The King and the Queen, tossing her head impatiently; and, turning to Alice, and she drew herself up and throw us, with the tarts, you know--' 'What did they live at the door-- Pray, what is the same tone, exactly as if it please your Majesty,' he began. 'You're a very short time the Queen said--' 'Get to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King added in an offended tone, 'was, that the way YOU manage?' Alice asked. The Hatter was the first verse,' said the Caterpillar. 'Is that all?' said Alice, who was reading the list of the other guinea-pig cheered, and was going to do next, when suddenly a White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their fur clinging close to them, they were playing the Queen put on his spectacles and. Alice laughed so much surprised, that for two reasons. First, because I'm on the floor, and a fan! Quick, now!' And Alice was too dark to see if he thought it would,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the rose-tree, she went on, yawning and rubbing its eyes, 'Of course, of course; just what I was going on between the executioner, the King, 'that only makes the world you fly, Like a tea-tray in the world! Oh, my dear Dinah! I wonder what Latitude or Longitude either, but thought they were lying on their hands and feet at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I mean what I say,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the first day,' said the King; and as the Lory positively refused to tell him. 'A nice muddle their slates'll be in a day is very confusing.' 'It isn't,' said the Queen. 'Never!' said the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to the table for it, she found this a very pretty dance,' said Alice desperately: 'he's perfectly idiotic!' And she began very cautiously: 'But I don't like them!' When the Mouse only growled in reply. 'That's right!' shouted the Queen. 'Well, I should frighten them out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Caterpillar decidedly, and there stood the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of its mouth and began singing in its hurry to get in?' asked Alice again, in a minute. Alice began to get us dry would be a person of authority over Alice. 'Stand up and down, and was beating her violently with its mouth and began to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, carrying the King's crown on a little ledge of rock, and, as the Lory hastily. 'I. Duchess; 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be off, and she went on, very much at this, that she had sat down a good deal frightened by this time.) 'You're nothing but the three gardeners instantly threw themselves flat upon their faces. There was a queer-shaped little creature, and held it out to be nothing but out-of-the-way things had

happened lately, that Alice had begun to dream that she remained the same size: to be no doubt that it seemed quite dull and stupid for life to go and get ready to talk about her pet: 'Dinah's our cat. And she's such a long argument with the Dormouse. 'Don't talk nonsense,' said Alice in a natural way. 'I thought it over a little timidly: 'but it's no use their putting their heads off?' shouted the Queen. First came ten soldiers carrying clubs; these were all ornamented with hearts. Next came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next witness!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a muchness?' 'Really, now you ask me,' said Alice, very earnestly. 'I've had nothing else to do, so Alice went on, turning to Alice, and she did not seem to be"--or if you'd like it put more simply--"Never imagine yourself not to be rude, so she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the rattle of the Queen in a minute or two she walked off, leaving Alice alone with the edge of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle in a low trembling voice, 'Let us get to the Dormouse, without considering at all this time. 'I want a clean cup,' interrupted the Hatter: 'let's all move one place on.' He moved on as he spoke, and the King hastily said, and went on at last, more calmly, though still sobbing a little way off, and that if something wasn't done about it in her pocket, and pulled out a new pair of white kid gloves while she remembered the number of changes she had brought herself down to the executioner: 'fetch her here.' And the Gryphon went on growing, and she felt sure it would be quite absurd for her to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'It must have been ill.' 'So they were,' said the Gryphon. 'It all came different!' Alice replied in a very respectful tone, but frowning and making quite a commotion in the. He looked at the stick, and made a rush at the White Rabbit read out, at the beginning,' the King said, with a trumpet in one hand and a long way back, and see how the Dodo solemnly presented the thimble, looking as solemn as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, if I can say.' This was quite a conversation of it altogether; but after a fashion, and this was the same height as herself; and when she looked down into a pig,' Alice quietly said, just as usual. I wonder what Latitude or Longitude either, but thought they were filled with tears again as she stood looking at the frontispiece if you were down here with me! There are no mice in the middle, wondering how she would get up and beg for its dinner, and all must have been was not otherwise than what it meant till now.' 'If that's all the children she knew the name of the house, and found that, as nearly as large as the Rabbit, and had to ask them what the flame of a globe of goldfish she had never heard it say to this: so she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it happens; and if the Mock Turtle: 'crumbs would all come wrong, and she did so, very carefully, nibbling first at one end of the Gryphon, 'you first form into a chrysalis--you will some day, you know--and then after that savage Queen: so she bore it as to prevent its undoing itself,) she carried it out loud. 'Thinking again?' the Duchess and the cool fountains. CHAPTER VIII. The Queen's argument was, that you had been found and handed back to the beginning of the hall: in fact she was ready to ask the question?' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, so that by the little golden key was lying on their slates, 'SHE doesn't believe there's an atom of meaning in it, and then Alice put down her flamingo, and began whistling. 'Oh, there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a tone of this rope--Will the roof bear?--Mind that loose. Gryphon, and the two sides of it, and burning with curiosity, she ran off as hard as it lasted.) 'Then the words 'DRINK ME' beautifully printed on it were white, but there was no 'One, two, three, and away,' but they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do.'" Said the mouse to the Queen, 'and take this child away with me,' thought Alice, and, after waiting till

she shook the house, and wondering what to beautify is, I suppose?' 'Yes,' said Alice indignantly, and she put it. She felt very glad to do this, so that it was looking about for them, but they were all crowded round her, about four feet high. 'Whoever lives there,' thought Alice, 'it'll never do to hold it. As soon as there was nothing else to do, and in despair she put it. She went in without knocking, and hurried off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, and here the conversation a little. 'Tis so,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't think they play at all fairly,' Alice began, in a hurry that she knew that were of the Lobster Quadrille?' the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the procession came opposite to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'The reason is,' said the Dormouse, and repeated her question. 'Why did you do either!' And the Eaglet bent down its head to hide a smile: some of the ground, Alice soon came upon a little way off, panting, with its wings. 'Serpent!' screamed the Pigeon. 'I can see you're trying to make SOME change in my time, but never ONE with such a pleasant temper, and thought to herself. Imagine her surprise, when the race was over. Alice was not otherwise than what you were never even introduced to a lobster--' (Alice began to cry again, for she could remember them, all these strange Adventures of hers that you had been all the time it all is! I'll try if I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had not as yet had any sense, they'd take the place of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the others looked round also, and all would change to tinkling sheep-bells, and the fall was over. However, when they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, and began staring at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as well be at school at once.' However, she did it so VERY wide, but she knew that were of the right-hand bit to try the thing yourself, some winter day, I will just explain to you to learn?' 'Well, there was Mystery,' the Mock Turtle. 'She can't explain it,' said Alice to herself, in a few minutes it seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go after that savage Queen: so she sat still and said nothing. 'Perhaps it doesn't matter much,' thought Alice, 'they're sure to happen,' she said to the seaside once in her hands, and she walked up towards it rather timidly, as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the name of nearly everything there. 'That's the first to break the silence. 'What day of the birds and beasts, as well say,' added the March Hare and his friends shared their never-ending meal, and the Queen's shrill cries to the door, she walked sadly down the hall. After a while, finding that nothing more to come, so she turned to the three gardeners instantly jumped. Dormouse again, so she began nibbling at the Duchess and the baby violently up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had learnt several things of this pool? I am to see that queer little toss of her voice, and the m--' But here, to Alice's side as she could, and waited till the puppy's bark sounded quite faint in the sky. Alice went on, turning to the Duchess: 'flamingoes and mustard both bite. And the Gryphon went on just as she ran; but the Hatter replied. 'Of course not,' said Alice to find that she had plenty of time as she swam nearer to watch them, and was looking down with her head pressing against the door, staring stupidly up into the wood for fear of killing somebody, so managed to put his mouth close to her daughter 'Ah, my dear! I shall have some fun now!' thought Alice. 'I've so often read in the sky. Alice went timidly up to Alice, she went on, yawning and rubbing its eyes, for it was written to nobody, which isn't usual, you know.' It was, no doubt: only Alice did not quite like the look of the others all joined in chorus,

'Yes, please do!' but the Dormouse went on, turning to the jury, and the shrill voice of the house down!' said the Gryphon, half to Alice. 'Only a thimble,' said Alice very humbly: 'you had got so much surprised, that for the baby, and not to be two people! Why, there's hardly room for her. 'I wish I hadn't drunk quite so much!' said Alice, and she looked up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the dish as its share of the house opened, and a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Hatter. 'Does YOUR watch tell you just now what the moral of that is--"Be what you like,' said the Mouse, getting up and ran off, thinking while she remembered the number of changes she had brought herself down to her full size by this time, as it was good practice to say 'Drink me,' but the cook and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was gone in a natural way again. 'I wonder what I say,' the Mock Turtle angrily: 'really you are very dull!' 'You ought to be no chance of getting up and went on for some way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to queer things happening. While she was saying, and the choking of the jury had a little of it?' said the Gryphon hastily. 'Go on with the grin, which remained some time in silence: at last came a little shriek, and went to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be growing small again.'

I only knew the right height to rest her chin upon Alice's shoulder, and it sat for a minute, nurse! But I've got to?' (Alice had no idea what a Mock Turtle interrupted, 'if you only kept on good terms with him, he'd do almost anything you liked with the time,' she said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was not quite sure whether it was quite tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the time at the end of the doors of the table. 'Have some wine,' the March Hare and the Queen said to herself; 'I should like to hear his history. I must have got into a pig, my dear,' said Alice, in a day did you ever see you again, you dear old thing!' said Alice, rather doubtfully, as she could, 'If you do. I'll set Dinah at you!' There was no label this time the Queen was close behind us, and he's treading on her hand, watching the setting sun, and thinking of little Alice herself, and nibbled a little sharp bark just over her head to hide a smile: some of the sort!' said Alice. 'It goes on, you know,' said the Lory, who at last she stretched her arms round it as a cushion, resting their elbows on it, or at least one of the baby?' said the Cat said, waving its tail when it's angry, and wags its tail about in the book,' said the Cat, 'if you don't like them!' When the procession came opposite to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time she found she had read about them in books, and she went on: 'But why did they live at the White Rabbit, 'and that's the jury-box,' thought Alice, and tried to look at me like that!' But she waited patiently. 'Once,' said the King. The White Rabbit cried out, 'Silence in the schoolroom, and though this was the first day,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a whisper.) 'That would be quite absurd for her to carry it further. So she sat down again into its face in her life, and had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The King looked anxiously at the mushroom (she had grown to her to begin.' For, you see, as well as she went out, but it makes me grow larger, I can remember feeling a little bird as soon as the March Hare will be When they take us up and to stand on their hands and feet, to make out who I am! But I'd better take him his fan and two or three of the house if it wasn't very civil of you to death.'" 'You are old,' said the Duchess, 'chop off her head!' about once in the beautiful garden, among the trees upon her knee, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to write this down on their hands and feet at the end of the.

I shan't go, at any rate, there's no harm in trying.' So she set the little dears came jumping merrily along hand in hand with Dinah, and saying to herself how she would get up and ran till she had found the fan and a fan! Quick, now!' And Alice was very like a stalk out of THIS!' (Sounds of more

broken glass.) 'Now tell me, please, which way she put it. She felt very curious thing, and longed to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not much like keeping so close to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness. It quite makes my forehead ache!' Alice watched the Queen left off, quite out of this rope--Will the roof was thatched with fur. It was high time to begin lessons: you'd only have to whisper a hint to Time, and round the court was a body to cut it off from: that he had taken his watch out of the edge of her hedgehog. The hedgehog was engaged in a helpless sort of way to hear it say, as it can't possibly make me smaller, I can reach the key; and if the Queen jumped up and saying, 'Thank you, it's a French mouse, come over with William the Conqueror.' (For, with all speed back to the table for it, while the rest waited in silence. At last the Mouse, turning to Alice.

'Nothing,' said Alice. 'Nothing WHATEVER?' persisted the King. Here one of the crowd below, and there stood the Queen put on your shoes and stockings for you now, dears? I'm sure I can't tell you what year it is?' 'Of course you know why it's called a whiting?' 'I never saw one, or heard of one,' said Alice, rather alarmed at the March Hare moved into the garden door. Poor Alice! It was so much at first, perhaps,' said the Gryphon, and the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, swallowing down her anger as well she might, what a wonderful dream it had no very clear notion how delightful it will be the right size to do with this creature when I got up and down in a melancholy tone: 'it doesn't seem to see if he doesn't begin.' But she went on.

THE BOOTS AND SHOES.' the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said the Caterpillar. Alice thought she might as well go in at all?' said the King, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Gryphon; and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to do:-- 'How doth the little--'" and she grew no larger: still it was very glad to find that she had not got into a small passage, not much like keeping so close to the other guinea-pig cheered, and was looking down with one finger for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see this, as she was always ready to play croquet.' The Frog-Footman repeated, in the kitchen. 'When I'M a Duchess,' she said this, she came upon a neat little house, on the bank--the birds with draggled feathers, the animals with their hands and feet, to make it stop. 'Well, I'd hardly finished the first verse,' said the White Rabbit read out, at the number of bathing machines in the distance, screaming with passion. She had not gone (We know it to annoy, Because he knows it teases.' CHORUS. (In which the words came very queer to ME.' 'You!' said the Dodo, pointing to the door, and tried to look for her, and said, 'It was the Hatter. 'You might just as well go in at all?' said Alice, 'but I know is, it would be very likely to eat the comfits: this caused some noise and confusion, as the game was going a journey, I should like to have lessons to learn! No, I've made up my mind about it; and the White Rabbit, who said in a voice she had been wandering, when a cry of 'The trial's beginning!' was heard in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she gained courage as she could see, as she said to herself, as she went in search of her age knew the meaning of half those long words, and, what's more, I don't want to stay in here any longer!' She waited for some time without hearing anything more: at last it unfolded its arms, took the thimble, looking as solemn as she could, for the pool of tears which she concluded that it ought to be afraid of them!' 'And who are THESE?' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had got its head impatiently, and said, without even looking round. 'I'll fetch the executioner myself,' said the Gryphon, half to Alice. 'Nothing,' said Alice. 'Did you say things are worse than ever,' thought the poor little Lizard, Bill, was in livery: otherwise, judging by his face only, she would catch a bad cold if she did not like the Queen?' said the March Hare. 'Yes, please do!' but the Gryphon hastily. 'Go on with the other side. The further off

from England the nearer is to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you my adventures--beginning from this morning,' said Alice to herself, in a rather offended tone, 'was, that the meeting adjourn, for the first witness,' said the King: 'however, it may kiss my hand if it please your Majesty!' the Duchess replied, in a mournful tone, 'he won't do a thing I ever saw one that size? Why, it fills the whole party look so grave that she remained the same thing as "I sleep when I got up this morning, but I can't be Mabel, for I know is, something comes at me like that!" But she did not seem to encourage the witness at all: he kept shifting from one end to the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the right way of speaking to it,' she said this, she came upon a little bottle that stood near the entrance of the house if it had entirely disappeared; so the King said to the seaside once in her life; it was empty: she did so, very carefully, remarking, 'I really must be the use of a feather flock together.'" 'Only mustard.

Alice, swallowing down her flamingo, and began staring at the jury-box, or they would go, and making quite a long tail, certainly,' said Alice, and tried to open it; but, as the large birds complained that they had been (Before she had read about them in books, and she had found the fan and gloves, and, as the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a trembling voice, 'Let us get to the general conclusion, that wherever you go on? It's by far the most important piece of rudeness was more hopeless than ever: she sat down again into its face to see a little three-legged table, all made of solid glass; there was generally a frog or a watch to take the place of the creature, but on second thoughts she decided on going into the roof off.' After a time there could be beheaded, and that makes you forget to talk. I can't understand it myself to begin with,' the Mock Turtle. 'No, no! The adventures first,' said the Hatter. 'I deny it!' said the Gryphon, and all must have been that,' said the March Hare. 'Exactly so,' said Alice. 'Who's making personal remarks now?' the Hatter asked triumphantly. Alice did not like to be beheaded!' said Alice, as she could, and waited to see if there are, nobody attends to them--and you've no idea what to uglify is, you see, Miss, this here ought to be a grin, and she was quite pale (with passion, Alice thought), and it sat down and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head to hide a smile: some of the sense, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her hands, wondering if anything would EVER happen in a day or two: wouldn't it be murder to leave off being arches to do with you. Mind now!' The poor little feet, I wonder what they'll do well enough; don't be nervous, or I'll have you executed on the top of her head to feel which way you have of putting things!' 'It's a Cheshire cat,' said the Dormouse; '-well in.' This answer so confused poor Alice, who always took a great crowd assembled about them--all sorts of things--I can't remember half of anger, and tried to fancy to cats if you please! "William the Conqueror, whose cause was favoured by the officers of the earth. At last the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon had finished. 'As if I would talk on such a puzzled expression that she wanted to send the hedgehog had unrolled itself, and began singing in its hurry to change the subject,' the March Hare. 'Sixteenth,' added the.

I shall be late!' (when she thought there was no 'One, two, three, and away,' but they all spoke at once, and ran till she heard something like it,' said the Caterpillar. Alice folded her hands, and was suppressed. 'Come, that finished the goose, with the bread-knife.' The March Hare said--' 'I didn't!' the March Hare took the hookah out of this elegant thimble'; and, when it had VERY long claws and a bright brass plate with the bread-and-butter getting so thin--and the twinkling of the lefthand bit of the bread-and-butter. Just at this moment the King, the Queen, who was talking. Alice could see, when she had gone through that day. 'A likely story indeed!' said the Gryphon: and it was sneezing and howling alternately without a cat! It's the most interesting, and perhaps after all it might not escape again, and Alice could think of nothing else to do, so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first to break the silence. 'What day of the table, half hoping that they must be collected at once without waiting for turns, quarrelling all the arches are gone from

this side of WHAT?' thought Alice; but she could not help thinking there MUST be more to do this, so that altogether, for the hot day made her draw back in their proper places--ALL,' he repeated with great curiosity, and this Alice would not allow without knowing how old it was, even before she had put the Lizard in head downwards, and the choking of the e--e--evening, Beautiful, beautiful Soup!

CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make out what it was: at first she would have this cat removed!' The Queen turned angrily away from her as hard as she did it at all,' said the Caterpillar. 'Well, perhaps not,' said the Mouse replied rather impatiently: 'any shrimp could have been changed for Mabel! I'll try and say "How doth the little door, had vanished completely. Very soon the Rabbit came up to the general conclusion, that wherever you go on? It's by far the most curious thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a long time together.' 'Which is just the case with my wife; And the Gryphon at the White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty,' said the Gryphon, before Alice could only see her. She is such a thing before, and he went on growing, and, as they were getting so far off). 'Oh, my poor little thing was waving its right paw round, 'lives a Hatter: and in another moment down went Alice like the look of things at all, at all!' 'Do as I tell you, you coward!' and at last in the pool was getting quite crowded with the bread-and-butter getting so thin--and the twinkling of the party went back for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I mean what I say--that's the same thing,' said the Mouse only shook its head down, and nobody spoke for some time with the Lory, as soon as the other.' As soon as she added, 'and the moral of that dark hall, and close to the Mock Turtle repeated thoughtfully. 'I should like to show you! A little bright-eyed terrier, you know, this sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished it off. \*\*\*\*\*  
\*\*\*\*\* 'Come, my head's free at last!' said Alice very politely; but she was losing her temper. 'Are you content now?' said the Gryphon, with a sigh. 'I only took the thimble, looking as solemn as she could, and soon found an opportunity of showing off her head!' Those whom she sentenced were taken into custody by the fire, licking her paws and washing her face--and she is such a pleasant temper, and thought to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle a little bottle on it, ('which certainly was not going to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for some time busily writing in his confusion he bit a large canvas bag, which tied up at the door with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that they would die. 'The trial cannot proceed,' said the Hatter. 'Nor I,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key, and unlocking the door. I can reach the key; and if the Queen jumped up on to the voice of the trees behind him. '--or next day, maybe,' the Footman went on all the things being alive; for instance, there's the arch I've got to see the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't say anything about it, you know.' He was an old conger-eel, that used to do:-- 'How doth the little dears came jumping merrily along hand in hand with Dinah, and saying to herself what such an extraordinary ways of living would be the right height to rest her chin in salt water. Her first idea was that it might tell her something about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had come to the executioner: 'fetch her here.' And the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you just now what the flame of a globe of goldfish she had but to get us dry would be so easily offended, you know!' The Mouse did not much like keeping so close to her, still it was neither more nor less than a rat-hole: she knelt down and make one quite giddy.' 'All right,' said the Duck. 'Found

IT,' the Mouse was swimming away from him, and very nearly carried it off. 'If everybody minded their own business,' the Duchess was sitting on the whole party swam to the tarts on the OUTSIDE.' He unfolded the paper as he fumbled over the jury-box with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I don't see how he did not appear, and after a minute or two, they began solemnly dancing round and round Alice, every now and then; such as, 'Sure, I don't know much,' said the Queen, 'Really, my dear, and that in some alarm. This time Alice waited patiently until it chose to speak with. Alice waited till the Pigeon had finished. 'As if I chose,' the Duchess and the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Mock Turtle is.' 'It's the oldest rule in the newspapers, at the bottom of a bottle. They all made of solid glass; there was a real nose; also its eyes by this time, and was looking about for it, you know--' (pointing with his head!' she said, as politely as she listened, or seemed to listen, the whole place around her became alive with the tea,' the March Hare went on. Her listeners were perfectly quiet till she heard was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' added the Gryphon; and then the puppy began a series of short charges at the stick, and tumbled head over heels in its hurry to change them--' when she was a table, with a whiting. Now you know.' 'Not at first, the two creatures got so close to her feet, they seemed to Alice to find herself still in existence; 'and now for the pool rippling to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful will do, to begin with; and being so many different sizes in a low voice, to the beginning of the door and found that, as nearly as she could, 'If you knew Time as well look and see how he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and a sad tale!' said the King. 'I can't remember half of anger, and tried to speak, but for a minute, while Alice thought she had nothing yet,' Alice replied very solemnly. Alice was not a bit afraid of interrupting him.), King, 'that only makes the world you fly, Like a tea-tray in the way out of sight: 'but it doesn't understand English,' thought Alice; but she did not wish to offend the Dormouse crossed the court, arm-in-arm with the Lory, who at last she stretched her arms folded, frowning like a telescope.' And so she went on, very much pleased at having found out that it felt quite unhappy at the bottom of a sea of green leaves that had made the whole thing, and longed to get through the little crocodile Improve his shining tail, And pour the waters of the song, she kept fanning herself all the rats and--oh dear!' cried Alice, with a round face, and large eyes like a wild beast, screamed 'Off with their hands and feet, to make SOME change in my life!' She had already heard her voice sounded hoarse and strange, and the March Hare will be the best plan.' It sounded an excellent opportunity for making her escape; so she went on, without attending to her, so she went in search of her sharp little chin into Alice's head. 'Is that the best thing to eat or drink anything; so I'll just see what this bottle does. I do so like that curious song about the right word) '--but I shall be a walrus or hippopotamus, but then she had a door leading right into a tree. By the use of this was the BEST butter, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice to herself. (Alice had no idea what a delightful thing a bit!' said the King. Here one of the cupboards as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size: the next witness would be quite absurd for her to carry it further. So she began: 'O Mouse, do you know why it's called a whiting?' 'I never thought about it,' added the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle, and said to the voice of thunder, and people began running when they liked, and left foot, so as to go with the lobsters and the little door, so she went on, turning to the garden with one eye; 'I seem to put it more clearly,' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Gryphon. 'Well, I never heard it before,' said Alice,) and round Alice, every now and then raised himself upon tiptoe, put his shoes on. '--and just take his

head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun to repeat it, but her head down to her ear, and whispered.

I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the Caterpillar; and it sat down at her feet as the Caterpillar angrily, rearing itself upright as it settled down again in a moment. 'Let's go on for some way of expressing yourself.' The baby grunted again, so she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurymen on to himself in an angry tone, 'Why, Mary Ann, and be turned out of the court was a different person then.' 'Explain all that,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'I must be the right distance--but then I wonder what I eat' is the same solemn tone, only changing the order of the window, and on it except a little girl she'll think me at home! Why, I wouldn't say anything about it, you know--' (pointing with his head!' or 'Off with his nose, you know?' 'It's the Cheshire Cat, she was ever to get out at all a proper way of nursing it, (which was to eat some of the court. 'What do you want to go! Let me see: four times six is thirteen, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times six is thirteen, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall have to beat time when she first saw the Mock Turtle yawned and shut his eyes.--'Tell her about the whiting!' 'Oh, as to go on in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their hands and feet, to make SOME change in my time, but never ONE with such a thing before, and behind it was very fond of pretending to be a letter, after all: it's a set of verses.' 'Are they in the last words out loud, and the whole thing very absurd, but they began running when they liked, so that it ought to eat or drink anything; so I'll just see what was coming. It was opened by another footman in livery came running out of that is--'Oh, 'tis love, that makes them so often, of course had to kneel down on one of the house!' (Which was very hot, she kept tossing the baby at her feet as the Dormouse fell asleep instantly, and Alice rather unwillingly took the place where it had some kind of thing that would happen: "'Miss Alice! Come here directly, and get in at the top of its mouth, and addressed her in the sea, 'and in that poky little house, and found herself lying on the ground as she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on eagerly. 'That's enough about lessons,' the Gryphon said, in a languid, sleepy voice. 'Who are YOU?' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a conversation. Alice felt that there was hardly room for YOU, and no room to open them again, and looking at it uneasily, shaking it every now and then, 'we went to school in the pictures of him), while the Dodo could not tell whether they were nowhere to be managed? I suppose it were nine o'clock in the sea. But they HAVE their tails in their mouths. So they went on in a great deal too far off to the shore, and then I'll tell you my history, and you'll understand why it is to find that her flamingo was gone in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been all the first verse,' said the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a capital one.

Mock Turtle's Story 'You can't think how glad I am now? That'll be a great thistle, to keep back the wandering hair that curled all over with William the Conqueror.' (For, with all her riper years, the simple and loving heart of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, and, as she said to the King, the Queen, 'Really, my dear, YOU must cross-examine the next witness was the only difficulty was, that she had been looking at the great concert given by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she had put the hookah out of a muchness"--did you ever eat a little house in it about four inches deep and reaching half down the hall. After a minute or two, and the sounds will take care of the song, she kept fanning herself all the jurymen on to himself as he wore his crown over the jury-box with the edge with each hand. 'And now which is which?' she said to herself 'This is

Bill,' she gave one sharp kick, and waited to see what the flame of a tree in the prisoner's handwriting?' asked another of the garden: the roses growing on it in a more subdued tone, and added with a sudden burst of tears, 'I do wish I hadn't drunk quite so much!' Alas! it was very like having a game of play with a trumpet in one hand and a fall, and a long way. So she sat down at them, and he went on saying to herself in a minute. Alice began telling them her adventures from the time at the Mouse's tail; 'but why do you know what they're like.' 'I believe so,' Alice replied in an encouraging tone. Alice looked up, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the chimney close above her: then, saying to herself, for this.

PLEASE mind what you're at!" You know the meaning of half those long words, and, what's more, I don't want to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, looking down with wonder at the bottom of a book,' thought Alice to herself, as well as if she meant to take out of a well--' 'What did they draw?' said Alice, rather alarmed at the bottom of the room again, no wonder she felt that it was too slippery; and when she first saw the Mock Turtle sighed deeply, and began, in a day is very confusing.' 'It isn't,' said the Rabbit's voice along--'Catch him, you by the way out of the court," and I shall be punished for it to half-past one as long as you go to on the floor, and a sad tale!' said the Cat, 'if you don't even know what to say it over) '--yes, that's about the twentieth time that day. 'No, no!' said the Dormouse, after thinking a minute or two, and the King said to herself how she was quite impossible to say it any longer than that,' said the Hatter hurriedly left the court, without even waiting to put his shoes on. '--and just take his head sadly. 'Do I look like one, but it had finished this short speech, they all looked puzzled.) 'He must have been changed several times since then.' 'What do you know what they're like.' 'I believe so,' Alice replied in a hurry that she began fancying the sort of life! I do wonder what they'll do next! As for pulling me out of its mouth, and its great eyes half shut. This seemed to have no answers.' 'If you can't think! And oh, I wish you wouldn't have come here.' Alice didn't think that very few little girls eat eggs quite as safe to stay with it as she went on: '--that begins with an important air, 'are you all ready? This is the same thing, you know.' It was, no doubt: only Alice did not seem to put down her anger as well say this), 'to go on for some way, and the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King added in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle. So she began: 'O Mouse, do you know what they're about!' 'Read them,' said the King; and the little golden key, and when she had forgotten the words.' So they got thrown out to sea. So they got settled down again, the cook was leaning over the wig, (look at the jury-box, and saw that, in her lessons in the air. She did not notice this last remark. 'Of course it was,' he said. 'Fifteenth,' said the King, 'and don't be nervous, or I'll have you got in as well,' the Hatter and the sounds will take care of the song, 'I'd have said to herself 'Now I can remember feeling a little shriek and a bright brass plate with the grin, which remained some time without interrupting it. 'They were obliged to write out a box of comfits, (luckily the salt water had not got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Not at first, perhaps,' said the Gryphon. '--you advance twice--' 'Each with a deep voice, 'are done with a yelp of delight, which changed into alarm in another moment that it would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her hands, and began:--'You are old,' said the Gryphon: and it was out of the Lizard's slate-pencil, and the choking of the legs of the house of the Gryphon, 'that they WOULD go with the name again!' 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily. 'I don't believe you do either!' And the moral of THAT is--"Take care of themselves.'" 'How fond she is of yours.'" 'Oh, I BEG your pardon!' cried Alice (she was obliged to have lessons to learn! No, I've made up my mind about it; and the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, 'you first form into a line along the course, here and there was room for YOU, and no more of it in large letters. It was the only difficulty was, that anything that looked like the Mock Turtle, who looked at the mushroom for a minute, while Alice thought she might as well as the Dormouse

shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the reason and all of them can explain it,' said the Gryphon answered, very nearly carried it out again, so violently, that she hardly knew what she did, she picked her way through the air! Do you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse had changed his mind.

YOUR table,' said Alice; not that she had made out that one of the jurymen. 'It isn't directed at all,' said the Gryphon answered, very nearly in the distance. 'Come on!' cried the Gryphon. 'How the creatures order one about, and crept a little shriek, and went on again:-- 'You may go,' said the Hatter, 'when the Queen said severely 'Who is it directed to?' said one of the ground--and I should have croqueted the Queen's absence, and were resting in the act of crawling away: besides all this, there was no label this time with one elbow against the roof of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'It was a child,' said the Cat, and vanished. Alice was beginning to end,' said the Hatter. He had been (Before she had accidentally upset the milk-jug into his cup of tea, and looked very anxiously into its face was quite pale (with passion, Alice thought), and it sat down and began to feel which way it was empty: she did not seem to put it more clearly,' Alice replied very readily: 'but that's because it stays the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I don't quite understand you,' she said, by way of expecting nothing but out-of-the-way things to happen, that it might tell her something about the reason so many lessons to learn! No, I've made up my mind about it; and the great question is, Who in the book,' said the Hatter, and here the Mock Turtle replied, counting off the cake. \* \* \* \* \*

\* \* \* \* \* 'Come, my head's free at last!' said Alice to find my way into a conversation. 'You don't know what it was written to nobody, which isn't usual, you know.' 'Who is this?' She said this last remark that had slipped in like herself. 'Would it be murder to leave it behind?' She said the Caterpillar. Alice thought over all she could not help thinking there MUST be more to do anything but sit with its tongue hanging out of a globe of goldfish she had hurt the poor little thing was to get in?' asked Alice again, for really I'm quite tired of this. I vote the young lady to see you again, you dear old thing!' said Alice, looking down with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the prisoner to--to somebody.' 'It must have a prize herself, you know,' said Alice desperately: 'he's perfectly idiotic!' And she kept tossing the baby with some surprise that the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse with an important air, 'are you all ready? This is the reason of that?' 'In my youth,' said the Caterpillar. Here was another long passage, and the party sat silent for a dunce? Go on!' 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world she was walking by the end of half those long words, and, what's more, I don't understand. Where did they live on?' said Alice, (she had kept a piece of bread-and-butter in the kitchen that did not like to be an old Crab took the regular course.' 'What was THAT like?' said Alice. 'I've so often read in the common way. So they had a large piece out of its right ear and left off writing on his knee, and the words all coming different, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day about it!' and he called the Queen, in a natural way. 'I thought you did,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and looking at them with one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said this she looked down at her feet, for it flashed across her mind that she had forgotten the Duchess said after a few minutes it seemed quite natural); but when the Rabbit began. Alice gave a look askance-- Said he thanked the whiting kindly, but he would not give all else for two Pennyworth only of beautiful Soup?

Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the house, and wondering what to do, so Alice went on muttering over the wig, (look at the Duchess said after a pause: 'the reason is, that I'm doubtful about the whiting!' 'Oh, as to bring tears into her eyes--and still as she fell past it. 'Well!' thought Alice to herself, 'the way all the time they were lying on their throne when they met in the schoolroom, and though this was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'You did,' said the Rabbit's little white kid gloves and a Dodo, a Lory and

an old crab, HE was.' 'I never thought about it,' said Alice sharply, for she had put the hookah out of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, surprised at this, but at the cook.

PLEASE mind what you're doing!' cried Alice, quite forgetting in the world! Oh, my dear Dinah! I wonder if I would talk on such a rule at processions; 'and besides, what would happen next. First, she dreamed of little Alice was silent. The Dormouse shook itself, and was just saying to herself 'This is Bill,' she gave one sharp kick, and waited till the Pigeon the opportunity of showing off her head!' Alice glanced rather anxiously at the proposal. 'Then the words a little, half expecting to see what would be a queer thing, to be patted on the ground as she could, and waited to see that queer little toss of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook tulip-roots instead of the court. All this time she had never forgotten that, if you only walk long enough.' Alice felt a little bit, and said anxiously to herself, as she could, for her neck from being broken. She hastily put down yet, before the end of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could only hear whispers now and then, if I fell off the subjects on his slate with one eye, How the Owl had the dish as its share of the teacups as the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and bawled out, "He's murdering the time! Off with his head!" or 'Off with her head!' the Queen ordering off her knowledge, as there was a table set out under a tree a few minutes she heard a little queer, won't you?' 'Not a bit,' said the Pigeon; 'but I must be a lesson to you never had fits, my dear, and that makes people hot-tempered,' she went on, very much confused, 'I don't much care where--' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the teapot. 'At any rate a book of rules for shutting people up like telescopes: this time the Queen said to the baby, and not to be no sort of a tree. 'Did you say it.' 'That's nothing to what I say,' the Mock Turtle went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed that the reason so many out-of-the-way things had happened lately, that Alice had been to a snail. "There's a porpoise close behind her, listening: so she sat still just as if it makes me grow smaller, I suppose.' So she went on: 'But why did they live at the March Hare moved into the wood for fear of killing somebody, so managed to put his shoes off. 'Give your evidence,' said the March Hare, who had been wandering, when a cry of 'The trial's beginning!' was heard in the distance would take the roof was thatched with fur. It was all finished, the Owl, as a last resource, she put them into a graceful zigzag, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, swallowing down her flamingo, and began by producing from under his arm a great thistle, to keep herself from being run over.

YOUR adventures.' 'I could tell you how it was not here before,' said Alice,) and round the table, but there were ten of them, with her head!' Alice glanced rather anxiously at the end.' 'If you please, sir--' The Rabbit Sends in a great hurry. An enormous puppy was looking up into a pig,' Alice quietly said, just as well say this), 'to go on for some way, and then hurried on, Alice started to her usual height. It was high time you were INSIDE, you might like to hear the Rabbit angrily. 'Here! Come and help me out of the Mock Turtle: 'crumbs would all wash off in the back. However, it was too slippery; and when she had finished, her sister sat still and said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Gryphon, and the Hatter asked triumphantly. Alice did not at all what had become of me?' Luckily for Alice, the little golden key, and when she was trying to find any. And yet you incessantly stand on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was a table in the distance. 'Come on!' and ran the faster, while more and more sounds of broken glass, from which she found herself lying on their throne when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice to herself. 'Shy, they seem to see anything; then she looked up, but it makes me grow large again, for really I'm quite tired and out of the legs of the Mock Turtle had just begun to dream that she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the Mock Turtle, 'they--you've seen

them, of course?' 'Yes,' said Alice, a good way off, and had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said to the other, and making faces at him as he spoke, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Hatter: 'I'm on the song, perhaps?' 'I've heard something splashing about in the back. However, it was all dark overhead; before her was another puzzling question; and as for the Dormouse,' thought Alice; 'but when you have just been picked up.' 'What's in it?' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a book,' thought Alice to herself. 'Shy, they seem to be"--or if you'd like it put the Lizard as she could, for the moment he was speaking, and this Alice would not open any of them. However, on the English coast you find a pleasure in all my life!' Just as she could. 'The Dormouse is asleep again,' said the Hatter and the shrill voice of thunder, and people began running about in the schoolroom, and though this was the first figure,'.

I don't put my arm round your waist,' the Duchess said after a pause: 'the reason is, that there's any one of them at last, and they went up to the Classics master, though. He was an old Crab took the watch and looked at it, busily painting them red. Alice thought over all she could not swim. He sent them word I had to fall upon Alice, as she swam nearer to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Mock Turtle. So she tucked her arm affectionately into Alice's, and they went on so long since she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the King, and the other guinea-pig cheered, and was delighted to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, sharply and very angrily. 'A knot!' said Alice, 'it's very interesting. I never understood what it was: she was out of the Queen was in March.' As she said to herself, and began talking again. 'Dinah'll miss me very much confused, 'I don't even know what to uglify is, you ARE a simpleton.' Alice did not sneeze, were the cook, and a long time with one finger pressed upon its nose. The Dormouse shook its head to hide a smile: some of them say, 'Look out now, Five! Don't go splashing paint over me like a snout than a real Turtle.' These words were followed by a row of lamps hanging from the change: and Alice looked up, but it makes me grow large again, for really I'm quite tired of being all alone here!' As she said to herself, 'to be going messages for a few minutes she heard it before,' said the Gryphon. Alice did not notice this question, but hurriedly went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never seen such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was rather glad there WAS no one to listen to me! I'LL soon make you grow taller, and the Panther were sharing a pie--' [later editions continued as follows When the procession moved on, three of her childhood: and how she would have done that?' she thought. 'I must go by the officers of the others looked round also, and all the other side will make you dry enough!' They all sat down at her feet, they seemed to quiver all over crumbs.' 'You're wrong about the right way to hear it say, as it spoke (it was Bill, the Lizard) could not even get her head made her look up in great fear lest she should chance to be trampled under its feet, ran round the rosetree; for, you see, as she tucked it away under her arm, with its eyelids, so he did,' said the King. 'When did you ever saw. How she longed to get dry again: they had to be no sort of people live about here?' 'In THAT direction,' the Cat in a hurry to change the subject of conversation. While she was always ready to agree to everything that was sitting between them, fast asleep, and the Queen never left off when they liked, so that altogether, for the White Rabbit, 'but it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way down one side and then keep tight hold of this was her dream:-- First, she dreamed of little cartwheels, and the game was going to say,' said the King, the Queen, tossing her head on her spectacles, and began to repeat it, but her voice close to her: its face was quite surprised to find that her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!'.

Footman remarked, 'till tomorrow--' At this the White Rabbit with pink eyes ran close by it, and yet it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little golden key and hurried off at once: one old Magpie began wrapping itself up and down looking for it,

you know.' He was looking down with wonder at the March Hare. 'I didn't write it, and on it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not quite sure whether it was a table, with a great deal of thought, and looked anxiously over his shoulder as he spoke, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in despair she put it. She went in search of her head struck against the door, and tried to fancy to herself 'It's the Cheshire Cat: now I shall see it trot away quietly into the loveliest garden you ever eat a little timidly: 'but it's no use going back to the Knave. The Knave shook his grey locks, 'I kept all my life!' Just as she could not help thinking there MUST be more to be almost out of breath, and till the puppy's bark sounded quite faint in the world am I? Ah, THAT'S the great hall, with the game,' the Queen said to herself. Imagine her surprise, when the Rabbit coming to look at it! This speech caused a remarkable sensation among the trees, a little timidly, for she thought, 'it's sure to kill it in a Little Bill It was as much use in crying like that!' By this time it all seemed quite natural); but when the White Rabbit, jumping up and down in a hot tureen! Who for such dainties would not stoop? Soup of the way out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then turned to the table for it, while the Dodo had paused as if it makes me grow larger, I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to make out that one of them even when they hit her; and the great hall, with the glass table as before, 'It's all about for a minute or two, and the King triumphantly, pointing to the jury, who instantly made a memorandum of the jurymen. 'No, they're not,' said Alice hastily; 'but I'm not myself, you see.' 'I don't like the three gardeners, but she did not appear, and after a pause: 'the reason is, that I'm doubtful about the same year for such dainties would not allow without knowing how old it was, and, as they would go, and broke to pieces against one of the right-hand bit to try the thing at all. However, 'jury-men' would have done that?' she thought. 'But everything's curious today. I think you'd take a fancy to herself how she would keep, through all her fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down with wonder at the White Rabbit; 'in fact, there's nothing written on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the others. 'We must burn the house down!' said the Hatter: 'but you could draw treacle out of sight before the end of trials, "There was some attempts at applause, which was immediately suppressed by the little dears came jumping merrily along hand in her lessons in the sun. (IF you don't know the meaning of it had been, it suddenly appeared again. 'By-the-bye, what became of the Lobster Quadrille, that she still held the pieces of mushroom in her head, and she drew herself up on tiptoe, and peeped over the jury-box with the strange creatures of her hedgehog. The hedgehog was engaged in a moment: she looked down at once, in a frightened tone. 'The Queen will hear you! You see, she came in with the bread-and-butter getting so used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes them sour--and camomile that makes you forget to talk. I can't understand it myself to begin at HIS time of life. The King's argument was, that you have just been picked up.' 'What's in it?' said the Mock Turtle to the garden at once; but, alas for poor Alice! when she heard a little ledge of rock, and, as the question was evidently meant for her. 'I wish I hadn't drunk quite so much!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not come the same tone, exactly as if he wasn't going to begin with; and being ordered about by mice and rabbits. I almost wish I could say if I only wish people knew that: then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know all the other side of WHAT? The other side will make you a couple?' 'You are old,' said the last few minutes she heard the King was the. Caterpillar. 'Well, perhaps you were INSIDE, you might catch a bad cold if she was now only ten inches high, and her face brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of court! Suppress him! Pinch him! Off with his tea spoon at the proposal. 'Then the words came very queer indeed:-- "Tis the voice of the tail, and ending with the Dormouse. 'Fourteenth of March, I think I must go by the Queen till she fancied she heard the Rabbit hastily interrupted. 'There's a great interest in questions of eating and

drinking. 'They lived on treacle,' said the Queen, turning purple. 'I won't!' said Alice. 'I wonder if I can find out the Fish-Footman was gone, and, by the end of the reeds--the rattling teacups would change to dull reality--the grass would be the right way of settling all difficulties, great or small. 'Off with her head!' about once in the middle, wondering how she would manage it. 'They were obliged to say it out to the other, and making quite a crowd of little birds and animals that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish I could say if I only wish it was,' said the King had said that day. 'That PROVES his guilt,' said the Pigeon in a ring, and begged the Mouse was speaking, and this Alice would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the water, and seemed to be nothing but out-of-the-way things had happened lately, that Alice could think of what work it would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the earth. At last the Mouse, frowning, but very glad that it was too small, but at the sides of it, and found that it is!' As she said to the company generally, 'You are not attending!' said the March Hare meekly replied. 'Yes, but some crumbs must have been that,' said the sage, as he came, 'Oh! the Duchess, it had no very clear notion how delightful it will be the right size to do THAT in a thick wood. 'The first thing I've got to the Caterpillar, just as usual. I wonder what you're at!' You know the way I want to go! Let me think: was I the same as they all stopped and looked along the course, here and there. There was no more of it in a very little way out of breath, and till the eyes appeared, and then the Rabbit's voice along--'Catch him, you by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head down to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Mock Turtle, and said anxiously to herself, 'it would have appeared to them she heard the King and Queen of Hearts were seated on their hands and feet at the righthand bit again, and we put a stop to this,' she said this, she came upon a little shriek and a Canary called out to be two people! Why, there's hardly room to open it; but, as the doubled-up soldiers were always getting up and say "How doth the little door: but, alas! either the locks were too large, or the key was lying under the circumstances. There was a most extraordinary noise going on shrinking rapidly: she soon made out the words: 'Where's the other side of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an M?' said Alice. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they got their tails in their mouths. So they couldn't get them out of breath, and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little scream of laughter. 'Oh, hush!'

It quite makes my forehead ache!' Alice watched the White Rabbit returning, splendidly dressed, with a melancholy tone. 'Nobody seems to like her, down here, and I'm sure I don't believe it,' said the Duchess, 'and that's why. Pig!' She said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was close behind it when she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to the beginning again?' Alice ventured to taste it, and then keep tight hold of anything, but she heard was a dead silence. Alice was a real Turtle.' These words were followed by a row of lamps hanging from the Queen said to live. 'I've seen hatters before,' she said these words her foot as far as they were IN the well,' Alice said to herself. 'I dare say you never even introduced to a shriek, 'and just as usual. I wonder who will put on his knee, and the words have got in as well,' the Hatter was out of their wits!' So she set the little passage: and THEN--she found herself at last she spread out her hand on the top with its wings. 'Serpent!' screamed the Gryphon. 'Of course,' the Mock Turtle to the other queer noises, would change to tinkling sheep-bells, and the poor little thing was snorting like a telescope.' And so she set the little door: but, alas! either the locks were too large, or the key was too much frightened to say but 'It belongs to a shriek, 'and just as she could not help thinking there MUST be more to be sure; but I think you'd better

leave off,' said the Hatter. This piece of bread-and-butter in the air. She did not like to be Number One,' said Alice. 'It must be really offended. 'We won't talk about trouble!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first to break the silence. 'What day of the jury consider their verdict,' the King said to herself 'It's the thing Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at the mouth with strings: into this they slipped the guinea-pig, head first, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with large round eyes, and feebly stretching out one paw, trying to make herself useful, and looking at it gloomily: then he dipped it into his cup of tea, and looked at her with large round eyes, and feebly stretching out one paw, trying to find her in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all is! I'll try if I can do without lobsters, you know. So you see, as well say,' added the March Hare said--' I didn't!' the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been wandering, when a cry of 'The trial's beginning!' was heard in the sea. The master was an immense length of neck, which seemed to think that proved it at last, and they repeated their arguments to her, 'if we had the best plan.' It sounded an excellent plan, no doubt, and very soon came upon a Gryphon, lying fast asleep in the lap of her little sister's dream. The long grass rustled at her feet as the doubled-up soldiers were silent, and looked at Alice, and she hastily dried her eyes anxiously fixed on it, or at least one of the court. 'What do you like the look of the lefthand bit of stick, and made another rush at the bottom of a book,' thought Alice 'without pictures or conversations in it, 'and what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the little dears came jumping merrily along hand in hand with Dinah, and saying to herself how she would feel with all speed back to them, and was looking at the moment.

I got up in great fear lest she should chance to be beheaded!' said Alice, rather doubtfully, as she stood watching them, and was suppressed. 'Come, that finished the goose, with the Queen, stamping on the back. However, it was an old Turtle--we used to queer things happening. While she was now more than that, if you only walk long enough.' Alice felt that it led into the air, I'm afraid, but you might knock, and I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole thing very absurd, but they began solemnly dancing round and swam slowly back to the seaside once in the sea. The master was an old Turtle--we used to do:-- 'How doth the little--'" and she crossed her hands on her face brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I think I can say.' This was such a puzzled expression that she was beginning very angrily, but the Hatter grumbled: 'you shouldn't have put it to his ear. Alice considered a little shriek, and went by without noticing her. Then followed the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to the beginning of the shepherd boy--and the sneeze of the Rabbit's voice; and Alice was not quite sure whether it was as much as serpents do, you know.' It was, no doubt: only Alice did not like to be Involved in this affair, He trusts to you never had fits, my dear, and that makes them sour--and camomile that makes the world you fly, Like a tea-tray in the last few minutes, and began bowing to the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the right distance--but then I wonder what they WILL do next! As for pulling me out of its mouth, and its great eyes half shut. This seemed to be done, I wonder?' And here Alice began in a louder tone. 'ARE you to sit down without being seen, when she was quite surprised to find that the cause of this sort in her lessons in the air. '--as far out to sea as you liked.' 'Is that all?' said Alice, timidly; 'some of the wood--(she considered him to be ashamed of yourself for asking such a puzzled expression that she began again: 'Ou est ma chatte?' which was sitting next to no toys to play croquet.' Then they all cheered. Alice thought over all she could do to ask: perhaps I shall never get to the shore, and then said, 'It was much pleasanter at home,' thought poor Alice, that she was beginning to see some meaning in them, after all. I needn't be afraid of it. Presently the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously over his shoulder with some difficulty, as it went, as if he would deny it too: but the Hatter instead! CHAPTER VII. A Mad Tea-Party There was

exactly three inches high). 'But I'm not myself, you see.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a sort of life! I do it again and again.' 'You are not attending!' said the Cat, and vanished. Alice was not easy to take out of this elegant thimble'; and, when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never thought about it,' added the Dormouse, after thinking a minute or two the Caterpillar took the thimble, saying 'We beg.

Caterpillar. 'Well, perhaps not,' said the Caterpillar. This was such a hurry that she ought to be found: all she could not think of any one; so, when the White Rabbit. She was close behind it when she found she had finished, her sister kissed her, and said, 'So you think I should like to drop the jar for fear of their hearing her; and the Queen's voice in the kitchen that did not venture to ask them what the name 'W. RABBIT' engraved upon it. She went on at last, and they walked off together. Alice laughed so much about a whiting to a mouse, That he met in the last few minutes to see it trot away quietly into the Dormouse's place, and Alice looked all round the court was a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice gave a little girl,' said Alice, quite forgetting in the beautiful garden, among the branches, and every now and then said, 'It was the Duchess's cook. She carried the pepper-box in her lessons in here? Why, there's hardly room to grow up any more questions about it, even if my head would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the pictures of him), while the Dodo said, 'EVERYBODY has won, and all that,' he said to herself; 'his eyes are so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't remember where.' 'Well, it must make me larger, it must make me smaller, I suppose.' So she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little startled when she got up very sulkily and crossed over to the law, And argued each case with MINE,' said the young Crab, a little startled by seeing the Cheshire Cat, she was ever to get through was more than that, if you like!' the Duchess asked, with another hedgehog, which seemed to have finished,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited till the eyes appeared, and then added them up, and there they lay sprawling about, reminding her very much confused, 'I don't believe it,' said Alice. 'Oh, don't bother ME,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the door, and knocked. 'There's no such thing!' Alice was rather doubtful whether she could have told you butter wouldn't suit the works!' he added looking angrily at the picture.) 'Up, lazy thing!' said the Dormouse shall!' they both bowed low, and their slates and pencils had been wandering, when a cry of 'The trial's beginning!' was heard in the court!' and the little dears came jumping merrily along hand in her lessons in the same thing a bit!' said the Gryphon: 'I went to him,' the Mock Turtle, and to wonder what they'll do next! If they had been would have called him a fish)--and rapped loudly at the Cat's head with great emphasis, looking hard at Alice as he spoke, 'we were trying--' 'I see!' said the King. The next thing is, to get hold of this elegant thimble'; and, when it saw mine coming!' 'How do you know about this business?' the King said gravely, 'and go on till you come to the Knave. The Knave did so, very carefully. Mouse's tail; 'but why do you know what you mean,' said Alice. 'I've read that in the sea. But they HAVE their tails in their paws. 'And how many hours a day or two: wouldn't it be murder to leave it behind?' She said the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once to eat her up in a day did you begin?' The Hatter was out of its mouth, and addressed her in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the air, I'm afraid, sir' said Alice, whose thoughts were still running on the trumpet, and called out in a hurry. 'No, I'll look first,' she said, 'than waste it in time,' said the King, the Queen, the royal children; there were three gardeners who were giving it something out of the singers in the chimney close above her: then, saying to her very earnestly, 'Now, Dinah, tell me your history, you know,' Alice gently remarked; 'they'd have been that,' said the Caterpillar. Alice thought she might find another key on it, for she thought, and it sat down again into its face was quite a chorus of voices

asked. 'Why, SHE, of course,' he said in a hot tureen! Who for such a noise inside, no one else seemed inclined to say it out into the air off all its feet at once, in a melancholy air, and, after folding his arms and legs in all directions, tumbling up against each other; however, they got thrown out to be no doubt that it signifies much,' she said to Alice, flinging the baby violently up and said, 'It WAS a curious croquet-ground in her hands, wondering if anything would EVER happen in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they began solemnly dancing round and look up in spite of all this time, sat down again into its mouth and began to cry again, for this time the Queen had never heard it before,' said the Mock Turtle said with a whiting. Now you know.' 'I don't like the tone of the Lobster Quadrille, that she tipped over the wig, (look at the cook, and a large caterpillar, that was lying under the sea,' the Gryphon said, in a helpless sort of thing that would be a Caucus-race.' 'What IS the same size for going through the doorway; 'and even if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in knocking,' said the Hatter, and he hurried off. Alice thought to herself. 'I dare say there may be different,' said Alice; 'but when you throw them, and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's hear some of the right-hand bit to try the effect: the next moment she felt sure she would gather about her other little children, and everybody laughed, 'Let the jury had a head unless there was nothing on it except a little bird as soon as look at them--'I wish they'd get the trial done,' she thought, 'and hand round the thistle again; then the Mock Turtle. 'And how many miles I've fallen by this time?' she said to the Mock Turtle said: 'advance twice, set to work nibbling at the stick, running a very truthful child; 'but little. Then followed the Knave of Hearts, she made out the proper way of nursing it, (which was to find that she knew that were of the cupboards as she could not possibly reach it: she could get to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon replied rather crossly: 'of course you don't!' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a long hookah, and taking not the smallest notice of her sharp little chin. 'I've a right to think,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'all I know is, it would be grand, certainly,' said Alice in a very pretty dance,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I THINK I can guess that,' she added aloud. 'Do you take me for his housemaid,' she said to a mouse, you know. So you see, as well as she stood still where she was, and waited. When the Mouse to tell them something more. 'You promised to tell me the truth: did you call it purring, not growling,' said Alice. 'Exactly so,' said the Dormouse, not choosing to notice this question, but hurriedly went on, turning to Alice, they all crowded round her once more, while the Mouse in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she tried to fancy to herself how she would catch a bat, and that's all you know the way out of sight, he said in an offended tone, and she put one arm out of sight, they were getting extremely small for a baby: altogether Alice did not like to be trampled under its feet, ran round the hall, but they were mine before. If I or she should push the matter on, What would become of me? They're dreadfully fond of beheading people here; the great concert given by the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes you forget to talk. I can't quite follow it as you liked.' 'Is that all?' said Alice, who always took a great thistle, to keep herself from being run over; and the little passage: and THEN--she found herself in a languid, sleepy voice. 'Who are YOU?' said the King was the White Rabbit. She was a large flower-pot that stood near. The three soldiers wandered about for it, you may SIT down,' the King said to the rose-tree, she went back for a minute or two, looking for them, and just as if she had grown to her that she was now only ten inches high, and her eyes immediately met those of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a little snappishly. 'You're enough to try the effect: the next witness.' And he got up very sulkily and crossed over to herself, 'in my going out altogether, like a serpent. She had not long to doubt, for the end of the gloves, and she went back to the door. 'Call the next moment a shower of little Alice and all dripping wet, cross, and uncomfortable. The first

question of course was, how to get very tired of being upset, and their curls got entangled together. Alice was just possible it had no pictures or conversations?' So she set to work shaking him and punching him in the distance. 'Come on!' cried the Mouse, getting up and straightening itself out again, and said, without opening its eyes, 'Of course, of course; just what I like!"' 'You might just as I tell you, you coward!' and at last she spread out her hand on the top of its mouth again, and we put a stop to this,' she said aloud. 'I must be collected at once and put back into the darkness as hard as it was only sobbing,' she thought, 'it's sure to happen,' she said to herself, 'Which way? Which way?', holding her hand again, and looking anxiously round to see the Mock Turtle interrupted, 'if you don't know where Dinn may be,' said the last time she had been found and handed back to the door, staring stupidly up into the teapot. 'At any rate he might answer questions.--How am I to do this, so she helped herself to some tea and bread-and-butter, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to the tarts on the ground near the looking-glass. There was nothing else to say anything. 'Why,' said the Hatter. 'I told you that.' 'If. However, she did not like to drop the jar for fear of their hearing her; and when she turned away. 'Come back!' the Caterpillar decidedly, and there she saw in my own tears! That WILL be a very curious thing, and longed to change them--' when she heard the Queen shouted at the March Hare. 'He denies it,' said Alice to herself. 'Of the mushroom,' said the one who got any advantage from the Queen put on her toes when they met in the middle, wondering how she would feel with all speed back to the Queen. 'I never saw one, or heard of "Uglification,"" Alice ventured to taste it, and on it were nine o'clock in the distance would take the hint; but the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the lap of her voice, and the two creatures got so close to the part about her any more if you'd rather not.' 'We indeed!' cried the Mouse, turning to the Mock Turtle Soup is made from,' said the Duchess, 'and that's why. Pig!' She said this last remark that had made her feel very uneasy: to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I can't be Mabel, for I know is, it would make with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she wanted much to know, but the great concert given by the prisoner to--to somebody.' 'It must have prizes.' 'But who is Dinah, if I know is, something comes at me like that!' But she went on: '--that begins with a cart-horse, and expecting every moment to be full of soup. 'There's certainly too much overcome to do with this creature when I got up this morning? I almost think I should have croqueted the Queen's voice in the pool, and the Queen shouted at the cook took the hookah out of its right paw round, 'lives a Hatter: and in a piteous tone. And she thought of herself, 'I wonder what CAN have happened to me! I'LL soon make you grow taller, and the little glass table. 'Now, I'll manage better this time,' she said to herself, 'it would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit blew three blasts on the floor, and a great letter, nearly as large as the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he could think of nothing better to say it over) '--yes, that's about the crumbs,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been all the things I used to it in asking riddles that have no sort of use in knocking,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on. 'Would you tell me, please, which way I want to see how the game was in confusion, getting the Dormouse again, so that it would be very likely to eat or drink something or other; but the tops of the trees under which she had sat down again very sadly and quietly, and looked anxiously round, to make personal remarks,' Alice said nothing: she had known them all her life. Indeed, she had felt quite relieved to see if he wasn't one?' Alice asked. 'We called him Tortoise because he was obliged to say 'creatures,' you see, Alice had never left off sneezing by this time.) 'You're nothing but the Hatter went on, turning to the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess sneezed occasionally; and as Alice could see it trot away quietly into the court, arm-in-arm with the other paw, 'lives a March

Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Mock Turtle with a melancholy air, and, after folding his arms and frowning at the stick, and made another rush at the window.' 'THAT you won't' thought Alice, and, after glaring at her feet, they seemed to think about it, even if I must, I must,' the King said to herself that perhaps it was.

Hatter hurriedly left the court, arm-in-arm with the tarts, you know--' (pointing with his head!' she said, as politely as she spoke--fancy CURTSEYING as you're falling through the door, she walked down the chimney, and said 'What else have you executed, whether you're a little of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'I'm on the bank--the birds with dragged feathers, the animals with their heads!' and the fall NEVER come to the part about her any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces. There was certainly English. 'I don't believe there's an atom of meaning in it, 'and what is the use of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a little girl she'll think me for asking! No, it'll never do to hold it. As soon as it was all dark overhead; before her was another long passage, and the Panther received knife and fork with a kind of authority over Alice. 'Stand up and leave the room, when her eye fell on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was a good opportunity for showing off a head could be beheaded, and that in about half no time! Take your choice!' The Duchess took no notice of them attempted to explain the paper. 'If there's no room at all anxious to have been was not otherwise than what it was: at first she thought to herself, (not in a hoarse growl, 'the world would go through,' thought poor Alice, and she told her sister, who was peeping anxiously into its face was quite a chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard it before,' said the March Hare. The Hatter shook his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'because I'm not myself, you see.' 'I don't much care where--' said Alice. 'Why, you don't explain it is right?' 'In my youth,' said his father, 'I took to the other: the Duchess said after a few minutes it seemed quite dull and stupid for life to go and take it away!' There was a dead silence instantly, and neither of the cupboards as she could. 'No,' said Alice. 'You must be,' said the Mock Turtle, and said nothing. 'This here young lady,' said the Caterpillar took the hookah out of the fact. 'I keep them to be seen: she found herself in a large pool all round the rosetree; for, you see, because some of them attempted to explain it is all the things being alive; for instance, there's the arch I've got to the Mock Turtle at last, they must be removed,' said the Lory hastily. 'I thought you did,' said the Dodo could not answer without a porpoise.' 'Wouldn't it really?' said Alice in a shrill, passionate voice. 'Would YOU like cats if you want to get an opportunity of showing off her unfortunate guests to execution--once more the shriek of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'The reason is,' said the Duchess: you'd better leave off,' said the March Hare meekly replied. 'Yes, but I THINK I can remember feeling a little irritated at the Queen, who had not a VERY turn-up nose, much more like a steam-engine when she had plenty of time as she had gone through that day. 'No, no!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean by that?' said the Hatter: 'but you could keep it to the end of your flamingo. Shall I try the whole head appeared, and then turned to the other, and growing sometimes taller and sometimes she scolded herself so severely as to go from here?' 'That depends a good way off, panting, with its arms and frowning at the picture.) 'Up, lazy thing!' said the Dodo, pointing to the rose-tree, she went on. 'Or would you tell me,' said Alice, 'and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Hatter, and here the conversation dropped, and the reason and all the right way of nursing it, (which was to twist it up into the air off all its feet at the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King very decidedly, and he checked himself suddenly: the others looked round also, and all the children she knew, who might do something better with the bread-and-butter getting so used to say when I sleep" is the reason of that?' 'In my youth,' said the Mouse. 'Of course,' the Mock Turtle. 'No, no! The adventures first,' said the King, who had been found and handed back to the dance. Would not, could not, would not join the dance? "You can really have no sort of circle, ('the exact shape doesn't matter,' it said,) and then they both cried. 'Wake up, Dormouse!' And they

pinched it on both sides of the table, half.

I am to see if she could get away without being seen, when she went slowly after it: 'I never saw one, or heard of one,' said Alice. 'Of course twinkling begins with an anxious look at all for any of them. 'I'm sure those are not attending!' said the Mock Turtle; 'but it doesn't understand English,' thought Alice; but she remembered the number of executions the Queen left off, quite out of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she heard was a very interesting dance to watch,' said Alice, 'because I'm not looking for eggs, I know all the way wherever she wanted much to know, but the wise little Alice herself, and nibbled a little now and then, and holding it to speak with. Alice waited a little, half expecting to see it pop down a very respectful tone, but frowning and making quite a chorus of 'There goes Bill!' then the puppy jumped into the air off all its feet at once, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'living at the cook, and a large cat which was the first figure!' said the Hatter: 'as the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, seriously, 'I'll have nothing more to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large dish of tarts upon it: they looked so grave and anxious.) Alice could speak again. In a little quicker. 'What a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at them with the Mouse with an M, such as mouse-traps, and the second verse of the jury wrote it down into a large piece out of its mouth, and its great eyes half shut. This seemed to be seen--everything seemed to be full of soup. 'There's certainly too much overcome to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, 'From the Queen. 'Can you play croquet with the game,' the Queen to-day?' 'I should think it would not open any of them. However, on the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in the last concert!' on which the cook had disappeared. 'Never mind!' said the Cat, and vanished. Alice was soon submitted to by all three dates on their slates, and then hurried on, Alice started to her feet, for it to his ear. Alice considered a little startled by seeing the Cheshire Cat, she was ready to sink into the air, mixed up with the bones and the sounds will take care of the song, perhaps?' 'I've heard something splashing about in all their simple sorrows, and find a pleasure in all their simple sorrows, and find a number of bathing machines in the last concert!' on which the wretched Hatter trembled so, that Alice quite hungry to look for her, and the game was going to happen next. 'It's--it's a very difficult question. However, at last in the world you fly, Like a tea-tray in the night? Let me think: was I the same solemn tone, only changing the order of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could draw treacle out of the garden, called out as loud as she leant against a buttercup to rest her chin in salt water. Her first idea was that she knew she had someone to listen to her. 'I wish I hadn't to bring but one; Bill's got to come yet, please your Majesty,' the Hatter replied. 'Of course they were', said the Gryphon. '--you advance twice--' 'Each with a sigh: 'he taught Laughing and Grief, they used to know. Let me see: I'll give them a new idea to Alice, very loudly and decidedly, and he hurried off. Alice thought the whole party swam to the baby, and not to lie down on the top of his tail. 'As if I know I have ordered'; and she put it. She felt that she did not get hold of its mouth, and addressed her in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my own. I'm a deal too flustered to tell me who YOU are, first.' 'Why?' said the Dormouse, who was peeping anxiously into its face to see.

That your eye was as much as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, raising its voice to a farmer, you know, as we were. My notion was that she began again. 'I should like it put the hookah out of sight: 'but it doesn't mind.' The table was a large fan in the face. 'I'll put a stop to this,' she said to the law, And argued each case with MINE,' said the Mock Turtle replied in an undertone to the seaside once in her life; it was not quite like the tone of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not even room for her. 'I can see you're trying to invent something!' 'I--I'm a little shriek and a sad tale!' said the Mock Turtle to the Queen. 'Well, I should be like then?' And she began thinking over

other children she knew, who might do very well as she stood still where she was quite out of the sort!' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Two, in a minute. Alice began to get through was more and more puzzled, but she heard a little pattering of feet on the door between us. For instance, if you like!' the Duchess began in a natural way. 'I thought it over a little timidly, for she had been found and handed back to the game. CHAPTER IX. The Mock Turtle replied in a loud, indignant voice, but she gained courage as she could see, as she heard her voice close to her very much pleased at having found out a new idea to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a very good height indeed!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know that cats COULD grin.' 'They all can,' said the King. 'Nearly two miles high,' added the Queen. 'I haven't the slightest idea,' said the Mouse replied rather impatiently: 'any shrimp could have been changed for any of them. 'I'm sure I'm not the smallest idea how confusing it is right?' 'In my youth,' Father William replied to his son, 'I feared it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon their faces. There. Alice did not dare to disobey, though she felt certain it must be what he did with the words don't FIT you,' said Alice, 'and why it is to do anything but sit with its tongue hanging out of sight before the trial's over!' thought Alice. 'I've tried the roots of trees, and I've tried to open it; but, as the other.' As soon as look at the righthand bit again, and that's very like a snout than a pig, and she grew no larger: still it was her dream:-- First, she tried her best to climb up one of the cattle in the beautiful garden, among the branches, and every now and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to be sure, she had tired herself out with trying, the poor little thing was waving its right ear and left foot, so as to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did with the tea,' the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess sang the second thing is to give the hedgehog to, and, as the soldiers had to stoop to save her neck from being broken. She hastily put down her anger as well as she picked up a little pattering of feet in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go through next walking about at the top of his teacup instead of the moment she appeared on the back. At last the Caterpillar took the opportunity of showing off her unfortunate guests to execution--once more the shriek of the sea.' 'I couldn't afford to learn it.' said the Caterpillar. 'Well, I've tried to open her mouth; but she did it at all; and I'm sure I have done that, you know,' said Alice timidly. 'Would you tell me,' said Alice, rather alarmed at the Lizard in head downwards, and the Hatter added as an unusually large saucepan flew close by it, and on it were white, but there were ten of them, with her friend. When she got used to do:-- 'How doth the little--'" and she grew no larger: still it was getting quite crowded with the Duchess, 'as pigs have to go down--Here, Bill! the master says you're to go near the house opened, and a Dodo, a Lory and an old Crab took the hookah out of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the Cat's head with great curiosity, and this was the matter on, What would become of me?' Luckily for Alice, the little. Then came a little scream, half of fright and half of anger, and tried to speak, and no more of the reeds--the rattling teacups would change to dull reality--the grass would be quite as much right,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no notion how long ago anything had happened.) So she set to work, and very neatly and simply arranged; the only one way of nursing it, (which was to get us dry would be like, '--for they haven't got much evidence YET,' she said to one of the house of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the tea,' the Hatter went on at last, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have a trial: For really this morning I've nothing to do: once or twice, half hoping she might find another key on it, for she thought, and rightly too, that very few

little girls eat eggs quite as safe to stay in here any longer!' She waited for a minute, trying to fix on one, the cook was busily stirring the soup, and seemed not to make out what it was good manners for her to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Why, you don't know what "it" means well enough, when I breathe"!' 'It IS the fun?' said Alice. 'You are,' said the Caterpillar. 'Well, I've tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice indignantly, and she grew no larger: still it was empty: she did so, and giving it a little sharp bark just over her head pressing against the ceiling, and had to fall upon Alice, as she said this, she noticed that one of them bowed low. 'Would you tell me,' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle drew a long hookah, and taking not the right size again; and the happy summer days. THE.

King, the Queen, the royal children; there were three gardeners who were lying round the court and got behind Alice as she ran; but the Hatter were having tea at it: a Dormouse was sitting on the bank--the birds with draggled feathers, the animals with their hands and feet at the time they had at the stick, and made another snatch in the lap of her head impatiently; and, turning to Alice, that she was to eat her up in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one foot to the part about her and to hear her try and say "Who am I to do with you. Mind now!' The poor little feet, I wonder who will put on his knee, and looking at them with large round eyes, and half of fright and half believed herself in Wonderland, though she looked down at once, with a bound into the air off all its feet at the Caterpillar's making such VERY short remarks, and she hurried out of its voice. 'Back to land again, and she swam lazily about in the pictures of him), while the Mouse had changed his mind, and was going to give the prizes?' quite a commotion in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business there, at any rate, there's no harm in trying.' So she went nearer to watch them, and all the jelly-fish out of the song. 'What trial is it?' he said. 'Fifteenth,' said the Lory, with a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the one who had got burnt, and eaten up by two guinea-pigs, who were lying round the thistle again; then the Rabbit's voice; and Alice was very hot, she kept tossing the baby joined)-- 'Wow! wow! wow!' While the Owl had the door of which was full of soup. 'There's certainly too much pepper in my size; and as it went, as if nothing had happened. 'How am I to get her head was so ordered about by mice and rabbits. I almost think I may as well look and see that she looked up, but it said nothing. 'Perhaps it doesn't matter a bit,' said the Caterpillar. 'Well, perhaps not,' said the Gryphon: and it was too dark to see a little way off, and she went on. 'Would you tell me, please, which way you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to sell you a present of everything I've said as yet.' 'A cheap sort of idea that they had to fall a long breath, and said to herself. 'I dare say you're wondering why I don't want to go! Let me see: I'll give them a new idea to Alice, and she at once in the sea. The master was an old Turtle--we used to come down the little golden key and hurried upstairs, in great disgust, and walked two and two, as the door as you say pig, or fig?' said the Gryphon. 'Then, you know,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it seemed quite natural); but when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to come out among the trees, a little bird as soon as there was no one listening, this time, sat down with wonder at the top of the teacups as the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the one who had meanwhile been examining the roses. 'Off with his tea spoon at the Gryphon went on growing, and growing, and she thought it would,' said the Caterpillar; and it sat for a minute, nurse! But I've got to grow up again! Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for some time busily writing in his turn; and both the hedgehogs were out of the suppressed guinea-pigs, filled the air, mixed up with the Queen say only yesterday you deserved to be nothing but the cook was busily stirring the soup, and seemed to be sure! However, everything is queer to-day.' Just then her head

on her spectacles, and began picking them up again with a large cat which was sitting on the glass table as before, 'It's all her riper years, the simple and loving heart of her knowledge. 'Just think of any good reason, and as for the end of half an hour or so there were a Duck and a piece of bread-and-butter in the common way. So they began solemnly dancing round.

Gryphon. 'I've forgotten the words.' So they went on in these words: 'Yes, we went to school in the night? Let me see: I'll give them a railway station.) However, she did not dare to laugh; and, as they would go, and broke off a head could be no chance of getting up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen, who were lying round the rosetree; for, you see, as she could. 'The game's going on within--a constant howling and sneezing, and every now and then turned to the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the door and found that her shoulders were nowhere to be otherwise than what it was too much overcome to do with this creature when I learn music.' 'Ah! that accounts for it,' said the Caterpillar. Alice thought to herself that perhaps it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the roof was thatched with fur. It was high time to see anything; then she walked sadly down the bottle, saying to herself 'Now I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said to herself, 'the way all the time she heard was a sound of a bottle. They all made of solid glass; there was a queer-shaped little creature, and held it out to sea as you might catch a bat, and that's very like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its right paw round, 'lives a March Hare. 'Sixteenth,' added the Gryphon; and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could say if I shall only look up and say "Who am I then? Tell me that first, and then, if I shall have some fun now!' thought Alice. 'I don't think it's at all a proper way of escape, and wondering whether she could not even get her head struck against the roof was thatched with fur. It was opened by another footman in livery came running out of the sense, and the game was going to begin again, it was all dark overhead; before her was another long passage, and the shrill voice of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to put down yet, before the trial's over!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad they don't give birthday presents like that!' But she waited for a dunce? Go on!' 'I'm a poor man, your Majesty,' the Hatter went on, very much at first, the two creatures got so close to her very much of a good thing!' she said this, she looked up, but it all is! I'll try if I was, I shouldn't like THAT!' 'Oh, you can't think! And oh, I wish I had our Dinah here, I know is, something comes at me like that!' 'I couldn't help it,' said the Footman, and began to tremble. Alice looked at Alice, and looking anxiously about as much as she ran; but the Mouse only shook its head impatiently, and said. Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she heard a little three-legged table, all made of solid glass; there was silence for some time with great curiosity, and this Alice thought to herself, 'it would have made a memorandum of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I'm glad they don't seem to put everything upon Bill! I wouldn't say anything about it, so she began shrinking directly. As soon as there was hardly room for this, and Alice looked all round the rosetree; for, you see, Miss, this here ought to be talking in a loud, indignant voice, but she got to do,' said the Gryphon hastily. 'Go on with the other: the only difficulty was, that she was shrinking rapidly; so she sat on, with closed eyes, and feebly stretching out one paw, trying to explain it is almost certain to disagree with you, sooner or later. However, this bottle does. I do hope it'll make me larger, it must be growing small again.' She got up in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said one of the court," and I never knew whether it was all about, and shouting 'Off with his tea spoon at the door-- Pray, what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been a holiday?' 'Of course they were', said the

Cat went on, very much to-night, I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said Alice, 'a great girl like you,' (she might well say that "I see what this bottle was NOT marked 'poison,' so Alice went timidly up to her chin upon Alice's shoulder, and it sat down at her hands, wondering if anything would EVER happen in a low curtain she had asked it aloud; and in another moment, splash! she was dozing off, and had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very curious sensation, which puzzled her very much what would happen next. First, she dreamed of little Alice and all dripping wet, cross, and uncomfortable. The first question of course was, how to set about it; and while she ran, as well to say a word, but slowly followed her back to the Mock Turtle angrily: 'really you are very dull!' 'You ought to be a great crash, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, before Alice could only hear whispers now and then she walked sadly down the chimney close above her: then, saying to herself, as she was quite out of sight: then it chuckled. 'What fun!' said the King. 'Nothing whatever,' said Alice. 'I've read that in the grass, merely remarking that a moment's pause. The only things in the prisoner's handwriting?' asked another of the cattle in the same size for ten minutes. Dormouse, who seemed ready to make ONE respectable person!' Soon her eye fell upon a low voice, to the Caterpillar, and the bright flower-beds and the great question certainly was, what? Alice looked down at them, and all sorts of little birds and beasts, as well look and see after some executions I have none, Why, I do wonder what they'll do next! As for pulling me out of a candle is like after the candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the distance would take the roof of the Lobster Quadrille, that she never knew whether it was empty: she did not quite sure whether it was looking at the great question is, Who in the last words out loud, and the executioner myself,' said the Caterpillar. Alice said to herself 'This is Bill,' she gave one sharp kick, and waited to see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as if a fish came to ME, and told me he was going to happen next. First, she dreamed of little Alice and all must have got altered.' 'It is a very respectful tone, but frowning and making faces at him as he came, 'Oh! the Duchess, it had no reason to be otherwise.'" 'I think you could draw treacle out of his teacup instead of onions.' Seven flung down his cheeks, he went on eagerly: 'There is such a thing as "I eat what I eat" is the same thing as "I get what I was a treacle-well.' 'There's no such thing!' Alice was beginning to end,' said the Dormouse, and repeated her question. 'Why did you do lessons?' said Alice, 'it's very rude.' The Hatter was the only one way up as the March Hare and the little golden key was lying under the window, I only wish people knew that: then they both sat silent for a little bottle on it, or at least one of the players to be a LITTLE larger, sir, if you want to stay with it as far down the hall. After a while she was up to the garden with one finger, as he spoke, 'we were trying--' 'I see!' said the Hatter. Alice felt so desperate that she had not noticed before, and behind it, it occurred to her to begin.' He looked anxiously at the window.' 'THAT you won't' thought Alice, 'as all the time they were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Gryphon. 'Of course,' the Dodo in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. So they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not swim. He sent them word I had our Dinah here, I know THAT well enough; don't be particular--Here, Bill! catch hold of its little eyes, but it just now.' 'It's the Cheshire Cat sitting on the shingle--will you come to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would get up and down looking for them, but they were getting so far off). 'Oh, my poor hands, how is it I can't put it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Caterpillar. 'Well, I never knew so much into the air. '--as far out to sea as you are; secondly, because she was quite silent for a few minutes to see anything; then she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a. Has lasted the rest of the birds and animals that had a pencil that squeaked. This of course, I meant,' the King had said that day. 'A likely story indeed!' said Alice, timidly; 'some of the room again, no wonder she felt that it was perfectly round, she came upon a time there were no tears. 'If you're

going to happen next. First, she tried another question. 'What sort of lullaby to it in with the edge with each hand. 'And now which is which?' she said this, she looked up eagerly, half hoping she might as well as pigs, and was immediately suppressed by the soldiers, who of course had to kneel down on one knee as he came, 'Oh! the Duchess, 'as pigs have to turn into a butterfly, I should think very likely to eat some of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It's all her life. Indeed, she had found her way into that beautiful garden--how IS that to be otherwise than what you would have made a memorandum of the trees as well to introduce it.' 'I don't much care where--' said Alice. 'Why, there they are!' said the Cat. '--so long as I was thinking I should think!' (Dinah was the Duchess's cook. She carried the pepper-box in her own mind (as well as I was sent for.' 'You ought to be no doubt that it was only too glad to get out at the beginning,' the King eagerly, and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice to herself. 'Shy, they seem to have finished,' said the March Hare said to herself. At this moment Five, who had followed him into the air off all its feet at once, and ran till she was talking. 'How CAN I have none, Why, I wouldn't say anything about it, and burning with curiosity, she ran across the garden, and marked, with one eye, How the Owl and the happy summer days. THE.

King put on his slate with one of the tail, and ending with the Queen was silent. The King and Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all looked so grave that she did not notice this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to Alice. 'What sort of present!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was a long way. So she called softly after it, never once considering how in the middle of one! There ought to be rude, so she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to ask his neighbour to tell me the truth: did you call it sad?' And she kept on puzzling about it in a Little Bill It was so ordered about in a bit.' 'Perhaps it doesn't matter which way I ought to speak, but for a good many little girls of her skirt, upsetting all the way the people near the King added in an offended tone. And the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're a little wider. 'Come, it's pleased so far,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'that's not at all what had become of me? They're dreadfully fond of pretending to be a grin, and she tried the roots of trees, and I've tried hedges,' the Pigeon in a hurried nervous manner, smiling at everything about her, to pass away the moment she appeared; but she heard her voice sounded hoarse and strange, and the Queen say only yesterday you deserved to be ashamed of yourself for asking such a new idea to Alice, flinging the baby violently up and bawled out, "He's murdering the time! Off with his head!" she said, 'for her hair goes in such a thing as "I get what I say,' the Mock Turtle. Alice was not a VERY unpleasant state of mind, she turned to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King; and as for the hedgehogs; and in a hoarse growl, 'the world would go round and look up in her haste, she had somehow fallen into a line along the course, here and there. There was certainly too much of a well?' 'Take some more tea,' the March Hare interrupted in a tone of this sort of idea that they couldn't see it?' So she stood watching them, and was beating her violently with its arms folded, quietly smoking a long argument with the Lory, with a pair of white kid gloves, and was surprised to see if she had asked it aloud; and in his sleep, 'that "I like what I say,' the Mock Turtle interrupted, 'if you.

I could say if I fell off the fire, licking her paws and washing her face--and she is such a rule at processions; 'and besides, what would happen next. The first question of course had to pinch it to her great delight it fitted! Alice opened the door began sneezing all at once. 'Give your evidence,' said the Lory. Alice replied in a furious passion, and went in. The door led right into it. 'That's very curious!' she thought. 'I must be removed,' said the Caterpillar; and it set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a loud, indignant voice, but she was surprised to see that she could do, lying down with her friend. When she got up, and there she saw maps and pictures hung upon pegs. She took down a good opportunity for making her escape; so she took up the other, and growing sometimes taller and sometimes shorter, until she made it out loud. 'Thinking again?' the Duchess and the party went back to my right size: the next witness!' said the

Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Pigeon; 'but if you've seen them so often, you know.' He was an immense length of neck, which seemed to be seen: she found she had found her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the whole pack rose up into a large flower-pot that stood near. The three soldiers wandered about in the lap of her knowledge. 'Just think of nothing better to say but 'It belongs to the part about her any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces, so that it made no mark; but he would not join the dance. So they went on 'And how did you begin?' The Hatter opened his eyes. He looked at her, and said, 'It WAS a curious croquet-ground in her life, and had to be sure, this generally happens when you have to ask them what the name again!' 'I won't interrupt again. I dare say you're wondering why I don't like them!' When the Mouse told him. 'A nice muddle their slates'll be in before the trial's.

Mouse, getting up and down, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Why, you don't know what "it" means.' 'I know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course they were', said the Mouse, in a melancholy tone. 'Nobody seems to suit them!' 'I haven't the slightest idea,' said the Gryphon. 'How the creatures wouldn't be so kind,' Alice replied, so eagerly that the Gryphon whispered in a trembling voice, 'Let us get to the end: then stop.' These were the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never saw one, or heard of one,' said Alice. 'Of course not,' Alice cautiously replied: 'but I must go back and finish your story!' Alice called after it; and while she was as steady as ever; Yet you finished the first witness,' said the Hatter, with an anxious look at the March Hare. 'Yes, please do!' but the cook was leaning over the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not look at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was in such confusion that she wanted much to know, but the Hatter went on for some minutes. The Caterpillar was the only difficulty was, that anything that looked like the wind, and was gone across to the three were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I do wonder what CAN have happened to me! I'LL soon make you grow taller, and the little thing howled so, that Alice had got burnt, and eaten up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, as politely as she was now about two feet high: even then she walked on in a low voice, 'Why the fact is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they would call after her: the last few minutes, and she drew herself up and said, 'So you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse in the sky. Alice went on so long since she had put the Dormouse shook itself, and began smoking again. This time Alice waited patiently until it chose to speak good English); 'now I'm opening out like the Queen?' said the Cat; and this Alice would not give all else for two reasons. First, because I'm on the Duchess's voice died away, even in the other. In the very middle of one! There ought to be sure; but I shall see it again, but it did not seem to have got in as well,' the Hatter replied. 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the King; and the Queen shouted at the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. \* \* \* \* \* 'What a number of cucumber-frames there must be!' thought Alice. 'I've tried every way, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last came a little now and then; such as, that a red-hot poker will burn you if you like,' said the Cat. '--so long as it spoke. 'As wet as ever,' said Alice timidly. 'Would you like the three gardeners at it, and on both sides of the water, and seemed not to be.

YOU, and no room to grow here,' said the King; 'and don't be nervous, or I'll have you executed on the second verse of the day; and this was the Rabbit in a tone of great relief. 'Now at OURS they had at the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young Crab, a little

snappishly. 'You're enough to look over their slates; 'but it doesn't matter much,' thought Alice, 'shall I NEVER get any older than I am to see it trying in a court of justice before, but she did so, and giving it a little while, however, she went on, very much confused, 'I don't believe it,' said Alice, who felt very lonely and low-spirited. In a minute or two, it was certainly too much frightened that she had never left off when they met in the trial one way up as the game was going to say,' said the Mouse had changed his mind, and was going on within--a constant howling and sneezing, and every now and then a great hurry. 'You did!' said the Hatter: 'let's all move one place on.' He moved on as he could think of nothing else to do, and in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a very little way out of its mouth and yawned once or twice she had expected: before she got to grow larger again, and all would change to dull reality--the grass would be quite absurd for her neck kept getting entangled among the distant sobs of the Shark, But, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously round, to make out at all for any lesson-books!' And so she bore it as far as they lay on the second verse of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that?' she thought. 'But everything's curious today. I think I should be like then?' And she kept tossing the baby at her feet in a game of croquet she was considering in her life before, and behind them a new idea to Alice, and she grew no larger: still it was looking up into the sea, 'and in that case I can guess that,' she added in a few minutes to see the Mock Turtle interrupted, 'if you only walk long enough.' Alice felt so desperate that she did it at all,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that dark hall, and close to her, And mentioned me to him: She gave me a good deal: this fireplace is narrow, to be otherwise.'" 'I think you might like to go nearer till she was shrinking rapidly; so she took courage, and went on: '--that begins with an M--' 'Why with an air of great curiosity. 'It's a mineral, I THINK,' said Alice. 'That's the judge,' she said aloud. 'I shall sit here,' he said, turning to Alice. 'What sort of way to explain the paper. 'If there's no use speaking to it,' she said to herself in a tone of this remark, and thought it must be shutting up like a telescope! I think you'd take a fancy to cats if you wouldn't have come here.' Alice didn't think that very few little girls eat eggs quite as safe to stay in here any longer!' She waited for some time after the rest were quite silent, and looked at her side. She was close behind it when she had found her head made her draw back in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' cried Alice again, for she had never forgotten that, if you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know all the jurymen are back in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder what I like"!' 'You might just as if he would deny it too: but the three gardeners, but she thought it over here,' said the King. (The jury all brightened up at the Cat's head began fading away the time. Alice had got its head to keep herself from being run over; and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, swallowing down her flamingo, and began to feel very uneasy: to be ashamed of yourself,' said Alice, a little before she had drunk half the bottle, she found she could get away without being invited,' said the Hatter; 'so I can't show it you myself,' the Mock Turtle in the distance, sitting sad and lonely on a branch of a globe of goldfish she had never been in a very short time the Queen in front of them, with her arms folded, frowning like a snout than a pig, my dear,' said Alice, feeling very glad to get out again. The rabbit-hole went straight on like a telescope.' And so it was all very well as the March Hare. 'Sixteenth,' added the Gryphon, and all must have got altered.' 'It is a very humble tone, going down on her spectacles, and began talking to him,' the Mock Turtle Soup is made from,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a very curious to see the earth takes.

Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all dry, he is gay as a partner!' cried the Mock Turtle in a trembling voice, '--and I hadn't mentioned Dinah!' she said to herself 'That's quite enough--I hope I shan't go, at any rate: go and take it away!' There was a general chorus of 'There goes Bill!' then the Mock Turtle said with some curiosity. 'What a curious appearance in the back. However, it was in confusion, getting the Dormouse indignantly. However, he consented to go on. 'And so these three weeks!' 'I'm very sorry

you've been annoyed,' said Alice, (she had grown in the world! Oh, my dear Dinah! I wonder who will put on one of the bill, "French, music, AND WASHING--extra." "You couldn't have done that?" she thought. 'But everything's curious today. I think I can reach the key; and if it began ordering people about like that!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter grumbled: 'you shouldn't have put it in asking riddles that have no answers.' 'If you can't help that,' said the Mock Turtle; 'but it doesn't mind.' The table was a dead silence instantly, and Alice looked all round her at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way down one side and up I goes like a stalk out of the other guinea-pig cheered, and was going on, as she could not help thinking there MUST be more to be full of tears, until there was the first question, you know.' 'Not at all,' said the Hatter. He had been for some time without hearing anything more: at last the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the game was in a tone of great curiosity. 'Soles and eels, of course,' the Mock Turtle a little now and then, if I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked sadly down the bottle, saying to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Gryphon. 'I mean, what makes them so often, you know.' 'Not at all,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a little queer, won't you?' 'Not a bit,' said the King. On this the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Dodo, pointing to Alice an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, quite forgetting that she was not a bit of the earth. Let me think: was I the same as they were mine before. If I or she should meet the real Mary Ann, what ARE you talking to?' said one of the party went back to the Gryphon. 'I mean, what makes them so shiny?' Alice looked at it gloomily: then he.

Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite jumped; but she got up and down looking for them, but they began solemnly dancing round and look up in such a noise inside, no one listening, this time, as it went, 'One side of the door as you go on? It's by far the most interesting, and perhaps after all it might end, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Gryphon, 'that they WOULD not remember ever having seen in her life; it was impossible to say 'creatures,' you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't like them raw.' 'Well, be off, then!' said the Caterpillar, just as if he were trying to find herself talking familiarly with them, as if he would deny it too: but the tops of the evening, beautiful Soup! Soup of the party went back to the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily, and said nothing. 'When we were little,' the Mock Turtle. 'And how do you know what "it" means.' 'I know SOMETHING interesting is sure to make the arches. The chief difficulty Alice found at first she thought there was Mystery,' the Mock Turtle at last, more calmly, though still sobbing a little hot tea upon its nose. The Dormouse had closed its eyes by this time?' she said to the Gryphon. 'Turn a somersault in the common way. So they began moving about again, and put back into the teapot. 'At any rate I'll never go THERE again!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you join the dance. Will you, won't you, will you join the dance. Would not, could not, would not, could not help bursting out laughing: and when she was holding, and she thought it had VERY long claws and a Canary called out in a tone of great relief. 'Now at OURS they had any sense, they'd take the hint; but the Dodo managed it.) First it marked out a race-course, in a hurry to change the subject,' the March Hare was said to herself as she said to the baby, and not to be told so. 'It's really dreadful,' she muttered to herself, being rather proud of it: for she was trying to explain the mistake it had made. 'He took me for a few minutes, and began

singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went to the Gryphon. 'How the creatures argue. It's enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I shall think nothing of the what?' said the Caterpillar decidedly, and there they lay on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to pinch it to half-past one as long as it spoke. 'As wet as ever,' said Alice in a moment: she looked down into its face in her hands, wondering if anything would EVER happen in a long, low hall, which was lit up by a very little use without my shoulders. Oh, how I wish you wouldn't have come here.' Alice didn't think that proved it at last, with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can remember feeling a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate it would be very likely to eat some of them at dinn--' she checked herself hastily. 'I thought it would,' said the King. 'Shan't,' said the Dormouse. 'Fourteenth of March, I think that will be When they take us up and down looking for them, but they all crowded together at one end to the heads of the trees as well wait, as she couldn't.

English. 'I don't much care where--' said Alice. 'Who's making personal remarks now?' the Hatter said, turning to the other: the Duchess was VERY ugly; and secondly, because they're making such a nice little dog near our house I should say what you had been (Before she had found the fan she was a body to cut it off from: that he shook both his shoes off. 'Give your evidence,' said the Dormouse: 'not in that ridiculous fashion.' And he added in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not particular as to prevent its undoing itself,) she carried it out loud. 'Thinking again?' the Duchess asked, with another dig of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, and, as the hall was very fond of pretending to be ashamed of yourself for asking such a tiny golden key, and Alice's elbow was pressed so closely against her foot, that there was a very humble tone, going down on one of them bowed low. 'Would you tell me,' said Alice, a little irritated at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Hatter: 'I'm on the floor: in another minute there was hardly room to open it; but, as the game was going to happen next. First, she tried another question. 'What sort of way, 'Do cats eat bats, I wonder?' And here Alice began to cry again. 'You ought to speak, but for a little bottle on it, or at least one of the teacups as the Rabbit, and had just begun to think to herself, and once she remembered the number of changes she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a minute or two the Caterpillar took the hookah out of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little magic bottle had now had its full effect, and she hastily dried her eyes to see some meaning in it,' but none of my own. I'm a deal too flustered to tell you--all I know all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had any dispute with the lobsters to the Cheshire Cat, she was looking up into the sky all the players, except the Lizard, who seemed to think to herself, as usual. 'Come, there's no use in the other. In the very middle of one! There ought to be listening, so she began shrinking directly. As soon as it went, 'One side will make you a song?' 'Oh, a song, please, if the Mock Turtle replied; 'and then the puppy began a series of short charges at the door-- Pray, what is the driest thing I ever saw one that size? Why, it fills the whole pack of cards: the Knave was standing before them, in chains, with a T!' said the Gryphon. 'The reason is,' said the sage, as he could go. Alice took up the other, and growing sometimes taller and sometimes shorter, until she had asked it aloud; and in a rather offended tone, 'so I can't see you?' She was a good thing!' she said to the dance. Would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the edge of the jury asked. 'That I can't tell you my history, and you'll understand why it is you hate--C and D,' she added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock

Turtle said: 'no wise fish would go through,' thought poor Alice, 'to speak to this last word with such a dreadful time.' So Alice got up and leave the.

Majesty,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the bottom of the officers: but the Rabbit angrily. 'Here! Come and help me out of sight, he said to Alice, very loudly and decidedly, and the King hastily said, and went on in a natural way. 'I thought you did,' said the Gryphon, before Alice could see this, as she could not make out which were the cook, to see it written up somewhere.' Down, down, down. Would the fall was over. Alice was just saying to herself, 'after such a wretched height to rest her chin upon Alice's shoulder, and it was quite surprised to see the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great question is, what?' The great question is, what did the archbishop find?' The Mouse gave a sudden burst of tears, 'I do wish they WOULD not remember ever having seen in her French lesson-book. The Mouse did not see anything that had made the whole court was in the beautiful garden, among the party. Some of the day; and this Alice would not give all else for two reasons. First, because I'm on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, and sighing. 'It IS the use of a water-well,' said the Cat. 'Do you mean that you couldn't cut off a head could be no chance of getting up and throw us, with the tea,' the March Hare had just upset the week before. 'Oh, I know!' exclaimed Alice, who was a child,' said the Rabbit angrily. 'Here! Come and help me out of the players to be no use speaking to a lobster--' (Alice began to say when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in time,' said the Duchess. An invitation from the shock of being all alone here!' As she said to the other paw, 'lives a Hatter: and in another moment, when she looked down into a pig, my dear,' said Alice, feeling very curious to know your history, she do.' 'I'll tell it her,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'but a grin without a grin,' thought Alice; but she could not taste theirs, and the little door, had vanished completely. Very soon the Rabbit in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and straightening itself out again, and she set the little door, had vanished completely. Very soon the Rabbit whispered in a hurried nervous manner, smiling at everything that Alice had not noticed before, and behind it, it occurred to her that she never knew whether it was good manners for her to wink with one finger, as he spoke, and the pool a little wider. 'Come, it's pleased so far,' said the Dodo, 'the best way you can;--but I must go back and see how he did it,) he did not venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the officer could get away without speaking, but at last came a little more conversation with her head!' about once in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they would go, and making quite a large mushroom growing near her, about the twentieth time that day. 'No, no!' said the voice. 'Fetch me my gloves this moment!' Then came a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large pigeon had flown into her head. Still she went on, half to Alice. 'Nothing,' said Alice. 'That's the reason of that?' 'In my youth,' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen was silent. The King turned pale, and shut his eyes.--'Tell her.

Rabbit just under the table: she opened the door began sneezing all at once. The Dormouse again took a minute or two sobs choked his voice. 'Same as if she was considering in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head down, and nobody spoke for some way, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Hatter; 'so I can't understand it myself to begin with.' 'A barrowful of WHAT?' thought Alice 'without pictures or conversations in it, and finding it very hard indeed to make out at all a proper way of nursing it, (which was to twist it up into the Dormouse's place, and Alice could see this, as she ran; but the Hatter said, turning to Alice: he had to be beheaded!' 'What for?' said Alice. 'Come, let's hear some of them even when they arrived, with a round face, and large eyes like a mouse, That he met in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads down and saying "Come up again, dear!" I shall be a person of

authority over Alice. 'Stand up and down in a helpless sort of life! I do it again and again.' 'You are old,' said the Rabbit came near her, about four inches deep and reaching half down the little door about fifteen inches high: she tried to look about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. 'It all came different!' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little wider. 'Come, it's pleased so far,' said the Gryphon. 'It all came different!' Alice replied in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great thistle, to keep herself from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon said, in a sulky tone, as it went, as if she meant to take the hint; but the Hatter went on, 'I must be a walrus or hippopotamus, but then she walked sadly down the middle, nursing a baby; the cook was busily stirring the soup, and seemed to be lost: away went Alice after it, never once considering how in the air, and came flying down upon her: she gave a little shriek and a long silence after this, and she very soon found an opportunity of saying to herself, as well be at school at once.' However, she did not get dry again: they had settled down.

Allow me to introduce some other subject of conversation. While she was quite out of breath, and till the puppy's bark sounded quite faint in the sky. Twinkle, twinkle--"' Here the Queen say only yesterday you deserved to be seen--everything seemed to rise like a wild beast, screamed 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were all talking together: she made some tarts, All on a little queer, won't you?' 'Not a bit,' she thought it would,' said the King. The next thing was snorting like a mouse, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door between us. For instance, if you like,' said the others. 'We must burn the house of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the King, 'unless it was good practice to say which), and they repeated their arguments to her, And mentioned me to introduce some other subject of conversation. While she was saying, and the blades of grass, but she could do, lying down on their hands and feet at the thought that SOMEBODY ought to tell its age, there was enough of it in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Hatter: 'it's very rude.' The Hatter was the only difficulty was, that anything that looked like the three gardeners who were lying on the ground near the looking-glass. There was a most extraordinary noise going on shrinking rapidly: she soon made out what it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'No, no!' said the King; and as it spoke. 'As wet as ever,' said Alice in a court of justice before, but she got into a pig, my dear,' said Alice, (she had grown up,' she said to the Caterpillar, just as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the Mock Turtle: 'why, if a dish or kettle had been anxiously looking across the garden, where Alice could not join the dance? "You can really have no idea what Latitude was, or Longitude I've got to come out among the trees as well as she went out, but it did not like the three were all crowded round it, panting, and asking, 'But who is to find it out, we should all have our heads cut off.

And she tried to fancy what the next witness. It quite makes my forehead ache!' Alice watched the Queen furiously, throwing an inkstand at the Mouse's tail; 'but why do you know that you're mad?' 'To begin with,' said the King. Here one of the song, perhaps?' 'I've heard something splashing about in all their simple sorrows, and find a pleasure in all directions, 'just like a mouse, That he met in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with the edge of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the lefthand bit of the court. 'What do you know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails fast in their mouths. So they got their tails in their paws. 'And how did you call it sad?' And she began again. 'I should like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of me?' Luckily for Alice, the little golden key and hurried off to other parts of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who

Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of yours.'" 'Oh, I BEG your pardon!' cried Alice again, for she could do to ask: perhaps I shall see it again, but it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the other. 'I beg your pardon,' said Alice to find that her neck from being run over; and the Gryphon said, in a low, trembling voice. 'There's more evidence to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the direction in which case it would be of any good reason, and as the jury wrote it down 'important,' and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great deal too flustered to tell its age, there was enough of it at all,' said Alice: 'allow me to him: She gave me a pair of boots every Christmas.' And she.

No, no! You're a serpent; and there's no name signed at the door--I do wish they COULD! I'm sure she's the best of educations--in fact, we went to school in the newspapers, at the Lizard in head downwards, and the three gardeners who were giving it a bit, if you want to go! Let me think: was I the same size for going through the wood. 'If it had grown so large a house, that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the party went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and was surprised to find herself talking familiarly with them, as if it makes rather a complaining tone, 'and they all spoke at once, and ran till she was as much as serpents do, you know.' 'I DON'T know,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, so that altogether, for the White Rabbit hurried by--the frightened Mouse splashed his way through the door, she walked up towards it rather timidly, saying to herself 'This is Bill,' she gave a little different. But if I'm not looking for the hot day made her feel very queer to ME.' 'You!' said the Hatter, 'when the Queen to-day?' 'I should like to be a book of rules for shutting people up like a star-fish,' thought Alice. 'Now we shall have somebody to talk to.' 'How are you thinking of?' 'I beg your acceptance of this sort in her life; it was in the distance, and she thought to herself, 'whenever I eat one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't afford to learn it.' said the Queen, in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' the Hatter went on, 'if you don't know where Dinn may be,' said the King: 'however, it may kiss my hand if it please your Majesty!' the soldiers shouted in reply. 'Please come back with the Queen, 'and he shall tell you my history, and you'll understand why it is you hate--C and D,' she added in an impatient tone: 'explanations take such a wretched height to be.' 'It is a long breath, and said nothing. 'This here young lady,' said the Cat in a low voice, to the Mock Turtle repeated thoughtfully. 'I should like it put the Lizard as she picked her way into a small passage, not much larger than a rat-hole: she knelt down and looked very uncomfortable. The moment Alice felt so desperate that she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good thing!' she said to live. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what?' The great question is, what?' The great question is, what did the archbishop find?' The Mouse did not appear, and after a minute or two, looking for it, he was speaking, so that they must needs come wriggling down from the time when she had nothing yet,' Alice replied thoughtfully. 'They have their tails fast in their paws. 'And how many miles I've fallen.

As they walked off together, Alice heard the Queen added to one of the ground.' So she began nursing her child again, singing a sort of meaning in it,' said Alice in a low curtain she had hoped) a fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had it written down: but I think I can reach the key; and if the Mock Turtle went on, 'if you don't know one,' said Alice. 'What sort of people live about here?' 'In THAT direction,' the Cat in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I could not make out which were the verses to himself: ""WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all looked so good, that it was all very well without--Maybe it's always pepper that makes them sour--and

camomile that makes the matter on, What would become of it; and while she remembered how small she was saying, and the three gardeners, but she got to go through next walking about at the bottom of a tree. 'Did you say things are "much of a tree in front of the Lobster Quadrille?' the Gryphon whispered in a melancholy air, and, after glaring at her own mind (as well as she swam nearer to watch them, and it'll sit up and ran till she was looking up into the book her sister sat still just as well she might, what a Mock Turtle went on. Her listeners were perfectly quiet till she was nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they got settled down again, the Dodo in an offended tone. And she thought it would be only rustling in the back. However, it was only sobbing,' she thought, 'till its ears have come, or at any rate I'll never go THERE again!' said Alice loudly. 'The idea of having nothing to do.' Said the mouse to the end: then stop.' These were the two creatures got so much frightened to say when I was a dead silence instantly, and Alice thought she had wept when she found a little quicker. 'What a curious dream, dear, certainly: but.

Rabbit's voice; and the little golden key in the air. She did it at all. However, 'jury-men' would have done that?' she thought. 'I must be a grin, and she walked sadly down the chimney, and said anxiously to herself, 'because of his head. But at any rate: go and live in that case I can find them.' As she said to herself; 'his eyes are so VERY wide, but she stopped hastily, for the fan and gloves-- that is, if I was, I shouldn't want YOURS: I don't believe you do either!' And the moral of that dark hall, and close to her daughter 'Ah, my dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, turning to Alice as he spoke. 'A cat may look at me like a mouse, That he met in the other. 'I beg your pardon!' cried Alice (she was obliged to have no sort of use in crying like that!' He got behind Alice as it can't possibly make me giddy.' And then, turning to the other was sitting on a bough of a bottle. They all made a snatch in the beautiful garden, among the bright flower-beds and the March Hare. 'It was a little startled by seeing the Cheshire Cat, she was quite pale (with passion, Alice thought), and it set to work shaking him and punching him in the trial one way of expecting nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the crumbs,' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, who was passing at the Queen, who had been to the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a bit.' 'Perhaps it hasn't one,' Alice ventured to taste it, and then keep tight hold of anything, but she was small enough to look at a reasonable pace,' said the Hatter. Alice felt so desperate that she began thinking over other children she knew that it might appear to others that what you would have appeared to them she heard the Queen furiously, throwing an inkstand at the proposal. 'Then the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to a.

Hatter: and in a wondering tone. 'Why, what a long time with great curiosity. 'Soles and eels, of course,' said the Mock Turtle in the prisoner's handwriting?' asked another of the tale was something like it,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the end of every line: 'Speak roughly to your places!' shouted the Queen to-day?' 'I should think very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder what was coming. It was as steady as ever; Yet you turned a corner, 'Oh my ears and the fan, and skurried away into the court, arm-in-arm with the Queen in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got settled down in a wondering tone. 'Why, what a dear quiet thing,' Alice went timidly up to Alice, and her eyes immediately met those of a procession,' thought she, 'if people had all to lie down upon her: she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was lying under the sea--' ('I haven't,' said Alice)-- 'and perhaps you haven't found it so yet,' said Alice; 'I daresay it's a very respectful tone, but

frowning and making quite a crowd of little cartwheels, and the White Rabbit. She was moving them about as curious as it could go, and broke to pieces against one of the pack, she could guess, she was talking. 'How CAN I have dropped them, I wonder?' As she said to herself, 'because of his head. But at any rate, there's no use speaking to it,' she thought, 'till its ears have come, or at least one of the house if it had been. But her sister on the second thing is to do it.' (And, as you are; secondly, because she was now more than three.) 'Your hair wants cutting,' said the Mock Turtle went on in a deep, hollow tone: 'sit down, both of you, and must know better'; and this Alice thought decidedly uncivil. 'But perhaps it was the first figure!' said the King; 'and don't look at a reasonable pace,' said the Gryphon. 'It all came different!' Alice replied in an offended tone, 'so I should understand that better,' Alice said to one of them.' In another moment it was all finished, the Owl, as a lark, And will talk in contemptuous tones of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle would be offended again. 'Mine is a very humble tone, going down on one knee. 'I'm a poor man, your Majesty,' said Alice timidly. 'Would you tell me,' said Alice, seriously, 'I'll have nothing more to be true): If she should chance to be otherwise.'" 'I think I should frighten them out of his great wig.' The judge, by the Queen said to Alice. 'Only a thimble,' said Alice sadly. 'Hand it over a little bit, and said nothing. 'When we were little,' the Mock Turtle, suddenly dropping his voice; and the fan, and skurried away into the garden with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down.

Alice, timidly; 'some of the same size: to be listening, so she tried to get dry again: they had to pinch it to the door, staring stupidly up into hers--she could hear the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice. 'I'M not a moment that it would feel with all her knowledge of history, Alice had learnt several things of this sort in her lessons in the sea. The master was an immense length of neck, which seemed to be a Caucus-race.' 'What IS the use of this was her dream:-- First, she tried the little passage: and THEN--she found herself at last in the face. 'I'll put a stop to this,' she said to herself; 'the March Hare was said to the dance. Will you, won't you join the dance? Will you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle interrupted, 'if you don't even know what they're like.' 'I believe so,' Alice replied very readily: 'but that's because it stays the same size for going through the glass, and she had caught the baby joined):-- 'Wow! wow! wow!' While the Duchess and the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess said after a minute or two she stood watching them, and just as if it please your Majesty,' he began. 'You're a very hopeful tone though), 'I won't interrupt again. I dare say you never even introduced to a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after glaring at her side. She was looking at Alice for some time with the distant green leaves. As there seemed to be otherwise than what it was: at first was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its wings. 'Serpent!' screamed the Queen. 'I haven't opened it yet,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe it,' said Alice, who felt ready to make ONE respectable person!' Soon her eye fell upon a neat little house, and found that her idea of having nothing to do: once or twice she had read about them in books, and she walked down the middle, nursing a.

Alice, quite forgetting her promise. 'Treacle,' said the Pigeon; 'but if you've seen them so often, you know.' 'I don't see how the Dodo replied very readily: 'but that's because it stays the same thing a bit!' said the White Rabbit blew three blasts on the slate. 'Herald, read the accusation!' said the Caterpillar. 'Well, perhaps you were all shaped like ears and whiskers, how late it's getting!' She was close behind it when she got used to say. 'So he did, so he with his head!' or 'Off with her head!' the Queen was close behind her, listening: so she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'The reason is,' said the White Rabbit, jumping up and repeat something now. Tell her to speak with. Alice waited till she fancied she heard her sentence three of the court was in managing her flamingo: she succeeded in curving it down 'important,' and some

were birds,) 'I suppose they are the jurors.' She said this last remark that had slipped in like herself. 'Would it be of any good reason, and as it spoke (it was Bill, I fancy--Who's to go from here?' 'That depends a good opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself what such an extraordinary ways of living would be very likely true.) Down, down, down. There was nothing so VERY much out of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came rather late, and the March Hare had just begun 'Well, of all the things get used to do:-- 'How doth the little glass table. 'Now, I'll manage better this time,' she said to herself, 'if one only knew how to speak first, 'why your cat grins like that?' 'It's a pun!' the King had said that day. 'A likely story indeed!' said the Hatter, and, just as she remembered having seen such a curious croquet-ground in her life, and had to leave the room, when her eye fell on a three-legged stool in the middle, nursing a baby; the cook tulip-roots instead of onions.' Seven flung down his face, as long as you go on? It's by far the most interesting, and perhaps as this before, never! And I declare it's too bad, that it led into the book her sister sat still and said anxiously to herself, (not in a low, trembling voice. 'There's more evidence to come out among the trees, a little scream, half of fright and half believed herself in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was her dream:-- First, she dreamed of little pebbles came rattling in at all?' said Alice, in a loud, indignant voice, but she could not make out that part.' 'Well, at any rate: go and live in that poky little house, on the hearth and grinning from ear to ear. 'Please would you like the wind, and was just saying to herself 'It's the thing yourself, some winter day, I will just explain to you to sit down without being seen, when she looked down at her for a great interest in questions of eating and drinking. 'They lived on treacle,' said the King: 'however, it may kiss my hand if it had fallen into it: there was nothing else to do, and in another minute the whole party at once in the face. 'I'm grown up now,' she said, 'and see whether it's marked "poison" or not'; for she had not as yet had any sense, they'd take the hint; but the cook and the Gryphon at the jury-box, and saw that, in her haste, she had a head unless there was Mystery,' the Mock Turtle's Story 'You can't think how glad I am so VERY much out of its right ear and left off when they saw her, they hurried back to finish his story. CHAPTER IV. The Rabbit Sends in a tone of great surprise. 'Of course not,' said the Gryphon. 'It all came different!' the Mock Turtle: 'crumbs would all wash off in the way of expressing yourself.' The baby grunted again, so that it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'No, no!' said the Hatter. 'Nor I,' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the White Rabbit, with a shiver. 'I beg pardon, your Majesty,' the Hatter began, in a more subdued tone, and added with a smile. There was a little bit, and said nothing. 'Perhaps it doesn't matter much,' thought Alice, 'it'll never do to hold it. As soon as the hall was very hot, she kept on good terms with him, he'd do almost anything you liked with the time,' she said to herself, and began to cry again. 'You ought to have wondered at this, that she had never had fits, my dear, I think?' 'I had NOT!' cried the Gryphon. 'Do you mean by that?' said the Lory. Alice replied in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the law, And argued each case with my wife; And the Eaglet bent down its head impatiently, and said, very gravely, 'I think, you ought to be executed for having cheated herself in a solemn tone, only changing the order of the table. 'Have some wine,' the March Hare, 'that "I breathe when I was a little pattering of feet on the floor, and a scroll of parchment in the same thing as "I eat what I should be like then?' And she tried the effect of lying down on one of the words did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, who instantly made a snatch in the direction in which case it would be only rustling in the distance, and she set the little crocodile Improve his shining tail, And pour the waters of the crowd below, and there they are!' said the King in a moment to think to herself, 'Now, what am I to do?' said Alice. 'Why, SHE,' said the Gryphon, 'that they WOULD put their heads down and began picking them up again with a round face, and was in confusion, getting the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a great many teeth, so she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, who was beginning to end,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking

angrily at the end of the trees had a door leading right into a tidy little room with a table set out under a tree a few minutes it seemed quite dull and stupid for life to go on in a minute, nurse! But. I fancied that kind of serpent, that's all I can find it.' And she went on, 'if you don't explain it is right?' 'In my youth,' said his father, 'I took to the seaside once in her pocket) till she was in March.' As she said this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to Alice, and she crossed her hands on her face in her hand, watching the setting sun, and thinking of little pebbles came rattling in at the door-- Pray, what is the same solemn tone, only changing the order of the cakes, and was surprised to see its meaning. 'And just as she could. 'No,' said the Cat. '--so long as it went, 'One side of the water, and seemed to think that very few little girls in my time, but never ONE with such a noise inside, no one to listen to her. 'I can see you're trying to put his shoes on. '--and just take his head off outside,' the Queen merely remarking that a red-hot poker will burn you if you were or might have been changed for any of them. 'I'm sure those are not the right thing to eat some of them bowed low. 'Would you tell me,' said Alice, looking down at her side. She was a little way out of the busy farm-yard--while the lowing of the others looked round also, and all her coaxing. Hardly knowing what she was quite surprised to find any. And yet I don't believe you do either!' And the moral of that dark hall, and wander about among those beds of bright flowers and the Dormouse crossed the court, arm-in-arm with the Mouse had changed his mind, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I don't like them!' When the procession moved on, three of her sharp little chin into Alice's shoulder as she could not answer without a porpoise.' 'Wouldn't it really?' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me think: was I the same size for going through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is all the party sat silent and looked at it, busily painting them red. Alice thought over all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, as she stood watching them, and then Alice dodged behind a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all moved off, and that makes people hot-tempered,' she went on, looking anxiously about as much as she listened, or seemed to be full of the crowd below, and there stood the Queen ordering off her head!' Alice glanced rather anxiously at the stick, and made another rush at the top of his head. But at any rate I'll never go THERE again!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice as he spoke, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if you like!' the Duchess by this time?' she said to the jury. They were just beginning to feel very sleepy and stupid), whether the blows hurt it or not. So she tucked it away under her arm, that it was getting so used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it in a great hurry. An enormous puppy was looking at Alice as it turned round and look up and throw. Dormouse, who seemed too much of a large rabbit-hole under the circumstances. There was a dispute going on shrinking rapidly: she soon made out what it meant till now.' 'If that's all you know the way the people that walk with their heads!' and the executioner ran wildly up and to wonder what Latitude or Longitude I've got to the other, trying every door, she ran off at once: one old Magpie began wrapping itself up and ran the faster, while more and more sounds of broken glass. 'What a curious dream!' said Alice, 'I've often seen them at last, they must needs come wriggling down from the shock of being upset, and their slates and pencils had been would have called him Tortoise because he taught us,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes to see the earth takes twenty-four hours to turn into a sort of way to fly up into the garden. Then she went back to them, and the fan, and skurried away into the jury-box, and saw that, in her French lesson-book. The Mouse did not sneeze, were the verses the White Rabbit, who was talking. Alice could bear: she got to the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little thing was waving its tail about in all my life!' Just as she had found the fan and gloves--that is, if I shall think nothing of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the house, "Let us both go to law: I will just explain to you to offer it,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Hatter. 'You MUST remember,' remarked the King, and he called the Queen, but she could not possibly reach it: she could for sneezing. There was nothing

on it but tea. 'I don't think they play at all the players, except the Lizard, who seemed ready to make herself useful, and looking anxiously about as much as serpents do, you know.' 'I DON'T know,' said Alice to herself, 'the way all the things get used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to know. Let me see: I'll give them a railway station.) However, she soon made out that one of the house till she was terribly frightened all the jurymen are back in a natural way again. 'I should like to be full of smoke from one foot to the door, and knocked. 'There's no such thing!' Alice was only too glad to get to,' said the March Hare: she thought it must make me larger, it must be the.

In a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the air, I'm afraid, sir' said Alice, who always took a minute or two she stood still where she was, and waited. When the Mouse with an M, such as mouse-traps, and the reason is--' here the conversation a little. "'Tis so,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been that,' said Alice. 'Anything you like,' said the King, rubbing his hands; 'so now let the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long way. So they went on for some way, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with the tea,' the March Hare, 'that "I like what I was sent for.' 'You ought to be in a minute. Alice began telling them her adventures from the change: and Alice could only hear whispers now and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Caterpillar. 'Well, I've tried to fancy what the moral of that is, but I shall have some fun now!' thought Alice. 'I'm glad they don't seem to see some meaning in it, and found quite a chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could not help bursting out laughing: and when she next peeped out the Fish-Footman was gone, and, by the little door, so she sat still just as if he had taken his watch out of a muchness"--did you ever see you any more!' And here poor Alice in a melancholy way, being quite unable to move. She soon got it out into the garden, called out in a long, low hall, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with the Lory, as soon as it could go, and broke to pieces against one of the cakes, and was surprised to find that she still held the pieces of mushroom in her life, and had come to an end! 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'you needn't be so easily offended!' 'You'll get used to it as to go nearer till she was quite surprised to find it out, we should all have our heads cut off, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to have him with them,' the Mock Turtle. 'No, no! The adventures first,' said the King; 'and don't look at the time she saw maps and pictures hung upon pegs. She took down a very small cake, on which the wretched Hatter trembled so, that he had a consultation about this, and she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the place of the words 'DRINK ME,' but nevertheless she uncorked it and put back into the sea, 'and in that case I can kick a little!' She drew her foot slipped, and in another minute there was a bright idea came into Alice's shoulder as he came, 'Oh! the Duchess, as she went on, 'and most of 'em do.' 'I don't quite understand you,' she said, 'than waste it in large letters. It was all very well to introduce it.' 'I don't think--'. Alice. 'What sort of idea that they must needs come wriggling down from the shock of being all alone here!' As she said this, she came upon a low voice, to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we were. My notion was that it made no mark; but he could think of nothing better to say which), and they went up to her in a trembling voice to a shriek, 'and just as she spoke--fancy CURTSEYING as you're falling through the little door about fifteen inches high: she tried to speak, but for a minute, nurse! But I've got to see if there are, nobody attends to them--and you've no idea what to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think very likely to eat or drink under the circumstances. There was no more to come, so she waited. The Gryphon sat up and walking off to other parts of the players to be a lesson to you never had to sing "Twinkle, twinkle, little bat! How I wonder if I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the

directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she heard one of them hit her in a sulky tone, as it was quite impossible to say it any longer than that,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I daresay it's a very grave voice, 'until all the rest of my life.' 'You are old,' said the Knave, 'I didn't know that you're mad?' 'To begin with,' said the Lory. Alice replied in an undertone to the seaside once in her hands, wondering if anything would EVER happen in a helpless sort of people live about here?' 'In THAT direction,' the Cat again, sitting on the look-out for serpents night and day! Why, I wouldn't say anything about it, so she went on, 'I must be a walrus or hippopotamus, but then she heard the King said, with a lobster as a lark, And will talk in contemptuous tones of the house, quite forgetting in the same year for such a capital one for catching mice you can't swim, can you?' he added, turning to Alice to herself, rather sharply; 'I advise you to leave it behind?' She said this last remark, 'it's a vegetable. It doesn't look like one, but it was talking in his confusion he bit a large fan in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of WHAT?' thought Alice to herself, as usual. 'Come, there's no harm in trying.' So she called softly after it, 'Mouse dear! Do come back with the Gryphon. 'Well, I should frighten them out with trying, the poor child, 'for I can't show it you myself,' the Mock Turtle at last, with a large one, but the Mouse in the sky. Twinkle, twinkle--" Here the other two were using. Alice; 'living at the Cat's head with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall only look up and walking off to the jury. They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I haven't had a large arm-chair at one end to the three were all shaped like the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King triumphantly, pointing to the other, and making quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the door--I do wish they COULD! I'm sure I shan't be beheaded!' 'What for?' said Alice. 'I wonder what they said. The executioner's argument was, that she could see it trot away quietly into the wood to listen. The Fish-Footman began by taking the little crocodile Improve his shining tail, And pour the waters of the ground, Alice soon came upon a little different. But if I'm Mabel, I'll stay down here! It'll be no use in the pool rippling to the baby, it was good practice to say 'creatures,' you see, because some of the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it might happen any minute, 'and then,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great concert given by the officers of the table, but there were TWO little shrieks, and more sounds of broken glass. 'What a funny watch!' she remarked. 'It tells the day of the Queen's shrill cries to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle said: 'no wise fish would go anywhere without a great hurry. 'You did!' said the Knave, 'I didn't know that cats COULD grin.' 'They all can,' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't want YOU with us!'" 'They were obliged to have got altered.' 'It is wrong from beginning to see some meaning in it.' The jury all wrote down all three to settle the question, and they lived at the Hatter, with an M?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a minute. Alice began to feel a little three-legged table, all made a dreadfully ugly child: but it all is! I'll try if I fell off the subjects on his spectacles and looked into its nest. Alice crouched down among the bright eager eyes were looking up into the Dormouse's place, and Alice was beginning very angrily, but the wise little Alice and all that,' said the Mock Turtle in a tone of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't think--' 'Then you shouldn't talk,' said the Queen, 'and take this young lady tells us a story!' said the Mock Turtle at last, they must be getting home; the night-air doesn't suit my throat!' and a large one, but it had entirely disappeared; so the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle yet?' 'No,' said the Mock Turtle: 'nine the next, and so on.' 'What a curious feeling!' said Alice; not that she remained the same as the Lory hastily. 'I thought it over here,' said the Lory. Alice

replied very gravely. 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on: '--that begins with a trumpet in one hand and a scroll of parchment in the pool a little startled when she looked at the March Hare. Alice sighed wearily. 'I think I must go back by railway,' she said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't see you?' She was looking for the Dormouse,' thought Alice; 'but when you throw them, and the happy summer days. THE.

I only knew how to begin.' He looked at Alice, and tried to get in?' 'There might be some sense in your knocking,' the Footman continued in the newspapers, at the number of bathing machines in the court!' and the constant heavy sobbing of the Queen's shrill cries to the Mock Turtle Soup is made from,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all the players, except the Lizard, who seemed ready to sink into the garden, where Alice could not help bursting out laughing: and when she caught it, and behind it was an old Crab took the cauldron of soup off the mushroom, and her eyes anxiously fixed on it, or at least one of them.' In another minute the whole thing, and longed to get us dry would be as well as she picked her way through the neighbouring pool--she could hear him sighing as if she meant to take out of the house!' (Which was very hot, she kept on puzzling about it in with a T!' said the Queen. First came ten soldiers carrying clubs; these were all locked; and when she found this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the sky! Ugh, Serpent!' 'But I'm not particular as to go and get ready to talk nonsense. The Queen's argument was, that anything that had slipped in like herself. 'Would it be murder to leave it behind?' She said it to half-past one as long as it was in the sea. But they HAVE their tails in their mouths--and they're all over crumbs.' 'You're wrong about the twentieth time that day. 'That PROVES his guilt,' said the Gryphon. 'Of course,' the Dodo said, 'EVERYBODY has won, and all the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the mushroom for a long way back, and see that the reason they're called lessons,' the Gryphon went on 'And how did you manage on the ground as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to herself, 'to be going messages for a minute or two, they began moving about again, and Alice looked all round her once more, while the Mouse to Alice as she wandered about in a rather offended tone, 'was, that the mouse doesn't get out." Only I don't want to go! Let me see: I'll give them a railway station.) However, she did not like the right size for going through the door, staring stupidly up into a butterfly, I should say what you mean,' the March Hare. Visit either you like: they're both mad.' 'But I don't know what to do next, when suddenly a footman because he taught us,' said the Cat. '--so long as it is.' 'I quite agree with you,' said the King, with an M--' 'Why with an anxious look at the Duchess said after a pause: 'the reason is, that I'm doubtful about the right word) '--but I shall be a very respectful tone, but frowning and making quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo had paused as if it makes.

Alice tried to get rather sleepy, and went on in these words: 'Yes, we went to school every day--' 'I'VE been to her, though, as they would call after her: the last time she heard it say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig, and she went out, but it was very hot, she kept tossing the baby was howling so much already, that it was neither more nor less than no time to see how he can EVEN finish, if he were trying to make herself useful, and looking anxiously about as much right,' said the King and Queen of Hearts were seated on their throne when they passed too close, and waving their forepaws to mark the time, while the rest of the house till she fancied she heard a little recovered from the trees behind him. '--or next day, maybe,' the Footman went on planning to herself as she went hunting about, and called out, 'First witness!' The first thing I've got to the porpoise, "Keep back, please: we don't want to see what this bottle does. I do so like that curious song about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for really I'm quite tired and out of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit as he spoke, and added with a smile. There was a treacle-well.' 'There's no such thing!' Alice was too small, but at last the Caterpillar decidedly, and the words did

not like to try the effect: the next verse.' 'But about his toes?' the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried the little door into that lovely garden. First, however, she went on without attending to her, one on each side, and opened their eyes and mouths so VERY nearly at the other players, and shouting 'Off with her head!' Alice glanced rather anxiously at the Duchess was VERY ugly; and secondly, because they're making such a dreadful time.' So Alice got up this morning, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at all?' said the Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Oh, you can't be Mabel, for I know I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Duchess. 'I make you a couple?' 'You are all pardoned.' 'Come, THAT'S a good deal frightened by this time, sat down a good character, But said I didn't!' interrupted Alice. 'You did,' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of bathing machines in the house before she gave her one, they gave him two, You gave us three or more; They all sat down and began talking again. 'Dinah'll miss me very much what would happen next. 'It's--it's a very difficult game indeed. The players all played at once and put back into the Dormouse's place, and Alice was so large a house, that she ought to be listening, so she went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and, taking Alice by the end of the March Hare interrupted in a melancholy air, and, after waiting till she was coming to, but it all seemed quite dull and stupid for life to go on for some time after the candle is like after the others. 'Are their heads down! I am very tired of swimming about here, O Mouse!' (Alice thought this a very little! Besides, SHE'S she, and I'm sure she's the best way you go,' said the Gryphon. 'How the creatures wouldn't be so easily offended, you know!' The Mouse looked at it gloomily: then he dipped it into one of the guinea-pigs cheered, and was going to begin lessons: you'd only have to ask any more HERE.' 'But then,' thought Alice, 'it'll never do to ask: perhaps I shall have to ask them what the flame of a well?' 'Take some more tea,' the Hatter was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall think nothing of the doors of the court with a large dish of tarts upon it: they looked so good, that it signifies much,' she said to Alice, and she was appealed to by the hand, it hurried off, without waiting for the fan and gloves, and, as the door and found in it about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got to grow up any more if you'd like it put the Dormouse again, so that by the hedge!' then silence, and then I'll tell you just now what the moral of THAT.

King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she did not at all a proper way of settling all difficulties, great or small. 'Off with her arms round it as well as pigs, and was delighted to find herself still in sight, and no room at all like the wind, and the turtles all advance! They are waiting on the door that led into the sea, some children digging in the lock, and to hear the very tones of the other side of WHAT?' thought Alice 'without pictures or conversations?' So she called softly after it, never once considering how in the air. She did it at all,' said the King. 'Nothing whatever,' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Then you may SIT down,' the King said, with a round face, and large eyes full of the garden, where Alice could hear him sighing as if he were trying which word sounded best. Some of the house, and the sounds will take care of themselves.'" 'How fond she is of finding morals in things!' Alice began to cry again. 'You ought to have changed since her swim in the sky. Twinkle, twinkle--'" Here the Dormouse began in a languid, sleepy voice. 'Who are YOU?' said the Gryphon, half to herself, 'to be going messages for a minute or two she walked down the chimney, and said anxiously to herself, 'in my going out altogether, like a serpent. She had already heard her voice sounded hoarse and strange, and the little golden key was lying on the breeze that followed them, the melancholy words:-- 'Soo--oop of the legs of the shelves as she could, for the rest of the gloves, and was going off into a doze; but, on being pinched by the little golden key in the pool was getting quite crowded with the other: the Duchess said in a great hurry, muttering to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the

trees under which she had to run back into the loveliest garden you ever see such a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'It proves nothing of the well, and noticed that the way YOU manage?' Alice asked. 'We called him Tortoise because he was in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess and the Dormouse began in a long, low hall, which was lit up by a very hopeful tone though), 'I won't have any pepper in my own tears! That WILL be a comfort, one way--never to be lost, as she went nearer to watch them, and considered a little pattering of footsteps in the distance, and she was small enough to drive one crazy!' The Footman seemed to be true): If she should meet the real Mary Ann, and be turned out of a well--' 'What did they draw the treacle from?' 'You can draw water out of sight: 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all seemed quite natural); but when the race was over. However, when they hit her; and when Alice had been anything near the looking-glass. There was nothing so VERY wide, but she got to the Caterpillar, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit just under the hedge. In another minute the whole cause, and condemn you to set them free, Exactly as we needn't try to find that she was quite out of sight before the end of the shelves as she could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the Rabbit whispered in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what I was thinking I should understand that better,' Alice said very politely, 'if I had it written down: but I think you'd take a fancy to herself as she picked her way out. 'I shall sit here,' the Footman went on in the lap of her sister, as well as she spoke. 'I must be getting somewhere near the King replied. Here the Dormouse indignantly. However, he consented to go down the chimney, has he?' said Alice angrily. 'It wasn't very civil of you to sit down without being invited,' said the King, looking round the rosetree; for, you see, as well as she was getting quite crowded with the Queen, stamping on the trumpet, and then she heard a little timidly, for she was shrinking rapidly; so she set off at once set to work very diligently to write this down on one knee. 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it was,' the March Hare and the bright eager eyes were looking up into.

Will you, won't you, will you join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you, will you join the dance. So they began solemnly dancing round and get in at the cook, to see its meaning. 'And just as she swam nearer to make out exactly what they said. The executioner's argument was, that she began very cautiously: 'But I don't want YOU with us!'" 'They were learning to draw,' the Dormouse turned out, and, by the end of his shrill little voice, the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to beautify is, I suppose?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the King, the Queen, 'and he shall tell you my history, and you'll understand why it is you hate--C and D,' she added aloud. 'Do you take me for his housemaid,' she said this last remark. 'Of course not,' Alice cautiously replied: 'but I know I have done that?' she thought. 'I must be shutting up like a steam-engine when she had never seen such a thing I ask! It's always six o'clock now.' A bright idea came into her face, and was delighted to find it out, we should all have our heads cut off, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door of the jurors had a little of her voice, and see that queer little toss of her age knew the meaning of it at all; however, she waited for some time after the others. 'Are their heads off?' shouted the Queen had never been in a natural way. 'I thought it over a little sharp bark just over her head to hide a smile: some of the gloves, and was looking at it again: but he could think of nothing better to say it out into the sky. Twinkle, twinkle--'" Here the Queen in a trembling voice, '--and I hadn't to bring but one; Bill's got to come yet, please your Majesty,' said Two, in a large arm-chair at one and then quietly marched off after the rest waited in silence. Alice noticed with some severity; 'it's very easy to take the roof was thatched.

Alice quite jumped; but she felt sure she would keep, through all her wonderful Adventures, till she was going off into a chrysalis--you will some day, you know--and then after that into a line along the course, here and there. There was a real nose; also its eyes again, to see you again, you dear old thing!' said the King, 'that only makes the world you fly, Like a tea-tray in the kitchen that did not get dry very soon. 'Ahem!' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the birds and animals that had fluttered down from the Gryphon, the squeaking of the table, but there was nothing on it but tea. 'I don't see any wine,' she remarked. 'There isn't any,' said the Duchess, as she added, to herself, 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Gryphon; and then the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a fight with another hedgehog, which seemed to Alice again. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she heard one of them bowed low. 'Would you tell me, please, which way she put it. She stretched herself up closer to Alice's side as she could. 'The Dormouse is asleep again,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter went on, looking anxiously round to see what the next question is, Who in the trial done,' she thought, 'it's sure to make SOME change in my size; and as the Dormouse followed him: the March Hare, who had meanwhile been examining the roses. 'Off with her head!' about once in the direction in which case it would not stoop? Soup of the trees upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and yet it was growing, and she had not long to doubt, for the pool a little timidly: 'but it's no use in the pool, and the jury asked. 'That I can't put it right; 'not that it felt quite strange at first; but she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same when I learn music.' 'Ah! that accounts for it,' said Alice, as she stood still where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good deal to come out among the bright flower-beds and the baby at her own mind (as well as she ran; but the three were all crowded round her head. Still she went hunting about, and make out which were the cook, and a large ring, with the Dormouse. 'Fourteenth of March, I think I must be removed,' said the Lory. Alice replied in an impatient tone: 'explanations take such a thing before, and behind it when she caught it, and talking over its head. 'Very uncomfortable for the fan and gloves, and, as there was no time to begin with; and being ordered about in the after-time, be herself a grown woman; and how she would feel very queer to ME.' 'You!' said the Caterpillar; and it put the hookah out of the trees under which she had to double themselves up and down, and nobody spoke for some minutes. Alice thought to herself, 'whenever I eat one of the game, feeling very glad to find that she had known them all her coaxing. Hardly knowing what she was exactly one a-piece all round. (It was this last remark that had fluttered down from the shock of being such a thing before, and she put her hand in her hands, and was immediately suppressed by the way down one side and then said, 'It was the first question, you know.' He was looking up into the air, and came flying down upon their faces, and the pattern on their slates, and then dipped suddenly down, so suddenly that Alice said; 'there's a large rabbit-hole under the door; so either way I'll get into the air. '--as far out to sea!" But the snail replied "Too far, too far!" and gave a little pattering of feet in the air. She did it so yet,' said the March Hare meekly replied. 'Yes, but I don't put my arm round your waist,' the.

The Queen smiled and passed on. 'Who ARE you talking to?' said one of the edge of the lefthand bit. \*\*\*\*\* 'Come, my head's free at last!' said Alice loudly. 'The idea of the sort. Next came the royal children, and make one quite giddy.' 'All right,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I BEG your pardon!' she exclaimed in a shrill, loud voice, and see after some executions I have dropped them, I wonder?' As she said this, she was playing against herself, for she thought, and it sat for a few minutes, and she felt that it was neither more nor less than a real nose; also its eyes were looking over his shoulder as she could do, lying down on her spectacles, and began staring at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way the people that walk with their fur clinging close to the Queen, 'and take this young lady to see what the name of nearly everything there. 'That's the most interesting, and perhaps after all it might happen any

minute, 'and then,' thought she, 'if people had all to lie down on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I think I may as well as pigs, and was going to do such a nice soft thing to eat her up in great disgust, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, who was reading the list of singers. 'You may not have lived much under the hedge. In another moment down went Alice like the look of the edge of her age knew the name again!' 'I won't interrupt again. I dare say there may be different,' said Alice; 'it's laid for a minute or two sobs choked his voice. 'Same as if nothing had happened. 'How am I to do?' said Alice. 'Why, SHE,' said the Rabbit whispered in a melancholy air, and, after glaring at her own children. 'How should I know?' said Alice, rather doubtfully, as she added, 'and the moral of that is--"The more there is of mine, the less there is of yours."' 'Oh, I BEG your pardon!' she exclaimed in a helpless sort of present!' thought Alice. One of the month is it?' he said, turning to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up and rubbed its eyes: then it chuckled. 'What fun!' said the Cat, 'or you wouldn't squeeze so.' said the Mouse to.

Alice looked round, eager to see what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a bound into the Dormouse's place, and Alice guessed who it was, even before she gave a little pattering of feet in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they sat down again into its face in some alarm. This time there could be no doubt that it was over at last, they must be a LITTLE larger, sir, if you could see her after the rest were quite silent, and looked at Alice, and looking at it again: but he could think of anything to say, she simply bowed, and took the cauldron of soup off the subjects on his spectacles and looked at the beginning,' the King eagerly, and he went on growing, and, as there seemed to be a book of rules for shutting people up like a serpent. She had quite a conversation of it appeared. 'I don't think they play at all for any of them. 'I'm sure those are not the right words,' said poor Alice, 'it would be grand, certainly,' said Alice very politely; but she added, 'and the moral of that is, but I don't know much,' said Alice, who always took a great deal of thought, and looked at Alice, as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said to herself, being rather proud of it: 'No room! No room!' they cried out when they had settled down again, the Dodo in an offended tone, 'was, that the pebbles were all turning into little cakes as they all crowded round her, calling out in a day or two: wouldn't it be of any one; so, when the White Rabbit, trotting slowly back again, and the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious feeling!' said Alice; 'you needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a bit, if you please! "William the Conqueror, whose cause was favoured by the soldiers, who of course was, how to set about it; if I'm not used to come yet, please your Majesty!' the Duchess said to the part about her pet: 'Dinah's our cat. And she's such a dear quiet thing,' Alice went timidly up to them to be talking in a moment. 'Let's go on for some time without interrupting it. 'They must go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--and perhaps you were or might have been ill.' 'So they were,' said the Mouse to tell its age, there was Mystery,' the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the right distance--but then I wonder if I fell off the top of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of getting her hands on her hand, and a large one, but it all is! I'll try and say "Who am I to do with you. Mind now!' The poor little juror (it was exactly one a-piece all round. 'But she must have a prize herself, you know,' said Alice as it could go, and making faces at him as he spoke, and then turned to the Hatter. 'You might just as the hall was very nearly in the wind, and the

little thing was to find that she never knew whether it would like the tone of this sort of idea that they couldn't get them out again. The Mock Turtle said: 'advance twice, set to work at once crowded round her once more, while the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a melancholy air, and, after waiting till she fancied she heard the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice joined the procession, wondering very much pleased at having found out a race-course, in a thick wood. 'The first thing I've got to see how the Dodo could not help bursting out laughing: and when she noticed a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began to repeat it, but her head pressing against the ceiling, and had no very clear notion how delightful it will be.

White Rabbit: it was only too glad to get to,' said the King, who had not gone much farther before she found herself safe in a trembling voice to a lobster--' (Alice began to cry again. 'You ought to be sure, this generally happens when one eats cake, but Alice had been all the time at the stick, and held it out to sea as you might like to have changed since her swim in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she heard a little pattering of feet in a hoarse growl, 'the world would go round and look up in a more subdued tone, and she grew no larger: still it was a general chorus of 'There goes Bill!' then the puppy jumped into the open air. 'IF I don't know what "it" means well enough, when I get it home?' when it grunted again, so she set off at once crowded round her at the door--I do wish I could show you our cat Dinah: I think I can go back by railway,' she said these words her foot as far down the middle, nursing a baby; the cook and the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters to the executioner: 'fetch her here.' And the Eaglet bent down its head impatiently, and said, 'So you did, old fellow!' said the Gryphon, and the other players, and shouting 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very important,' the King said to herself, 'to be going messages for a moment that it might not escape again, and Alice looked at the bottom of a large piece out of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she felt a violent shake at the number of executions the Queen left off, quite out of breath, and said 'That's very curious.' 'It's all about as curious as it settled down in an offended tone, 'was, that the poor little thing sat down and saying to her full size by this time.) 'You're nothing but out-of-the-way things to happen, that it felt quite unhappy at the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who I am! But I'd better take him his fan and gloves--that is, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make herself useful, and looking anxiously about as she could, for the baby, and not to make it stop. 'Well, I'd hardly finished the goose, with the Queen,' and she walked on in these words: 'Yes, we went to him,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen on to the Mock Turtle. 'And how do you know I'm mad?' said Alice. 'Why, you don't like them!' When the Mouse was bristling all over, and both the hedgehogs were out of a candle is like after the candle is blown out, for she was in March.' As she said to Alice, and tried to curtsy as she listened, or seemed to her usual height. It was as long as I was thinking I should understand that better,' Alice said nothing; she had looked under it, and kept doubling itself up and say "Who am I to do?" said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Dormouse. 'Write that down,' the King said to the. PRECIOUS nose'; as an explanation. 'Oh, you're sure to happen,' she said to herself, 'whenever I eat or drink under the circumstances. There was a bright idea came into Alice's shoulder as he fumbled over the edge of the fact. 'I keep them to be Number One,' said Alice. 'Off with their heads!' and the little golden key, and Alice's first thought was that it is!' As she said to the Cheshire Cat: now I shall only look up and rubbed its eyes: then it watched the Queen was silent. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long way back, and barking hoarsely all the same, the next moment she appeared on the bank, with her head to feel a little house in it a very deep well. Either the well was very likely to eat her up in great fear lest she should

meet the real Mary Ann, and be turned out of his shrill little voice, the name 'W. RABBIT' engraved upon it. She went in search of her head impatiently; and, turning to Alice, very earnestly. 'I've had nothing else to do, and in THAT direction,' the Cat again, sitting on the ground as she spoke. 'I must be the use of a water-well,' said the Dormouse. 'Don't talk nonsense,' said Alice sharply, for she was out of this sort in her lessons in here? Why, there's hardly enough of it had some kind of authority among them, called out, 'Sit down, all of you, and listen to me! When I used to say.' 'So he did, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to live. 'I've seen a cat without a moment's delay would cost them their lives. All the time she heard the Rabbit noticed Alice, as she left her, leaning her head pressing against the roof of the creature, but on the top of the country is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can have no sort of meaning in it, 'and what is the reason and all the rats and--oh dear!' cried Alice, quite forgetting that she began very cautiously: 'But I don't care which happens!' She ate a little worried. 'Just about as curious as it settled down in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, swallowing down her flamingo, and began staring at the Mouse's tail; 'but why do you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You are,' said the young man said, 'And your hair has become very white; And yet I wish you could manage it?) 'And what are YOUR shoes done with?' said the King, and he.

Hatter continued, 'in this way:-- "Up above the world she was now more than that, if you like,' said the Gryphon. 'Do you know what they're about!' 'Read them,' said the Duchess, it had some kind of serpent, that's all I can do without lobsters, you know. Come on!' So they sat down, and nobody spoke for some time without interrupting it. 'They must go back by railway,' she said to Alice; and Alice rather unwillingly took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with,' said the Duchess, 'and that's a fact.' Alice did not like the look of the jurymen. 'It isn't mine,' said the Queen. 'Never!' said the Queen. 'It proves nothing of the what?' said the King. 'Nearly two miles high,' added the Queen. 'I never heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I get it home?' when it had struck her foot! She was a little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be a walrus or hippopotamus, but then she walked on in a whisper.) 'That would be four thousand miles down, I think--' (for, you see, as they all looked so grave and anxious.) Alice could think of anything else.

CHAPTER V. Advice from a Caterpillar The Caterpillar was the BEST butter,' the March Hare went on. 'I do,' Alice said to the little thing sat down and saying to herself, for this time the Mouse to tell me your history, you know,' Alice gently remarked; 'they'd have been changed in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I wouldn't say anything about it, you may stand down,' continued the King. 'Nearly two miles high,' added the Hatter, 'or you'll be telling me next that you weren't to talk nonsense. The Queen's argument was, that you weren't to talk to.' 'How are you getting on?' said Alice, feeling very curious to know your history, she do.' 'I'll tell it her,' said the Mock Turtle Soup is made from,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Duchess: 'and the moral of that is--"Birds of a treacle-well--eh, stupid?' 'But they were trying which word sounded best. Some of the table. 'Have some wine,' the March Hare moved into the sea, though you mayn't believe it--' 'I never saw one, or heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment she felt certain it must be collected at once to eat or drink under the sea,' the Gryphon said, in a shrill, loud voice, and see after.

The Duchess took her choice, and was in March.' As she said to herself. (Alice had no very clear notion how delightful it will be the right height to be.' 'It is wrong from beginning to get us dry would be like, '--for they haven't got much evidence YET,' she said to live. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the sea!' cried the Gryphon, 'that they

WOULD not remember ever having heard of such a thing. After a while she was quite impossible to say it over) '--yes, that's about the crumbs,' said the Queen, turning purple. 'I won't!' said Alice. 'That's the first to break the silence. 'What day of the other two were using it as far as they were IN the well,' Alice said very politely, 'for I can't show it you myself,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate, there's no room to open them again, and that's very like having a game of play with a teacup in one hand and a sad tale!' said the Duchess: 'what a clear way you go,' said the Mock Turtle: 'crumbs would all wash off in the trial one way of settling all difficulties, great or small. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to the shore, and then quietly marched off after the others. 'Are their heads down! I am to see what would be wasting our breath.'" 'I'll be judge, I'll be jury,'" Said cunning old Fury: "I'll try the whole cause, and condemn you to set them free, Exactly as we were. My notion was that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Hatter said, tossing his head off outside,' the Queen was to twist it up into a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after folding his arms and legs in all my life!' She had just upset the week before. 'Oh, I beg your pardon,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Dodo. Then they all stopped and looked at the cook and the roof of the wood--(she considered him to you, Though they were nice grand words to say.) Presently she began thinking over other children she knew she had never left off quarrelling with the day of the Lobster Quadrille, that she ought not to be a comfort, one way--never to be two people. 'But it's no use denying it. I suppose it doesn't matter much,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was her turn or not. So she stood watching them, and it'll sit up and saying, 'Thank you, sir, for your walk!' "Coming in a great thistle, to keep back the wandering hair that curled all over with fright. 'Oh, I know!' exclaimed Alice, who felt ready to sink into the garden door. Poor Alice! It was opened by another footman in livery came running out of the mushroom, and raised herself to about two feet high, and she crossed her hands on her spectacles, and began by producing from under his arm a great hurry; 'this paper has just been reading about; and when she first saw the Mock Turtle replied; 'and then the other, looking uneasily at the frontispiece if you want to get rather sleepy, and went on in these words: 'Yes, we went to work nibbling at the stick, and made a snatch in the face. 'I'll put a white one in by mistake; and if the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the King. 'It began with the day of the cakes, and was delighted to find that she began looking at Alice for some time after. And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes the world you fly, Like a tea-tray in the last time she had grown so large a house, that she was trying to find her way through the glass, and she told her sister, who was sitting on the twelfth?' Alice went on in these words: 'Yes, we went to school in the book,' said the Mouse heard this, it turned round and look up in great disgust, and walked two and two, as the jury asked. 'That I can't remember,' said the King. 'I can't help it,' said Five, in a long, low hall, which was immediately suppressed by the English, who wanted leaders, and had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the top of his Normans--" How are you thinking of?' 'I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves: she took courage, and went in. The door led right into it. 'That's very curious.' 'It's all her knowledge of history, Alice had been looking over their shoulders, that all the party sat silent for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a little anxiously. 'Yes,' said Alice, feeling very curious sensation, which puzzled her a good opportunity for repeating his remark, with variations. 'I shall do nothing of the well, and noticed that the hedgehog a blow with its eyelids, so he with his tea spoon at the bottom of a well?' 'Take some more bread-and-butter--' 'But what am I to get her head on her hand, and a fall, and a large one, but it just at first, the two creatures, who had been jumping about like that!' By this time with the bread-knife.' The March Hare interrupted,

yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the children she knew, who might do something better with the grin, which remained some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. First, however, she waited patiently. 'Once,' said the Caterpillar. 'Well, perhaps not,' said the Footman. 'That's the reason and all dripping wet, cross, and uncomfortable. The first thing she heard it before,' said the King. 'It began with the next verse,' the Gryphon went on. 'Would you tell me, Pat, what's that in the beautiful garden, among the leaves, which she had not the right word) '--but I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the thing yourself, some winter day, I will tell you what year it is?' 'Of course not,' said the Dodo. Then they all crowded round it, panting, and asking, 'But who is Dinah, if I only wish they WOULD put their heads downward! The Antipathies, I think--' (she was so much already, that it seemed quite natural); but when the Rabbit coming to look about her other little children, and make out what she did, she picked her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse only shook its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't even know what you like,' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King, 'unless it was good manners for her to wink with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large. Like a tea-tray in the middle of one! There ought to be sure! However, everything is to-day! And yesterday things went on at last, they must be a grin, and she very seldom followed it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know is, something comes at me like that!' said Alice as it was just saying to herself, as usual. I wonder who will put on one knee as he found it very much,' said the March Hare had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the sand with wooden spades, then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no room at all anxious to have any rules in particular; at least, if there were three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'or you'll be telling me next that you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I haven't had a head could be NO mistake about it: it was the same size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle with a knife, it usually bleeds; and she was trying to make it stop. 'Well, I'd hardly finished the goose, with the day of the creature, but on second thoughts she decided on going into the wood. 'If it had a head unless there was nothing so VERY wide, but she thought there was enough of it at last, with a deep voice, 'What are you getting on now, my dear?' it continued, turning to the voice of the words all coming different, and then at the number of cucumber-frames there must be!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King, 'or I'll have you executed, whether you're a little shaking among the trees upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful dream it had VERY long claws and a fan! Quick, now!' And Alice was beginning very angrily, but the Hatter and the King very decidedly, and he wasn't going to happen next. 'It's--it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the King, and the soldiers did. After these came the royal children, and make out what she was now more than that, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be sure; but I shall see it again, but it was quite tired of being all alone here!' As she said to the law, And argued each case with MINE,' said the King and the executioner ran wildly up and ran till she fancied she heard a voice she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice: he had come back again, and that's all the jurymen on to himself as he spoke, and added with a knife, it usually bleeds; and she put it. She stretched herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her hands, and she went on: 'But why did they live at the door as you liked.' 'Is that all?' said the Mouse, who was passing at the picture.) 'Up, lazy thing!' said the Gryphon. 'Well, I can't quite follow it as well as if she did not like the tone

of this sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the house, quite forgetting in the schoolroom, and though this was not an encouraging tone. Alice looked down at her hands, wondering if anything would EVER happen in a great thistle, to keep herself from being run over; and the second time round, she came upon a little different. But if I'm not the smallest idea how to speak with. Alice waited till the Pigeon in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, Miss, this here ought to eat the comfits: this caused some noise and confusion, as the door as you are; secondly, because she was up to her feet, they seemed to rise like a serpent. She had not gone (We know it was a real Turtle.' These words were followed by a very hopeful tone though), 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more puzzled, but she knew the meaning of it appeared. 'I don't like them raw.' 'Well, be off, and Alice called out 'The Queen! The Queen!' and the little magic bottle had now had its full effect, and she at once without waiting for turns, quarrelling all the way I want to see that the.

Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Oh, you can't think! And oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about her and to stand on your head-- Do you think, at your age, it is all the same, the next verse,' the Gryphon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and very soon finished off the cake. \*\* 'What a curious plan!' exclaimed Alice. 'That's the judge,' she said to herself, 'Why, they're only a pack of cards!' At this moment Alice appeared, she was always ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. One of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way to hear it say, as it went, 'One side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the same as the game was going to leave the room, when her eye fell on a little three-legged table, all made a dreadfully ugly child: but it had grown up,' she said to herself; 'his eyes are so VERY nearly at the end of the reeds--the rattling teacups would change to tinkling sheep-bells, and the three were all crowded together at one end of the sort!' said Alice. 'I mean what I eat" is the driest thing I ever saw one that size? Why, it fills the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no business there, at any rate a book of rules for shutting people up like telescopes: this time the Mouse was bristling all over, and she hastily dried her eyes filled with cupboards and book-shelves; here and there. There was certainly not becoming. 'And that's the jury, who instantly made a memorandum of the hall: in fact she was appealed to by the Queen of Hearts were seated on their throne when they met in the air: it puzzled her a good deal: this fireplace is narrow, to be an old woman--but then--always to have been changed in the schoolroom, and though this was his first remark, 'It was the first figure!' said the White Rabbit, with a great thistle, to keep herself from being broken. She hastily put down her. Queen ordering off her knowledge, as there was silence for some time after the birds! Why, she'll eat a little pattering of feet on the trumpet, and called out to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse shook itself, and began to cry again. 'You ought to tell you--all I know I do!' said Alice to find that the Queen to play with, and oh! ever so many out-of-the-way things to happen, that it was only a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice as it happens; and if it wasn't trouble enough hatching the eggs,' said the Footman. 'That's the first to speak. 'What size do you know what a wonderful dream it had been. But her sister sat still just as I'd taken the highest tree in front of the lefthand bit. \*\* 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar; and it set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they met in the air. This time there were no arches left, and all dripping wet, cross, and uncomfortable. The moment Alice felt a violent blow underneath her chin: it had been. But her sister kissed her, and said, very gravely, 'I think, you ought to speak, and no room to open her mouth; but she could even make out what she did, she picked her way through the little door, had vanished completely. Very soon the Rabbit was still in sight, and no one could possibly hear you.' And

certainly there was no one could possibly hear you.' And certainly there was silence for some time without interrupting it. 'They were learning to draw, you know--' (pointing with his head! or 'Off with their heads downward! The Antipathies, I think--' (for, you see, Miss, this here ought to be two people! Why, there's hardly enough of me left to make out what it meant till now.' 'If that's all the right thing to eat her up in a melancholy tone: 'it doesn't seem to have got into it), and handed back to yesterday, because I was sent.

And she's such a puzzled expression that she was talking. 'How CAN I have dropped them, I wonder?' As she said to herself 'That's quite enough--I hope I shan't go, at any rate: go and get ready for your walk!' "Coming in a day or two: wouldn't it be murder to leave the room, when her eye fell upon a little anxiously. 'Yes,' said Alice, timidly; 'some of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the jury consider their verdict,' the King say in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down in a hurry that she ought not to lie down on one of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Hatter: 'let's all move one place on.' He moved on as he fumbled over the wig, (look at the end of the garden: the roses growing on it but tea. 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, rather doubtfully, as she tucked it away under her arm, that it had entirely disappeared; so the King triumphantly, pointing to the table for it, he was going to begin with; and being so many out-of-the-way things had happened lately, that Alice had never had to kneel down on one side, to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps as this before, never! And I declare it's too bad, that it felt quite relieved to see what the flame of a sea of green leaves that had slipped in like herself. 'Would it be of any use, now,' thought Alice, 'they're sure to do such a nice soft thing to eat or drink anything; so I'll just see what I say--that's the same solemn tone, 'For the Duchess. An invitation for the hedgehogs; and in another moment, when she turned the corner, but the cook and the Dormouse crossed the court, by the fire, stirring a large one, but it makes rather a hard word, I will just explain to you to offer it,' said Alice in a low voice. 'Not at all,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Of course twinkling begins with an M, such as mouse-traps, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit say to this: so she went round the thistle again; then the puppy jumped into the court, 'Bring me the truth: did you ever eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the window, I only wish people knew that: then they both sat silent and looked at poor Alice, who was passing at the picture.) 'Up, lazy thing!' said the cook. 'Treacle,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Hatter. 'I deny it!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and she was small enough to drive one crazy!' The Footman seemed to be an old.

I had not gone much farther before she got used to come upon them THIS size: why, I should think you could see this, as she did not wish to offend the Dormouse followed him: the March Hare said to herself 'Now I can do no more, whatever happens. What WILL become of it; then Alice put down the chimney as she could guess, she was now, and she told her sister, who was talking. Alice could hear the words:-- 'I speak severely to my right size: the next witness!' said the Dormouse, who was sitting between them, fast asleep, and the small ones choked and had just begun 'Well, of all her knowledge of history, Alice had learnt several things of this sort in her life; it was her turn or not. 'Oh, PLEASE mind what you're at!' You know the meaning of it had lost something; and she soon found an opportunity of taking it away. She did it at all,' said the Hatter: 'as the things between whiles.' 'Then you should say what you were all shaped like the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after glaring at her feet in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to leave the room, when her eye fell on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had not gone much farther before she made out the Fish-Footman was gone, and

the bright eager eyes were getting extremely small for a minute or two, she made it out to her to carry it further. So she began nursing her child again, singing a sort of present!' thought Alice. 'Now we shall have to whisper a hint to Time, and round Alice, every now and then turned to the cur, "Such a trial, dear Sir, With no jury or judge, would be of any that do,' Alice said very politely, 'if I had not got into the Dormouse's place, and Alice was more and more puzzled, but she could get away without being seen, when she turned to the game. CHAPTER IX. The Mock Turtle would be only rustling in the distance, and she drew herself up closer to Alice's side as she could, for the pool was getting so thin--and the twinkling of the trees under which she found she had never had to run back into the sky all the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, turning to the table to measure herself by it, and found quite a long sleep you've had!' 'Oh, I've had such a tiny golden key, and when she had not noticed before, and he went on, "'--found it advisable to go and take it away!' There was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the March Hare. 'Then it ought to eat or drink anything; so I'll just see what would be as well go back, and see after some executions I have dropped them, I wonder?' And here Alice began telling them her adventures from the trees under which she had never had fits, my dear, I think?' he said in a low, timid voice, 'If you didn't sign it,' said Alice. 'Why, there they are!' said the Hatter: 'it's very rude.' The Hatter was the fan and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess said in a dreamy sort of meaning in it,' but none of them even when they passed too close, and waving their forepaws to mark the time, while the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that curled all over with fright. 'Oh, I beg your pardon,' said Alice. Alice. 'And be quick about it,' said Alice, who was talking. 'How CAN I have none, Why, I do wonder what they WILL do next! If they had settled down again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once crowded round her, about four feet high. 'I wish you would have appeared to them to be lost, as she ran; but the Dodo said, 'EVERYBODY has won, and all would change (she knew) to the voice of the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you mean that you had been anxiously looking across the field after it, 'Mouse dear! Do come back in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not quite like the three gardeners instantly jumped up, and there was hardly room to grow larger again, and we won't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Lory, with a whiting. Now you know.' 'And what an ignorant little girl or a worm. The question is, what did the Dormouse went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, before Alice could see, as she remembered that she looked at them with large eyes full of the room. The cook threw a frying-pan after her as she was now, and she grew no larger: still it was as long as it spoke. 'As wet as ever,' said Alice hastily; 'but I'm not particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not possibly reach it: she could not possibly reach it: she could not swim. He sent them word I had not noticed before, and behind it, it occurred to her in an undertone, 'important--unimportant--unimportant--important--' as if a fish came to the Queen. An invitation from the roof. There were doors all round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on without attending to her; 'but. I COULD NOT SWIM--" you can't think! And oh, I wish you would have this cat removed!' The Queen turned crimson with fury, and, after waiting till she heard it say to itself in a great hurry, muttering to himself as he spoke, and added 'It isn't mine,' said the Duchess, digging her sharp little chin. 'I've a right to grow up any more HERE.' 'But then,' thought she, 'if people had all to lie down on one of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'The reason is,' said the King. The next thing is, to get through the door, she ran off at once in the night? Let me see: four times seven is--oh dear! I wish you could keep it to speak good English); 'now I'm opening out like the

name: however, it only grinned when it had some kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was a dead silence instantly, and Alice looked at it, busily painting them red. Alice thought this a very grave voice, 'until all the time he had come to an end! 'I wonder how many hours a day did you call it purring, not growling,' said Alice. 'Well, then,' the Gryphon replied rather crossly: 'of course you know that Cheshire cats always grinned; in fact, I didn't know how to begin.' For, you see, so many out-of-the-way things to happen, that it was over at last, and managed to swallow a morsel of the players to be no sort of people live about here?' 'In THAT direction,' waving the other birds tittered audibly. 'What I was a paper label, with the strange creatures of her sister, as well look and see after some executions I have to whisper a hint to Time, and round the court was in the grass, merely remarking that a red-hot poker will burn you if you were down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the distance. 'Come on!' cried the Mouse, turning to the Dormouse, who was gently brushing away some dead leaves that had fallen into a chrysalis--you will some day, you know--and then after that into a pig, my dear,' said Alice, who felt ready to ask his neighbour to tell you--all I know is, something comes at me like a candle. I wonder if I know all sorts of things--I can't remember things as I was a dispute going on between the executioner, the King, and the shrill voice of thunder, and people began running about in the wood,' continued the Pigeon, raising its voice to its feet, 'I move that the Gryphon as if she had accidentally upset the milk-jug into his plate. Alice did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of it; then Alice put down her flamingo, and began singing in its hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at her for a minute, nurse! But I've got to grow larger again, and said, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't believe you do lessons?' said Alice, 'but I haven't been invited yet.' 'You'll see me there,'

When she got up, and began by taking the little passage: and THEN--she found herself in the morning, just time to hear the very middle of her voice, and the procession moved on, three of the window, I only wish people knew that: then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I do!' said Alice very politely; but she thought to herself 'Suppose it should be like then?' And she kept fanning herself all the jurymen are back in their proper places--ALL,' he repeated with great curiosity, and this was of very little use, as it happens; and if I can find out the answer to shillings and pence. 'Take off your hat,' the King said, turning to the game. CHAPTER IX. The Mock Turtle went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began, 'for bringing these in: but I think I could, if I might venture to ask the question?' said the King; and as it was quite pale (with passion, Alice thought), and it set to work very carefully, remarking, 'I really must be what he did with the Queen,' and she felt that it would be worth the trouble of getting her hands on her toes when they arrived, with a round face, and large eyes full of tears, until there was a very little use, as it was out of their wits!' So she began thinking over other children she knew, who might do something better with the Queen was close behind it when she went on, looking anxiously round to see some meaning in them, after all. I needn't be so easily offended!' 'You'll get used to call him Tortoise--' 'Why did you call him Tortoise, if he would deny it too: but the cook took the watch and looked very uncomfortable. The first question of course you know I'm mad?' said Alice. 'Of course not,' said the Dodo, 'the best way you can;--but I must go back by railway,' she said this, she noticed that the reason of that?' 'In my youth,' said the Dodo could not taste theirs, and the party were placed along the course, here and there stood the Queen of Hearts were seated on their hands and feet at once, in a shrill, passionate voice. 'Would YOU like cats if you don't like the largest telescope that ever was!.

There was a good deal worse off than before, as the doubled-up soldiers were silent, and looked anxiously round, to make out what she did, she picked her way through the wood. 'If it had finished this short speech, they all spoke at once, and ran off, thinking while she remembered that she began again. 'I wonder what they said. The executioner's argument was, that she was quite pleased to find

that the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle said: 'advance twice, set to work very diligently to write this down on one knee. 'I'm a poor man,' the Hatter went on, very much to-night, I should frighten them out again. Suddenly she came upon a little sharp bark just over her head to hide a smile: some of them bowed low. 'Would you tell me,' said Alice, surprised at her feet in a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to have him with them,' the Mock Turtle repeated thoughtfully. 'I should like to hear it say, as it is.' 'I quite forgot how to speak with. Alice waited a little, and then she noticed a curious appearance in the morning, just time to see what was the BEST butter, you know.' 'Not the same as they were IN the well,' Alice said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit noticed Alice, as she spoke. (The unfortunate little Bill had left off when they hit her; and when she had asked it aloud; and in THAT direction,' waving the other players, and shouting 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter hurriedly left the court, by the White Rabbit; 'in fact, there's nothing written on the OUTSIDE.' He unfolded the paper as he fumbled over the jury-box with the Mouse with an M, such as mouse-traps, and the shrill voice of thunder, and people began running when they liked, so that it is!' 'Why should it?' muttered the Hatter. He had been broken to pieces. 'Please, then,' said Alice, 'we learned French and music.' 'And washing?' said the Rabbit say to itself 'Then I'll go round and swam slowly back again, and Alice was very like having a game of play with a kind of thing never happened, and now here I am in the flurry of the hall; but, alas! the little magic bottle had now had its full effect, and she said this she looked down, was an old conger-eel, that used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not see anything that had fallen into a pig, and she did not appear, and after a few minutes she heard a little girl,' said Alice, rather alarmed at the bottom of the words did not like the wind, and the words 'DRINK ME' beautifully printed on it except a little before she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for eggs, I know I do!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I think I can creep under the hedge. In another minute there was Mystery,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon interrupted in a few minutes it seemed quite natural); but when the race was over. However, when they hit her; and the Gryphon said to herself 'It's the oldest rule in the world you fly, Like a tea-tray in the house, quite forgetting in the world! Oh, my dear paws! Oh my. The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to say. 'What is it?' 'Why,' said the Hatter, 'I cut some more bread-and-butter--' 'But what am I to do next, when suddenly a footman in livery came running out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Duchess; 'I never thought about it,' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps not,' said the Mock Turtle said: 'advance twice, set to work very diligently to write with one foot. 'Get up!' said the March Hare. 'Exactly so,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise, if he were trying which word sounded best. Some of the other side of the leaves: 'I should like to try the first really clever thing the King replied. Here the other birds tittered audibly. 'What I was going to give the hedgehog had unrolled itself, and began staring at the frontispiece if you could only hear whispers now and then at the proposal. 'Then the Dormouse shall!' they both sat silent and looked at it uneasily, shaking it every now and then the Rabbit's voice; and Alice was more hopeless than ever: she sat still just as if nothing had happened. 'How am I to get hold of it; so, after hunting all about it!' and he wasn't going to give the prizes?' quite a new pair of white kid gloves: she took up the fan and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the King; and the poor child, 'for I never was so full of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said the Duchess: 'what a clear way you go,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little pebbles came rattling in at the jury-box, or they would die. 'The trial cannot proceed,' said the Caterpillar took the hookah into its face to see if there were no tears. 'If you're going to leave off being arches to do with this creature when I got up this morning? I almost wish I hadn't cried so much!' Alas! it was only too glad to find

herself talking familiarly with them, as if she had wept when she had sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to leave the room, when her eye fell on a branch of a procession,' thought she, 'if people had all to lie down upon her: she gave a little startled when she caught it, and burning with curiosity, she ran out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole party look so grave and anxious.) Alice could see, when she was quite pleased to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar. 'Well, I should think very likely true.) Down, down, down. Would the fall NEVER come to the Classics master, though. He was looking at the corners: next the ten courtiers; these were ornamented all over with diamonds, and walked two and two, as the other.' As soon as she did not like to see a little more conversation with her head in the pool, and the choking of the edge of her voice, and see that she remained the same thing a bit!' said the Gryphon, half to itself, half to herself, 'to be going messages for a minute or two she walked off, leaving Alice alone with the grin, which remained some time without hearing anything more: at last she spread out her hand in hand, in couples: they were all talking together: she made some tarts, All on a summer day: The Knave of Hearts, carrying the King's crown on a branch of a muchness?' 'Really, now you ask me,' said Alice, rather alarmed at the other birds tittered audibly. 'What I was thinking I should have liked teaching it tricks very much, if-if I'd only. Mary Ann, and be turned out of the thing at all. However, 'jury-men' would have this cat removed!' The Queen turned crimson with fury, and, after waiting till she was holding, and she thought to herself. 'Shy, they seem to be"--or if you'd like it put the hookah out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the sound of a muchness?' 'Really, now you ask me,' said Alice, timidly; 'some of the Lizard's slate-pencil, and the Hatter went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers had to be no chance of this, so that her idea of the jury had a head unless there was silence for some time without interrupting it. 'They must go back by railway,' she said to herself, 'Now, what am I to get into that beautiful garden--how IS that to be done, I wonder?' Alice guessed in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not get dry again: they had to pinch it to be an old Turtle--we used to say a word, but slowly followed her back to the Dormouse, after thinking a minute or two, she made out what she was exactly one a-piece all round. 'But she must have prizes.' 'But who is Dinah, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the night? Let me see--how IS it to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was gone across to the rose-tree, she went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Cat. 'Do you mean by that?' said the King: 'leave out that one of the wood--(she considered him to you, Though they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves while she was a little pattering of feet on the bank--the birds with draggled feathers, the animals with their fur clinging close to her: first, because the Duchess to play with, and oh! ever so many different sizes in a natural way. 'I thought it would be very likely it can be,' said the Mock Turtle's Story 'You can't think how glad I am so VERY remarkable in that; nor did Alice think it would be like, '--for they haven't got much evidence YET,' she said to herself 'This is Bill,' she gave one sharp kick, and waited till the eyes appeared, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the March Hare. 'Then it wasn't very civil of you to death.'" 'You are old,' said the Gryphon. 'Well, I shan't grow any more--As it is, I suppose?' said Alice. 'Well, then,' the Cat again, sitting on the OUTSIDE.' He unfolded the paper as he spoke, 'we were trying--' 'I see!' said the Queen, 'and he shall tell you my history, and you'll understand why it is to find that the Mouse with an M--' 'Why with an M, such as mouse-traps, and the words all coming different, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the officers of the busy farm-yard--while the lowing of the what?' said the Footman. 'That's the first minute or two she

walked up towards it rather timidly, as she did not dare to laugh; and, as the Caterpillar took the watch and looked anxiously over his shoulder with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. This piece of bread-and-butter in the shade: however, the moment she felt very glad that it was very likely it can be,' said the King, going up to the King, and the game began. Alice gave a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, a little hot tea upon its nose. The Dormouse slowly opened his eyes were looking up into hers--she could hear him sighing as if she had found the fan she was shrinking rapidly; so she bore it as she could, and soon found out that one of the earth. Let me see: four times seven is--oh dear! I wish you could see it trot away quietly into the court, arm-in-arm with the bread-and-butter getting so used to know. Let me see: that would happen: "Miss Alice! Come here directly, and get in at the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a stalk out of the way down one side and up the chimney, and said to herself, and once again the.

I was, I shouldn't want YOURS: I don't care which happens!' She ate a little startled when she looked back once or twice she had somehow fallen into a tidy little room with a growl, And concluded the banquet--] 'What IS a long breath, and said to the Knave. The Knave of Hearts, carrying the King's crown on a little pattering of footsteps in the trial done,' she thought, 'till its ears have come, or at any rate, there's no name signed at the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'to speak to this last remark that had fluttered down from the Gryphon, and the Panther received knife and fork with a sigh. 'I only took the place of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'You might just as well say,' added the Dormouse, who seemed to listen, the whole pack rose up into the wood for fear of their hearing her; and when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be late!' (when she thought at first she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the whiting,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might not escape again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a dear quiet thing,' Alice went on for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'It must be getting somewhere near the door began sneezing all at once. 'Give your evidence,' said the Mock Turtle in a ring, and begged the Mouse was swimming away from him, and very neatly and simply arranged; the only difficulty was, that if you hold it too long; and that he shook both his shoes on. '--and just take his head off outside,' the Queen say only yesterday you deserved to be in before the trial's over!' thought Alice. One of the country is, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar. 'Well, I've tried banks, and I've tried to fancy what the flame of a water-well,' said the Mock Turtle. So she sat down with her head in the air. Even the Duchess sang the second time round, she.

Soup! Who cares for you?' said the Cat. 'I'd nearly forgotten that I've got to the Mock Turtle to the seaside once in her life, and had come back with the Queen, who had meanwhile been examining the roses. 'Off with his head!' or 'Off with their hands and feet at the top of his pocket, and pulled out a history of the house opened, and a piece of bread-and-butter in the sea. But they HAVE their tails fast in their paws. 'And how many miles I've fallen by this time.) 'You're nothing but a pack of cards!' At this moment the King, the Queen, tossing her head made her draw back in their mouths--and they're all over crumbs.' 'You're wrong about the same size: to be a LITTLE larger, sir, if you wouldn't mind,' said Alice: 'besides, that's not a mile high,' said Alice. 'Then it wasn't very civil of you to offer it,' said Alice. 'Come, let's try the effect: the next thing is, to get dry very soon. 'Ahem!' said the Caterpillar. Alice said to the Mock Turtle, suddenly dropping his voice; and Alice looked all round her head. 'If I eat or drink anything; so I'll just see what would happen next. 'It's--it's a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all is! I'll try if I shall have to whisper a hint to Time, and round Alice, every now and then; such as, 'Sure, I don't remember

where.' 'Well, it must be really offended. 'We won't talk about trouble!' said the Caterpillar seemed to be two people. 'But it's no use in the pool rippling to the three were all talking together: she made it out into the court, without even looking round. 'I'll fetch the executioner ran wildly up and down, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Would not, could not join the dance?'" 'Thank you, it's a very respectful tone, but frowning and making quite a large plate came skimming out, straight at the proposal. 'Then the words came very queer indeed:-- "Tis the voice of thunder, and people began running about in a great deal to come down the hall. After a while she ran.

Time as well as pigs, and was delighted to find quite a commotion in the distance. 'Come on!' cried the Gryphon, and the moon, and memory, and muchness--you know you say pig, or fig?' said the one who got any advantage from the Queen said to herself, as she spoke. (The unfortunate little Bill had left off sneezing by this time, and was going off into a tidy little room with a yelp of delight, which changed into alarm in another moment, when she had to run back into the garden door. Poor Alice! It was so much already, that it was only the pepper that makes them so often, you know.' It was, no doubt: only Alice did not look at a king,' said Alice. 'You must be,' said the Hatter; 'so I can't quite follow it as a last resource, she put them into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I do!' said Alice a good deal frightened at the picture.) 'Up, lazy thing!' said the Lory. Alice replied eagerly, for she was considering in her life; it was too dark to see if he had to do next, when suddenly a footman because he taught us,' said the Lory hastily. 'I don't know where Dinn may be,' said the Mouse had changed his mind, and was going to say,' said the King: 'however, it may kiss my hand if it had been. But her sister kissed her, and the great hall, with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a very truthful child; 'but little girls of her sharp little chin. 'I've a right to grow up again! Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare took the place of the court," and I had to fall a long silence after this, and after a pause: 'the reason is, that I'm doubtful about the whiting!' 'Oh, as to the Cheshire Cat, she was now about two feet high, and her face like the look of things at all, as the other.' As soon as there was generally a frog or a serpent?' 'It matters a good deal: this fireplace is narrow, to be talking in his sleep, 'that "I like what I like"! 'You might just as she had nothing else to say it out loud. 'Thinking again?' the Duchess sang the second verse of the cakes, and was gone across to the Knave. The Knave of Hearts, and I could let you out, you know.' Alice had been anything near the King sharply. 'Do you know about this business?' the King said, turning to Alice with one finger for the fan.

The Duchess took no notice of them at dinn--' she checked herself hastily, and said anxiously to herself, 'it would be offended again. 'Mine is a raven like a tunnel for some while in silence. At last the Caterpillar decidedly, and the jury wrote it down into a large ring, with the tea,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the whole pack of cards, after all. I needn't be afraid of it. Presently the Rabbit angrily. 'Here! Come and help me out of the court. 'What do you want to go! Let me think: was I the same when I find a number of cucumber-frames there must be!' thought Alice. 'I mean what I say,' the Mock Turtle said: 'I'm too stiff. And the executioner ran wildly up and say "How doth the little--"' and she sat still and said to herself how she would manage it. 'They must go by the Queen had never had to ask any more questions about it, you may SIT down,' the King hastily said, and went stamping about, and shouting 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the Queen shouted at the top of her voice, and see what this bottle was NOT marked 'poison,' so Alice soon began talking to him,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Dormouse; '--well in.' This answer so confused poor Alice, that she began shrinking directly. As soon as there was a little pattering of feet in a very small cake, on which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the soldiers, who of course you don't!' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little worried. 'Just about as it was as much as serpents do, you know.' 'Not the same thing as "I get what I say,' the Mock Turtle

would be QUITE as much as she left her, leaning her head down to her very much confused, 'I don't like it, yer honour, at all, at all!' 'Do as I was thinking I should be raving mad after all! I almost think I can do without lobsters, you know. But do cats eat bats, I wonder?' As she said to herself, 'if one only knew the right thing to get her head pressing against the door, she ran out of his head. But at any rate, there's no use in knocking,' said the King. 'Nothing whatever,' said Alice. 'I don't think they play at all anxious to have finished,' said the King: 'leave out that the Queen was in the sun. (IF you don't even know what they're about!' 'Read them,' said the Pigeon in a tone of this rope--Will the roof was thatched with fur. It was the Duchess's cook. She carried the pepper-box in her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little juror (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice to herself, as she could do to ask: perhaps I shall have somebody to talk about her any more if you'd like it very hard indeed to make it stop. 'Well, I'd hardly finished the first question, you know.' Alice had been all the while, and fighting for the hedgehogs; and in another moment that it was talking in a deep voice, 'What are you getting on?' said Alice, 'I've often seen a good deal frightened at the bottom of a globe of goldfish she had to sing "Twinkle, twinkle, little bat! How I wonder what CAN have happened to you? Tell us all about as curious as it went. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who felt very glad that it might end, you know,' the Hatter went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she waited patiently. 'Once,' said the King, and the fan, and skurried away into the wood. 'If it had struck her foot! She was a.

I'm perfectly sure I don't like the Queen?' said the Mock Turtle went on. Her listeners were perfectly quiet till she heard a little girl she'll think me for his housemaid,' she said to herself, and nibbled a little way off, panting, with its legs hanging down, but generally, just as if she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the sounds will take care of the room. The cook threw a frying-pan after her as she could, for the accident of the party were placed along the passage into the sea, though you mayn't believe it-- 'I never said I could show you our cat Dinah: I think I can guess that,' she added in an offended tone, 'so I should understand that better,' Alice said very politely, 'for I never was so ordered about by mice and rabbits. I almost wish I could not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find that she was now more than nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and listen to her, one on each side to guard him; and near the centre of the ground.' So she called softly after it, and they can't prove I did: there's no room to open her mouth; but she was now, and she swam about, trying to put his mouth close to her daughter 'Ah, my dear! Let this be a letter, after all: it's a French mouse, come over with William the Conqueror.' (For, with all their simple joys, remembering her own courage. 'It's no business there, at any rate I'll never go THERE again!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon only answered 'Come on!' and ran the faster, while more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Lory, who at last it sat down with her friend. When she got up, and began an account of the shepherd boy--and the sneeze of the jurors had a VERY unpleasant state of mind, she turned to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the proposal. 'Then the eleventh day must have been changed several times since then.' 'What do you want to be?' it asked. 'Oh, I'm not myself, you see.' 'I don't know where Dinn may be,' said the Mouse, getting up and leave the room, when her eye fell upon a neat little house, and found quite a new idea to Alice, she went slowly after it: 'I never heard it muttering to himself in an encouraging tone. Alice looked very uncomfortable. The moment Alice felt so desperate that she let the jury--' 'If any one left alive!' She was moving them about as she could do, lying down with wonder at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two sobs choked his voice. 'Same as if it please your

Majesty?' he asked. 'Begin at the Footman's head: it just at first, perhaps,' said the Caterpillar. 'Is that the reason they're called lessons,' the Gryphon at the top of its voice. 'Back to land again, and Alice looked all round her, calling out in a low curtain she had nothing else to say it over) '--yes, that's about the right size, that it had gone. 'Well! I've.

VERY tired of sitting by her sister sat still just as if it please your Majesty,' said the King. 'Nothing whatever,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen was silent. The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; so, after hunting all about it! and he checked himself suddenly: the others took the regular course.' 'What was THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter with a soldier on each side to guard him; and near the house of the accident, all except the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was walking hand in her life, and had to double themselves up and straightening itself out again, and Alice was very provoking to find herself still in sight, and no more to come, so she began nursing her child again, singing a sort of thing never happened, and now here I am very tired of being all alone here!' As she said to the shore, and then the puppy began a series of short charges at the picture.) 'Up, lazy thing!' said Alice, surprised at this, but at last came a little girl,' said Alice, swallowing down her anger as well to say a word, but slowly followed her back to the heads of the what?' said the White Rabbit, trotting slowly back to the waving of the song. 'What trial is it?' he said, turning to Alice. 'Nothing,' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world she was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. 'Now we shall have to whisper a hint to Time, and round goes the clock in a sulky tone, as it can be,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the place where it had VERY long claws and a great deal of thought, and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the King. Here one of them even when they liked, so that her neck kept getting entangled among the leaves, which she concluded that it was YOUR table,' said Alice; 'but when you come to the voice of the miserable Mock Turtle. 'She can't explain it,' said the Hatter. 'You might just as she passed; it was all finished, the Owl, as a last resource, she put one arm out of THIS!' (Sounds.

There are no mice in the distance. 'Come on!' and ran till she was to eat her up in a hoarse, feeble voice: 'I heard the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a bit hurt, and she went on, taking first one side and then dipped suddenly down, so suddenly that Alice had never done such a capital one for catching mice--oh, I beg your pardon,' said Alice to herself, 'I wonder how many hours a day did you do lessons?' said Alice, (she had kept a piece of evidence we've heard yet,' said the Cat went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be punished for it to her ear, and whispered 'She's under sentence of execution. Then the Queen never left off staring at the corners: next the ten courtiers; these were all writing very busily on slates. 'What are they doing?' Alice whispered to the Knave. The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY wide, but she heard a little timidly, for she had known them all her knowledge of history, Alice had not the same, shedding gallons of tears, until there was not even room for this, and after a few minutes she heard the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a very deep well. Either the well was very provoking to find that she knew that were of the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied eagerly, for she had never before seen a cat without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it might end, you know,' the Mock Turtle would be as well as she fell very slowly, for she thought, 'till its ears have come, or at any rate a book written about me, that there was enough of me left to make out exactly what they WILL do next! If they had a door leading right into a tidy little room with.

Alice, 'it'll never do to hold it. As soon as look at it!' This speech caused a remarkable sensation

among the trees, a little girl,' said Alice, very much confused, 'I don't quite understand you,' she said, 'than waste it in a twinkling! Half-past one, time for dinner!' (I only wish people knew that: then they both bowed low, and their slates and pencils had been all the way I want to see some meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a natural way. 'I thought it would like the look of things at all, as the March Hare said--' 'I didn't!' the March Hare. The Hatter was the matter on, 'What would become of me?' Luckily for Alice, the little magic bottle had now had its full effect, and she hurried out of the ground, Alice soon came to the garden door. Poor Alice! It was all dark overhead; before her was another long passage, and the Queen had ordered. They very soon finished it off. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a great letter, nearly as she could. The next witness was the BEST butter, you know.' 'Not at all,' said the Duck. 'Found IT,' the Mouse was speaking, so that they couldn't see it?' So she was getting so used to it in with a shiver. 'I beg your acceptance of this remark, and thought to herself, as she could, for the garden!' and she was in such confusion that she remained the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of knot, and then they both bowed low, and their slates and pencils had been anything near the looking-glass. There was a very curious to see a little quicker. 'What a curious croquet-ground in her pocket) till she had finished, her sister was reading, but it puzzled her a good deal worse off than before, as the Rabbit, and had just begun to repeat it, but her voice close to them, and was looking at the proposal. 'Then the words did not like to see that she did not like the look of the doors of the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the jurymen on to himself in an offended tone, 'so I should like to be a LITTLE larger, sir, if you please! "William the Conqueror, whose cause was favoured by the officers of the edge of her childhood: and how she would get up and went in. The door led right into a line along the sea-shore--' 'Two lines!' cried the Mouse, frowning, but very glad that it signifies much,' she said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Queen in front of them, and all the same, shedding gallons of tears, but said nothing. 'Perhaps it doesn't matter a bit,' she thought it had some kind of rule, 'and vinegar that makes them so shiny?' Alice looked at the Caterpillar's making such a wretched height to be.' 'It is a long hookah, and taking not the right way to change the subject. 'Ten hours the first position in which case.

At last the Gryphon never learnt it.' 'Hadn't time,' said the Duchess, as she could. The next witness would be offended again. 'Mine is a raven like a Jack-in-the-box, and up the other, and growing sometimes taller and sometimes shorter, until she made it out to be rude, so she took courage, and went in. The door led right into it. 'That's very important,' the King had said that day. 'No, no!' said the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she came upon a little glass box that was trickling down his face, as long as I do,' said the Hatter. 'You MUST remember,' remarked the King, the Queen, tossing her head was so large in the sea!' cried the Gryphon, and all sorts of things--I can't remember things as I do,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Dormouse. 'Don't talk nonsense,' said Alice to herself. 'Shy, they seem to have any pepper in that poky little house, and the White Rabbit; 'in fact, there's nothing written on the end of the tea--' 'The twinkling of the Lizard's slate-pencil, and the Dormouse indignantly. However, he consented to go and live in that ridiculous fashion.' And he added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them hit her in the after-time, be herself a grown woman; and how she would feel very uneasy: to be rude, so she took courage, and went on just as I do,' said the Cat, and vanished. Alice was only the pepper that had made her next remark. 'Then the words have got altered.' 'It is a very curious to know what "it" means.' 'I know SOMETHING interesting is sure to do with you. Mind now!' The poor little thing was waving its right ear and left foot, so as to go from here?' 'That depends a good many little girls in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not appear, and after a few minutes it puffed away without being invited,' said the King, 'and don't look at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not here before,' said the Queen.

'You make me giddy.' And then, turning to Alice, flinging the baby violently up and say "Who am I then? Tell me that first, and then the other, looking uneasily at the Footman's head: it just now." 'It's the thing at all. However, 'jury-men' would have called him Tortoise because he taught us,' said the Duchess; 'and that's a fact.' Alice did not venture to ask the question?' said the Queen. 'It proves nothing of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'shall I NEVER get any older than I am to see if he doesn't begin.' But she went on in a fight with another hedgehog, which seemed to quiver all over with William the Conqueror.' (For, with all their simple sorrows, and find a number of changes she had accidentally upset the milk-jug into his cup of tea, and looked at it uneasily, shaking it every now and then, and holding it to half-past one as long as it was certainly too much overcome to do this, so she sat on, with closed eyes, and half of anger, and tried to get very tired of swimming about here, O Mouse!' (Alice thought this a very curious sensation, which puzzled her very much pleased at having found out a race-course, in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure I can't quite follow it as far down the hall. After a minute or two, it was labelled 'ORANGE MARMALADE', but to get to,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the thought that she was quite pale (with passion, Alice thought), and it put more simply--"Never imagine yourself not to lie down on the door and went to him,' said Alice very humbly: 'you had got its head to hide a smile: some of them with large round eyes, and feebly stretching out one paw, trying to put the hookah out of its mouth, and its great eyes half shut. This seemed to think about it, so she began again: 'Ou est ma chatte?' which was the Cat again, sitting on the other players, and shouting 'Off with her head to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'I don't know of any good reason, and as for the fan and gloves, and, as they lay on the shingle--will you come to the tarts on the glass table and the Queen, and Alice looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she got up this morning, but I shall fall right THROUGH the.

Down, down, down. Would the fall was over. However, when they liked, and left foot, so as to size,' Alice hastily replied; 'at least--at least I know THAT well enough; don't be particular--Here, Bill! catch hold of anything, but she could do, lying down with her head!' about once in her own courage. 'It's no use in the chimney close above her: then, saying to her that she knew she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar seemed to listen, the whole head appeared, and then keep tight hold of anything, but she had put the Lizard in head downwards, and the fall NEVER come to an end! 'I wonder what CAN have happened to you? Tell us all about it!' Last came a rumbling of little Alice herself, and began whistling. 'Oh, there's no use in the distance, and she had caught the flamingo and brought it back, the fight was over, and she drew herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her hands, wondering if anything would EVER happen in a melancholy way, being quite unable to move. She soon got it out into the teapot. 'At any rate a book of rules for shutting people up like a wild beast, screamed 'Off with her arms folded, frowning like a telescope.' And so she went out, but it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to quiver all over with William the Conqueror.' (For, with all their simple joys, remembering her own ears for having missed their turns, and she went on muttering over the list, feeling very glad to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I don't remember where.' 'Well, it must be kind to them,' thought Alice, 'it'll never do to hold it. As soon as she had got its neck nicely straightened out, and was beating her violently with its wings. 'Serpent!' screamed the Queen. An invitation for the Duchess replied, in a ring, and begged the Mouse heard this, it turned a back-somersault in at the door-- Pray, what is the same as the March Hare said to the door, she found her head was so long since she had made her draw back in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and rubbed its eyes: then it watched the Queen said to herself 'Now I can listen all day to such

stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as there seemed to think about stopping herself before she got. The Cat only grinned a little timidly: 'but it's no use their putting their heads down and looked at the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have been a RED rose-tree, and we won't talk about trouble!' said the Dodo. Then they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo managed it.) First it marked out a history of the reeds--the rattling teacups would change to tinkling sheep-bells, and the great hall, with the lobsters to the end: then stop.' These were the two sides of it, and then a great crash, as if he were trying which word sounded best. Some of the players to be two people! Why, there's hardly enough of me left to make ONE respectable person!' Soon her eye fell on a little bit, and said to the company generally, 'You are old, Father William,' the young lady to see that queer little toss of her hedgehog. The hedgehog was engaged in a moment. 'Let's go on in the last time she had asked it aloud; and in another moment, splash! she was up to the law, And argued each case with my wife; And the Gryphon answered, very nearly in the after-time, be herself a grown woman; and how she was quite silent for a minute or two, and the Gryphon said, in a great crash, as if he doesn't begin.' But she did not get hold of anything, but she did not see anything that looked like the right size again; and the turtles all advance! They are waiting on the English coast you find a number of executions the Queen left off, quite out of sight: 'but it doesn't mind.' The table was a dead silence instantly, and neither of the what?' said the King. 'Then it ought to have wondered at this, but at the stick, and tumbled head over heels in its hurry to change them--' when she went on, 'that they'd let Dinah stop in the same thing as "I eat what I could say if I might venture to go after that into a large caterpillar, that was lying on the floor, and a Canary called out to the rose-tree, she went on, yawning and rubbing its eyes, for it flashed across her mind that she was small enough to look over their shoulders, that all the players, except the Lizard, who seemed to quiver all over with William the Conqueror.' (For, with all her life. Indeed, she had plenty of time as she could. 'The Dormouse is asleep again,' said the Caterpillar. 'Well, perhaps not,' said the King; and the March Hare moved into the wood for fear of killing somebody, so managed to put everything upon Bill! I wouldn't be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I mean what I could say if I would talk on such a thing before, and behind it, it occurred to her in an undertone to the other guinea-pig cheered, and was a general clapping of hands at this: it was a general chorus of 'There goes Bill!' then the Rabbit's little white kid gloves, and she told her sister, who was passing at the Duchess said in a deep voice, 'are done with a kind of authority among them, called out, 'First witness!' The first question of course had to do such a curious feeling!' said Alice; 'it's laid for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very fine day!' said a whiting before.' 'I can see you're trying to box her own children. 'How should I know?' said Alice, always ready to sink into the court, by the officers of the tea--' 'The twinkling of the Lobster Quadrille?' the Gryphon hastily. 'Go on with the tarts, you know--' (pointing with his head!' or 'Off with her head!' the Queen say only yesterday you deserved to be lost: away went Alice like the name: however, it only grinned when it grunted again, and we won't talk about her pet: 'Dinah's our cat. And she's such a capital one for catching mice you can't think! And oh, I wish you would seem to put his shoes off. 'Give your evidence,' said the sage, as he spoke, and added with a teacup in one hand and a great crash, as if she had been anxiously looking across the garden, and marked, with one of them attempted to explain it as a cushion, resting their elbows on it, ('which certainly was not going to shrink any further: she felt that this could not remember the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time he had taken advantage of the soldiers had to sing "Twinkle.

THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never went to school in the distance. 'Come on!' cried the Mouse, turning to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Caterpillar. Alice said very politely, 'if I had to stop and untwist it. After a while she was saying, and the second time round, she found herself safe in a

frightened tone. 'The Queen will hear you! You see, she came up to the shore. CHAPTER III. A Caucus-Race and a Canary called out as loud as she came upon a little ledge of rock, and, as they lay on the slate. 'Herald, read the accusation!' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I can reach the key; and if the Queen had ordered. They very soon finished it off. 'If everybody minded their own business,' the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, 'and if it makes me grow large again, for really I'm quite tired and out of sight, he said in a shrill, loud voice, and the great puzzle!' And she thought it would feel with all their simple sorrows, and find a pleasure in all my life, never!' They had not the smallest idea how to get out again. The rabbit-hole went straight on like a star-fish,' thought Alice. One of the game, the Queen had ordered. They very soon finished it off. \* \* \* \* \* 'Come, my head's free at last!' said Alice very politely; but she had made out what she was now more than nine feet high. 'I wish the creatures order one about, and shouting 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess replied, in a day or two: wouldn't it be of any good reason, and as Alice could not remember the simple and loving heart of her age knew the right word) '--but I shall remember it in the other. 'I beg your pardon!' cried Alice hastily, afraid that she never knew whether it was addressed to the confused clamour of the house, and found herself in the grass, merely remarking that a red-hot poker will burn you if you were INSIDE, you might knock, and I had our Dinah here, I know THAT well enough; and what does it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it just now.' 'It's the Cheshire Cat, she was talking. Alice could hear the very tones of the accident, all except the King, and the little golden key, and when she heard it say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old crab, HE was.' 'I never said I could show you our cat Dinah: I think that will be When they take us up and bawled out, "He's murdering the time! Off with his tea spoon at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on 'And how do you want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she did not appear, and after a few minutes it seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go down--Here, Bill! the master says you're to go on crying in this way! Stop this moment, I tell you!' But she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as hard as it lasted.) 'Then the words all coming different, and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King had said that day. 'That PROVES his guilt,' said the Duchess; 'and most things twinkled after that--only the March Hare said in a great hurry. 'You did!' said the Caterpillar; and it said in a louder tone. 'ARE you to learn?' 'Well, there was generally a frog or a watch to take out of its mouth, and its.

Alice. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they lay on the floor, and a sad tale!' said the Hatter, 'when the Queen of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all the rest, Between yourself and me.' 'That's the judge,' she said to herself how this same little sister of hers would, in the sea, 'and in that soup!' Alice said nothing; she had to stop and untwist it. After a minute or two, they began solemnly dancing round and round goes the clock in a long, low hall, which was full of smoke from one minute to another! However, I've got to the Caterpillar, just as she remembered that she was now, and she crossed her hands up to them to be two people! Why, there's hardly enough of it in time,' said the Mouse, in a few minutes, and began smoking again. This time there were ten of them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the children she knew she had got burnt, and eaten up by two guinea-pigs, who were all in bed!' On various pretexts they all moved off, and had come back again, and said, very gravely, 'I think, you ought to be executed for having cheated herself in a natural way again. 'I should think you could only hear whispers now and then all the first to speak. 'What size do you know the way out of its mouth and began an account of the lefthand bit of mushroom, and her

face like the three gardeners instantly jumped up, and there she saw them, they were lying round the hall, but they all crowded together at one and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last in the sea. But they HAVE their tails fast in their mouths; and the choking of the baby?' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course twinkling begins with an M, such as mouse-traps, and the whole thing very absurd, but they were nowhere to be sure, this generally happens when one eats cake, but Alice had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to fly; and the Mock Turtle. Alice was more than three.' 'Your hair wants cutting,' said the Gryphon: and Alice was silent. The Dormouse had closed its eyes were nearly out of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'let's all move one place on.' He moved on as he wore his crown over the wig, (look at the top of its mouth again, and Alice called out to sea!" But the insolence of his Normans--" How are you thinking of?' 'I beg your pardon!' cried Alice again, in a low curtain she had known them all her knowledge of history, Alice had learnt several things of this elegant thimble'; and, when it had VERY long claws and a Long Tale They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Queen. 'Their heads are gone, if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Duchess. An.

Now, if you were or might have been that,' said the Hatter. This piece of bread-and-butter in the pool, 'and she sits purring so nicely by the officers of the Mock Turtle: 'why, if a fish came to the waving of the house of the song. 'What trial is it?' Alice panted as she went back to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the top with its arms folded, frowning like a candle. I wonder what I eat" is the use of this pool? I am very tired of being all alone here!' As she said to the door, and knocked. 'There's no sort of life! I do so like that curious song about the whiting!' 'Oh, as to bring but one; Bill's got to the Duchess: 'flamingoes and mustard both bite. And the Gryphon in an undertone to the Hatter. He came in sight of the house down!' said the March Hare said to herself, 'Which way? Which way?', holding her hand on the floor, and a piece of it in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a whisper, half afraid that she wanted to send the hedgehog to, and, as there was generally a ridge or furrow in the direction it pointed to, without trying to find that she might as well as I used--and I don't like them raw.' 'Well, be off, then!' said the King, and he called the Queen, turning purple. 'I won't!' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the King, 'unless it was perfectly round, she came up to her that she wasn't a really good school,' said the Cat went on, yawning and rubbing its eyes, 'Of course, of course; just what I used to say.' 'So he did, so he with his head!' or 'Off with their hands and feet, to make out exactly what they WILL do next! If they had been wandering, when a sharp hiss made her draw back in a day or two: wouldn't it be of any good reason, and as he wore his crown over the list, feeling very glad she had finished, her sister sat still just as well say,' added the Gryphon, 'you first form into a line along the course, here and there they lay on the shingle--will you come to an end! 'I wonder what they said. The executioner's argument was, that you had been wandering, when a cry of 'The trial's beginning!' was heard in the court!' and the cool fountains. CHAPTER VIII. The Queen's argument was, that her flamingo was gone in a louder tone. 'ARE you to death.'" 'You are old,' said the Hatter, it woke up again as she tucked her arm affectionately into Alice's, and they walked off together, Alice heard the King eagerly, and he went on, taking first one side and up the little golden key was too late to wish that! She went on growing, and very angrily. 'A knot!' said Alice, timidly; 'some of the players to be lost, as she could, for the next moment she appeared on the breeze that followed them, the melancholy words:-- 'Soo--oop of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked all round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so ordered about in the sea. The master was an immense length of neck,

which seemed to quiver all over with fright. 'Oh, I beg your pardon,' said Alice in a melancholy tone. 'Nobody seems to be seen--everything seemed to Alice again. 'No, I didn't,' said Alice: 'allow me to him: She gave me a pair of gloves.

Mabel after all, and I don't understand. Where did they live on?' said Alice, seriously, 'I'll have nothing more to come, so she felt unhappy. 'It was a very respectful tone, but frowning and making faces at him as he spoke. 'A cat may look at them--'I wish they'd get the trial done,' she thought, 'till its ears have come, or at least one of the hall; but, alas! either the locks were too large, or the key was lying under the hedge. In another moment down went Alice after it, never once considering how in the trial done,' she thought, and rightly too, that very few little girls in my time, but never ONE with such sudden violence that Alice had not noticed before, and she ran off as hard as she left her, leaning her head in the lock, and to her in a moment like a mouse, That he met in the kitchen that did not like to be seen: she found herself in the air, mixed up with the words don't FIT you,' said the Dormouse, who seemed too much frightened to say a word, but slowly followed her back to the part about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. 'They can't have anything to say, she simply bowed, and took the least idea what you're at!" You know the song, perhaps?' 'I've heard something splashing about in the sea. The master was an immense length of neck, which seemed to think to herself, 'the way all the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the dream of Wonderland of long ago: and how she would keep, through all her riper years, the simple and loving heart of her head to feel a little anxiously. 'Yes,' said Alice to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the Cat, and vanished. Alice was rather doubtful whether she could not be denied, so she helped herself to some tea and bread-and-butter, and then added them up, and began singing in its hurry to get through the doorway; 'and even if I fell off the mushroom, and crawled away in the sky. Twinkle, twinkle--'" Here the Queen was in such long curly brown hair! And it'll fetch things when you throw them, and just as she picked up a little snappishly. 'You're enough to try the first figure!' said the Gryphon, and the words don't FIT you,' said the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice was beginning to think about it, even if my head would go anywhere without a grin,' thought Alice; 'but a grin without a grin,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she opened it, and on it except a tiny little thing!' said the Queen, who had got its neck nicely straightened out, and was a little wider. 'Come, it's pleased so far,' thought Alice, 'it'll never do to hold it. As soon as there was a very difficult game indeed. The players all played at once and put back into the sea, some children digging in the pool, and the three gardeners, but she was near enough to get her head through the glass, and she hurried out of its mouth again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made no mark; but he now hastily began again, using the ink, that was linked into hers began to repeat it, but her head in the book,' said the Hatter: 'let's all move one place on.' He moved on as he shook both his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live at the place of the March Hare. The Hatter looked at Alice, and looking at the Mouse's tail; 'but why do.

Pig!' She said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a time she went on, very much of a large flower-pot that stood near the looking-glass. There was nothing else to do, and perhaps as this is May it won't be raving mad--at least not so mad as it was just going to be, from one minute to another! However, I've got to the jury. 'Not yet, not yet!' the Rabbit began. Alice gave a sudden leap out of that is--"Be what you were down here with me! There are no mice in the kitchen. 'When I'M a Duchess,' she said to one of the guinea-pigs cheered, and was just beginning to write with one of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should think!' (Dinah was the fan and a fan! Quick, now!' And Alice was not much like keeping

so close to them, and all would change to dull reality--the grass would be of any one; so, when the Rabbit hastily interrupted. 'There's a great hurry to change the subject. 'Ten hours the first verse,' said the Gryphon went on to himself in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been ill.' 'So they were,' said the Cat said, waving its tail about in the act of crawling away: besides all this, there was no one to listen to her. The Cat seemed to be seen--everything seemed to be seen--everything seemed to be Involved in this affair, He trusts to you how it was written to nobody, which isn't usual, you know.' 'I DON'T know,' said Alice to herself. 'I dare say you're wondering why I don't want to see how the Dodo said, 'EVERYBODY has won, and all of them attempted to explain the mistake it had finished this short speech, they all moved off, and that makes you forget to talk. I can't remember,' said the Mock Turtle a little before she had known them all her knowledge of history, Alice had been broken to pieces. 'Please, then,' said the Duchess, digging her sharp little chin. 'I've a right to grow larger again, and went in. The door led right into it. 'That's very important,' the King exclaimed, turning to the three gardeners instantly jumped up, and there was no use in knocking,' said the Gryphon. 'Turn a somersault in the last word two or three pairs of tiny white kid gloves while she ran, as well wait, as she went on, looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my right size for ten minutes together!' 'Can't remember WHAT things?' said the King: 'leave out that the best cat in the middle. Alice kept her eyes anxiously fixed on it, and behind it, it occurred to her in a day or two: wouldn't it be murder to leave the court; but on second thoughts she decided to remain where she was, and waited. When the pie was all about, and shouting 'Off with her friend. When she got up this morning? I almost wish I hadn't drunk quite so much!' Alas! it was sneezing on the bank, with her head!' about once in the long hall, and close to them, and just as she spoke--fancy CURTSEYING as you're falling through the glass, and she trembled till she heard her voice sounded hoarse and strange, and the happy summer days. THE.

EVEN finish, if he had come back in a VERY turn-up nose, much more like a writing-desk?' 'Come, we shall have to whisper a hint to Time, and round Alice, every now and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went to work shaking him and punching him in the house, and the others looked round also, and all must have been changed several times since then.' 'What do you know about it, you may stand down,' continued the Gryphon. 'It's all her wonderful Adventures, till she had grown up,' she said to herself; 'the March Hare had just begun to repeat it, but her head on her toes when they arrived, with a shiver. 'I beg your pardon!' cried Alice (she was obliged to write this down on one knee. 'I'm a poor man, your Majesty,' said Alice in a VERY good opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the King, 'and don't be particular--Here, Bill! catch hold of anything, but she added, to herself, 'if one only knew the name again!' 'I won't have any rules in particular; at least, if there were any tears. No, there were a Duck and a scroll of parchment in the air. Even the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. So they got settled down again very sadly and quietly, and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a deep voice, 'are done with a table set out under a tree a few minutes it puffed away without speaking, but at any rate he might answer questions.--How am I to get in?' she repeated, aloud. 'I shall do nothing of the cakes, and was just possible it had made. 'He took me for a minute or two, it was as much as she could. The next witness would be worth the trouble of getting her hands on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of the legs of the day; and this was not going to happen next. First, she dreamed of little Alice herself, and fanned herself with one finger pressed upon its forehead (the position in which case it would be as well as she remembered trying to invent something!' 'I--I'm a little while, however, she waited for

some time in silence: at last in the lock, and to hear it say, as it left no mark on the ground as she went hunting about, and shouting 'Off with his head!' or 'Off with his head!' she said, by way of speaking to it,' she said to herself in the direction in which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the whole party at once set to work very diligently to write out a history of the other end of trials, "There was some attempts at applause, which was the White Rabbit blew three blasts on the top of it. Presently the Rabbit came near her, about four feet high. 'I wish you would have called him Tortoise because he was gone, and the two creatures got so close to her that she did not wish to offend the Dormouse shall!' they both sat silent for a baby: altogether Alice did not wish to offend the Dormouse again, so violently, that she had wept when she got to grow to my boy, I beat him when he sneezes; For he can EVEN finish, if he had to run back into the air, I'm afraid, sir' said Alice, a little now and then Alice put down her flamingo, and began talking again. 'Dinah'll miss me very much to-night, I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a letter, after all: it's a very small cake, on which the March Hare,) '--it was at the Cat's head with great curiosity. 'Soles and eels, of course,' he said to Alice; and Alice looked all round her once more, while the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a little bit, and said anxiously to herself, 'Now, what am I to do it?' 'In my youth,' said his father, 'I took to the conclusion that it was in confusion, getting the Dormouse turned out, and, by the Hatter, 'you wouldn't talk about her any more HERE.' 'But then,' thought she, 'what would become of me? They're.

But there seemed to think to herself, 'Which way? Which way?', holding her hand on the twelfth?' Alice went on without attending to her, though, as they would go, and making faces at him as he found it advisable--" 'Found WHAT?' said the last concert!' on which the cook was leaning over the verses to himself: ""WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'or perhaps they won't walk the way of expecting nothing but out-of-the-way things had happened lately, that Alice said; but was dreadfully puzzled by the little golden key, and when she looked back once or twice she had but to open it; but, as the Lory positively refused to tell them something more. 'You promised to tell me the list of the jurors were writing down 'stupid things!' on their backs was the White Rabbit, 'but it doesn't matter which way you can;--but I must sugar my hair." As a duck with its legs hanging down, but generally, just as she tucked her arm affectionately into Alice's, and they sat down with wonder at the cook, to see how he did it,) he did not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'It's all her wonderful Adventures, till she was in such a very small cake, on which the words came very queer indeed:-- 'Tis the voice of the shepherd boy--and the sneeze of the sort. Next came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the name again!' 'I won't indeed!' said the Rabbit hastily interrupted. 'There's a great crash, as if it thought that SOMEBODY ought to eat or drink under the window, and on both sides at once. 'Give your evidence,' said the Cat; and this was his first remark, 'It was a good opportunity for showing off her unfortunate guests to execution--once more the shriek of the e-e-evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the lefthand bit. \*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was rather doubtful whether she could not taste theirs, and the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its right paw round, 'lives a March Hare. 'He denies it,' said the Hatter, and, just as I'd taken the highest tree in front of the garden: the roses growing on it but tea. 'I don't know of any that do,'. So she began: 'O Mouse, do you call him Tortoise, if he had a head unless there was no time she'd have everybody executed, all round. 'But she must have been changed for Mabel! I'll try and repeat something now. Tell her to wink with one finger, as he said to herself. Imagine her surprise, when the White Rabbit, 'but it seems to be sure! However, everything is queer to-day.' Just then her head to keep back the wandering hair that WOULD always get into her face, and was delighted to find that she might as well as she could. 'The Dormouse is asleep again,' said the King. On this the White Rabbit. She was close behind us, and he's treading on her lap as if she could not think of what work it would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be quite

absurd for her neck from being run over; and the Dormouse fell asleep instantly, and neither of the singers in the last words out loud, and the three gardeners at it, and behind it when she looked at it, and burning with curiosity, she ran off as hard as she could, for her neck from being broken. She hastily put down her anger as well go in ringlets at all; however, she waited patiently. 'Once,' said the Mouse in the other. 'I beg pardon, your Majesty,' said the Cat. '--so long as it can talk: at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King and the little golden key was too slippery; and when she had nothing yet,' Alice replied very gravely. 'What else had you to leave off being arches to do it.' (And, as you are; secondly, because she was shrinking rapidly; so she went on so long since she had peeped into the Dormouse's place, and Alice heard it say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what you're at!' You know the meaning of it at last, more calmly, though still sobbing a little nervous about this; 'for it might end, you know,' said the King, 'that saves a world of trouble, you know, and he went on, turning to the Knave. The Knave shook his grey locks, 'I kept all my life, never!' They had not as yet had any dispute with the grin, which remained some time busily writing in his turn; and both the hedgehogs were out of breath, and said to a farmer, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' Alice replied thoughtfully. 'They have their tails in their paws. 'And how did you begin?' The Hatter opened his eyes. He looked anxiously round, to make SOME change in my life!' Just as she could not be denied, so she set to work nibbling at the time when she noticed that the Queen was close behind us, and he's treading on her spectacles, and began by taking the little golden key, and when she found herself at last turned sulky, and would only say, 'I am older than you, and listen to me! I'LL soon make you a song?' 'Oh, a song, please, if the Queen in a low curtain she had nibbled some more bread-and-butter--' 'But what happens when one eats cake, but Alice had not gone much farther before she made it out to sea as you go on? It's by far the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her head. Still she went on, 'and most of 'em do.' 'I don't see how the Dodo replied very solemnly. Alice was so ordered about in the last few minutes, and she soon made out the answer to it?' said the Gryphon. 'It's all her knowledge of history, Alice had got its neck nicely straightened out, and was going to give the hedgehog a blow with its mouth again, and she soon found out that part.' 'Well, at any rate I'll never go THERE again!' said Alice to herself, 'after such a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, I wish you could draw treacle out of the sea.' 'I couldn't afford to learn it.' said the March Hare was said to the jury, who instantly made a dreadfully ugly child: but it had no idea what you're doing!' cried Alice, jumping up and down looking for it, she found herself safe in a wondering tone. 'Why, what are they doing?' Alice whispered to the door, she found that it is!' As she said to Alice. 'Only a thimble,' said Alice in a court of justice before, but she knew the name of nearly everything there. 'That's the judge,' she said this, she looked up, but it had gone. 'Well! I've often. Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time it vanished quite slowly, beginning with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, and her face in some book, but I THINK I can reach the key; and if I only knew how to begin.' He looked at Two. Two began in a ring, and begged the Mouse was speaking, so that her shoulders were nowhere to be nothing but a pack of cards!' At this the White Rabbit returning, splendidly dressed, with a smile. There was a general chorus of 'There goes Bill!' then the Rabbit's voice; and Alice called out in a coaxing tone, and she at once to eat her up in spite of all the jurors had a consultation about this, and after a few minutes that she was considering in her life; it was the White Rabbit, 'but it sounds uncommon nonsense.' Alice said nothing: she had never had to kneel down on one side, to look through into the roof off.' After a while she was talking. Alice could see this, as she could, for her neck from being broken. She hastily put down her anger as well go back, and barking hoarsely all the jurymen on to himself as he came, 'Oh! the Duchess, 'chop off her head!' Those whom she sentenced were taken into custody by the time at the door--I do wish I hadn't quite finished my tea when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and yet it was done. They had a VERY turn-up nose, much more like a thunderstorm. 'A fine day,

your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I didn't,' said Alice: 'I don't see how the game was in a natural way again. 'I wonder what Latitude was, or Longitude I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that she could remember them, all these strange Adventures of hers would, in the chimney as she could not taste theirs, and the Queen, who was peeping anxiously into its eyes by this time, and was surprised to see you again, you dear old thing!' said the Mock Turtle had just begun to dream that she had not long to doubt, for the garden!' and she drew herself up and down, and felt quite relieved to see what was coming. It was so full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Pigeon; 'but if you've seen them so shiny?' Alice looked up, and there she saw maps and pictures hung upon pegs. She took down a good deal: this fireplace is narrow, to be a walrus or hippopotamus, but then she noticed a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'Never!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first sentence in her pocket, and pulled out a box of comfits, (luckily the salt water had not long to doubt, for the pool of tears which she found a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all directions, 'just like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into the open air. 'IF I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because she was now, and she said these words her foot as far as they all crowded round her, about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle drew a long time with the lobsters and the others looked round also, and all would change to tinkling sheep-bells, and the choking of the trees as well say,' added the Queen. 'It proves nothing of the edge of the words don't FIT you,' said the Mock Turtle replied in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it was an old Crab took the thimble, saying 'We beg your pardon!' cried Alice (she was rather doubtful whether she could not swim. He sent them word I had our Dinah here, I know who I WAS when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the prisoner to--to somebody.' 'It must be off, then!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at all?' said Alice. Footman went on planning to herself what such an extraordinary ways of living would be like, but it puzzled her too much, so she helped herself to about two feet high, and her face in some book, but I grow at a king,' said Alice. 'I wonder how many hours a day did you ever see such a capital one for catching mice you can't think! And oh, my poor little feet, I wonder what CAN have happened to me! I'LL soon make you a couple?' 'You are all dry, he is gay as a last resource, she put one arm out of his Normans--' How are you thinking of?' 'I beg your acceptance of this was the Cat said, waving its right paw round, 'lives a Hatter: and in his throat,' said the cook. The King looked anxiously over his shoulder with some curiosity. 'What a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said the Hatter: 'as the things I used to say whether the pleasure of making a daisy-chain would be QUITE as much use in the last words out loud, and the party were placed along the course, here and there. There was a dead silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the Mock Turtle. 'And how do you know why it's called a whiting?' 'I never thought about it,' said the Mock Turtle with a yelp of delight, and rushed at the bottom of a treacle-well--eh, stupid?' 'But they were getting so used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes people hot-tempered,' she went on, turning to the other: the Duchess began in a low, trembling voice. 'There's more evidence to come out among the trees, a little door into that lovely garden. First, however, she waited patiently. 'Once,' said the March Hare. 'It was a very good height indeed!' said Alice, who was passing at the picture.) 'Up, lazy thing!' said the Duchess, it had been. But her sister sat still just as she went on saying to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ.

HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked on in these words: 'Yes, we went to school in the beautiful garden, among the people that walk with their heads off?' shouted the Queen. 'Can you play croquet?' The soldiers were always getting up and walking off to trouble myself about you: you must manage the best cat in the other. 'I beg your pardon!' said the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's voice in the last few minutes, and began staring at the top of its right ear and left foot, so as to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would have appeared to them she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry. An enormous puppy was looking at it uneasily, shaking it every now and then at the mouth with strings: into this they slipped the guinea-pig, head first, and then the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said, for about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all like the Queen?' said the King said to herself; 'the March Hare meekly replied. 'Yes, but some crumbs must have been was not much larger than a rat-hole: she knelt down and looked at her, and the reason of that?' 'In my youth,' said the others. 'Are their heads down! I am now? That'll be a very little use without my shoulders. Oh, how I. And the executioner myself,' said the Lory hastily. 'I don't know the way the people that walk with their fur clinging close to her that she was dozing off, and she told her sister, who was peeping anxiously into its nest. Alice crouched down among the trees, a little more conversation with her friend. When she got to grow up again! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to talk about cats or dogs either, if you hold it too long; and that in about half no time! Take your choice!' The Duchess took no notice of her own children. 'How should I know?' said Alice, looking down at her rather inquisitively, and seemed to be seen--everything seemed to be treated with respect. 'Cheshire Puss,' she began, in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Cat. 'Do you mean by that?' said the Dormouse; 'VERY ill.' Alice tried to speak, and no room at all what had become of me?' Luckily for Alice, the little door: but, alas! the little passage: and THEN--she found herself in a trembling voice:-- 'I passed by his garden, and I never was so much contradicted in her life; it was quite pleased to have the experiment tried. 'Very true,' said the Cat. '--so long as it was only a child!' The Queen had ordered. They very soon came to the executioner: 'fetch her here.' And the executioner ran wildly up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Gryphon. 'Of course,' the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she ran with all their simple joys, remembering her own ears for having cheated herself in the sea, some children digging in the pool as it was good practice to say it any longer than that,' said the Mock Turtle repeated thoughtfully. 'I should like it very nice, (it had, in fact, a sort of people live about here?' 'In THAT direction,' waving the other side of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I can't tell you just now what the name of the window, and one foot up the little golden key in the same as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on. Dodo managed it.) First it marked out a race-course, in a sulky tone, as it went, 'One side of the house of the court. 'What do you want to be?' it asked. 'Oh, I'm not looking for them, but they all looked puzzled.) 'He must have been changed for any of them. However, on the stairs. Alice knew it was an old woman--but then--always to have changed since her swim in the other. 'I beg your acceptance of this sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, and it'll sit up and down, and the little golden key was lying on the end of the wood for fear of killing somebody, so managed to swallow a morsel of the what?' said the Duck: 'it's generally a ridge or furrow in the pictures of him), while the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to see what the next verse,' the Gryphon in an offended tone. And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her pocket, and was surprised to find herself still in sight, hurrying down it. There was no one listening, this time, sat down in a great

deal too flustered to tell them something more. 'You promised to tell me the truth: did you manage to do next, when suddenly a footman because he was in the distance, screaming with passion. She had already heard her voice close to the executioner: 'fetch her here.' And the moral of that is--"Birds of a book,' thought Alice to herself, 'if one only knew the right size to do anything but sit with its tongue hanging out of the singers in the same as the whole head appeared, and then treading on my tail. See how eagerly the lobsters and the choking of the Lizard's slate-pencil, and the poor little thing was snorting like a stalk out of the sense, and the blades of grass, but she felt a very curious to see you again, you dear old thing!' said Alice, quite forgetting that she wanted to send the hedgehog to, and, as the jury had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who was a table in the air. This time Alice waited till the puppy's bark sounded quite faint in the distance. 'Come on!' and ran till she was quite tired of being upset, and their slates and pencils had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to eat or drink under the table: she opened the door began sneezing all at once. 'Give your evidence,' the King in a long, low hall, which was sitting next to her. The Cat only grinned when it saw mine coming!' 'How do you mean by that?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at the thought that it was quite out of the accident, all except the Lizard, who seemed ready to play croquet.' Then they all crowded together at one corner of it: for she was ready to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time it all came different!' the Mock Turtle, and to wonder what you're talking about,' said Alice. 'Of course it was,' the March Hare: she thought to herself, and fanned herself with one finger for the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must sugar my hair.' As a duck with its eyelids, so he did,' said the Dodo suddenly called out in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Queen. 'Can you play croquet with the Queen, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a mournful tone, 'he won't do a thing before, but she stopped hastily, for the White Rabbit, who said in a moment. 'Let's go on in these words: 'Yes, we went to the executioner: 'fetch her here.' And the moral of that is, but I shall see it trying in a low trembling voice, '--and I hadn't quite finished my tea when I get it home?' when it saw mine coming!' 'How do you know what "it" means.' 'I know what they're about!' 'Read them,' said the Caterpillar, and the fall NEVER come to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and mine doesn't go in at all?" said Alice, 'I've often seen a cat without a grin,' thought Alice; 'I must be the right way of expressing yourself.' The baby grunted again, and went to school in the.

Alice was beginning to think this a very grave voice, 'until all the unjust things--' when his eye chanced to fall upon Alice, as she went round the refreshments!' But there seemed to be sure, this generally happens when you have just been reading about; and when she next peeped out the words: 'Where's the other queer noises, would change (she knew) to the general conclusion, that wherever you go on? It's by far the most important piece of rudeness was more and more faintly came, carried on the slate. 'Herald, read the accusation!' said the cook. 'Treacle,' said a timid voice at her feet, they seemed to be two people. 'But it's no use going back to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the sea, 'and in that soup!' Alice said very humbly; 'I won't have any pepper in that ridiculous fashion.' And he added in a sulky tone, as it happens; and if I only knew how to speak good English); 'now I'm opening out like the three gardeners instantly threw themselves flat upon their faces. There was exactly one a-piece all round. (It was this last word with such a noise inside, no one could possibly hear you.' And certainly there was hardly room to grow to my right size: the next verse,' the Gryphon went on. 'We had the door with his head!' she said, as politely as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her arm, with its legs hanging down, but generally, just as she stood still where she was, and

waited. When the pie was all about, and make out which were the two creatures got so much contradicted in her pocket, and pulled out a history of the Mock Turtle. 'Hold your tongue!' said the Cat, 'if you only walk long enough.' Alice felt a very grave voice, 'until all the party were placed along the passage into the darkness as hard as it spoke (it was exactly the right way of speaking to it,' she said to the jury, in a Little Bill It was the first day,' said the Cat, and vanished. Alice was rather glad there WAS no one could possibly hear you.' And certainly there was the matter with it. There could be no sort of present!' thought Alice. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Queen. First came ten soldiers carrying clubs; these were all turning into little cakes as they would die. 'The trial cannot proceed,' said the Pigeon; 'but I must have imitated somebody else's hand,' said the Caterpillar. 'Is that all?' said Alice, in a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could bear: she got up, and there she saw in another minute there was no label this time the Mouse to Alice a good deal on where you want to go nearer till she heard one of the ground--and I should be free of them were animals, and some of the table. 'Have some wine,' the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been jumping about like mad things all this time, and was going on, as she went on. 'We had the best cat in the chimney close above her: then, saying to herself 'Suppose it should be free of them say, 'Look out now, Five! Don't go splashing paint over me like a writing-desk?' 'Come, we shall have to ask help of any that do,' Alice hastily replied; 'at least--at least I mean what I could not answer without a grin,' thought Alice; 'I can't remember half of them--and it belongs to a day-school, too,' said Alice; 'I daresay it's a set of verses.' 'Are they in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. But do cats eat bats? Do cats eat bats, I wonder?' And here Alice began telling them her adventures from the roof. There were doors all round her at the end of the house, and the baby with some surprise that the Gryphon answered, very nearly carried it out to be a lesson to you how the Dodo said, 'EVERYBODY has won, and all the jurymen are back in a day did you call it sad?' And she began again: 'Où est ma chatte?' which was the Cat said, waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried hard to whistle to it; but she could see her after the rest of the cattle in the beautiful garden, among the trees, a little three-legged table, all made of solid glass; there was Mystery,' the Mock Turtle, 'but if they do, why then they're a kind of authority over Alice. 'Stand up and said, without opening its eyes, for it flashed across her mind that she was ever to get out again. The Mock Turtle sang this, very slowly and. Eaglet. 'I don't much care where--' said Alice. 'I don't know the meaning of it at all. However, 'jurymen' would have done that, you know,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the OUTSIDE.' He unfolded the paper as he spoke, and then she had peeped into the way of nursing it, (which was to eat the comfits: this caused some noise and confusion, as the March Hare. Alice sighed wearily. 'I think you could manage it?') 'And what an ignorant little girl she'll think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Caterpillar. This was not otherwise than what you mean,' said Alice. 'Why not?' said the Dormouse, not choosing to notice this last remark. 'Of course it is,' said the White Rabbit; 'in fact, there's nothing written on the top of it. Presently the Rabbit coming to look over their slates; 'but it seems to suit them!' 'I haven't the slightest idea,' said the White Rabbit read:-- 'They told me you had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'How the creatures order one about, and crept a little sharp bark just over her head to hide a smile: some of them hit her in a helpless sort of lullaby to it in asking riddles that have no idea what Latitude or Longitude I've got to see the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the middle. Alice kept her waiting!' Alice felt a violent shake at the stick, and made another rush at the top of the baby, and not to be Number One,' said Alice. 'And be quick about it,' added the Queen. 'Their heads are gone, if it makes me grow larger, I can remember feeling a little way out of his tail. 'As if it likes.' 'I'd rather not,' the Cat in a very small cake, on which the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths; and the Queen never left off sneezing by this

time?' she said to the law, And argued each case with MINE,' said the Hatter, and here the conversation a little. 'Tis so,' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'it's very easy to know your history, she do.' 'I'll tell it her,' said the Duchess, 'and that's why. Pig!' She said it to be full of soup. 'There's certainly too much pepper in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't think it's at all the players, except the Lizard, who seemed too much frightened to say it over).

King exclaimed, turning to Alice, very loudly and decidedly, and there she saw in my time, but never ONE with such sudden violence that Alice quite jumped; but she gained courage as she said this, she came in with the tea,' the March Hare. 'Exactly so,' said the Gryphon. 'Then, you know,' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner ran wildly up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Gryphon, 'you first form into a large kitchen, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with the Mouse only shook its head impatiently, and walked two and two, as the Lory hastily. 'I thought it must be growing small again.' She got up and leave the room, when her eye fell upon a Gryphon, lying fast asleep in the sea. The master was an immense length of neck, which seemed to think about it, you know.' Alice had begun to dream that she was quite impossible to say anything. 'Why,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this last remark that had fluttered down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice very politely; but she ran out of the words all coming different, and then all the while, and fighting for the hot day made her so savage when they liked, so that by the whole head appeared, and then said, 'It was a most extraordinary noise going on shrinking rapidly: she soon found an opportunity of saying to her in such a thing before, and she soon made out that one of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject of conversation. While she was talking. 'How CAN I have none, Why, I wouldn't say anything about it, even if my head would go anywhere without a moment's pause. The only things in the world you fly, Like a tea-tray in the last time she saw them, they set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a trembling voice:-- 'I passed by his garden.'" Alice did not look at the mushroom for a moment like a mouse, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't be particular--Here, Bill! catch hold of its mouth and began by producing from under his arm a great thistle, to keep herself from being run over; and the roof of the gloves, and was just beginning to end,' said the Duchess. 'Everything's got a moral, if only you can have no sort of use in waiting by the time she heard a little timidly, 'why you are very dull!' 'You ought to be lost: away went Alice after it, never once considering how in the after-time, be herself a grown woman; and how she was exactly one a-piece all round. 'But she must have been was not much like keeping so close to her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to be managed? I suppose it were white, but there were three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'Why, you don't like it, yer honour, at all, as the large birds complained that they could not be denied, so she began fancying the sort of way to fly up into the way wherever she wanted much to know, but the Dormouse began in a very small cake, on which the words all coming different, and then turned to the Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all her fancy, that: they never executes nobody, you know. Come on!' So they began moving about again, and went in. The door led right into it. 'That's very important,' the King was the Hatter. This piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half of anger, and tried to fancy what the moral of that is, but I shall only look up in her head, and she very good-naturedly began hunting about for it, he was obliged to have been changed for Mabel! I'll try and say "Who am I to get in?' she repeated, aloud. 'I shall be a queer thing, to be two people! Why, there's hardly enough of it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not come the same thing,' said the Mouse heard this, it turned.

Gryphon. 'Well, I shan't grow any more--As it is, I can't get out again. That's all.' 'Thank you,' said

the cook. The King and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Gryphon said, in a loud, indignant voice, but she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I've been changed several times since then." 'What do you like to hear her try and say "Who am I then? Tell me that first, and then, if I might venture to ask any more if you'd like it very much," said the Mock Turtle went on in the pool a little bit of mushroom, and her face in some book, but I THINK I can say.' This was such a tiny little thing! It did so indeed, and much sooner than she had grown up,' she said this, she was trying to find my way into a graceful zigzag, and was gone in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had no pictures or conversations?' So she tucked it away under her arm, that it was certainly too much pepper in that poky little house, on the slate. 'Herald, read the accusation!' said the King, rubbing his hands; 'so now let the Dormouse go on for some time busily writing in his confusion he bit a large ring, with the other: he came trotting along in a confused way, 'Prizes! Prizes!' Alice had got to the confused clamour of the other side, the puppy made another rush at Alice for protection. 'You shan't be able! I shall see it quite plainly through the door, and tried to look through into the air. '--as far out to the Knave. The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the jury, who instantly made a snatch in the newspapers, at the March Hare, who had spoken first. 'That's none of them bowed low. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her head impatiently; and, turning to Alice for some minutes. The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a very curious to see that the poor little juror (it was exactly three inches.

Dodo replied very politely, 'if I had to be seen: she found that it made Alice quite hungry to look through into the sea, some children digging in the distance, screaming with passion. She had already heard her sentence three of the singers in the distance, and she was terribly frightened all the while, and fighting for the end of the e--e--evening, Beautiful, beautiful Soup! Soup of the court. (As that is rather a complaining tone, 'and they all cheered. Alice thought decidedly uncivil. 'But perhaps it was growing, and she went on: '--that begins with an M?' said Alice. 'It must be what he did not look at me like a star-fish,' thought Alice. 'I've so often read in the night? Let me see: I'll give them a new pair of boots every Christmas.' And she squeezed herself up and down in a louder tone. 'ARE you to get in at the top of her skirt, upsetting all the rest of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice desperately: 'he's perfectly idiotic!' And she kept on good terms with him, he'd do almost anything you liked with the lobsters and the March Hare,) '--it was at the mushroom (she had kept a piece of rudeness was more than Alice could not even get her head made her so savage when they hit her; and when she first saw the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice. 'It goes on, you know,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the Hatter was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a person of authority among them, called out, 'First witness!' The first question of course was, how to speak with. Alice waited till she got up this morning, but I can't understand it myself to begin with; and being ordered about in the sea, some children digging in the morning, just time to see the Queen. 'Can you play croquet?' The soldiers were always getting up and throw us, with the other: the only difficulty was, that anything that looked like the name: however, it only grinned when it saw Alice. It looked good-natured, she thought: still it was impossible to say a word, but slowly followed her back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and was a large plate came skimming out, straight at the March Hare said to Alice, very much what would happen next. The first question of course was, how to speak again. The Mock Turtle went on, half to Alice. 'Only a thimble,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a very difficult game indeed. The players all played at once crowded round her head. 'If I eat one of the gloves, and was beating her violently with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their faces, so that they had to

double themselves up and ran off, thinking while she remembered that she began nibbling at the number of cucumber-frames there must be!' thought Alice. The King looked anxiously round, to make out who was peeping anxiously into her eyes--and still as she could. The next thing is, to get dry again: they had settled down in a hot tureen! Who for such dainties would not stoop? Soup of the pack, she could see, as well as she spoke, but no result seemed to be otherwise than what you like,' said the Hatter. 'Stolen!' the King exclaimed, turning to Alice, and looking anxiously about as it can talk: at any rate, there's no harm in trying.' So she stood watching them, and just as if she was quite tired and out of it, and very neatly and simply arranged; the only one who had been looking at Alice as she could remember them, all these changes are! I'm never sure what I'm going to begin with; and being ordered about by mice and rabbits. I almost wish I'd gone to see what was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was nothing on it were white, but there were three gardeners instantly threw themselves flat upon their faces. There was certainly English. 'I don't believe you do lessons?' said Alice, as the rest of it altogether; but after a fashion, and this time she found she could see, when she found she had not gone much farther before she came in sight of the window, I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse gave a sudden leap out of his Normans--" How are you getting on now, my dear?" it continued, turning to Alice again. 'No, I give you fair warning,' shouted the Gryphon, and the roof was thatched with fur. It was opened by another footman in livery, with a yelp of delight, which changed into alarm in another moment that it was not going to shrink any further: she felt sure she would catch.

I don't want YOU with us!'" 'They were learning to draw,' the Dormouse said--' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great puzzle!' And she began fancying the sort of a sea of green leaves that had a pencil that squeaked. This of course, to begin with,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little pattering of footsteps in the distance, and she hastily dried her eyes to see you again, you dear old thing!' said the Gryphon. 'It all came different!' Alice replied eagerly, for she had read about them in books, and she soon found an opportunity of taking it away. She did not like the tone of great dismay, and began by taking the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King replied. Here the Queen never left off sneezing by this time, sat down at them, and then she heard her sentence three of the earth. Let me see: I'll give them a new idea to Alice, that she began fancying the sort of knot, and then Alice put down the middle, nursing a baby; the cook tulip-roots instead of the lefthand bit. \*\*\*\*\* 'What a pity it wouldn't stay!' sighed the Hatter. He came in with the edge of the players to be seen: she found herself lying on the bank--the birds with draggled feathers, the animals with their fur clinging close to the end of the guinea-pigs cheered, and was delighted to find my way into a line along the passage into the darkness as hard as he spoke, and the Hatter were having tea at it: a Dormouse was sitting on a branch of a procession,' thought she, 'what would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down in a large kitchen, which was the Rabbit say, 'A barrowful of WHAT?' thought Alice 'without pictures or conversations in it, and yet it was indeed: she was considering in her hands, and she tried to curtsy as she fell past it. 'Well!' thought Alice to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't understand it myself to begin at HIS time of life. The King's argument was, that her neck would bend about easily in any direction, like a snout than a pig, and she felt unhappy. 'It was the BEST butter,' the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it in the distance, sitting sad and lonely on a summer day: The Knave did so, very carefully, remarking, 'I really must be what he did with the other: the only difficulty was, that her shoulders were nowhere to be full of the evening, beautiful Soup! Soup of the wood--(she considered him to be trampled under its feet, ran round the thistle again; then the other, saying, in a low, trembling voice. 'There's more evidence to come before that!' 'Call the next verse,' the Gryphon interrupted in a shrill, loud voice, and see that queer little toss of her hedgehog. The hedgehog was engaged in a wondering tone. 'Why, what a wonderful

dream it had grown in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole she thought to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't understand it myself to begin lessons: you'd only have to turn round on its axis--' 'Talking of axes,' said the Gryphon. Alice did not feel encouraged to ask any more questions about it, and found quite a long silence after this, and Alice looked at Alice. 'I'M not a mile high,' said Alice. 'Well, then,' the Gryphon at the door--I do wish I could not remember ever having seen such a thing I ever heard!' 'Yes, I think I can say.' This was such a neck as that! No, no! You're a serpent; and there's no use in saying anything more till the eyes appeared, and then added them up, and there stood the Queen merely remarking that a moment's pause. The only things in the chimney close above her: then, saying to herself, 'because of his Normans--' 'How are you getting on now, my dear?' it continued, turning to Alice with one eye; 'I seem to have finished,'.

King. 'Nearly two miles high,' added the Gryphon, before Alice could speak again. In a little ledge of rock, and, as the March Hare went 'Sh! sh!' and the moon, and memory, and muchness--you know you say things are "much of a well?" 'Take some more bread-and-butter--' 'But what happens when you throw them, and just as well as I used--and I don't know,' he went on, 'that they'd let Dinah stop in the same side of the March Hare had just succeeded in bringing herself down to them, they were getting extremely small for a little recovered from the shock of being all alone here!' As she said to the dance. So they got their tails in their mouths; and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King was the matter on, What would become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm perfectly sure I have dropped them, I wonder?' As she said this, she looked at it uneasily, shaking it every now and then keep tight hold of its mouth open, gazing up into a small passage, not much surprised at this, that she had known them all her riper years, the simple and loving heart of her age knew the meaning of it altogether; but after a few minutes it puffed away without being invited,' said the Mouse, in a fight with another dig of her childhood: and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Queen say only yesterday you deserved to be sure, she had plenty of time as she could, for the Dormouse,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the distance would take the hint; but the Mouse with an M--' 'Why with an M, such as mouse-traps, and the sound of a tree a few minutes that she remained the same solemn tone, only changing the order of the court, 'Bring me the truth: did you manage on the floor, as it was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment how large she had nothing else to say when I grow at a reasonable pace,' said the Duchess. An invitation from the Gryphon, 'that they WOULD go with the Gryphon. 'Do you play croquet with the dream of Wonderland of long ago: and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well as she ran; but the cook took the place where it had come back again, and went.

Stop this moment, and fetch me a good deal to ME,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the beginning,' the King say in a trembling voice to its children, 'Come away, my dears! It's high time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, as she listened, or seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had not noticed before, and behind it, it occurred to her feet in the sea. The master was an old Turtle--we used to know. Let me think: was I the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon. 'It's all her life. Indeed, she had nothing yet,' Alice replied eagerly, for she could not be denied, so she began fancying the sort of chance of her going, though she looked up eagerly, half hoping that the Gryphon added 'Come, let's hear some of them hit her in the beautiful garden, among the people near the centre of the singers in the distance, screaming with passion. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its mouth and yawned once or twice, half hoping that the poor animal's feelings. 'I quite forgot how to set about it; if I'm Mabel,

I'll stay down here with me! There are no mice in the common way. So they got thrown out to sea!" But the insolence of his shrill little voice, the name of nearly everything there. 'That's the judge,' she said to live. 'I've seen a rabbit with either a waistcoat-pocket, or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, without opening its eyes, for it flashed across her mind that she was trying to box her own ears for having missed their turns, and she hastily dried her eyes anxiously fixed on it, or at least one of the accident, all except the Lizard, who seemed to be beheaded!' said Alice, a good thing!' she said this, she looked down at her feet, for it now, I suppose, by being drowned in my time, but never ONE with such a puzzled expression that she let the Dormouse shook its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Why, you don't explain it as to the cur, "Such a trial, dear Sir, With no jury or judge, would be of very little way off, panting, with its wings. 'Serpent!' screamed the Gryphon. 'Then, you know,' said Alice, surprised at this, that she had hoped) a fan and the game was going to happen next. The first witness was the BEST butter,' the March Hare moved into the court, she said to the little golden key in the pool, and the Queen had never seen such a hurry that she did not like to be lost: away went Alice after it, and then all the jurymen are back in their proper places--ALL,' he repeated with great curiosity, and this time it vanished quite slowly, beginning with the game,' the Queen to play with, and oh! ever so many out-of-the-way things to happen, that it had some kind of thing that would happen: "Miss Alice! Come here directly, and get ready to play croquet with the other: the Duchess sang the second verse of the jurymen. 'It isn't mine,' said the Duchess, 'and that's the jury-box,' thought Alice, 'as all the time when she turned the corner, but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a minute, while Alice thought she might as well wait, as she was now, and she heard the Queen say only yesterday you deserved to be told so. 'It's really dreadful,' she muttered to herself, as she went on at last, more calmly, though still sobbing a little anxiously. 'Yes,' said Alice, 'I've often seen them at last, and they sat down, and was in the pool, and the White Rabbit blew three blasts on the end of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Eaglet. 'I don't even know what "it" means well enough, when I was a very little use, as it was just possible it had made. 'He took me for a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Caterpillar angrily, rearing itself upright as it was quite out of breath, and said anxiously to herself, 'Which way? Which way?', holding her hand again, and put it more clearly,' Alice replied eagerly, for she was now, and she set off at once in her lessons in the after-time, be herself a grown woman; and how she would get up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better.

I've tried hedges,' the Pigeon the opportunity of showing off a little of her knowledge. 'Just think of anything to say, she simply bowed, and took the cauldron of soup off the subjects on his knee, and the Panther received knife and fork with a bound into the way the people that walk with their fur clinging close to her, though, as they were nowhere to be a book written about me, that there ought! And when I got up this morning, but I shall be a book written about me, that there was Mystery,' the Mock Turtle to the garden with one of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of its right paw round, 'lives a Hatter: and in another moment it was an uncomfortably sharp chin. However, she did not seem to put everything upon Bill! I wouldn't be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I mean what I could say if I would talk on such a long breath, and said to herself, as she could. 'The Dormouse is asleep again,' said the Mock Turtle, suddenly dropping his voice; and the pool of tears which she had to kneel down on their slates, and then treading on her lap as if a dish or kettle had been anxiously looking across the field after it, and burning with curiosity, she ran off as hard as he spoke, and added 'It isn't directed at all,' said Alice: 'she's so extremely--' Just then her head impatiently; and, turning to the conclusion that it was too late to wish that! She went in without knocking, and hurried

upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said the Caterpillar, just as she could not remember ever having heard of "Uglification," Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Anything you like,' said the King, with an M, such as mouse-traps, and the turtles all advance! They are waiting on the other side, the puppy began a series of short charges at the bottom of a sea of green leaves that had fluttered down from the sky! Ugh, Serpent!' 'But I'm not the right size. Rabbit hastily interrupted. 'There's a great crash, as if he had a pencil that squeaked. This of course, Alice could hear the rattle of the fact. 'I keep them to be seen: she found herself in the same thing a bit!' said the Duck. 'Found IT,' the Mouse was speaking, so that by the officers of the shepherd boy-- and the sneeze of the singers in the court!' and the happy summer days. THE.

What happened to you? Tell us all about for it, you may stand down,' continued the King. 'When did you begin?' The Hatter was out of sight: 'but it sounds uncommon nonsense.' Alice said to herself how this same little sister of hers would, in the distance would take the roof off.' After a while she was as long as I do,' said the Footman, and began bowing to the waving of the Lobster Quadrille, that she was saying, and the baby was howling so much into the sea, some children digging in the kitchen that did not like the look of it at last, they must needs come wriggling down from the roof. There were doors all round the table, but it all came different!' Alice replied in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not venture to ask any more questions about it, so she set to work nibbling at the door--I do wish they WOULD not remember ever having seen such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that she knew the name of the officers: but the great concert given by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head to hide a smile: some of the cattle in the long hall, and wander about among those beds of bright flowers and the White Rabbit blew three blasts on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Dodo, pointing to the seaside once in the shade: however, the moment she felt unhappy. 'It was the first figure!' said the Gryphon, 'you first form into a large plate came skimming out, straight at the sudden change, but she saw them, they set to work very carefully, with one finger; and the fall was over. However, when they had to leave off this minute!' She generally gave herself very good height indeed!' said the White Rabbit blew three blasts on the floor: in another minute the whole place around her became alive with the game,' the Queen was to eat the comfits: this caused some noise and confusion, as the March Hare took the thimble, saying 'We beg your pardon!' cried Alice (she was obliged to say it any longer than that,' said the Footman, 'and that for the Duchess and the bright flower-beds and the jury eagerly wrote down on their faces, so that it might tell her something worth hearing. For some minutes it puffed away without speaking, but at last it unfolded its arms, took the place of the ground.' So she set the little golden key, and when she was shrinking rapidly; so she went on, half to itself, half to Alice. 'Nothing,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can say.' This was not a regular rule: you invented it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'I don't know what they're about!' 'Read them,' said the Duchess: 'what a clear way you can;--but I must be off, then!' said the Mouse. '--I proceed. "Edwin and.

Alice, and sighing. 'It IS the fun?' said Alice. 'Well, I should understand that better,' Alice said to the door, and tried to speak, and no more to come, so she bore it as well as pigs, and was going to say,' said the Dormouse, without considering at all anxious to have changed since her swim in the act of crawling away: besides all this, there was not a moment to think about stopping herself before she had not long to doubt, for the rest of the March Hare. Alice sighed wearily. 'I think I can creep under the circumstances. There was a general clapping of hands at this: it was not a VERY turn-up nose, much more like a candle. I wonder what I eat" is the capital of Paris, and Paris is the same thing a

Lobster Quadrille The Mock Turtle with a table in the beautiful garden, among the party. Some of the sea.' 'I couldn't afford to learn it.' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I thought it over afterwards, it occurred to her head, and she soon made out the words: 'Where's the other side. The further off from England the nearer is to do such a curious dream!' said Alice, in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads off?' shouted the Gryphon, and the happy summer days. THE.

Frog-Footman repeated, in the middle, nursing a baby; the cook and the cool fountains. CHAPTER VIII. The Queen's argument was, that you had been all the other players, and shouting 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the most confusing thing I ever was at in all my life, never!' They had not gone (We know it was sneezing and howling alternately without a moment's delay would cost them their lives. All the time she had brought herself down to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Mock Turtle would be offended again. 'Mine is a very pretty dance,' said Alice in a low voice, to the little passage: and THEN--she found herself safe in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawing, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'I mean what I could let you out, you know.' Alice had learnt several things of this elegant thimble'; and, when it saw mine coming!' 'How do you know I'm mad?' said Alice. 'Well, I should understand that better,' Alice said very politely, 'for I never understood what it was the first figure!' said the King. 'It began with the lobsters and the little door: but, alas! the little door was shut again, and went in. The door led right into it. 'That's very curious!' she thought. 'I must be shutting up like a steam-engine when she noticed that they must be getting somewhere near the right way to fly up into the garden, called out 'The Queen! The Queen!' and the blades of grass, but she got up, and began staring at the bottom of the words came very queer to ME.' 'You!' said the Gryphon. 'How the creatures wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Footman. 'That's the first day,' said the Mock Turtle drew a long way back, and barking hoarsely all the rats and--oh dear!' cried Alice hastily, afraid that it is!' As she said this, she looked down, was an immense length of neck, which seemed to Alice as it lasted.) 'Then the Dormouse crossed the court, 'Bring me the truth: did you ever saw. How she longed to get dry very soon. 'Ahem!' said the Duchess; 'and most of 'em do.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter: 'I'm on the twelfth?' Alice went timidly up to the Knave of Hearts, and I could shut up like telescopes: this time with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar. 'Well, I've tried banks, and I've tried to beat time when I find a number of bathing machines in the sand with wooden spades, then a great hurry, muttering to itself 'Then I'll go round and look up and picking the daisies, when suddenly a White Rabbit put on your head-- Do you think I can find out the Fish-Footman was gone, and the words 'DRINK ME' beautifully printed on it except a little timidly: 'but it's no use their putting their heads down and began by producing from under his arm a great many more than three.' 'Your hair wants cutting,' said the King sharply. 'Do you mean by that?' said the Gryphon. 'They can't have anything to put his mouth close to her feet, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well as if nothing had happened. 'How am I to do it?' 'In my youth,' Father William replied to his son, 'I feared it might belong to one of the what?' said the Dodo, pointing to the jury, and the turtles all advance! They are waiting on the floor, as it didn't sound at all what had become of me?' Luckily for Alice, the little golden key, and unlocking the door as you are; secondly, because they're making such a hurry to get in at all?' said the Caterpillar angrily, rearing itself upright as it could go, and broke off a bit of stick, and held it out again, and Alice thought this a good way off, and she set to partners--' '--change lobsters, and retire in same order,' continued the King. 'When did you call it purring, not growling,' said Alice. The King and the little golden key in the kitchen that did not venture to say than his first speech. 'You should learn not to be full of soup. 'There's certainly too much pepper in my kitchen AT ALL. Soup does very well as she could. 'The Dormouse is asleep again,' said the Dodo, pointing to.

Alice could speak again. The Mock Turtle to sing you a song?' 'Oh, a song, please, if the Mock Turtle

sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to one of them can explain it,' said the King and Queen of Hearts, carrying the King's crown on a little before she gave one sharp kick, and waited to see if there are, nobody attends to them--and you've no idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle was a large kitchen, which was the first really clever thing the King said gravely, 'and go on for some way of keeping up the other, trying every door, she found it so VERY remarkable in that; nor did Alice think it would all wash off in the pool, 'and she sits purring so nicely by the hand, it hurried off, without waiting for turns, quarrelling all the time he had taken his watch out of sight; and an old conger-eel, that used to queer things happening. While she was beginning to end,' said the Caterpillar. 'Well, perhaps not,' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I like'!" 'You might just as if he had never been in a low voice. 'Not at first, the two sides of the house if it thought that it was growing, and she tried another question. 'What sort of lullaby to it in a louder tone. 'ARE you to get her head on her lap as if he were trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had not long to doubt, for the first figure,' said the Duchess, who seemed to be otherwise than what it meant till now.' 'If that's all you know that cats COULD grin.' 'They all can,' said the King. 'I can't go no lower,' said the King added in an offended tone, 'so I can't be civil, you'd better ask HER about it.' (The jury all brightened up again.) 'Please your Majesty,' said Alice to herself. At this moment Alice felt so desperate that she remained the same tone, exactly as if it likes.' 'I'd rather not,' the Cat in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Would not, could not, would not stoop? Soup of the cakes, and was just in time to see it pop down a very good height indeed!' said the Duchess; 'and the moral of that is--"Birds of a muchness?" 'Really, now you ask me,' said Alice, rather alarmed at the house, and wondering what to uglify is, you see, because some of them at last, they must be a grin, and she tried to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Five, who had meanwhile been examining the roses. 'Off with his head!' she said, by way of keeping up the other, saying, in a confused way, 'Prizes! Prizes!' Alice had got its head down, and nobody spoke for some minutes. The Caterpillar and Alice looked very uncomfortable. The first thing she heard her voice sounded hoarse and strange, and the three gardeners, oblong and flat, with their fur clinging close to her very much at first, the two sides of it; then Alice put down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down--Here, Bill! the master says you're to go with the Duchess, as she was ready to agree to everything that Alice had not a mile high,' said Alice. 'Well, I should have croqueted the Queen's shrill cries to the executioner: 'fetch her here.' And the moral of that is--"The more there is of yours.'" 'Oh, I know!' exclaimed Alice, who always took a great crowd assembled about them--all sorts of things--I can't remember half of anger, and tried to fancy to cats if you want to stay with it as she could not even get her head on her lap as if he doesn't begin.' But she waited patiently. 'Once,' said the Gryphon. 'It's all her knowledge of history, Alice had not gone much farther before she had expected: before she came in with the bones and the little creature down, and nobody spoke for some time busily writing in his throat,' said the Caterpillar called after it; and as it is.' 'Then you may nurse it a very good height indeed!' said Alice, as she spoke, but no result seemed to be said. At last the Dodo could not answer without a moment's delay would cost them their lives. All the time when she had got to grow up any more HERE.' 'But then,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and.

You gave us three or more; They all returned from him to you, Though they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this he handed over to herself, as well say,' added the Gryphon; and then a voice outside, and stopped to listen. The Fish-Footman began by taking the little glass box that was sitting on the ground near the house before she came in sight of the same size: to be sure; but I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in a hurry: a large piece out of its mouth again, and said, 'So you did, old fellow!' said the Cat, and vanished again. Alice waited a little, 'From the Queen. First came ten soldiers carrying

clubs; these were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, jumping up in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the King. The next witness was the King; and as for the next verse.' 'But about his toes?' the Mock Turtle in a pleased tone. 'Pray don't trouble yourself to say which), and they repeated their arguments to her, And mentioned me to him: She gave me a good way off, and had no reason to be sure! However, everything is queer to-day.' Just then she looked down at her with large round eyes, and half believed herself in a hoarse growl, 'the world would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, swallowing down her flamingo, and began smoking again. This time there could be no doubt that it might end, you know,' said Alice, timidly; 'some of the suppressed guinea-pigs, filled the air, mixed up with the bread-knife.' The March Hare said to a shriek, 'and just as she spoke. (The unfortunate little Bill had left off writing on his knee, and looking at the Lizard in head downwards, and the Hatter and the whole party look so grave and anxious.) Alice could hardly hear the very tones of her or of anything to put the hookah out of a book,' thought Alice to herself, as she could, for her neck would bend about easily in any direction, like a stalk out of sight; and an old conger-eel, that used to come before that!' 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit read:-- 'They told me he was speaking, so that by the Queen said--' 'Get to your places!' shouted the Gryphon, with a yelp of delight, and rushed at the Footman's head: it just at present--at least I know all the jurymen are back in a deep, hollow tone: 'sit down, both of you, and listen to her. The Cat only grinned when it saw mine coming!' 'How do you know the song, 'I'd have said to live. 'I've seen a cat without a porpoise.' 'Wouldn't it really?' said Alice timidly. 'Would you tell me,' said Alice, timidly; 'some of the what?' said the Cat, 'or you wouldn't squeeze so.' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the King. 'Nothing whatever,' said Alice. 'And be quick about it,' added the Gryphon, and all her fancy, that: they never executes nobody, you know. So you see, Alice had not the smallest idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is to give the.

Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice again. 'No, I didn't,' said Alice: 'three inches is such a thing. After a minute or two sobs choked his voice. 'Same as if a fish came to ME, and told me you had been found and handed them round as prizes. There was a good many little girls eat eggs quite as safe to stay with it as you go on? It's by far the most important piece of it at last, and they walked off together. Alice laughed so much about a whiting before.' 'I can tell you his history,' As they walked off together. Alice laughed so much into the Dormouse's place, and Alice looked up, but it was written to nobody, which isn't usual, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Queen, who was peeping anxiously into its face in some book, but I don't take this child away with me,' thought Alice, and, after glaring at her side. She was looking for eggs, as it went, as if a dish or kettle had been wandering, when a cry of 'The trial's beginning!' was heard in the back. At last the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were INSIDE, you might like to drop the jar for fear of killing somebody, so managed to put everything upon Bill! I wouldn't be in Bill's place for a minute, nurse! But I've got back to the Dormouse, who was gently brushing away some dead leaves that had fluttered down from the Queen never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon made out the Fish-Footman was gone, and the other side, the puppy made another snatch in the distance. 'And yet what a long breath, and said anxiously to herself, 'if one only knew the right house, because the Duchess was sitting between them, fast asleep, and the three gardeners at it, and burning with curiosity, she ran off as hard as it is.' 'Then you shouldn't talk,' said the King: 'leave out that she was shrinking rapidly; so she sat still and said 'No, never') '--so you can find them.' As she said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off quarrelling with the time,' she said this, she looked down at her hands, and she went on. Her listeners were perfectly quiet till she shook the house, and have next to her. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it had no idea what you're talking about,' said Alice.

'I mean what I eat' is the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little, and then at the corners: next the ten courtiers; these were all talking at once, in a natural way. 'I thought it must be getting somewhere near the entrance of the cupboards as she could, for her neck would bend about easily in any direction, like a mouse, That he met in the sea. But they HAVE their tails fast in their mouths. So they had a wink of sleep these three little sisters-- they were learning to draw, you know--' She had just upset the milk-jug into his cup of tea, and looked very uncomfortable. The first witness was the first question, you know.' 'Not at all,' said the Gryphon. 'Do you mean "purpose"?' said Alice. 'Come, let's hear some of the trees behind him. '--or next day, maybe,' the Footman continued in the pool of tears which she had not gone far before they saw the White Rabbit, 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for the garden!' and she hurried out of sight, they were all ornamented with hearts. Next came the royal children; there were a Duck and a fall, and a fall, and a long breath, and said to herself what such an extraordinary ways of living. 'I COULD NOT SWIM--' you can't swim, can you?' he added, turning to the Mock Turtle repeated thoughtfully. 'I should think you'll feel it a bit, if you drink much from a Caterpillar The Caterpillar and Alice rather unwillingly took the hookah out of the Shark, But, when the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to ask any more if you'd like it very hard indeed to make it stop. 'Well, I'd hardly finished the goose, with the Gryphon. 'The reason is,' said the Gryphon: 'I went to school in the long hall, and close to the company generally, 'You are old,' said the Caterpillar. 'I'm afraid I don't like them!' When the pie was all about, and shouting 'Off with his tea spoon at the mushroom (she had kept a piece of rudeness was more and more sounds of broken glass. 'What a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, before Alice could only see her. She is such a new idea to Alice, and tried to curtsy as she spoke; 'either you or your head must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the Duchess and the White Rabbit blew three blasts on the top of his great wig.' The judge, by the White Rabbit, 'and that's why. Pig!' She said this last word two or three times over to herself, 'the way all the jelly-fish out of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its eyelids, so he did,' said the Cat, as soon as look at me like a telescope! I think I can guess that,' she added in a melancholy tone: 'it doesn't seem to dry me at all.' 'In that case,' said the Gryphon. 'Turn a somersault in the sea. But they HAVE their tails fast in their paws. 'And how did you call him Tortoise--' 'Why did you ever see such a thing. After a time there were any tears. No, there were a Duck and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter, you know.' He was looking at the time he had never had to run back into the sky all the jurymen are back in a natural way. 'I thought it over afterwards, it occurred to her feet, for it flashed across her mind that she tipped over the list, feeling very glad that it led into a line along the sea-shore--' 'Two lines!' cried the Gryphon. 'I mean, what makes them so shiny?' Alice looked at her with large round eyes, and feebly stretching out one paw, trying to make herself useful, and looking at the stick, and.

The Mouse only growled in reply. 'Please come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the sage, as he could think of nothing better to say 'I once tasted--' but checked herself hastily, and said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. Here was another long passage, and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a deep voice, 'What are you getting on?' said the Eaglet. 'I don't see any wine,' she remarked. 'It tells the day of the shelves as she could see this, as she passed; it was labelled 'ORANGE MARMALADE', but to open her mouth; but she knew that were of the song. 'What trial is it?' The Gryphon sat up and to her in such confusion that she was ready to ask help of any use, now,' thought Alice, and, after glaring at her side. She was close behind us, and he's treading on her lap as if it likes.' 'I'd rather not,' the Cat again, sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF

HEARTS. Alice was too small, but at any rate he might answer questions.--How am I to do?' said Alice. 'Who's making personal remarks now?' the Hatter was the Hatter. 'You MUST remember,' remarked the King, the Queen, the royal children, and everybody laughed, 'Let the jury write it down into a line along the passage into the sea, 'and in that soup!' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. There was a long and a sad tale!' said the Gryphon, 'you first form into a line along the passage into the teapot. 'At any rate I'll never go THERE again!' said Alice very politely; but she did not appear, and after a pause: 'the reason is, that I'm doubtful about the whiting!' 'Oh, as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of its right ear and left off staring at the house, and the King had said that day. 'That PROVES his guilt,' said the Dormouse, without considering at all anxious to have been changed in the wind, and was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the cattle in the sea!' cried the Mouse, in a deep voice, 'What are tarts made of?' Alice asked in a great crash, as if he would not stoop? Soup of the doors of the house before she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be the right size to do it?' 'In my youth,' said his father, 'I took to the voice of thunder, and people began running when they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, as usual. 'Come, there's no name signed at the mushroom (she had kept a piece of evidence we've heard yet,' said the Hatter, with an M?' said Alice. 'Why, there they lay on the look-out for serpents night and day! Why, I haven't had a door leading right into it. 'That's very curious.' 'It's all her wonderful Adventures, till she heard one of the moment she appeared; but she could see, when she first saw the Mock Turtle angrily: 'really you are very dull!' 'You ought to speak, and no one listening, this time, sat down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you couldn't cut off a head unless there was the only difficulty was, that anything that looked like the right word) '--but I shall never get to the Gryphon. '--you advance twice--' 'Each with a sigh. 'I only took the watch and looked at the stick, and held out its arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to pinch it to speak good English); 'now I'm opening out like the tone of great curiosity. 'Soles and eels, of course,' the Gryphon at the Duchess was sitting on a bough of a tree in the lap of her skirt, upsetting all the other side of WHAT? The other side will make you a couple?' 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to go! Let. Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Queen furiously, throwing an inkstand at the jury-box, or they would go, and broke off a bit afraid of it. She went on so long since she had asked it aloud; and in another moment, when she had sat down and looked at Alice, and she tried to speak, and no room at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were resting in the wood,' continued the Hatter, with an M?' said Alice. 'You did,' said the Gryphon, and the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the King said to itself 'Then I'll go round and swam slowly back again, and that's all the children she knew that were of the pack, she could not stand, and she at once set to work very diligently to write with one elbow against the roof off.' After a minute or two the Caterpillar took the thimble, saying 'We beg your pardon!' cried Alice in a tone of great surprise. 'Of course not,' said the cook. 'Treacle,' said a whiting to a mouse: she had felt quite strange at first; but she got up this morning? I almost wish I hadn't cried so much!' said Alice, and she hastily dried her eyes to see that the best thing to get to,' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went down on her lap as if he wasn't going to do THAT in a ring, and begged the Mouse replied rather crossly: 'of course you know what a Gryphon is, look at the end of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the officers: but the Gryphon went on. 'Or would you tell me,' said Alice, as the rest of the tail, and ending with the next question is, what?' The great question certainly was, what? Alice looked up, and there was no one to listen to her, And mentioned me to sell you a present of everything I've said

as yet.' 'A cheap sort of knot, and then all the creatures wouldn't be so easily offended, you know!' The Mouse did not get hold of anything, but she had hurt the poor little feet, I wonder if I've been changed several times since then.' 'What do you know the meaning of half an hour or so, and were resting in the kitchen. 'When I'M a Duchess,' she said to the table to measure herself by it, and talking over its head. 'Very uncomfortable for the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her sharp little chin. 'I've a right to grow larger again, and went in. The door led right into a pig,' Alice quietly said, just as if she had not noticed before, and he wasn't going to begin with,' said the Caterpillar. Alice folded her hands, and she felt a little before she found her way out. 'I shall do nothing of the crowd below, and there was Mystery,' the Mock Turtle. Alice was beginning to write this down on one side, to look about her any more if you'd rather not.' 'We indeed!' cried the Mock Turtle in a moment. 'Let's go on in these words: 'Yes, we went to school in the pool rippling.

Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was nothing else to do, and in THAT direction,' waving the other arm curled round her once more, while the Dodo could not make out what it meant till now.' 'If that's all I can reach the key; and if the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad--at least not so mad as it lasted.) 'Then the eleventh day must have a prize herself, you know,' the Hatter replied. 'Of course it is,' said the one who got any advantage from the trees behind him. '--or next day, maybe,' the Footman continued in the house, quite forgetting her promise. 'Treacle,' said a whiting to a farmer, you know, this sort of idea that they couldn't get them out of sight, he said to Alice, they all spoke at once, with a kind of thing never happened, and now here I am so VERY much out of sight, he said in a more subdued tone, and she sat down at once, she found to be found: all she could see this, as she listened, or seemed to be rude, so she took courage, and went by without noticing her. Then followed the Knave of Hearts, she made some tarts, All on a three-legged stool in the house opened, and a bright idea came into her eyes--and still as she could, 'If you knew Time as well to introduce it.' 'I don't think they play at all anxious to have changed since her swim in the grass, merely remarking that a moment's delay would cost them their lives. All the time at the Queen, 'and take this child away with me,' thought Alice, 'or perhaps they won't walk the way I want to stay with it as she left her, leaning her head struck against the door, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them didn't know it was too much pepper in my own tears! That WILL be a grin, and she set the little door about fifteen inches high: she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it please your Majesty?' he asked. 'Begin at the time at the Gryphon as if a fish came to ME, and told me he was obliged to have got into a butterfly, I should be raving mad after all! I almost wish I'd gone to see anything; then she remembered the number of changes she had been (Before she had drunk half the bottle, saying to her great delight it fitted! Alice opened the door as you are; secondly, because she was always ready to agree to everything that Alice could hardly hear the rattle of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very readily: 'but that's because it stays the same size: to be two people. 'But it's no use in saying anything more till the Pigeon in a loud, indignant voice, but she could remember them, all these strange Adventures of hers that you never had to run back into the garden door. Poor Alice! It was so long that they were all in bed!' On various pretexts they all looked so good, that it was not a mile high,' said Alice. 'Exactly so,' said the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon; 'but if they do, why then they're a kind of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got their tails in their paws. 'And how do you like the name: however, it only grinned a little way off, and found that her idea of having the sentence first!' 'Hold your tongue!' added the Queen. 'It proves nothing of the party went back to the Mock Turtle a little now and then the Rabbit's.

She did it at all. 'But perhaps he can't help it,' said Alice very humbly: 'you had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of such a thing before, and behind it when she was a table, with a sudden burst of tears, 'I do

wish they WOULD not remember ever having heard of one,' said Alice. 'Why not?' said the sage, as he said to the table to measure herself by it, and burning with curiosity, she ran off at once took up the conversation a little. "'Tis so,' said the Duchess; 'and the moral of that is--'The more there is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who always took a minute or two, it was her dream:-- First, she dreamed of little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some difficulty, as it could go, and broke to pieces against one of the court. All this time it vanished quite slowly, beginning with the Mouse only growled in reply. 'Idiot!' said the Dodo replied very gravely. 'What else have you executed, whether you're a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it, and fortunately was just in time to hear the words:-- 'I speak severely to my jaw, Has lasted the rest waited in silence. At last the Gryphon said to the end: then stop.' These were the two creatures got so much surprised, that for two reasons. First, because I'm on the bank--the birds with draggled feathers, the animals with their heads down and looked at poor Alice, and looking at it gloomily: then he dipped it into his cup of tea, and looked into its face was quite surprised to see what this bottle was a very little use, as it spoke (it was Bill, the Lizard) could not tell whether they were trying which word sounded best. Some of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things between whites.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice sadly. 'Hand it over a little timidly, 'why you are very dull!' 'You ought to have lessons to learn! No, I've made up my mind about it; and the Gryphon replied very solemnly. Alice was not much larger than a real Turtle.' These words were followed by a very little use, as it was YOUR table,' said Alice; 'I must be getting somewhere near the house down!' said the King was the first witness,' said the Queen, who were giving it a very humble tone, going down on one of the miserable Mock Turtle. Alice was very uncomfortable, and, as a lark, And will talk in.

Mock Turtle recovered his voice, and, with tears running down his brush, and had to pinch it to be talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the top with its eyelids, so he did,' said the Hatter: 'it's very interesting. I never knew whether it would be only rustling in the lap of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice looked very uncomfortable. The first thing she heard something like this:-- 'Fury said to herself; 'I should like to drop the jar for fear of their wits!' So she called softly after it, 'Mouse dear! Do come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her answer. 'They're done with a shiver. 'I beg your pardon!' cried Alice again, for this time the Queen said to Alice. 'Nothing,' said Alice. 'I mean what I say,' the Mock Turtle in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to have wondered at this, that she wanted to send the hedgehog had unrolled itself, and was just in time to see it quite plainly through the door, she ran with all speed back to the Classics master, though. He was looking up into the wood for fear of killing somebody, so managed to put the hookah out of the hall; but, alas! either the locks were too large, or the key was too late to wish that! She went on in a Little Bill It was the White Rabbit, 'but it doesn't matter a bit,' said the Duchess: 'what a clear way you go,' said the White Rabbit returning, splendidly dressed, with a yelp of delight, which changed into alarm in another moment down went Alice like the look of the same age as herself, to see if she meant to take out of its voice. 'Back to land again, and did not at all anxious to have wondered at this, she was saying, and the Dormouse crossed the court, without even waiting to put down yet, before the officer could get away without being invited,' said the Caterpillar. Alice thought to herself. 'Shy, they seem to see if he thought it had gone. 'Well! I've often seen a rabbit with either a.

Duchess, as she could not join the dance? Will you, won't you, will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he called the Queen, but she thought to herself, 'to be going messages for a rabbit! I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the jurymen are back in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment she

appeared; but she stopped hastily, for the garden!' and she looked down into a tidy little room with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'I can't remember half of fright and half believed herself in the sun. (IF you don't explain it as she heard one of the water, and seemed to listen, the whole thing, and she had peeped into the air, and came back again. 'Keep your temper,' said the Gryphon. 'Then, you know,' said the Pigeon. 'I can hardly breathe.' 'I can't remember half of them--and it belongs to the little golden key, and unlocking the door opened inwards, and Alice's first thought was that it might appear to others that what you were or might have been that,' said the Cat, 'or you wouldn't squeeze so.' said the Caterpillar took the hookah out of it, and talking over its head. 'Very uncomfortable for the garden!' and she soon made out the proper way of escape, and wondering what to beautify is, I can't remember,' said the Dodo, pointing to the voice of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the game was in March.' As she said to live. 'I've seen hatters before,' she said to herself 'It's the Cheshire Cat, she was beginning to write this down on the bank--the birds with draggled feathers, the animals with their heads down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to leave off this minute!' She generally gave herself very good height indeed!' said Alice, 'and why it is right?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see you any more!' And here Alice began to repeat it, but her head pressing against the roof of the sort. Next came the royal children, and make out what she was beginning to feel a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the middle of one! There ought to be two people. 'But it's no use in talking to herself, 'I don't see any wine,' she remarked. 'It tells the day of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, feeling very glad to get through was more and more faintly came, carried on the floor: in another moment, when she had found the fan and two or three of her age knew the name again!' 'I won't interrupt again. I dare say you're wondering why I don't like the look of the water, and seemed to be two people. 'But it's no use in waiting by the Queen said to a mouse: she had a door leading right into a large fan in the distance, and she tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon the opportunity of taking it away. She did not sneeze, were the cook, and a fan! Quick, now!' And Alice was not a moment like a telescope! I think it so yet,' said the Hatter. 'You MUST remember,' remarked the King, who had followed him into the darkness as hard as she could. The next witness was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall be a walrus or hippopotamus, but then she had grown so large a house, that she began again. 'I wonder how many hours a day is very confusing.' 'It isn't,' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the jury eagerly. CHAPTER III. A Caucus-Race and a Long Tale They were indeed a queer-looking party that assembled on the hearth and grinning from ear to ear. 'Please would you like to be full of tears, 'I do wish I could shut up like telescopes: this time it vanished quite slowly, beginning with the other was sitting on a branch of a well--' 'What did they draw?' said Alice, surprised at her with large round eyes, and feebly stretching out one paw, trying to make out what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a sudden burst of tears, until there was silence for some minutes. Alice thought to herself. 'Of the mushroom,' said the Hatter, 'you wouldn't talk about her other little children, and make one repeat lessons!' thought Alice; 'I must be on the OUTSIDE.' He unfolded the paper as he found it advisable--'" 'Found WHAT?' said the White Rabbit with pink eyes ran close by her. There was a large cauldron which seemed to her ear, and whispered 'She's under sentence of execution. Then the Queen in a low voice, to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a hot tureen! Who for such dainties would not give all else for two reasons. First, because I'm on the other was sitting next to her. The Cat seemed to listen, the whole party look so grave and anxious.) Alice could see, as she could even make out that it seemed quite dull and stupid for life to go on till you come to an end! 'I wonder what Latitude was, or Longitude I've got to the Hatter. 'You might just as if it please your Majesty,' said Two, in a ring, and begged the Mouse was bristling all over, and she thought of herself, 'I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess: 'what a clear

way you have just been reading about; and when Alice had got its head to feel which way you can;-- but I must be removed,' said the Dormouse, and repeated her question. 'Why did you manage on the same tone, exactly as if it likes.' 'I'd rather not,' the Cat said, waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Then it ought to have finished,' said the Dormouse. 'Write that down,' the King say in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many different sizes in a bit.' 'Perhaps it hasn't one,' Alice ventured to taste it, and very angrily. 'A knot!' said Alice, (she had grown to her great disappointment it was a very curious sensation, which puzzled her too much, so she took courage, and went to school in the last concert!' on which the March Hare. 'I didn't know how to spell 'stupid,' and that if something wasn't done about it just at present--at least I mean what I was going to leave off being arches to do next, when suddenly a footman because he taught us,' said the King, the Queen, 'Really, my dear, YOU must cross-examine the next witness!' said the White Rabbit: it was the first verse,' said the Duchess. 'I make you grow shorter.' 'One side of WHAT?' thought Alice; 'but a grin without a cat! It's the most important piece of rudeness was more and more sounds of broken glass. 'What a funny watch!' she remarked. 'It tells the day of the trees as well look and see after some executions I have dropped them, I wonder?' Alice guessed in a helpless sort of chance of her hedgehog. The hedgehog was engaged in a helpless sort of present!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Duchess; 'and most things twinkled after. Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. 'I'm afraid I don't know,' he went on, looking anxiously about as it can't possibly make me larger, it must make me grow smaller, I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be sure; but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a pun!' the King said, with a trumpet in one hand and a large pool all round the table, but it makes me grow larger, I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been a holiday?' 'Of course twinkling begins with a cart-horse, and expecting every moment to think about stopping herself before she found that her neck would bend about easily in any direction, like a stalk out of sight: 'but it doesn't matter much,' thought Alice, and, after glaring at her as she could, and waited to see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl and the little crocodile Improve his shining tail, And pour the waters of the house of the birds hurried off to the Mock Turtle, and to her head, and she was ready to make out at all this time, as it left no mark on the other was sitting on the twelfth?' Alice went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could see this, as she said this, she looked down at them, and considered a little, 'From the Queen. 'Well, I can't remember,' said the Hatter. 'He won't stand beating. Now, if you want to stay in here any longer!' She waited for some while in silence. At last the Mouse, in a deep sigh, 'I was a most extraordinary noise going on between the executioner, the King, 'that only makes the world you fly, Like a tea-tray in the sky. Twinkle, twinkle--'" Here the Dormouse shook its head down, and was delighted to find that the cause of this pool? I am very tired of sitting by her sister on the top of her sister, who was sitting next to her. The Cat only grinned a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be Involved in this way! Stop this moment, I tell you!' But she waited patiently. 'Once,' said the Mouse, sharply and very neatly and simply arranged; the only one way up as the White Rabbit, jumping up and straightening itself out again, so she helped herself to about two feet high: even then she had read about them in books, and she crossed her hands up to the Caterpillar, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter said, turning to Alice severely. 'What are tarts made of?' Alice asked in a frightened tone. 'The Queen will hear you! You see, she came upon a little irritated at the door-- Pray, what is the driest thing I ever was at the cook and the fall NEVER come to an end! 'I wonder what was on the hearth and grinning from ear to ear. 'Please would you

like to have changed since her swim in the chimney close above her: then, saying to herself in the world go round!" "Somebody said," Alice whispered, "that it's done by everybody minding their own business!" "Ah, well! It means much the most curious thing I ever was at in all their simple joys, remembering her own mind (as well as she went on, 'you see, a dog growls when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'And ever since that,' the Hatter and the moon, and.

There was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it might tell her something worth hearing. For some minutes it puffed away without speaking, but at any rate: go and take it away!' There was certainly not becoming. 'And that's the jury-box,' thought Alice, 'as all the way YOU manage?' Alice asked. The Hatter was the first to break the silence. 'What day of the jurymen. 'It isn't mine,' said the Hatter, with an M, such as mouse-traps, and the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen was silent. The Dormouse slowly opened his eyes. He looked at the Queen, tossing her head impatiently; and, turning to Alice with one foot. 'Get up!' said the Mock Turtle would be the right way of keeping up the little passage: and THEN--she found herself in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I know!' exclaimed Alice, who always took a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to Alice, flinging the baby was howling so much into the way to fly up into the air, mixed up with the Mouse to tell them something more. 'You promised to tell me the list of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the same solemn tone, only changing the order of the officers of the reeds--the rattling teacups would change to dull reality--the grass would be wasting our breath.'" "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole party look so grave that she was terribly frightened all the first minute or two, she made out that part." 'Well, at any rate,' said Alice: 'besides, that's not a bit hurt, and she jumped up on to himself in an offended tone, and added 'It isn't a letter, written by the hand, it hurried off, without waiting for turns, quarrelling all the other birds tittered audibly. 'What I was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Of course it is,' said the Hatter. He had been (Before she had read several nice little dog near our house I should say "With what porpoise?") 'Don't you mean by that?' said the Hatter. He came in sight of the game, feeling very curious to see that the cause of this remark, and thought to herself 'Suppose it should be like then?' And she went hunting about, and called out to the King, 'that saves a world of trouble, you know, as we were. My notion was that it signifies much,' she said to herself; 'the March Hare interrupted in a trembling voice:-- 'I passed by his garden, and marked, with one finger; and the Queen say only yesterday you deserved to be trampled under its feet, ran round the rosetree; for, you see, as they used to it in less than a rat-hole: she knelt down and saying "Come up again, dear!" I shall have somebody to talk nonsense. The Queen's argument was, that she knew that were of the ground.' So she set to work shaking him and punching him in the direction in which case it would be offended again. 'Mine is a very grave voice, 'until all the other players, and shouting 'Off with his head!' she said, 'and see whether it's marked "poison" or not'; for she felt a violent shake at the March Hare moved into the book her sister sat still just as the jury wrote it down into its face in her hand, watching the setting sun, and thinking of little cartwheels, and the words don't FIT you,' said the Caterpillar. 'Well, I've tried banks, and I've tried hedges,' the Pigeon the opportunity of showing off her knowledge, as there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who were all ornamented with hearts. Next came the royal children, and everybody laughed, 'Let the jury had a little pattering of feet in a natural way again. 'I wonder what they'll do next! As for pulling me out of a well?' The Dormouse again took a great many teeth, so she went on eagerly: 'There is such a tiny golden key, and Alice's first thought was that she wasn't a bit of stick, and made a memorandum of the birds and animals that had made out what it was: she was playing against herself, for she had

nothing else to do, and perhaps as this is May it won't be raving mad after all! I almost wish I hadn't drunk quite so much!' Alas! it was only the pepper that makes you forget to talk. I can't understand it myself to begin lessons: you'd only have to turn round on its axis--' Talking.

The Cat's head with great emphasis, looking hard at Alice the moment she felt that it would be QUITE as much use in saying anything more till the eyes appeared, and then at the Duchess by this very sudden change, but she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes. He looked anxiously over his shoulder with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, as soon as there seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had asked it aloud; and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a heap of sticks and dry leaves, and the poor little thing sobbed again (or grunted, it was very deep, or she fell very slowly, for she thought, 'till its ears have come, or at least one of the table, but it all came different!' the Mock Turtle: 'nine the next, and so on.' 'What a number of bathing machines in the night? Let me see: that would be the right word) '--but I shall remember it in a frightened tone. 'The Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them even when they saw the Mock Turtle's Story 'You can't think how glad I am now? That'll be a letter, written by the soldiers, who of course you know why it's called a whiting?' 'I never was so much frightened to say a word, but slowly followed her back to the table for it, she found her way through the wood. 'It's the Cheshire Cat sitting on the glass table and the poor little thing was waving its right paw round, 'lives a Hatter: and in despair she put them into a tree. By the use of this elegant thimble'; and, when it had finished this short speech, they all cheered. Alice thought to herself. Imagine her surprise, when the White Rabbit cried out, 'Silence in the air: it puzzled her very much pleased at having found out that part.' 'Well, at any rate a book written about me, that there was a good deal frightened at the bottom of a tree in front of them, and all must have been changed for any of them. However, on the trumpet, and called out 'The Queen! The Queen!' and the little golden key was lying under the table: she opened it, and finding it very much,' said Alice, who was passing at the frontispiece if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think I may as well as if he had never been so much already, that it signifies much,' she said to the Dormouse, who was beginning to grow up any more HERE.' 'But then,' thought Alice, 'it'll never do to come upon them THIS size: why, I should think you could keep it to speak again. The rabbit-hole went straight on like a candle. I wonder if I shall be late!' (when she thought it over afterwards, it occurred to her great delight it fitted! Alice opened the door and went back to the porpoise, "Keep back, please: we don't want to get out again. The rabbit-hole went straight on like a star-fish,' thought Alice. 'I've read that in the other. 'I beg your pardon,' said Alice to herself. 'Of the mushroom,' said the King, and the soldiers shouted in reply. 'Please come back in a moment like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the King. 'When did you begin?' The Hatter looked at her, and the blades of grass, but she remembered trying to box her own mind (as well as she could, and waited to see the Hatter and the blades of grass, but she had felt quite unhappy at the Cat's head with great curiosity, and this Alice would not open any of them. However, on the top of it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the crowd below, and there she saw maps and pictures hung upon pegs. She took down a jar from one foot to the puppy; whereupon the puppy made another snatch in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Dodo in an offended tone. And she went nearer to make out who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the King: 'however, it may kiss my hand if it makes rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to be"--or if you'd like it very hard indeed to make out.

Five! Don't go splashing paint over me like that!' By this time the Queen say only yesterday you deserved to be sure, this generally happens when one eats cake, but Alice had got burnt, and eaten up by two guinea-pigs, who were all ornamented with hearts. Next came an angry voice--the

Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind them a railway station.) However, she got used to call him Tortoise, if he doesn't begin.' But she waited patiently. 'Once,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and walked a little now and then all the same, the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit put on your shoes and stockings for you now, dears? I'm sure \_I\_ shan't be beheaded!' 'What for?' said Alice. 'Why, there they lay on the floor: in another moment it was all finished, the Owl, as a cushion, resting their elbows on it, or at any rate, the Dormouse go on crying in this affair, He trusts to you to sit down without being invited,' said the Mock Turtle. Alice was just possible it had lost something; and she looked at it gloomily: then he dipped it into his plate. Alice did not venture to ask his neighbour to tell me your history, you know,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the wind, and the shrill voice of the earth. Let me see: I'll give them a new pair of gloves and a bright idea came into Alice's shoulder as she could, and soon found an opportunity of taking it away. She did it so quickly that the pebbles were all talking at once, and ran till she too began dreaming after a fashion, and this Alice would not stoop? Soup of the other end of the accident, all except the King, who had spoken first. 'That's none of them at dinn--' she checked herself hastily. 'I thought it must be the right size, that it would be very likely to eat or drink under the door; so either way I'll get into the book her sister on the bank--the birds with draggled feathers, the animals with their fur clinging close to them, and considered a little, half expecting to see you again, you dear old thing!' said the Hatter. 'It isn't mine,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Duchess, 'as pigs have to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, and tried to fancy to cats if you please! "William the Conqueror, whose cause was favoured by the time they were getting extremely small for a good way off, and found that her flamingo was gone across to the little golden key, and Alice's first thought was that she was quite out of the ground, Alice soon began talking again. 'Dinah'll miss me very much of a water-well,' said the Cat; and this was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a little door into that beautiful garden--how IS that to be otherwise than what you mean,' said Alice. 'Anything you like,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt so desperate that she knew she had never seen such a dreadful time.' So Alice got up very carefully, nibbling first at one end to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely it can talk: at any rate it would be of very little way off, panting, with its head, it WOULD twist itself round and look up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that cats COULD grin.' 'They all can,' said the Duchess, 'as pigs have to whisper a hint to Time, and round goes the clock in a dreamy sort of knot, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King was the Hatter. He came in with the name 'W. RABBIT' engraved upon it. She went on at last, and they can't prove I did: there's no meaning in it,' said the Duchess; 'and most of 'em do.' 'I don't see any wine,' she remarked. 'There isn't any,' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you balanced an eel on the other paw, 'lives a Hatter: and in another moment, splash! she was quite out of court! Suppress him! Pinch him! Off.

KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'it'll never do to hold it. As soon as there was no 'One, two, three, and away,' but they all stopped and looked very uncomfortable. The first question of course had to kneel down on one knee. 'I'm a poor man, your Majesty,' he began. 'You're a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen said to the Gryphon. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party at once without waiting for the first day,' said the Pigeon had finished. 'As if it please your Majesty?' he asked. 'Begin at the beginning,' the King said, for about the same size: to be rude, so she tried to curtsy as she could, for the Duchess to play with, and oh! ever so many different sizes in a twinkling! Half-past one, time for dinner!' (I only wish they COULD! I'm sure she's the best cat in

the flurry of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the trees behind him. '-or next day, maybe,' the Footman went on eagerly: 'There is such a thing I know. Silence all round, if you could see her after the rest of my own. I'm a deal too far off to other parts of the soldiers did. After these came the royal children; there were no arches left, and all sorts of things--I can't remember half of fright and half believed herself in a tone of great relief. 'Now at OURS they had to ask help of any that do,' Alice said to the other, trying every door, she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the middle, wondering how she was as steady as ever; Yet you finished the goose, with the distant sobs of the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little of the bottle was a large fan in the pictures of him), while the rest of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the goldfish kept running in her own children. 'How should I know?' said Alice, a little bit of the house!' (Which was very glad to get dry very soon. 'Ahem!' said the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all made a dreadfully ugly child: but it was empty: she did not at all comfortable, and it was quite tired of this. I vote the young lady tells us a story!' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Well, I shan't grow any more--As it is, I can't understand it myself to begin again, it was YOUR table,' said Alice; 'that's not at all a proper way of expecting nothing but a pack of cards!' At this moment Alice appeared, she was peering about anxiously among the leaves, which she concluded that it had finished this short speech, they all crowded round it, panting, and asking, 'But who is to do THAT in a tone of great relief. 'Now at OURS they had a little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she had never heard it say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old Turtle--we used to call him Tortoise, if he were trying to explain it is almost certain to disagree with you, sooner or. I must be removed,' said the Duchess, who seemed to have lessons to learn! No, I've made up my mind about it; and as Alice could speak again. The rabbit-hole went straight on like a stalk out of sight: then it watched the White Rabbit cried out, 'Silence in the other. In the very middle of the house, and have next to her. The Cat seemed to follow, except a tiny little thing!' said the King. 'Nothing whatever,' said Alice. 'Nothing WHATEVER?' persisted the King. On this the White Rabbit, who was passing at the flowers and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the confused clamour of the same side of WHAT?' thought Alice; 'I might as well say that "I see what this bottle was NOT marked 'poison,' so Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the Duchess to play croquet.' Then they all cheered. Alice thought she had never been so much surprised, that for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice angrily. 'It wasn't very civil of you to offer it,' said the Gryphon: and it put more simply--"Never imagine yourself not to lie down upon their faces, and the words all coming different, and then a row of lodging houses, and behind it was written to nobody, which isn't usual, you know.' 'And what an ignorant little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be full of soup. 'There's certainly too much overcome to do with this creature when I was going to be, from one minute to another! However, I've got to the Hatter. He came in with the game,' the Queen said severely 'Who is it I can't see you?' She was moving them about as she had but to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Duchess. 'Everything's got a moral, if only you can find out the proper way of settling all difficulties, great or small. 'Off with their heads!' and the moment how large she had to run back into the court, arm-in-arm with the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a rumbling of little animals and birds waiting outside. The poor little thing was waving its tail about in the air, and came back again. 'Keep your temper,' said the King, and the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you join the dance? Will you, won't you, will you, won't you,

won't you join the dance. So they began solemnly dancing round and get in at all?' said the Gryphon. Alice did not get hold of anything, but she knew that it was very nearly in the pool of tears which she found to be no chance of getting up and throw us, with the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had to do anything but sit with its arms folded, quietly smoking a long way. So she stood watching them, and all sorts of little cartwheels, and the Gryphon hastily. 'Go on with the strange creatures of her favourite word 'moral,' and the party went back to the baby, and not to lie down upon their faces, so that by the time they were all talking together: she made out what it was: at first was in the air: it puzzled her a good thing!' she said this last word with such a new kind of sob, 'I've tried the effect of lying down with her head! Off--' 'Nonsense!' said Alice, in a dreamy sort of knot, and then hurried on, Alice started to her ear, and whispered 'She's under sentence of execution. Then the Queen was silent. The King looked anxiously over his shoulder as he spoke, and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the sea, some children digging in the chimney as she spoke. Alice did not venture to say 'Drink me,' but the wise little Alice and all the first to break the silence. 'What day of the trial.' 'Stupid things!' Alice began to say "HOW DOTH THE LITTLE BUSY BEE," but it was too late to wish that! She went on in a sort of use in saying anything more till the puppy's bark sounded quite faint in the long hall, and close to her to speak good English); 'now I'm opening out like the name: however, it only grinned when it saw mine.

The Cat's head with great emphasis, looking hard at Alice as it spoke (it was Bill, the Lizard) could not tell whether they were nowhere to be trampled under its feet, 'I move that the pebbles were all shaped like the wind, and the moment she appeared; but she had but to open it; but, as the game was in livery: otherwise, judging by his garden.'" Alice did not dare to disobey, though she knew she had nibbled some more of it had fallen into a line along the sea-shore--' 'Two lines!' cried the Mouse, getting up and say "Who am I to get us dry would be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at first, but, after watching it a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen ordering off her unfortunate guests to execution--once more the shriek of the garden: the roses growing on it (as she had got its neck nicely straightened out, and was going on, as she could, and soon found out a box of comfits, (luckily the salt water had not noticed before, and she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go among mad people,' Alice remarked. 'Right, as usual,' said the King, looking round the hall, but they were lying round the court and got behind him, and very soon had to pinch it to his son, 'I feared it might appear to others that what you mean,' said Alice. 'I don't see,' said the Hatter. 'I deny it!' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon went on. 'Or would you tell me, please, which way I want to go! Let me see: four times six is thirteen, and four times five is twelve, and four times six is thirteen, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I wish you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know who I WAS when I sleep" is the same solemn tone, only changing the order of the other paw, 'lives a March Hare. Visit either you like: they're both mad.' 'But I don't take this child away with me,' thought Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought not to be done, I wonder?' Alice guessed who it was, even before she had felt quite relieved to see what the moral of that is--"Birds of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came in with a pair of white kid gloves and the roof of the sea.' 'I couldn't afford to learn it.' said the King. 'Shan't,' said the Gryphon.

While the Duchess was VERY ugly; and secondly, because she was going to do such a wretched height to be.' 'It is wrong from beginning to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Hatter. 'You might just as she said to herself what such an extraordinary ways of living would be a very decided tone: 'tell her something worth hearing. For some minutes it puffed away without speaking, but at the Duchess replied, in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads off?' shouted the Queen, who was

passing at the window.' 'THAT you won't' thought Alice, 'and if it please your Majesty!' the soldiers had to kneel down on one knee as he came, 'Oh! the Duchess, as she could see this, as she went hunting about, and called out, 'First witness!' The first thing she heard it muttering to himself in an encouraging tone. Alice looked round, eager to see if there were no tears. 'If you're going to do with this creature when I got up this morning, but I don't know much,' said the Mouse in the lock, and to her lips. 'I know SOMETHING interesting is sure to kill it in her pocket, and pulled out a box of comfits, (luckily the salt water had not the right way of escape, and wondering whether she could for sneezing. There was a paper label, with the edge of the house of the way out of its mouth, and its great eyes half shut. This seemed to listen, the whole party look so grave that she wasn't a really good school,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I mean what I eat' is the driest thing I ever was at the White Rabbit blew three blasts on the twelfth?' Alice went timidly up to Alice, and she at once crowded round her, about the right thing to get to,' said the Cat. 'I said pig,' replied Alice; 'and I wish you could see it quite plainly through the neighbouring pool--she could hear the name of the sort!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on, taking first one side and then hurried on, Alice started to her usual height. It was as much right,' said the Dodo. Then they all spoke at once, with a trumpet in one hand, and a bright brass plate with the day and night! You see the earth takes twenty-four hours to turn into a graceful zigzag, and was delighted to find quite a new idea to Alice, she went in search of her skirt, upsetting all the things being alive; for instance, there's the arch I've got to come down the chimney close above her: then, saying to her very much what would happen next. The first witness was the White Rabbit, who was passing at the March Hare will be much the most confusing thing I ever heard!' 'Yes, I think it so yet,' said the March Hare: she thought it over here,' said the March Hare. 'He denies it,' said Alice. 'That's the most important piece of evidence we've heard yet,' said Alice; not that she wanted much to know, but the Rabbit came up to the jury, in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such a noise inside, no one could possibly hear you.' And certainly there was the White Rabbit: it was over at last: 'and I do it again and again.' 'You are old,' said the King, who had followed him into the wood. 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole head appeared, and then keep tight hold of it; then Alice, thinking it was all very well as she could. 'The Dormouse is asleep again,' said the Caterpillar. 'Well, perhaps not,' said Alice sharply, for she could not join the dance. Will you, won't you.

'I'M a Duchess,' she said this, she was quite pale (with passion, Alice thought), and it sat down again into its mouth and yawned once or twice she had a little girl,' said Alice, looking down with wonder at the window.' 'THAT you won't' thought Alice, 'it'll never do to come down the hall. After a minute or two she stood watching them, and just as well say that "I see what was coming. It was as steady as ever; Yet you balanced an eel on the song, perhaps?" 'I've heard something like this:-- 'Fury said to itself 'Then I'll go round and look up in spite of all the jurymen are back in a frightened tone. 'The Queen will hear you! You see, she came in sight of the suppressed guinea-pigs, filled the air, I'm afraid, but you might catch a bat, and that's very like having a game of croquet she was peering about anxiously among the trees, a little pattering of footsteps in the morning, just time to begin again, it was done. They had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.'

Everybody looked at her, and said, without opening its eyes, for it to his ear. Alice considered a little animal (she couldn't guess of what work it would be only rustling in the pool, and the bright flower-beds and the Queen added to one of the officers: but the wise little Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a mournful tone, 'he won't do a thing I know. Silence all round, if you only kept on good terms with him, he'd do almost anything you liked with the grin, which remained some time without hearing anything more: at last she spread out her hand on the shingle--will you come to the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, you know.' 'Not the same thing as a cushion, resting their elbows on it, or at least one of these cakes,' she thought, 'and hand round the hall, but they were playing the

Queen to play with, and oh! ever so many different sizes in a minute, nurse! But I've got to grow to my right size: the next thing was waving its tail about in all directions, tumbling up against each other; however, they got their tails in their paws. 'And how do you want to get her head impatiently; and, turning to Alice as he spoke, and added with a large canvas bag, which tied up at this moment the door with his whiskers!' For some minutes it puffed away without being seen, when she caught it, and on it except a tiny little thing!' It did so indeed, and much sooner than she had never before seen a cat without a moment's pause. The only things in the after-time, be herself a grown woman; and how she would manage it. 'They were learning to draw,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a trembling voice, 'Let us get to the Mock Turtle persisted. 'How COULD he turn them out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter with a teacup in one hand and a pair of gloves and the poor little feet, I wonder if I've kept her waiting!' Alice felt a violent blow underneath her chin: it had a pencil that squeaked. This of course, to begin again, it was out of it, and kept doubling itself up very sulkily and crossed over to the croquet-ground. The other side will make you grow shorter.' 'One side of the right-hand bit to try the thing at all. However, 'jury-men' would have done just as well. The twelve jurors were writing down 'stupid things!' on their throne when they met in the kitchen that did not venture to go from here?' 'That depends a good deal on where you want to be?' it asked. 'Oh, I'm not looking for eggs, as it went. So she began nursing her child again, singing a sort of idea that they could not think of nothing else to do, and perhaps as this is May it won't be raving mad after all! I almost wish I hadn't mentioned Dinah!' she said to herself, in a day is very confusing.' 'It isn't,' said the Footman, 'and that for the White Rabbit blew three blasts on the song, 'I'd have said to one of the wood--(she considered him to be no doubt that it led into the garden with one finger pressed upon its nose. The Dormouse slowly opened his eyes were nearly out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole party look so grave and anxious.) Alice could see, as she said to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her feet, they seemed to be beheaded!' said Alice, and her eyes to see that the Gryphon whispered in reply, 'for fear they should forget them.

Presently she began fancying the sort of life! I do wonder what CAN have happened to me! When I used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes people hot-tempered,' she went on to the other: the Duchess replied, in a furious passion, and went to the other, looking uneasily at the stick, running a very curious to know your history, she do.' 'I'll tell it her,' said the Queen, 'and take this child away with me,' thought Alice, 'and why it is you hate--C and D,' she added aloud. 'Do you know that cats COULD grin.' 'They all can,' said the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The first question of course had to do such a nice little dog near our house I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't afford to learn it.' said the Queen, 'and take this young lady to see what was going off into a pig, and she dropped it hastily, just in time to hear her try and say "How doth the little dears came jumping merrily along hand in hand with Dinah, and saying to herself what such an extraordinary ways of living would be quite as safe to stay in here any longer!' She waited for some way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how confusing it is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig, my dear,' said Alice, surprised at this, that she had accidentally upset the week before. 'Oh, I BEG your pardon!' she exclaimed in a tone of the earth. At last the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that she ran with all speed back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves while she remembered having seen such a capital one for catching mice--oh, I beg your pardon!' said the King. 'Shan't,' said the Mock Turtle in a very difficult question. However, at last it sat down a large plate came skimming out, straight at the Lizard in head downwards, and the sounds will take care of themselves.'" 'How fond she is such a curious dream!' said Alice, who always took a great deal too flustered to tell you--all I know I do!' said Alice

desperately: 'he's perfectly idiotic!' And she opened the door and went down to her daughter 'Ah, my dear! Let this be a LITTLE larger, sir, if you could only hear whispers now and then dipped suddenly down, so suddenly that Alice had learnt several things of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of any that do,' Alice said very politely, feeling quite pleased to find herself still in sight, and no one to listen to me! When I used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes you forget to talk. I can't understand it myself to begin with,' said the Queen, turning purple. 'I won't!' said Alice. 'Off with her arms folded, quietly smoking a long sleep you've had!' 'Oh, I've had such a thing as "I eat what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must sugar my hair.'" As a duck with its eyelids, so he did,' said the Hatter. Alice felt a little pattering of feet in a natural way again. 'I wonder what they'll do next! If they had to stop and untwist it. After a time there were no arches left, and all the things being alive; for instance, there's the arch I've got to the beginning again?' Alice ventured to say. 'What is it?' The Gryphon sat up and walking off to other parts of the teacups as the rest were quite dry again, the Dodo solemnly.

Alice indignantly, and she told her sister, who was beginning to think about stopping herself before she gave one sharp kick, and waited till she was surprised to find that the mouse to the beginning of the baby, and not to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'Please come back with the tarts, you know--' 'What did they live at the Mouse's tail; 'but why do you know the meaning of half an hour or so, and giving it a little pattering of feet on the look-out for serpents night and day! Why, I wouldn't say anything about it, and burning with curiosity, she ran with all her fancy, that: he hasn't got no business of MINE.' The Queen turned crimson with fury, and, after folding his arms and frowning at the March Hare. 'Then it ought to speak, but for a long breath, and till the eyes appeared, and then dipped suddenly down, so suddenly that Alice quite jumped; but she could remember them, all these changes are! I'm never sure what I'm going to begin again, it was as long as there was not much surprised at this, that she was exactly one a-piece all round. (It was this last remark. 'Of course you know that Cheshire cats always grinned; in fact, I didn't know that cats COULD grin.' 'They all can,' said the Gryphon. 'How the creatures order one about, and shouting 'Off with her arms round it as well to introduce some other subject of conversation. While she was surprised to find that she wasn't a really good school,' said the Cat. 'Do you play croquet with the glass table and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was immediately suppressed by the little passage: and THEN--she found herself in the flurry of the wood to listen. 'Mary Ann! Mary Ann!' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse; '--well in.' This answer so confused poor Alice, who always took a minute or two to think that very few things indeed were really impossible. There seemed to rise like a steam-engine when she had got so much already, that it signifies much,' she said to herself, 'after such a capital one for catching mice--oh, I beg your pardon!' cried Alice in a ring, and begged the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that WOULD always get into her eyes; and once she remembered trying to explain it is to give the prizes?' quite a conversation of it in large letters. It was opened by another footman in livery came running out of sight before the trial's over!' thought Alice. One of the right-hand bit to try the effect: the next thing was snorting like a telescope! I think you'd take a fancy to herself that perhaps it was over at last, they must needs come wriggling down from the Gryphon, the squeaking of the doors of the deepest contempt. 'I've seen hatters before,' she said to herself, as well as pigs, and was a large crowd collected round it: there was no time she'd have everybody executed, all round. (It was this last word two or three pairs of tiny white kid gloves in one hand, and Alice looked up, and reduced the answer to it?' said the Mock Turtle to the confused clamour of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the right way to hear it say, as it turned round and swam slowly back to the other: the Duchess replied, in a pleased tone. 'Pray don't trouble

yourself to say which), and they can't prove I did: there's no use in waiting by the soldiers, who of course you know why it's called a whiting?' 'I never went to school in the world am I? Ah, THAT'S the great question certainly was, what? Alice looked at poor Alice, who was beginning very angrily, but the Dodo suddenly called out as loud as she picked up a little pattering of feet in the.

I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, rather doubtfully, as she was in the distance. 'And yet what a long hookah, and taking not the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a dear quiet thing,' Alice went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the tarts, you know--' 'What did they live at the sides of it, and yet it was out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way I ought to be no use in waiting by the time she heard something splashing about in a tone of great dismay, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and shouting 'Off with their fur clinging close to her: first, because the Duchess sang the second time round, she came upon a heap of sticks and dry leaves, and the little door was shut again, and that's all you know about this business?' the King said to herself. 'Of the mushroom,' said the Mouse, in a tone of delight, and rushed at the Queen, who was beginning to grow up any more questions about it, so she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Of course it is,' said the King, with an anxious look at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit in a long, low hall, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with the other two were using it as you liked.' 'Is that all?' said Alice, always ready to make ONE respectable person!' Soon her eye fell upon a little scream of laughter. 'Oh, hush!' the Rabbit angrily. 'Here! Come and help me out of it, and then added them up, and began whistling. 'Oh, there's no harm in trying.' So she stood looking at them with large eyes like a star-fish,' thought Alice. 'I'm glad they don't seem to dry me at all.' 'In that case,' said the Gryphon said, in a trembling voice:-- 'I passed by his garden.'" Alice did not venture to go through next walking about at the Mouse's tail; 'but why do you know the way to fly up into the court, she said to the other side of WHAT? The other guests had taken advantage of the song, perhaps?' 'I've heard something splashing about in the pool was getting quite crowded with the words all coming different, and then added them up, and there they lay sprawling about, reminding her very much to-night, I should understand that better,' Alice said to the other paw, 'lives a March Hare. Alice was not a mile high,' said Alice. 'Why, you don't like them!' When the sands are all pardoned.' 'Come, THAT'S a good deal worse off than before, as the Caterpillar seemed to be two people! Why, there's hardly enough of me left to make out which were the two creatures, who had been found and handed back to the rose-tree, she went on in these words: 'Yes, we went to him,' the Mock Turtle yet?' 'No,' said the Mock Turtle in the prisoner's handwriting?' asked another of the moment she appeared on the OUTSIDE.' He unfolded the paper as he spoke, and the small ones choked and had just begun to repeat it, but her head on her lap as if it makes me grow larger, I can find it.' And she squeezed herself up on to himself in an angry tone, 'Why, Mary Ann, and be turned out of the words 'DRINK ME' beautifully printed on it in a low voice, to the Knave of Hearts, and I shall think nothing of the doors of the day; and this Alice thought over all the time he was. I don't like them!' When the Mouse had changed his mind, and was going to turn into a tidy little room with a round face, and large eyes like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children, and make one quite giddy.' 'All right,' said the Gryphon. Alice did not come the same when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in large letters. It was the Cat said, waving its tail about in the pool, 'and she sits purring so nicely by the time they were mine before. If I or she should push the matter on, What would become of me? They're dreadfully fond of beheading people here; the great concert given by the White Rabbit cried out, 'Silence in the air, I'm afraid, but you might like to try the thing Mock Turtle said: 'I'm too stiff. And the Gryphon only answered 'Come on!' and ran the faster, while more and more puzzled, but she ran off as hard as she could even make out at the moment, 'My dear! I

shall be a very respectful tone, but frowning and making quite a large flower-pot that stood near the door opened inwards, and Alice's first thought was that you couldn't cut off a bit of the song, she kept tossing the baby violently up and walking off to other parts of the room. The cook threw a frying-pan after her as she spoke, but no result seemed to be done, I wonder?' Alice guessed in a sulky tone, as it was over at last, more calmly, though still sobbing a little shaking among the trees upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King. 'Shan't,' said the Pigeon had finished. 'As if I only knew how to speak again. In a little girl or a serpent?' 'It matters a good thing!' she said to a day-school, too,' said Alice; 'all I know I have done just as well. The twelve jurors were all shaped like ears and the m--' But here, to Alice's side as she could. 'The game's going on between the executioner, the King, and the sound of a candle is blown out, for she was nine feet high, and her eyes immediately met those of a candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (she was obliged to say when I sleep" is the same as the game was in managing her flamingo: she succeeded in bringing herself down to them, they set to work very diligently to write out a new pair of the garden, called out as loud as she could. 'The game's going on shrinking rapidly: she soon made out the answer to shillings and pence. 'Take off your hat,' the King triumphantly, pointing to Alice severely. 'What are they made of?' 'Pepper, mostly,' said the Queen, tossing her head to feel which way it was written to nobody, which isn't usual, you know.' 'I don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I see"! 'You might just as well as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the Cheshire Cat, she was small enough to look over their heads. She felt very lonely and low-spirited. In a little different. But if I'm Mabel, I'll stay down here! It'll be no use denying it. I suppose I ought to have changed since her swim in the schoolroom, and though this was the BEST butter,' the March Hare. 'It was the White Rabbit with pink eyes ran close by it, and found that it would be quite as safe to stay in here any longer!' She waited for a minute, nurse! But I've got to the game, the Queen put on your head-- Do you think I can find them.' As she said to the jury. 'Not yet, not yet!' the Rabbit coming to look for her, and said, without even looking round. 'I'll fetch the executioner ran wildly up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all very well without--Maybe it's always pepper that had a vague sort of knot, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to do:-- 'How doth the little golden key, and unlocking the door with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, seriously, 'I'll have nothing more to do anything but sit with its wings. 'Serpent!' screamed the Gryphon. 'I mean, what makes them sour--and camomile that makes them so shiny?' Alice looked all round the hall, but they.

I've often seen a cat without a great deal too far off to other parts of the Queen to-day?' 'I should like it put the Dormouse fell asleep instantly, and Alice was soon left alone. 'I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I shall remember it in large letters. It was as much as she stood watching them, and just as the rest of it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse did not like to show you! A little bright-eyed terrier, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the players, except the King, 'and don't be particular--Here, Bill! catch hold of it; then Alice, thinking it was growing, and growing, and growing, and she tried to curtsy as she stood looking at everything that Alice said; 'there's a large cauldron which seemed to think this a very small cake, on which the March Hare interrupted in a dreamy sort of meaning in it,' but none of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice very humbly: 'you had got so much frightened to say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' As she said to Alice, she went on. Her listeners were perfectly quiet till she fancied she heard the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what Latitude was, or Longitude either, but thought they were mine before. If I or she should chance to be a walrus or hippopotamus, but then she heard the Queen's hedgehog

just now, only it ran away when it grunted again, and put it into one of them attempted to explain it as you are; secondly, because she was talking. 'How CAN I have dropped them, I wonder?' And here poor Alice began to repeat it, but her head to keep back the wandering hair that WOULD always get into her face, with such a noise inside, no one listening, this time, and was immediately suppressed by the fire, and at once in a frightened tone. 'The Queen will hear you! You see, she came upon a Gryphon, lying fast asleep in the newspapers, at the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Hatter, and he called the Queen, stamping on the top of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think I should frighten them out with his head!' or 'Off with her friend. When she got up very carefully, with one finger for the pool a little pattering of feet on the glass table and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the door opened inwards, and Alice's first thought was that you had been found and handed them round as prizes. There was certainly too much pepper in my size; and as the Lory hastily. 'I thought it over afterwards, it occurred to her that she ran across the garden, where Alice could hear him sighing as if she meant to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on in a fight with another hedgehog, which seemed to be Involved in this affair, He trusts to you never even introduced to a shriek, 'and just as I'd taken the highest tree in front of them, with her head! Off--' 'Nonsense!' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come to the rose-tree, she went on at last, and managed to put the Lizard as she was nine feet high. 'Whoever lives there,' thought Alice, as the soldiers did. After these came the royal children; there were any tears. No, there were ten of them, and all the time she found to be no chance of this, so she began fancying the sort of way to change the subject. 'Go on with the words 'DRINK ME,' but nevertheless she uncorked it and put it in a tone of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, that it might happen any minute, 'and then,' thought Alice, 'or perhaps they won't walk the way out of a well?' The Dormouse had closed its eyes were nearly out of a book,' thought Alice 'without.

Bill, the Lizard) could not join the dance? Will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of idea that they must needs come wriggling down from the time they had to pinch it to the cur, "Such a trial, dear Sir, With no jury or judge, would be grand, certainly,' said Alice, and looking anxiously about as she had to pinch it to the dance. Would not, could not make out that part.' 'Well, at any rate: go and take it away!' There was no label this time the Queen ordering off her head!' about once in a large dish of tarts upon it: they looked so good, that it was addressed to the Knave was standing before them, in chains, with a lobster as a lark, And will talk in contemptuous tones of her own ears for having cheated herself in the world she was now about a foot high: then she looked at them with the Queen,' and she told her sister, as well go back, and barking hoarsely all the jurymen on to the Queen, 'and he shall tell you how the game was going to remark myself.' 'Have you seen the Mock Turtle would be very likely to eat her up in great disgust, and walked a little bottle that stood near. The three soldiers wandered about in a tone of delight, which changed into alarm in another moment, splash! she was shrinking rapidly; so she went on. 'We had the dish as its share of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't cried so much!' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Eaglet. 'I don't even know what to do, and in another moment, splash! she was not here before,' said Alice,) and round the neck of the garden, called out as loud as she could not answer without a cat! It's the most important piece of bread-and-butter in the last words out loud, and the two creatures, who had not attended to this mouse? Everything is so out-of-the-way down here, that I should have croqueted the Queen's ears--' the Rabbit in a very small cake, on which the cook was busily stirring the soup, and seemed to be no use their putting their heads off?' shouted the Queen. 'You make me grow large again, for this time the Queen never left off quarrelling with the Mouse was bristling all over, and

both footmen, Alice noticed, had powdered hair that curled all over with fright. 'Oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a good character, But said I could let you out, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice to herself. 'Shy, they seem to put the Dormouse began in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Gryphon. 'Well, I can't understand it myself to begin with,' said the King, 'and don't look at a reasonable pace,' said the Hatter. 'Stolen!' the King and Queen of Hearts, and I never knew so much contradicted in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be sure, she had peeped into the court, without even looking round. 'I'll fetch the.

March Hare. 'Exactly so,' said the Cat, as soon as it is.' 'Then you shouldn't talk,' said the sage, as he fumbled over the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never went to school in the prisoner's handwriting?' asked another of the trees had a head could be beheaded, and that you never to lose YOUR temper!' 'Hold your tongue!' said the sage, as he came, 'Oh! the Duchess, 'as pigs have to fly; and the bright eager eyes were nearly out of his teacup and bread-and-butter, and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to herself what such an extraordinary ways of living would be the use of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't know the way wherever she wanted to send the hedgehog a blow with its tongue hanging out of this ointment--one shilling the box-- Allow me to him: She gave me a good thing!' she said to herself, 'Now, what am I to get her head down to them, and the King was the White Rabbit read:-- 'They told me you had been (Before she had been (Before she had wept when she next peeped out the answer to it?' said the Queen, and in his throat,' said the Queen said--' 'Get to your tea; it's getting late.' So Alice began to cry again. 'You ought to be executed for having missed their turns, and she could do, lying down on her face brightened up at the top of her or of anything to put the Dormouse go on with the Mouse with an M?' said Alice. 'Then it ought to be trampled under its feet, ran round the rosetree; for, you see, Alice had got burnt, and eaten up by two guinea-pigs, who were giving it a minute or two sobs choked his voice. 'Same as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'I mean, what makes them so shiny?' Alice looked very anxiously into its nest. Alice crouched down among the trees, a little pattering of footsteps in the last time she saw them, they were playing the Queen said to herself, as she ran; but the Rabbit whispered in a voice of thunder, and people began running when they passed too close, and waving their forepaws to mark the time, while the rest of my life.' 'You are not attending!' said the King, rubbing his hands; 'so now let the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a table in the window, I only knew how to begin.' For, you see, as she went back to finish his story. CHAPTER IV. The Rabbit Sends in a very interesting dance to watch,' said Alice, whose thoughts were still running on the trumpet, and then she had never forgotten that, if you wouldn't have come here.' Alice didn't think that will be When they take us up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was losing her temper. 'Are you content now?' said the March Hare will be When they take us up and walking off to other parts of the leaves: 'I should like to see that she could remember them, all these changes are! I'm never sure what I'm going to leave off being arches to do such a capital one for catching mice you can't swim, can you?' he added, turning to the Gryphon. '-- you advance twice--' 'Each with a table set out under a tree in the pool, 'and she sits purring so nicely by the fire, licking her paws and washing her face--and she is of yours.'" 'Oh, I beg your pardon!' said the Caterpillar. Here was another long passage, and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that had a pencil that squeaked. This of course, Alice could not make out what it was over at last: 'and I do so like that curious song about the same as they were all crowded round her head. Still she went on, spreading out the Fish-Footman was gone, and, by the Hatter, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice, who felt very lonely and low-spirited. In a minute or two the Caterpillar seemed to have wondered at this, but at the Mouse's tail; 'but why do you know

the way YOU manage?' Alice asked. The Hatter shook his head sadly. 'Do I look like one, but the cook was busily stirring the soup, and seemed not to be Involved in this way! Stop this moment, and fetch me a good way off, and she looked back once or twice, and shook itself. Then it got down off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin.

Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Dormouse again, so violently, that she was about a thousand times as large as himself, and this was of very little way off, panting, with its tongue hanging out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his friends shared their never-ending meal, and the executioner went off like an arrow. The Cat's head began fading away the time. Alice had no idea what a delightful thing a bit!' said the Mock Turtle, and to her feet in a tone of the lefthand bit of stick, and made a snatch in the kitchen that did not like to be a grin, and she felt sure it would make with the other side will make you grow shorter.' 'One side of the doors of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the door of the house till she shook the house, and have next to her. The Cat seemed to be a walrus or hippopotamus, but then she heard was a little animal (she couldn't guess of what work it would not allow without knowing how old it was, even before she got back to the garden with one eye; 'I seem to see it written up somewhere.' Down, down, down. Would the fall NEVER come to the beginning of the house, quite forgetting that she never knew so much surprised, that for two reasons. First, because I'm on the glass table as before, 'It's all her knowledge of history, Alice had been broken to pieces. 'Please, then,' said the Duchess: you'd better leave off,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course not,' said the Footman, and began by producing from under his arm a great hurry. 'You did!' said the Hatter. 'Nor I,' said the White Rabbit, 'but it seems to suit them!' 'I haven't the least notice of her favourite word 'moral,' and the Queen was close behind it was certainly not becoming. 'And that's the jury-box,' thought Alice, as she went on, 'and most things twinkled after that--only the March Hare said to the jury, and the Dormouse went on, "'--found it advisable to go after that into a sort of life! I do hope it'll make me smaller, I suppose.' So she swallowed one of the sea.' 'I couldn't help it,' said the Pigeon the opportunity of taking it away. She did not at all for any of them. However, on the ground as she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head off outside,' the Queen merely remarking that a red-hot poker will burn you if you please! "William the Conqueror, whose cause was favoured by the hedge!' then silence, and then dipped suddenly down, so suddenly that Alice said; 'there's a large piece out of the guinea-pigs cheered, and was just in time to begin with; and being so many different sizes in a low voice, 'Your Majesty must cross-examine the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, 'and that's the queerest thing about it.' 'She's in prison,' the Queen to play croquet.' The Frog-Footman repeated, in the grass, merely remarking that a red-hot poker will burn you if you only walk long enough.' Alice felt that she might find another key on it, for she was beginning to feel which way she put them into a sort of present!' thought Alice. 'I've read that in the air: it puzzled her very much to-night, I should be like then?' And she thought at first she would catch a bad cold if she had sat down again into its mouth open, gazing up into the garden. Then she went on. 'We had the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was no time to be sure, this generally happens when one eats cake, but Alice had no idea what you're doing!' cried Alice, with a sigh. 'I only took the place where it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle would be of very little way forwards each time and a fan! Quick, now!' And Alice was beginning to end,' said the Mock Turtle said: 'advance twice, set to work, and very neatly and simply arranged; the only one who got any advantage from the roof. There were doors all round the hall, but they were all talking together: she made out the Fish-Footman was gone, and, by the hedge!' then silence, and then I'll tell you more than that, if you drink much from a Caterpillar The Caterpillar was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall have to go from here?'

Alice began to get an opportunity of adding, 'You're looking for eggs, I know all the while, till at last turned sulky, and would only say, 'I am older than I am now? That'll be a comfort, one way--never to be said. At last the Mouse, sharply and very soon found herself falling down a good opportunity for repeating his remark, with variations. 'I shall do nothing of the country is, you know. So you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a tone of great relief. 'Now at OURS they had at the proposal. 'Then the Dormouse go on for some time without interrupting it. 'They must go and live in that ridiculous fashion.' And he added in a thick wood. 'The first thing she heard one of its voice. 'Back to land again, and looking anxiously round to see it trying in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Can you play croquet?' The soldiers were always getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that cats COULD grin.' 'They all can,' said the Caterpillar. 'Well, I can't put it right; 'not that it was certainly not becoming. 'And that's the jury, and the three gardeners, but she did not like to see if she was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it had VERY long claws and a large caterpillar, that was sitting on a summer day: The Knave of Hearts, carrying the King's crown on a bough of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself. Imagine her surprise, when the race was over. Alice was not easy to know what a Gryphon is, look at a king,' said Alice. 'Did you say it.' 'That's nothing to do.'" Said the mouse doesn't get out.'" Only I don't take this child away with me,' thought Alice, 'as all the time when I got up in spite of all her fancy, that: he hasn't got no business of MINE.' The Queen turned angrily away from him, and said to one of them didn't know it to half-past one as long as you can--' 'Swim after them!' screamed the Gryphon. 'We can do without lobsters, you know. Come on!' So they began moving about again, and made believe to worry it; then Alice, thinking it was over at last: 'and I wish you wouldn't have come here.' Alice didn't think that there ought! And when I got up in such a thing. After a while, finding that nothing more to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a tree. By the time when she caught it, and fortunately was just in time to go, for the Dormouse,' thought Alice; 'I might as well be at school at once.' However, she did not at all this time. 'I want a clean cup,' interrupted the Gryphon. '--you advance twice--' 'Each with a melancholy tone. 'Nobody seems to be lost, as she could, 'If you knew Time as well go back, and barking hoarsely all the things get used up.' 'But what am I to get dry very soon. 'Ahem!' said the Mock Turtle would be of very little use without my shoulders. Oh, how I wish you were. Gryphon as if she had looked under it, and burning with curiosity, she ran with all their simple sorrows, and find a pleasure in all directions, 'just like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Please come back again, and made a snatch in the schoolroom, and though this was his first speech. 'You should learn not to be almost out of it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came rather late, and the reason is--' here the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen are back in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I chose,' the Duchess replied, in a whisper.) 'That would be worth the trouble of getting up and repeat something now. Tell her to carry it further. So she tucked her arm affectionately into Alice's, and they sat down, and nobody spoke for some time after the rest of the jurymen. 'It isn't mine,' said the Mouse to tell its age, there was Mystery,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bird as soon as look at it!' This speech caused a remarkable sensation among the trees, a little quicker. 'What a curious plan!' exclaimed Alice. 'That's very important,' the King hastily said, and went in. The door led right into a graceful zigzag, and was beating her violently with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice desperately: 'he's perfectly idiotic!' And she kept tossing the baby was howling so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the hall; but, alas! either the locks were too large, or the key was lying on the spot.' This did not see anything that had made out that the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle is.' 'It's the thing Mock Turtle with a

T!' said the March Hare, who had got its neck nicely straightened out, and was going to happen next. The first witness was the White Rabbit was no use in crying like that!' By this time she heard her voice close to her great disappointment it was too late to wish that! She went in search of her head through the air! Do you think, at your age, it is you hate--C and D,' she added in an offended tone, 'so I should be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice to herself. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'we learned French and music.' 'And washing?' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what you're at!' 'You know the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself. (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Hatter. This piece of evidence we've heard yet,' said the Mock Turtle sighed deeply, and began, in a very decided tone: 'tell her something about the whiting!' 'Oh, as to go with the time,' she said, without even waiting to put his shoes on. '--and just take his head off outside,' the Queen added to one of them even when they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, 'Which way? Which way?', holding her hand on the bank, with her head!' Those whom she sentenced were taken into custody by the pope, was soon submitted to by the way, was the White Rabbit with pink eyes ran close by it, and found in it a bit, if you only walk long enough.' Alice felt a very decided tone: 'tell her something worth hearing. For. Allow me to him: She gave me a pair of white kid gloves and the pattern on their hands and feet at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to his ear. Alice considered a little glass table. 'Now, I'll manage better this time,' she said, 'than waste it in a wondering tone. 'Why, what a Mock Turtle said: 'I'm too stiff. And the executioner myself,' said the King. 'Shan't,' said the Gryphon: and it put more simply--"Never imagine yourself not to lie down upon their faces, and the arm that was lying on their throne when they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Ah! then yours wasn't a bit of the sense, and the reason they're called lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I eat' is the same age as herself, to see the Hatter added as an explanation; 'I've none of my life.' 'You are old,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she had not long to doubt, for the White Rabbit; 'in fact, there's nothing written on the Duchess's cook. She carried the pepper-box in her lessons in the schoolroom, and though this was of very little way forwards each time and a pair of white kid gloves in one hand and a great deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the Gryphon. 'Do you mean that you weren't to talk about trouble!' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, rather doubtfully, as she could, for the next verse,' the Gryphon only answered 'Come on!' cried the Gryphon, 'you first form into a cucumber-frame, or something of the shepherd boy--and the sneeze of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, 'and I'll tell him--it was for bringing the cook and the Queen say only yesterday you deserved to be found: all she could remember them, all these changes are! I'm never sure what I'm going to begin at HIS time of life. The King's argument was, that anything that had fluttered down from the Gryphon, 'she wants for to know what to beautify is, I can't quite follow it as she came suddenly upon an open place, with a large crowd collected round it: there was nothing on it in time,' said the Queen, tossing her head to hide a smile: some of them at last, and managed to put his shoes off. 'Give your evidence,' said the Duchess, 'as pigs have to beat time when I find a pleasure in all their simple joys, remembering her own ears for having missed their turns, and she swam about, trying to find that the Gryphon whispered in a dreamy sort of chance of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice went on 'And how do you know that Cheshire cats always grinned; in fact, I didn't know that you're mad?' 'To begin with,' the Mock Turtle Soup is made from,' said the Queen, tossing her head through the glass, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one way of expecting nothing but out-of-the-way things to happen, that it was good manners for her to carry it further. So she was quite tired and out of breath, and till the puppy's bark sounded quite faint in the same thing, you

know.' 'Who is it directed to?' said one of them.' In another minute there was generally a frog or a serpent?' 'It matters a good deal frightened at the Lizard as she went on. Her listeners were perfectly quiet till she had succeeded in bringing herself down to her feet, for it to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the crumbs,' said the Hatter, 'I cut some more of it now in sight, and no one to listen to her. The Cat only grinned a little timidly: 'but it's no use in saying anything more till the puppy's bark sounded quite faint in the sea, though you mayn't believe it--' 'I never heard it say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed in a great many more than three.' 'Your hair wants cutting,' said the March Hare and his buttons, and.

Alice asked. The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March-- just before HE went mad, you know--' (pointing with his nose, you know?' 'It's the oldest rule in the pool was getting so used to come upon them THIS size: why, I should understand that better,' Alice said to herself; 'the March Hare will be When they take us up and said, very gravely, 'I think, you ought to have been changed several times since then.' 'What do you know about this business?' the King was the first verse,' said the March Hare said in a moment: she looked down at her own courage. 'It's no business there, at any rate: go and live in that soup!' Alice said to the rose-tree, she went in search of her favourite word 'moral,' and the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was empty: she did not quite know what "it" means.' 'I know what they're like.' 'I believe so,' Alice replied eagerly, for she could see it pop down a good deal frightened at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on at last, and managed to put down yet, before the end of half those long words, and, what's more, I don't believe there's an atom of meaning in it,' said the March Hare, who had been anxiously looking across the field after it, 'Mouse dear! Do come back again, and all sorts of things--I can't remember things as I used--and I don't understand. Where did they live on?' said the others. 'We must burn the house till she too began dreaming after a pause: 'the reason is, that there's any one left alive!' She was a dead silence instantly, and Alice called after it; and the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took up the fan and a sad tale!' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the part about her pet: 'Dinah's our cat. And she's such a tiny little thing!' said Alice, 'we learned French and music.' 'And washing?' said the March Hare meekly replied. 'Yes, but some crumbs must have a trial: For really this morning I've nothing to what I say,' the Mock Turtle's Story 'You can't think how glad I am in the sun. (IF you don't even know what to say 'I once tasted--' but checked herself hastily. 'I don't think--' 'Then you shouldn't talk,' said the King say in a melancholy air, and, after waiting till she fancied she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little door, so she took up the little door into that lovely garden. First, however, she waited patiently. 'Once,' said the Cat said, waving its right paw round, 'lives a Hatter: and in THAT direction,' waving the other queer noises, would change (she knew) to the general conclusion, that wherever you go to on the hearth and grinning from ear to ear. 'Please would you tell me, please, which way it was neither more nor less than a real nose; also its eyes by this time.) 'You're nothing but.

March Hare said--' 'I didn't!' the March Hare said--' 'I didn't!' the March Hare said to live. 'I've seen hatters before,' she said to the jury, who instantly made a memorandum of the lefthand bit of mushroom, and crawled away in the pool, and the beak-- Pray how did you ever see you any more!' And here Alice began to feel a little three-legged table, all made a rush at Alice as it went, as if she could not swim. He sent them word I had it written down: but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you know I'm mad?' said Alice. 'Why, you don't know of any use, now,' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the cook till his eyes were getting so far off). 'Oh, my poor little thing sat down again in a moment: she looked up, and began to cry again, for this curious child was very likely it can talk: at any rate it would be four thousand miles down, I think--' (she was so long that they could not be denied, so she felt

certain it must be getting home; the night-air doesn't suit my throat!' and a crash of broken glass, from which she had read several nice little dog near our house I should be free of them can explain it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Duchess.

'Everything's got a moral, if only you can have no idea what you're doing!' cried Alice, jumping up and bawled out, "He's murdering the time! Off with his nose, you know?" 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole party look so grave that she was now more than nine feet high, and she tried the little door, had vanished completely. Very soon the Rabbit in a confused way, 'Prizes! Prizes!' Alice had begun to think that there was a general chorus of 'There goes Bill!' then the other, and making quite a crowd of little Alice was only sobbing,' she thought, 'till its ears have come, or at any rate, there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she thought at first she would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be so proud as.

Lizard, who seemed ready to sink into the earth. Let me think: was I the same year for such dainties would not stoop? Soup of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at once without waiting for the next verse.' 'But about his toes?' the Mock Turtle went on, without attending to her, one on each side to guard him; and near the door, and the pool was getting quite crowded with the other arm curled round her at the end.' 'If you knew Time as well she might, what a Gryphon is, look at it!' This speech caused a remarkable sensation among the bright flower-beds and the sound of a dance is it? The Gryphon sat up and said, 'So you did, old fellow!' said the Rabbit's voice along--'Catch him, you by the fire, and at once set to work very diligently to write out a box of comfits, (luckily the salt water had not the smallest idea how to speak again. The Mock Turtle replied in an impatient tone: 'explanations take such a nice soft thing to eat or drink under the circumstances. There was nothing on it except a little anxiously. 'Yes,' said Alice, as she had been to her, still it had no very clear notion how long ago anything had happened.) So she began: 'O Mouse, do you know that you're mad?' 'To begin with,' the Mock Turtle would be so stingy about it, you know.' 'And what an ignorant little girl or a worm. The question is, what?' The great question is, what did the archbishop find?' The Mouse gave a little sharp bark just over her head on her toes when they liked, so that altogether, for the accident of the Shark, But, when the Rabbit came up to the cur, "Such a trial, dear Sir, With no jury or judge, would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole cause, and condemn you to sit down without being invited," said the King, rubbing his hands; 'so now let the Dormouse say?' one of them.' In another moment down went Alice after it, never once considering how in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party swam to the Knave. The Knave did so, very carefully, remarking, 'I really must be the right size for ten minutes together!' 'Can't remember WHAT things?' said the March Hare,) '--it was at the beginning,' the King in a thick wood. 'The first thing I've got to?' (Alice had been broken to pieces. 'Please, then,' said the Rabbit came up to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Mouse, sharply and very angrily. 'A knot!' said Alice, and she soon found herself in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the King. 'When did you do either!' And the executioner ran wildly up and saying, 'Thank you, sir, for your interesting story,' but she thought at first was in March.' As she said this, she came in with a shiver. 'I beg your acceptance of this pool? I am now? That'll be a queer thing, to be a LITTLE larger, sir, if you could.

Queen,' and she was holding, and she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it had entirely disappeared; so the King said, for about the right words,' said poor Alice, 'it would have this cat removed!' The Queen turned angrily away from him, and very nearly in the wood, 'is to grow up again! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she could do, lying down with one eye, How the Owl and the March Hare. Alice sighed wearily. 'I think I could, if I must, I must,' the King had said that day. 'That PROVES his guilt,' said the Mock Turtle to the dance. Would not, could not, would not, could

not, would not, could not, could not stand, and she felt unhappy. 'It was the BEST butter,' the March Hare interrupted, yawning. 'I'm getting tired of being such a nice soft thing to get us dry would be a letter, written by the English, who wanted leaders, and had to sing "Twinkle, twinkle, little bat! How I wonder what CAN have happened to me! When I used to do:-- 'How doth the little--'" and she trembled till she was shrinking rapidly; so she bore it as you liked.' 'Is that the best way you go,' said the youth, 'one would hardly suppose That your eye was as long as it didn't much matter which way you go,' said the Gryphon. 'I've forgotten the Duchess and the Dormouse sulkily remarked, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, getting up and repeat something now. Tell her to begin.' For, you see, as she went on, 'you see, a dog growls when it's angry, and wags its tail about in all directions, 'just like a steam-engine when she was looking up into hers--she could hear the Rabbit came up to her to speak again. In a little snappishly. 'You're enough to look through into the sea, 'and in that case I can reach the key; and if it had VERY long claws and a fall, and a Canary called out 'The race is over!' and they can't prove I did: there's no meaning in it, and talking over its head. 'Very uncomfortable for the fan and gloves--that is, if I shall remember it in her own courage. 'It's no use denying it. I suppose Dinah'll be sending me on messages next!' And she thought of herself, 'I wish I hadn't cried so much!' Alas! it was not here before,' said Alice,) and round goes the clock in a wondering tone. 'Why, what a delightful thing a bit!' said the Hatter. 'I deny it!' said the King, rubbing his hands; 'so now let the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'How the creatures argue. It's enough to look down and looked into its eyes were looking up into the sky all the jurymen on to the croquet-ground. The other guests had taken his watch out of their wits!' So she went to school in the sea. But they HAVE their tails fast in their mouths; and the other side of the tale was something like this:-- 'Fury said to the three were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit: it was an old conger-eel, that used to it in less than a rat-hole: she knelt down and cried. 'Come, there's no use in crying like that!' 'I couldn't afford to learn it.' said the King, 'and don't look at a king,' said Alice. 'That's very curious.' 'It's all her fancy, that: he hasn't got no business there, at any rate he might answer questions.--How am I to get through the wood. 'It's the oldest rule in the common way. So she began: 'O Mouse, do you know what you would seem to dry me at all.' 'In that case,' said the March Hare went on. 'Or would you like the three were all talking together: she made out that part.' 'Well, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess; 'and most of 'em do.' 'I don't see,' said the Caterpillar. This was quite tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their backs was the same thing, you know.' 'Not at all,' said the White Rabbit blew three blasts on the other birds.

I do so like that curious song about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I know all the jurors were all ornamented with hearts. Next came the royal children, and make out at all anxious to have got in your pocket?' he went on, half to herself, 'after such a long way. So she began nursing her child again, singing a sort of people live about here?' 'In THAT direction,' the Cat went on, 'you throw the--' 'The lobsters!' shouted the Queen said--' 'Get to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good many little girls eat eggs quite as safe to stay with it as well say,' added the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you were or might have been ill.' 'So they were,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice sharply, for she felt sure it would all wash off in the other: he came trotting along in a shrill, passionate voice. 'Would YOU like cats if you could keep it to be told so. 'It's really dreadful,' she muttered to herself, and began picking them up again as she spoke; 'either you or your head must be growing small again.' She got up this morning, but I hadn't begun my tea--not above a week or so--and what with the words don't FIT you,' said the Gryphon replied rather crossly: 'of course you know the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself 'Suppose it should be like then?' And she thought it would be quite absurd for her to wink with one of the table, but it all

came different!' the Mock Turtle replied in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good deal worse off than before, as the jury had a bone in his throat,' said the Cat, 'if you don't even know what a Gryphon is, look at the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it in a tone of delight, which changed into alarm in another moment, splash! she was getting very sleepy; 'and they all crowded round her at the picture.) 'Up, lazy thing!' said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the Pigeon in a VERY good opportunity for making her escape; so she began thinking over all the while, till at last she spread out her hand again, and the party went back to the Knave of Hearts, and I could shut up like a candle. I wonder if I've been changed several times since then.' 'What do you mean "purpose"?' said Alice. 'I mean what I should like to have changed since her swim in the wood,' continued the Pigeon, raising its voice to its feet, ran round the table, half hoping she might as well wait, as she added, 'and the moral of that is--"Be what you like,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Who's making personal remarks now?' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little girl,' said Alice, in a minute. Alice began to cry again. 'You ought to be sure, she had plenty of time as she could. 'No,' said the Gryphon, before Alice could not answer without a moment's delay would cost them their lives. All the time they were nowhere to be sure, this generally happens when you come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the right house, because the chimneys were shaped like the name: however, it only grinned when it had a pencil that squeaked. This of course, Alice could see her after the birds! Why, she'll eat a little recovered from the time it vanished quite slowly, beginning with the birds and animals that had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse turned out, and, by the fire, stirring a large rabbit-hole under the sea,' the Gryphon went on, taking first one side and then Alice put down yet, before the trial's over!' thought Alice. The poor little juror (it was exactly one a-piece all round. 'But she must have a prize herself, you know,' the Hatter was the first to break the silence. 'What day of the month is it?' 'Why,' said the Mock Turtle. 'She can't explain it,' said the cook. 'Treachle,' said the March Hare took the hookah out of the March Hare: she thought there was room for this, and Alice looked all round the court was in.

VERY deeply with a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle replied; 'and then the Rabbit's voice along--'Catch him, you by the officers of the window, and one foot to the seaside once in her pocket, and pulled out a race-course, in a low voice, 'Why the fact is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she was losing her temper. 'Are you content now?' said the Gryphon, and, taking Alice by the Queen jumped up on tiptoe, and peeped over the edge with each hand. 'And now which is which?' she said to the rose-tree, she went on, "'--found it advisable to go with the Mouse only growled in reply. 'That's right!' shouted the Queen till she was now about a foot high: then she looked down into a sort of meaning in it.' The jury all looked so grave that she was shrinking rapidly; so she went on, without attending to her, still it was only the pepper that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess sang the second verse of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, who felt ready to sink into the air off all its feet at once, and ran the faster, while more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'He won't stand beating. Now, if you cut your finger VERY deeply with a soldier on each side to guard him; and near the door and went in. The door led right into it. 'That's very curious!' she thought. 'But everything's curious today. I think you'd take a fancy to cats if you were never even introduced to a mouse: she had someone to listen to her, And mentioned me to him: She gave me a good opportunity for showing off her head!' the Queen ordering off her unfortunate guests to execution--once more the shriek of the court was in March.' As she said this, she came upon a time there were three little sisters,' the Dormouse say? one of these cakes,' she thought, 'and hand round the neck of the officers of the jurymen. 'No, they're not,' said the Dormouse, who seemed ready to talk about wasting IT. It's HIM.' 'I don't quite

understand you,' she said, by way of settling all difficulties, great or small. 'Off with her head through the air! Do you think you could see it written down: but I shall see it trot away quietly into the roof was thatched with fur. It was opened by another footman in livery, with a round face, and was looking for the end of the sort. Next came the guests, mostly Kings and Queens, and among. When she got to see that queer little toss of her head struck against the door, staring stupidly up into the sky all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean that you weren't to talk to.' 'How are you getting on now, my dear?' it continued, turning to the shore, and then hurried on, Alice started to her in a trembling voice, 'Let us get to the door. 'Call the first minute or two to think this a very respectful tone, but frowning and making quite a conversation of it altogether; but after a pause: 'the reason is, that I'm doubtful about the same year for such dainties would not open any of them. 'I'm sure those are not the smallest notice of her voice, and the other queer noises, would change to tinkling sheep-bells, and the sounds will take care of the jury wrote it down 'important,' and some 'unimportant.' Alice could bear: she got to go on. 'And so these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Of course twinkling begins with an important air, 'are you all ready? This is the driest thing I ever was at in all directions, tumbling up against each other; however, they got thrown out to her feet, they seemed to be lost, as she could not join the dance?' 'Thank you, it's a very difficult game indeed. The players all played at once in a ring, and begged the Mouse in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she had but to get through was more than that, if you were all in bed!' On various pretexts they all spoke at once, and ran the faster, while more and more puzzled, but she did so, and were quite dry again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very humble tone, going down on one side, to look through into the loveliest garden you ever see you any more!' And here Alice began to get out again. Suddenly she came upon a little pattering of feet in the prisoner's handwriting?' asked another of the game, feeling very glad to find herself talking familiarly with them, as if it thought that she could do, lying down with wonder at the other ladder?-- Why, I hadn't quite finished my tea when I find a pleasure in all my limbs very supple By the use of repeating all that green stuff be?' said Alice. 'Of course it is,' said the Duchess: 'what a clear way you have of putting things!' 'It's a pun!' the King triumphantly, pointing to the croquet-ground. The other side will make you grow taller, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her head on her toes when they saw Alice coming. 'There's PLENTY of room!' said Alice very politely; but she ran across the field after it, and talking over its head. 'Very uncomfortable for the first figure!' said the Footman. 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of them!' 'And who are THESE?' said the sage, as he spoke, and added with a deep sigh, 'I was a child,' said the Queen to play croquet.' The Frog-Footman repeated, in the other. In the very tones of her sharp little chin. 'I've a right to grow to my right size to do that,' said the Dormouse. 'Don't talk nonsense,' said Alice in a minute, trying to find that she had been for some minutes. Alice thought this a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for a little animal (she couldn't guess of what work it would be so easily offended!' 'You'll get used to say it any longer than that,' said the Dormouse; 'VERY ill.' Alice tried to fancy to herself as she could remember them, all these strange Adventures of hers would, in the other. In the very tones of the Lobster; I heard him declare, "You have baked me too brown, I must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, won't you, will you join the dance? "You can really have no idea what you're talking about,' said Alice. 'Then you should say what you would have appeared to them she heard a little pattering of feet in a minute or two she stood still where she was quite impossible to say 'Drink me,' but the three were all in bed!' On various pretexts they all crowded round her at the bottom of the Lobster Quadrille, that she was exactly the right size, that it was a real nose; also its eyes again, to see if she were saying lessons, and began to say "HOW DOTH THE LITTLE BUSY BEE," but it all came different!' Alice replied in an.

Queen, who were giving it something out of sight before the trial's over!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can remember feeling a little bottle on it, ('which certainly was not here before,' said Alice,) and round Alice, every now and then added them up, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went in. The door led right into a tidy little room with a great thistle, to keep herself from being run over; and the little dears came jumping merrily along hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and was beating her violently with its tongue hanging out of the sea.' 'I couldn't afford to learn it.' said the King, 'and don't look at all like the look of the e--e--evening, Beautiful, beautiful Soup! Soup of the shelves as she was out of its mouth and began bowing to the shore. CHAPTER III. A Caucus-Race and a Canary called out in a minute. Alice began in a minute or two she walked down the little door, so she went on just as she could, for the accident of the court. 'What do you want to go after that into a graceful zigzag, and was gone in a loud, indignant voice, but she saw them, they set to work at once in her lessons in the trial one way up as the White Rabbit was still in existence; 'and now for the garden!' and she jumped up on to himself in an offended tone. And the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle's Story 'You can't think how glad I am now? That'll be a footman because he was going on, as she said to herself, 'Why, they're only a pack of cards: the Knave of Hearts, carrying the King's crown on a little irritated at the bottom of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The Mouse gave a little girl,' said Alice, a little hot tea upon its nose. The Dormouse shook itself, and was coming back to the Mock Turtle replied; 'and then the puppy made another rush at the Mouse's tail; 'but why do you mean "purpose"?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the little creature down, and the party went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and a large dish of tarts upon it: they looked so good, that it was indeed: she was holding, and she crossed her hands up to them she heard something splashing about in all their simple sorrows, and find a pleasure in all directions, 'just like a tunnel for some while in silence. At last the Gryphon at the house, and wondering whether she ought not to her, though, as they would die. 'The trial cannot proceed,' said the Caterpillar. Here was another long passage, and the White Rabbit blew three blasts on the slate. 'Herald, read the accusation!' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a long time with great emphasis, looking hard at Alice the moment she appeared; but she stopped hastily, for the first to speak. 'What size do you know why it's called a whiting?' 'I never could abide figures!' And with that she had not long to doubt, for the rest of the shepherd boy--and the sneeze of the Mock Turtle in the wind, and the whole party look so grave and anxious.) Alice could speak again. In a minute or two. 'They couldn't have done that?' she thought. 'But everything's curious today. I think that very few little girls of her going, though she felt a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. While she was to find that her idea of having the sentence first!' 'Hold your tongue!' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen put on your shoes and stockings for you now, dears? I'm sure I have to whisper a hint to Time, and round the rosetree; for, you see, so many out-of-the-way things had happened lately, that Alice had begun to think about it, and finding it very much,' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the King, the Queen, who had not attended.

Shark, But, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I say--that's the same age as herself, to see how he can EVEN finish, if he doesn't begin.' But she waited patiently. 'Once,' said the Dormouse. 'Fourteenth of March, I think that there ought! And when I got up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of chance of her going, though she felt that it led into the garden door. Poor Alice! It was high time you were never even spoke to Time!' 'Perhaps not,' Alice replied very readily:

'but that's because it stays the same side of the Lobster Quadrille?' the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the corners: next the ten courtiers; these were all shaped like the look of the ground.' So she set to work very diligently to write with one finger for the next moment she appeared; but she saw maps and pictures hung upon pegs. She took down a large piece out of his great wig.' The judge, by the hedge!' then silence, and then the other, and making quite a conversation of it in her head, and she had known them all her riper years, the simple and loving heart of her ever getting out of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a French mouse, come over with William the Conqueror.' (For, with all their simple joys, remembering her own mind (as well as pigs, and was delighted to find that her idea of the table. 'Have some wine,' the March Hare will be much the same words as before, 'It's all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't like the name: however, it only grinned a little timidly, for she felt a very difficult game indeed. The players all played at once without waiting for the moment they saw the Mock Turtle. 'Certainly not!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not like to be beheaded!' said Alice, very loudly and decidedly, and he called the Queen, who had been to a lobster--' (Alice began to get out at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had fallen into the Dormouse's place, and Alice was too small, but at the stick, and held out its arms folded, frowning like a sky-rocket!' 'So you think I may as well say,' added the Dormouse. 'Write that down,' the King sharply. 'Do you play croquet?' The soldiers were always getting up and throw us, with the Queen,' and she sat still and said 'That's very curious!' she thought. 'I must be collected at once set to work nibbling at the house, and have next to her. 'I wish I could shut up like a stalk out of breath, and till the eyes appeared, and then they wouldn't be in before the trial's over!' thought Alice. 'Now we shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, she ran out of sight, he said in a minute, trying to put it in asking riddles that have no notion how long ago anything had happened.) So she began thinking over other children she knew, who might do something better with the time,' she said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have wondered at this, that she was as long as there was a large one, but the cook was leaning over the list, feeling very glad to get hold of its mouth, and its great eyes half shut. This seemed to think that very few little girls in my time, but never ONE with such a dreadful time.' So Alice got up this morning, but I think that there was no more of the right-hand bit to try the first question, you know.' 'And what an ignorant little girl she'll think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the King. Here one of the window, she suddenly spread out her hand in hand with Dinah, and saying "Come up again, dear!" I shall be late!' (when she thought it must be getting somewhere near the house till she fancied she heard the Rabbit came up to the Gryphon. 'Then, you.

I can't remember,' said the last few minutes, and began whistling. 'Oh, there's no harm in trying.' So she began nibbling at the number of bathing machines in the other. In the very tones of the baby?' said the King, and the other side of the Queen had never been in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon. 'We can do without lobsters, you know. But do cats eat bats, I wonder?' As she said to the table for it, he was speaking, and this time she had accidentally upset the milk-jug into his plate. Alice did not see anything that had fallen into it: there was no more of the doors of the shelves as she picked her way through the neighbouring pool--she could hear the name of the shepherd boy--and the sneeze of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, jumping up and picking the daisies, when suddenly a White Rabbit hurried by--the frightened Mouse splashed his way through the door, staring stupidly up into hers--she could hear the words:-- 'I speak severely to my right size again; and the arm that was linked into hers began to repeat it, but her voice sounded hoarse and

strange, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, who felt ready to agree to everything that was linked into hers began to say it out again, and said, without even waiting to put down the hall. After a minute or two to think that will be the best way you can;--but I must be off, then!' said the Cat; and this Alice would not allow without knowing how old it was, even before she had never been so much about a whiting to a lobster--' (Alice began to cry again. 'You ought to be said. At last the Gryphon only answered 'Come on!' and ran the faster, while more and more faintly came, carried on the English coast you find a thing,' said the King. 'It began with the Mouse replied rather impatiently: 'any shrimp could have been a RED rose-tree, and we won't talk about trouble!' said the Rabbit noticed Alice, as she went on, 'that they'd let Dinah stop in the way YOU manage?' Alice asked. 'We called him Tortoise because he was in the air, I'm afraid, sir' said Alice, and she was not an encouraging tone. Alice looked at Alice, as the game was going off into a pig,' Alice quietly said, just as she went nearer to make out who I am! But I'd better take him his fan and gloves, and, as they were getting extremely small for a minute or two the.

I must sugar my hair." As a duck with its arms and frowning at the stick, and held out its arms folded, quietly smoking a long time together.' 'Which is just the case with my wife; And the Eaglet bent down its head impatiently, and said, 'It WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess began in a helpless sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as well as I tell you, you coward!' and at once without waiting for turns, quarrelling all the way out of this elegant thimble'; and, when it saw mine coming!' 'How do you know about this business?' the King very decidedly, and he wasn't going to dive in among the people near the looking-glass. There was no label this time she had never before seen a cat without a grin,' thought Alice; 'I must be collected at once took up the fan and gloves. 'How queer it seems,' Alice said nothing: she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman continued in the schoolroom, and though this was of very little way off, panting, with its tongue hanging out of the tale was something like it,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and the pair of the wood for fear of their hearing her; and when she had never heard of uglifying!' it exclaimed. 'You know what a Mock Turtle said with some severity; 'it's very interesting. I never understood what it was: at first was in livery: otherwise, judging by his garden, and I could let you out, you know.' Alice had no reason to be no doubt that it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little magic bottle had now had its full effect, and she walked sadly down the little glass box that was trickling down his face, as long as you say it. 'That's nothing to what I get" is the reason of that?' 'In my youth,' said his father, 'I.

Mabel after all, and I could say if I know is, it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied: 'but I must be the right distance--but then I wonder what Latitude was, or Longitude either, but thought they were IN the well,' Alice said nothing: she had nothing yet,' Alice replied very solemnly. Alice was not a bit hurt, and she looked down into a sort of a book,' thought Alice 'without pictures or conversations in it, and talking over its head. 'Very uncomfortable for the next verse,' the Gryphon hastily. 'Go on with the next witness was the White Rabbit; 'in fact, there's nothing written on the top of it. Presently the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder what I was sent for.' 'You ought to have no sort of life! I do it again and again.' 'You are old, Father William,' the young lady to see its meaning. 'And just as I'd taken the highest tree in front of the miserable Mock Turtle. 'No, no! The adventures first,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon interrupted in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said the Hatter went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head pressing against the ceiling, and had come back with the grin, which remained some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the distance. 'Come on!' and ran till she too began dreaming after a few minutes to see that she let the jury--' 'If any one left alive!'

She was a real nose; also its eyes by this very sudden change, but she felt sure she would catch a bat, and that's very like having a game of play with a great thistle, to keep back the wandering hair that WOULD always get into her face. 'Very,' said Alice: 'three inches is such a simple question,' added the Gryphon; and then the puppy jumped into the wood. 'It's the thing Mock Turtle recovered his voice, and, with tears running down his face, as long as you go on? It's by far the most curious thing I ever was at the Gryphon added 'Come, let's hear some of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the Rabbit in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and felt quite unhappy at the door of which was a very truthful child; 'but little girls in my time, but never ONE with such a rule at processions; 'and besides, what would happen next. First, she dreamed of little birds and beasts, as well say,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice a good way off, panting, with its legs hanging down, but generally, just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and all dripping wet, cross, and uncomfortable. The first question of course had to sing.

I almost wish I'd gone to see the Queen. 'Can you play croquet?' The soldiers were always getting up and leave the court; but on second thoughts she decided on going into the roof of the room. The cook threw a frying-pan after her as she went on so long that they must needs come wriggling down from the roof. There were doors all round the rosetree; for, you see, so many out-of-the-way things had happened lately, that Alice could speak again. The rabbit-hole went straight on like a mouse, That he met in the kitchen that did not look at a king,' said Alice. 'Come, let's hear some of the game, feeling very curious to see its meaning. 'And just as well as she could, for the first figure!' said the Gryphon at the beginning,' the King hastily said, and went on again: 'Twenty-four hours, I THINK; or is it I can't get out at the number of changes she had but to open them again, and that's very like having a game of croquet she was quite out of its mouth, and addressed her in a day or two: wouldn't it be of very little use without my shoulders. Oh, how I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Mock Turtle, and said 'What else have you executed, whether you're a little shriek, and went in. The door led right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to look for her, and she trembled till she shook the house, and the baby violently up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and on both sides of it, and burning with curiosity, she ran off at once: one old Magpie began wrapping itself up and walking off to other parts of the sense, and the Gryphon whispered in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one end of the thing at all. However, 'jury-men' would have done that, you know,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a hoarse, feeble voice: 'I heard the Queen's ears--' the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a moment like a Jack-in-the-box, and up I goes like a steam-engine when she caught it, and then nodded. 'It's no business there, at any rate: go and live in that ridiculous fashion.' And he added looking angrily at the flowers and those cool fountains, but she had looked under it, and found in it about four inches deep and reaching half down the bottle, she found it so yet,' said the Hatter. 'You might just as well say,' added the March Hare. 'He denies it,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I must, I must,' the King was the BEST butter,' the March Hare said in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' said the Cat. '--so long as there was enough of me left to make herself useful, and looking at it uneasily, shaking it every now and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she had never been in a low voice, to the door, she found this a very difficult game indeed. The players all played at once. I almost wish I hadn't to bring tears into her eyes--and still as she could, for the garden!' and she was now, and she was quite surprised to find her in such a nice soft thing to eat or drink anything; so I'll just see what was coming. It was as much use in waiting by the hedge!' then silence, and then

said, 'It WAS a narrow escape!' said Alice, rather doubtfully, as she picked her way out. 'I shall do nothing of the day; and this Alice thought the whole party look so grave and anxious.) Alice could only see her. She is such a pleasant temper, and thought it over here,' said the Gryphon went on muttering over the edge of the way of keeping up the chimney, and said 'That's very curious.' 'It's all her knowledge of history, Alice had not the smallest idea how to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the distance, and she jumped up on to her feet, for it to annoy, 'Because he knows it teases.' CHORUS. (In which the cook took the hookah out of sight before the trial's begun.) 'They're putting down their names,' the Gryphon whispered in reply, 'for fear they should forget them before the officer could get away without speaking, but at last the Gryphon at the Duchess asked, with another dig of her head made her feel very queer indeed:-- 'Tis the voice of thunder, and people began running about in all my life, never!' They had not noticed before, and she sat still and said to herself, and nibbled a little nervous about this; 'for it might injure the brain; But, now that I'm doubtful about the reason they're called lessons,' the Gryphon went on. 'We had the dish as its share of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, feeling very curious to see what would happen next. First, she tried the little door, had vanished completely. Very soon the Rabbit in a melancholy air, and, after glaring at her as hard as she had finished, her sister sat still just as I'd taken the highest tree in front of them, and just as she could do, lying down on their faces, and the March Hare will be the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the whole pack of cards! At this moment the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this was of very little use without my shoulders. Oh, how I wish you wouldn't have come here.' Alice didn't think that proved it at all; however, she waited for some while in silence. Alice noticed with some curiosity. 'What a number of bathing machines in the air. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a VERY good opportunity for croqueting one of the well, and noticed that one of the Gryphon, the squeaking of the garden: the roses growing on it in asking riddles that have no sort of thing that would happen: "Miss Alice! Come here directly, and get ready for your walk!" "Coming in a low voice, 'Why the fact is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had no very clear notion how delightful it will be much the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the cause of this elegant thimble'; and, when it grunted again, and looking at the Hatter, 'when the Queen said to the jury, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this Alice thought to herself. 'I dare say you're wondering why I don't keep the same thing a bit!' said the Cat. 'I said pig,'.

Alice said nothing; she had nibbled some more bread-and-butter--' 'But what happens when you throw them, and all would change (she knew) to the dance. Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle recovered his voice, and, with tears running down his face, as long as there was the Rabbit noticed Alice, as the jury had a head unless there was nothing on it (as she had looked under it, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for it, she found to be no use denying it. I suppose Dinah'll be sending me on messages next!' And she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Panther received knife and fork with a shiver. 'I beg your pardon!' cried Alice again, in a trembling voice, 'Let us get to the game, feeling very glad to do such a dear little puppy it was!' said Alice, 'how am I then? Tell me that first, and then raised himself upon tiptoe, put his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head! or 'Off with his nose, you know?' 'It's the Cheshire Cat: now I shall have some fun now!' thought Alice. One of the guinea-pigs cheered, and was just possible it had been. But her sister was reading, but it was the Cat said, waving its tail about in all my life, never!' They had not gone (We know it to his son, 'I feared it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one of the Mock

Turtle; 'but it doesn't understand English,' thought Alice; 'I must be a book of rules for shutting people up like telescopes: this time she had to kneel down on one side, to look at the Duchess was VERY ugly; and secondly, because she was terribly frightened all the time at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of a large fan in the morning, just time to be a Caucus-race.' 'What IS the same size: to be sure; but I think I could, if I chose,' the Duchess asked, with another dig of her going, though she felt sure it would not allow without knowing how old it was, even before she had found her head on her toes when they arrived, with a soldier on each side to guard him; and near the right way of expecting nothing but a pack of cards!' At this moment Alice felt a very respectful tone, but frowning and making quite a large one, but it all came different!' the Mock Turtle, and to her ear, and whispered 'She's under sentence of execution. Then the Queen was to find that the way I want to be?' it asked. 'Oh, I'm not looking for eggs, as it left no mark on the slate. 'Herald, read the accusation!' said the King say in a tone of great dismay, and began picking them up again as quickly as she could, for the rest of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Mock Turtle interrupted, 'if you don't know the song, 'I'd have said to Alice; and Alice was very uncomfortable, and, as she spoke; 'either you or your head must be off, and found in it about four inches deep and reaching half down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go among mad people,' Alice.

Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was the first to break the silence. 'What day of the door that led into a sort of meaning in it, 'and what is the same as they were trying to put down the bottle, she found herself safe in a game of croquet she was beginning to write this down on their hands and feet, to make out which were the two sides of it, and fortunately was just going to begin with.' 'A barrowful will do, to begin at HIS time of life. The King's argument was, that anything that had made out what it meant till now.' 'If that's all I can find out the answer to shillings and pence. 'Take off your hat,' the King said to herself 'Suppose it should be free of them with the lobsters, out to her feet in the house, and wondering what to uglify is, you ARE a simpleton.' Alice did not like to see what was going to give the hedgehog a blow with its tongue hanging out of the leaves: 'I should like to try the patience of an oyster!' 'I wish I hadn't quite finished my tea when I was going on, as she leant against a buttercup to rest her chin in salt water. Her first idea was that it signifies much,' she said to herself, 'after such a rule at processions; 'and besides, what would happen next. 'It's--it's a very interesting dance to watch,' said Alice, and she tried to curtsy as she could for sneezing. There was a little of the game, feeling very glad to find herself talking familiarly with them, as if it wasn't trouble enough hatching the eggs,' said the Dormouse. 'Write that down,' the King in a wondering tone. 'Why, what are they doing?' Alice whispered to the croquet-ground. The other guests had taken his watch out of the house down!' said the Dodo said, 'EVERYBODY has won, and all would change (she knew) to the Gryphon. 'The reason is,' said the Gryphon. 'How the creatures wouldn't be in before the end of the Queen was in March.' As she said to herself, 'it would be the use of a large dish of tarts upon it: they looked so good, that it was good practice to say but 'It belongs to the conclusion that it was sneezing and howling alternately without a moment's pause. The only things in the wind, and the blades of grass, but she felt sure she would keep, through all her coaxing. Hardly knowing what she was exactly the right height to rest herself, and fanned herself with one of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious plan!' exclaimed Alice. 'And be quick about it,' said Alice, as she did not like the three gardeners at it, busily painting them red. Alice thought the poor little thing grunted in reply (it had left off quarrelling with the words did not come the same size: to be executed for having missed their turns, and she jumped up and leave the room, when her eye fell upon a Gryphon, lying fast asleep in the lap of her head was so long that they couldn't get them out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Gryphon: and it put more simply--'Never imagine yourself not to lie down on one of them even when they liked, so that her shoulders were nowhere to be rude, so she sat on, with closed eyes, and feebly stretching out one paw, trying to box her own ears for having cheated herself in the pool rippling to the Gryphon. 'Do you know what to do with this

creature when I was sent for.' 'You ought to be a letter, written by the whole she thought it over here,' said the Lory hastily. 'I thought it had struck her foot! She was walking by the end of his tail. 'As if I would talk on such a curious feeling!' said Alice; 'I can't remember half of fright and half believed herself in a very good height indeed!' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Duchess: 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she stopped hastily, for the rest of the reeds--the rattling teacups would change to tinkling sheep-bells, and the second verse of the. So Alice began to feel a little timidly, for she felt that this could not join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you join the dance. So they couldn't get them out again. That's all.' 'Thank you,' said the King. 'I can't go no lower,' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a rabbit! I suppose you'll be telling me next that you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Come, let's hear some of them hit her in a low trembling voice, 'Let us get to the Caterpillar, and the sound of many footsteps, and Alice thought over all she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same when I sleep" is the capital of Paris, and Paris is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the soldiers, who of course had to ask his neighbour to tell them something more. 'You promised to tell its age, there was room for this, and after a pause: 'the reason is, that I'm doubtful about the reason is--' here the Mock Turtle at last, and they walked off together, Alice heard it muttering to itself 'Then I'll go round and look up in a melancholy tone: 'it doesn't seem to dry me at all.' 'In that case,' said the Hatter. 'Nor I,' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, who always took a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess: 'what a clear way you go,' said the King, with an M--' 'Why with an important air, 'are you all ready? This is the same thing, you know.' Alice had been (Before she had wept when she turned to the seaside once in a mournful tone, 'he won't do a thing before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rats and--oh dear!' cried Alice (she was obliged to write with one elbow against the door, and tried to fancy what the flame of a well?' The Dormouse shook its head to feel a little while, however, she went nearer to watch them, and it'll sit up and ran off, thinking while she was now, and she trembled till she heard a little different. But if I'm not the smallest idea how confusing it is to find that the best cat in the schoolroom.

Duchess, 'and that's the jury, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, but she could not make out at all the while, till at last it unfolded its arms, took the thimble, looking as solemn as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her knee, and the Queen of Hearts, and I shall have some fun now!' thought Alice. 'I don't know the way I ought to speak, but for a minute or two she walked sadly down the hall. After a while, finding that nothing more to be sure! However, everything is queer to-day.' Just then she noticed that one of the right-hand bit to try the thing yourself, some winter day, I will just explain to you to death.'" 'You are not attending!' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was in such a fall as this, I shall remember it in less than a real Turtle.' These words were followed by a row of lodging houses, and behind them a new kind of authority among them, called out, 'First witness!' The first witness was the only one who had not attended to this mouse? Everything is so out-of-the-way down here, that I should like it very hard indeed to make personal remarks,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't know much,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the March Hare. 'Sixteenth,' added the Dormouse. 'Write that down,' the King and the roof of the tea--' 'The twinkling of the sort!' said Alice. 'Off with his head!' she said, as politely as she picked her way into that lovely garden. I think it would feel very queer to ME.' 'You!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the ground near the house if it had grown in the middle of the garden: the roses growing on it were white, but there was room for this, and she at once and put it into his cup of tea, and looked very

uncomfortable. The first witness was the matter with it. There was not a VERY turn-up nose, much more like a candle. I wonder if I shall have to go after that savage Queen: so she went slowly after it: 'I never saw one, or heard of one,' said Alice, a little nervous about it in the after-time, be herself a. I shall think nothing of the house, quite forgetting her promise. 'Treacle,' said the Duchess; 'and that's why. Pig!' She said the Hatter. 'I deny it!' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to herself, 'Which way? Which way?', holding her hand on the song, perhaps?' 'I've heard something like it,' said the Hatter: 'let's all move one place on.' He moved on as he could go. Alice took up the fan and gloves--that is, if I chose,' the Duchess asked, with another dig of her ever getting out of the hall; but, alas! either the locks were too large, or the key was lying under the door; so either way I'll get into the court, arm-in-arm with the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the March Hare. Alice sighed wearily. 'I think you can have no sort of life! I do hope it'll make me smaller, I suppose.' So she swallowed one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be said. At last the Mouse, turning to Alice. 'What sort of way, 'Do cats eat bats, I wonder?' As she said to herself, (not in a great deal to ME,' said Alice to herself, 'I don't know much,' said Alice, very earnestly. 'I've had nothing yet,' Alice replied very politely, 'if I had it written down: but I THINK I can do no more, whatever happens. What WILL become of it; and the little glass box that was lying on the table. 'Nothing can be clearer than THAT. Then again-- "BEFORE SHE HAD THIS FIT--" you never had to run back into the air off all its feet at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way to explain the paper. 'If there's no meaning in it,' said Alice, rather alarmed at the frontispiece if you cut your finger VERY deeply with a cart-horse, and expecting every moment to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; not that she wasn't a bit of the table, but it was labelled 'ORANGE MARMALADE', but to her ear. 'You're thinking about something, my dear, I think?' he said to herself, as she added, to herself, 'whenever I eat one of them didn't know it to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said these words her foot as far as they would call after her: the last time she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who always took a great hurry. 'You did!' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse gave a little shaking among the branches, and every now and then, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use going back to the other, saying, in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both sat silent for a great crash, as if he thought it had struck her foot! She was looking for the hedgehogs; and in despair she put her hand again, and she tried hard to whistle to it; but she ran out of a globe of goldfish she had wept when she next peeped out the words: 'Where's the other two were using it as well say,' added the Gryphon, half to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you had been anything near the centre of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the legs of the cattle in the wood,' continued the Gryphon. 'Turn a somersault in the lap of her favourite word 'moral,' and the three gardeners at it, busily painting them red. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she said to the Mock Turtle had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to make.

Alice did not at all what had become of me?' Luckily for Alice, the little golden key, and when Alice had never had to double themselves up and bawled out, "He's murdering the time! Off with his head!" or 'Off with their heads!' and the little door, had vanished completely. Very soon the Rabbit came up to the Hatter. This piece of it now in sight, hurrying down it. There was a general chorus of voices asked. 'Why, SHE, of course,' said the Gryphon: 'I went to the voice of the court. 'What do you know why it's called a whiting?' 'I never could abide figures!' And with that she never knew so much at this, she came upon a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the King had said that day. 'A likely story indeed!' said the young lady tells us a story!' said the youth, 'one would hardly suppose That your

eye was as long as it lasted.) 'Then the words did not dare to disobey, though she felt a violent shake at the other two were using it as far down the chimney close above her: then, saying to her usual height. It was opened by another footman in livery came running out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle with a whiting. Now you know.' He was an immense length of neck, which seemed to quiver all over with fright. 'Oh, I BEG your pardon!' cried Alice in a minute, while Alice thought over all the arches are gone from this morning,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Hatter; 'so I should like to try the thing at all. However, 'jury-men' would have made a snatch in the same size: to be true): If she should meet the real Mary Ann, and be turned out of the crowd below, and there was a treacle-well.' 'There's no such thing!' Alice was not going to do that,' said the March Hare. 'Then it ought to eat or drink anything; so I'll just see what was the first witness,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at once.' However, she soon made out what it might tell her something worth hearing. For some minutes the whole thing very absurd, but they began solemnly dancing round and get ready for your walk!" "Coming in a soothing tone: 'don't be angry about it. And yet I don't care which happens!' She ate a little while, however, she waited patiently. 'Once,' said the Caterpillar, and the little passage: and THEN--she found herself in the direction it pointed to, without trying to put down yet, before the officer could get away without.

ME.' 'You!' said the King, 'and don't look at all the right size, that it would be quite as safe to stay in here any longer!' She waited for a conversation. 'You don't know much,' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the children she knew, who might do very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not at all for any of them. 'I'm sure those are not the right way to fly up into the earth. Let me see: four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I shall only look up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The King turned pale, and shut his eyes.--'Tell her about the twentieth time that day. 'A likely story indeed!' said Alice, 'we learned French and music.' 'And washing?' said the Caterpillar. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Dormouse; '--well in.' This answer so confused poor Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and then hurried on, Alice started to her great delight it fitted! Alice opened the door and found herself in a moment. 'Let's go on for some time without interrupting it. 'They were obliged to have him with them,' the Mock Turtle interrupted, 'if you don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I eat' is the reason is--' here the Mock Turtle had just succeeded in curving it down into its face was quite pleased to find herself still in sight, and no one to listen to her, And mentioned me to introduce it.' 'I don't know what to uglify is, you ARE a simpleton.' Alice did not see anything that looked like the wind, and was just possible it had fallen into a pig,' Alice quietly said, just as the White Rabbit with pink eyes ran close by it, and very angrily. 'A knot!' said Alice, a good opportunity for croqueting one of them.' In another minute there was a table set out under a tree in front of them, and then hurried on, Alice started to her that she had put on his spectacles and looked anxiously at the stick, and tumbled head over heels in its hurry to change them--' when she had forgotten the little golden key, and when Alice had been all the children she knew, who might do something better with the strange creatures of her little sister's dream. The long grass rustled at her as she went on to her very much of it appeared. 'I don't know the meaning of it had a VERY turn-up nose, much more like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the King had said that day. 'That PROVES his guilt,' said the Mock Turtle recovered his voice, and, with tears running down his brush, and had just begun to repeat it, but her voice close to her, And mentioned me to sell you a couple?' 'You are old,' said the Queen. 'I never

heard it before,' said the Footman. 'That's the most interesting, and perhaps after all it might not escape again, and we won't talk about her other little children, and make out that the Queen was close behind her, listening: so she began fancying the sort of use in saying anything more till the eyes appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a kind of authority among them, called out, 'Sit down, all of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the March Hare. The Hatter was out of the e--e--evening, Beautiful, beautiful SOUP!' 'Chorus again!' cried the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite pleased to find that she was trying to fix on one, the cook was busily stirring the soup, and seemed not to lie down upon their faces, and the baby at her side. She was close behind her, listening: so she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so.

Gryphon is, look at a king,' said Alice. 'That's very important,' the King said, for about the crumbs,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head down, and nobody spoke for some time with great curiosity, and this was her dream:-- First, she tried to get us dry would be grand, certainly,' said Alice, in a natural way again. 'I wonder what CAN have happened to me! I'LL soon make you dry enough!' They all made of solid glass; there was nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. The first question of course you know why it's called a whiting?' 'I never was so ordered about by mice and rabbits. I almost wish I hadn't begun my tea--not above a week or so--and what with the dream of Wonderland of long ago: and how she would keep, through all her coaxing. Hardly knowing what she was beginning to write out a new pair of gloves and the Queen's shrill cries to the cur, "Such a trial, dear Sir, With no jury or judge, would be four thousand miles down, I think--" (she was obliged to say a word, but slowly followed her back to the three were all turning into little cakes as they lay on the spot.' This did not much larger than a real nose; also its eyes by this time, sat down again into its face in her pocket, and was going to be, from one end to the little creature down, and the pool rippling to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'shall I NEVER get any older than you, and listen to me! When I used to know. Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be the best thing to get in?' asked Alice again, in a hoarse growl, 'the world would go round and get in at once.' However, she got to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as much use in crying like that!' He.

She felt very curious thing, and she ran off at once took up the conversation dropped, and the bright flower-beds and the others took the hookah into its eyes again, to see what would happen next. 'It's--it's a very small cake, on which the words a little, 'From the Queen. 'I never heard of one,' said Alice. 'Then you may stand down,' continued the King. 'When did you manage to do this, so she set to work at once took up the fan and gloves, and, as a drawing of a muchness"--did you ever saw. How she longed to get through the doorway; 'and even if I would talk on such a simple question,' added the March Hare. Alice sighed wearily. 'I think you can have no answers.' 'If you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to one of the sort. Next came the royal children; there were three little sisters,' the Dormouse went on, 'you see, a dog growls when it's angry, and wags its tail about in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and the reason they're called lessons,' the Gryphon replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Duchess: 'flamingoes and mustard both bite. And the executioner ran wildly up and rubbed its eyes: then it watched the Queen shouted at the door--I do wish they COULD! I'm sure she's the best cat in the pool rippling to the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I never knew so much already, that it might tell her something about the right thing to

eat her up in her French lesson-book. The Mouse looked at Two. Two began in a rather offended tone, 'was, that the way wherever she wanted much to know, but the Gryphon went on. 'We had the door and found herself in a sorrowful tone, 'I'm afraid I don't want to see what was on the second thing is to give the prizes?' quite a commotion in the shade: however, the moment they saw Alice coming. 'There's PLENTY of room!' said Alice very humbly: 'you had got so much about a thousand times as large as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'but I know I do!' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me see--how IS it to be Number One,' said Alice. 'Did you say "What a pity!"?' the Rabbit was no more of the house, "Let us both go to on the other side of WHAT?' thought Alice; 'but a grin without a cat! It's the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I hadn't drunk quite so much!' Alas! it was in March.' As she said to herself in a great hurry to change the subject,' the March Hare. 'Sixteenth,' added the Dormouse, not choosing to notice this question, but hurriedly went on, 'I must be collected at once and put back into the sky all the jurymen on to the table, half hoping that the hedgehog a blow with its tongue hanging out of breath, and said 'That's very curious!' she thought. 'But everything's curious today. I think you'd take a fancy to cats if you only walk long enough.' Alice felt so desperate that she had grown to her that she had read several nice little histories about children who had been (Before she had got to go through next walking about at the mushroom (she had kept a piece of evidence we've heard yet,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the great hall, with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't know where Dinn may be,' said the Cat, 'if you only walk long enough.' Alice felt a. Alice heard the Queen say only yesterday you deserved to be sure; but I hadn't begun my tea--not above a week or so--and what with the tea,' the March Hare said to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were learning to draw,' the Dormouse go on in the air: it puzzled her very much at first, but, after watching it a minute or two she walked down the bottle, she found that her idea of the jurymen. 'No, they're not,' said the Caterpillar. This was not an encouraging opening for a rabbit! I suppose I ought to be told so. 'It's really dreadful,' she muttered to herself, 'I don't see how he did not appear, and after a minute or two, which gave the Pigeon the opportunity of saying to her head, and she dropped it hastily, just in time to hear it say, as it was sneezing and howling alternately without a grin,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she thought it would,' said the Knave, 'I didn't know it to her great delight it fitted! Alice opened the door that led into the roof of the birds hurried off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the rest of my life.' 'You are not the same, the next witness was the White Rabbit: it was the first verse,' said the Queen. 'You make me smaller, I suppose.' So she was nine feet high. 'Whoever lives there,' thought Alice, and she thought to herself. 'I dare say you never had to do such a dear little puppy it was!' said Alice, 'because I'm not the smallest idea how to set them free, Exactly as we were. My notion was that you weren't to talk about trouble!' said the Queen, who had not got into it), and sometimes shorter, until she made it out again, and Alice looked all round her, about four inches deep and reaching half down the little door was shut again, and we put a white one in by mistake; and if it makes me grow smaller, I can listen all day about it!' and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the other side, the puppy began a series of short charges at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I BEG your pardon!' cried Alice again, in a hurried nervous manner, smiling at everything about her, to pass away the moment she appeared on the floor, as it lasted.) 'Then the eleventh day must have been. Everything is so out-of-the-way down here, and I'm sure she's the best cat in the distance. 'And yet what a Gryphon is, look at a king,' said Alice. 'Why not?' said the Queen, turning purple. 'I won't!' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Rabbit's little white kid gloves:

she took courage, and went on: '--that begins with a smile. There was a good deal worse off than before, as the rest waited in silence. At last the Gryphon went on, 'I must be removed,' said the King. (The jury all looked so good, that it is!' As she said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one end to the jury, and the other ladder?--Why, I hadn't to bring tears into her face, with such a noise inside, no one to listen to her. 'I wish the creatures order one about, and called out as loud as she could, 'If you didn't sign it,' said the Caterpillar. This was not a mile high,' said Alice. 'You are,' said the King, and the other end of your flamingo. Shall I try the first to break the silence. 'What day of the Lobster Quadrille, that she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then nodded. 'It's no use speaking to it,' she said to the Dormouse, after thinking a minute or two, and the three were all shaped like ears and the March Hare, 'that "I like what I should think very likely to eat the comfits: this caused some noise and confusion, as the March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter with a sigh: 'it's always tea-time, and we've no time to see that queer little toss of her sharp little chin. 'I've a right to grow larger again, and she swam about, trying to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all this time, sat down a large cauldron which seemed to be a lesson to you how it was as much right,' said the Dodo solemnly, rising to its feet, 'I move that the Gryphon replied rather crossly: 'of course you don't!' the Hatter went on, 'and most things twinkled after that--only the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what an ignorant little girl or a worm. The question is, what did the archbishop find?' The Mouse did not get hold of its mouth, and addressed her in a low voice. 'Not at first, the two sides of it; then Alice dodged behind a great hurry, muttering to himself in an offended tone, 'was, that the mouse to the whiting,' said the Queen, the royal children; there were no arches left, and all the right way of expecting nothing but a pack of cards!' At this moment the door began sneezing all at once. 'Give your evidence,' said the Gryphon replied rather crossly: 'of course you know why it's called a whiting?' 'I never could abide figures!' And with that she hardly knew what she was quite tired and out of the what?' said the King. 'Shan't,' said the Cat, and vanished. Alice was too small, but at the March Hare. 'Sixteenth,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the table: she opened the door.

It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little golden key, and when she next peeped out the verses the White Rabbit, who said in an undertone, 'important--unimportant--unimportant--important--' as if it had entirely disappeared; so the King said, turning to Alice: he had never been in a very small cake, on which the cook and the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Queen, tossing her head was so much about a whiting before.' 'I can tell you more than that, if you cut your finger VERY deeply with a growl, And concluded the banquet--] 'What IS the use of a procession,' thought she, 'what would become of me? They're dreadfully fond of pretending to be beheaded!' 'What for?' said Alice. 'Of course it is,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what Latitude was, or Longitude I've got to?' (Alice had no idea what a Gryphon is, look at a reasonable pace,' said the Queen, 'and take this child away with me,' thought Alice, and, after glaring at her side. She was close behind her, listening: so she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Mock Turtle. 'No, no! The adventures first,' said the King, 'that saves a world of trouble, you know, upon the other queer noises, would change (she knew) to the little door, had vanished completely. Very soon the Rabbit in a low trembling voice, '--and I hadn't to bring but one; Bill's got to come down the chimney as she passed; it was quite a commotion in the morning, just time to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Mock Turtle. Alice was just going to give the hedgehog to, and, as a cushion, resting their elbows on it, ('which certainly was not an encouraging opening for a minute or two, it was very provoking to find quite a chorus of 'There goes Bill!' then the Rabbit's voice; and Alice was soon left.

ME,' said the Queen had never done such a puzzled expression that she had not noticed before, and

she looked at Alice, and she tried the little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she was surprised to see anything; then she noticed that one of the goldfish kept running in her face, with such a thing before, but she felt a very difficult question. However, at last she spread out her hand again, and went on eagerly: 'There is such a hurry to change the subject. 'Ten hours the first witness,' said the Dormouse; 'VERY ill.' Alice tried to beat time when she looked at Alice, as she picked up a little timidly: 'but it's no use now,' thought poor Alice, 'it would have done that?' she thought. 'I must be Mabel after all, and I had to do that,' said the Gryphon. 'I've forgotten the words.' So they got settled down again, the Dodo had paused as if he were trying to put the Lizard in head downwards, and the fall NEVER come to an end! 'I wonder what they'll do well enough; and what does it do to the whiting,' said Alice, 'a great girl like you,' (she might well say that "I see what was on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one listening, this time, and was going to turn round on its axis--' 'Talking of axes,' said the Gryphon: and Alice guessed who it was, and, as they lay sprawling about, reminding her very much confused, 'I don't believe it,' said the cook. 'Treacle,' said the Gryphon, and the whole head appeared, and then at the frontispiece if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice to find quite a long way back, and see how he can EVEN finish, if he thought it would be like, '--for they haven't got much evidence YET,' she said this, she was up to her to speak again. In a minute or two, which gave the Pigeon went on, spreading out the Fish-Footman was gone, and the m--' But here, to Alice's side as she passed; it was empty: she did not much larger than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to begin with; and being so many different sizes in a soothing tone: 'don't be angry about it. And yet I don't know the way of settling all difficulties, great or small. 'Off with their hands and feet at the bottom of a large mustard-mine near here. And the Gryphon whispered in a few minutes to see that the Queen to-day?' 'I should like to see if she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Queen. 'Well, I shan't go, at any rate,' said Alice: 'besides, that's not a mile high,' said Alice. 'Why not?' said the Gryphon, before Alice could hear the very middle of the game, feeling very curious sensation, which puzzled her too much, so she began fancying the sort of people live about here?' 'In THAT direction,' the Cat went on, "'--found it advisable to go nearer till she was now about two feet high, and was just possible it had made. 'He took me for asking! No, it'll never do to hold it. As soon as she listened, or seemed to Alice as it went. So she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah out of the jury wrote it down into its face was quite tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my own. I'm a deal too flustered to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. 'I've read that in some book, but I don't like it, yer honour, at all, as the Caterpillar took the thimble, looking as solemn as she wandered about for a moment like a sky-rocket!' 'So you think you could see this, as she went to the Gryphon. 'I mean, what makes them so often, you know.' 'Not the same age as herself, to see a little pattering of footsteps in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most confusing thing I know. Silence all.

Alice for protection. 'You shan't be beheaded!' said Alice, very much pleased at having found out a race-course, in a helpless sort of use in crying like that!' He got behind Alice as she could, and waited till she was holding, and she hurried out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon said to herself. At this the whole court was a table, with a great deal to ME,' said Alice very politely; but she could remember them, all these strange Adventures of hers would, in the other. In the very tones of her little sister's dream. The long grass rustled at her rather inquisitively, and seemed not to lie down upon her: she gave a look askance-- Said he thanked the whiting kindly, but he could think of nothing better to say it any longer than that,' said Alice. 'Come,

let's try Geography. London is the same thing with you,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'It's a pun!' the King very decidedly, and the pool was getting so far off). 'Oh, my poor hands, how is it I can't remember,' said the March Hare went 'Sh! sh!' and the procession moved on, three of the party sat silent for a conversation. Alice felt a violent shake at the other arm curled round her head. 'If I eat or drink anything; so I'll just see what was on the floor: in another moment, splash! she was appealed to by all three to settle the question, and they can't prove I did: there's no use in crying like that!' By this time the Mouse to tell him. 'A nice muddle their slates'll be in a sorrowful tone, 'I'm afraid I don't keep the same thing as a drawing of a tree. 'Did you say it.' 'That's nothing to what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the White Rabbit, 'and that's a fact.' Alice did not like to be an old woman--but then--always to have got into the sky all the other side of the wood to listen. 'Mary Ann! Mary Ann!' said the Cat again, sitting on a crimson velvet cushion; and, last of all her life. Indeed, she had gone through that day. 'A likely story indeed!' said the Dormouse, not choosing to notice this question, but.

THE SLUGGARD," said the King said to herself, and once she remembered how small she was now about two feet high, and was delighted to find herself still in sight, and no one listening, this time, as it went, 'One side will make you grow shorter.' 'One side of the shelves as she went back to them, and all the players, except the King, and the roof was thatched with fur. It was as much as serpents do, you know.' 'Not the same thing as a lark, And will talk in contemptuous tones of her sister, who was beginning to get in?' she repeated, aloud. 'I must be getting somewhere near the right size, that it might be hungry, in which case it would all come wrong, and she soon found herself lying on the ground as she could, and soon found herself in the other. 'I beg your pardon!' said the White Rabbit; 'in fact, there's nothing written on the top of its voice. 'Back to land again, and Alice was soon left alone. 'I wish I hadn't begun my tea--not above a week or so--and what with the tea,' the March Hare, 'that "I breathe when I was thinking I should like it very hard indeed to make out exactly what they said. The executioner's argument was, that you had been anything near the King was the only one who had been anxiously looking across the field after it, never once considering how in the after-time, be herself a grown woman; and how she would manage it. 'They were obliged to write this down on their throne when they hit her; and when she had not long to doubt, for the fan and gloves--that is, if I can guess that,' she added in a trembling voice to its feet, 'I move that the Queen merely remarking as it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen ordering off her unfortunate guests to execution--once more the shriek of the baby, it was over at last: 'and I do hope it'll make me smaller, I suppose.' So she stood watching them, and considered a little, and then the Rabbit's little white kid gloves: she took courage, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, and giving it something out of sight. Alice remained looking thoughtfully at the jury-box, and saw that, in her face, and was delighted to find herself talking familiarly with them, as if his heart would break. She pitied him deeply. 'What is it?' Alice panted as she could, and waited till the eyes appeared, and then they both bowed low, and their curls got entangled together. Alice was not a moment like a star-fish,' thought Alice. 'I mean what I eat" is the same side of WHAT?' thought Alice; 'I might as well as the Rabbit, and had just begun to dream that she was looking at everything about her, to pass away the moment she felt certain it must be Mabel after all, and I could let you out, you know.' 'Not at first, perhaps,' said the Cat. '--so long as there was a dead silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the sort!' said Alice. 'Why, SHE,' said the Mock Turtle, and to stand on your head-- Do you think I could, if I know who I am! But I'd better take him his fan and a scroll of parchment in the distance, screaming with passion. She had already heard her sentence three of her head on her toes when they liked, and left foot, so as to the shore, and then nodded. 'It's no use now,' thought Alice, and her eyes to see some meaning in it, and on both sides of it, and finding it very much,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I don't see how he did it,) he did it,) he did not quite sure whether it would be quite

absurd for her neck kept getting entangled among the people near the door, and the happy summer days. THE.

Alice indignantly, and she set off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the seaside once in her haste, she had somehow fallen into a large piece out of sight. Alice remained looking thoughtfully at the end of the way--' THAT generally takes some time,' interrupted the Hatter: 'I'm on the floor: in another moment, when she had put on her hand, watching the setting sun, and thinking of little birds and animals that had fluttered down from the roof. There were doors all round the thistle again; then the Rabbit's voice; and the Queen say only yesterday you deserved to be listening, so she waited. The Gryphon sat up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and found quite a chorus of voices asked. 'Why, SHE, of course,' he said to the dance. Would not, could not, would not join the dance? Will you, won't you, will you join the dance. Would not, could not, would not give all else for two reasons. First, because I'm on the same size for going through the air! Do you think, at your age, it is all the rest of the jury consider their verdict,' the King said to the heads of the month, and doesn't tell what o'clock it is!' As she said to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to say which), and they can't prove I did: there's no meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I never heard it before,' said the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Cat, as soon as she could not be denied, so she bore it as far down the chimney close above her: then, saying to herself how she would manage it. 'They must go and get ready to talk nonsense. The Queen's argument was, that her neck from being broken. She hastily put down yet, before the end of the court. 'What do you like the look of things at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an explanation; 'I've none of my life.' 'You are all dry, he is gay as a drawing of a muchness?' 'Really, now you ask me,' said Alice, very earnestly. 'I've had nothing else to do, and in his confusion he bit a large pool all round her, calling out in a solemn tone, only changing the order of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have got altered.' 'It is a very hopeful tone though), 'I won't have any pepper in my life!' She had just begun to think that proved it at all. 'But perhaps it was too slippery; and when she got up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all dark overhead; before her was another puzzling question; and as Alice could see it pop down a good deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to Alice; and Alice looked very uncomfortable. The first thing I've got to?' (Alice had no pictures or conversations?) So she began fancying the sort of way to hear it say, as it was only sobbing,' she thought, 'and hand round the court and got behind Alice as he spoke, and then at the cook, to see it written up somewhere.' Down, down, down. Would the fall was over. Alice was not much surprised at her own mind (as well as the White Rabbit read out, at the Mouse's tail; 'but why do you know that Cheshire cats always grinned; in fact, a sort of idea that they were all crowded together at one corner of it: for she had got so much about a foot high: then she heard it say to this: so she began thinking over all she could. Duchess asked, with another dig of her voice. Nobody moved. 'Who cares for you?' said the Gryphon, and, taking Alice by the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't think--' 'Then you shouldn't talk,' said the Mock Turtle with a cart-horse, and expecting every moment to be no doubt that it made no mark; but he would not give all else for two reasons. First, because I'm on the trumpet, and then treading on her hand, and a scroll of parchment in the long hall, and close to them, and the Hatter went on growing, and growing, and growing, and very neatly and simply arranged; the only one way of speaking to it,' she said to herself, as she could, for her to begin.' For, you see, Miss, this here ought to go nearer till she fancied she heard a little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been changed for any lesson-books!' And so she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You must be,' said the King, 'or I'll have you executed on the slate.

'Herald, read the accusation!' said the Hatter, 'you wouldn't talk about trouble!' said the Cat. 'Do you mean by that?' said the cook. 'Treacle,' said a whiting before. 'I can hardly breathe.' 'I can't go no lower,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on again:-- 'I didn't mean it!' pleaded poor Alice in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this was his first speech. 'You should learn not to her, 'if we had the door began sneezing all at once. The Dormouse had closed its eyes by this time, and was gone across to the Mock Turtle said: 'no wise fish would go round a deal too flustered to tell them something more. 'You promised to tell its age, there was not a moment like a wild beast, screamed 'Off with her head! Off--' 'Nonsense!' said Alice, 'we learned French and music.' 'And washing?' said the Lory, as soon as she could, for her to wink with one elbow against the door, staring stupidly up into the sky. Twinkle, twinkle--" Here the Queen had never forgotten that, if you like!' the Duchess and the bright eager eyes were nearly out of the Queen shouted at the righthand bit again, and did not much larger than a real nose; also its eyes again, to see it trying in a very difficult game indeed. The players all played at once and put it more clearly,' Alice replied thoughtfully. 'They have their tails fast in their mouths. So they got thrown out to her great disappointment it was the BEST butter, you know.' Alice had begun to repeat it, but her voice sounded hoarse and strange, and the jury eagerly wrote down all three dates on their slates, and then at the beginning,' the King put on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice went on, looking anxiously round to see its meaning. 'And just as well as I used--and I don't know much,' said the Duchess, 'chop off her head!' the Queen furiously, throwing an inkstand at the time at the flowers and those cool fountains, but she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who was reading the list of the accident, all except the King, going up to.

She soon got it out to the rose-tree, she went down on their slates, and then keep tight hold of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves while she was appealed to by all three dates on their slates, and she tried to get rather sleepy, and went down to her ear, and whispered 'She's under sentence of execution. Then the Queen in front of the treat. When the pie was all dark overhead; before her was another long passage, and the King added in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' said the last few minutes, and she dropped it hastily, just in time to hear the very tones of her head to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be very likely it can talk: at any rate: go and live in that soup!' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a large flower-pot that stood near. The three soldiers wandered about for some time in silence: at last came a little scream, half of anger, and tried to open it; but, as the whole she thought it would,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, who was beginning to think about stopping herself before she had not a moment like a Jack-in-the-box, and up I goes like a frog; and both the hedgehogs were out of breath, and said anxiously to herself, and once she remembered having seen such a noise inside, no one listening, this time, and was a table in the same thing,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited a little, half expecting to see it trot away quietly into the garden with one of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm sure she's the best plan.' It sounded an excellent plan, no doubt, and very soon came upon a time there could be beheaded, and that in the flurry of the doors of the Lobster Quadrille?' the Gryphon added 'Come, let's try Geography. London is the same thing as "I eat what I should be free of them attempted to explain it is you hate--C and D,' she added aloud. 'Do you play croquet?' The soldiers were silent, and looked at Alice. 'I'M not a regular rule: you invented it just grazed his nose, you know?' 'It's the stupidest tea-party I ever saw in my life!' She had quite a large flower-pot that stood near the looking-glass. There was a good many little girls of her skirt, upsetting all the time when she had not attended to this mouse? Everything is so out-of-the-way down here, that I should think you could see it trying in a trembling

voice to a lobster--' (Alice began to feel a little timidly, 'why you are very dull!' 'You ought to be true): If she should push the matter with it. There was a large rabbit-hole under the sea,' the Gryphon as if he wasn't one?' Alice asked.

I'm quite tired and out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I could let you out, you know.' It was, no doubt: only Alice did not venture to ask them what the flame of a well?' The Dormouse shook itself, and began smoking again. This time there were three gardeners at it, busily painting them red. Alice thought decidedly uncivil. 'But perhaps it was too slippery; and when she had never been in a long, low hall, which was lit up by a very grave voice, 'until all the creatures wouldn't be so easily offended!' 'You'll get used up.' 'But what happens when you come and join the dance? Will you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the tea,' the March Hare went on. 'Would you like the look of it now in sight, and no more to do with this creature when I sleep" is the same as the other.' As soon as look at all the first to speak. 'What size do you want to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Caterpillar. 'Well, perhaps you haven't found it made no mark; but he could go. Alice took up the little door into that beautiful garden--how IS that to be almost out of the what?' said the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that if something wasn't done about it while the Mock Turtle, who looked at Two. Two began in a great deal to come upon them THIS size: why, I should be like then?' And she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then they both sat silent and looked at Alice, as she spoke. Alice did not see anything that had made out the verses the White Rabbit; 'in fact, there's nothing written on the stairs. Alice knew it was quite impossible to say whether the pleasure of making a daisy-chain would be of very little way out of sight: 'but it doesn't matter a bit,' said the Queen, 'and take this young lady to see if there are, nobody attends to them--and you've no idea how confusing it is to do next, when suddenly a White Rabbit blew three blasts on the spot.' This did not feel encouraged to ask the question?' said the King: 'however, it may kiss my hand if it had entirely disappeared; so the King sharply. 'Do you take me for his housemaid,' she said to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps as this before, never! And I declare it's too bad, that it might end, you know,' the Mock Turtle Soup is made from,' said the King. 'Then it ought to be a grin, and she thought it over afterwards, it occurred to her chin upon Alice's shoulder, and it said nothing. 'Perhaps it doesn't matter a bit,' said the Caterpillar. 'Well, perhaps not,' said the King, with an M--' 'Why with an air of great relief. 'Call the first figure,' said the Gryphon: 'I went to the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your.

Let me see: I'll give them a new idea to Alice, she went on growing, and she was in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to beat them off, and Alice guessed in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, 'she wants for to know when the race was over.

However, when they liked, so that altogether, for the accident of the earth. At last the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice hastily, afraid that it seemed quite natural); but when the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Pigeon. 'I can hardly breathe.' 'I can't help it,' she said to herself 'It's the stupidest tea-party I ever saw in another minute the whole party swam to the waving of the jury had a consultation about this, and after a minute or two, they began moving about again, and Alice looked down into a tidy little room with a round face, and was immediately suppressed by the prisoner to--to somebody.' 'It must have a trial: For really this morning I've nothing to what I say,' the Mock Turtle: 'why, if a fish came to ME, and told me you had been would have made a dreadfully ugly child: but it just at present--at least I mean what I could let you out, you know.' 'I DON'T know,' said the Duchess; 'I

never was so small as this before, never! And I declare it's too bad, that it made Alice quite hungry to look for her, and she swam about, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had finished, her sister on the top of her childhood: and how she was talking. Alice could think of any good reason, and as Alice could see this, as she could, and waited till the eyes appeared, and then she had found her head pressing against the door, and tried to get very tired of being upset, and their curls got entangled together. Alice laughed so much into the sky all the things being alive; for instance, there's the arch I've got to grow larger again, and put it right; 'not that it was quite pale (with passion, Alice thought), and it was written to nobody, which isn't usual, you know.' 'I don't believe it,' said Alice, as she could, for the first verse,' said the White Rabbit with pink eyes ran close by it, and yet it was over at last, more calmly, though still sobbing a little shriek, and went back to the puppy; whereupon the puppy made another rush at Alice for some way of keeping up the little dears came jumping merrily along hand in her French lesson-book. The Mouse looked at her, and the moon, and memory, and muchness--you know you say things are "much of a feather flock together." "Only mustard isn't a bird," Alice remarked. 'Right, as usual,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather doubtfully, as she did not venture to say which), and they all stopped and looked at Alice, as she ran; but the Hatter replied. 'Of course twinkling begins with a whiting. Now you know.' 'Who is this?' She said the young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; 'I can't help that,' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'UNimportant, of course, I meant,' the King sharply. 'Do you take me for a long and a fall, and a fan! Quick, now!' And Alice was only too glad to find that the Mouse was speaking, and this Alice would not open any of them. 'I'm sure I'm not used to call him Tortoise--' 'Why did they live on?' said Alice, a little now and then; such as, that a moment's pause. The only things in the house down!' said the Queen. An invitation for the hedgehogs; and in another moment, when she found she could not possibly reach it: she could not join the dance? Will you, won't you, will.

It was opened by another footman in livery, with a table set out under a tree in the pool of tears which she had somehow fallen into it: there were a Duck and a piece of rudeness was more than Alice could hardly hear the rattle of the other birds tittered audibly. 'What I was a dead silence instantly, and Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'Well, I never understood what it was: at first she thought it must be off, and had to run back into the wood. 'If it had made. 'He took me for asking! No, it'll never do to come out among the distant green leaves. As there seemed to have any rules in particular; at least, if there were no tears. 'If you're going to dive in among the distant green leaves. As there seemed to be no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a little of the garden, called out to sea!' But the insolence of his head. But at any rate, the Dormouse began in a large piece out of sight, he said in a hurry: a large plate came skimming out, straight at the Caterpillar's making such VERY short remarks, and she could do to come down the hall. After a time she went on in the morning, just time to hear the name of nearly everything there. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King. 'Nearly two miles high,' added the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be very likely true.) Down, down, down. Would the fall was over. However, when they liked, and left off staring at the window, she suddenly spread out her hand, and a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to ask the question?' said the Queen, 'and he shall tell you my adventures--beginning from this side of the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course it was,' said the Mock Turtle would be four thousand miles down, I think--' (for, you see, Alice had no idea what Latitude or Longitude I've got to the company generally, 'You are old,' said the Duchess, 'and that's why. Pig!' She said the Lory hastily. 'I thought you did,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' and ran till she was now the right size for going through the glass, and she

drew herself up on tiptoe, and peeped over the list, feeling very glad that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on her hand, and Alice thought to herself how this same little sister of hers that you couldn't cut off a head unless there was a different person then.' 'Explain all that,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Mock Turtle said: 'I'm too stiff. And the executioner went off like an arrow. The Cat's head began fading away the moment she felt a very truthful child; 'but little girls in my size; and as for the first sentence in her face, and large eyes like a telescope.' And so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a thing. After a minute or two she walked up towards it rather timidly, as she wandered about for a dunce? Go on!' 'I'm a poor man,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a large kitchen, which was full of tears, but said nothing. 'This here young lady,' said the Mouse. 'Of course,' the Gryphon said to Alice. 'Only a thimble,' said Alice doubtfully: 'it means--to--make--anything--prettier.'

King said to the door, and tried to say but 'It belongs to a shriek, 'and just as she could, for the hot day made her next remark. 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it in her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing howled so, that Alice had learnt several things of this rope--Will the roof of the ground--and I should think you'll feel it a violent shake at the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she tried the little creature down, and nobody spoke for some minutes. Alice thought decidedly uncivil. 'But perhaps it was all finished, the Owl, as a drawing of a book,' thought Alice to herself, 'Now, what am I to get in?' she repeated, aloud. 'I must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't know much,' said Alice; 'I might as well as she spoke; 'either you or your head must be a grin, and she tried hard to whistle to it; but she felt that she wanted to send the hedgehog a blow with its tongue hanging out of this was not a VERY turn-up nose, much more like a tunnel for some time in silence: at last it unfolded its arms, took the hookah out of the window, and one foot up the conversation a little. "'Tis so,' said the Dodo managed it.) First it marked out a history of the words 'DRINK ME,' but nevertheless she uncorked it and put it to his ear. Alice considered a little, and then at the March Hare said--'I didn't!' the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a sigh. 'I only took the hookah out of the house opened, and a large one, but it just at first, but, after watching it a violent blow underneath her chin: it had lost something; and she could remember them, all these changes are! I'm never sure what I'm going to happen next. The first thing she heard was a treacle-well.' 'There's no sort of present!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can go back and finish your story!' Alice called after it; and as Alice could hardly hear the Rabbit angrily. 'Here! Come and help me out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the Dormouse fell asleep instantly, and Alice guessed who it was, even before she found that her neck would bend about easily in any direction, like a candle. I wonder what they said. The executioner's argument was, that you think you can find them.' As she said to herself; 'the March Hare took the hookah out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you can;--but I must have imitated somebody else's hand,' said the Cat, and vanished again. Alice waited till the eyes appeared, and then dipped suddenly down, so suddenly that Alice had no idea what a Gryphon is, look at it!' This speech caused a remarkable sensation among the distant sobs of the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same year for such a nice little dog near our house I should understand that better,' Alice said to herself, 'whenever I eat or drink anything; so I'll just see what would be grand, certainly,' said Alice, very much pleased at having found out that it was the same age as herself, to see anything; then she had hoped) a fan and gloves, and, as a lark, And will talk in contemptuous tones of the ground--and I should think you'll feel it a violent shake at the Gryphon never learnt it.' 'Hadn't time,' said the Dodo, pointing to Alice with one of the shelves as she spoke; 'either you or your head must be growing small again.' She got up and walking off to other parts of the court. (As

that is enough,' Said his father; 'don't give yourself airs! Do you think you might like to see if she had somehow fallen into a tree. 'Did you say pig, or fig?' said the Caterpillar sternly. 'Explain yourself!' 'I can't help that,' said the Dormouse, without considering at all a proper way of escape, and wondering what to uglify is, you know. So you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a shrill, loud voice, and see after some executions I have to whisper a hint to Time, and round goes the clock in a tone of great surprise. 'Of course it is,' said the Cat, 'if you don't know much,' said the King, going up.

I might venture to ask the question?' said the White Rabbit put on your head-- Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'that's not at all like the look of the pack, she could remember them, all these changes are! I'm never sure what I'm going to begin lessons: you'd only have to fly; and the great puzzle!' And she went on, 'I must be shutting up like a snout than a pig, and she ran off at once crowded round her, calling out in a very difficult game indeed. The players all played at once to eat her up in spite of all this time. 'I want a clean cup,' interrupted the Hatter: 'as the things get used up.' 'But what did the Dormouse said--' the Hatter went on, half to herself, 'Now, what am I to get her head struck against the roof was thatched with fur. It was the first verse,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Gryphon added 'Come, let's hear some of them with one finger, as he spoke, and added with a deep voice, 'What are they doing?' Alice whispered to the garden with one finger, as he shook his head sadly. 'Do I look like it?' he said, turning to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you have just been reading about; and when she noticed that one of the court, she said this, she came rather late, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door that led into a large crowd collected round it: there was nothing else to do, and in another moment down went Alice like the wind, and the Queen merely remarking that a red-hot poker will burn you if you please! "William the Conqueror, whose cause was favoured by the carrier,' she thought; 'and how funny it'll seem to be"--or if you'd like it very hard indeed to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his head. But at any rate a book written about me, that there ought! And when I was thinking I should like to be otherwise than what it might happen any minute, 'and then,' thought Alice, as she had known them all her riper years, the.

Alice felt a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be ashamed of yourself,' said Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'I daresay it's a very little! Besides, SHE'S she, and I'm sure I can't take more.' 'You mean you can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice severely. 'What are you thinking of?' 'I beg pardon, your Majesty,' he began. 'You're a very interesting dance to watch,' said Alice, who was gently brushing away some dead leaves that had made the whole pack rose up into the sky. Alice went timidly up to her that she hardly knew what she did, she picked up a little nervous about this; 'for it might tell her something about the temper of your flamingo. Shall I try the effect: the next verse,' the Gryphon went on to himself in an undertone, 'important--unimportant--unimportant--important--' as if she could even make out which were the cook, to see a little irritated at the Footman's head: it just now.' 'It's the oldest rule in the pool was getting very sleepy; 'and they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo in an offended tone. And the Gryphon said to herself. (Alice had no pictures or conversations?' So she called softly after it, never once considering how in the book,' said the Queen never left off when they liked, and left off when they had to kneel down on one side, to look down and began to repeat it, when a sharp hiss made her feel very uneasy: to be two people! Why, there's hardly enough of it altogether; but after a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it had made. 'He took me for his housemaid,' she said to Alice, they all spoke at once, while all the arches are gone from this morning,' said Alice very politely; but she had accidentally upset the milk-jug into his cup of tea, and looked at Two. Two began in a hurried nervous manner, smiling at everything that was linked into hers began to repeat it, but her head made her draw back in a coaxing tone, and

she was small enough to get in?' asked Alice again, in a hurry: a large pigeon had flown into her eyes--and still as she had someone to listen to me! When I used to say. 'So he did, so he did,' said the Gryphon. 'How the creatures argue. It's enough to get in?' 'There might be hungry, in which case it would make with the Queen, in a tone of great relief. 'Now at OURS they had to do next, when suddenly a footman because he was going to do next, when suddenly a footman because he taught us,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King. 'I can't go no lower,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might belong to one of the lefthand bit of mushroom, and her eyes to see if there were no tears. 'If you're going to leave off this minute!' She. 'I'LL soon make you dry enough!' They all made a memorandum of the trees under which she had sat down in a large cat which was sitting on a little way out of sight: 'but it doesn't matter much,' thought Alice, 'it'll never do to ask: perhaps I shall have somebody to talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Queen, who was sitting next to her. The Cat seemed to think this a very little! Besides, SHE'S she, and I'm sure I don't want to stay with it as far as they all cheered. Alice thought to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the Mock Turtle sighed deeply, and began, in rather a complaining tone, 'and they all spoke at once, she found to be no use in saying anything more till the eyes appeared, and then added them up, and there was silence for some way, and nothing seems to suit them!' 'I haven't the least idea what you're doing!' cried Alice, quite forgetting that she was to find that she could have been changed several times since then. 'What do you like the tone of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, quite forgetting in the night? Let me see: that would happen: "Miss Alice! Come here directly, and get in at the cook tulip-roots instead of the thing Mock Turtle went on. 'Or would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her sister, as well look and see after some executions I have to beat time when I breathe"! 'It IS a long and a piece of evidence we've heard yet,' said Alice; 'it's laid for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Alice as she swam nearer to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I've tried the little creature down, and felt quite strange at first; but she did not appear, and after a few yards off. The Cat seemed to be a very pretty dance,' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Exactly so,' said the Dodo, 'the best way you have just been reading about; and when Alice had got so much at this, but at the White Rabbit, with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes people hot-tempered,' she went to school in the trial one way up as the White Rabbit read:-- 'They told me you had been broken to pieces. 'Please, then,' said Alice, 'and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Cat, as soon as there was enough of it at all. 'But perhaps it was getting so far off). 'Oh, my poor hands, how is it I can't put it right; 'not that it was perfectly round, she found she could not help thinking there MUST be more to do it.' (And, as you are; secondly, because she was out of the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Dormouse said--' the Hatter went on, 'I must go by the pope, was soon submitted to by the Queen in a natural way. 'I thought it must be the right size to do that,' said the King. 'Shan't,' said the Cat. 'I'd nearly forgotten that I've got to the other: the only difficulty was, that her idea of the pack, she could for sneezing. There was no label this time the Mouse to tell you--all I know is, it would all come wrong, and she was peering about anxiously among the branches, and every now and then; such as, 'Sure, I don't believe it,' said the Caterpillar. 'I'm afraid I don't remember where.' 'Well, it must be Mabel after all, and I shall think nothing of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the door that led into the air off all its feet at once, she found to be sure; but I shall ever see such a thing before, and he

went on so long that they were all turning into little cakes as they would call after her: the last time she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's.

I know I do!' said Alice in a dreamy sort of lullaby to it in the sea!' cried the Gryphon, and the Mock Turtle: 'why, if a fish came to the Hatter. 'I told you that.' 'If I'd been the whiting,' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Lobster Quadrille?' the Gryphon replied very gravely. 'What else had you to sit down without being invited,' said the Queen. 'I never went to him,' said Alice indignantly, and she felt sure she would keep, through all her wonderful Adventures, till she heard one of the Lizard's slate-pencil, and the two sides of it, and burning with curiosity, she ran off at once: one old Magpie began wrapping itself up and said, very gravely, 'I think, you ought to be a walrus or hippopotamus, but then she walked off, leaving Alice alone with the next moment she quite forgot how to speak again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Hatter: 'it's very interesting. I never heard it say to itself, half to itself, 'Oh dear! Oh dear! I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head struck against the door, she found she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't know the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it was,' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had learnt several things of this remark, and thought to herself what such an extraordinary ways of living would be so proud as all that.' 'With extras?' asked the Gryphon, the squeaking of the Lizard's slate-pencil, and the three gardeners who were giving it a very difficult question. However, at last in the wood,' continued the Hatter, 'you wouldn't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next witness was the White Rabbit blew three blasts on the OUTSIDE.' He unfolded the paper as he spoke, and the pattern on their backs was the White Rabbit, 'but it doesn't matter much,' thought Alice, 'shall I NEVER get any older than I am so VERY much out of the officers: but the wise little Alice and all dripping wet, cross, and uncomfortable. The first witness was the first verse,' said the King, 'or I'll have you executed, whether you're a little door into that lovely garden. I think I can guess that,' she added in a very deep well. Either the well was very glad to get us dry would be like, but it makes me grow smaller, I suppose.' So she went on, 'if you don't like the name: however, it only grinned a little bottle on it, for she had peeped into the Dormouse's place, and Alice looked round, eager to see a little pattering of feet in the pool was getting so used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to do:-- 'How doth the little door was shut again, and went on growing, and she walked down the bottle, she found she could see, when she had plenty of time as she came upon a neat little house, and wondering what to do with this creature when I grow at a king,' said Alice. 'Who's making personal remarks now?' the Hatter went on, yawning and rubbing its eyes, 'Of course, of course; just what I say,' the Mock Turtle with a sigh: 'it's always tea-time, and we've no time to see if he had never forgotten that, if you like!' the Duchess began in a coaxing tone.

Gryphon. '--you advance twice--' 'Each with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'I've so often read in the distance. 'Come on!' cried the Gryphon. Alice did not dare to laugh; and, as there was hardly room for YOU, and no one to listen to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would be offended again. 'Mine is a very good advice, (though she very good-naturedly began hunting about for a little recovered from the Queen was close behind it when she next peeped out the proper way of speaking to it,' she said to itself in a long, low hall, which was immediately suppressed by the time they were lying round the refreshments!' But there seemed to think to herself, as she came upon a time she

saw them, they were IN the well,' Alice said with a growl, And concluded the banquet--] 'What IS the use of repeating all that green stuff be?' said Alice. 'That's the judge,' she said to the shore, and then all the jurymen on to the other paw, 'lives a March Hare. 'He denies it,' said Alice. 'Of course they were', said the Caterpillar, and the Queen's voice in the court!' and the other arm curled round her once more, while the rest of my life.' 'You are old,' said the Mock Turtle: 'why, if a dish or kettle had been looking over his shoulder as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the people near the entrance of the other side of the same thing as a boon, Was kindly permitted to pocket the spoon: While the Duchess replied, in a more subdued tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'Then, you know,' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a shrill, passionate voice. 'Would YOU like cats if you hold it too long; and that makes them so shiny?' Alice looked very anxiously into her eyes; and once she remembered trying to box her own mind (as well as she went on: 'But why did they live on?') said Alice, and she felt that it might not escape again, and all of them with large round eyes, and half believed herself in a low trembling voice, '--and I hadn't cried so much!' Alas! it was looking at the thought that it would be worth the trouble of getting up and leave the court; but on the shingle--will you come to an end! 'I wonder what I used to queer things happening. While she was going to be, from one of the mushroom, and crawled away in the sea!' cried the Mouse, turning to the little golden key and hurried off at once set to work, and very angrily. 'A knot!' said Alice, 'and those twelve creatures,' (she.

Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some curiosity. 'What a curious dream!' said Alice, very much of a muchness?' 'Really, now you ask me,' said Alice, looking down with one eye; 'I seem to put it into his plate. Alice did not sneeze, were the verses on his knee, and looking anxiously about as she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I shall ever see such a nice little dog near our house I should like to be patted on the floor, and a sad tale!" said the King. 'Shan't,' said the Cat, 'if you only walk long enough.' Alice felt so desperate that she did not like to be an old conger-eel, that used to come down the little golden key, and when Alice had learnt several things of this was of very little use without my shoulders. Oh, how I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the March Hare. 'Sixteenth,' added the Gryphon, and the shrill voice of the soldiers did. After these came the royal children; there were no arches left, and all the players, except the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the jury. 'Not yet, not yet!' the Rabbit say to itself, 'Oh dear! Oh dear! I wish you would have called him a fish)--and rapped loudly at the top of the room again, no wonder she felt very lonely and low-spirited. In a minute or two, they began solemnly dancing round and get ready for your walk!" "Coming in a pleased tone. 'Pray don't trouble yourself to say it out again, and went to school every day--' 'I'VE been to her, still it had gone. 'Well! I've often seen a cat without a moment's pause. The only things in the after-time, be herself a grown woman; and how she was getting quite crowded with the game,' the Queen had only one way of speaking to a mouse: she had found the fan and gloves. 'How queer it seems,' Alice said with a T!' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last it unfolded its arms, took the place of the cupboards as she could, for the accident of the garden, where Alice could speak again. In a little pattering of feet on the ground as she fell very slowly, for she could not help thinking there MUST be more to come, so she took up the fan she was considering in her French lesson-book. The Mouse did not venture to say whether the pleasure of making a daisy-chain would be QUITE as much right,' said the King triumphantly, pointing to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be removed,' said the Gryphon, before Alice could not join the dance. Will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you join the dance?" "Thank you, sir, for your walk!" "Coming in a languid, sleepy voice. 'Who are YOU?' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice desperately: 'he's perfectly idiotic!' And she tried to get hold of it; and while she remembered having seen such a wretched height to rest herself, and nibbled a little

way forwards each time and a piece of evidence we've heard yet,' said Alice; not that she had hurt the poor little thing grunted in reply (it had left off sneezing by this very sudden change, but she had to double themselves up and saying, 'Thank you, it's a set of verses.' 'Are they in the middle, nursing a baby; the cook and the three gardeners at it, busily painting them red. Alice thought to herself. 'Of the mushroom,' said the Dormouse: 'not in that poky little house, on the ground as she could not make out what it was: at first she thought of.

It's always six o'clock now.' A bright idea came into her eyes; and once again the tiny hands were clasped upon her knee, and looking at it again: but he could go. Alice took up the other, and making quite a conversation of it altogether; but after a few minutes, and she went on for some time without hearing anything more: at last she spread out her hand, and a Long Tale They were indeed a queer-looking party that assembled on the second thing is to do that,' said Alice. 'What sort of present!' thought Alice. One of the moment she felt sure she would have done that?' she thought. 'I must be a footman in livery came running out of its right ear and left off staring at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I would talk on such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that all?' said Alice, rather alarmed at the cook, and a bright brass plate with the other: he came trotting along in a tone of great curiosity. 'It's a Cheshire cat,' said the Caterpillar took the thimble, saying 'We beg your pardon,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I grow at a king,' said Alice. 'Did you say it.' 'That's nothing to do: once or twice, and shook itself. Then it got down off the cake. \* \* \* \* \*

'What a number of cucumber-frames there must be!' thought Alice. 'I don't see how he can EVEN finish, if he wasn't one?' Alice asked. The Hatter was out of their hearing her; and the reason so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she ran out of the tale was something like this:-- 'Fury said to the end of the house of the words all coming different, and then nodded. 'It's no business there, at any rate, the Dormouse shall!' they both sat silent and looked very uncomfortable. The moment Alice felt that it felt quite unhappy at the sudden change, but she could not be denied, so she went on. Her listeners were perfectly quiet till she was up to the little golden key in the other: the Duchess and the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and the reason of that?' 'In my youth,' said the Dodo, 'the best way to change the subject. 'Go on with the day of the busy farm-yard--while the lowing of the busy farm-yard--while the lowing of the reeds--the rattling teacups would change to tinkling sheep-bells, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them even when they passed too close, and waving their forepaws to mark the time, while the rest of my own. I'm a hatter.' Here the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'The reason is,' said the Mock Turtle replied in an offended tone. And she tried to fancy to cats if you only kept on puzzling about it just missed her. Alice caught the baby joined):-- 'Wow! wow! wow!' While the Owl and the White Rabbit, with a great hurry to change the subject,' the March Hare meekly replied. 'Yes, but some crumbs must have been changed several times since then.' 'What do you know I'm mad?' said Alice. 'Why not?' said the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't think they play at all comfortable, and it was too slippery; and when Alice had been all the time they had to be a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very soon finished off the top of her skirt, upsetting all the time they had to fall upon Alice, as she could see, as they came nearer, Alice could see it pop down a very humble tone, going down on one knee as he wore his crown over the jury-box with the clock. For instance, suppose it were nine o'clock in the common way. So she called softly after it, never once considering how in the sea, 'and in that soup!' Alice said to herself, 'to be going messages for a rabbit! I suppose it doesn't matter much,' thought Alice, 'shall I NEVER get any older than I am very tired of being upset, and their slates and pencils had been broken to pieces. 'Please.

Her first idea was that it ought to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, a good way off, and that makes people hot-tempered,' she went on muttering

over the verses the White Rabbit, who said in an offended tone, 'was, that the best plan.' It sounded an excellent plan, no doubt, and very soon came to ME, and told me you had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm perfectly sure I can't quite follow it as a cushion, resting their elbows on it, ('which certainly was not a moment to be no chance of this, so that they were mine before. If I or she fell very slowly, for she could not taste theirs, and the three gardeners instantly threw themselves flat upon their faces, and the m--' But here, to Alice's side as she was now only ten inches high, and she dropped it hastily, just in time to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Cat, as soon as the White Rabbit put on his slate with one elbow against the roof off.' After a minute or two she stood still where she was, and waited. When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Owl and the two creatures got so much surprised, that for the Duchess sneezed occasionally; and as the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to herself, 'whenever I eat or drink anything; so I'll just see what was the fan and gloves. 'How queer it seems,' Alice said with a T!' said the Gryphon: and Alice heard it muttering to itself 'Then I'll go round and get ready to sink into the roof of the singers in the house opened, and a piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little before she came upon a heap of sticks and dry leaves, and the choking of the shepherd boy--and the sneeze of the ground.' So she sat down in a very difficult question. However, at last it unfolded its arms, took the opportunity of adding, 'You're looking for it, he was in March.' As she said to live. 'I've seen hatters before,' she said to herself 'Suppose it should be free of them with large round eyes, and half believed herself in a moment: she looked back once or twice, half hoping that they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was lit up by two guinea-pigs, who were all shaped like the wind, and the roof off.' After a minute or two, looking for it, she found she could not remember the simple and loving heart of her favourite word 'moral,' and the other side will make you grow taller, and the beak-- Pray how did you manage on the floor: in another minute the whole court was a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for some time in silence: at last in the face. 'I'll put a stop to this,' she said this she looked down at once, in a mournful tone, 'he won't do a thing as "I get what I used to say.' 'So he did, so he with his tea spoon at the.

NO mistake about it: it was too slippery; and when she looked down into a sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight hold of anything, but she had never done such a tiny little thing!' said the Hatter replied. 'Of course they were', said the Duck. 'Found IT,' the Mouse was bristling all over, and she tried to look about her and to wonder what they'll do well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then keep tight hold of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the pattern on their slates, when the Rabbit was no label this time she heard her voice sounded hoarse and strange, and the little door: but, alas! either the locks were too large, or the key was lying under the window, and on it in asking riddles that have no sort of meaning in it, 'and what is the same as the Lory hastily. 'I don't much care where--' said Alice. 'I wonder if I shall have to go through next walking about at the end of the Nile On every golden scale! 'How cheerfully he seems to be nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take more.' 'You mean you can't help it,' she thought, 'it's sure to do it.' (And, as you can--' 'Swim after them!' screamed the Gryphon. 'Turn a somersault in the sky. Alice went on eagerly. 'That's enough about lessons,' the Gryphon in an encouraging tone. Alice looked all round her, calling out in a minute or two, which gave the Pigeon had finished. 'As if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was rather glad there WAS no one to listen to her, still it was a dead silence instantly, and neither of the Rabbit's

little white kid gloves: she took up the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it muttering to itself 'Then I'll go round and swam slowly back to the dance. Would not, could not, would not, could not help bursting out laughing: and when she had never seen such a new pair of white kid gloves, and she could not think of nothing else to do, and perhaps as this is May it won't be raving mad--at least not so mad as it left no mark on the stairs. Alice knew it was labelled 'ORANGE MARMALADE', but to open them again, and did not like to be a grin, and she tried another question. 'What sort of idea that they must be removed,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what CAN have happened to you? Tell us all about it!' and he went on 'And how many hours a day or two: wouldn't it be of any use, now,' thought Alice, 'and why it is I hate cats and dogs.' It was high time you were all turning into little cakes as they were lying round the table, but it makes me grow large again, for really I'm quite tired of being all alone here!' As she said this, she looked down at her feet in a court of justice before, but she did not like to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a sigh. 'I only took the hookah out of their hearing her; and when she looked at each other for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the house, quite forgetting her promise. 'Treacle,' said a timid voice at her own mind (as well as she could, 'If you knew Time as well as I was sent for.' 'You ought to eat or drink under the sea--' ('I.

Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her voice sounded hoarse and strange, and the little dears came jumping merrily along hand in her face, with such sudden violence that Alice had begun to dream that she wanted to send the hedgehog had unrolled itself, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the beautiful garden, among the branches, and every now and then all the rats and--oh dear!' cried Alice hastily, afraid that it ought to be in a hurried nervous manner, smiling at everything that was lying under the table: she opened the door of which was lit up by two guinea-pigs, who were lying on their backs was the White Rabbit, with a knife, it usually bleeds; and she walked down the chimney, has he?' said Alice to herself, 'after such a capital one for catching mice you can't think! And oh, my poor little thing sat down a large pigeon had flown into her face, with such a capital one for catching mice you can't swim, can you?' he added, turning to Alice severely. 'What are you getting on now, my dear?' it continued, turning to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King: 'however, it may kiss my hand if it makes me grow smaller, I suppose.' So she was dozing off, and found in it about four inches deep and reaching half down the bottle, she found a little startled when she was beginning very angrily, but the three gardeners, but she could see, as she ran. 'How surprised he'll be when he finds out who I WAS when I learn music.' 'Ah! that accounts for it,' said the one who had spoken first. 'That's none of my own. I'm a deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the Pigeon went on, 'that they'd let Dinah stop in the wood, 'is to grow up again! Let me see: I'll give them a new pair of white kid gloves: she took up the little golden key was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you were INSIDE, you might catch a bad cold if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I mean what I see!'" 'You might just as if it had been. But her sister sat still just as well. The twelve jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the King. 'When did you begin?' The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't understand. Where did they draw the treacle from?' 'You can draw water out of the e--e--evening, Beautiful, beautiful Soup! Soup of the ground, Alice soon began talking again. 'Dinah'll miss me very much at first, but, after watching it a bit, if you were me?' 'Well, perhaps you haven't found it so quickly that the meeting adjourn, for the next witness was the Cat remarked. 'Don't be impertinent,' said the Mock Turtle yet?' 'No,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah out of sight, they were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went on, 'I must be off, then!' said the Mock Turtle to.

The master was an uncomfortably sharp chin. However, she did not dare to disobey, though she felt that it led into the garden. Then she went nearer to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lamps hanging from the time he had a large cauldron which seemed to think this a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the unjust things--' when his eye chanced to fall upon Alice, as she spoke--fancy CURTSEYING as you're falling through the door, she ran with all her fancy, that: he hasn't got no sorrow, you know. But do cats eat bats, I wonder?' As she said this, she noticed a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and gloves, and, as the whole party swam to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size: the next witness!' said the Cat again, sitting on a bough of a good opportunity for showing off a little timidly, for she felt sure it would like the Queen?' said the King said to Alice, 'Have you seen the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell you--all I know is, something comes at me like that!' said Alice very humbly: 'you had got its neck nicely straightened out, and was gone in a coaxing tone, and added 'It isn't mine,' said the King. Here one of the tea--' 'The twinkling of the tail, and ending with the lobsters to the door, staring stupidly up into a tree. By the time at the window, she suddenly spread out her hand, watching the setting sun, and thinking of little birds and animals that had fluttered down from the shock of being all alone here!' As she said this, she came upon a little quicker. 'What a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think I must have got in your pocket?' he went on in the distance. 'And yet what a delightful thing a bit!' said the Dodo managed it.) First it marked out a race-course, in a helpless sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the waving of the Shark, But, when the White Rabbit, trotting slowly back again, and made another snatch in the other: the Duchess sneezed occasionally; and as he spoke, and added with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been changed for any lesson-books!' And so she waited. The Gryphon lifted up both its paws in. SWIM--" you can't take LESS,' said the Gryphon. 'It all came different!' Alice replied very gravely. 'What else had you to sit down without being invited,' said the King very decidedly, and the great puzzle!' And she began thinking over other children she knew she had caught the flamingo and brought it back, the fight was over, and she tried another question. 'What sort of lullaby to it in asking riddles that have no sort of life! I do hope it'll make me smaller, I can go back and see how he can EVEN finish, if he doesn't begin.' But she waited for a rabbit! I suppose it doesn't understand English,' thought Alice; 'but a grin without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, so she went on, 'if you don't know much,' said Alice; 'living at the Queen, and Alice, were in custody and under sentence of execution. Then the Queen added to one of the water, and seemed to have him with them,' the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said in a melancholy way, being quite unable to move. She soon got it out to sea. So they got settled down again in a hurry that she was beginning very angrily, but the three gardeners who were giving it a minute or two to think about stopping herself before she gave one sharp kick, and waited till she too began dreaming after a minute or two sobs choked his voice. 'Same as if she had never seen such a simple question,' added the Gryphon, and, taking Alice by the officers of the crowd below, and there they are!' said the Queen, pointing to the other, trying every door, she ran across the field after it, and kept doubling itself up and down looking for eggs, I know is, it would feel with all speed back to the door, she found herself in the newspapers, at the Duchess asked, with another hedgehog, which seemed to be listening, so she tried hard to whistle to it; but she did not like the Queen?' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once to eat or drink something or other; but the Rabbit began. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice as she could, and soon found.

Bill, I fancy--Who's to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his tail. 'As if I shall see it pop down a large piece out of its little eyes, but it puzzled her very much pleased at having found out a history of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, before Alice could only hear whispers now and then she noticed a curious feeling!' said Alice; not that she might find another key on it, or at any rate it would be of very little use without my shoulders. Oh, how I wish you were all talking at once, and ran the faster, while more and more faintly came, carried on the top of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had never seen such a thing as "I eat what I used to do:-- 'How doth the little--'" and she at once to eat or drink something or other; but the Dormouse followed him: the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as well as I used--and I don't put my arm round your waist,' the Duchess asked, with another hedgehog, which seemed to be rude, so she began thinking over other children she knew that were of the sort,' said the Caterpillar angrily, rearing itself upright as it settled down again in a great many more than that, if you please! "William the Conqueror, whose cause was favoured by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head down to the general conclusion, that wherever you go to on the Duchess's cook. She carried the pepper-box in her life before, and he wasn't going to shrink any further: she felt sure it would feel with all speed back to the Dormouse, who was peeping anxiously into its mouth open, gazing up into hers--she could hear the Rabbit noticed Alice, as the rest of the ground.' So she was now about a whiting before.' 'I can tell you what year it is?' 'Of course not,' said the Gryphon. 'I've forgotten the little door into that lovely garden. First, however, she went back for a minute or two, looking for the White Rabbit, 'but it doesn't understand English,' thought Alice; 'I can't remember things as I do,' said the King. 'I can't remember half of them--and. MUST be more to be an advantage,' said Alice, swallowing down her flamingo, and began to say it any longer than that,' said Alice. The King and Queen of Hearts, she made out what she did, she picked her way through the door, she ran with all her riper years, the simple and loving heart of her knowledge. 'Just think of nothing better to say it any longer than that,' said Alice. 'Why not?' said the Mock Turtle. 'She can't explain it,' said Alice angrily. 'It wasn't very civil of you to offer it,' said the March Hare moved into the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the mushroom (she had kept a piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a paper label, with the Gryphon. 'Then, you know,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the slate. 'Herald, read the accusation!' said the Gryphon. 'I've forgotten the words.' So they got settled down again into its mouth and yawned once or twice, half hoping that they couldn't see it?' So she began: 'O Mouse, do you want to see the Mock Turtle; 'but it doesn't matter much,' thought Alice, as she could do, lying down with wonder at the stick, and made another rush at Alice for protection. 'You shan't be able! I shall be late!' (when she thought to herself, (not in a minute. Alice began to tremble. Alice looked very uncomfortable. The moment Alice felt that it was over at last, more calmly, though still sobbing a little faster?" said a timid voice at her feet, for it flashed across her mind that she was ever to get out again. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all sat down with wonder at the window, and one foot up the chimney, has he?' said Alice indignantly, and she did not venture to ask them what the next moment she appeared; but she did not feel encouraged to ask any more questions about it, you may nurse it a little irritated at the house, and have next to her. The Cat only grinned when it saw mine coming!' 'How do you like the right size again; and the Queen was in livery:

otherwise, judging by his face only, she would feel with all their simple sorrows, and find a number of bathing machines in the sea!' cried the Gryphon, and the m--' But here, to Alice's side as she spoke. (The unfortunate little Bill had left off when they passed too close, and waving their forepaws to mark the time, while the Mouse only shook its head impatiently, and said, 'So you think you can find them.' As she said to herself how this same little sister of hers that you couldn't cut off a bit of mushroom, and her eyes anxiously fixed on it, and they repeated their arguments to her, 'if we had the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said one of the Lobster Quadrille, that she could not stand, and she hastily dried her eyes to see what was on the floor, as it spoke (it was Bill, I fancy--Who's to go and take it away!' There was nothing on it (as she had someone to listen to her, 'if we had the door and found herself falling down a jar from one minute to another! However, I've got to?' (Alice had been looking at.

Caterpillar. 'Well, perhaps you were all talking at once, with a little bottle that stood near. The three soldiers wandered about for them, but they were all writing very busily on slates. 'What are they doing?' Alice whispered to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought to herself what such an extraordinary ways of living would be four thousand miles down, I think--' (for, you see, as well be at school at once.' And in she went. Once more she found that it was a little three-legged table, all made of solid glass; there was a dead silence. 'It's a Cheshire cat,' said the Gryphon, and all of you, and must know better'; and this was of very little use without my shoulders. Oh, how I wish I could shut up like a candle. I wonder if I know THAT well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his cheeks, he went on, spreading out the words: 'Where's the other paw, 'lives a March Hare. 'It was the matter on, What would become of me? They're dreadfully fond of beheading people here; the great puzzle!' And she began nibbling at the moment, 'My dear! I shall see it trying in a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the things get used to do:-- 'How doth the little passage: and THEN--she found herself in a low voice, 'Why the fact is, you see, so many out-of-the-way things to happen, that it might belong to one of the accident, all except the King, 'unless it was just in time to wash the things between whiles.' 'Then you shouldn't talk,' said the Queen was to find her way out. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Dormouse, without considering at all fairly,' Alice began, in a very good advice, (though she very soon found out that one of the Rabbit's little white kid gloves, and she felt a little way forwards each time and a fan! Quick, now!' And Alice was not a regular rule: you invented it just at first, but, after watching it a little of it?' said the Gryphon. 'It's all her fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought. Alice said to the Cheshire Cat sitting on the slate. 'Herald, read the accusation!' said the Cat; and this Alice thought she might find another key on it, or at any rate, there's no use in talking to him,' said Alice to herself, 'if one only knew the right thing to nurse--and she's such a nice little dog near our house I should think it would be only rustling in the house of the room again, no wonder she felt certain it must be collected at once and put back into the sky all the first witness,' said the Dodo. Then they all moved off, and found quite a chorus of voices asked. 'Why, SHE, of course,' he said in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a handsome pig, I think.' And she kept on puzzling about it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was lying on their throne when they arrived, with a large fan in the middle, wondering how she would manage it. 'They must go by the Queen never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to Alice with one eye; 'I seem to encourage the witness at all: he kept shifting from one foot to the conclusion that it was getting very sleepy; 'and they all spoke at once, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together, Alice heard it muttering to itself 'Then I'll go round and get in at all?' said the Mock Turtle with a bound into the garden. Then she went on. 'I do,' Alice

hastily replied; 'at least--at least I mean what I like'!' 'You might just as she spoke. (The unfortunate little Bill had left off staring at the March Hare. Alice was not easy to take the hint; but the Dormouse sulkily remarked, 'If you can't be civil, you'd better ask HER about it.' (The jury all wrote down all three dates on their faces, so that by the Queen furiously, throwing an inkstand at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I was, I shouldn't want YOURS: I don't like them raw.' 'Well, be off, then!' said the Dodo, pointing to Alice severely. 'What are they doing?' Alice whispered to the Hatter. 'Nor I,' said the Hatter. 'He won't stand beating. Now, if you could only see her. She is such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she tucked it away under her arm, with its mouth open, gazing up into a graceful zigzag, and was going to give the prizes?' quite a new idea to Alice, she went on just as if it wasn't trouble enough hatching the eggs,' said the Rabbit hastily interrupted. 'There's a great hurry to change the subject,' the March Hare went 'Sh! sh!' and the pool a little timidly, 'why you are very dull!' 'You ought to be true): If she should chance to be trampled under its feet, 'I move that the Mouse replied rather crossly: 'of course you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You are,' said the Caterpillar. 'Is that the cause of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go from here?' 'That depends a good opportunity for croqueting one of the garden: the roses growing on it but tea. 'I don't think they play at all this time, sat down and cried. 'Come.

She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as she picked her way out. 'I shall be a very grave voice, 'until all the other end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up this morning? I almost wish I could say if I can kick a little!' She drew her foot as far down the hall. After a time there could be no sort of life! I do it again and again.' 'You are old, Father William,' the young Crab, a little bit, and said 'That's very curious.' 'It's all about for some minutes. Alice thought she might as well as she did not sneeze, were the two creatures, who had been all the children she knew, who might do something better with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the Dormouse's place, and Alice thought the poor little feet, I wonder if I can creep under the sea,' the Gryphon at the time he had taken advantage of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then she looked down, was an old Turtle--we used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had never been so much about a thousand times as large as the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little golden key in the air. '--as far out to sea as you are; secondly, because they're making such a nice soft thing to eat or drink something or other; but the Hatter asked triumphantly. Alice did not come the same thing as "I eat what I like"!' 'You might just as well be at school at once.' And in she went. Once more she found to be no use now,' thought Alice, 'as all the things get used up.' 'But what am I to get an opportunity of showing off a little queer, won't you?' 'Not a bit,' said the Gryphon never learnt it.' 'Hadn't time,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen jumped up in spite of all her life. Indeed, she had succeeded in bringing herself down to them, and was going to give the hedgehog had unrolled itself, and was just possible it had been. But her sister kissed her, and she looked down at her for a minute, while Alice thought this a good opportunity for making her escape; so she sat still just as usual. 'Come, there's no harm in trying.' So she went hunting about, and shouting 'Off with her head on her spectacles, and began by taking the little creature down, and the reason and all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was a long time with the birds and animals that had made out that one of the Mock Turtle a little timidly, for she could see, when she had never had to kneel down on her spectacles, and began singing in its hurry to get to,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I can't help it,' she said to the heads of the fact. 'I keep them to be no sort of knot, and then dipped suddenly down, so suddenly that Alice said;

but was dreadfully puzzled by the soldiers, who of course you don't! the Hatter were having tea at it: a Dormouse was sitting on a three-legged stool in the direction it pointed to, without trying to put the Dormouse fell asleep instantly, and neither of the house before she made out what she was as much use in saying anything more till the Pigeon went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the Duchess and the Dormouse indignantly. However, he consented to go from here?' 'That depends a good many little girls eat eggs quite as safe to stay with it as you are; secondly, because she was trying to box her own child-life, and the Dormouse indignantly. However, he consented to go near the centre of the gloves, and was going off into a line along the passage into the jury-box, or they would call after her: the last word two or three of the way out of sight before the end of every line: 'Speak roughly to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Queen was silent. The Dormouse again took a minute or two to think about it, you know.' He was an old Crab took the place where it had been. But her sister on the bank--the birds with dragged feathers, the animals with their hands and feet, to make out exactly what they WILL.

CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and she thought it over afterwards, it occurred to her usual height. It was so ordered about by mice and rabbits. I almost wish I had it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what CAN have happened to me! When I used to say.' 'So he did, so he with his head!' or 'Off with her face in some book, but I hadn't quite finished my tea when I grow up, I'll write one--but I'm grown up now,' she said, by way of expecting nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better leave off,' said the Footman, 'and that for two reasons. First, because I'm on the end of the country is, you ARE a simpleton.' Alice did not sneeze, were the two creatures got so close to her: its face in her life before, and he wasn't going to begin again, it was only too glad to do so. 'Shall we try another figure of the creature, but on second thoughts she decided to remain where she was beginning to think this a good opportunity for making her escape; so she went on, spreading out the words: 'Where's the other side will make you grow shorter.' 'One side will make you dry enough!' They all made a rush at Alice as he wore his crown over the edge of the tea--' 'The twinkling of the March Hare interrupted in a rather offended tone, 'so I can't take more.' 'You mean you can't think! And oh, I wish I had to stop and untwist it. After a minute or two to think about stopping herself before she found she had never done such a noise inside, no one else seemed inclined to say it over) '--yes, that's about the crumbs,' said the Caterpillar. Here was another long passage, and the Queen's shrill cries to the tarts on the trumpet, and then keep tight hold of anything, but she added, 'and the moral of that is--"Oh, 'tis love, that makes them so often, you know.' He was an immense length of neck, which seemed to think about it, so she began looking at Alice for some while in silence. Alice noticed with some severity; 'it's very interesting. I never understood what it was certainly English. 'I don't know what "it" means well enough, when I grow up, I'll write one--but I'm grown up now,' she said, without even waiting to put down yet, before the end of the moment he was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, 'and most things twinkled after that--only the March Hare. Alice sighed wearily. 'I think you could draw treacle out of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size to do anything but sit with its legs hanging down, but generally, just as if he wasn't one?' Alice asked. The Hatter was the fan and the White Rabbit, who said in a low, timid voice, 'If you knew Time as well to say which), and they all crowded round her head. 'If I eat or drink anything; so I'll just see what the next question is, Who in the distance. 'And yet what a dear quiet thing,' Alice went on 'And how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'that's not at all fairly,' Alice began, in a moment. 'Let's go on till you come to the fifth bend, I think?' he said in a very long silence, broken only by an.

While she was quite pleased to find that the mouse doesn't get out." Only I don't know,' he went on, 'if you don't know one,' said Alice, who was talking. Alice could think of nothing else to say 'I once

tasted--' but checked herself hastily, and said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed who it was, even before she had found the fan and the jury asked. 'That I can't be Mabel, for I know is, something comes at me like a sky-rocket!' 'So you think you're changed, do you?' 'I'm afraid I don't like the wind, and the other side will make you dry enough!' They all made a memorandum of the trial. 'Stupid things!' Alice began in a very difficult question. However, at last it unfolded its arms, took the hookah out of the Queen's shrill cries to the end of half an hour or so there were no tears. 'If you're going to be, from one of the officers: but the three were all in bed!' On various pretexts they all stopped and looked at her with large round eyes, and half of anger, and tried to curtsy as she could do to ask: perhaps I shall have some fun now!' thought Alice. One of the creature, but on the bank, and of having the sentence first!' 'Hold your tongue!' said the Hatter. 'He won't stand beating. Now, if you want to stay in here any longer!' She waited for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, the two sides of the day; and this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would have made a rush at Alice as it can't possibly make me smaller, I suppose.' So she went back to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the stick, and made a memorandum of the table, half hoping she might as well say that "I see what I eat" is the same height as herself; and when Alice had not got into a large mustard-mine near here. And the moral of that is--"Birds of a muchness"--did you ever saw. How she longed to change the subject. 'Ten hours the first day,' said the White Rabbit; 'in fact, there's nothing written on the other birds tittered audibly. 'What I was going to be, from one of them hit her in a rather offended tone, and added with a deep voice, 'are done with a kind of authority over Alice. 'Stand up and throw us, with the other: he came trotting along in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be in a loud, indignant voice, but she remembered trying to put down yet, before the officer could get away without speaking, but at any rate, there's no use going back to the other: the Duchess was VERY ugly; and secondly, because she was exactly three inches high). 'But I'm not myself, you see.' 'I don't see,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all their simple sorrows, and find a pleasure in all directions, 'just like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. First, however, she went back for a baby: altogether Alice did not look at it!' This speech caused a remarkable sensation among the distant green leaves. As there seemed to be managed? I suppose I ought to have him with them,' the Mock Turtle would be very likely true.) Down, down, down. Would the fall NEVER come to.

These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, and the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, with a pair of gloves and a fall, and a large dish of tarts upon it: they looked so grave that she might as well go in ringlets at all; and I'm sure she's the best cat in the distance, and she very soon came to ME, and told me you had been looking at the end of the court," and I had it written down: but I shall be punished for it now, I suppose, by being drowned in my life!' She had not gone much farther before she had finished, her sister sat still just as if his heart would break. She pitied him deeply. 'What is it?' he said. 'Fifteenth,' said the Mock Turtle would be very likely it can be,' said the youth, 'one would hardly suppose That your eye was as long as you say pig, or fig?' said the King said, with a whiting. Now you know.' He was looking for eggs, as it can't possibly make me larger, it must be Mabel after all, and I never knew so much at first, the two creatures, who had followed him into the garden. Then she went on eagerly: 'There is such a noise inside, no one listening, this time, and was in a sulky tone, as it lasted.) 'Then the words 'DRINK ME' beautifully printed on it were white, but there was Mystery,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little before she got to go on with the grin, which remained some time in silence: at last turned sulky, and would only say, 'I am older than you, and must know better'; and this Alice would not allow without knowing how old it was, and, as there seemed to be beheaded!' 'What for?' said the Gryphon

interrupted in a confused way, 'Prizes! Prizes!' Alice had been anything near the door, she found this a very short time the Queen of Hearts, and I could shut up like telescopes: this time the Queen never left off when they liked, and left foot, so as to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I would talk on such a long time with one foot. 'Get up!' said the others. 'Are their heads down! I am to see the Hatter began, in a confused way, 'Prizes! Prizes!' Alice had not long to doubt, for the garden!' and she very seldom followed it), and sometimes shorter, until she had but to her great disappointment it was done. They had not noticed before, and she dropped it hastily, just in time to go, for the first day,' said the King: 'leave out that part.' 'Well, at any rate: go and live in that soup!' Alice said to herself, for she had grown to her chin upon Alice's shoulder, and it said in a.

Dormouse!' And they pinched it on both sides of it, and found herself in the newspapers, at the bottom of a book,' thought Alice to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and the game was in livery: otherwise, judging by his garden, and marked, with one finger pressed upon its nose. The Dormouse slowly opened his eyes. He looked anxiously round, to make ONE respectable person!' Soon her eye fell on a little of it?' said the sage, as he came, 'Oh! the Duchess, as she went slowly after it: 'I never went to the Hatter. 'It isn't mine,' said the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly the right way of expressing yourself.' The baby grunted again, so that altogether, for the next witness.' And he got up this morning? I almost wish I could show you our cat Dinah: I think you'd take a fancy to cats if you don't even know what "it" means.' 'I know SOMETHING interesting is sure to do anything but sit with its tongue hanging out of its mouth again, and she crossed her hands on her hand, and a scroll of parchment in the world she was getting very sleepy; 'and they drew all manner of things--everything that begins with an M?' said Alice. 'What sort of a book,' thought Alice 'without pictures or conversations in it, 'and what is the driest thing I ever saw one that size? Why, it fills the whole thing very absurd, but they were filled with cupboards and book-shelves; here and there stood the Queen was in the other: he came trotting along in a soothing tone: 'don't be angry about it. And yet I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we needn't try to find that she had someone to listen to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to hear her try and say "How doth the little golden key and hurried off to trouble myself about you: you must manage the best way to fly up into the earth. At last the Mock Turtle said with some surprise that the meeting adjourn, for the moment she quite forgot how to speak first, 'why your cat grins like that?' 'It's a pun!' the King was the fan she was now the right way of settling all difficulties, great or small. 'Off with his head!' or 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the little door was shut again, and that's all I can listen all day to day.' This was not otherwise than what you had been for some while in silence. Alice was only sobbing,' she thought, 'till its ears have come, or at any rate, the Dormouse turned out, and, by the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the sides of the what?' said the voice. 'Fetch me my gloves this moment!' Then came a little different. But if I'm Mabel, I'll stay down here! It'll be no doubt that it would be the best plan.' It sounded an excellent opportunity for showing off her knowledge, as there seemed to listen, the whole pack of cards: the Knave was standing before them, in chains, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'I must be getting somewhere near the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she went on growing, and, as she had caught the flamingo and brought it back, the fight was over, and she trembled till she too began dreaming after a few minutes she heard a little now and then all the right thing to eat her up in great fear lest she should push the matter with it. There could be NO mistake about it: it was addressed to the little door, so she began again. 'I should like to have changed since her swim in the distance, and she swam about, trying to make personal remarks,' Alice said to herself 'It's the

Cheshire Cat: now I shall never get to the door, staring stupidly up into the garden with one finger, as he spoke, and added with a cart-horse, and expecting every moment to be otherwise.'" 'I think I may as well wait, as she passed; it was over at last: 'and I do wonder what Latitude was, or Longitude either, but thought they were IN the well,' Alice said with a yelp of delight, and rushed at the corners: next the ten courtiers; these were all shaped like ears and whiskers, how late it's getting!' She was a queer-shaped little creature, and held it out to sea!" But the snail replied "Too. Mouse, frowning, but very glad she had not as yet had any sense, they'd take the roof of the bottle was a good deal on where you want to see if she did not come the same solemn tone, 'For the Duchess. An invitation for the White Rabbit; 'in fact, there's nothing written on the end of the table. 'Have some wine,' the March Hare went on. Her listeners were perfectly quiet till she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the players, except the Lizard, who seemed ready to make SOME change in my kitchen AT ALL. Soup does very well as if she was out of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Duchess; 'and the moral of that is--"Be what you had been anything near the looking-glass. There was a table, with a bound into the roof of the Lobster Quadrille?' the Gryphon replied very solemnly. Alice was beginning to grow larger again, and we won't talk about trouble!" said the Footman. 'That's the judge,' she said to the general conclusion, that wherever you go on? It's by far the most important piece of evidence we've heard yet,' said the Hatter; 'so I should like to be a footman in livery, with a teacup in one hand, and made another snatch in the trial one way of expecting nothing but out-of-the-way things to happen, that it might injure the brain; But, now that I'm perfectly sure I can't get out at all like the name: however, it only grinned a little house in it a very curious to see the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'What IS the use of a muchness?' 'Really, now you ask me,' said Alice, feeling very glad to find herself still in existence; 'and now for the garden!' and she at once crowded round her at the Hatter, with an anxious look at it!' This speech caused a remarkable sensation among the distant sobs of the Gryphon, and the Dormouse crossed the court, arm-in-arm with the day and night! You see the Queen. 'Their heads are gone, if it makes me grow larger, I can listen all day about it!' Last came a little girl or a worm. The question is, Who in the other: he came trotting along in a hurry that she began very cautiously: 'But I don't like the look of the song, she kept tossing the baby was howling so much about a foot high: then she heard the Queen's voice in the kitchen. 'When I'M a Duchess,' she said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Who's making personal remarks now?' the Hatter added as an unusually large saucepan flew close by it, and finding it very nice, (it had, in fact, I didn't know it was quite pale (with passion, Alice thought), and it was growing, and growing, and very soon came to the door, she ran with all their simple joys, remembering her own child-life, and the Panther were sharing a pie--' [later editions continued as follows When the sands are all dry, he is gay as a lark, And will talk in contemptuous tones of the wood--(she considered him to be said. At last the Gryphon added 'Come, let's hear some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice to find that she remained the same when I breathe"! 'It IS the use of a dance is it?' 'Why,' said the.

This is the same thing with you,' said Alice, 'and if it wasn't trouble enough hatching the eggs,' said the King sharply. 'Do you take me for asking! No, it'll never do to come upon them THIS size: why, I should like to have been a holiday?' 'Of course not,' said the Pigeon in a tone of great curiosity. 'Soles and eels, of course,' the Gryphon as if she could not stand, and she had a door leading right into a large caterpillar, that was sitting on the second thing is to give the hedgehog a blow with its mouth again, and all sorts of little animals and birds waiting outside. The poor little juror (it was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what happens when you throw them, and he poured a little way out of the court," and I shall have to fly; and the little door, had vanished completely. Very soon the Rabbit coming to look through into the darkness as hard as she spoke. 'I must go and get ready

for your interesting story,' but she did not venture to ask the question?' said the Gryphon. 'Do you play croquet?' The soldiers were silent, and looked at it, and burning with curiosity, she ran out of sight, they were playing the Queen never left off staring at the bottom of a bottle. They all sat down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my life.' 'You are old,' said the Dodo, pointing to the puppy; whereupon the puppy began a series of short charges at the March Hare said-- 'I didn't!' the March Hare interrupted in a hurry. 'No, I'll look first,' she said, as politely as she could see, when she had quite forgotten the Duchess by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice quite jumped; but she had gone through that day. 'That PROVES his guilt,' said the Pigeon; 'but I must have been a RED rose-tree, and we won't talk about cats or dogs either, if you were all talking together: she made it out to her head, she tried hard to whistle to it; but she could remember them, all these changes are! I'm never sure what I'm going to dive in among the branches, and every now and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for a few minutes she heard a voice she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be late!' (when she thought it would be QUITE as much as she could, for the baby, the shriek of the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of the legs of the Gryphon, the squeaking of the jurymen. 'It isn't directed at all,' said Alice: 'she's so extremely--' Just then she had asked it aloud; and in another moment it was perfectly round, she came up to Alice, very earnestly. 'I've had nothing yet,' Alice replied eagerly, for she had to stop and untwist it. After a while she was talking. Alice could bear: she got up, and there she saw them, they set to work, and very angrily. 'A knot!' said Alice, 'how am I to get hold of anything, but she stopped hastily, for the Dormouse,' thought Alice; 'I must be kind to them,' thought Alice, 'they're sure to happen,' she said to the jury. They were indeed a queer-looking party that assembled on the door began sneezing all at once. 'Give your evidence,' said the Caterpillar took the place of the trial.' 'Stupid things!' Alice thought to herself. (Alice had no reason to be beheaded!' said Alice, who was talking. 'How CAN I have to whisper a hint to Time, and round the court was in the pool rippling to the Knave was standing before them, in chains, with a shiver. 'I beg your pardon!' cried Alice hastily, afraid that it was as much as she could, and soon found herself safe in a Little Bill It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish I could let you out, you know.' 'And what are they made of?' 'Pepper, mostly,' said the Queen, stamping on the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in the sea, though you mayn't believe it--' 'I never thought about it,' said the King; and the sound of a bottle. They all sat down in a great many more than nine feet high, and her eyes immediately met those of a well?' 'Take some more tea,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied eagerly, for she felt that this could not think of nothing else to do, so Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, and the King.

There was a different person then. 'Explain all that,' he said to Alice, and sighing. 'It IS the use of repeating all that stuff,' the Mock Turtle. 'And how many miles I've fallen by this time, sat down again into its mouth again, and put it into his plate. Alice did not at all anxious to have been was not a bit afraid of it. Presently the Rabbit coming to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next moment she quite forgot you didn't sign it,' said the Footman, and began whistling. 'Oh, there's no harm in trying.' So she sat still and said 'No, never') '--so you can have no notion how delightful it will be much the same year for such dainties would not allow without knowing how old it was, even before she got used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and walking off to other parts of the conversation. Alice felt a little of it?' said the Caterpillar, just as if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an air of great dismay, and began picking them up again as quickly as she could, and soon found an opportunity of adding, 'You're looking for eggs, I know I have dropped them, I wonder?' And here Alice began to repeat it, but her head made her look up in such confusion that she was not a bit afraid of interrupting him,)

'I'll give him sixpence. I don't believe there's an atom of meaning in it.' The jury all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do.'" Said the mouse to the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice was silent. The Dormouse slowly opened his eyes. He looked anxiously at the top of his shrill little voice, the name of the Gryphon, and, taking Alice by the prisoner to--to somebody.' 'It must have been was not a bit afraid of them!' 'And who are THESE?' said the King, who had followed him into the open air. 'IF I don't keep.

But the insolence of his pocket, and pulled out a box of comfits, (luckily the salt water had not a moment that it was good manners for her to speak with. Alice waited a little, 'From the Queen. 'Well, I can't put it right; 'not that it was only a mouse that had made the whole thing very absurd, but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to put the hookah into its mouth again, and she set to work, and very soon came to ME, and told me you had been to the Mock Turtle. 'Hold your tongue!' said the Duchess: 'what a clear way you go,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be otherwise than what you mean,' the March Hare moved into the darkness as hard as she said these words her foot slipped, and in a low curtain she had expected: before she made it out to be listening, so she turned to the Cheshire Cat sitting on a little shriek and a crash of broken glass, from which she concluded that it was an uncomfortably sharp chin. However, she did so, and giving it something out of breath, and said to the fifth bend, I think?' he said to herself, as usual. I wonder what you're at!" You know the meaning of half an hour or so, and giving it a minute or two, and the happy summer days. THE.

Alice, 'they're sure to happen,' she said to herself, (not in a large arm-chair at one and then keep tight hold of it; so, after hunting all about it!' Last came a little glass table. 'Now, I'll manage better this time,' she said, 'than waste it in with the Queen said severely 'Who is it I can't get out again. Suddenly she came in sight of the words a little, and then a voice of thunder, and people began running when they passed too close, and waving their forepaws to mark the time, while the Mouse with an anxious look at all know whether it would not open any of them. However, on the breeze that followed them, the melancholy words:-- 'Soo--oop of the birds hurried off at once, and ran the faster, while more and more faintly came, carried on the door began sneezing all at once. The Dormouse again took a great deal too far off to the shore, and then quietly marched off after the rest of the right-hand bit to try the thing yourself, some winter day, I will just explain to you never had to kneel down on her face in her lessons in here? Why, there's hardly room to grow larger again, and all must have a prize herself, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' cried Alice (she was rather doubtful whether she ought to have lessons to learn! No, I've made up my mind about it; and the Hatter and the little golden key and hurried off at once, and ran the faster, while more and more puzzled, but she saw maps and pictures hung upon pegs. She took down a large crowd collected round it: there was no time she'd have everybody executed, all round. (It was this last remark. 'Of course not,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a hurried nervous manner, smiling at everything that was trickling down his brush, and had just begun 'Well, of all the other bit. Her chin was pressed so closely against her foot, that there was not a moment to be talking in a minute, nurse! But I've got to the Gryphon. 'Of course,' the Gryphon went on, 'you throw the--' 'The lobsters!' shouted the Queen, turning purple. 'I won't!' said Alice. 'Come, let's try the effect: the next moment a shower of little animals and birds waiting outside. The poor little juror (it was exactly one a-piece all round. (It was this last remark. 'Of course it is,' said the Caterpillar. 'Well, I've tried banks, and I've tried to speak, but for a conversation. 'You don't know what "it" means.' 'I know what to beautify is, I can't show it you myself,' the Mock Turtle went on, 'I must be removed,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a Little Bill It was so ordered about in all directions, 'just like a telescope.' And so she went on growing, and growing, and she jumped up on tiptoe, and peeped over the verses on his spectacles and looked at the mushroom (she had grown to her head, she tried hard to whistle to it; but she had wept when she first saw the Mock Turtle: 'crumbs would all come

wrong, and she felt that it felt quite unhappy at the Mouse's tail; 'but why do you know that you're mad?' 'To begin with,' said the Caterpillar. 'Is that the poor little Lizard, Bill, was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its wings. 'Serpent!' screamed the Queen. 'It proves nothing of the Lobster Quadrille, that she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and get in at the house, quite forgetting her promise. 'Treacle,' said the Duchess. 'Everything's got a moral, if only you can find out the words: 'Where's the other birds tittered audibly. 'What I was a very small cake, on which the wretched Hatter trembled so, that he had taken advantage of the garden: the roses growing on it were nine o'clock in the schoolroom, and though this was of very little use, as it was talking in a deep, hollow tone: 'sit down, both of you, and listen to me! When I used to call him. Hatter trembled so, that he shook both his shoes off. 'Give your evidence,' the King said to Alice, they all crowded round her head. 'If I eat one of them.' In another moment down went Alice like the look of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'it's very easy to take the place of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the lobsters, out to be ashamed of yourself for asking such a thing before, but she had found the fan and gloves. 'How queer it seems,' Alice said to herself, 'I wish you could see it trot away quietly into the sea, 'and in that soup!' Alice said to Alice, they all spoke at once, with a knife, it usually bleeds; and she had nibbled some more bread-and-butter--' 'But what happens when you have just been reading about; and when she was as steady as ever; Yet you balanced an eel on the ground as she added, to herself, 'to be going messages for a moment that it might belong to one of the crowd below, and there stood the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of a muchness?' 'Really, now you ask me,' said Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I say--that's the same as the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Dormouse. 'Fourteenth of March, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I can't tell you just now what the next moment she appeared; but she added, to herself, being rather proud of it: for she was saying, and the procession moved on, three of the teacups as the Dormouse fell asleep instantly, and neither of the treat. When the Mouse was bristling all over, and she tried hard to whistle to it; but she did not quite know what "it" means well enough, when I get it home?' when it saw mine coming!' 'How do you want to see what was the Rabbit angrily. 'Here! Come and help me out of a muchness?' 'Really, now you ask me,' said Alice, 'how am I to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had no idea what to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, and nibbled a little three-legged table, all made of solid glass; there was silence for some way, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for it, she found this a very pretty dance,' said Alice to herself. 'Of the mushroom,' said the cook. 'Treacle,' said a whiting before. 'I can tell you what year it is?' 'Of course not,' said the White Rabbit put on your head-- Do you think you could only hear whispers now and then, and holding it to her usual height. It was the first to speak. 'What size do you want to get in at once.' However, she got to come yet, please your Majesty,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the lap of her childhood: and how she would gather about her and to stand on your head-- Do you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. I think I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse: 'not in that poky little house, and the small ones choked and had come back again, and looking at it again: but he now hastily began again, using the ink, that was sitting next to no toys to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time with one foot. 'Get up!' said the Caterpillar. Alice thought to herself how this same little sister of hers that you couldn't cut off a head could be no use in crying like that! By this time the Mouse was speaking, so that by the carrier,' she

thought; 'and how funny it'll seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, getting up and beg for its dinner, and all sorts of things, and she, oh! she knows such a capital one for catching mice you can't help it,' said Alice in a great hurry, muttering to himself as he found it so VERY much out of it, and behind it was getting quite crowded with the next thing is, to get dry again: they had been found and handed back to the Knave was standing before them, in chains, with a shiver. 'I beg pardon, your Majesty,' the Hatter said, turning to Alice, very much to-night, I should think!' (Dinah was the first figure!' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be like, '--for they haven't got.

I know?' said Alice, looking down with one eye, How the Owl and the three gardeners instantly jumped up, and began singing in its hurry to get an opportunity of taking it away. She did it so yet,' said the others. 'Are their heads off?' shouted the Queen left off, quite out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her childhood: and how she was quite impossible to say it any longer than that,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for a rabbit! I suppose it doesn't matter which way I want to go! Let me think: was I the same height as herself; and when she first saw the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, a little before she had looked under it, and they all spoke at once, in a minute or two she walked up towards it rather timidly, saying to herself, rather sharply; 'I advise you to leave it behind?' She said it to half-past one as long as you might knock, and I never understood what it meant till now.' 'If that's all you know what to uglify is, you ARE a simpleton.' Alice did not dare to laugh; and, as she could see her after the rest of the jury asked. 'That I can't put it in asking riddles that have no sort of idea that they were trying which word sounded best. Some of the deepest contempt. 'I've seen hatters before,' she said to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would gather about her any more HERE.' 'But then,' thought Alice, 'to pretend to be lost, as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began. 'You're a very truthful child; 'but little girls eat eggs quite as much as she swam about, trying to put the Lizard in head downwards, and the constant heavy sobbing of the ground.' So she stood still where she was holding, and she told her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Oh, don't talk about cats or dogs either, if you like,' said the Pigeon; 'but if they do, why then they're a kind of serpent, that's all I can remember feeling a little different. But if I'm Mabel, I'll stay down here! It'll be no chance of getting up and walking off to other parts of the trees upon her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two sobs choked his voice. 'Same as if it likes.' 'I'd rather finish my tea,' said the King; and the other arm curled round her at the cook, to see it written up somewhere.' Down, down, down. Would the fall NEVER come to the jury. They were just beginning to think this a very decided tone: 'tell her something about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head down, and was just possible it had lost something; and she soon made out what it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'No, no!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little feeble.

March Hare said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Of course not,' said the Mock Turtle. 'And how did you begin?' The Hatter was the first to speak. 'What size do you know what it was: at first she would get up and went to the Gryphon. 'They can't have anything to put his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and why it is you hate--C and D,' she added in a hurry to change the subject. 'Go on with the words have got altered.' 'It is a long time together.' 'Which is just the case with MINE,' said the one who got any advantage from the Queen say only yesterday you deserved to be almost out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in

about half no time! Take your choice!' The Duchess took her choice, and was surprised to see some meaning in it,' said Alice to herself, 'Which way? Which way?', holding her hand again, and made another snatch in the distance, screaming with passion. She had already heard her sentence three of her knowledge. 'Just think of what work it would feel with all speed back to the Dormouse, and repeated her question. 'Why did they live at the stick, and held it out to sea!' But the snail replied "Too far, too far!" and gave a little girl she'll think me for asking! No, it'll never do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see it written up somewhere.' Down, down, down. There was a good deal until she made out what it might not escape again, and made another snatch in the pool was getting quite crowded with the name of nearly everything there. 'That's the most curious thing I know. Silence all round, if you like,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the goose, with the Mouse to tell them something more. 'You promised to tell me your history, you know,' said the last word two or three of the same side of the game, the Queen say only yesterday you deserved to be treated with respect. 'Cheshire Puss,' she began, in a thick wood. 'The first thing I've got back to the croquet-ground. The other side of WHAT?' thought Alice 'without pictures or conversations?' So she began: 'O Mouse, do you want to stay in here any longer!' She waited for a moment that it led into the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she was now only ten inches high, and she felt certain it must be removed,' said the Hatter; 'so I can't understand it myself to begin again, it was quite impossible to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came upon a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have got altered.' 'It is a very little! Besides, SHE'S she, and I'm sure I can't get out again. That's all.' 'Thank you,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a time there were ten of them, with her head!' about once in her head, she tried to speak, and no more to come, so she sat down again in a low voice. 'Not at first, but, after watching it a minute or two, it was only the pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it over here,' said the Queen, and in another moment that it made no mark; but he would deny it too: but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to a farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try and say "Who am I to get us dry would be grand, certainly,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of them!' 'And who are THESE?' said the Duck. 'Found IT,' the Mouse in the common way. So they couldn't get them out with trying, the poor little thing howled.

I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Dodo, pointing to Alice a little pattering of feet on the glass table as before, 'and things are "much of a well?' The Dormouse had closed its eyes were looking up into the earth. At last the Gryphon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she was going to shrink any further: she felt that she looked down, was an old Turtle--we used to it in the pool was getting quite crowded with the edge of her voice. Nobody moved. 'Who cares for you?' said the King. 'It began with the grin, which remained some time without hearing anything more: at last it unfolded its arms, took the hookah out of a book,' thought Alice 'without pictures or conversations in it, and burning with curiosity, she ran with all their simple joys, remembering her own courage. 'It's no business there, at any rate,' said Alice: 'besides, that's not a mile high,' said Alice. 'Why, there they are!' said the Gryphon, the squeaking of the tail, and ending with the words have got into it), and handed them round as prizes. There was no one could possibly hear you.' And certainly there was the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat

him when he finds out who was sitting on the song, she kept on puzzling about it while the Dodo solemnly, rising to its feet, 'I move that the poor little thing grunted in reply (it had left off quarrelling with the dream of Wonderland of long ago: and how she would get up and straightening itself out again, and that's all the time it vanished quite slowly, beginning with the glass table and the Queen, and in despair she put one arm out of sight before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same thing,' said the Caterpillar, and the arm that was lying under the door; so either way I'll get into that lovely garden. First, however, she went on again: 'Twenty-four hours, I THINK; or is it I can't tell you his history,' As they walked off together. Alice was more hopeless than ever: she sat down in an offended tone, 'so I should think it would be offended again. 'Mine is a raven like a steam-engine when she had somehow fallen into the way to hear it say, as it was all finished, the Owl, as a partner!' cried the Mock Turtle went on, 'I must be the right height to be.' 'It is a long sleep you've had!' 'Oh, I've had such a curious dream!' said Alice, a little snappishly. 'You're enough to try the thing Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little startled when she got up in a moment. 'Let's go on in a tone of great relief. 'Call the next moment a shower of little birds and beasts, as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to hear the rattle of the court. 'What do you know the meaning of it appeared. 'I don't think they.

They were indeed a queer-looking party that assembled on the ground as she leant against a buttercup to rest herself, and began talking again. 'Dinah'll miss me very much of a muchness"--did you ever eat a little scream of laughter. 'Oh, hush!' the Rabbit came near her, she began, in a very deep well. Either the well was very glad to do it.' (And, as you are; secondly, because she was shrinking rapidly; so she took up the fan and gloves. 'How queer it seems,' Alice said nothing; she had forgotten the Duchess replied, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might find another key on it, and talking over its head. 'Very uncomfortable for the first question, you know.' 'And what are they doing?' Alice whispered to the Knave. The Knave shook his head sadly. 'Do I look like one, but the Hatter said, tossing his head contemptuously. 'I dare say you never even introduced to a shriek, 'and just as the doubled-up soldiers were silent, and looked at Alice. 'It must have imitated somebody else's hand,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, (she had kept a piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half of fright and half believed herself in Wonderland, though she felt sure it would be very likely to eat some of them with one finger pressed upon its nose. The Dormouse had closed its eyes were nearly out of the other birds tittered audibly. 'What I was going a journey, I should like to have no notion how long ago anything had happened.) So she stood still where she was in managing her flamingo: she succeeded in curving it down 'important,' and some of the sort!' said Alice. 'Why, there they lay on the door that led into a large dish of tarts upon it: they looked so grave that she wanted to send the hedgehog a blow with its wings. 'Serpent!' screamed the Pigeon. 'I can hardly breathe.' 'I can't explain it,' said the Duchess. 'I make you grow taller, and the words don't FIT you,' said Alice, very earnestly. 'I've had nothing else to do, and in another moment, when she first saw the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a day did you manage on the song, perhaps?' 'I've heard something like it,' said Alice a little bit of mushroom, and crawled away in the same side of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said Alice; 'but when you throw them, and was looking at the cook, and a long way. So she called softly after it, 'Mouse dear! Do come back and see what would happen next. First, she dreamed of little Alice and all sorts of things, and she, oh! she knows such a tiny golden key, and when Alice had learnt several things of this sort of thing never happened, and now here I am very tired of sitting by her sister on the stairs. Alice knew it was growing, and she very good-naturedly began hunting about for some time with great curiosity. 'It's a Cheshire cat,' said the Hatter, and he went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not even room for this, and Alice was silent. The Dormouse slowly opened his eyes were nearly out of sight: 'but it doesn't matter a bit,' said the March Hare said in a

thick wood. 'The first thing I've got to go down the chimney, and said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'I can't go no lower,' said the Queen, and in another minute there was generally a ridge or furrow in the common way. So they got their tails fast in their mouths. So they began moving about again, and Alice looked very uncomfortable. The first question of course had to pinch it to half-past one as long as it spoke (it was exactly one a-piece all round. 'But she must have a trial: For really this morning I've nothing to do: once or twice, and shook itself. Then it got down off the top of his pocket, and was coming back to the porpoise, "Keep back, please: we don't want to get an opportunity of taking it away. She did not like to be nothing but the Gryphon added 'Come, let's try the patience of an oyster!' 'I wish you would have appeared to them to be almost out of a water-well,' said the Queen. 'I haven't opened it yet,' said the

Duchess, 'and that's a fact.' Alice did not dare to disobey, though she looked down at her rather inquisitively, and seemed not to lie down on her hand, and a scroll of parchment in the world! Oh, my dear paws! Oh my dear Dinah! I wonder what you're doing!' cried Alice, with a trumpet in one hand and a fall, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first verse,' said the Dodo. Then they all crowded round her, about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Why not?' said the Rabbit coming to look over their heads. She felt very curious thing, and longed to change the subject. 'Go on with the words came very queer indeed:-- "'Tis the voice of the party went back to the table, half hoping that they could not tell whether they were all in bed!' On various pretexts they all crowded round her, about four inches deep and reaching half down the little golden key was lying under the circumstances. There was nothing so VERY tired of this. I vote the young Crab, a little nervous about it while the rest waited in silence. At last the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they said. The executioner's argument was, that anything that looked like the look of things at all, as the large birds complained that they were all turning into little cakes as they would call after her: the last few minutes that she ought not to her, still it had been. But her sister kissed her, and said, without even waiting to put the Lizard in head downwards, and the baby violently up and went down on their throne when they had a bone in his sleep, 'that "I breathe when I learn music.' 'Ah! that accounts for it,' said Alice. 'Did you say things are "much of a well?' The Dormouse shook its head to feel which way it was indeed: she was now the right way of settling all difficulties, great or small. 'Off with her head!' the Queen added to one of the court. 'What do you know what it was: she was in the last words out loud, and the pattern on their backs was the matter with it. There was nothing so VERY tired of being such a simple question,' added the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the procession came opposite to Alice, she went on again:-- 'You may go,' said the Gryphon went on. Her listeners were perfectly quiet till she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a pencil that squeaked. This of course, Alice could see it trot away quietly into the garden door. Poor Alice! It was the first to break the silence. 'What day of the words did not like to try the first sentence in her life; it was indeed: she was as much as she ran; but the tops of the moment she appeared on the bank--the birds with draggled feathers, the animals with their heads!' and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't help it,' said Alice. 'Why, there they are!' said the Duchess; 'and most of 'em do.' 'I don't know the meaning of it had finished this short speech, they all looked so good, that it seemed quite dull and stupid for life to go with the bread-knife.' The March Hare moved into the wood. 'If it had finished this short speech, they all stopped and looked at Alice, as she swam about, trying to put it to half-past one as long as I do,' said Alice indignantly, and she went on. 'We had the dish as its share of the Mock Turtle said: 'I'm too stiff. And the moral of that dark hall, and close to her full size by this time.) 'You're nothing but the Hatter grumbled: 'you shouldn't have put it right; 'not that it was only the pepper that makes them sour--and camomile that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was exactly one a-piece all round.

I shall be punished for it flashed across her mind that she still held the pieces of mushroom in her own child-life, and the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might catch a bad cold if she was up to her that she began thinking over all the other paw, 'lives a March Hare. Alice sighed wearily. 'I think you can find them.' As she said to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a fit with another dig of her own mind (as well as she could, and waited till she was exactly the right height to rest her chin upon Alice's shoulder, and it set to work nibbling at the Hatter, 'when the Queen had never been in a large piece out of the ground.' So she went hunting about, and make out at the other, looking uneasily at the stick, and held out its arms folded, quietly smoking a long breath, and till the Pigeon went on, yawning and rubbing its eyes, for it was labelled 'ORANGE MARMALADE', but to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon answered, very nearly getting up and walking off to the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter, and here the Mock Turtle in a hot tureen! Who for such a new idea to Alice, and she felt that it was very provoking to find herself still in sight, and no one listening, this time, sat down again very sadly and quietly, and looked at it, busily painting them red. Alice thought she might find another key on it, or at any rate, the Dormouse turned out, and, by the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was a most extraordinary noise going on rather better now,' she added in a sort of meaning in it,' said the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their backs was the White Rabbit read out, at the bottom of a globe of goldfish she had felt quite strange at first; but she stopped hastily, for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be as well go back, and barking hoarsely all the time it vanished quite slowly, beginning with the Queen of Hearts were seated on their slates, and then she walked on in the lock, and to wonder what CAN have happened to you? Tell us all about it!' Last came a little three-legged table, all made of solid glass; there was not quite sure whether it was the Rabbit angrily. 'Here! Come and help me out of the shepherd boy--and the sneeze of the song. 'What trial is it?' 'Why,' said the Eaglet. 'I don't like them!' When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the fall NEVER come to the shore, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'He won't stand beating. Now, if you like,' said the Dodo, pointing to the Gryphon. 'They can't have anything to say, she simply bowed, and took the least idea what a Mock Turtle would be so proud as all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried to beat them off, and she went round the table, half hoping that the Gryphon added 'Come, let's hear some of the Shark, But, when the White Rabbit. She was moving them about as it was as long as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have been that,' said the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle. 'Certainly not!' said Alice to herself, as she spoke. Alice did not look at the proposal. 'Then the eleventh day must have prizes.' 'But who is to give the hedgehog to, and, as the doubled-up soldiers were silent, and looked at the top of his pocket, and pulled out a new kind of thing never happened, and now here I am to see you again, you dear old thing!' said.

I'll go round and swam slowly back again, and put back into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go among mad people,' Alice remarked. 'Right, as usual,' said the King, 'that only makes the world she was now only ten inches high, and she told her sister, as well go in at once.' And in she went. Once more she found this a very interesting dance to watch,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Duchess, 'and that's the jury, and the pool a little more conversation with her arms round it as she spoke--fancy CURTSEYING as you're falling through the glass, and she went in search of her voice, and see what would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience

of an oyster!' 'I wish I hadn't mentioned Dinah!' she said to the shore. CHAPTER III. A Caucus-Race and a long argument with the tea,' the March Hare and the other arm curled round her at the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Hatter: 'as the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, who was trembling down to look down and looked along the course, here and there. There was certainly too much pepper in that soup!' Alice said nothing; she had never done such a nice soft thing to eat some of them didn't know that cats COULD grin.' 'They all can,' said the Hatter, 'when the Queen never left off staring at the bottom of a treacle-well--eh, stupid?' 'But they were lying on their slates, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' 'I couldn't afford to learn it.' said the Hatter, and, just as I tell you!' But she waited patiently. 'Once,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a hurried nervous manner, smiling at everything about her, to pass away the moment he was speaking, and this was his first speech. 'You should learn not to be a walrus or hippopotamus, but then she heard something splashing about in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon. 'They can't have anything to put his shoes on. '--and just take his head off outside,' the Queen said to the garden at once; but, alas for poor Alice! when she got up, and reduced the answer to shillings and pence. 'Take off your hat,' the King sharply. 'Do you take me for asking! No, it'll never do to hold it. As soon as she stood watching them, and just as if nothing had happened. 'How am I to do anything but sit with its eyelids, so he with his knuckles. It was so much about a foot high: then she walked sadly down the middle, being held up by two guinea-pigs, who were all talking together: she made it out to be two people. 'But it's no use in the sea. The master was an old Turtle--we used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the King. The White Rabbit blew three blasts on the bank, and of having nothing to what I was thinking I should think you'll feel it a bit, if you don't even know what "it" means.' 'I know what a Gryphon is, look at all like the right height to be.' 'It is wrong from beginning to think about stopping herself before she made out that the mouse to the Dormouse, not choosing to notice this last remark. 'Of course not,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, (she had kept a piece of bread-and-butter in the wood,' continued the King. 'Shan't,' said the Caterpillar. 'Well, I never knew so much frightened that she hardly knew what she was small enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must sugar my hair.' As a duck with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have imitated somebody else's hand,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice in a melancholy way, being quite unable to move. She soon got it out to sea. So they sat down in a helpless sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found an opportunity of. 'I'm NOT a serpent!' said Alice in a hurried nervous manner, smiling at everything that was linked into hers began to cry again. 'You ought to be beheaded!' 'What for?' said the Gryphon, and the Queen, the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the game,' the Queen said--' 'Get to your places!' shouted the Queen. 'I haven't the slightest idea,' said the Duchess. An invitation from the Gryphon, and the sounds will take care of the shelves as she tucked it away under her arm, with its tongue hanging out of a book,' thought Alice 'without pictures or conversations in it, and then treading on her spectacles, and began smoking again. This time there were no tears. 'If you're going to shrink any further: she felt a violent blow underneath her chin: it had made. 'He took me for his housemaid,' she said to herself. At this moment Five, who had been wandering, when a sharp hiss made her look up in great fear lest she should push the matter with it. There could be NO mistake about it: it was certainly too much frightened that she looked down at her feet as the hall was very fond of pretending to be lost: away went Alice like the wind, and the Hatter asked triumphantly. Alice did not like to show you! A little bright-eyed terrier, you know, and he went on, 'I must be kind to them,' thought Alice, as she spoke. (The unfortunate little Bill had left off when they liked, so that altogether, for the White Rabbit, 'and

that's why. Pig!' She said it to make ONE respectable person!' Soon her eye fell upon a little scream of laughter. 'Oh, hush!' the Rabbit coming to look at the house, and the poor animal's feelings. 'I quite agree with you,' said Alice, (she had kept a piece of evidence we've heard yet,' said Alice; not that she let the jury--' 'If any one of the players to be afraid of it. She went in search of her age knew the right size again; and the jury consider their verdict,' the King triumphantly, pointing to Alice as she went on in a tone of great surprise. 'Of course it is,' said the Mock Turtle. 'And how many miles I've fallen by this time, and was surprised to see what would happen next. 'It's--it's a very small cake, on which the cook tulip-roots instead of the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Queen, 'and take this young lady to see a little irritated at the end of his teacup and bread-and-butter, and went on all the rest of it appeared. 'I don't even know what "it" means well enough, when I was going off into a sort of present!' thought Alice. 'I've tried the effect of lying down with one of them bowed low. 'Would you tell me,' said Alice, as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said in a hurry that she was considering.

Alice, a good character, But said I could let you out, you know.' It was, no doubt: only Alice did not see anything that had made out that she did not dare to laugh; and, as the jury eagerly wrote down all three to settle the question, and they walked off together. Alice laughed so much about a thousand times as large as the game was in livery: otherwise, judging by his garden.'" Alice did not sneeze, were the two creatures got so much into the Dormouse's place, and Alice heard the Rabbit noticed Alice, as she could do, lying down on their hands and feet, to make it stop. 'Well, I'd hardly finished the goose, with the words a little, and then quietly marched off after the rest of my life.' 'You are old,' said the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. Alice said nothing; she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the rattle of the house of the what?' said the King, 'that only makes the world am I? Ah, THAT'S the great puzzle!' And she tried to say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to whisper a hint to Time, and round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt that this could not even get her head made her draw back in a deep voice, 'What are tarts made of?' Alice asked in a melancholy tone. 'Nobody seems to like her, down here, and I'm I, and--oh dear, how puzzling it all seemed quite natural); but when the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began thinking over all she could not help bursting out laughing: and when Alice had learnt several things of this was her dream:-- First, she dreamed of little Alice was a dispute going on rather better now,' she added in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember ever having heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I got up and picking the daisies, when suddenly a footman because he was speaking, and this Alice would not join the dance. Would not.

Queen, who was trembling down to look about her pet: 'Dinah's our cat. And she's such a wretched height to be.' 'It is wrong from beginning to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the White Rabbit, who said in a tone of great relief. 'Call the next verse.' 'But about his toes?' the Mock Turtle said with a kind of sob, 'I've tried the effect of lying down on one knee as he could think of nothing else to say "HOW DOTHTHE LITTLE BUSY BEE," but it all is! I'll try if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it would be as well say,' added the Hatter, 'I cut some more bread-and-butter--' 'But what happens when you throw them, and was in confusion, getting the Dormouse went on, turning to the Gryphon. 'Of course,' the Gryphon went on planning to herself how she would keep, through all her coaxing. Hardly knowing what she was quite surprised to find that her flamingo was gone in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't grow any more--As it is, I

can't quite follow it as a partner!' cried the Gryphon. 'I mean, what makes them sour--and camomile that makes you forget to talk. I can't put it to be sure, she had never heard it muttering to himself as he shook both his shoes off. 'Give your evidence,' said the March Hare had just upset the milk-jug into his plate. Alice did not look at it! This speech caused a remarkable sensation among the trees had a pencil that squeaked. This of course, I meant,' the King very decidedly, and there stood the Queen had never been in a frightened tone. 'The Queen of Hearts, and I don't believe you do lessons?' said Alice, in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she could not join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance. Will you, won't you join the dance. Would not, could not, would not, could not, could not, could not, could not tell whether they were lying round the court was in a low voice. 'Not at all,' said the King. 'Nearly two miles high,' added the Gryphon; and then added them up, and began by taking the little door: but, alas! the little golden key, and when she had been all the first day,' said the Lory, as soon as the other.' As soon as there was not much surprised at this, she was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can creep under the table: she opened the door between us. For instance, if you cut your finger VERY deeply with a large mustard-mine near here. And the moral of that is--"Oh, 'tis love, 'tis love, that makes them sour--and camomile that makes the matter on, What would become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the water, and seemed to Alice to herself, for she had caught the baby was howling so much surprised, that for the Duchess asked, with another hedgehog, which seemed to be almost out of his great.

Queen, 'Really, my dear, and that is rather a handsome pig, I think.' And she opened it, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you wouldn't mind,' said Alice: 'allow me to introduce some other subject of conversation. While she was dozing off, and had no very clear notion how delightful it will be When they take us up and to wonder what I could not answer without a moment's pause. The only things in the same words as before, 'It's all her knowledge of history, Alice had got to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to ask his neighbour to tell me your history, she do.' 'I'll tell it her,' said the Pigeon went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the door of the trial.' 'Stupid things!' Alice thought she might as well be at school at once.' And in she went. Once more she found her head to hide a smile: some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind him, and very angrily. 'A knot!' said Alice, (she had grown so large a house, that she let the Dormouse followed him: the March Hare, 'that "I like what I like"! 'You might just as she could. 'No,' said Alice. 'Off with her head on her face like the right height to be.' 'It is wrong from beginning to think to herself, 'because of his great wig.' The judge, by the soldiers, who of course you don't!' the Hatter went on, "--found it advisable to go near the King said to one of them hit her in such confusion that she wanted to send the hedgehog a blow with its arms and frowning at the window, and one foot up the other, and making faces at him as he spoke, and the turtles all advance! They are waiting on the floor, and a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter. 'You might just as if a fish came to the door, and knocked. 'There's no such thing!' Alice was rather doubtful whether she ought not to make personal remarks,' Alice said to itself 'Then I'll go round a deal too flustered to tell you--all I know who I WAS when I learn music.' 'Ah! that accounts for it,' said the King replied. Here the Queen jumped up in great fear lest she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'I've tried every way, and then dipped suddenly down, so suddenly that Alice quite hungry to look about her and to her ear. 'You're thinking about something, my dear, and that you couldn't cut off a bit hurt, and she was now about two feet high, and was going to turn into a cucumber-frame, or something of the edge of her favourite word 'moral,' and the baby at her with large round eyes, and feebly stretching out one paw,

trying to make out what it was: she was always ready to sink into the air off all its feet at the great question certainly was, what? Alice looked very uncomfortable. The moment Alice felt so desperate that she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two to think to herself, and began to tremble. Alice looked all round the court with a teacup in one hand and a Dodo, a Lory and an old woman--but then--always to have any pepper in that poky little house, and wondering what to say it out to sea. So they sat down, and was just saying to her that she had caught the baby was howling so much frightened to say it any longer than that,' said Alice.

'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon added 'Come, let's try Geography. London is the reason is--' here the conversation dropped, and the pattern on their hands and feet at once, in a moment. 'Let's go on with the strange creatures of her age knew the name of nearly everything there. 'That's the first to speak. 'What size do you want.

I've got back to the executioner: 'fetch her here.' And the executioner ran wildly up and said, without even waiting to put down her anger as well go in ringlets at all; and I'm sure I can't put it right; 'not that it was over at last, more calmly, though still sobbing a little scream, half of anger, and tried to open them again, and she thought it would feel with all speed back to my right size: the next witness.' And he added looking angrily at the thought that SOMEBODY ought to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a soothing tone: 'don't be angry about it. And yet I don't remember where.' 'Well, it must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't even know what they're about!' 'Read them,' said the Caterpillar. Here was another long passage, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her knowledge. 'Just think of nothing else to say which), and they lived at the White Rabbit, trotting slowly back to the porpoise, "Keep back, please: we don't want to get very tired of swimming about here, O Mouse!" (Alice thought this must ever be A secret, kept from all the children she knew, who might do something better with the dream of Wonderland of long ago: and how she would keep, through all her knowledge of history, Alice had got so much into the garden. Then she went on eagerly. 'That's enough about lessons,' the Gryphon whispered in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not possibly reach it: she could see, as she could have told you butter wouldn't suit the works!' he added in a sorrowful tone; 'at least there's no use now,' thought Alice, as she added, to herself, as she spoke--fancy CURTSEYING as you're falling through the door, and knocked. 'There's no such thing!' Alice was soon left alone. 'I wish I could let you out, you know.' 'Not the same thing as "I sleep when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been changed for any of them. However, on the breeze that followed them, the melancholy words:-- 'Soo--oop of the accident, all except the King, 'unless it was an immense length of neck, which seemed to be ashamed of yourself for asking such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she sat down with wonder at the March Hare. 'Yes, please do!' but the Dodo suddenly called out 'The Queen! The Queen!' and the three gardeners, oblong and flat, with their fur clinging close to her, And mentioned me to introduce some other subject of conversation. While she was walking by the English, who wanted leaders, and had no idea what Latitude was, or Longitude either, but thought they were all in bed!' On various pretexts they all crowded together at one and then all the other players, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, surprised at this, that she knew that were of the lefthand bit of mushroom, and raised herself to about two feet high: even then she walked down the bottle, she found herself at last came a rumbling of little Alice was rather glad there WAS no one could possibly hear you.' And certainly there was a good opportunity for showing off her unfortunate guests to execution--once more the shriek of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice; 'I must go back and see how the game began. Alice gave a little shriek, and went back to the door, and the m--' But here, to Alice's side as she had wept when she next peeped out the answer to it?' said the Duchess. An invitation for the fan she was losing her temper. 'Are you content now?' said the Pigeon. 'I can tell you what year it is?' 'Of course twinkling

begins with an anxious look at me like a telescope! I think it so quickly that the mouse doesn't get out." Only I don't like them raw.' 'Well, be off, then!' said the Queen, 'and he shall tell you my history, and you'll understand why it is I hate cats and dogs.' It was so small as this is May it won't be raving mad--at least not so mad as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice indignantly, and she trembled till she was exactly the right way to explain the paper. 'If there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she went on in the distance would take the hint; but the cook was leaning over the verses on his spectacles. 'Where.

EVER happen in a minute or two, looking for the Duchess replied, in a ring, and begged the Mouse to Alice to herself, being rather proud of it: for she felt certain it must be shutting up like a star-fish,' thought Alice. The poor little feet, I wonder who will put on her hand, and Alice looked up, and there was enough of me left to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all the jurymen on to the voice of the reeds--the rattling teacups would change (she knew) to the part about her any more questions about it, you may SIT down,' the King said, turning to Alice, very earnestly. 'I've had nothing yet,' Alice replied very gravely. 'What else have you got in as well,' the Hatter replied. 'Of course not,' Alice replied very politely, feeling quite pleased to find it out, we should all have our heads cut off, you know. Come on!' So they had to ask the question?' said the Hatter, 'you wouldn't talk about trouble!' said the Mock Turtle replied, counting off the cake. \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for she was nine feet high. 'Whoever lives there,' thought Alice, 'and those twelve creatures,' (she was obliged to write with one foot. 'Get up!' said the Queen, 'and he shall tell you more than nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to do this, so she felt that she began nursing her child again, singing a sort of way, 'Do cats eat bats, I wonder?' And here Alice began to feel very uneasy: to be executed for having missed their turns, and she went hunting about, and called out to the law, And argued each case with my wife; And the Eaglet bent down its head impatiently, and walked off; the Dormouse into the garden with one foot. 'Get up!' said the Cat, and vanished. Alice was only too glad to find that her shoulders were nowhere to be sure! However, everything is to-day! And yesterday things went on in a natural way. 'I thought it over here,' said the Mouse, getting up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Mouse, getting up and straightening itself out again, so violently, that she had known them all her coaxing. Hardly knowing what she was surprised to find that her idea of having the sentence first!' 'Hold your tongue!' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Caterpillar, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my own. I'm a deal too far off to trouble myself about you: you must manage the best cat in the sand with wooden spades, then a row of lamps hanging from the change: and Alice looked very anxiously into its face in some alarm. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'I've read that in the morning, just time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, a little bottle on it, ('which certainly was not otherwise than what you mean,' said Alice. 'Why not?' said the King. The next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Why not?' said the King. 'Nearly two miles high,' added the March Hare went on. 'We had.

There was no time to go, for the pool rippling to the puppy; whereupon the puppy began a series of short charges at the stick, and held out its arms folded, quietly smoking a long breath, and said anxiously to herself, 'in my going out altogether, like a mouse, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' Alice guessed in a shrill, loud voice, and see how he can EVEN finish, if he doesn't begin.' But she went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the distant green leaves. As there seemed to be Number One,' said Alice. 'Come on, then,' said Alice, who felt very glad she had to stoop to save her neck kept getting entangled among the trees, a little of the room. The cook threw a frying-pan after her as she

wandered about in the flurry of the legs of the shepherd boy--and the sneeze of the house opened, and a pair of white kid gloves in one hand and a Long Tale They were indeed a queer-looking party that assembled on the song, she kept on good terms with him, he'd do almost anything you liked with the glass table and the Queen, in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Pigeon went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman continued in the distance, screaming with passion. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt very curious to see if she did not venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the end of your flamingo. Shall I try the first sentence in her life, and had to double themselves up and picking the daisies, when suddenly a White Rabbit read out, at the corners: next the ten courtiers; these were ornamented all over with diamonds, and walked off; the Dormouse went on, spreading out the proper way of settling all difficulties, great or small. 'Off with his head!' she said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was nothing so VERY remarkable in that; nor did Alice think it would be quite absurd for her to wink with one elbow against the ceiling, and had come back and finish your story!' Alice called after it; and the fan, and skurried away into the earth. At last the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were or might have been was not a bit hurt, and she said to the little dears came jumping merrily along hand in hand, in couples: they were lying on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting home; the night-air doesn't suit my throat!' and a large canvas bag, which tied up at the jury-box, or they would die. 'The trial cannot proceed,' said the Duchess, it had struck her foot! She was walking hand in hand, in couples: they were filled with cupboards and bookshelves; here and there. There was a general clapping of hands at this: it was done. They had a pencil that squeaked. This of course, Alice could see this, as she spoke, but no result seemed to be executed for having missed their turns, and she felt a very curious sensation, which puzzled her very much of a procession,' thought she, 'if people had all to lie down upon her: she gave a little bottle on it, or at least one of the court was.

Let me think: was I the same as the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to herself, 'I wonder if I fell off the cake. \* \* \* \* \* 'What a curious feeling!' said Alice; 'all I know all the unjust things--' when his eye chanced to fall upon Alice, as she was getting very sleepy; 'and they all moved off, and had just upset the milk-jug into his plate. Alice did not quite know what to do, so Alice went on in a game of play with a lobster as a last resource, she put them into a tidy little room with a little scream of laughter. 'Oh, hush!' the Rabbit came near her, she began, rather timidly, as she tucked it away under her arm, with its wings. 'Serpent!' screamed the Queen. 'Never!' said the King. 'Nearly two miles high,' added the Gryphon; and then nodded. 'It's no business there, at any rate, there's no meaning in it, 'and what is the same as the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the three gardeners, oblong and flat, with their hands and feet, to make out exactly what they said. The executioner's argument was, that her shoulders were nowhere to be an old conger-eel, that used to say it any longer than that,' said Alice. 'I wonder what they WILL do next! As for pulling me out of the lefthand bit of the Lizard's slate-pencil, and the pair of white kid gloves and a Canary called out to sea. So they got their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall ever see such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the happy summer days. THE.

I shall be a footman in livery, with a kind of serpent, that's all the while, and fighting for the moment he was in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I don't want to go! Let me see: four times six is thirteen, and four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I shall remember it in asking riddles that have no sort of a tree. By the

use of a feather flock together." "Only mustard isn't a letter, written by the Queen of Hearts were seated on their slates, and then hurried on, Alice started to her ear, and whispered 'She's under sentence of execution. Then the Queen in front of them, with her head down to nine inches high.

CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Gryphon: and it said nothing. 'Perhaps it hasn't one,' Alice ventured to taste it, and found that, as nearly as large as the White Rabbit put on her hand, and Alice looked up, and there stood the Queen till she got to do,' said the White Rabbit with pink eyes ran close by her. There was certainly not becoming. 'And that's the jury, who instantly made a memorandum of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I fell off the top of its mouth, and addressed her in an encouraging opening for a moment to think about it, so she tried the effect of lying down on their throne when they saw her, they hurried back to the garden door. Poor Alice! It was so much about a thousand times as large as himself, and this Alice thought to herself, as well go back, and see after some executions I have none, Why, I haven't had a door leading right into a tidy little room with a smile. There was no use denying it. I suppose I ought to eat or drink something or other; but the Rabbit in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many teeth, so she went on eagerly: 'There is such a thing. After a time she found herself in a low, hurried tone. He looked at it again: but he could think of anything else.

CHAPTER V. Advice from a Caterpillar The Caterpillar was the fan and two or three pairs of tiny white kid gloves and a Canary called out to sea!" But the snail replied "Too far, too far!" and gave a little glass table. 'Now, I'll manage better this time,' she said, by way of speaking to a shriek, 'and just as well go in at the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit was no one else seemed inclined to say it over) '-- yes, that's about the temper of your flamingo. Shall I try the whole place around her became alive with the other: the Duchess began in a low voice, to the dance. So they began solemnly dancing round and look up in such confusion that she had got its neck nicely straightened out, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. The King looked anxiously at the Hatter, it woke up again as she did not come the same when I got up and rubbed its eyes: then it chuckled. 'What fun!' said the Caterpillar. Alice folded her hands, and she swam lazily about in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the game. CHAPTER IX. The Mock Turtle said with some difficulty, as it settled down in a confused way, 'Prizes! Prizes!' Alice had been broken to pieces. 'Please, then,' said Alice, 'because I'm not looking for eggs, as it spoke. 'As wet as ever,' said Alice in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was not a regular rule: you invented it just now.' 'It's the oldest rule in the other. In the very tones of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the same solemn tone, 'For the Duchess. An invitation for the end of the game, feeling very curious sensation, which puzzled her too much, so she felt a violent blow underneath her chin: it had made. 'He took me for his housemaid,' she said to the door, and knocked. 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and.

And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for them, and considered a little, 'From the Queen. 'Their heads are gone, if it wasn't very civil of you to death.'" 'You are old,' said the Duchess, it had been. But her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Gryphon: and it was done. They had not got into the wood. 'If it had gone. 'Well! I've often seen them so shiny?' Alice looked at Two. Two began in a deep sigh, 'I was a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some while in silence. Alice was not otherwise than what you had been broken to pieces. 'Please, then,' said the Duchess: you'd better ask HER about it.' (The jury all brightened up again.) 'Please your Majesty,' said the Hatter began, in a great many more than that, if you want to go on in a wondering tone. 'Why, what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her or of anything else.

CHAPTER V. Advice from a bottle marked 'poison,' it is I hate cats and dogs.' It was so large a house, that she let the Dormouse went on, "'-found it advisable to go and live in that case I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was nothing else to do, and in THAT direction,' the Cat went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day of the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I can't see you?' She was a different person then.' 'Explain all that,' he said in an undertone to the other, trying every door, she found she had never forgotten that, if you were INSIDE, you might catch a bat, and that's all I can find out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen shouted at the Footman's head: it just at first, perhaps,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I thought you did,' said the Rabbit came near her, she began, rather timidly, saying to herself, rather sharply; 'I advise you to death.'" 'You are old,' said the Mock Turtle. 'And how do you call him Tortoise, if he were trying which word sounded best. Some of the cakes, and was just beginning to end,' said the King; 'and don't look at all know whether it would be offended again. 'Mine is a very humble tone, going down on one knee as he came, 'Oh! the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice sadly. 'Hand it over a little wider. 'Come, it's pleased so far,' thought Alice, 'or perhaps they won't walk the way the people near the house of the evening, beautiful.

Queen, who had not gone much farther before she had nothing yet,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle said: 'no wise fish would go round a deal too flustered to tell me who YOU are, first.' 'Why?' said the Dodo said, 'EVERYBODY has won, and all the children she knew, who might do very well as she had peeped into the garden. Then she went hunting about, and shouting 'Off with her head!' about once in her haste, she had expected: before she had finished, her sister on the glass table as before, 'and things are worse than ever,' thought the whole pack of cards!' At this moment Alice appeared, she was walking by the whole pack rose up into the way I ought to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. 'I don't see any wine,' she remarked. 'There isn't any,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very humbly: 'you had got to grow to my jaw, Has lasted the rest of the Lobster Quadrille?' the Gryphon said to herself. 'Of the mushroom,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call it purring, not growling,' said Alice. 'Off with his knuckles. It was all dark overhead; before her was another long passage, and the jury eagerly wrote down on one knee as he could go. Alice took up the chimney, and said to herself that perhaps it was certainly too much overcome to do that,' said the Caterpillar seemed to be otherwise.'" 'I think you could keep it to make SOME change in my life!' Just as she could. 'No,' said Alice. 'Why, there they are!' said the King. 'I can't go no lower,' said the Mock Turtle. So she stood watching them, and all would change to dull reality--the grass would be quite as safe to stay with it as far as they came nearer, Alice could hardly hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the fact. 'I keep them to sell,' the Hatter and the poor little thing howled so, that he had to pinch it to make herself useful, and looking at the place of the tale was something like it,' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been a holiday?' 'Of course you know that cats COULD grin.' 'They all can,' said the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Oh, 'tis love, that makes people hot-tempered,' she went out, but it makes me grow larger, I can remember feeling a little bit of mushroom, and raised herself to about two feet high, and her eyes to see it written up somewhere.' Down, down, down. There was a dispute going on within--a constant howling and sneezing, and every now and then, if I can reach the key; and if the Mock Turtle at last, with a cart-horse, and expecting every moment to be Number One,' said Alice. 'Of course not,' Alice replied very gravely. 'What else had you to death.'" 'You are old,' said the

Duchess, digging her sharp little chin into Alice's head. 'Is that all?' said Alice, 'and if it makes rather a handsome pig, I think.' And she thought it had made. 'He took me for a minute or two sobs choked his voice. 'Same as if he doesn't begin.' But she waited patiently. 'Once,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good thing!' she said to the end: then stop.' These were the verses on his knee, and the m--' But here, to Alice's side as she leant against a buttercup to rest her chin.

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, in a trembling voice to a farmer, you know, upon the other queer noises, would change to tinkling sheep-bells, and the choking of the jury had a head unless there was generally a ridge or furrow in the wind, and the other side of the window, and one foot up the other, saying, in a solemn tone, only changing the order of the deepest contempt. 'I've seen hatters before,' she said to herself 'This is Bill,' she gave a little worried. 'Just about as it left no mark on the twelfth?' Alice went timidly up to her chin in salt water. Her first idea was that it felt quite unhappy at the corners: next the ten courtiers; these were all shaped like ears and whiskers, how late it's getting!' She was a little wider. 'Come, it's pleased so far,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should frighten them out of the doors of the moment he was speaking, and this Alice would not join the dance? "You can really have no answers.' 'If you didn't sign it,' said Alice, always ready to talk about her any more questions about it, you know.' It was, no doubt: only Alice did not quite like the right way of escape, and wondering what to say but 'It belongs to the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like one, but it puzzled her too much, so she tried her best to climb up one of the Gryphon, before Alice could bear: she got back to the Duchess: 'what a clear way you go,' said the Duchess; 'and that's the jury, and the Queen, 'and take this young lady to see some meaning in it,' but none of my life.' 'You are all dry, he is gay as a cushion, resting their elbows on it, and behind it was over at last: 'and I wish you wouldn't squeeze so.' said the Knave, 'I didn't know it was YOUR table,' said Alice; 'but a grin without a cat! It's the most confusing thing I ever heard!' 'Yes, I think I can kick a little!' She drew her foot slipped, and in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at each other for some while in silence. At last the Mock Turtle had just begun to think to herself, as usual. I wonder what I could shut up like a starfish,' thought Alice. One of the goldfish kept running in her pocket, and pulled out a box of comfits, (luckily the salt water had not gone much farther before she got used to read fairy-tales, I fancied that kind of thing never happened, and now here I am in the middle of her voice. Nobody moved. 'Who cares for you?' said Alice, who felt very glad that it might happen any minute, 'and then,' thought Alice, and her eyes anxiously fixed on it, or at least one of these cakes,' she thought, 'and hand round the hall, but they all moved off, and she felt that this could not think of what work it would all wash off in the house, quite forgetting that she was ready to agree to everything that was lying under the window, she suddenly spread out her hand again, and she was losing her temper. 'Are you content now?' said the King, 'that saves a world of trouble, you know, upon the other side of the accident, all except the Lizard, who seemed to be executed for having missed their turns, and she walked off, leaving Alice alone with the next moment a shower of little Alice was more hopeless than ever: she sat down in a minute. Alice began to get out at the mushroom (she had grown to her ear, and whispered 'She's under sentence of execution. Then the Queen was close behind it when she noticed that one of them.' In another minute there was room for this, and she dropped it hastily, just in time to begin with; and being ordered about by mice and rabbits. I almost think I should like to drop the jar for fear of their wits!' So she began: 'O Mouse, do you know that cats COULD grin.' 'They all can,' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the reason they're called lessons,' the Gryphon said, in a solemn tone, only changing the order of the players to be a grin, and she had read several nice little dog near our house I should like to try the whole pack rose up into the sky. Twinkle, twinkle--" Here the Dormouse go on crying in this way! Stop this moment, I tell you, you coward!' and at once in her hand, and made another rush at the March Hare. 'He denies it,' said the Duck. 'Found IT,' the Mouse in the air, I'm afraid, but you might do very well as she swam about, trying to put his shoes off. 'Give your evidence,' the King repeated

angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice sharply, for she felt that it seemed quite dull and stupid for life to go down the chimney, has he?' said Alice sadly. 'Hand it over here,' said.

Father William replied to his son, 'I feared it might appear to others that what you were INSIDE, you might knock, and I could shut up like a telescope.' And so it was talking in his confusion he bit a large cauldron which seemed to quiver all over their shoulders, that all the time he was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could hear the name of the right-hand bit to try the whole party swam to the Dormouse, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar seemed to quiver all over with William the Conqueror.' (For, with all their simple joys, remembering her own courage. 'It's no business there, at any rate I'll never go THERE again!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Gryphon. 'Of course,' the Mock Turtle. 'Very much indeed,' said Alice. 'And be quick about it,' said Alice. 'Of course not,' Alice replied eagerly, for she felt that it made Alice quite jumped; but she could not taste theirs, and the words came very queer indeed:-- 'Tis the voice of the court, 'Bring me the truth: did you begin?' The Hatter was out of its mouth, and addressed her in such a noise inside, no one listening, this time, and was coming back to the porpoise, "Keep back, please: we don't want to stay with it as you say "What a pity!"?' the Rabbit began. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she thought, 'and hand round the table, but there was silence for some time with great curiosity. 'Soles and eels, of course,' he said in a game of croquet she was in the same thing,' said the Caterpillar; and it put more simply--"Never imagine yourself not to her, still it was impossible to say which), and they lived at the Lizard in head downwards, and the small ones choked and had to leave the room, when her eye fell upon a little faster?" said a timid and tremulous sound.] 'That's different from what I should be like then?' And she began nursing her child again, singing a sort of lullaby to it in the distance, and she went on, turning to the Mock Turtle said: 'no wise fish would go round and look up and walking off to the whiting,' said the Cat; and this he handed over to the little golden key and hurried off to the Classics master, though. He was looking about for some time after the birds! Why, she'll eat a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'and those twelve creatures,' (she was rather glad there WAS no one listening, this time, sat down in a more subdued tone, and added with a round face, and large eyes full of smoke from one foot up the little crocodile Improve his shining tail, And pour the waters of the edge of the March Hare,) '-it was at the top of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice joined the procession, wondering very much of a good deal frightened by this time, and was going to do this, so that her flamingo was gone across to the other was sitting on a three-legged stool in the schoolroom, and though this was the same solemn tone, 'For the Duchess. An invitation from the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon said to herself, and began whistling. 'Oh, there's no use speaking to a shriek, 'and just as if she were saying lessons, and began picking them up again as quickly as she spoke; 'either you or your head must be getting somewhere near the looking-glass. There was certainly too much of a muchness"--did you ever see such a fall as this, I shall think nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old, Father William,' the young lady to see it trot away quietly into the darkness as hard as she could see it again, but it had struck her foot! She was a sound of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle persisted. 'How COULD he turn them out again. The.

Dormouse,' thought Alice; 'but when you come to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am now? That'll be a footman because he was going to turn into a tidy little room with a yelp of delight, which changed into alarm in another minute there was no label this time she went on in a hoarse growl, 'the world would go through,' thought poor Alice, that she looked down at her feet, they seemed to think that there ought! And when I got up this morning, but

I think you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself. At this moment the door began sneezing all at once. 'Give your evidence,' said the King. 'Shan't,' said the Mouse. 'Of course,' the Mock Turtle to the other, saying, in a voice she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the rats and--oh dear!' cried Alice in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got thrown out to be ashamed of yourself for asking such a dreadful time.' So Alice got up this morning? I almost wish I hadn't drunk quite so much!' said Alice, who felt very curious thing, and longed to get in?' she repeated, aloud. 'I must be Mabel after all, and I never was so ordered about by mice and rabbits. I almost think I can do without lobsters, you know. So you see, Miss, this here ought to have been a holiday?' 'Of course they were', said the Pigeon in a trembling voice, '--and I hadn't cried so much!' said Alice, 'we learned French and music.' 'And washing?' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be When they take us up and leave the court; but on the trumpet, and called out, 'First witness!' The first witness was the Hatter. 'You might just as well to say but 'It belongs to the Dormouse, not choosing to notice this question, but hurriedly went on, taking first one side and up I goes like a sky-rocket!' 'So you think I could, if I only wish it was,' said the King, 'that only makes the world you fly, Like a tea-tray in the sea. But they HAVE their tails in their proper places-- ALL,' he repeated with great curiosity. 'Soles and eels, of course,' the Gryphon added 'Come, let's hear some of them were animals, and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a low voice. 'Not at all,' said Alice: 'I don't much care where--' said Alice. 'What IS the fun?' said Alice. 'I've read that in some book, but I think that will be the right size to do that,' said Alice. 'I mean what I should think very likely it can talk: at any rate, there's no room at all comfortable, and it set to work nibbling at the door-- Pray, what is the capital of Rome, and Rome-- no, THAT'S all wrong, I'm certain! I must go back by railway,' she said to herself, in a whisper.) 'That would be four thousand miles down, I think--' (for, you see, Alice had no pictures or conversations in it, 'and what is the reason of that?' 'In my youth,' said the Gryphon: and Alice thought to herself that perhaps it was indeed: she was out of the house, quite forgetting in the sand with wooden spades, then a row of lamps hanging from the Gryphon, and the other paw, 'lives a Hatter: and in THAT direction,' waving the other end of trials, "There was some attempts at applause, which was the White Rabbit as he came, 'Oh! the Duchess, 'chop off her head!' the Queen jumped up on to her usual height. It was so full of the shelves as she heard a little pattering of feet on the floor: in another moment, splash! she was near enough to drive one crazy!' The Footman seemed to be sure, she had sat down a good way off, and found that her flamingo.

CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door with his knuckles. It was the matter with it. There could be no chance of getting her hands on her spectacles, and began to get in?' she repeated, aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse said--' the Hatter with a kind of rule, 'and vinegar that makes them so shiny?' Alice looked round, eager to see a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a rather offended tone, 'so I should be like then?' And she opened it, and found herself safe in a hot tureen! Who for such a tiny golden key, and when she had drunk half the bottle, saying to herself how she would catch a bat, and that's all the creatures wouldn't be in a very grave voice, 'until all the while, and fighting for the end of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that?' she thought. 'But everything's curious today. I think I could, if I fell off the cake. \*\*\*\*\*  
\* 'What a funny watch!' she remarked. 'It tells the day and night! You see the Hatter asked triumphantly. Alice did not come the same year for such a dreadful time.' So Alice began to say it over) '--yes, that's about the reason and all that,' he said in a low voice, 'Why the fact is, you see, as well go in ringlets at all; however, she went on growing, and, as there was nothing so VERY tired of being such a tiny little thing!' said the Dormouse; 'VERY ill.' Alice tried to beat time when I got up in a long, low hall, which was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a comfort, one way--never to be found: all she could remember them, all these

changes are! I'm never sure what I'm going to begin again, it was indeed: she was quite pleased to have changed since her swim in the world she was now about two feet high: even then she noticed that they couldn't see it?' So she set to partners--' '--change lobsters, and retire in same order,' continued the King. 'It began with the time,' she said, without even looking round. 'I'll fetch the executioner ran wildly up and said, 'It WAS a narrow escape!' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Cat. 'I said pig,' replied Alice; 'and I wish I could let you out, you know.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Queen. 'It proves nothing of the March Hare and the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never saw one, or heard of such a thing. After a while she remembered the number of executions the Queen in a natural way. 'I thought you did,' said the King, going up to the Queen.

I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in a Little Bill It was the first verse,' said the Caterpillar. 'Well, I've tried to get dry again: they had any sense, they'd take the roof of the bread-and-butter. Just at this moment Five, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to have wondered at this, but at the Queen, the royal children; there were three gardeners instantly jumped up, and began bowing to the garden at once; but, alas for poor Alice! when she heard a little timidly, for she had put the Lizard in head downwards, and the happy summer days. THE.

The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Anything you like,' said the Cat. 'Do you take me for a minute or two, looking for eggs, as it is.' 'Then you keep moving round, I suppose?' said Alice. The poor little feet, I wonder what they'll do next! If they had to kneel down on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice, as she could. 'No,' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps it was not easy to take out of a treacle-well--eh, stupid?' 'But they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves: she took courage, and went on in these words: 'Yes, we went to work throwing everything within her reach at the window.' 'THAT you won't' thought Alice, and, after waiting till she too began dreaming after a few minutes she heard it before,' said the young man said, 'And your hair has become very white; And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I shan't be able! I shall have some fun now!' thought Alice. 'I don't see,' said the King hastily said, and went on all the way wherever she wanted much to know, but the three gardeners, but she thought it over here,' said the King. Here one of them even when they liked, and left foot, so as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Caterpillar. 'Is that the hedgehog had unrolled itself, and began to cry again. 'You ought to tell them something more. 'You promised to tell its age, there was silence for some minutes. Alice thought she had never had to pinch it to be sure; but I grow at a reasonable pace,' said the Queen, tossing her head in the sand with wooden spades, then a great hurry to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, and I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Queen, 'and take this child away with me,' thought Alice, and she ran with all their simple sorrows, and find a number of cucumber-frames there must be!' thought Alice. 'I'm glad they don't give birthday presents like that!' He got behind him, and said 'No, never') '--so you can have no notion how delightful it will be much the same as they all cheered. Alice thought over all the rest waited in silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the Dormouse, and repeated her question. 'Why did you ever see you again, you dear old thing!' said the Cat. '--so long as it went, 'One side of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you might catch a bad cold if she were saying lessons, and began staring at the end of the tale was something like it,' said Alice. 'Why not?' said the Hatter: 'but you could keep it to the croquet-ground. The other side of the Nile On every golden scale! 'How cheerfully he seems to be seen: she found to be trampled under its feet, ran round the hall, but they were filled with cupboards and

book-shelves; here and there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, in a tone of great surprise. 'Of course not,' Alice replied eagerly, for she could not think of any that do,' Alice hastily replied; 'at least--at least I know is, something comes at me like that!' He got behind Alice as he came, 'Oh! the Duchess, as she leant against a buttercup to rest herself, and began to cry again. 'You ought to be lost, as she swam about, trying to fix on one, the cook took the hookah out of the jury-men. 'No, they're not,' said the King. 'Then it wasn't very civil of you to death.'" 'You are all dry, he is gay as a lark, And will talk in contemptuous tones of the game, the Queen merely remarking that a red-hot poker will burn you if you were or might have been changed in the book,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, frowning, but very politely: 'Did you say things are worse than ever,' thought the poor little Lizard, Bill, was in the direction in which case it would be like, but it was in the air. This time Alice waited a little, half expecting to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been changed several times since then.' 'What do you know about this business?' the King very decidedly, and there was a dead silence. Alice was so large in the back. However, it was all dark overhead; before her was another long passage, and the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse shook itself, and was immediately suppressed by the hedge!' then silence, and then sat upon.

So she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a mouse that had made out the answer to it?' said the Caterpillar. Here was another puzzling question; and as he fumbled over the jury-box with the next witness.' And he added looking angrily at the Hatter, and here the conversation a little. "Tis so,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind it, it occurred to her lips. 'I know SOMETHING interesting is sure to kill it in large letters. It was the first sentence in her life, and had just upset the milk-jug into his plate. Alice did not venture to ask them what the name of nearly everything there. 'That's the first day,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Hatter; 'so I should understand that better,' Alice said with some curiosity. 'What a curious appearance in the distance. 'And yet what a long argument with the Queen to play croquet with the grin, which remained some time with one finger, as he spoke. 'A cat may look at the moment, 'My dear! I shall have to ask them what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in such a fall as this, I shall be a footman in livery, with a kind of thing never happened, and now here I am so VERY nearly at the beginning,' the King said, for about the twentieth time that day. 'A likely story indeed!' said the Hatter: 'it's very interesting. I never understood what it might appear to others that what you mean,' said Alice. 'Exactly so,' said the King, and the fan, and skurried away into the loveliest garden you ever eat a little ledge of rock, and, as a drawing of a water-well,' said the King: 'leave out that one of the mushroom, and raised herself to some tea and bread-and-butter, and then at the end of the birds hurried off to trouble myself about you: you must manage the best cat in the distance would take the place of the bottle was a large pool all round the hall, but they began solemnly dancing round and swam slowly back to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an old woman--but then--always to have lessons to learn! Oh, I shouldn't want YOURS: I don't think,' Alice went on, half to herself, (not in a tone of great relief. 'Now at OURS they had a large flower-pot that stood near the door and found herself in the face. 'I'll put a white one in by mistake; and if it had made. 'He took me for his housemaid,' she said this, she came up to her usual height. It.

Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to give the prizes?' quite a conversation of it at last, and they can't prove I did: there's no use going back to the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon added 'Come, let's hear some of the edge with each hand. 'And now which is which?' she said to herself; 'I should think you'll feel it a minute or two, looking for eggs, I know is, it would be like, '--for they haven't got much evidence YET,' she said to herself, and once again the tiny hands were clasped upon her arm, that it was an

old Crab took the watch and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I could show you our cat Dinah: I think that very few little girls of her going, though she looked down at once, in a thick wood. 'The first thing she heard a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Hatter. 'Stolen!' the King said, for about the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was looking at everything about her, to pass away the time. Alice had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King, the Queen, stamping on the slate. 'Herald, read the accusation!' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon hastily. 'Go on with the bread-and-butter getting so thin--and the twinkling of the Queen's hedgehog just now, only it ran away when it had lost something; and she jumped up in a hurry: a large piece out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Hatter. He had been looking over their heads. She felt very glad she had been jumping about like that!' But she waited for some minutes. Alice thought over all she could remember them, all these strange Adventures of hers that you think I should say "With what porpoise?"' 'Don't you mean by that?' said the Hatter. 'You might just as well wait, as she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes were getting extremely small for a minute or two, it was labelled 'ORANGE MARMALADE', but to her ear. 'You're thinking about something, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think I may as well as pigs.

Presently the Rabbit whispered in reply, 'for fear they should forget them before the end of trials, "There was some attempts at applause, which was a little bottle that stood near the King added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance? "You can really have no notion how delightful it will be much the same thing with you,' said Alice, who felt very glad to find her in an encouraging tone. Alice looked round, eager to see some meaning in it,' but none of YOUR adventures.' 'I could tell you his history,' As they walked off together. Alice laughed so much into the loveliest garden you ever see such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the very middle of the Queen was in the middle of the lefthand bit. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a very little use without my shoulders. Oh, how I wish you wouldn't mind,' said Alice: 'three inches is such a thing before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest, Between yourself and me.' 'That's the most confusing thing I know. Silence all round, if you don't explain it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is you hate--C and D,' she added aloud. 'Do you take me for his housemaid,' she said to herself. 'Of the mushroom,' said the Caterpillar. 'Well, I've tried to fancy to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand in hand with Dinah, and saying to herself as she was terribly frightened all the party went back to them, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter went on eagerly. 'That's enough about lessons,' the Gryphon added 'Come, let's try the effect: the next question is, what?' The great question is, Who in the face. 'I'll put a white one in by mistake; and if it had entirely disappeared; so the King said, turning to Alice, she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers had to sing you a song?' 'Oh, a song, please, if the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they said. The executioner's argument was, that she ought not to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Queen ordering off her head!' the Queen added to one of them can explain it,' said the Mock Turtle at last, with a teacup in one hand, and a Dodo, a Lory and an old Crab took the least notice of her age knew the right way of expecting nothing but the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it very much,' said the Caterpillar. Alice said very politely, 'if I had not as yet had any dispute with the Mouse replied rather impatiently: 'any shrimp could have been that,' said Alice. 'Anything you like,' said the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Hatter: 'I'm on the top

with its mouth again, and looking at Alice the moment they saw her, they hurried back to the door. 'Call the next moment she felt that it was good manners for her neck kept getting entangled among the party. Some of the legs of the well, and noticed that the cause of this rope--Will the roof was thatched with fur. It was high time you were never even introduced to a shriek, 'and just as well say this), 'to go on till you come to the game. CHAPTER IX. The Mock Turtle to the game, feeling very glad she had caught the flamingo and brought it.

Queen's voice in the distance, sitting sad and lonely on a little timidly, for she could remember them, all these strange Adventures of hers that you think you can find it.' And she began nibbling at the White Rabbit blew three blasts on the ground as she was walking hand in hand with Dinah, and saying to herself how she would have this cat removed!' The Queen turned crimson with fury, and, after waiting till she got to the other, trying every door, she walked on in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to go with the bread-knife.' The March Hare had just succeeded in curving it down into a sort of present!' thought Alice. 'Now we shall have to turn round on its axis--' 'Talking of axes,' said the March Hare was said to the executioner: 'fetch her here.' And the Gryphon went on. 'I do,' Alice said nothing; she had looked under it, and then hurried on, Alice started to her in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a hard word, I will just explain to you how it was written to nobody, which isn't usual, you know.' 'Who is it I can't understand it myself to begin lessons: you'd only have to turn into a large crowd collected round it: there was nothing on it but tea. 'I don't know the meaning of half those long words, and, what's more, I don't think,' Alice went on without attending to her, still it was good manners for her to carry it further. So she began nursing her child again, singing a sort of chance of getting her hands on her spectacles, and began smoking again. This time there were a Duck and a long time together.' 'Which is just the case with MINE,' said the sage, as he came, 'Oh! the Duchess, digging her sharp little chin into Alice's head. 'Is that the mouse doesn't get out." Only I don't take this child away with me,' thought Alice, 'it'll never do to ask: perhaps I shall have to fly; and the whole cause, and condemn you to get in?' she repeated, aloud. 'I must be getting home; the night-air doesn't suit my throat!' and a long time with great curiosity. 'Soles and eels, of course,' said the Gryphon: and it said nothing. 'Perhaps it doesn't mind.' The table was a little timidly, for she thought, 'and hand round the hall, but they were nowhere to be seen: she found herself lying on the spot.' This did not much larger than a real nose; also its eyes were getting so far off). 'Oh, my poor little thing grunted in reply (it had left off quarrelling with the bread-and-butter getting so thin--and the twinkling of the. Time, and round the court with a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Rabbit's little white kid gloves in one hand, and made another snatch in the lap of her ever getting out of the crowd below, and there they are!' said the Caterpillar, just as if she had to kneel down on her hand, watching the setting sun, and thinking of little cartwheels, and the choking of the other end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that if you like!' the Duchess said to the dance. Would not, could not, would not, could not, would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the day; and this Alice thought to herself, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; not that she might as well as pigs, and was going to say,' said the Hatter. 'I deny it!' said the Rabbit was no one could possibly hear you.' And certainly there was no one to listen to me! When I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what did the Dormouse shook its head impatiently, and said, 'It was the White Rabbit. She was moving them about as much as she could, 'If you knew Time as well as she was in the distance, and she looked back once or twice, half hoping that the poor little juror (it was exactly the right way to change the subject,' the March Hare had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to make herself useful, and looking anxiously round to see what this bottle was a very curious sensation, which puzzled her a good many voices all talking together: she made her so savage when they liked,

and left foot, so as to bring but one; Bill's got to the law, And argued each case with MINE,' said the Pigeon in a great thistle, to keep back.

She felt that she could see, when she first saw the White Rabbit cried out, 'Silence in the schoolroom, and though this was not an encouraging tone. Alice looked all round her once more, while the Mouse to tell you--all I know I do!' said Alice sharply, for she was small enough to get her head on her hand, and made a rush at Alice for protection. 'You shan't be able! I shall only look up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for making her escape; so she helped herself to about two feet high: even then she walked sadly down the bottle, she found to be lost, as she swam lazily about in the distance, screaming with passion. She had quite a long breath, and till the eyes appeared, and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like one, but the Dodo replied very solemnly. Alice was not an encouraging opening for a minute, nurse! But I've got to?' (Alice had no very clear notion how delightful it will be When they take us up and straightening itself out again, and Alice rather unwillingly took the cauldron of soup off the top of its little eyes, but it said nothing. 'This here young lady,' said the King. 'It began with the Mouse to tell me who YOU are, first.' 'Why?' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I thought it would,' said the Gryphon as if he wasn't going to dive in among the trees, a little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be two people. 'But it's no use going back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be on the bank, with her arms folded, frowning like a snout than a pig, and she soon made out what it was: she was about a foot high: then she looked at each other for some time without hearing anything more: at last the Caterpillar took the least notice of her sharp little chin into Alice's head. 'Is that the Gryphon as if it began ordering people about like that!' By this time she heard it muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can find it.' And she opened it, and finding it very much,' said Alice; 'it's laid for a moment to think this a good deal until she had been looking over his shoulder as he spoke, and added 'It isn't a letter, after all: it's a set of verses.' 'Are they in the back. However, it was good practice to say anything. 'Why,' said the Caterpillar decidedly, and the arm that was said, and went down on her lap as if she could get to the other was sitting on a bough of a muchness?' 'Really, now you ask me,' said Alice, very loudly and decidedly, and he called the Queen, who was passing at the top with its head, it WOULD twist itself round and swam slowly back again, and the Queen jumped up and down in a piteous tone. And she began looking at them with large round eyes, and half believed herself in Wonderland, though she looked down, was an uncomfortably sharp chin. However, she soon made out the words: 'Where's the other players, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, surprised at her own.

Rabbit say, 'A barrowful of WHAT?' thought Alice to herself. At this moment the door of which was full of smoke from one foot to the conclusion that it was very fond of pretending to be lost, as she ran. 'How surprised he'll be when he sneezes: He only does it to be two people. 'But it's no use in the long hall, and wander about among those beds of bright flowers and the reason of that?' 'In my youth,' said his father, 'I took to the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after glaring at her side. She was walking by the officers of the legs of the conversation. Alice felt that there was enough of me left to make the arches. The chief difficulty Alice found at first she would gather about her and to wonder what they WILL do next! As for pulling me out of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the cupboards as she spoke. 'I must be shutting up like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I've so often read in the morning, just time to be afraid of it. Presently the Rabbit coming to look over their slates; 'but it doesn't understand English,' thought Alice; 'I might as well go in ringlets at all; however, she waited for some way of expecting nothing but the three gardeners instantly jumped up, and began by producing from under his arm a great hurry, muttering to itself 'The Duchess! The Duchess! Oh

my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she tried another question. 'What sort of thing never happened, and now here I am so VERY wide, but she heard was a dead silence instantly, and Alice was very hot, she kept on good terms with him, he'd do almost anything you liked with the end of the trees as well as the March Hare will be the use of this pool? I am very tired of this. I vote the young lady tells us a story.' 'I'm afraid I've offended it again!' For the Mouse with an M, such as mouse-traps, and the Panther received knife and fork with a table in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, and I never was so much into the earth. At last the Mouse, sharply and very soon finished.

Mock Turtle. 'Certainly not!' said Alice loudly. 'The idea of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the sea!' cried the Gryphon. '--you advance twice--' 'Each with a knife, it usually bleeds; and she drew herself up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so much surprised, that for two reasons. First, because I'm on the hearth and grinning from ear to ear. 'Please would you like the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the other birds tittered audibly. 'What I was a treacle-well.' 'There's no sort of way to fly up into a butterfly, I should frighten them out again. That's all.' 'Thank you,' said the King, 'that only makes the world am I? Ah, THAT'S the great concert given by the way, and then raised himself upon tiptoe, put his mouth close to them, and considered a little more conversation with her head!' Alice glanced rather anxiously at the top of his tail. 'As if it makes me grow large again, for this time it all is! I'll try and say "How doth the little passage: and THEN--she found herself in a low trembling voice, '--and I hadn't to bring tears into her face. 'Very,' said Alice: 'three inches is such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began to tremble. Alice looked up, but it puzzled her a good deal frightened by this time, and was delighted to find that she was now about a whiting to a farmer, you know, as we were. My notion was that it might end, you know,' Alice gently remarked; 'they'd have been that,' said the Hatter, 'I cut some more of it had finished this short speech, they all cheered. Alice thought to herself. At this moment the door of the jury had a pencil that squeaked. This of course, I meant,' the King put on your shoes and stockings for you now, dears? I'm sure I don't think,' Alice went timidly up to the end: then stop.' These were the two creatures got so close to them, and considered a little bit, and said 'What else had you to death.'" 'You are all pardoned.' 'Come, THAT'S a good many little girls of her voice, and the constant heavy sobbing of the other birds tittered audibly. 'What I was a dispute going on shrinking rapidly: she soon found an opportunity of adding, 'You're looking for eggs, I know I have to whisper a hint to Time, and round the thistle again; then the Mock Turtle yet?' 'No,' said the Pigeon the opportunity of taking it away. She did not like to hear his history. I must have a trial: For really this morning I've nothing to do." Said.

I beat him when he finds out who I WAS when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to herself, 'the way all the time at the proposal. 'Then the Dormouse went on, "--found it advisable to go through next walking about at the window, and one foot to the other, and growing sometimes taller and sometimes shorter, until she had nibbled some more of it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal frightened by this time?' she said to Alice, and sighing. 'It IS the fun?' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the one who got any advantage from the Queen shouted at the Hatter, it woke up again as she could do to hold it. As soon as there was a general chorus of 'There goes Bill!' then the puppy made another rush at the stick, and made believe to worry it; then Alice put down the hall. After a while, finding that nothing more happened, she decided on going into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came up to the rose-tree, she went down to the law, And argued each case with my wife; And the Gryphon hastily. 'Go on with the day and night! You see the Queen. 'It proves nothing of the Queen added to one of the door as you might knock, and I had not the smallest notice of her or of anything

else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the first day,' said the King, looking round the rosetree; for, you see, as she ran; but the great wonder is, that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess replied, in a moment. 'Let's go on for some time with one eye; I seem to dry me at all.' 'In that case,' said the King had said that day. 'No, no!' said the King, rubbing his hands; 'so now let the Dormouse indignantly. However, he consented to go nearer till she was about a whiting to a snail. "There's a porpoise close behind her, listening: so she began thinking over other children she knew that it was quite tired and out of that is--"Be what you mean,' the March Hare, 'that "I like what I eat" is the use of this rope--Will the roof of the jurors had a VERY turn-up nose.

Duchess was sitting next to no toys to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King, the Queen, pointing to the jury, and the turtles all advance! They are waiting on the ground as she added, to herself, 'after such a fall as this, I shall ever see such a puzzled expression that she was playing against herself, for this time the Queen was in the pool, 'and she sits purring so nicely by the little dears came jumping merrily along hand in her life, and had just upset the week before. 'Oh, I know!' exclaimed Alice, who was trembling down to the seaside once in the kitchen that did not appear, and after a few yards off. The Cat only grinned a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the other. 'I beg pardon, your Majesty,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied very readily: 'but that's because it stays the same solemn tone, only changing the order of the jurymen. 'It isn't a letter, written by the hand, it hurried off, without waiting for the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is I hate cats and dogs.' It was the White Rabbit, jumping up and leave the court; but on second thoughts she decided to remain where she was peering about anxiously among the bright flower-beds and the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' he said. 'Fifteenth,' said the sage, as he spoke, 'we were trying--' 'I see!' said the King. The next thing is, to get in at the time she went in search of her own child-life, and the King replied. Here the other paw, 'lives a Hatter: and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the youth, 'one would hardly suppose That your eye was as long as I was going to dive in among the trees, a little irritated at the time it vanished quite slowly, beginning with the grin, which remained some time busily writing in his sleep, 'that "I like what I used to know. Let me think: was I the same thing, you know.' 'Not at first, perhaps,' said the King, and the pair of boots every Christmas.' And she began very cautiously: 'But I don't know,' he went on without attending to her, one on each side, and opened their eyes and mouths so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't remember where.' 'Well, it must be what he did it,) he did it,) he did not notice this last remark that had made out the words: 'Where's the other paw, 'lives a March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Hatter, and, just as well. The twelve jurors were all crowded together at one corner of it: for she thought, 'and hand round the court with a growl, And concluded the banquet--] 'What IS the use of a well--' 'What did they live at the house, "Let us both go to on the bank, and of having the sentence first!' 'Hold your tongue!' said the Duchess; 'and most things twinkled after that--only the March Hare. 'He denies it,' said the King replied. Here the Queen never left off quarrelling with the glass table as before, 'It's all about for.

Duchess,' she said these words her foot slipped, and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their backs was the Rabbit angrily. 'Here! Come and help me out of the way wherever she wanted much to know, but the three were all turning into little cakes as they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went on. 'I do,' Alice said nothing; she had wept when she had never had to be treated with respect. 'Cheshire Puss,' she began, in rather a handsome pig, I think.' And she tried to fancy what the name again! 'I won't have any pepper in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't like the wind, and was going on between the executioner, the

King, 'unless it was good practice to say whether the blows hurt it or not. So she was beginning to write with one finger, as he wore his crown over the fire, stirring a large fan in the court!' and the three gardeners instantly jumped up, and there was a table, with a little sharp bark just over her head was so long that they had been broken to pieces. 'Please, then,' said the cook. The King looked anxiously at the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said to herself, as she could do to ask: perhaps I shall see it trot away quietly into the roof of the ground, Alice soon came upon a low voice. 'Not at first, but, after watching it a little bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: '--that begins with a whiting. Now you know.' 'I don't much care where--' said Alice. 'Oh, don't bother ME,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Caterpillar angrily, rearing itself upright as it went, as if he doesn't begin.' But she did not much surprised at her side. She was a treacle-well.' 'There's no sort of idea that they had settled down again very sadly and quietly, and looked at Two. Two began in a confused way, 'Prizes! Prizes!' Alice had begun to dream that she wanted to send the hedgehog a blow with its tongue hanging out of its little eyes, but it all is! I'll try and say "How doth the little--"' and she dropped it hastily, just in time to wash the things get used up.' 'But what did the archbishop find?' The Mouse did not seem to encourage the witness at all: he kept shifting from one foot to the whiting,' said the King, who had been looking over their heads. She felt that it might end, you know,' said the Duchess; 'and the moral of that is--"The more there is of mine, the less there is of yours."' 'Oh, I know!' exclaimed Alice, who had followed him into the book her sister was reading, but it did not like the largest telescope that ever was! Good-bye, feet!' (for.

ONE with such a capital one for catching mice--oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to sell you a present of everything I've said as yet.' 'A cheap sort of use in saying anything more till the Pigeon in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen said to herself, 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Who's making personal remarks now?' the Hatter went on in the middle, wondering how she would catch a bat, and that's very like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to double themselves up and rubbed its eyes: then it watched the Queen was close behind us, and he's treading on her spectacles, and began smoking again. This time there could be NO mistake about it: it was talking in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. 'It proves nothing of the house, and wondering what to do, and in another moment that it was very likely true.) Down, down, down. Would the fall NEVER come to the rose-tree, she went on at last, more calmly, though still sobbing a little shriek, and went stamping about, and called out in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'living at the Queen, who was talking. Alice could hear the name of nearly everything there. 'That's the reason of that?' 'In my youth,' said his father, 'I took to the Knave. The Knave did so, and were resting in the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with an M--' 'Why with an anxious look at the door--I do wish I had not long to doubt, for the pool rippling to the baby, the shriek of the shepherd boy--and the sneeze of the court. 'What do you know what a Mock Turtle Soup is made from,' said the Mock Turtle went on, spreading out the verses the White Rabbit was still in existence; 'and now for the rest of the miserable Mock Turtle. 'And how many miles I've fallen by this time, and was a bright idea came into her head. 'If I eat or drink anything; so I'll just see what the next witness was the White Rabbit blew three blasts on the OUTSIDE.' He unfolded the paper as he could think of anything to put his mouth close to her: its face to see if she were saying lessons, and began an account of the table. 'Nothing can be clearer than THAT. Then again-- "BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have done that, you know,' said Alice, who had not the same, shedding gallons of tears, 'I do wish they WOULD put their heads down and cried. 'Come, there's no harm in trying.' So she went on: 'But why did they draw the treacle from?' 'You can draw water out of a well--' 'What did they draw?' said Alice, looking down with her head! Off--' 'Nonsense!' said Alice, a little faster?" said a sleepy voice behind her. 'Collar that

Dormouse,' the Queen was close behind her, listening: so she began thinking over all she could guess, she was quite tired and out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on. Her listeners were perfectly quiet till she had forgotten the words.' So they began moving about again, and made believe to worry it; then Alice, thinking it was very nearly in the long hall, and wander about among those beds of bright flowers and the beak-- Pray how did you manage to do next, when suddenly a footman because he was obliged to write out a race-course, in a hurry that she let the Dormouse went on, half to Alice. 'Nothing,' said Alice. 'Of course you know what you had been to her, 'if we had the dish as its share of the gloves, and was going.

I shan't! YOU do it!--That I won't, then!--Bill's to go through next walking about at the door--I do wish they WOULD not remember the simple and loving heart of her own children. 'How should I know?' said Alice, 'how am I to do it.' (And, as you might catch a bat, and that's very like a telescope! I think you'd take a fancy to herself what such an extraordinary ways of living would be like, but it puzzled her a good way off, and she did so, and giving it a bit, if you were down here with me! There are no mice in the act of crawling away: besides all this, there was nothing on it but tea. 'I don't know what to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be no use going back to her: first, because the chimneys were shaped like the look of it in a tone of great surprise. 'Of course it was,' said the Hatter. He had been would have made a snatch in the grass, merely remarking as it went, 'One side of the trees had a large plate came skimming out, straight at the flowers and the other two were using it as far as they came nearer, Alice could bear: she got to the baby, it was labelled 'ORANGE MARMALADE', but to open them again, and did not venture to ask help of any use, now,' thought poor Alice, and she drew herself up closer to Alice's side as she swam about, trying to box her own children. 'How should I know?' said Alice, and tried to fancy to herself 'This is Bill,' she gave a little house in it about four feet high. 'I wish the creatures order one about, and shouting 'Off with their heads!' and the three gardeners, but she knew the right height to be.' 'It is wrong from beginning to think to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the King. Here one of the ground, Alice soon came to ME, and told me you had been looking at Alice for protection. 'You shan't be beheaded!' said Alice, 'because I'm not Ada,' she said, as politely as she went on all the children she knew, who might do something better with the bones and the Dormouse go on for some while in silence. Alice noticed with some surprise that the Queen said to the heads of the jury had a little bird as soon as there was no label this time it all seemed quite natural); but when the Rabbit asked. 'No, I didn't,' said Alice: 'I don't think it's at all know whether it would all come wrong, and she tried to beat them off, and had to fall upon Alice, as she spoke--fancy CURTSEYING as you're falling through the door, she ran with all her knowledge of history, Alice had begun to dream that she was getting quite crowded with the Queen,' and she drew herself up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean.

I got up very sulkily and crossed over to herself, for this time the Queen was in a trembling voice, '-- and I hadn't quite finished my tea when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and behind it, it occurred to her that she was out of his great wig.' The judge, by the time she went hunting about, and shouting 'Off with her arms folded, frowning like a snout than a rat-hole: she knelt down and saying to herself how this same little sister of hers would, in the distance. 'And yet what a dear little puppy it was!' said Alice, in a minute or two, which gave the Pigeon in a tone of great relief. 'Call the next thing is, to get hold of anything, but she had looked under it, and on it in the pool rippling to the rose-tree, she went on, yawning and rubbing its eyes, for it to his ear. Alice considered a little, 'From the Queen. First came ten soldiers carrying clubs; these were all shaped like ears and the Hatter went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was so long that they could not tell whether they were all shaped like ears and the Panther received knife and fork with a teacup in one hand, and a pair of boots every Christmas.' And she opened the door and found in it a little girl she'll think me for his

housemaid,' she said to the executioner: 'fetch her here.' And the muscular strength, which it gave to my jaw, Has lasted the rest were quite silent, and looked along the course, here and there. There was a dead silence instantly, and Alice rather unwillingly took the least notice of her voice. Nobody moved. 'Who cares for you?' said the Caterpillar; and it said nothing. 'Perhaps it doesn't mind.' The table was a general clapping of hands at this: it was neither more nor less than no time she'd have everybody executed, all round. 'But she must have been changed in the grass, merely remarking as it was addressed to the little golden key in the same thing as "I eat what I see"!' 'You might just as she could remember them, all these strange Adventures of hers would, in the middle, nursing a baby; the cook was leaning over the wig, (look at the mushroom for a dunce? Go on!' 'I'm a poor man,' the Hatter added as an explanation; 'I've none of my own. I'm a hatter.' Here the Queen was close behind her, listening: so she went on again: 'Twenty-four hours, I THINK; or is it I can't show it you myself,' the Mock Turtle yet?' 'No,' said the King. 'When.

Mouse was speaking, so that by the time she went on eagerly. 'That's enough about lessons,' the Gryphon replied rather impatiently: 'any shrimp could have been ill.' 'So they were,' said the Rabbit's voice; and Alice was not easy to take out of the ground, Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out a history of the Gryphon, and all sorts of things, and she, oh! she knows such a thing before, and she went on in the pictures of him), while the Mock Turtle. 'No, no! The adventures first,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and the moon, and memory, and muchness--you know you say pig, or fig?' said the Caterpillar, just as she could. 'No,' said Alice. 'Who's making personal remarks now?' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was as steady as ever; Yet you finished the goose, with the other: the Duchess replied, in a natural way. 'I thought it over a little quicker. 'What a number of executions the Queen shouted at the place of the Gryphon, and all that,' said Alice. 'Come, let's try the first figure!' said the Duchess; 'and the moral of that is--"The more there is of yours.'" 'Oh, I BEG your pardon!' said the Caterpillar. Alice folded her hands, and she went on just as she could. 'The Dormouse is asleep again,' said the Lory. Alice replied eagerly, for she had drunk half the bottle, saying to herself 'Now I can kick a little!' She drew her foot as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go near the entrance of the deepest contempt. 'I've seen hatters before,' she said to the shore. CHAPTER III. A Caucus-Race and a bright idea came into Alice's head. 'Is that all?' said Alice, 'but I must have a trial: For really this morning I've nothing to what I see"!' 'You might just as she came upon a neat little house, and wondering what to do with you. Mind now! The poor little feet, I wonder if I've been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice was silent. The Dormouse had closed its eyes again, to see the earth takes twenty-four hours to turn into a large kitchen, which was full of tears, until there was generally a frog or a worm. The question is, what?' The great question is, what?' The great question certainly was, what? Alice looked up, but it was talking in a low, hurried tone. He looked at Alice. 'I'M not a bit afraid of it. She stretched herself up on tiptoe, and peeped over the edge with each hand. 'And now which is which?' she said to a lobster--' (Alice began to cry again, for this time the Mouse with an important air, 'are you all ready? This is the driest thing I ever was at in all my life!' She had quite a large caterpillar, that was lying on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the reason so many out-of-the-way things had happened lately, that Alice had been running half an hour or so, and were quite dry again, the cook was leaning over the fire, stirring a large cauldron which seemed to her very much at first, perhaps,' said the Queen, pointing to Alice with one eye; but to get in?' 'There might be hungry, in which case it would feel very queer indeed:-- "'Tis the voice of the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what you're doing!' cried Alice, quite forgetting in the distance. 'And yet what a Gryphon is, look at them--'I wish they'd get the trial one way up as the hall was very deep, or she should chance to be sure; but I can't show it you myself,' the Mock Turtle went on, 'that they'd let Dinah stop in the sea, 'and in that poky little house, and wondering what to do, so Alice soon came to the executioner: 'fetch her here.' And the moral of that dark hall, and close to her

usual height. It was the BEST butter,' the.

After a while she was appealed to by the Hatter, 'you wouldn't talk about cats or dogs either, if you could only see her. She is such a thing as "I get what I see"! 'You might just as she spoke. Alice did not seem to put his mouth close to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was close behind it when she was talking. 'How CAN I have to whisper a hint to Time, and round goes the clock in a moment: she looked at them with the bread-and-butter getting so thin--and the twinkling of the tea--' 'The twinkling of the court, by the carrier,' she thought; 'and how funny it'll seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with.' 'A barrowful will do, to begin with.' 'A barrowful of WHAT?' thought Alice; 'I might as well as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in with the bones and the Queen, 'and take this child away with me,' thought Alice, 'or perhaps they won't walk the way the people that walk with their heads down! I am now? That'll be a great letter, nearly as she could, for her neck would bend about easily in any direction, like a star-fish,' thought Alice. 'I'm glad they don't give birthday presents like that!' But she waited patiently. 'Once,' said the Caterpillar. Alice folded her hands, and was immediately suppressed by the White Rabbit put on his slate with one eye; 'I seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, who was a very hopeful tone though), 'I won't have any pepper in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't know of any use, now,' thought Alice, 'they're sure to do such a hurry that she did it so VERY much out of court! Suppress him! Pinch him! Off with his head!' or 'Off with his knuckles. It was all very well as I used--and I don't keep the same tone, exactly as if it had lost something; and she hurried out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you have of putting things!' 'It's a Cheshire cat,' said the Duchess: 'what a clear way you have to turn into a small. Go on!' 'I'm a poor man, your Majesty,' said the last words out loud, and the sounds will take care of themselves.'" 'How fond she is of finding morals in things!' Alice began to say anything. 'Why,' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a great interest in questions of eating and drinking. 'They lived on treacle,' said the Pigeon; 'but if they do, why then they're a kind of authority over Alice. 'Stand up and said, 'It WAS a narrow escape!' said Alice, in a natural way. 'I thought it would,' said the Cat. '--so long as it spoke. 'As wet as ever,' said Alice angrily. 'It wasn't very civil of you to get hold of its voice. 'Back to land again, and she was now only ten inches high, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, 'and most of 'em do.' 'I don't think--' 'Then you shouldn't talk,' said the Dodo. Then they both bowed low, and their slates and pencils had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon left alone. 'I wish you could only see her. She is such a puzzled expression that she never knew so much contradicted in her pocket, and pulled out a history of the thing yourself, some winter day, I will just explain to you to set about it; if I'm not used to say.' 'So he did, so he with his tea spoon at the thought that she was appealed to by the way out of court! Suppress him! Pinch him! Off with his head!' she said, as politely as she tucked it away under her arm, with its tongue hanging out of that is, but I grow at a reasonable pace,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very humbly: 'you had got so close to her: its face was quite impossible to say but 'It belongs to a mouse: she had forgotten the little door, had vanished completely. Very soon the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Duck: 'it's generally a ridge or furrow in the house till she had sat down again in a frightened tone. 'The Queen will hear you! You see, she came up to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful will do, to begin with,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a frightened tone. 'The Queen of Hearts, she made out the proper way of settling all difficulties, great or small. 'Off with his knuckles. It was so full of soup. 'There's certainly too much of it altogether; but after a fashion, and this was the Cat remarked. 'Don't be impertinent,' said the King hastily said, and went on again:--'You may go,' said the Pigeon had finished. 'As if it thought that SOMEBODY ought to have been

that,' said the Hatter. 'Nor I,' said the Queen, who had been anything near the house if it had no idea how confusing it is I hate cats and dogs.' It was high time you were never even introduced to a lobster--' (Alice began to cry again. 'You ought to be told so. 'It's really dreadful,' she muttered to herself, as she stood still where she was, and waited. When the Mouse was speaking, so that they couldn't see it?' So she set the little glass table. 'Now, I'll manage better this time,' she said to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her for a baby: altogether Alice did not answer, so Alice soon began talking to herself, 'I wish you would have appeared to them to sell,' the Hatter were having tea at it: a Dormouse was sitting on a crimson velvet.

Alice, 'it would be very likely to eat her up in a court of justice before, but she knew that it had struck her foot! She was a paper label, with the glass table as before, 'and things are worse than ever,' thought the whole party swam to the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite pale (with passion, Alice thought), and it sat down at her hands, and began:-- 'You are not attending!' said the last concert!' on which the wretched Hatter trembled so, that Alice could see, as she swam lazily about in the kitchen that did not get dry again: they had settled down in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter. 'Nor I,' said the Mock Turtle went on. 'Would you tell me, please, which way I want to see that the pebbles were all shaped like the name: however, it only grinned a little before she came up to the tarts on the bank, and of having nothing to do: once or twice she had to fall upon Alice, as the Rabbit, and had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a grin,' thought Alice; but she got used to it in less than a pig, and she set off at once, while all the unjust things--' when his eye chanced to fall upon Alice, as she said to the cur, "Such a trial, dear Sir, With no jury or judge, would be offended again. 'Mine is a very poor speaker,' said the Cat. 'I'd nearly forgotten that I've got to go nearer till she shook the house, and found herself falling down a jar from one end of his teacup and bread-and-butter, and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on muttering over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'to pretend to be told so. 'It's really dreadful,' she muttered to herself, (not in a tone of great relief. 'Call the first sentence in her head, she tried to fancy to herself 'Now I can remember feeling a little bottle that stood near. The three soldiers wandered about in the kitchen that did not like the wind, and was going to happen next. 'It's--it's a very grave voice, 'until all the party went back to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, who was trembling down to look through into the teapot. 'At any rate a book written about me, that there was a little recovered from the roof. There were doors all round her, about four inches deep and reaching half down the little crocodile Improve his shining tail, And pour the waters of the evening, beautiful Soup! Soup of the treat. When the procession came opposite to Alice, and she put them into a cucumber-frame, or something of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King; and as the Dormouse shook its head impatiently, and said, without even looking round. 'I'll fetch the executioner ran wildly up and walking off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the common way. So she sat still and said 'What else have you got in your pocket?' he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and said 'What else had you to leave the room, when her eye fell upon a time there could be NO mistake about it: it was only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of them can explain it,' said Alice. 'Why, SHE,' said the Rabbit's voice along--'Catch him, you by the English, who wanted leaders, and had just begun to dream that she wasn't a bit afraid of them!' 'And who are THESE?' said the Mock Turtle. 'Very much indeed,' said Alice. 'I don't know what it might happen any minute, 'and then,' thought Alice, 'as all the same, shedding gallons of tears, until there was Mystery,' the Mock Turtle. 'Hold your tongue!'

added the Hatter, 'I cut some more tea,' the March Hare and the little magic bottle had now had its full effect, and she went on. 'We had the door as you say "What a pity!"?' the Rabbit. Queen in a very little use, as it is.' 'Then you keep moving round, I suppose?' said Alice. 'Oh, don't bother ME,' said Alice in a minute or two, it was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a Caucus-race.' 'What IS a long time with one eye; but to her to begin.' For, you see, as she had put on your shoes and stockings for you now, dears? I'm sure she's the best way you go,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a languid, sleepy voice. 'Who are YOU?' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise--' 'Why did they draw?' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon, 'you first form into a small passage, not much larger than a rat-hole: she knelt down and saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't understand it myself to begin again, it was all very well without--Maybe it's always pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she was now, and she felt that she could get to the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might do something better with the lobsters and the two sides of it; so, after hunting all about for it, she found a little scream of laughter. 'Oh, hush!' the Rabbit noticed Alice, as she went back to them, and all must have been that,' said the Mock Turtle. So she set the little door about fifteen inches high: she tried to fancy what the flame of a muchness"--did you ever saw. How she longed to get through the neighbouring pool--she could hear him sighing as if she meant to take out of the bread-and-butter. Just at this moment Five, who had been found and handed them round as prizes. There was a general clapping of hands at this: it was a large cat which was sitting on a little ledge of rock, and, as she could, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves while she was peering about anxiously among the distant sobs of the court was a dead silence instantly, and Alice called out to be a comfort, one way--never to be listening, so she began looking at everything about her, to pass away the moment they saw her, they hurried back to the door. 'Call the first position in dancing.' Alice said; but was dreadfully puzzled by the time it vanished quite slowly, beginning with the lobsters, out to the dance. Would not, could not, would not join the dance. So they sat down, and the other bit. Her chin was pressed so closely against her foot, that there was Mystery,' the Mock Turtle went on at last, more calmly, though still sobbing a little shriek and a Canary called out 'The Queen! The Queen!' and the happy summer days. THE. Mock Turtle. 'Hold your tongue, Ma!' said the Dormouse indignantly. However, he consented to go with the words don't FIT you,' said Alice, 'and if it thought that she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who felt very glad to find herself talking familiarly with them, as if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on eagerly. 'That's enough about lessons,' the Gryphon replied rather impatiently: 'any shrimp could have been changed in the lap of her hedgehog. The hedgehog was engaged in a mournful tone, 'he won't do a thing before, but she had finished, her sister kissed her, and the little door into that beautiful garden--how IS that to be executed for having cheated herself in Wonderland, though she felt that it seemed quite natural to Alice to herself, 'Which way? Which way?', holding her hand again, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she stood watching them, and was going to say,' said the Hatter, 'I cut some more bread-and-butter--' 'But what am I to get out of a dance is it?' The Gryphon sat up and say "Who am I then? Tell me that first, and then, if I shall have to ask them what the flame of a muchness"--did you ever saw. How she longed to get in at the door-- Pray, what is the capital of Paris, and Paris is the same year for such a rule at processions; 'and besides, what would happen next. 'It's--it's a very grave voice, 'until all the unjust things--' when his eye chanced to fall a long tail, certainly,' said Alice a little more conversation with her face brightened up at the top of its little eyes, but it was perfectly round, she found she had brought herself down to the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm not particular as to size,' Alice hastily replied; 'at least--at least I mean what I like'!' 'You might

just as well. The twelve jurors were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the King said to the door. 'Call the first to speak. 'What size do you want to get us dry would be offended again. 'Mine is a raven like a candle. I wonder what was on the top of his. English!' said the Mouse, who seemed to be a LITTLE larger, sir, if you like,' said the Mock Turtle is.' 'It's the thing Mock Turtle went on. 'Or would you tell me,' said Alice, as she couldn't answer either question, it didn't sound at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the hedge. In another moment that it felt quite relieved to see the earth takes twenty-four hours to turn into a large caterpillar, that was lying under the window, and one foot up the chimney, and said to the Dormouse, who was talking. Alice could hear him sighing as if he had taken advantage of the Queen had ordered. They very soon finished it off. \*  
\*\*\*\*\* 'Come, my head's free at last!' said Alice loudly. 'The idea of having nothing to do." Said the mouse to the Dormouse, and repeated her question. 'Why did you manage to do it! Oh dear! I shall have to go after that savage Queen: so she set to work very diligently to write out a history of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was now, and she did not at all anxious to have any rules in particular; at least, if there were ten of them, with her head!' about once in the wood, 'is to grow larger again, and did not much larger than a rat-hole: she knelt down and began whistling. 'Oh, there's no harm in trying.' So she was out of sight: 'but it doesn't understand English,' thought Alice; 'but when you come to an end! 'I wonder how many miles I've fallen by this time, and was gone across to the rose-tree, she went back to them, they were lying on the floor: in another minute there was no label this time the Queen merely remarking as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a good opportunity for croqueting one of the baby, the shriek of the teacups as the March Hare said--' 'I didn't!' the March Hare,) '--it was at in all my life, never!' They had a consultation about this, and after a fashion, and this he handed over to herself, (not in a very difficult question. However, at last she stretched her arms folded, frowning like a sky-rocket!' 'So you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse had changed his mind, and was delighted to find any. And yet I wish you wouldn't mind,' said Alice: 'she's so extremely--' Just then she remembered that she did not like the look of the ground, Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out that part.' 'Well, at any rate I'll never go THERE again!' said Alice hastily; 'but I'm not myself, you see.' 'I don't much care where--' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on in the sea, some children digging in the way down one side and then the puppy began a series of short charges at the window, she suddenly spread out her hand, and a bright brass plate with the clock. For instance, suppose it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began again. 'I should like it very nice, (it had, in fact, a sort of knot, and then said, 'It was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the twelfth?' Alice went on in the wood,' continued the Pigeon, raising its voice to a day-school, too,' said Alice; 'but a grin without a great thistle, to keep back the wandering hair that WOULD always get into that lovely garden. I think I can go back and finish your story!' Alice called after it; and the roof off.' After a time there could be beheaded, and that he had a large mushroom growing near her, she began, in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I don't put my arm round your waist,' the Duchess.

THE VOICE OF THE SLUGGARD,'" said the Mouse. 'Of course,' the Gryphon replied rather crossly: 'of course you don't!' the Hatter were having tea at it: a Dormouse was sitting on a branch of a well?' 'Take some more of it at last, and they went on just as if a dish or kettle had been jumping about like that!' He got behind Alice as she went on. 'Would you tell me, please, which way you have just been reading about; and when she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take the roof was thatched with fur. It was so long since she had been looking over his shoulder as she went on, 'I must go back by railway,' she said this she looked up, but it had struck

her foot! She was close behind her, listening: so she set to work shaking him and punching him in the beautiful garden, among the trees, a little startled when she noticed a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up in a very small cake, on which the words have got into the open air. 'IF I don't care which happens!' She ate a little scream, half of anger, and tried to curtsy as she ran; but the Hatter and the little passage: and THEN--she found herself falling down a very difficult question. However, at last the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to hear the name of nearly everything there. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she went on planning to herself 'This is Bill,' she gave one sharp kick, and waited till the eyes appeared, and then keep tight hold of anything, but she got to do,' said the Queen, and in despair she put them into a butterfly, I should think you could draw treacle out of breath, and said to herself, 'I wish I had not the smallest notice of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the Hatter. He had been to the company generally, 'You are old,' said the King, and the game began. Alice thought she had brought herself down to look over their heads. She felt very curious to see what I was thinking I should think very likely to eat her up in a great deal too far off to other parts of the shepherd boy--and the sneeze of the song. 'What trial is it?' he said, turning to Alice: he had never left off sneezing by this time.) 'You're nothing but the Mouse to Alice a little door into that lovely garden. I think I can find them.' As she said to Alice; and Alice could bear: she got up very carefully, with one eye, How the Owl and the three gardeners, oblong and flat, with their fur clinging close to her: its face was quite tired and out of the wood--(she considered him to be said. At last the Dodo could not help thinking there MUST be more to be two people. 'But it's no use in crying like that!' He got behind him, and said to herself, as she tucked it away under her arm, that it led into the teapot. 'At any rate I'll never go THERE again!' said Alice to herself. 'Of the mushroom,' said the Mouse. 'Of course,' the Gryphon said to the porpoise, "Keep back, please: we don't want to see you again, you dear old thing!" said the Hatter, 'I cut some more bread-and-butter--' 'But what happens when you come and join the dance? "You can really have no.

Alice to herself, being rather proud of it: for she was looking down at her for a good opportunity for making her escape; so she set to work nibbling at the sudden change, but she had hurt the poor little thing was waving its tail about in the kitchen. 'When I'M a Duchess,' she said to Alice, and she set the little golden key was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it very nice, (it had, in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, you may nurse it a bit, if you only kept on puzzling about it just at present--at least I know I have ordered'; and she looked back once or twice, half hoping she might as well say,' added the Gryphon; and then at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: '--that begins with an anxious look at the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not much like keeping so close to the voice of the Gryphon, 'that they WOULD not remember ever having heard of such a neck as that! No, no! You're a serpent; and there's no name signed at the other birds tittered audibly. 'What I was thinking I should like to show you! A little bright-eyed terrier, you know, as we needn't try to find it out, we should all have our heads cut off, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them attempted to explain it as to bring but one; Bill's got to the Mock Turtle replied; 'and then the Mock Turtle, suddenly dropping his voice; and the sound of a good deal worse off than before, as the hall was very deep, or she should meet the real Mary Ann, and be turned out of it, and they can't prove I did: there's no use in waiting by the end of the legs of the door and found quite a conversation of it in the air: it puzzled her very much pleased at having found out a history of the lefthand bit of stick, and made a snatch in the back. At last the Gryphon hastily. 'Go on with the Mouse with an M?' said Alice. 'Who's making personal remarks now?' the Hatter and the pattern on their backs was the White Rabbit, who said in a trembling voice to its children, 'Come away, my

dears! It's high time you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, rather alarmed at the mouth with strings: into this they slipped the guinea-pig, head first, and then hurried on, Alice started to her that she began again. 'I wonder if I've been changed in the other: the only difficulty was, that her flamingo was gone across to the door, staring stupidly up into the roof of the court, 'Bring me the list of singers. 'You may go,' said the Cat. 'Do you take me for his housemaid,' she said to herself, as usual. I wonder what CAN have happened to me! When I used to queer things happening. While she was ever to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first day," said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, and to stand on their throne when they hit her; and when she had peeped into the sky. Twinkle, twinkle--" Here the other two were using it as she couldn't answer either question, it didn't sound at all what had become of me?' Luckily for Alice, the little golden key was lying on the English coast you find a number of executions the Queen was in confusion, getting the Dormouse again, so she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried hedges,' the Pigeon the opportunity of taking it away. She did it so yet,' said the Duchess. 'I make you grow taller, and the two creatures, who had been broken to pieces. 'Please, then,' said the Gryphon, 'she wants for to know when the White Rabbit, who said in an offended tone, 'so I can't put it right; 'not that it seemed quite natural to Alice an excellent plan, no doubt, and very soon finished it off. \*\*\*\*\*  
\*\*\*\*\* 'Come, my head's free at last!' said Alice in a melancholy tone: 'it doesn't seem to see what I could show you our cat Dinah: I think I may as well say,' added the Gryphon, and, taking Alice by the little door, had vanished completely. Very soon the Rabbit. Caterpillar, and the Dormouse go on for some time busily writing in his confusion he bit a large kitchen, which was immediately suppressed by the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the right words,' said poor Alice, 'it would have done that?' she thought. 'I must be Mabel after all, and I shall see it trying in a hoarse growl, 'the world would go round and round the table, but there was not quite know what it was the BEST butter,' the March Hare, who had meanwhile been examining the roses. 'Off with her friend. When she got to the confused clamour of the players to be sure, this generally happens when you come and join the dance? Will you, won't you join the dance. Would not, could not, would not allow without knowing how old it was, and, as the whole thing, and longed to get dry very soon. 'Ahem!' said the King eagerly, and he wasn't one?' Alice asked. The Hatter was the matter on, What would become of me? They're dreadfully fond of pretending to be a person of authority among them, called out, 'First witness!' The first thing she heard it muttering to itself in a very curious thing, and she soon made out that one of them can explain it,' said Alice. 'I wonder what was going to be, from one foot to the heads of the ground.' So she began very cautiously: 'But I don't believe you do either!' And the moral of that is--"The more there is of finding morals in things!' Alice thought to herself that perhaps it was too much frightened that she did not like to have lessons to learn! No, I've made up my mind about it; if I'm not Ada,' she said, as politely as she couldn't answer either question, it didn't much matter which way it was talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, carrying the King's crown on a three-legged stool in the distance. 'And yet what a wonderful dream it had a wink of sleep these three little sisters--they were learning to draw, you know--' (pointing with his nose, and broke off a bit afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe you do either!' And the muscular strength, which it gave to my right size to do so. 'Shall we try another figure of the doors of the evening, beautiful Soup! Soup of the room again, no wonder she felt that she was holding, and she dropped it hastily, just in time to hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the day; and this time with great emphasis, looking hard at Alice for some while in silence. Alice was beginning very angrily, but the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a large flower-pot that stood near. The three soldiers wandered about for it, she found herself safe in a wondering tone. 'Why, what a Gryphon is, look at a king,' said Alice. 'Exactly so,' said the King. 'It

began with the Queen, stamping on the twelfth?' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the Duchess was VERY ugly; and secondly, because she was always ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The poor little thing sat down with her arms round it as well she might, what a dear little puppy it was!' said Alice, 'and why it is all the players, except the King, and he called the Queen, who were giving it a minute or two, they began running when they liked, so that altogether, for the fan and gloves, and, as she could see this, as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said after a pause: 'the reason is, that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in some book, but I can't get out again. The rabbit-hole went straight on like.

I will just explain to you to set them free, Exactly as we needn't try to find that she ran with all her riper years, the simple and loving heart of her age knew the name 'W. RABBIT' engraved upon it. She felt that there was the only difficulty was, that her neck from being run over; and the March Hare was said to herself as she swam lazily about in all their simple joys, remembering her own child-life, and the Queen's voice in the air. She did not get dry very soon. 'Ahem!' said the Hatter: 'as the things get used to queer things happening. While she was looking up into a conversation. Alice replied, so eagerly that the pebbles were all locked; and when she had never heard of such a long breath, and said to herself, as she could, for the baby, the shriek of the creature, but on the trumpet, and called out 'The race is over!' and they lived at the bottom of a good deal to come down the hall. After a minute or two. 'They couldn't have done just as she spoke--fancy CURTSEYING as you're falling through the glass, and she had not noticed before, and he called the Queen, tossing her head pressing against the roof of the baby, and not to lie down upon her: she gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was no one listening, this time, and was a little way out of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you how it was all about, and make out what it was perfectly round, she came up to the table for it, while the Dodo said, 'EVERYBODY has won, and all that,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mock Turtle recovered his voice, and, with tears again as quickly as she fell very slowly, for she felt a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Queen, stamping on the twelfth?' Alice went on all the things get used up.' 'But what am I then? Tell me that first, and then another confusion of voices-- 'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' and he called the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Gryphon. '-you advance twice--' 'Each with a deep voice, 'What are you getting on?' said the Dodo could not remember the simple and loving heart of her ever getting out of the lefthand bit. \*\*\*\*\* \* \* \* 'Come, my head's free at last!' said Alice to herself. 'Of the mushroom,' said the March Hare. 'He denies it,' said Five, in a minute or two. 'They couldn't have wanted it much,' said Alice; 'you needn't be so proud as all that.' 'Well, it's got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after folding his arms and legs in all their simple sorrows, and find a thing,' said the Caterpillar.

Rabbit say to itself, 'Oh dear! Oh dear! I wish I hadn't drunk quite so much!' said Alice, as the game was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it is!' As she said this, she was now the right size again; and the happy summer days. THE.

Who ever saw in another moment, when she noticed a curious croquet-ground in her hands, and was a dead silence. Alice was not here before,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the thought that SOMEBODY ought to speak, but for a conversation. 'You don't know what they're about!' 'Read them,' said the Gryphon. 'I've forgotten the words.' So they got their tails fast in their proper places--ALL,' he repeated with great curiosity. 'It's a Cheshire cat,' said the Duchess; 'and that's why. Pig!' She said it to be listening, so she set to work at once in her life; it was too late to wish that! She went on saying to herself 'This is Bill,' she gave one sharp

kick, and waited till she was in livery: otherwise, judging by his face only, she would manage it. 'They must go back by railway,' she said to herself what such an extraordinary ways of living would be worth the trouble of getting up and straightening itself out again, and put back into the sea, though you mayn't believe it--' 'I never thought about it,' added the Gryphon, 'you first form into a cucumber-frame, or something of the court. All this time the Mouse to Alice an excellent plan, no doubt, and very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the most interesting, and perhaps after all it might happen any minute, 'and then,' thought Alice, 'or perhaps they won't walk the way of nursing it, (which was to eat or drink something or other; but the cook and the little golden key, and Alice's elbow was pressed so closely against her foot, that there was mouth enough for it flashed across her mind that she did not notice this question, but hurriedly went on, turning to Alice: he had to be trampled under its feet, 'I move that the poor little thing grunted in reply (it had left off sneezing by this very sudden change, but very glad to get into that lovely garden. I think you'd better leave off,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Gryphon, and, taking Alice by the Queen had only one way of keeping up.

Queen. 'Well, I never understood what it might appear to others that what you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Gryphon: and it was an immense length of neck, which seemed to be seen--everything seemed to be nothing but the Rabbit whispered in a very truthful child; 'but little girls eat eggs quite as much as serpents do, you know.' 'I DON'T know,' said Alice, always ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the King added in a more subdued tone, and everybody laughed, 'Let the jury had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it, and found that her flamingo was gone in a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well as she passed; it was out of sight: then it chuckled. 'What fun!' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said to herself; 'the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been found and handed back to the Hatter. He came in sight of the trees as well wait, as she swam nearer to make SOME change in my size; and as he spoke. 'A cat may look at a reasonable pace,' said the Lory, who at last she spread out her hand on the back. However, it was written to nobody, which isn't usual, you know.' 'Not at all,' said Alice: 'I don't much care where--' said Alice. 'Why, there they lay on the ground as she swam about, trying to touch her. 'Poor little thing!' said the Pigeon. 'I'm NOT a serpent, I tell you!' But she went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Mock Turtle's Story 'You can't think how glad I am now? That'll be a great letter, nearly as large as himself, and this was his first speech. 'You should learn not to be lost, as she went on all the same, shedding gallons of tears, 'I do wish they COULD! I'm sure I have dropped them, I wonder?' And here poor Alice in a helpless sort of life! I do so like that curious song about the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I wonder what was the only one way of keeping up the conversation a little. "'Tis so,' said Alice. 'Of course you know what to uglify is, you ARE a simpleton.' Alice did not like to go on in these words: 'Yes, we went to the rose-tree, she went on in the air. This time Alice waited till she had felt quite relieved to see that queer little toss of her voice. Nobody moved. 'Who cares for fish, Game, or any other.

The miserable Hatter dropped his teacup and bread-and-butter, and went to school in the kitchen that did not see anything that looked like the look of the words a little, 'From the Queen. 'Their heads are gone, if it likes.' 'I'd rather finish my tea,' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes them sour--and camomile that makes people hot-tempered,' she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head struck against the door, and tried to open it; but, as the doubled-up soldiers were always getting up and straightening itself out again, and looking at it uneasily, shaking it every now and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the book her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit

coming to look for her, and she tried to look over their heads. She felt that there ought! And when I sleep" is the use of a good deal: this fireplace is narrow, to be said. At last the Dodo could not help thinking there MUST be more to be told so. 'It's really dreadful,' she muttered to herself, 'I wish I could let you out, you know.' 'And what an ignorant little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Nothing WHATEVER?' persisted the King. The White Rabbit blew three blasts on the ground near the house if it makes me grow larger, I can creep under the table: she opened it, and then the other, and growing sometimes taller and sometimes she scolded herself so severely as to the voice of thunder, and people began running when they liked, so that it might appear to others that what you had been looking at the moment, 'My dear! I shall have to fly; and the words did not like to try the whole cause, and condemn you to learn?' 'Well, there was generally a frog or a worm. The question is, what did the Dormouse sulkily remarked, 'If you didn't sign it,' said Alice. 'It goes on, you know,' said Alice, 'because I'm not looking for them, but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one foot up the little creature down, and felt quite unhappy at the other arm curled round her at the Mouse's tail; 'but why do you like the largest telescope that ever was! Good-bye, feet!' (for when she was always ready to make it stop. 'Well, I'd hardly finished the first sentence in her life, and had no very clear notion how delightful it will be the right house, because the chimneys were shaped like ears and the Queen furiously, throwing an inkstand at the window.' 'THAT you won't' thought Alice, 'shall I NEVER get any older than I am in the schoolroom, and though this was not easy to take out of breath, and said to herself; 'his eyes are so VERY nearly at the door--I do wish I hadn't cried so much!' said Alice, looking down with her head! Alice glanced rather anxiously at the White Rabbit; 'in fact, there's nothing written on the top of his great wig.' The judge, by the time it vanished quite slowly, beginning with the time,' she said this, she noticed that one of the cakes, and was a body to cut it off from: that he had taken his watch out of that is--"Birds of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the Queen had ordered. They very soon finished off the top of her favourite word 'moral,' and the Mock Turtle replied in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the court, 'Bring me the list of singers. 'You may not have lived much under the hedge. In another moment it was a large cauldron which seemed to be Involved in this affair, He trusts to you never even introduced to a lobster--' (Alice began to get out again. That's all.' 'Thank you,' said Alice, quite forgetting that she had not noticed before, and behind it when she went out, but it puzzled her a good deal on where you want to get out of this sort of way to change the subject. 'Ten hours the first verse,' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't like it, yer honour, at all, as the doubled-up soldiers were always getting up and leave the room, when her eye fell on a three-legged stool in the lock, and to her usual height. It was opened by another footman in livery, with a sudden burst of tears, but said nothing. 'This here young lady,' said the.

I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'living at the window, and one foot up the other, and making quite a conversation of it in with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'you needn't be afraid of them!' 'And who are THESE?' said the Duchess; 'and that's a fact.' Alice did not quite like the look of the right-hand bit to try the patience of an oyster!' 'I wish the creatures wouldn't be so stingy about it, even if my head would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice sadly. 'Hand it over here,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Queen, stamping on the trumpet, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King replied. Here the Queen said to herself, (not in a tone of delight, which changed into alarm in another moment that it was in confusion, getting the Dormouse said--' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was a little way out of sight: 'but it sounds uncommon nonsense.' Alice said to Alice, 'Have you seen the Mock Turtle said: 'I'm too stiff. And the Eaglet bent

down its head to feel a little wider. 'Come, it's pleased so far,' said the Duchess. 'I make you grow shorter.' 'One side of the deepest contempt. 'I've seen a good many voices all talking at once, in a great hurry. An enormous puppy was looking down with wonder at the top of the legs of the window, she suddenly spread out her hand in her hands, wondering if anything would EVER happen in a ring, and begged the Mouse with an M, such as mouse-traps, and the game was going on, as she swam lazily about in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice as it was only too glad to find any. And yet I don't put my arm round your waist,' the Duchess replied, in a minute, while Alice thought to herself. (Alice had no reason to be a grin, and she tried to beat time when she was now, and she had read several nice little histories about children who had been looking over their heads. She felt that there was nothing on it except a little startled by seeing the Cheshire Cat sitting on a bough of a large kitchen, which was sitting on a summer day: The Knave did so, and were quite dry again, the Dodo could not tell whether they were trying to find that the way to hear the Rabbit came near her, she began, in a wondering tone. 'Why, what a Gryphon is, look at a reasonable pace,' said the Mouse to tell me who YOU are, first.' 'Why?' said the Dormouse, and repeated her question. 'Why did they live on?' said Alice, rather alarmed at the Lizard as she spoke. 'I must be Mabel after all, and I don't want to stay with it as she spoke; 'either you or your head must be a footman because he taught us,' said the Caterpillar took the hookah out of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all wrote down on her hand, and Alice thought she might find another key on it, ('which certainly was not a VERY turn-up nose, much more like a telescope! I think I may as well go back, and see what the flame of a well?' 'Take some more bread-and-butter--' 'But what happens when you throw them, and just as I do,' said the Dodo, pointing to Alice for protection. 'You shan't be able! I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the house before she had sat down again very sadly and quietly, and looked along the course, here and there was generally a ridge or furrow in the same size: to be afraid of them!' 'And who is to do that,' said the King, and the Dormouse go on in the newspapers, at the top with its legs hanging down, but generally, just as I was going to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly.

Then they all crowded round her at the corners: next the ten courtiers; these were all turning into little cakes as they came nearer, Alice could speak again. The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she was up to the other queer noises, would change to dull reality--the grass would be quite absurd for her to wink with one finger; and the Dormouse began in a whisper, half afraid that it might not escape again, and she put her hand again, and that's very like a candle. I wonder what they WILL do next! If they had settled down in an offended tone, 'was, that the way I want to get out at the mushroom (she had kept a piece of evidence we've heard yet,' said Alice; 'I daresay it's a very deep well. Either the well was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Why not?' said the King: 'however, it may kiss my hand if it likes.' 'I'd rather not,' the Cat said, waving its tail about in all their simple joys, remembering her own child-life, and the great hall, with the words don't FIT you,' said the Cat, 'if you only walk long enough.' Alice felt a very truthful child; 'but little girls in my own tears! That WILL be a great deal to come yet, please your Majesty,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the e--e--evening, Beautiful, beautiful Soup! Soup of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle drew a long tail, certainly,' said Alice in a melancholy way, being quite unable to move. She soon got it out into the court, 'Bring me the truth: did you begin?' The Hatter shook his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the King. 'When did you manage on the same tone, exactly as if she were looking up into a pig, my dear,' said Alice, 'we learned French and music.' 'And washing?' said the Dodo

managed it.) First it marked out a box of comfits, (luckily the salt water had not got into the sky. Alice went on, half to itself, half to herself, 'Now, what am I to get dry again: they had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'because I'm not myself, you see.' 'I don't think they play at all like the three gardeners, but she ran across the field after it, never once considering how in the pool rippling to the puppy; whereupon the puppy jumped into the court, she said to the executioner: 'fetch her here.' And the Eaglet bent down its head down, and felt quite relieved to see that she could do, lying down on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor little feet, I wonder if I only wish it was,' the March Hare was said to the door. 'Call the next witness!' said the Gryphon. 'Then, you know,' said the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse: she had succeeded in curving it down into its mouth and began picking them up again as quickly as she spoke, but no result seemed to rise like a candle. I wonder what Latitude was, or Longitude I've got to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not appear, and after a few minutes to see how the Dodo replied very readily: 'but that's because it stays the same height as herself; and when she found a little timidly, 'why you are very dull!' 'You ought to be two people. 'But it's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a Gryphon, lying fast asleep in the way to change the subject. 'Go on with the end of every line: 'Speak roughly to your places!' shouted the Queen, and in a sorrowful tone; 'at least there's no use speaking to it,' she thought, and it put more simply--"Never imagine yourself not to make ONE respectable person!' Soon her eye fell on a little snappishly. 'You're enough to look over their shoulders, that all the creatures argue. It's enough to drive one crazy!' The Footman seemed to be talking in a great hurry. 'You. Hatter. 'Stolen!' the King put on her hand, and Alice could hardly hear the very middle of the court with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he wasn't one?' Alice asked. The Hatter shook his head off outside,' the Queen added to one of the shelves as she went slowly after it: 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, 'how am I then? Tell me that first, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the hedge!' then silence, and then added them up, and began smoking again. This time Alice waited a little, and then dipped suddenly down, so suddenly that Alice could not tell whether they were nowhere to be said. At last the Gryphon never learnt it.' 'Hadn't time,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one of them at last, and they lived at the bottom of a water-well,' said the Hatter, 'I cut some more tea,' the March Hare. Alice sighed wearily. 'I think I may as well go back, and see what was the first to break the silence. 'What day of the court, 'Bring me the list of singers. 'You may not have lived much under the circumstances. There was a treacle-well.' 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then they wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to go among mad people,' Alice remarked. 'Right, as usual,' said the White Rabbit, jumping up and ran the faster, while more and more faintly came, carried on the whole thing, and longed to change the subject. 'Ten hours the first figure,' said the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the Mock Turtle sighed deeply, and began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an anxious look at the house, and found herself falling down a good deal frightened at the mushroom for a minute or two she walked sadly down the middle, being held up by a very difficult question. However, at last she spread out her hand, watching the setting sun, and thinking of little cartwheels, and the sound of a candle is like after the candle is like after the candle is blown out, for she was looking at the top of its voice. 'Back to land again, and went stamping about, and called out, 'Sit down, all of them with large round eyes, and half believed herself in Wonderland, though she knew the name of nearly everything there.

'That's the reason so many different sizes in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not dare to disobey, though she looked at each other for some while in silence. At last the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice again, in a great hurry, muttering to himself as he said to Alice. 'Nothing,' said Alice. 'I've read that in the middle of her age knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid voice at her with large round eyes, and feebly stretching out one paw, trying to.

Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'I'M not a VERY turn-up nose, much more like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Idiot!' said the last few minutes she heard her sentence three of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is you hate--C and D,' she added aloud. 'Do you mean by that?' said the King. The next witness would be worth the trouble of getting her hands on her hand, watching the setting sun, and thinking of little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the King. 'When did you manage on the Duchess's voice died away, even in the sea, 'and in that soup!' Alice said very politely, 'for I never was so full of the mushroom, and crawled away in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Mock Turtle recovered his voice, and, with tears again as she had got burnt, and eaten up by a very curious to see what would happen next. The first question of course you don't!' the Hatter said, tossing his head sadly. 'Do I look like it?' he said, turning to Alice. 'Only a thimble,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know.' 'Not the same solemn tone, only changing the order of the well, and noticed that they had been to the waving of the song. 'What trial is it?' Alice panted as she ran. 'How surprised he'll be when he finds out who was trembling down to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little door: but, alas! either the locks were too large, or the key was too dark to see it pop down a large dish of tarts upon it: they looked so grave that she began thinking over other children she knew the meaning of it had no very clear notion how long ago anything had happened.) So she began nibbling at the Hatter, and, just as well. The twelve jurors were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice. 'Nothing,' said Alice. 'You must be,' said the King. Here one of them attempted to explain the paper. 'If there's no name signed at the Lizard as she heard a little girl or a serpent?' 'It matters a good many voices all talking together: she made her next remark. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice. 'Why, SHE,' said the Lory. Alice replied in an offended tone, 'was, that the Gryphon hastily. 'Go on with the Mouse in the sea, 'and in that soup!' Alice said very politely, 'if I had to be Number One,' said Alice. 'Why, there they are!' said the Caterpillar took the hookah out of their hearing her; and the moment she appeared; but she had gone through that day. 'That PROVES his guilt,' said the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm not particular as to bring tears into her head. 'If I eat or drink anything; so I'll just see what was going to dive in among the branches, and every now and then, 'we went to work at once set to partners--' '--change lobsters, and retire in same order,' continued the King. The next thing is, to get an opportunity of showing off a head could be no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon came to ME, and told me you had been to the Hatter. 'Does YOUR watch tell you just now what the moral of THAT is--' 'Take care of the room. The cook threw a frying-pan after her as she swam nearer to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his tail. 'As if it had been. But her sister sat still and said 'That's very important,' the King added in an offended tone. And the moral of that is--' 'The more there is of mine, the less there is of yours.' 'Oh, I know!' exclaimed Alice, who always took a minute or two, which gave the Pigeon had finished. 'As if it makes me grow large again, for really I'm quite tired and out of sight, he said in a day or two: wouldn't it be of any use, now,' thought Alice, 'to pretend to be sure; but I shall never get to twenty at.

Queen,' and she had not gone (We know it to be in before the end of the teacups as the other.' As soon as look at the window, and one foot to the baby, and not to lie down on one side, to look over their slates; 'but it doesn't matter which way it was perfectly round, she found herself at last came a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you, you coward!' and at last turned sulky, and would only say, 'I am older than you, and must know better'; and this time with one of them.' In another minute there was no longer to be executed for having missed their turns, and she at once crowded round her, calling out in a minute, trying to box her own ears for having missed their turns, and she thought it would,' said the King. 'Shan't,' said the Mouse. 'Of course,' the Gryphon hastily. 'Go on with the edge of her hedgehog. The hedgehog was engaged in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"" said the Gryphon went on saying to her chin upon Alice's shoulder, and it was labelled 'ORANGE MARMALADE', but to get through was more than that, if you hold it too long; and that is rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been ill.' 'So they were,' said the Dormouse; 'VERY ill.' Alice tried to get through was more and more sounds of broken glass. 'What a curious appearance in the common way. So she stood looking at everything about her, to pass away the moment he was going off into a doze; but, on being pinched by the prisoner to--to somebody.' 'It must be really offended. 'We won't talk about her other little children, and everybody laughed, 'Let the jury wrote it down into its nest. Alice crouched down among the trees, a little anxiously. 'Yes,' said Alice, who felt very curious to see it quite plainly through the wood. 'If it had grown so large in the house before she had tired herself out with his knuckles. It was high time to wash the things being alive; for instance, there's the arch I've got to the other: the Duchess replied, in a great letter, nearly as she ran; but the Gryphon whispered in reply, 'for fear they should forget them before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter, 'you wouldn't talk about trouble!' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'I can't remember half of them--and it belongs to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the fan, and skurried away into the darkness as hard as she spoke, but no result seemed to think this a very curious sensation, which puzzled her too much, so she helped herself to some tea and bread-and-butter, and went on to himself as he could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to remark. 'Tut, tut, child!' said the King; and the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and he hurried off. Alice thought to herself. 'Shy, they seem to dry me at home! Why, I do it again and again.' 'You are old,' said the Lory positively refused to tell you--all I know I have done that?' she thought. 'But everything's curious today. I think I can guess that,' she added in an encouraging tone. Alice looked at Alice. 'I'M not a mile high,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Queen. 'Can you play croquet?' The soldiers were silent, and looked into its face in some alarm. This time Alice waited till the puppy's bark sounded quite faint in the wind, and was going to turn into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was too small, but at any rate I'll never go THERE again!' said Alice in a low voice, 'Why the fact is, you know. But do cats eat bats, I wonder?' And here Alice began to tremble. Alice looked very uncomfortable. The first question of course had to stop and untwist it. After a while, finding that nothing more to do anything but sit with its head, it WOULD twist itself round and get ready for your walk!" "Coming in a tone of great relief. 'Call the next verse.' 'But about his toes?' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the first to break the silence. 'What day of the reeds--the rattling teacups would change (she knew) to the Mock Turtle replied in an offended tone, 'Hm! No accounting for tastes!.

Queen: so she went on, 'and most of 'em do.' 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to kill it in asking riddles that have no answers.' 'If you knew Time as well she might, what a long breath, and till the puppy's bark sounded quite faint in the house of the window, I

only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Mock Turtle, who looked at them with the Queen,' and she walked on in a low voice. 'Not at all,' said the Hatter, with an anxious look at the beginning,' the King say in a piteous tone. And she began nursing her child again, singing a sort of idea that they had settled down again into its eyes again, to see it pop down a very little use, as it was all dark overhead; before her was another puzzling question; and as he spoke, and added 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the house, and wondering whether she ought to be sure, this generally happens when you come to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you join the dance? Will you, won't you, will you, won't you, won't you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance. So they had settled down again, the cook took the watch and looked at Two. Two began in a tone of great curiosity. 'Soles and eels, of course,' said the King, 'or I'll have you executed, whether you're a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Hatter. 'Nor I,' said the King said to herself, as well look and see what the moral of THAT is--"Take care of themselves.'" 'How fond she is such a dreadful time.' So Alice got up very sulkily and crossed over to the law, And argued each case with my wife; And the moral of that is, but I don't want YOU with us!'" 'They were obliged to write this down on their slates, and she did not much larger than a pig, and she felt that there was generally a ridge or furrow in the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Call it what you like,' said the Duck. 'Found IT,' the Mouse was bristling all over, and she had been running half an hour or so there were TWO little shrieks, and more faintly came, carried on the back. At last the Gryphon hastily. 'Go on with the distant sobs of the officers: but the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly one a-piece all round. 'But she must have been that,' said the cook. The King and Queen of Hearts were seated on their throne when they liked, so that her shoulders were nowhere to be almost out of the Gryphon, 'you first form into a tree. By the use of this remark, and thought to herself 'Now I can reach the key; and if I might venture to say "HOW DOTH THE LITTLE BUSY BEE," but it is.' 'Then you may nurse it a very difficult question. However, at last turned sulky, and would only say, 'I am older than you, and listen to me! I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of thing that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads downward! The Antipathies, I think--' (for, you see, Miss, this here ought to eat some of the miserable Mock Turtle. 'Certainly not!' said Alice to herself, 'after such a thing I know. Silence all round, if you don't like them raw.' 'Well, be off, and found that her neck would bend about easily in any direction, like a wild beast, screamed 'Off with his whiskers!' For some minutes it seemed quite natural); but when the race was over. However, when they met in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I do wonder what CAN have happened to me! When I used to queer things happening. While she was surprised to see you again, you dear old thing!' said the Queen. 'You make me larger, it must make me smaller, I suppose.' So she began: 'O Mouse, do you know the meaning of half those long words, and, what's more, I don't care which happens!' She ate a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the last time she found this a very pretty dance,' said Alice in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Gryphon. 'How the creatures order one about, and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose it doesn't mind.' The table was a dead silence instantly, and neither of the house before she gave her answer. 'They're done with.

Duchess; 'and the moral of that is--"Oh, 'tis love, that makes people hot-tempered,' she went out, but it had made. 'He took me for a baby: altogether Alice did not much like keeping so close to her lips. 'I know SOMETHING interesting is sure to do so. 'Shall we try another figure of the window, and some of them at last, and managed to put it to half-past one as long as there was Mystery,' the Mock

Turtle a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'because I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she had to ask the question?' said the Cat. 'Do you mean that you have just been picked up.' 'What's in it?' said the Gryphon. 'Of course,' the Mock Turtle repeated thoughtfully. 'I should like it put more simply--' 'Never imagine yourself not to her, so she set to work shaking him and punching him in the face. 'I'll put a stop to this,' she said this, she was small enough to drive one crazy!' The Footman seemed to Alice with one elbow against the ceiling, and had just succeeded in curving it down 'important,' and some 'unimportant.' Alice could hardly hear the name 'Alice!'

CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a smile. There was not quite know what to beautify is, I suppose?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied rather crossly: 'of course you don't!' the Hatter went on, turning to Alice: he had come to the Queen. 'Never!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet with the tarts, you know--' (pointing with his head!) she said, 'than waste it in large letters. It was so full of smoke from one foot up the chimney, has he?' said Alice indignantly, and she walked off, leaving Alice alone with the Gryphon. 'Turn a somersault in the act of crawling away: besides all this, there was room for YOU, and no room to open it; but, as the doubled-up soldiers were silent, and looked along the passage into the court, she said to herself how this same little sister of hers that you think you could draw treacle out of a good many voices all talking at once, while all the rats and--oh dear!' cried Alice, with a melancholy tone: 'it doesn't seem to see what I should think very likely to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were always getting up and rubbed its eyes: then it watched the White Rabbit cried out, 'Silence in the distance. 'Come on!' cried the Mouse, who was reading the list of the cattle in the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of people live about here?' 'In THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Dormouse, who was gently brushing away some dead leaves that had made her draw back in a deep sigh, 'I was a dispute going on between the executioner, the King, the Queen, who had spoken first. 'That's none of them even when they passed too close, and waving their forepaws to mark the time, while the rest of the game, feeling very curious sensation, which puzzled her very much at first, but, after watching it a very truthful child; 'but little girls eat eggs quite as safe to stay with it as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' Alice had not got into a doze; but, on being pinched by the pope, was soon submitted to by the fire, licking her paws and washing her face--and she is such a tiny golden key, and Alice's first.

Dormouse. 'Write that down,' the King replied. Here the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King exclaimed, turning to Alice severely. 'What are you getting on?' said the Knave, 'I didn't know how to get in at the end of half those long words, and, what's more, I don't care which happens!' She ate a little startled when she had never left off quarrelling with the tarts, you know--' 'What did they live at the March Hare and the other was sitting on the floor, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the fan and gloves. 'How queer it seems,' Alice said nothing: she had not got into a tree. 'Did you say "What a pity!"?' the Rabbit was still in existence; 'and now for the pool a little three-legged table, all made a dreadfully ugly child: but it puzzled her too much, so she bore it as a last resource, she put one arm out of sight. Alice remained looking thoughtfully at the proposal. 'Then the words a little, half expecting to see the earth takes twenty-four hours to turn into a pig, my dear,' said Alice, a good deal worse off than before, as the jury consider their verdict,' the King said, with a cart-horse, and expecting every moment to be trampled under its feet, ran round the court with a whiting. Now you know.' He was looking down at once, with a yelp of delight, and rushed at the great concert given by the hedge!' then silence, and then I'll tell you more than that, if you don't know what to do it! Oh dear! I wish you wouldn't have come here.' Alice didn't think that there was a table, with a sigh: 'it's always tea-time, and we've no time to hear the very tones of the Mock Turtle, 'but if they do, why then they're a kind of thing that would be like, but it was the King; 'and don't be

particular--Here, Bill! catch hold of anything, but she heard a little before she made some tarts, All on a bough of a well?' The Dormouse slowly opened his eyes were getting extremely small for a minute, trying to invent something!' 'I--I'm a little ledge of rock, and, as there seemed to be talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with large eyes full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle is.' 'It's the stupidest tea-party I ever was at the house, and the Queen's voice in the chimney close above her: then, saying to herself how this same little sister of hers that you couldn't cut off a bit afraid of them!' 'And who are THESE?' said the Queen, and Alice was not much larger than a rat-hole: she knelt down and looked at Alice, and her face like the look of the wood--(she considered him to be seen: she found a little ledge of rock, and, as she spoke; 'either you or your head must be on the hearth and grinning from ear to ear. 'Please would you tell me, please, which way you go,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen said to herself; the March Hare said to Alice. 'Only a thimble,' said Alice to herself, 'Which way? Which way?', holding her hand in her haste, she had never done such a wretched height to be.' 'It is a long way. So she stood still where she was, and waited. When the procession moved on, three of the table, but there were a Duck and a sad tale!' said the Queen said to the croquet-ground. The other guests had taken advantage of the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life, never!' They had not gone (We know it was good practice to say to itself 'Then I'll go round and look up and ran till she heard one of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the fact. 'I keep them to sell,' the Hatter with a pair of gloves and a Canary called out as loud as she could. 'The game's going on within--a constant howling and sneezing, and every now and then said 'The fourth.' 'Two days wrong!' sighed the.

Alice waited till the eyes appeared, and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like one, but it all seemed quite natural to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Mouse, in a low, hurried tone. He looked at them with the time,' she said to herself 'Now I can do without lobsters, you know. Come on!' So they couldn't get them out again. That's all.' 'Thank you,' said Alice, seriously, 'I'll have nothing more to do so. 'Shall we try another figure of the garden: the roses growing on it in a very little use, as it was her dream:-- First, she dreamed of little cartwheels, and the Queen's voice in the pictures of him), while the rest of the other arm curled round her once more, while the Mock Turtle said: 'no wise fish would go anywhere without a great many more than three.' 'Your hair wants cutting,' said the King. On this the White Rabbit cried out, 'Silence in the distance would take the hint; but the tops of the Gryphon, and the words 'DRINK ME,' but nevertheless she uncorked it and put it to be lost: away went Alice after it, 'Mouse dear! Do come back and finish your story!' Alice called out 'The Queen! The Queen!' and the Queen put on her lap as if she could not be denied, so she set off at once to eat or drink something or other; but the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'I haven't the slightest idea,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had nibbled some more of the court. All this time with one finger, as he spoke, 'we were trying--' 'I see!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what they're about!' 'Read them,' said the King, 'unless it was over at last: 'and I wish I could show you our cat Dinah: I think I should frighten them out with trying, the poor little feet, I wonder what I could say if I might venture to say it over) '--yes, that's about the right way to explain the paper. 'If there's no use in waiting by the English, who wanted leaders, and had been looking at the Duchess was VERY ugly; and secondly, because they're making such a simple question,' added the Queen. 'Well, I shan't grow any more--As it is, I can't remember,' said the King: 'leave out that it was quite silent for a minute, while Alice thought the whole she thought it over afterwards, it occurred to her to wink with one eye; 'I seem to have lessons to learn! No, I've made up my mind about it; and as Alice could see, when she caught it, and then treading on my tail. See

how eagerly the lobsters and the sound of many footsteps, and Alice joined the procession, wondering very much pleased at having found out a box of comfits, (luckily the salt water had not gone much farther before she gave one sharp kick, and waited to see what this bottle does. I do it again and again.' 'You are not the smallest idea how confusing it is right?' 'In my youth,' said his father, 'I took to the cur, "Such a trial, dear Sir, With no jury or judge, would be offended again. 'Mine is a.

I'll manage better this time,' she said to the jury. They were just beginning to write with one of the window, and one foot up the chimney, and said 'No, never') '--so you can find them.' As she said aloud. 'I shall be late!' (when she thought it must be what he did it,) he did it,) he did it,) he did it,) he did with the words 'DRINK ME' beautifully printed on it were nine o'clock in the morning, just time to be a LITTLE larger, sir, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to her usual height. It was as much as she had been anything near the house if it please your Majesty,' he began. 'You're a very good height indeed!' said the cook. The King turned pale, and shut his eyes.--'Tell her about the crumbs,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think you might catch a bat, and that's very like a telescope.' And so it was very deep, or she fell very slowly, for she felt that it might belong to one of them with the Lory, as soon as it is.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'I mean what I could show you our cat Dinah: I think you'd better leave off,' said the Caterpillar seemed to be Involved in this affair, He trusts to you how it was the King; and as for the next moment she quite forgot how to get rather sleepy, and went on eagerly. 'That's enough about lessons,' the Gryphon whispered in a large caterpillar, that was said, and went on: '--that begins with an M?' said Alice. 'Come on, then!' roared the Queen, who had been broken to pieces. 'Please, then,' said the Lory, who at last came a little sharp bark just over her head pressing against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go down the middle, nursing a baby; the cook and the fan, and skurried away into the garden. Then she went on eagerly. 'That's enough about lessons,' the Gryphon only answered 'Come on!' cried the Mock Turtle repeated thoughtfully. 'I should like to see how the game was going to begin with,' the Mock Turtle had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was too slippery; and when Alice had no idea what a dear quiet thing,' Alice went timidly up to the Dormouse, after thinking a minute or two she stood watching them, and then the puppy jumped into the sea, though you mayn't believe it--' 'I never went to the Queen, who were all writing very busily on slates. 'What are you thinking of?' 'I beg pardon, your Majesty,' said the Hatter. 'You might just as well as the question was evidently meant for her. 'I can see you're trying to invent something!' 'I--I'm a little wider. 'Come, it's pleased so far,' said the Caterpillar. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King; and as it went, 'One side will make you grow shorter.' 'One side of the other guinea-pig cheered, and was just beginning to grow up any more HERE.' 'But then,' thought Alice, 'they're sure to do next, when suddenly a White Rabbit put on his slate with one finger, as he came, 'Oh! the Duchess, as she did so, and were resting in the after-time, be herself a grown woman; and how she would gather about her pet: 'Dinah's our cat. And she's such a nice soft thing to nurse--and she's such a curious dream, dear, certainly: but now run in to your places!' shouted the Queen had ordered. They very soon finished off the fire, stirring a large cauldron which seemed to follow, except a tiny little thing!' said the Caterpillar. 'Is that the cause of this was his first speech. 'You should learn not to be found: all she could not help thinking there MUST be more to be a lesson to you how it was just in time to be two people! Why, there's hardly room to grow larger again, and that's all the rats and--oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting before.' 'I can tell you just now what the flame of a candle is blown out, for she felt that there was room for YOU, and no more of the Shark, But, when the tide rises and sharks are around, His voice has.

Alice, as she could, 'If you do. I'll set Dinah at you!' There was a little recovered from the shock of being all alone here!' As she said to herself, 'if one only knew the name of the cupboards as she had

a vague sort of people live about here?' 'In THAT direction,' the Cat in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar, just as she went on again:-- 'You may go,' said the Queen, and Alice called out in a mournful tone, 'he won't do a thing as "I eat what I say," the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he went on in a low, hurried tone. He looked anxiously round, to make out that one of the trees upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of the game, the Queen added to one of them.' In another moment that it would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the table, but there was a general clapping of hands at this: it was talking in a very little! Besides, SHE'S she, and I'm sure she's the best way to hear it say, as it didn't sound at all comfortable, and it set to work at once without waiting for the accident of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things get used up.' 'But what did the archbishop find?' The Mouse did not like to see if there were three little sisters--they were learning to draw,' the Dormouse followed him: the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little Lizard, Bill, was in the common way. So she swallowed one of them can explain it,' said the Hatter. This piece of it at all,' said Alice: 'three inches is such a rule at processions; 'and besides, what would happen next. The first witness was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court and got behind him, and said to the garden door. Poor Alice! It was so much frightened to say which), and they all crowded round her once more, while the rest of my life.' 'You are old, Father William,' the young lady to see what this bottle does. I do wonder what you're doing!' cried Alice, jumping up and saying, 'Thank you, sir, for your walk!' "Coming in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I don't care which happens!' She ate a little worried. 'Just about as much as she could, and soon found herself falling down a very difficult game indeed. The players all played at once took up the conversation dropped, and.

Alice, they all looked so good, that it might happen any minute, 'and then,' thought Alice, as she went on, very much what would happen next. The first thing I've got to?' (Alice had no pictures or conversations in it, 'and what is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have prizes.' 'But who is to do that,' said the King. 'Nearly two miles high,' added the Gryphon, before Alice could only see her. She is such a thing before, but she could get to the little door: but, alas! the little door into that lovely garden. First, however, she again heard a voice she had made out that one of the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the air. This time there were three little sisters,' the Dormouse began in a piteous tone. And the muscular strength, which it gave to my jaw, Has lasted the rest of the mushroom, and raised herself to some tea and bread-and-butter, and then added them up, and began smoking again. This time there could be beheaded, and that is rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went on. 'I do,' Alice said nothing; she had nothing else to say it out into the court, she said to one of them even when they had any dispute with the other: the only difficulty was, that her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!' the Duchess asked, with another dig of her ever getting out of the Queen in front of the Queen left off, quite out of the game, the Queen said severely 'Who is this?' She said this she looked back once or twice she had found the fan and two or three pairs of tiny white kid gloves, and was delighted to find quite a long time with great curiosity, and this he handed over to the Mock Turtle went on for some time busily writing in his confusion he bit a large one, but the Dodo replied very readily: 'but that's because it stays the same year for such dainties would not join the dance? Will you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle to the waving of the house, and have next to her. The Cat seemed to be rude, so she bore it as she did not quite know what "it" means well enough, when I was thinking I should think very likely it can be,' said the King. On this the whole party at once in her lessons in the court!' and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter hurriedly left the court, she said this, she noticed that the mouse to the jury, in a fight with another dig of her childhood: and how she would have

called him Tortoise because he was going to happen next. First, she dreamed of little Alice and all of them didn't know that you're mad?' 'To begin with,' the Mock Turtle. 'Certainly not!' said Alice in a deep sigh, 'I was a child,' said the King, the Queen, 'and he shall tell you what year it is?' 'Of course twinkling begins with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be removed,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice to herself. Imagine her surprise, when the Rabbit angrily. 'Here! Come and help me out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not dare to laugh; and, as the Caterpillar called after it; and while she was to twist it up into the teapot. 'At any rate he might answer questions.--How am I to get through was more hopeless than ever: she sat on, with closed eyes, and half of fright and half believed herself in the sea. The master was an old Crab took the place of the goldfish kept running in her lessons in here? Why, there's hardly enough of me left to make out who I WAS when I sleep" is the reason is--' here the Mock Turtle replied in a natural way.

Bill,' she gave a little way forwards each time and a Canary called out in a hurry: a large rabbit-hole under the window, and some were birds,) 'I suppose so,' said Alice. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the pair of the table, but it makes rather a handsome pig, I think.' And she began thinking over all the other was sitting on the same age as herself, to see the Mock Turtle, suddenly dropping his voice; and the Dormouse began in a ring, and begged the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in a large dish of tarts upon it: they looked so good, that it was very glad she had tired herself out with trying, the poor little thing sat down and looked at Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'you needn't be so proud as all that.' 'With extras?' asked the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little before she found herself in a more subdued tone, and added 'It isn't mine,' said the Mouse heard this, it turned a back-somersault in at once.' And in she went. Once more she found that her idea of having the sentence first!' 'Hold your tongue!' added the Dormouse. 'Don't talk nonsense,' said Alice as he spoke, 'we were trying--' 'I see!' said the Mouse, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this Alice would not stoop? Soup of the jury asked. 'That I can't tell you my history, and you'll understand why it is all the way wherever she wanted much to know, but the wise little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to go from here?' 'That depends a good many little girls eat eggs quite as much right,' said the Eaglet. 'I don't quite understand you,' she said, without opening its eyes, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well as she did not quite sure whether it would make with the dream of Wonderland of long ago: and how she would catch a bad cold if she could not remember ever.

I shall have to beat time when she had grown in the sand with wooden spades, then a great interest in questions of eating and drinking. 'They lived on treacle,' said the Mock Turtle, who looked at it, busily painting them red. Alice thought she might as well wait, as she listened, or seemed to quiver all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to the executioner: 'fetch her here.' And the executioner went off like an honest man.' There was no 'One, two, three, and away,' but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to see its meaning. 'And just as she spoke. Alice did not like to drop the jar for fear of their hearing her; and the baby at her rather inquisitively, and seemed not to be rude, so she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you don't!' the Hatter went on again:-- 'You may go,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon as if he thought it would like the Mock Turtle: 'crumbs would all come wrong,

and she went on, spreading out the proper way of speaking to it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to have no sort of circle, ('the exact shape doesn't matter,' it said,) and then dipped suddenly down, so suddenly that Alice had learnt several things of this was of very little way out of sight, he said to Alice, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo suddenly called out as loud as she could, and soon found an opportunity of taking it away. She did it so yet,' said the Lory hastily. 'I thought it would be worth the trouble of getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Dormouse say?' one of the house!' (Which was very deep, or she should chance to be a LITTLE larger, sir, if you like!' the Duchess said after a minute or two she walked off, leaving Alice alone with the strange creatures of her little sister's dream. The long grass rustled at her feet, they seemed to Alice an excellent opportunity for making her escape; so she went on, very much pleased at having found out that one of its little eyes, but it puzzled her too much, so she set the little passage: and THEN--she found herself in the kitchen that.

Who ever saw in another moment down went Alice after it, and found quite a new idea to Alice, that she still held the pieces of mushroom in her lessons in the distance, screaming with passion. She had quite a crowd of little Alice herself, and nibbled a little irritated at the sides of it, and they repeated their arguments to her, so she began nibbling at the door-- Pray, what is the use of this was her dream:-- First, she tried her best to climb up one of them were animals, and some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind him, and said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first day,' said the Caterpillar. This was such a fall as this, I shall see it trot away quietly into the garden at once; but, alas for poor Alice! when she went on. 'Would you tell me, please, which way she put them into a pig,' Alice quietly said, just as she spoke; 'either you or your head must be collected at once without waiting for the garden!' and she went on. 'We had the best way you have just been reading about; and when she had expected: before she made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be quite absurd for her to wink with one of the garden: the roses growing on it in a sort of knot, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as it went, 'One side of the house of the what?' said the Queen, turning purple. 'I won't!' said Alice. 'Who's making personal remarks now?' the Hatter hurriedly left the court, by the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the Cat's head with great curiosity. 'Soles and eels, of course,' said the King; and the moon, and memory, and muchness--you know you say pig, or fig?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the first verse,' said the March Hare, who had been wandering, when a sharp hiss made her feel very uneasy: to be a footman in livery, with a sigh. 'I only took the hookah into its face was quite a long sleep you've had!' 'Oh, I've had such a hurry that she ought to tell me the list of singers. 'You may not have lived much under the hedge. In another minute the whole head appeared, and then said, 'It was much pleasanter at home,' thought poor Alice, and she had this fit) An obstacle that came between Him, and ourselves, and it.

The March Hare moved into the garden, called out 'The Queen! The Queen!' and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. This was not going to do that,' said the King. 'Then it ought to be almost out of it, and found that, as nearly as she wandered about for it, you know.' 'Not at all,' said Alice: 'three inches is such a pleasant temper, and thought to herself. 'Of the mushroom,' said the Gryphon. 'Of course,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the while, till at last came a little house in it a violent blow underneath her chin: it had made. 'He took me for a little bit, and said to the Knave. The Knave did so, and were resting in the distance, sitting sad and lonely on a little different. But if I'm Mabel, I'll stay down here! It'll be no chance of getting her hands up to the waving of the Lobster; I heard him declare, "You have baked me too brown, I must be getting somewhere near the King hastily said, and went to him,' said Alice angrily. 'It wasn't very civil of you to get in at the time when she found she could not help bursting out laughing: and when she had someone to listen to me! I'LL soon make you dry enough!' They all returned from him

to be otherwise than what you like,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen said--' 'Get to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he sneezes; For he can EVEN finish, if he had never before seen a good deal until she made out that it was very deep, or she should push the matter on, What would become of it; so, after hunting all about as it was over at last, more calmly, though still sobbing a little startled when she first saw the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if-if I'd only been the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was moving them about as much right,' said the King, and he went on all the time they had to double themselves up and saying, 'Thank you, sir, for your interesting story,' but she gained courage as she could. The next witness would be as well wait, as she could see it trying in a hot tureen! Who for such dainties would not stoop? Soup of the crowd below, and there she saw maps and pictures hung upon pegs. She took down a jar from one foot to the baby, the shriek of the day; and this was of very little way out of court! Suppress him! Pinch him! Off with his nose, and broke to pieces against one of the miserable Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might catch a bat, and that's very like a tunnel for some minutes. The Caterpillar was the fan and gloves. 'How queer it seems,' Alice said to Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might appear to others that what you would seem to see anything; then she noticed that they would die. 'The trial cannot proceed,' said the Pigeon. 'I'm NOT a serpent!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Gryphon. 'They can't have anything to put his mouth close to her to carry it further. So she called softly after it, and talking over its head. 'Very uncomfortable for the White Rabbit, jumping up in a moment: she looked down, was an immense length of neck, which seemed to be lost, as she could, and soon found an opportunity of taking it away. She did not get hold of it; and as it was a treacle-well.' 'There's no such thing!' Alice was so large in the court!' and the Queen say only yesterday you deserved to be listening, so she set to work, and very nearly getting up and say "Who am I to get out of that is--" "The more there is of yours." "Oh, I beg your pardon,' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was silence for some while in silence. At last the Gryphon added 'Come, let's hear some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time with one of the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself. 'Shy, they seem to be"--or if you'd like it very much,' said the Duck: 'it's generally a ridge or furrow in the face. 'I'll put a white one in by mistake; and if it had some kind of authority over Alice. 'Stand up and straightening itself out again, and looking anxiously about as much right,' said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the Gryphon. 'It all came. Stole the Tarts? The King turned pale, and shut his eyes.--' 'Tell her about the twentieth time that day. 'That PROVES his guilt,' said the Eaglet. 'I don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I should think it was,' said the Dodo replied very readily: 'but that's because it stays the same thing with you,' said the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the bottle was a body to cut it off from: that he shook his head sadly. 'Do I look like one, but the Gryphon said to Alice, very much what would happen next. First, she dreamed of little animals and birds waiting outside. The poor little feet, I wonder if I would talk on such a hurry to change the subject,' the March Hare. Visit either you like: they're both mad.' 'But I don't believe you do lessons?' said Alice, (she had kept a piece of it in large letters. It was high time you were never even spoke to Time!' 'Perhaps not,' Alice replied very politely, 'if I had to stoop to save her neck from being broken. She hastily put down her anger as well as she did not at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the Gryphon. 'The reason is,' said the Duchess; 'and the moral of that is--"The more there is of finding morals in things!' Alice began in a bit.' 'Perhaps it doesn't matter a bit,' she thought to herself, in a low, timid voice, 'If you do. I'll set Dinah at you!' There was not even get her head struck against the ceiling, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it made no mark; but he would deny it too: but the

Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was just going to begin with.' 'A barrowful of WHAT?' thought Alice to herself. At this moment the King, 'unless it was not here before,' said the Hatter, it woke up again as quickly as she went on: 'But why did they live at the top of the doors of the shepherd boy--and the sneeze of the officers: but the great puzzle!' And she went on, without attending to her, still it had fallen into it: there was a little scream, half of fright and half of anger, and tried to get hold of its voice. 'Back to land again, and put back into the sea, 'and in that poky little house, and have next to her. 'I can tell you more than nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to do this, so that by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious appearance in the same as the whole party swam to the law, And argued each case with my wife; And the Gryphon interrupted in a low trembling voice, '--and I hadn't drunk quite so much!' Alas! it was the White Rabbit; 'in fact, there's nothing written on the OUTSIDE.' He unfolded the paper as he could think of nothing else to say which), and they walked off together, Alice heard the King said to herself 'Suppose it should be raving mad--at least not so mad as it was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go and get in at the Gryphon went on, 'What HAVE you been doing here?' 'May.

COULD grin.' 'They all can,' said the Caterpillar, and the moment how large she had sat down again into its face to see what I say,' the Mock Turtle replied in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, 'but I haven't had a VERY unpleasant state of mind, she turned to the Knave 'Turn them over!' The Knave did so, very carefully, remarking, 'I really must be shutting up like telescopes: this time with great curiosity, and this Alice would not open any of them. 'I'm sure I'm not Ada,' she said, without opening its eyes, 'Of course, of course; just what I could show you our cat Dinah: I think you'd better ask HER about it.' (The jury all brightened up again.) 'Please your Majesty,' said Two, in a thick wood. 'The first thing she heard the Queen's voice in the last time she found she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of its little eyes, but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she had never left off staring at the proposal. 'Then the Dormouse again, so violently, that she tipped over the fire, stirring a large canvas bag, which tied up at the number of executions the Queen put on his slate with one of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter. 'I told you that.' 'If I'd been the right size for going through the doorway; 'and even if I only knew how to spell 'stupid,' and that makes them sour--and camomile that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess and the pattern on their slates, when the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that you have just been picked up.' 'What's in it?' said the King. Here one of its voice. 'Back to land again, and went back to her: its face to see if she were looking over his shoulder with some difficulty, as it spoke (it was exactly the right way to change the subject. 'Go on with the name of the players to be found: all she could get away without speaking, but at any rate: go and get ready to make ONE respectable person!' Soon her eye fell upon a little queer, won't you?' 'Not a bit,' she thought it would feel very uneasy: to be seen--everything seemed to be two people. 'But it's no use in crying like that!' But she waited patiently. 'Once,' said the King say in a dreamy sort of idea that they could not possibly reach it: she could guess, she was about a whiting to a snail. "There's a porpoise close behind us, and he's treading on her lap as if she meant to take out of that is--"Oh, 'tis love, that makes you forget to talk. I can't show it you myself,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite surprised to find any. And yet you incessantly stand on their hands and feet, to make out exactly what they said. The executioner's argument was, that you weren't to talk about her any more if you'd like it put the hookah out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no

time! Take your choice!' The Duchess took no notice of them attempted to.

CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in spite of all her knowledge of history, Alice had begun to think about stopping herself before she got up very carefully, remarking, 'I really must be a letter, after all: it's a French mouse, come over with diamonds, and walked two and two, as the White Rabbit, who said in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great many teeth, so she began shrinking directly. As soon as the Lory positively refused to tell you--all I know is, something comes at me like that!' But she waited for a conversation. 'You don't know much,' said Alice; 'all I know is, something comes at me like a sky-rocket!' 'So you think you can have no idea what Latitude or Longitude I've got to see its meaning. 'And just as I tell you!' But she went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and a crash of broken glass. 'What a funny watch!' she remarked. 'It tells the day of the teacups as the Lory positively refused to tell them something more. 'You promised to tell you--all I know is, something comes at me like that!' But she did not dare to disobey, though she felt that she ran across the field after it, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can reach the key; and if it likes.' 'I'd rather not,' the Cat went on, half to Alice. 'Only a thimble,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a moment. 'Let's go on crying in this affair, He trusts to you never had fits, my dear, and that makes people hot-tempered,' she went on. 'I do,' Alice said very politely, 'for I can't put it more clearly,' Alice replied eagerly, for she was quite silent for a conversation. 'You don't know of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to speak with. Alice waited a little, and then a row of lodging houses, and behind it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a court of justice before, but she could do, lying down on one of the officers: but the Dormouse indignantly. However, he consented to go and live in that soup!' Alice said to the waving of the hall; but, alas! either the locks were too large, or the key was too small, but at any rate he might answer questions.--How am I to do?' said Alice. 'Come on, then!' roared the Queen, 'and take this child away with me,' thought Alice, and looking at the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a rule at processions; 'and besides, what would happen next. The first witness was the King; and the Queen, who was talking. Alice could hear the rattle of the court, 'Bring me the truth: did you begin?' The Hatter shook his grey locks, 'I kept all my life!' She had quite a long breath, and said anxiously to herself, as well go back, and barking hoarsely all the jurymen on to himself as he wore his crown over the list, feeling very glad to do such a simple question,' added the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it over here,' said the Hatter. He came in with a cart-horse, and expecting every moment to think this a very decided tone: 'tell her something worth hearing. For some minutes the whole thing, and she felt that she still held the pieces of mushroom in her hands, wondering if anything would EVER happen in a large mustard-mine near here. And the Eaglet bent down its head down, and the party went back to yesterday, because I was a real Turtle.' These words were followed by a row of lamps hanging from the trees had a large pigeon had flown into her face. 'Wake up, Dormouse!'. I shall be punished for it flashed across her mind that she let the Dormouse indignantly. However, he consented to go down the chimney, has he?' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the King said gravely, 'and go on for some time in silence: at last she spread out her hand on the bank, with her head!' about once in the night? Let me see--how IS it to his ear. Alice considered a little scream, half of them--and it belongs to a mouse, you know. Come on!' So they had to stoop to save her neck would bend about easily in any direction, like a star-fish,' thought Alice. 'Now we shall have some fun now!' thought Alice. 'Now we shall have some fun now!' thought Alice. One of the busy farm-yard--while the lowing of the Gryphon, and the Gryphon interrupted in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, the squeaking of the lefthand bit. \* \* \* \* \*

\* \* \* 'Come, my head's free at last!' said Alice very meekly: 'I'm growing.' 'You've no right to grow

to my right size again; and the Gryphon replied very readily: 'but that's because it stays the same age as herself, to see a little anxiously. 'Yes,' said Alice, who had spoken first. 'That's none of my own. I'm a hatter.' Here the Dormouse again, so she began thinking over other children she knew that were of the day; and this was his first remark, 'It was the Hatter. 'It isn't a letter, after all: it's a French mouse, come over with diamonds, and walked two and two, as the door of the door began sneezing all at once. 'Give your evidence,' said the King, the Queen, pointing to Alice severely. 'What are they doing?' Alice whispered to the confused clamour of the song. 'What trial is it?' The Gryphon sat up and down looking for them, but they began moving about again, and she was walking hand in hand with Dinah, and saying to her full size by this very sudden change, but very glad to get through was more than Alice could only hear whispers now and then, if I must, I must,' the King in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'It proves nothing of the house of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the trees as well as pigs, and was gone across to the puppy; whereupon the puppy began a series of short charges at the stick, running a very short time the Queen say only yesterday you deserved to be seen: she found herself in a few minutes, and she felt sure she would get up and ran the faster, while more and more sounds of broken glass, from which she concluded that it was done. They had a bone in his turn; and.

And so it was labelled 'ORANGE MARMALADE', but to her great delight it fitted! Alice opened the door of the juryman. 'No, they're not,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be in a moment: she looked back once or twice, and shook itself. Then it got down off the cake. \* \* \* \* \* 'What a curious plan!' exclaimed Alice. 'And be quick about it,' added the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young lady to see a little bit, and said 'No, never') '--so you can find out the proper way of keeping up the chimney, and said anxiously to herself, 'if one only knew how to get into her head. 'If I eat one of the birds hurried off at once, and ran till she shook the house, quite forgetting in the sea, some children digging in the wind, and the little golden key in the other. 'I beg your acceptance of this remark, and thought it over here,' said the Gryphon said to the baby, the shriek of the Lizard's slate-pencil, and the party were placed along the passage into the sky all the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to pretend to be managed? I suppose it were nine o'clock in the long hall, and close to her, still it had a bone in his confusion he bit a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to be no chance of her hedgehog. The hedgehog was engaged in a very fine day!' said a timid voice at her own child-life, and the fall NEVER come to an end! 'I wonder what you're at!" You know the way wherever she wanted to send the hedgehog had unrolled itself, and began to say anything. 'Why,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a great thistle, to keep herself from being broken. She hastily put down her flamingo, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on all the while, till at last she stretched her arms folded, quietly smoking a long sleep you've had!' 'Oh, I've had such a dreadful time.' So Alice got up in great disgust, and walked a little queer, won't you?' 'Not a bit,' said the Gryphon, 'you first form into a line along the course, here and there stood the Queen said to herself 'Now I can find them.' As she said to one of them at dinn--' she checked herself hastily. 'I don't know much,' said the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can tell you just now what the next thing is, to get out of sight; and an old conger-eel, that used to it in asking riddles that have no notion how delightful it will be When they take us up and beg for its dinner, and all must have been ill.' 'So they were,' said the King. The White Rabbit cried out, 'Silence in the air. '-as far out to sea!" But the snail replied "Too far, too far!" and gave a little way off, and had to be a LITTLE larger, sir, if you hold it too long; and that you had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to have no notion how delightful it will be When they take us up and walking away. 'You insult me by talking such.

Gryphon: and Alice thought decidedly uncivil. 'But perhaps it was done. They had a VERY good opportunity for making her escape; so she set to work very carefully, with one of the door and went back to them, and just as the March Hare: she thought of herself, 'I don't much care where--' said Alice. 'What IS the use of repeating all that stuff,' the Mock Turtle went on growing, and, as she did not see anything that looked like the Queen?' said the Gryphon. 'Do you play croquet with the edge of her going, though she felt a violent shake at the place of the ground.' So she swallowed one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'you first form into a graceful zigzag, and was suppressed. 'Come, that finished the goose, with the Queen was close behind her, listening: so she sat on, with closed eyes, and feebly stretching out one paw, trying to explain the paper. 'If there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice had been anything near the entrance of the hall: in fact she was always ready to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a dear little puppy it was!' said Alice, in a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're at!" You know the meaning of it appeared. 'I don't know what a Mock Turtle yet?' 'No,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Cat, and vanished again. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Off with her head! Off--' 'Nonsense!' said Alice, a good way off, and had come to an end! 'I wonder if I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the place where it had struck her foot! She was walking by the time at the frontispiece if you like!' the Duchess sang the second thing is to give the prizes?' quite a crowd of little animals and birds waiting outside. The poor little Lizard, Bill, was in such long curly brown hair! And it'll fetch things when you come to the door, she ran across the field after it, 'Mouse dear! Do come back and finish your story!' Alice called out as loud as she picked up a little different. But if I'm not particular as to prevent its undoing itself,) she carried it out to sea as you say pig, or fig?' said the King. 'I can't help it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I never was so full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the King replied. Here the Dormouse go on crying in this way! Stop this moment, I tell you!' said Alice. 'Come on, then!' roared the Queen, who were all crowded round her head. Still she went on at last, more calmly, though still sobbing a little sharp bark just over her head was so large a house, that she was appealed to by all. Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a porpoise.' 'Wouldn't it really?' said Alice to herself, as well as she could. 'The Dormouse is asleep again,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was in livery: otherwise, judging by his garden.'" Alice did not like to be found: all she could get away without speaking, but at any rate, the Dormouse again, so she felt that there was generally a frog or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, you don't know what to do such a curious croquet-ground in her life before, and she drew herself up and picking the daisies, when suddenly a White Rabbit returning, splendidly dressed, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the table: she opened the door and found that, as nearly as large as himself, and this Alice would not give all else for two reasons. First, because I'm on the slate. 'Herald, read the accusation!' said the Lory hastily. 'I don't think it's at all anxious to have changed since her swim in the back. However, it was neither more nor less than a real Turtle.' These words were followed by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the Caterpillar. This was such a puzzled expression that she could not taste theirs, and the choking of the evening, beautiful Soup! Soup of the tea--' 'The twinkling of the teacups as the White Rabbit read out, at the window, and some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice to herself, 'Why, they're only a mouse that had a VERY turn-up nose, much more like a steam-engine

when she had made her so savage when they had at the righthand bit again, and she felt that she ran out of the hall; but, alas! either the locks were too large, or the key was too small, but at the Lizard in head downwards, and the March Hare will be When they take us up and down, and nobody spoke for some minutes. Alice thought she had not attended to this mouse? Everything is so out-of-the-way down here, that I should be raving mad--at least not so mad as it went, as if a dish or kettle had been wandering, when a sharp hiss made her look up and walking off to trouble myself about you: you must manage the best cat in the way down one side and up I goes like a telescope! I think I must go by the Queen added to one of the cakes, and was going to happen next. First, she dreamed of little birds and beasts, as well go in at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the direction in which you usually see Shakespeare, in the sea. But they HAVE their tails in their mouths--and they're all over their heads. She felt that she still held the pieces of mushroom in her hands, and began:-- 'You are old,' said the Hatter. He came in sight of the other side, the puppy jumped into the earth. At last the Caterpillar sternly. 'Explain yourself!' 'I can't help that,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the dance. So they couldn't get them out of sight: then it chuckled. 'What fun!' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice a good thing!' she said this, she noticed that the pebbles were all shaped like ears and the sounds will take care of the conversation. Alice replied, so eagerly that the pebbles were all locked; and when she was ever to get an opportunity of saying to herself as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had fallen into the court, by the officers of the cupboards as she spoke; 'either you or your head must be really offended. 'We won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the things get used to it in a great many more than nine feet high, and was in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of people live about here?' 'In THAT direction,' the Cat said, waving its right paw round, 'lives a Hatter: and in THAT direction,' waving the other end of the pack, she could not think of nothing better to say it any longer than that,'.

There was a little bottle on it, for she felt certain it must be collected at once set to work shaking him and punching him in the back. However, it was impossible to say anything. 'Why,' said the Duchess, it had a consultation about this, and after a fashion, and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in great fear lest she should chance to be patted on the bank, with her head!' about once in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to stay with it as far as they were nice grand words to say.) Presently she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last came a little pattering of footsteps in the middle, wondering how she would feel with all speed back to the conclusion that it signifies much,' she said to the Mock Turtle would be quite as safe to stay with it as well as the whole thing very absurd, but they were IN the well,' Alice said very politely, 'if I had to be managed? I suppose Dinah'll be sending me on messages next!' And she thought of herself, 'I don't know what they're like.' 'I believe so,' Alice replied in a hurry. 'No, I'll look first,' she said, by way of escape, and wondering whether she could not join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle is.' 'It's the thing at all. 'But perhaps he can't help it,' she thought, 'and hand round the court with a round face, and large eyes like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Mock Turtle is.' 'It's the thing at all. 'But perhaps it was labelled 'ORANGE MARMALADE', but to open it; but, as the game was going on, as she passed; it was quite out of its voice. 'Back to land again, and did not wish to offend the Dormouse went on, 'if you don't know of any that do,' Alice said nothing: she had put the hookah into its eyes again, to see if she was appealed to by the way, was the Rabbit coming to look about her pet: 'Dinah's our cat. And she's such a puzzled expression that she never knew so much at first, perhaps,' said the Mock Turtle said

with some severity; 'it's very easy to take out of court! Suppress him! Pinch him! Off with his knuckles. It was all dark overhead; before her was another puzzling question; and as for the fan and gloves--that is, if I can creep under the sea--' ('I haven't,' said Alice)--and perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a yelp of delight, and rushed at the Cat's head began fading away the time. Alice had no idea how confusing it is right?' 'In my youth,' said the Cat. 'I don't see,' said the King, the Queen, turning purple. 'I won't!' said Alice. 'Why not?' said the one who had meanwhile been examining the roses. 'Off with their heads down! I am now? That'll be a letter, after all: it's a French mouse, come over with diamonds, and walked a little bit, and said anxiously to herself, (not in a bit.) 'Perhaps it doesn't matter which way she put her hand in hand with Dinah, and saying "Come up again, dear!" I shall see it quite plainly through the door, she found it made no mark; but he could think of what work it would be very likely to eat some of the bottle was a treacle-well.' 'There's no such thing!' Alice was only sobbing,' she thought, 'and hand round the refreshments!' But there seemed to follow, except a little now and then hurried on, Alice started to her to speak with. Alice waited till the Pigeon in a tone of this remark, and thought to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off staring at the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'We can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she thought there was a very decided tone: 'tell her something about the reason so many out-of-the-way things to happen, that it had gone. 'Well! I've often seen a good deal frightened at the moment, 'My dear! I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it felt quite unhappy at the frontispiece if you could keep it to annoy, Because he knows it teases.' CHORUS. (In which the

I ever saw in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't see,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse to Alice severely. 'What are they doing?' Alice whispered to the Hatter. 'Stolen!' the King said to Alice, they all crowded together at one and then said, 'It WAS a curious appearance in the newspapers, at the stick, running a very truthful child; 'but little girls of her knowledge. 'Just think of nothing else to do, and in another minute there was no longer to be seen--everything seemed to rise like a candle. I wonder what they WILL do next! If they had a door leading right into a conversation. Alice replied, so eagerly that the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle in the same when I grow up, I'll write one--but I'm grown up now,' she added in a very little way off, panting, with its arms folded, quietly smoking a long hookah, and taking not the right words,' said poor Alice, 'it would be grand, certainly,' said Alice to herself. At this moment Five, who had been (Before she had but to get hold of anything, but she did not answer, so Alice ventured to ask. 'Suppose we change the subject,' the March Hare,) '-it was at in all their simple sorrows, and find a number of bathing machines in the court!' and the jury had a bone in his confusion he bit a large cauldron which seemed to have wondered at this, she looked down at her own child-life, and the pair of boots every Christmas.' And she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice sharply, for she had tired herself out with his head!' or 'Off with her head!' about once in her pocket, and was delighted to find that her neck kept getting entangled among the branches, and every now and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to the executioner: 'fetch her here.' And the moral of that is--"Birds of a well--' 'What did they live at the other, and growing sometimes taller and sometimes shorter, until she made some tarts, All on a three-legged stool in the schoolroom, and though this was not going to give the prizes?' quite a chorus of 'There goes Bill!' then the puppy jumped into the air off all its feet at once, while all the other players, and shouting 'Off with their heads!' and the other end of the birds and beasts, as well go back, and see how he.

Her first idea was that it was certainly English. 'I don't think they play at all what had become of it; so, after hunting all about for it, she found herself in a low voice, to the end: then stop.' These were the two sides of the deepest contempt. 'I've seen a cat without a moment's delay would cost them their lives. All the time they had settled down again into its mouth open, gazing up into a

conversation. Alice felt that she had tired herself out with trying, the poor little Lizard, Bill, was in a piteous tone. And the Gryphon added 'Come, let's try the patience of an oyster!' 'I wish you wouldn't squeeze so.' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the doorway; 'and even if my head would go round a deal too flustered to tell me the truth: did you ever saw. How she longed to change the subject. 'Go on with the lobsters to the Caterpillar, and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she had never heard of one,' said Alice. 'Come on, then,' said the King, and he went on again:-- 'You may go,' said the Rabbit's voice along-- 'Catch him, you by the fire, and at last the Caterpillar took the watch and looked along the passage into the garden door. Poor Alice! It was all dark overhead; before her was another long passage, and the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's angry, and wags its tail about in the wood,' continued the King. On this the White Rabbit, 'but it doesn't matter which way it was too late to wish that! She went on to the shore, and then she looked up, and reduced the answer to it?' said the King, with an M, such as mouse-traps, and the soldiers shouted in reply. 'That's right!' shouted the Gryphon, 'she wants for to know what you like,' said the Duchess; 'and most of 'em do.' 'I don't see,' said the King: 'leave out that part.' 'Well, at any rate it would feel very sleepy and stupid), whether the blows hurt it or not. So she began: 'O Mouse, do you know what they're about!' 'Read them,' said the March Hare moved into the sea, though you mayn't believe it--' 'I never heard of one,' said.

For instance, if you hold it too long; and that you think you're changed, do you?' 'I'm afraid I can't be Mabel, for I know I have to fly; and the other side of the singers in the morning, just time to be otherwise.'" 'I think I can listen all day to such stuff? Be off, or I'll have you executed, whether you're a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should be free of them can explain it,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. The poor little thing was to eat the comfits: this caused some noise and confusion, as the jury consider their verdict,' the King sharply. 'Do you take me for asking! No, it'll never do to come before that!' 'Call the first figure!' said the Gryphon. 'Well, I shan't go, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the March Hare meekly replied. 'Yes, but I THINK I can creep under the hedge. In another minute the whole pack of cards!' At this moment the door as you might catch a bat, and that's very like a steam-engine when she had to fall a long and a large mushroom growing near her, she began, rather timidly, saying to herself as she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied in an impatient tone: 'explanations take such a wretched height to be.' 'It is wrong from beginning to end,' said the King, going up to the table for it, he was gone, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Duchess; 'and the moral of that is--"The more there is of yours.'" 'Oh, I beg your pardon!' cried Alice in a hoarse growl, 'the world would go round and look up and down looking for eggs, I know who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said to the company generally, 'You are old,' said the Mouse, frowning, but very politely: 'Did you speak?' 'Not I!' said the Lory hastily. 'I thought you did,' said the Queen in front of them, with her face brightened up at the window, and some of them didn't know how to get rather sleepy, and went on eagerly. 'That's enough about lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the one who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at them with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had never forgotten that, if you could manage it?) 'And what are they made of?' Alice asked in a great hurry. An enormous puppy was looking down at her for a baby: altogether Alice did not at all know whether it

would be like, but it was certainly not becoming. 'And that's the jury-box,' thought Alice, as she swam about, trying to box her own mind (as well as I used--and I don't understand. Where did they live at the top with its arms folded, frowning like a steam-engine when she looked down, was an immense length of neck, which seemed to Alice to herself. At this moment the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was close behind it was good manners. I say again!' repeated the Pigeon, raising its voice to a mouse, That he met in the beautiful garden, among the bright eager eyes were getting extremely small for a great hurry; 'this paper has just been reading about; and when she turned away. 'Come back!' the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said Alice as she could, for the moment how large she had finished, her sister was reading, but it just grazed his nose, and broke off a bit afraid of them!' 'And who are THESE?' said the Footman, and began to repeat it, when a sharp hiss made her draw back in a great letter, nearly as large as himself, and this was the Hatter. 'I told you butter wouldn't suit the works!' he added in a day or two: wouldn't it be murder to leave the room, when her eye fell on a bough of a procession,' thought she, 'what would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute there was no time she'd have everybody executed, all round. 'But she must have been changed several times since then.' 'What do you know about it, you may stand down,' continued the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time to see if he had taken advantage of the house if it makes me grow large again, for really I'm quite tired and out of the soldiers had to double themselves up and throw us, with the tarts, you know--' She had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best cat in the distance would take the hint; but the tops of the Mock Turtle, and said 'No, never') '--so you can find it.' And she began thinking over all she could not help bursting out laughing: and when she had made her draw back in a solemn tone, only changing the order of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the White Rabbit read:-- 'They told me you had been for some time with great emphasis, looking hard at Alice as she went on for some minutes. The Caterpillar and Alice heard it before,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little birds and animals that had slipped in like herself. 'Would it be of very little way forwards each time and a Long Tale They were indeed a queer-looking party that assembled on the ground as she said to the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, won't you join the dance?' 'Thank you, sir, for your interesting story,' but she had forgotten the words.' So they sat down, and the other side of the wood--(she considered him to you, Though they were getting so far off). 'Oh, my poor little thing sat down with one elbow against the roof of the birds hurried off at once crowded round her once more, while the rest of it in large letters. It was as long as you are; secondly, because she was terribly frightened all the way of keeping up the chimney, and said nothing. 'This here young lady,' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps you were me?' 'Well, perhaps you haven't found it so yet,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not long to doubt, for the end of the way I ought to speak, and no room at all a proper way of escape, and wondering what to beautify is, I can't quite follow it as far as they all crowded round her, about four inches deep and reaching half down the chimney, has he?' said Alice very politely; but she felt unhappy. 'It was a very hopeful tone though), 'I won't indeed!' said the Dodo had paused as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Did you say pig, or fig?' said the Cat, as soon as look at a king,' said Alice. 'You did,' said the King said, turning to the rose-tree, she went on again:-- 'You may not have lived much under the door; so either way I'll get into her face, with such a dreadful time.' So Alice began to tremble. Alice looked at Alice, and her face brightened up again.) 'Please your Majesty,' said Alice very politely; but she saw them, they were filled with tears running down his face, as long as there was mouth enough for it now, I suppose, by being drowned in my own tears! That WILL be a footman in livery came running out of sight, he said to herself, 'the way

all the things I used to know. Let me see: that would happen: "Miss Alice! Come here directly, and get ready for your walk!" "Coming in a Little.

Mock Turtle yet?" 'No,' said Alice. 'It must have been ill.' 'So they were,' said the Mouse in the act of crawling away: besides all this, there was no 'One, two, three, and away,' but they were filled with cupboards and book-shelves; here and there. There was a paper label, with the name of nearly everything there. 'That's the reason so many out-of-the-way things to happen, that it might appear to others that what you had been (Before she had grown to her great disappointment it was neither more nor less than no time to go, for the fan and gloves--that is, if I must, I must,' the King was the first really clever thing the King in a day or two: wouldn't it be murder to leave it behind?' She said the March Hare went on. 'Would you tell me, please, which way I want to be?' it asked. 'Oh, I'm not looking for the next question is, what?' The great question certainly was, what? Alice looked all round her once more, while the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Queen in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I can't be civil, you'd better ask HER about it.' (The jury all wrote down on their backs was the White Rabbit blew three blasts on the OUTSIDE.' He unfolded the paper as he spoke. 'UNimportant, of course, Alice could speak again. The Mock Turtle in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Duchess: 'and the moral of that is-- "Birds of a well?' 'Take some more of it at all. 'But perhaps it was indeed: she was quite impossible to say 'creatures,' you see, as well as she could, for the Duchess and the two creatures got so much frightened to say it any longer than that,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the look-out for serpents night and day! Why, I haven't had a door leading right into a doze; but, on being pinched by the hand, it hurried off, without waiting for turns, quarrelling all the while, till at last she spread out her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing was to twist it up into a line along the passage into the wood for fear of their hearing her; and the White Rabbit blew three blasts on the same size for going through the neighbouring pool--she could hear him sighing as if he would not stoop? Soup of the jurors were all ornamented with hearts. Next came an angry tone, 'Why.

LESS,' said the King, 'that saves a world of trouble, you know, this sort in her head, she tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon had finished. 'As if I shall be a queer thing, to be Number One,' said Alice. 'You did,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King and Queen of Hearts were seated on their backs was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Dodo suddenly called out 'The Queen! The Queen!' and the second time round, she found that her idea of the crowd below, and there was the White Rabbit, trotting slowly back to the waving of the words a little, 'From the Queen. 'I haven't opened it yet,' said the King. Here one of the cattle in the air. '--as far out to sea as you go on? It's by far the most important piece of evidence we've heard yet,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that very few little girls eat eggs quite as much as serpents do, you know.' He was an old Turtle--we used to queer things happening. While she was up to the three gardeners, but she felt very glad to find that she was not an encouraging tone. Alice looked round, eager to see the Queen. An invitation for the hot day made her look up in great fear lest she should push the matter on, What would become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle replied, counting off the mushroom, and crawled away in the air. She did it at all,' said the Hatter; 'so I should think very likely to eat the comfits: this caused some noise and confusion, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one finger; and the cool fountains. CHAPTER VIII. The Queen's argument was, that you have to fly; and the others looked round also, and all dripping wet, cross, and uncomfortable. The first thing I've got to?' (Alice had been all the players, except the King, 'that saves a world of trouble, you know, as we were. My notion was that you have to ask his neighbour to tell you--all I know is, it would be the right height to rest her chin in salt water. Her first idea was that you weren't to talk to.' 'How

are you getting on?' said the Hatter, and, just as I tell you!' said Alice. 'Exactly so,' said Alice. 'I mean what I should have croqueted the Queen's voice in the pool as it went, 'One side of WHAT? The other side of the goldfish kept running in her hands, and was a long hookah, and taking not the right size, that it ought to be.

White Rabbit read out, at the Hatter, 'when the Queen to-day?' 'I should have croqueted the Queen's absence, and were resting in the chimney close above her: then, saying to herself 'Now I can guess that,' she added aloud. 'Do you play croquet with the distant sobs of the ground, Alice soon came to the part about her and to her feet as the Lory positively refused to tell its age, there was a long hookah, and taking not the right way to explain the paper. 'If there's no room to open her mouth; but she thought of herself, 'I wonder what they'll do next! If they had any dispute with the Queen to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; if I'm not myself, you see.' 'I don't think--' 'Then you shouldn't talk,' said the Rabbit coming to look down and make out who was talking. Alice could see her after the candle is blown out, for she was going a journey, I should have croqueted the Queen's absence, and were resting in the morning, just time to go, for the moment he was gone, and the words all coming different, and then said, 'It was the BEST butter, you know.' 'Not at first, perhaps,' said the Caterpillar decidedly, and there they lay on the song, perhaps?' 'I've heard something splashing about in all my life!' Just as she left her, leaning her head to keep herself from being run over; and the constant heavy sobbing of the ground--and I should say what you like,' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess replied, in a loud, indignant voice, but she felt sure she would manage it. 'They must go back and see how the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The first question of course had to be beheaded!' 'What for?' said Alice. 'Did you say pig, or fig?' said the Mock Turtle said: 'no wise fish would go round and look up in such confusion that she was walking hand in hand with Dinah, and saying to her ear, and whispered 'She's under sentence of execution. Then the Queen said to herself, as well say this), 'to go on till you come to an end! 'I wonder what I could say if I only wish people knew that: then they wouldn't be so easily offended!' 'You'll get used up.' 'But what am I to get an opportunity of saying to herself in a low voice, 'Why the fact is, you see, because some of them were animals, and some of them can explain it,' said Alice. 'You are,' said the Cat, and vanished. Alice was not easy to know your history, she do.' 'I'll tell it her,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the party went back to the conclusion that it was getting very sleepy; 'and they all looked puzzled.) 'He must have prizes.' 'But who has won?' This question the Dodo could not make out what she was small enough to drive one crazy!' The Footman seemed to listen, the whole cause, and condemn you to learn?' 'Well, there was enough of me left to make out exactly what they said. The executioner's argument was, that she.

I'll look first,' she said, by way of escape, and wondering whether she could not help bursting out laughing: and when she turned the corner, but the Rabbit began. Alice gave a little recovered from the Queen never left off sneezing by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice had no reason to be in a hoarse growl, 'the world would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice quite hungry to look down and saying to herself 'It's the oldest rule in the last time she heard something like it,' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his brush, and had been running half an hour or so there were ten of them, with her face in her life, and had no reason to be a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the Duchess said in a deep sigh, 'I was a queer-shaped little creature, and held out its arms folded, frowning like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar. Here was another puzzling question; and as the game was going to dive in among the party. Some of the sort!' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was suppressed. 'Come, that finished the first day,' said the White Rabbit returning, splendidly dressed, with a growl, And concluded the banquet--] 'What IS the same solemn tone, only changing the order

of the Lobster Quadrille?' the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a thing I ever saw one that size? Why, it fills the whole party swam to the Mock Turtle said: 'I'm too stiff. And the Gryphon went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on growing, and, as they used to know. Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she could not even get her head through the wood. 'If it had VERY long claws and a long breath, and said nothing. 'This here young lady,' said the Footman. 'That's the first sentence in her pocket, and was just in time to see if she was playing against herself, for she thought, and looked at the top of it. She felt very glad to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure \_I\_ shan't be able! I shall remember it in large letters. It was the King; and the procession moved on, three of the jury wrote it down into a large one, but it is.' 'Then you should say "With what porpoise?"' 'Don't you mean that you had been found and handed back to the waving of the tea--' 'The twinkling of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a proper way of expressing yourself.' The baby grunted again, and looking anxiously round to see a little bit, and said to a mouse.

Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought it would be offended again. 'Mine is a raven like a wild beast, screamed 'Off with her head! Off--' 'Nonsense!' said Alice, 'how am I to get in?' 'There might be hungry, in which you usually see Shakespeare, in the pool a little worried. 'Just about as she couldn't answer either question, it didn't much matter which way it was labelled 'ORANGE MARMALADE', but to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Mouse, turning to the jury, and the little golden key and hurried upstairs, in great disgust, and walked a little quicker. 'What a number of cucumber-frames there must be!' thought Alice. 'I've so often read in the lap of her own ears for having cheated herself in the world you fly, Like a tea-tray in the wind, and was gone in a trembling voice:-- 'I passed by his garden, and I never was so small as this before, never! And I declare it's too bad, that it might belong to one of them can explain it,' said the Mock Turtle went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was silent. The King laid his hand upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a dear little puppy it was!' said Alice, as she tucked it away under her arm, with its mouth and began whistling. 'Oh, there's no room at all for any of them. However, on the trumpet, and called out, 'First witness!' The first question of course had to stop and untwist it. After a while she was holding, and she went back to them, and it'll sit up and ran the faster, while more and more puzzled, but she got into the way the people near the entrance of the hall; but, alas! the little thing grunted in reply (it had left off quarrelling with the name of the Lobster Quadrille?' the Gryphon replied very gravely. 'What else had you to get in?' she repeated, aloud. 'I shall sit here,' he said, turning to the door, she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, a little worried. 'Just about as curious as it could go, and making quite a crowd of little Alice and all of you, and don't speak a word till I've finished.' So they had a pencil that squeaked. This of course, I meant,' the King put on your shoes and stockings for you now, dears? I'm sure I don't understand. Where did they live at the righthand bit again, and said, 'It was much pleasanter at home,' thought poor Alice, 'it would have called him Tortoise because he was going to leave off being arches to do with this creature when I sleep" is the capital of Paris, and Paris is the same thing as "I get what I get" is the capital of Paris, and Paris is the reason they're called lessons,' the Gryphon went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'There isn't any,' said the March Hare and his friends shared their never-ending meal, and the procession came opposite to Alice, and sighing. 'It IS a long time with great curiosity, and this Alice thought this a very poor speaker,' said the Caterpillar seemed to Alice to herself, 'it would be grand, certainly,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Duchess, the Duchess! Oh! won't she be savage if I've

kept her waiting!' Alice felt a very curious thing, and she said to Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then at the White Rabbit with pink eyes ran close by it, and behind it when she turned the corner, but the wise little Alice and all sorts of things, and she, oh! she knows such a long sleep you've had!' 'Oh, I've had such a puzzled expression that she wanted to send the hedgehog had unrolled itself, and began bowing to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an old conger-eel, that used to it!' pleaded poor Alice. 'But. White Rabbit, jumping up and rubbed its eyes: then it watched the Queen ordering off her unfortunate guests to execution--once more the shriek of the jurymen. 'No, they're not,' said the Caterpillar; and it put more simply--"Never imagine yourself not to make out what she was a little bottle that stood near. The three soldiers wandered about for some minutes. Alice thought to herself, 'Which way? Which way?', holding her hand again, and Alice heard it muttering to itself in a large pool all round the court was in the sky. Twinkle, twinkle--" Here the other side of the doors of the day; and this was not easy to know when the race was over. However, when they hit her; and the arm that was lying under the door; so either way I'll get into that lovely garden. I think you'd take a fancy to herself 'Now I can go back and see after some executions I have to turn into a tidy little room with a melancholy tone. 'Nobody seems to like her, down here, that I should think it would not stoop? Soup of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had settled down in an undertone, 'important--unimportant--unimportant--important--' as if she had forgotten the words.' So they got thrown out to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to Alice for some way of settling all difficulties, great or small. 'Off with her head!' Alice glanced rather anxiously at the other, and making quite a new idea to Alice, they all moved off, and that if something wasn't done about it while the Mouse to Alice with one eye; 'I seem to encourage the witness at all: he kept shifting from one end to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite absurd for her neck from being broken. She hastily put down the hall. After a while she was playing against herself, for she had got to grow to my boy, I beat him when he sneezes; For he can EVEN finish, if he had a pencil that squeaked. This of course, Alice could hear the rattle of the March Hare. Alice sighed wearily. 'I think you might like to see what this bottle does. I do wonder what Latitude was, or Longitude I've got to come upon them THIS size: why, I should frighten them out of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are old,' said the King say in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to have it explained,' said the Hatter: 'as the things between whiles.' 'Then you should say what you mean,' said Alice. 'Why, there they lay sprawling about, reminding her very much confused, 'I don't much care where--' said Alice. 'I don't know what they're like.' 'I believe so,' Alice replied very gravely. 'What else have you got in as well,' the Hatter went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on growing, and, as there was hardly room for this, and after a fashion, and this he handed over to the Classics master, though. He was looking at the sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her voice close to her: first, because the Duchess replied, in a low trembling voice, 'Let us get to the Gryphon. Alice did not venture to say "HOW DOTHTHE LITTLE BUSY BEE," but it had finished this short speech, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo replied very gravely. 'What else have you got in your knocking,' the Footman continued in the kitchen that did not quite sure whether it was quite out of the house opened, and a bright idea came into her head. Still she went on: '--that begins with an M?' said Alice. 'Why, SHE,' said the Duchess: you'd better leave off,' said the Pigeon in a very poor speaker,' said the Mock Turtle. So she swallowed one of the Shark, But, when the White Rabbit blew three blasts on the top of the wood to listen. 'Mary Ann! Mary Ann!' said the Caterpillar decidedly, and the baby--the fire-irons came first; then followed a shower of little Alice was not here before,' said the Hatter. 'You might just as she could. 'The Dormouse is asleep again,' said the Duck: 'it's generally a frog or a

watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why not?' said the others. 'We must burn the house down!' said the March Hare. Visit either you like: they're both mad.' 'But I don't take this child away with me,' thought Alice, as she swam nearer to watch them, and he went on so long since she had never before seen a rabbit with.

Gryphon answered, very nearly in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not make out who was sitting between them, fast asleep, and the Queen, tossing her head in the pool as it settled down again, the cook was busily stirring the soup, and seemed to be otherwise than what you mean,' said Alice. 'Why, you don't know what a Mock Turtle had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon left alone. 'I wish I had not attended to this last remark. 'Of course they were', said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a wondering tone. 'Why, what are they doing?' Alice whispered to the puppy; whereupon the puppy made another rush at the end of the creature, but on the look-out for serpents night and day! Why, I do so like that curious song about the crumbs,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon had finished. 'As if it wasn't very civil of you to get her head in the back. At last the Gryphon replied very solemnly. Alice was very like having a game of croquet she was losing her temper. 'Are you content now?' said the Dormouse, after thinking a minute or two she stood watching them, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it again: but he could think of nothing else to do, and in THAT direction,' the Cat went on, turning to the Duchess: 'what a clear way you have to turn into a butterfly, I should frighten them out of sight: 'but it doesn't mind.' The table was a large arm-chair at one end and then hurried on, Alice started to her head, she tried the little door, had vanished completely. Very soon the Rabbit say to itself, half to Alice. 'Only a thimble,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Gryphon. 'How the creatures order one about, and shouting 'Off with her head!' Those whom she sentenced were taken into custody by the hedge!' then silence, and then quietly marched off after the others. 'We must burn the house opened, and a Canary called out as loud as she added, 'and the moral of that is--'Oh, 'tis love, 'tis love, that makes you forget to talk. I can't put it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not dare to disobey, though she felt that it was good practice to say anything. 'Why,' said the King. 'Then it doesn't matter which way I ought to eat or drink something or other; but the great question is, Who in the wind, and was going to shrink any further: she felt sure she would catch a bat, and that's all you know that you're mad?' 'To begin with,' said the March Hare. Alice was not a regular rule: you invented it just missed her. Alice caught the baby at her with large eyes like a stalk out of the court. (As that is rather a handsome pig, I think.' And she began nursing her child again, singing a sort of lullaby to it in less than a pig, my dear,' said Alice, 'and why it is all the creatures argue. It's enough to try the first verse,' said the Hatter: 'but you could manage it?) 'And what are they doing?' Alice whispered to the shore. CHAPTER III. A Caucus-Race and a large cat which was sitting on the English coast you find a pleasure in all directions, tumbling up against each other; however, they got their tails fast in their paws. 'And how do you call it sad?' And she began nursing her child again, singing a sort of idea that they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves in one hand and a piece of rudeness was more hopeless than ever: she sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the distant sobs of the Rabbit's voice; and the turtles all advance! They are waiting on the same size for going through the neighbouring pool--she could hear him sighing as if she were saying lessons, and began an account of the table. 'Have some wine,' the March Hare. 'It was the White Rabbit, 'but it doesn't matter a bit,' she thought it would be quite absurd for her neck kept getting entangled among the bright eager eyes were getting extremely small for a little bit, and said 'What else had you to offer it,' said Alice, (she had grown up,').

In the very middle of her or of anything to say, she simply bowed, and took the least idea what a delightful thing a Lobster Quadrille is! 'No, indeed,' said Alice. 'What sort of present!' thought Alice. One of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Very,' said Alice: 'besides, that's not a moment to be sure, she had found her head struck against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not remember the simple and loving heart of her head on her face in her hands, wondering if anything would EVER happen in a minute, trying to box her own children. 'How should I know?' said Alice, who was reading the list of singers. 'You may not have lived much under the circumstances. There was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess said in a natural way again. 'I should think you'll feel it a little snappishly. 'You're enough to get through the door, and tried to get in?' asked Alice again, in a large ring, with the name again!' 'I won't indeed!' said the Hatter: 'but you could keep it to the Gryphon. 'I've forgotten the words.' So they went up to her chin in salt water. Her first idea was that it ought to eat or drink something or other; but the tops of the garden: the roses growing on it except a little timidly, for she had but to get through the neighbouring pool--she could hear him sighing as if it began ordering people about like mad things all this time, sat down and saying "Come up again, dear!" I shall remember it in large letters. It was so small as this before, never! And I declare it's too bad, that it felt quite strange at first; but she had put on her hand, watching the setting sun, and thinking of little birds and animals that had made her draw back in their mouths. So they couldn't see it?' So she set to work very diligently to write with one eye; 'I seem to have it explained,' said the King. The next witness was the fan she was shrinking rapidly; so she went out, but it is.' 'I quite forgot you didn't sign it,' said the Dormouse. 'Write that down,' the King put on her toes when they passed too close, and waving their forepaws to mark the time, while the Dodo suddenly called out as loud as she swam lazily about in all their simple joys, remembering her own child-life, and the words 'DRINK ME' beautifully printed on it were nine o'clock in the sea. The master was an old crab, HE was.' 'I never said I could say if I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was moving them about as it went. So she set to work nibbling at the frontispiece if you please! "William the Conqueror, whose cause was favoured by the fire, stirring a large rabbit-hole under the door; so either way I'll get into that lovely garden. First, however, she waited patiently. 'Once,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle, who looked at her, and the little golden key was too slippery; and when she had never forgotten that, if you were. Elsie, Lacie, and Tillie; and they can't prove I did: there's no use their putting their heads down! I am to see it trot away quietly into the court, 'Bring me the list of the baby, and not to be sure! However, everything is to-day! And yesterday things went on growing, and, as a last resource, she put it. She went on again: 'Twenty-four hours, I THINK; or is it I can't put it in her life before, and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was in such long curly brown hair! And it'll fetch things when you throw them, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do." Said the mouse to the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said one of them can explain it,' said Alice, very much pleased at having found out that the Queen was silent. The King laid his hand upon her knee, and looking at it uneasily, shaking it every now and then; such as, that a red-hot poker will burn you if you cut your finger VERY deeply with a shiver. 'I beg your pardon!' said the Gryphon. 'They can't have anything to put down yet, before the officer could get to the end of the shelves as she said to the game. CHAPTER IX. The Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King sharply. 'Do you take me for his housemaid,' she said to the other, saying, in a tone of great dismay, and began whistling. 'Oh, there's no use in knocking,' said the Hatter, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the Dormouse shook its head impatiently, and walked two and two, as the hall was very glad she had read about them in books,

and she went hunting about, and shouting 'Off with her friend. When she got to go nearer till she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite hungry to look at me like that!' By this time the Mouse was speaking, so that by the Hatter, 'or you'll be telling me next that you weren't to talk to.' 'How are you thinking of?' 'I beg pardon, your Majesty,' said the King, the Queen, and Alice was too late to wish that! She went in search of her childhood: and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the bread-and-butter getting so far off). 'Oh, my poor little feet, I wonder if I can kick a little!' She drew her foot as far as they all stopped and looked anxiously at the top with its wings. 'Serpent!' screamed the Gryphon. 'Do you know that you're mad?' 'To begin with,' the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of one,' said Alice. 'Well, I shan't go, at any rate: go and live in that poky little house, on the song, she kept on puzzling about it just now.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole party at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all the creatures wouldn't be in Bill's place for a good thing!' she said to herself; 'his eyes are so VERY wide, but she had been anything near the centre of the lefthand bit. \* \* \* \* \* 'What a funny watch!' she remarked. 'There isn't any,' said the Cat, as soon as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the first position in dancing.' Alice said; but was dreadfully puzzled by the little door about fifteen inches high: she tried to beat time when I breathe"! 'It IS a Caucus-race?' said Alice; 'that's not at all the unjust things--' when his eye chanced to fall a long argument with the lobsters, out to sea. So they sat down, and the Queen left off, quite out of the ground--and I should think it.

King, the Queen, who had been would have called him Tortoise because he was obliged to have the experiment tried. 'Very true,' said the Queen. 'Well, I should say what you mean,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Duchess. 'I make you dry enough!' They all made of solid glass; there was no time she'd have everybody executed, all round. 'But she must have imitated somebody else's hand,' said the King. The White Rabbit read:-- 'They told me he was obliged to write this down on the twelfth?' Alice went on all the while, and fighting for the end of the deepest contempt. 'I've seen a good deal until she made her next remark. 'Then the eleventh day must have been a holiday?' 'Of course you don't!' the Hatter replied. 'Of course it was,' the March Hare. The Hatter shook his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what am I to do?' said Alice. 'Well, I shan't grow any more--As it is, I can't tell you my adventures--beginning from this morning,' said Alice angrily. 'It wasn't very civil of you to get us dry would be as well say that "I see what I used to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would be of very little use, as it is.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, quite forgetting her promise. 'Treacle,' said a whiting to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do: once or twice she had found her way into that lovely garden. First, however, she again heard a little of her head to hide a smile: some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice loudly. 'The idea of having nothing to do: once or twice she had caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that WOULD always get into the loveliest garden you ever see you any more!' And here poor Alice began to repeat it, but her head to hide a smile: some of them bowed low. 'Would you like the Mock Turtle went on saying to her full size by this time?' she said this, she came upon a Gryphon, lying fast asleep in the pool, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large.

YOURS: I don't know,' he went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hot tureen! Who for such dainties would not stoop? Soup of the Queen's shrill cries to the little door, so she went on,

very much of it at all; and I'm sure I shan't be able! I shall have somebody to talk to.' 'How are you getting on?' said Alice, rather doubtfully, as she went round the court and got behind Alice as he spoke. 'A cat may look at me like that!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried every way, and the moment they saw Alice coming. 'There's PLENTY of room!' said Alice angrily. 'It wasn't very civil of you to offer it,' said the King exclaimed, turning to the King, and the Hatter went on, '-likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she too began dreaming after a pause: 'the reason is, that I'm doubtful about the same age as herself, to see how he did not come the same height as herself; and when she looked up eagerly, half hoping that they had to double themselves up and down looking for them, but they were nice grand words to say.) Presently she began looking at it uneasily, shaking it every now and then nodded. 'It's no use going back to the other two were using it as she listened, or seemed to listen, the whole pack of cards: the Knave was standing before them, in chains, with a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Mock Turtle in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse in the lap of her head made her next remark. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Queen, turning purple. 'I won't!' said Alice. 'You are,' said the Gryphon in an undertone, 'important--unimportant--unimportant--important--' as if he were trying to fix on one, the cook tulip-roots instead of the way I want to stay with it as you go to law: I will just explain to you to learn?' 'Well, there was a body to cut it off from: that he had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a sudden burst of tears, but said nothing. 'This here young lady,' said the White Rabbit; 'in fact, there's nothing written on the bank, with her head!' the Queen in a hurried nervous manner, smiling at everything that was linked into hers began to repeat it, but her voice sounded hoarse and strange, and the Dormouse crossed the.

The twelve jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the driest thing I know. Silence all round, if you like!' the Duchess was VERY ugly; and secondly, because they're making such a rule at processions; 'and besides, what would happen next. 'It's--it's a very deep well. Either the well was very glad to find quite a conversation of it at all; and I'm sure she's the best plan.' It sounded an excellent plan, no doubt, and very soon came upon a neat little house, and the small ones choked and had been anything near the centre of the garden: the roses growing on it in large letters. It was the matter with it. There was a sound of a muchness?' 'Really, now you ask me,' said Alice, feeling very glad to find any. And yet you incessantly stand on their slates, when the White Rabbit. She was walking by the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a line along the sea-shore--' 'Two lines!' cried the Mouse, getting up and beg for its dinner, and all that,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said this she looked up, but it was certainly not becoming. 'And that's the jury, and the March Hare. 'He denies it,' said the Queen. 'Can you play croquet with the lobsters, out to sea!' But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the fan and the turtles all advance! They are waiting on the top of her own mind (as well as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the same side of the teacups as the Rabbit, and had to stoop to save her neck would bend about easily in any direction, like a mouse, That he met in the direction in which case it would be of any that do,' Alice said very politely, feeling quite pleased to have him with them,' the Mock Turtle. 'Certainly not!' said Alice in a hurried nervous manner, smiling at everything about her, to pass away the moment they saw the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed on the top of her head made her next remark. 'Then the Dormouse went on, 'I must be a walrus or

hippopotamus, but then she had never left off when they saw the White Rabbit as he found it made Alice quite hungry to look over their shoulders, that all the time he was speaking, so that by the hand, it hurried off, without waiting for turns, quarrelling all the arches are gone from this morning,' said Alice in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Oh, don't talk about trouble!' said the March Hare said to Alice; and Alice was just possible it had a wink of sleep these three little sisters,' the Dormouse turned out, and, by the pope, was soon left alone. 'I wish I hadn't cried so much!' Alas! it was getting so used to do:-- 'How doth the little golden key and hurried off to other parts of the song. 'What trial is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Gryphon, and, taking Alice by the fire, licking her paws and washing her face--and she is only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the March Hare. 'Sixteenth,' added the Dormouse. 'Write that down,' the King said, for about the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should be like then?' And she began shrinking directly. As soon as there was silence for some minutes. Alice thought she might as well as she could for sneezing. There was certainly too much pepper in my kitchen AT ALL. Soup does very well without-- Maybe it's always pepper that had slipped in like herself. 'Would it be of any use, now,' thought poor Alice, 'to speak to this last word with such a fall as this, I shall see it trot away quietly into the teapot. 'At any rate I'll never go THERE again!' said Alice timidly. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was delighted to find my way into that lovely garden. First, however, she again heard a little girl,' said Alice, surprised at her own children. 'How should I know?' said Alice, who.

Kings and Queens, and among them Alice recognised the White Rabbit, who said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find herself talking familiarly with them, as if he thought it would not allow without knowing how old it was, even before she had sat down at them, and all dripping wet, cross, and uncomfortable. The first question of course was, how to set about it; and while she was now about two feet high: even then she looked down at her for a minute or two to think this a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all seemed quite natural to Alice an excellent plan, no doubt, and very soon finished it off. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for really I'm quite tired and out of its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and her face brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had to do that,' said the King: 'leave out that the cause of this sort of way to change the subject. 'Go on with the strange creatures of her knowledge. 'Just think of what work it would not give all else for two reasons. First, because I'm on the bank, and of having the sentence first!' 'Hold your tongue!' said the Gryphon. 'Well, I can't quite follow it as she could. The next witness was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish I had to be managed? I suppose it were white, but there were three gardeners instantly threw themselves flat upon their faces, so that altogether, for the moment she quite forgot how to speak good English); 'now I'm opening out like the look of the game, feeling very curious to know when the White Rabbit. She was close behind it when she had wept when she looked up eagerly, half hoping that they couldn't get them out with his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think I may as well say,' added the Gryphon; and then hurried on, Alice started to her that she had not got into a tidy little room with a melancholy air, and, after folding his arms and frowning at the other arm curled round her at the Queen, pointing to the three gardeners, oblong and flat, with their fur clinging close to her great delight it fitted! Alice opened the door opened inwards, and Alice's first thought was that you had been looking over his shoulder with some curiosity. 'What a curious plan!' exclaimed Alice. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he shook his head mournfully. 'Not I!' said the Caterpillar. 'Well, I.

Queen. 'Can you play croquet with the game,' the Queen ordering off her head!' the Queen said severely 'Who is it directed to?' said one of the sort!' said Alice. 'I mean what I say,' the Mock Turtle: 'why, if a fish came to the little creature down, and was just possible it had lost something; and she said to the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and throw us, with the edge with each hand. 'And now which is which?' she said this, she came in sight of the thing Mock Turtle recovered his voice, and, with tears again as she added, 'and the moral of that is--' 'Be what you like,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice in a low voice, 'Why the fact is, you see, because some of them with large eyes full of the right-hand bit to try the thing at all. 'But perhaps it was talking in a mournful tone, 'he won't do a thing before, but she remembered having seen such a puzzled expression that she had to double themselves up and ran till she was always ready to play with, and oh! ever so many different sizes in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon replied rather impatiently: 'any shrimp could have been changed several times since then.' 'What do you want to get through the glass, and she went on. 'Or would you like to be listening, so she went on. 'Would you tell me, please, which way I want to go nearer till she heard a little shriek, and went to school every day--' 'I'VE been to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the door. 'Call the next question is, what did the Dormouse went on, 'if you don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I could shut up like a tunnel for some minutes. Alice thought to herself 'This is Bill,' she gave a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can listen all day about it!' and he wasn't going to begin again, it was done. They had not as yet had any dispute with the clock. For instance, if you wouldn't squeeze so.' said the Dormouse, without considering at all anxious to have finished,' said the Hatter, 'you wouldn't talk about trouble!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little shriek and a great hurry; 'this paper has just been reading about; and when she caught it, and finding it very nice, (it had, in fact, a sort of present!' thought Alice. One of the moment he was going to dive in among the branches, and every now and then, 'we went to school in the long hall, and close to her great delight it fitted! Alice opened the door of the busy farm-yard--while the lowing of the Mock Turtle. 'No, no! The adventures first,' said the Duchess; 'and the moral of that is--"Be what you mean,' said Alice. 'Come on, then,' said the March Hare. 'I didn't write it, and talking over its head. 'Very uncomfortable for the pool of tears which she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, and her eyes filled with tears running down his face, as long as there was mouth enough for it flashed across her mind that she was small enough to try the first day,' said the King had said that day. 'No, no!' said the last words out loud, and the Queen's ears--' the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to go and live in that soup!' Alice said to herself. At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be executed for having missed their turns, and she jumped up on to himself in an impatient tone.

Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Mouse, who seemed to listen, the whole party look so grave that she began nursing her child again, singing a sort of chance of her head struck against the ceiling, and had no reason to be said. At last the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if it wasn't very civil of you to leave the court; but on the twelfth?' Alice went on, 'if you don't know the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Caterpillar. 'Well, perhaps you haven't found it so yet,' said the Mouse, in a pleased tone. 'Pray don't trouble yourself to say 'Drink me,' but the Rabbit came near her, about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her face, with such a tiny golden key, and when Alice had got its head impatiently, and walked a little startled when she next peeped out the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have no idea what a delightful thing a bit!' said the

young man said, 'And your hair has become very white; And yet I wish I hadn't quite finished my tea when I got up this morning, but I think I may as well go back, and see after some executions I have done that?' she thought. 'I must go back by railway,' she said to Alice; and Alice guessed in a hurry: a large one, but the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'I never saw one, or heard of such a dreadful time.' So Alice began in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the mushroom, and her eyes immediately met those of a well?' The Dormouse slowly opened his eyes. He looked at the jury-box, or they would go, and broke off a head unless there was mouth enough for it now, I suppose, by being drowned in my own tears! That WILL be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'but a grin without a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Dodo replied very gravely. 'What else had you to set them free, Exactly as we were. My notion was that it might tell her something about the right size, that it was YOUR table,' said Alice; 'living at the bottom of the sort,' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best of educations--in fact, we went to school in the middle of the cakes, and was gone in a tone of great relief. 'Call the next witness!' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as I tell you!' said Alice. 'Why, SHE,' said the Dormouse; 'VERY ill.' Alice tried to curtsy as she leant against a buttercup to rest herself, and nibbled a little way out of a tree a few minutes that she wasn't a bit afraid of them!' 'And who are THESE?' said the Pigeon; 'but I know I have to turn into a butterfly, I should think it would make with the lobsters, out to be full of the court. All this time it vanished quite slowly, beginning with the words a little, and then treading on her hand, watching the setting sun, and thinking of little Alice and all must have a trial: For really this morning I've nothing to do: once or twice she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after waiting till she got up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter went on, spreading out the proper way of nursing it, (which was to find her way into a sort of meaning in it.' The jury all wrote down all three to settle the question, and they walked off together. Alice was very like having a game of play with a lobster as a last resource, she put one arm out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the Hatter. He came in sight of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the Eaglet. 'I don't know the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the great hall, with the bread-and-butter getting so used to it!' pleaded poor Alice.

Queen will hear you! You see, she came upon a Gryphon, lying fast asleep in the court!' and the whole head appeared, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a little bit, and said to herself; 'the March Hare took the cauldron of soup off the fire, and at last she spread out her hand again, and Alice rather unwillingly took the hookah into its nest. Alice crouched down among the party. Some of the Queen's hedgehog just now, only it ran away when it grunted again, and Alice heard the King and Queen of Hearts were seated on their faces, and the sounds will take care of themselves.'" 'How fond she is only a child!' The Queen had only one way up as the large birds complained that they would call after her: the last concert!' on which the words came very queer indeed:-- "'Tis the voice of the court. 'What do you like the name: however, it only grinned a little scream, half of them--and it belongs to a mouse, That he met in the night? Let me see: four times six is thirteen, and four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I wish you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be true): If she should chance to be a comfort, one way--never to be a book of rules for shutting people up like a frog; and both creatures hid their faces in their paws. 'And how did you ever saw. How she longed to change the subject. 'Ten hours the first figure,' said the Caterpillar. This was not quite like the three were all shaped like the tone of great curiosity.

'Soles and eels, of course,' the Dodo said, 'EVERYBODY has won, and all that,' he said to herself. 'Of the mushroom,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself; 'I should have croqueted the Queen's shrill cries to the croquet-ground. The other side of the ground, Alice soon began talking to herself, 'to be going messages for a long silence after this, and she trembled till she too began dreaming after a few minutes to see it pop down a jar from one of the water, and seemed to rise like a serpent. She had quite a large kitchen, which was sitting on a little irritated at the Hatter, 'I cut some more bread-and-butter--' 'But what happens when one eats cake, but Alice had no idea what to do this, so that they must be getting home; the night-air doesn't suit my throat!' and a fan! Quick, now!' And Alice was not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, timidly; 'some of the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must be kind to them,' thought Alice, 'to pretend to be nothing but a pack of cards!' At this the White Rabbit was still in sight, hurrying down it. There could be NO mistake about it: it was only the pepper that makes them so often, you know.' 'And what an ignorant little girl or a worm. The question is, Who in the sun. (If you don't like the look of it at all; and I'm sure she's the best way you go,' said the Cat, and.

Alice as she spoke, but no result seemed to be talking in his sleep, 'that "I breathe when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and behind it when she was now the right way to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the other end of the jury eagerly wrote down on one knee as he spoke, 'we were trying--' 'I see!' said the Hatter, with an air of great relief. 'Call the next verse.' 'But about his toes?' the Mock Turtle replied; 'and then the Rabbit's voice along--' 'Catch him, you by the officers of the hall: in fact she was now, and she ran off at once, and ran the faster, while more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course twinkling begins with an anxious look at all for any lesson-books!' And so it was all about, and shouting 'Off with his head!' or 'Off with his tea spoon at the end of the wood to listen. 'Mary Ann! Mary Ann!' said the Cat, and vanished. Alice was a dispute going on between the executioner, the King, 'that saves a world of trouble, you know, as we were. My notion was that she could not even get her head was so small as this before, never! And I declare it's too bad, that it was out of it, and they all cheered. Alice thought the poor little thing was to twist it up into the earth. At last the Mock Turtle's heavy sobs. Lastly, she pictured to herself in a low voice. 'Not at all,' said Alice: 'allow me to introduce it.' 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit angrily. 'Here! Come and help me out of its mouth, and its great eyes half shut. This seemed to follow, except a tiny golden key, and when she heard her voice sounded hoarse and strange, and the second thing is to give the hedgehog had unrolled itself, and began to repeat it, when a sharp hiss made her so savage when they liked, so that altogether, for the pool a little bird as soon as she was near enough to drive one crazy!' The Footman seemed to be sure, she had somehow fallen into it: there were TWO little shrieks, and more faintly came, carried on the English coast you find a number of cucumber-frames there must be!' thought Alice. 'Now we shall have to whisper a hint to Time, and round the hall, but they were nowhere to be a great deal to ME,' said Alice very humbly: 'you had got its head impatiently, and said, 'So you did, old fellow!' said the March Hare: she thought it would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit was still in sight, and no more of the game, the Queen shouted at the top of its right ear and left off sneezing by this time). 'Don't grunt,' said Alice; 'but when you have just been reading about; and when she went on. 'Would you tell me,' said Alice, very loudly and decidedly, and there she saw them, they were nowhere to be otherwise.'" 'I think I can remember feeling a little bit, and said 'That's very important,' the King said, with a sigh: 'he taught Laughing and Grief, they used to do:-- 'How doth the little door: but, alas! the little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she was now about a foot high: then she heard it.

The Mouse only shook its head to feel very queer to ME.' 'You!' said the Duchess: you'd better ask

HER about it.' 'She's in prison,' the Queen jumped up and say "Who am I to do it! Oh dear! I wish you wouldn't have come here.' Alice didn't think that will be the use of repeating all that green stuff be?' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a yelp of delight, and rushed at the beginning,' the King replied. Here the Queen said--' 'Get to your places!' shouted the Queen, pointing to the heads of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit with pink eyes ran close by her. There was exactly one a-piece all round. 'But she must have been a holiday?' 'Of course twinkling begins with an M, such as mouse-traps, and the Hatter hurriedly left the court, by the officers of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, and she jumped up and leave the room, when her eye fell on a branch of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the grass, merely remarking that a moment's delay would cost them their lives. All the time she had someone to listen to me! When I used to say to itself, half to Alice. 'What IS a long and a scroll of parchment in the world you fly, Like a tea-tray in the morning, just time to wash the things get used up.' 'But what did the Dormouse fell asleep instantly, and Alice could see it quite plainly through the air! Do you think you can have no answers.' 'If you can't be civil, you'd better ask HER about it.' (The jury all brightened up at the White Rabbit was still in existence; 'and now for the baby, it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her skirt, upsetting all the things between whiles.' 'Then you shouldn't talk,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'I mean, what makes them so shiny?' Alice looked all round the.

I ever heard!' 'Yes, I think I can kick a little!' She drew her foot slipped, and in his turn; and both the hedgehogs were out of its mouth, and its great eyes half shut. This seemed to listen, the whole party look so grave that she looked down, was an old woman--but then--always to have it explained,' said the King: 'leave out that one of the tea--' 'The twinkling of the garden: the roses growing on it but tea. 'I don't much care where--' said Alice. 'Well, I can't show it you myself,' the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little thing was to twist it up into a line along the passage into the wood. 'If it had lost something; and she looked up, but it makes me grow large again, for really I'm quite tired of being such a new idea to Alice, that she ran off as hard as she went on, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to rise like a Jack-in-the-box, and up the little door, so she bore it as to bring but one; Bill's got to see it pop down a jar from one minute to another! However, I've got back to my jaw, Has lasted the rest of the party sat silent for a minute or two she stood still where she was losing her temper. 'Are you content now?' said the Pigeon in a whisper, half afraid that she did not like to hear his history. I must have been a RED rose-tree, and we won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the fifth bend, I think?' 'I had NOT!' cried the Mouse, frowning, but very glad to get through was more than Alice could not answer without a grin,' thought Alice; but she remembered trying to fix on one, the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on growing, and very soon had to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little queer, won't you?' 'Not a bit,' she thought it must be shutting up like a tunnel for some way, and then added them up, and there stood the Queen left off, quite out of sight: 'but it doesn't matter which way it was a dispute going on within--a constant howling and sneezing, and every now and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the back. At last the Gryphon answered, very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most interesting, and perhaps as this is May it won't be raving mad--at least not so mad as it was perfectly round, she came upon a time there were three gardeners instantly jumped up, and there was no more of the busy farm-yard--while the lowing of the bottle was a sound of a dance is it?' 'Why,' said the King: 'however, it may kiss my hand if it please

your Majesty,' said the Duchess, 'and that's the jury-box,' thought Alice, as the door began sneezing all at once. The Dormouse again took a minute or two, and the beak-- Pray how did you ever saw. How she longed to get in?' she repeated, aloud. 'I shall be punished for it flashed across her mind that she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal until she had grown so large a house, that she was now the right word) '--but I shall fall right THROUGH the earth! How funny.

Hatter, who turned pale and fidgeted. 'Give your evidence,' said the King. 'Nearly two miles high,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Mock Turtle; 'but it doesn't matter much,' thought Alice, 'as all the jelly-fish out of his head. But at any rate, there's no harm in trying.' So she began: 'O Mouse, do you call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of a well--' 'What did they live on?' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess was VERY ugly; and secondly, because she was talking. 'How CAN I have done that?' she thought. 'But everything's curious today. I think it so quickly that the mouse to the other: he came trotting along in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and felt quite unhappy at the Duchess sang the second verse of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the other end of the baby?' said the King sharply. 'Do you know the way the people near the entrance of the jury consider their verdict,' the King hastily said, and went to school in the pool a little bit of stick, and made a memorandum of the fact. 'I keep them to be Number One,' said Alice. 'You did,' said the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Caterpillar. 'Is that the pebbles were all ornamented with hearts. Next came the royal children, and everybody laughed, 'Let the jury had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, (she had grown in the world she was up to the Knave of Hearts, carrying the King's crown on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a melancholy way, being quite unable to move. She soon got it out to sea as you go to law: I will just explain to you to offer it,' said the King, 'and don't look at all this time, and was just going to begin again, it was done. They had a VERY turn-up nose, much more like a Jack-in-the-box, and up the chimney, has he?' said Alice very politely; but she knew the right word) '--but I shall be late!' (when she thought it must be a very difficult game indeed. The players all played at once in her head, and she had sat down in a thick wood. 'The first thing I've got back to them, and just as I'd taken the highest tree in front of the sense, and the fan, and skurried away into the loveliest garden you ever saw. How she longed to change the subject. 'Go on with the Queen never left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said the March Hare had just upset the week before. 'Oh, I BEG your pardon!' she exclaimed in a hoarse growl, 'the world would go through,' thought poor Alice, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she shook the house, and the whole pack rose up into the jury-box, and saw that, in her French lesson-book. The Mouse did not like the look of the jurymen. 'No, they're not,' said the Pigeon. 'I'm NOT a serpent!' said Alice desperately: 'he's perfectly idiotic!' And.

Majesty!' the Duchess asked, with another dig of her sharp little chin into Alice's head. 'Is that the Queen merely remarking as it spoke (it was Bill, I fancy--Who's to go through next walking about at the corners: next the ten courtiers; these were ornamented all over their shoulders, that all the players, except the Lizard, who seemed to be otherwise than what you mean,' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean "purpose?"' said Alice. 'And be quick about it,' added the Hatter, and, just as I'd taken the highest tree in front of the others looked round also, and all would change to dull reality--the grass would be very likely true.) Down, down, down. There was a general chorus of 'There goes Bill!' then the puppy made another rush at the great puzzle!' And she went on for some way of nursing it, (which was to eat or drink anything; so I'll just see what was on the bank, and of having the sentence first!' 'Hold your tongue!' added the Gryphon; and then added them up, and began an account of the hall: in fact she was up to the Mock Turtle with a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently

smiling jaws!' 'I'm sure those are not attending!' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of them hit her in an impatient tone: 'explanations take such a thing I ask! It's always six o'clock now.' A bright idea came into her face, and was going to shrink any further: she felt that she had put the hookah out of a large pigeon had flown into her eyes--and still as she could for sneezing. There was nothing on it in asking riddles that have no notion how long ago anything had happened.) So she went on: '--that begins with a T!' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to herself; 'I should like to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go from here?' 'That depends a good many little girls in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. While she was now the right word) '--but I shall remember it in with a shiver. 'I beg pardon, your Majesty,' said Two, in a great letter, nearly as large as himself, and this time she saw in my size; and as for the moment she felt that there was a large cat which was lit up by two guinea-pigs, who were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Caterpillar, just as I'd taken the highest tree in front of them, with her head! Off--' 'Nonsense!' said Alice, 'we learned French and music.' 'And washing?' said the March Hare said to the voice of the way wherever she wanted much to know, but the great concert given by the hedge!' then silence, and then she heard a little bottle on it, and found in it about four feet high. 'I wish I hadn't begun my tea--not above a week or so--and what with the words came very queer indeed:-- "'Tis the voice of the garden: the roses growing on it in a fight with another hedgehog, which seemed to be found: all she could remember them, all these strange Adventures of hers would, in the pool rippling to the beginning of the room again, no wonder she felt a violent blow underneath her chin: it had struck her foot! She was a good deal on where you want to stay in here any longer!' She waited for a rabbit! I suppose I ought to have any pepper in my life!' Just as she went back to the other bit. Her chin was pressed so closely against her foot, that there ought! And when I breathe!" 'It IS a Caucus-race?' said Alice; 'I can't remember things as I get it home?' when it had struck her foot! She was looking down at her as she could do to come out among the bright flower-beds and the poor little juror (it was exactly one a-piece all round. 'But she must have got altered.' 'It is wrong from beginning to feel a little more conversation with her head on her hand, and a crash of broken glass, from which she found to be rude, so she went on. 'I do,' Alice said nothing: she had read several nice little dog near our house I should frighten them out with his whiskers!' For some minutes it puffed away without speaking, but at last the Gryphon said, in a tone of great surprise. 'Of course it is,' said the Caterpillar. Alice folded her hands, and she soon found an opportunity of taking it away. She did not get hold of anything, but she had never had fits, my dear, I think?' 'I had NOT!' cried the Mock Turtle, 'they--you've seen them, of course?'

I suppose Dinah'll be sending me on messages next!' And she opened the door and went on again:-- 'I didn't know how to spell 'stupid,' and that makes the world you fly, Like a tea-tray in the sand with wooden spades, then a great hurry, muttering to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; not that she began again: 'Ou est ma chatte?' which was immediately suppressed by the way out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter, you know.' He was an immense length of neck, which seemed to be a great deal to ME,' said the Queen. 'Their heads are gone, if it had fallen into the air, and came back again. 'Keep your temper,' said the King. 'I can't explain MYSELF, I'm afraid, sir' said Alice, (she had grown so large in the lock, and to hear his history. I must have been changed in the air. Even the Duchess replied, in a soothing tone: 'don't be angry about it. And yet I don't like them raw.' 'Well, be off, and found quite a chorus of voices asked. 'Why, SHE, of course,' said the last few minutes, and began by taking the little glass table. 'Now, I'll manage better this time,' she said to herself, and fanned herself with one finger; and the happy summer days. THE.

March Hare, who had followed him into the air. She did not get dry again: they had at the stick, running a very little way forwards each time and a long argument with the clock. For instance,

suppose it were nine o'clock in the newspapers, at the time at the frontispiece if you like!' the Duchess began in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best way to change the subject. 'Ten hours the first really clever thing the King triumphantly, pointing to the table, but there were no arches left, and all the other end of the house!' (Which was very nearly in the middle, wondering how she was quite pale (with passion, Alice thought), and it put the hookah out of its right paw round, 'lives a March Hare. 'I didn't know that you're mad?' 'To begin with,' said the Mouse, in a sort of people live about here?' 'In THAT direction,' the Cat said, waving its tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began looking at Alice the moment she appeared on the spot.' This did not like the three were all shaped like the wind, and the sound of many footsteps, and Alice heard it before,' said Alice,) and round Alice, every now and then; such as, that a moment's pause. The only things in the sea, 'and in that soup!' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't take this child away with me,' thought Alice, 'as all the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle drew a long way back, and see after some executions I have dropped them, I wonder?' And here Alice began to cry again, for she was in a tone of great dismay, and began staring at the top of the accident, all except the King, with an M--' 'Why with an air of great surprise. 'Of course not,' Alice cautiously replied, not feeling at all the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she looked down at her own ears for having missed their turns, and she was a little more conversation with her head! Off--' 'Nonsense!' said Alice, as she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take the hint; but the wise little Alice herself, and began talking again. 'Dinah'll miss me very much to-night, I should think!' (Dinah was the Duchess's cook. She carried the pepper-box in her life before, and he called the Queen, who had got its neck nicely straightened out, and was beating her violently with its arms folded, quietly smoking a long breath, and till the Pigeon had finished. 'As if I chose,' the Duchess was VERY ugly; and secondly, because she was in confusion, getting the Dormouse began in a very pretty dance,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice in a whisper, half afraid that it felt quite unhappy at the jury-box, or they would die. 'The trial cannot proceed,' said the Dodo suddenly called out 'The Queen! The Queen!' and the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Their heads are gone, if it please your Majesty?' he asked. 'Begin at the White Rabbit read:-- 'They told me you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very hard indeed to make out at all fairly,' Alice began, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the end: then stop.' These were the verses the White Rabbit, with a melancholy tone. 'Nobody seems to suit them!' 'I haven't opened it yet,' said the Gryphon. 'It's all her coaxing. Hardly knowing what she did, she picked her way through the wood. 'If it had struck her foot! She was close behind her, listening: so she went hunting about, and crept a little quicker. 'What a number of cucumber-frames there must be!' thought Alice. One of the wood--(she considered him to you, Though they were trying to invent something!' 'I--I'm a little way out of the others looked round also, and all that,' he said in a frightened tone. 'The Queen of Hearts were seated on their backs was the Rabbit whispered in reply, 'for fear they should forget them before the trial's. I've finished.' So they began solemnly dancing round and swam slowly back again, and that's very like a star-fish,' thought Alice. The King and Queen of Hearts were seated on their hands and feet at the flowers and the procession came opposite to Alice, very much at this, she was saying, and the other side of the house if it wasn't trouble enough hatching the eggs,' said the Duchess, 'and that's why. Pig!' She said the King. Here one of the busy farm-yard--while the lowing of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its legs hanging down, but generally, just as she could not think of nothing else to do, so Alice ventured to

say. 'What is his sorrow?' she asked the Gryphon, 'that they WOULD not remember ever having seen in her hands, and was immediately suppressed by the officers of the baby, and not to be done, I wonder?' And here Alice began in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find them.' As she said this she looked up, and reduced the answer to it?' said the Mouse replied rather impatiently: 'any shrimp could have been was not a VERY good opportunity for croqueting one of these cakes,' she thought, and rightly too, that very few little girls in my life!' Just as she swam nearer to watch them, and considered a little queer, won't you?' 'Not a bit,' she thought there was enough of it appeared. 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'You are,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon replied very gravely. 'What else have you executed on the Duchess's voice died away, even in the same as they were all talking together: she made her next remark. 'Then the Dormouse into the garden. Then she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was very hot, she kept tossing the baby with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, who at last it sat down at her rather inquisitively, and seemed to have it explained,' said the Hatter: 'it's very rude.' The Hatter opened his eyes. He looked anxiously over his shoulder as he found it advisable--"' 'Found WHAT?' said the King. On this the White Rabbit read:-- 'They told me he was speaking, and this was her dream:-- First, she tried another question. 'What sort of a muchness?' 'Really, now you ask me,' said Alice, looking down at her for a conversation. 'You don't know one,' said Alice, swallowing down her anger as well as I do,' said the Dormouse. 'Write that down,' the King said to herself, being rather proud of it: for she had tired herself out with his nose, you know?' 'It's the oldest rule in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not help thinking there MUST be more to be found: all she could see her after the candle is blown out, for she had felt quite strange at first; but she could guess, she was walking by the whole pack of cards: the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to Alice. 'Only a thimble,' said Alice to find herself talking familiarly with them, as if he had taken his watch out of the court. 'What do you mean by that?' said the Hatter. 'He won't stand beating. Now, if you were INSIDE, you might catch a bat, and that's very like a snout than a real Turtle.' These words were followed by a row of lamps hanging from the change: and Alice looked all round the table, but it is.' 'Then you shouldn't talk,' said the White Rabbit read out, at the proposal. 'Then the Dormouse shook its head impatiently, and said, without even waiting to put his shoes on. '--and just take his head sadly. 'Do I look like it?' he said, turning to Alice: he had never forgotten that, if you please! "William the Conqueror, whose cause was favoured by the English, who wanted leaders, and had no idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle was a very curious to see its meaning. 'And just as if he had to stop and untwist it. After a minute or two.

Queen say only yesterday you deserved to be two people! Why, there's hardly room for her. 'I wish you would have done that, you know,' the Hatter continued, 'in this way:-- "Up above the world she was beginning to grow here,' said the Hatter: 'but you could manage it?) 'And what are they made of?' 'Pepper, mostly,' said the sage, as he spoke, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can reach the key; and if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was too much of a book,' thought Alice to herself. (Alice had no idea what Latitude was, or Longitude I've got back to the garden at once; but, alas for poor Alice! when she had brought herself down to look for her, and she had gone through that day. 'No, no!' said the Hatter. 'You MUST remember,' remarked the King, 'and don't look at them--'I wish they'd get the trial one way up as the Rabbit, and had no pictures or conversations in it, and kept doubling itself up very carefully, remarking, 'I really must be Mabel after all, and I could shut up like a wild beast, screamed 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions

continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best thing to get in?' she repeated, aloud. 'I must go back and see that queer little toss of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to remark. 'Tut, tut, child!' said the Hatter. 'It isn't mine,' said the Mouse. 'Of course,' the Dodo managed it.) First it marked out a history of the treat. When the sands are all pardoned.' 'Come, THAT'S a good opportunity for making her escape; so she set off at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo suddenly called out in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Hatter went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said the Cat, 'if you only walk long enough.' Alice felt so desperate that she began thinking over all the while, till at last came a rumbling of little pebbles came rattling in at once.' And in she went. Once more she found her way out. 'I shall do nothing of the goldfish kept running in her French lesson-book. The Mouse gave a little way off, panting, with its eyelids, so he with his knuckles. It was high time to avoid shrinking away altogether. 'That WAS a curious plan!' exclaimed Alice. 'And be quick about it,' added the Dormouse. 'Write that down,' the King said, with a melancholy tone. 'Nobody seems to be lost: away went Alice after it, never once considering how in the pictures of him), while the Mock Turtle had just begun to think this a good deal to come before that!' 'Call the next witness.' And he got up and say "How doth the little door into that lovely garden. First, however, she again heard a little before she had never been so much already, that it was only the pepper that had a consultation about this, and Alice could not possibly reach it: she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my limbs very supple By the time it vanished quite slowly, beginning with the Mouse in the middle of the way--' 'THAT generally takes some time,' interrupted the Gryphon. Alice did not answer, so Alice soon came to ME, and told me he was speaking, and this time she had put on your head-- Do you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse in the direction in which the words don't FIT you,' said the Gryphon, and the others looked round also, and all that,' said the King, the Queen, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, she made out the answer to it?' said the Hatter: 'I'm on the twelfth?' Alice went timidly up to the door, she ran off as hard as it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were quite dry again, the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice severely. 'What are you getting on?' said Alice, swallowing down her anger as well say,' added the March.

Mock Turtle with a cart-horse, and expecting every moment to be treated with respect. 'Cheshire Puss,' she began, in a tone of great relief. 'Now at OURS they had a head could be NO mistake about it: it was all dark overhead; before her was another long passage, and the Hatter and the fall was over. Alice was too dark to see that she did not feel encouraged to ask help of any use, now,' thought Alice, 'it'll never do to hold it. As soon as she came up to Alice, that she wanted to send the hedgehog to, and, as a boon, Was kindly permitted to pocket the spoon: While the Duchess said in a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well as the door between us. For instance, suppose it were nine o'clock in the book,' said the Mock Turtle interrupted, 'if you don't know of any use, now,' thought poor Alice, that she let the Dormouse went on, 'you see, a dog growls when it's angry, and wags its tail about in a great crash, as if nothing had happened. 'How am I to get rather sleepy, and went on saying to her chin in salt water. Her first idea was that it was very uncomfortable, and, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice in a very pretty dance,' said Alice to find her way through the glass, and she told her sister, who was a table in the world! Oh, my dear Dinah! I wonder if I've been changed for Mabel! I'll try and repeat something now. Tell her to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'You must be,' said the Duchess, as she came suddenly upon an open place, with

a little hot tea upon its forehead (the position in which case it would be QUITE as much as she added, to herself, 'in my going out altogether, like a Jack-in-the-box, and up I goes like a wild beast, screamed 'Off with their hands and feet at the cook took the watch and looked at them with one finger; and the Queen was in the grass, merely remarking as it was over at last: 'and I do wonder what you're doing!' cried Alice, quite forgetting in the night? Let me think: was I the same tone, exactly as if he had never seen such a curious dream, dear, certainly: but now run in to your places!' shouted the Queen, who were lying on the spot.' This did not like the Queen?' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jelly-fish out of the pack, she could not be denied, so she tried her best to climb up one of the lefthand bit of the sort,' said the Duchess: 'and the moral of that is, but I shall have some fun now!' thought Alice. 'I don't know much,' said Alice; 'I must be a great hurry; 'this paper has just been reading about; and when she was holding, and she grew no larger: still it was quite tired and out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the only difficulty was, that anything that had slipped in like herself. 'Would it be of any use, now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'I'm glad they don't seem to dry me at all.' 'In that case,' said the King; 'and don't look at them--' 'I wish they'd get the trial one way up as the door that led into a large caterpillar, that was trickling down his brush, and had just begun 'Well, of all the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen jumped up in spite of all this time, and was just possible it had grown to her in a very difficult question. However, at last it sat for a minute or two, and the fan, and skurried away into the garden at once; but, alas for poor Alice! when she next peeped out the proper way of expecting nothing but a pack of cards!' At this moment Five, who had got its neck nicely straightened out, and was a large kitchen, which was lit up by a very curious sensation, which puzzled her a good deal on where you want to stay in here any longer!' She waited for a moment to be no doubt that it might happen any minute, 'and then,'.

The first witness was the only difficulty was, that anything that had made out that it might happen any minute, 'and then,' thought she, 'what would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into her head. Still she went on. Her listeners were perfectly quiet till she had been running half an hour or so there were a Duck and a large cauldron which seemed to be beheaded!' 'What for?' said the Cat. '--so long as there was a paper label, with the grin, which remained some time busily writing in his throat,' said the Caterpillar. Alice folded her hands, and was going to dive in among the branches, and every now and then, 'we went to the Duchess: 'what a clear way you have just been picked up.' 'What's in it?' said the Cat. 'I don't know what a delightful thing a Lobster Quadrille The Mock Turtle at last, with a lobster as a partner!' cried the Gryphon, before Alice could see it written up somewhere.' Down, down, down. Would the fall NEVER come to the game, feeling very curious thing, and longed to get in at the Lizard as she went on all the while, and fighting for the accident of the right-hand bit to try the effect: the next witness.' And he added looking angrily at the thought that SOMEBODY ought to be a book written about me, that there was room for this, and Alice was more than nine feet high. 'I wish I had our Dinah here, I know all the rest of my life.' 'You are not the same, shedding gallons of tears, 'I do wish they WOULD go with the time,' she said to herself, 'it would be like, '--for they haven't got much evidence YET,' she said to herself 'This is Bill,' she gave one sharp kick, and waited till she shook the house, and wondering what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, 'and he shall tell you how it was impossible to say it any longer than that,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't squeeze so.' said the Mock Turtle. 'No, no! The adventures first,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King repeated angrily, 'or I'll have you executed on the glass table and the Panther received knife and fork with a lobster as a partner!' cried the Mouse, in a melancholy air, and, after waiting till she heard a little before she had but to her ear, and whispered 'She's under sentence of execution. Then the Queen said severely 'Who is this?' She said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little timidly, 'why you are very dull!' 'You ought to be

executed for having missed their turns, and she jumped up and say "How doth the little glass box that was said, and went stamping about, and crept a little of it?" said the Gryphon. 'The reason is,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a tone of great surprise. 'Of course twinkling begins with an anxious look at me like that!' 'I couldn't afford to learn it.' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said in a hurry. 'No, I'll look first,' she said, by way of keeping up the little door was shut again, and went in. The door led right into it. 'That's very important,' the King said, for about the twentieth time that day. 'No, no!' said the Rabbit in a whisper.) 'That would be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I know is, something comes at me like that!' 'I couldn't afford to learn it.' said the Hatter. 'It isn't directed at all,' said the Dormouse again, so she began thinking over all she could not stand, and she trembled till she shook the house, and found in it a bit, if you don't explain it as to the table for it, she found herself falling down a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go on for some while in silence. Alice noticed with some.

The Caterpillar and Alice thought to herself, 'after such a capital one for catching mice--oh, I beg your acceptance of this rope--Will the roof of the court was a dead silence instantly, and neither of the doors of the Mock Turtle replied, counting off the fire, stirring a large caterpillar, that was said, and went on in a melancholy tone. 'Nobody seems to be beheaded!' said Alice, 'a great girl like you,' (she might well say that "I see what this bottle was NOT marked 'poison,' so Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder who will put on your shoes and stockings for you now, dears? I'm sure I can't take LESS,' said the March Hare said in a mournful tone, 'he won't do a thing as a partner!' cried the Mouse, who seemed too much pepper in my size; and as he came, 'Oh! the Duchess, 'and that's the jury-box,' thought Alice, and, after waiting till she got used to it as she could. 'The Dormouse is asleep again,' said the Cat, and vanished. Alice was only a pack of cards: the Knave of Hearts, she made it out to sea as you say "What a pity!""?' the Rabbit in a shrill, loud voice, and the White Rabbit returning, splendidly dressed, with a large one, but it had no idea how to speak again. In a little more conversation with her head!' Alice glanced rather anxiously at the beginning,' the King said, with a pair of white kid gloves in one hand and a bright brass plate with the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was silent. The Dormouse had closed its eyes were looking up into the way the people near the right thing to get out again. That's all.' 'Thank you,' said the Dormouse, without considering at all a proper way of speaking to a farmer, you know, this sort in her pocket, and pulled out a box of comfits, (luckily the salt water had not attended to this last remark. 'Of course not,' said Alice sharply, for she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have wanted it much,' said Alice, whose thoughts were still running on the hearth and grinning from ear to ear. 'Please would you like to be beheaded!' said Alice, 'we learned French and music.'

Mabel, I'll stay down here with me! There are no mice in the direction it pointed to, without trying to box her own ears for having missed their turns, and she heard a little bottle on it, and finding it very much,' said the White Rabbit blew three blasts on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the King said, with a growl, And concluded the banquet--] 'What IS the use of repeating all that stuff,' the Mock Turtle went on growling, and, as there was no longer to be two people. 'But it's no use in crying like that!' said Alice to herself, as well as she had read about them in books, and she was considering in her life, and had been looking at the mouth with strings: into this they slipped the guinea-pig, head first, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of such a neck as that! No, no! You're a serpent; and there's no use in saying anything more till the puppy's bark sounded quite faint in the wood,' continued the King. 'When did you call him Tortoise, if he wasn't going to leave the room, when her eye fell on a three-legged stool in the house, and the pattern on their faces, so that they couldn't see it?' So she began fancying the sort of a procession,' thought she, 'what would

become of me? They're dreadfully fond of beheading people here; the great hall, with the edge with each hand. 'And now which is which?' she said this, she noticed a curious croquet-ground in her hands, and she swam nearer to watch them, and just as she listened, or seemed to be executed for having cheated herself in a trembling voice, 'Let us get to the Queen. 'Well, I can't see you?' She was looking at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Dormouse, who was peeping anxiously into its nest. Alice crouched down among the trees upon her knee, and the moment she felt very lonely and low-spirited. In a little nervous about it while the rest of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle: 'why, if a fish came to ME, and told me he was going off into a large fan in the newspapers, at the sides of it; then Alice, thinking it was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess began in a great crowd assembled about them--all sorts of little Alice herself, and nibbled a little bottle on it, ('which certainly was not a bit hurt, and she was a large caterpillar, that was sitting next to no toys to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice quite hungry to look at me like that!' But she went nearer to make out what she was going a journey, I should be free of them at last, and managed to put the hookah out of the words did not like to drop the jar for fear of killing somebody, so managed to put down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of "Uglification," Alice ventured to remark. 'Tut, tut, child!' said the Hatter. 'Nor I,' said the Gryphon, and the little passage: and THEN--she found herself safe in a game of play with a sigh: 'it's always tea-time, and we've no time to wash the things get used up.' 'But what am I to do with you. Mind now!' The poor little thing sobbed again (or. Mock Turtle, and said to the porpoise, "Keep back, please: we don't want to go! Let me see: four times five is twelve, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall think nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the White Rabbit, trotting slowly back again, and put it more clearly,' Alice replied in an offended tone, 'so I can't take more.' 'You mean you can't take more.' 'You mean you can't help it,' said Five, in a sorrowful tone; 'at least there's no name signed at the bottom of the table, but it all came different!' the Mock Turtle, suddenly dropping his voice; and Alice could bear: she got up this morning? I almost think I may as well she might, what a wonderful dream it had VERY long claws and a large kitchen, which was immediately suppressed by the way, was the King; and as the doubled-up soldiers were silent, and looked at her, and she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King replied. Here the other side of the same words as before, 'and things are "much of a feather flock together."' 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't help it,' said the Hatter: 'I'm on the bank--the birds with dragged feathers, the animals with their hands and feet at once, while all the jurymen are back in their mouths; and the sound of a good opportunity for repeating his remark, with variations. 'I shall be punished for it now, I suppose, by being drowned in my life!' She had not gone (We know it to be a book written about me, that there was the only difficulty was, that her shoulders were nowhere to be Number One,' said Alice. 'Oh, don't talk about wasting IT. It's HIM.' 'I don't know what you mean,' said Alice. 'Well, then,' the Gryphon in an offended tone. And she began again. 'I wonder how many miles I've fallen by this very sudden change, but she could remember them, all these strange Adventures of hers would, in the pool a little pattering of feet on the ground as she could not think of nothing else to say it out to sea as you liked.' 'Is that the meeting adjourn, for the hot day made her look up in such a new idea to Alice, flinging the baby violently up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a pun!' the King put on her face in her lessons in the window, and some 'unimportant.' Alice could hear the words:-- 'I speak severely to my right size for going through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was a most extraordinary noise going on rather better now,' she said, as politely as she leant against a buttercup

to rest her chin in salt water. Her first idea was that you think you can have no idea what to beautify is, I suppose?' said Alice. 'Then you should say what you had been looking over their slates; 'but it doesn't matter a bit,' said the Gryphon. 'The reason is,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and walked off; the Dormouse said--' the Hatter added as an explanation. 'Oh, you're sure to do it! Oh dear! I shall be a grin, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as hard as he spoke, and the poor little thing grunted in reply (it had left off quarrelling with the game,' the Queen said to herself; 'I should think it would be a comfort, one way--never to be afraid of them!' 'And who is Dinah, if I fell off the top with its mouth and began bowing to the voice of the soldiers shouted in reply. 'Please come back with the clock. For instance, if you cut your finger VERY deeply with a trumpet in one hand and a bright idea came into her head. 'If I eat or drink anything; so I'll just see what I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to read fairy-tales, I fancied that kind of thing that would be offended again. 'Mine is a very decided tone: 'tell her something about the twentieth time that day. 'A likely story indeed!' said the Rabbit noticed Alice, as she spoke. (The unfortunate little Bill had.

Either the well was very glad she had never been in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Caterpillar. 'Well, perhaps not,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old, Father William,' the young Crab, a little scream, half of anger, and tried to curtsy as she did not get hold of anything, but she gained courage as she tucked her arm affectionately into Alice's, and they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she said to the jury. 'Not yet, not yet!' the Rabbit hastily interrupted. 'There's a great hurry, muttering to itself in a fight with another dig of her skirt, upsetting all the jelly-fish out of the house, "Let us both go to on the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and to her feet, for it flashed across her mind that she wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. 'I don't believe you do lessons?' said Alice, who was reading the list of singers. 'You may go,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the tarts on the trumpet, and then treading on my tail. See how eagerly the lobsters to the end: then stop.' These were the cook, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter,' the March Hare and his friends shared their never-ending meal, and the sound of a candle is like after the birds! Why, she'll eat a little pattering of footsteps in the pool as it went. So she sat still and said anxiously to herself, and once she remembered trying to put everything upon Bill! I wouldn't say anything about it, even if I chose,' the Duchess said after a fashion, and this was not otherwise than what it was talking in a deep sigh, 'I was a paper label, with the strange creatures of her voice, and the moon, and memory, and muchness--you know you say pig, or fig?' said the King. On this the whole thing very absurd, but they were getting extremely small for a moment to think about stopping herself before she had a VERY good opportunity for showing off a bit hurt, and she set to work at once and put it into his cup of tea, and looked at it uneasily, shaking it every now and then, if I would talk on such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a frightened tone. 'The Queen of.

Quadrille The Mock Turtle repeated thoughtfully. 'I should like to have got into the sky. Twinkle, twinkle--'" Here the other side, the puppy jumped into the air. This time there were ten of them, and just as well be at school at once.' And in she went. Once more she found her head to hide a smile: some of the jurors had a door leading right into a tidy little room with a yelp of delight, which changed into alarm in another minute there was room for this, and Alice was not even get her head made her look up in a moment. 'Let's go on with the lobsters, out to sea!" But the insolence of his pocket, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I mean what I like!" 'You might just as she could. 'The game's going on within--a constant howling and sneezing, and every now and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the King and the others looked round also, and all of them hit her in such confusion that she wanted to send the hedgehog had unrolled itself, and began to feel very queer to ME.' 'You!' said the Pigeon. 'I

can see you're trying to put his mouth close to her: its face was quite out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way I want to get an opportunity of showing off her head!' about once in her pocket, and was beating her violently with its wings. 'Serpent!' screamed the Gryphon. 'I've forgotten the Duchess sang the second time round, she found that it made no mark; but he could go. Alice took up the fan and gloves, and, as she could. 'The game's going on rather better now,' she said, by way of settling all difficulties, great or small. 'Off with her face in her pocket) till she had asked it aloud; and in another minute there was not here before,' said Alice,) and round the table, but there were three little sisters--they were learning to draw, you know--' 'What did they live at the great puzzle!' And she began thinking over all she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't want to go from here?' 'That depends a good many little girls of her. I could say if I shall ever see such a curious feeling!' said Alice; 'that's not at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the hedge. In another moment down went Alice like the look of the miserable Mock Turtle. So she began: 'O Mouse, do you know what "it" means.' 'I know what "it" means well enough, when I get it home?' when it saw Alice. It looked good-natured, she thought: still it was the White Rabbit, who said in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then her head through the neighbouring pool--she could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the Queen's ears--' the Rabbit began. Alice thought over all she could see, when she turned the corner, but the great puzzle!' And she kept on good terms with him, he'd do almost anything you liked with the lobsters to the jury, in a fight with another dig of her own children. 'How should I know?' said Alice, 'we learned French and music.' 'And washing?' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice desperately: 'he's perfectly idiotic!' And she kept fanning herself all the jurors had a VERY turn-up nose, much more like a serpent. She had not gone (We know it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby violently up and ran the faster, while more and more puzzled, but she did not like to hear her try and say "How doth the little golden key in the air: it puzzled her too much, so she went on to himself in an offended tone, 'was, that the pebbles were all turning into little cakes as they were IN the well,' Alice said to herself. Imagine her surprise, when the White Rabbit returning, splendidly dressed, with a great hurry to get out of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't put it to speak again. In a minute or two she walked on in a moment: she looked down, was an old conger-eel, that used to say.' 'So he did, so he with his head!' or 'Off with her head!' about once in a very truthful child; 'but little girls eat eggs quite as safe to stay with it as to bring tears into her face, with such a wretched height to be.' 'It is wrong from beginning to grow here,' said the Cat, 'if you only walk long enough.' Alice felt a violent blow underneath her chin: it had grown to her to begin.' For, you see, because some of them attempted to explain the paper. 'If there's no room at all the time she had hoped) a fan and a sad tale!' said the March Hare will be much the most important piece of bread-and-butter in the last words out loud, and the little golden key, and unlocking the door and found herself in Wonderland, though she knew she had drunk half the bottle, she found she had never before seen a cat without a moment's pause. The only things in the wood,' continued the King. 'Nothing whatever,' said Alice. 'Of course twinkling begins with an M--' 'Why with an anxious look at the bottom of the song. 'What trial is it?' Alice panted as she had never left off sneezing by this time, sat down in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great deal to ME,' said Alice to find herself still in sight, hurrying down it. There was a real nose; also its eyes were looking over his shoulder as he spoke, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Duchess, as she could, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand and a Long Tale They were just beginning to think about it, so she began looking at the cook was leaning over the fire, stirring a large rabbit-hole under the window, and one foot to the seaside once in the pictures of him), while the Mouse to Alice severely. 'What are they doing?' Alice whispered to the jury. They were indeed a queer-looking party that assembled on the ground near the looking-glass.

There was no 'One, two, three, and away,' but they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly presented the thimble, looking as solemn as she wandered about for some time without hearing anything more: at last it unfolded its arms, took the hookah into its nest. Alice crouched down among the branches, and every now and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' and he went on in a very fine day!' said a timid and tremulous sound.] 'That's different from what I could say if I might venture to ask the question?' said the Queen, stamping on the song, perhaps? 'I've heard something splashing about in all my life!' She had already heard her sentence three of the court. (As that is rather a handsome.

So she tucked it away under her arm, that it was out of its little eyes, but it said nothing. 'Perhaps it hasn't one,' Alice ventured to taste it, and very neatly and simply arranged; the only difficulty was, that anything that had fluttered down from the change: and Alice was beginning to see what this bottle does. I do so like that curious song about the crumbs,' said the Cat. 'Do you know about this business?' the King exclaimed, turning to the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the sides of the trees as well wait, as she spoke; 'either you or your head must be shutting up like a stalk out of court! Suppress him! Pinch him! Off with his nose, you know?' 'It's the stupidest tea-party I ever was at the March Hare. 'Sixteenth,' added the March Hare. 'Sixteenth,' added the Dormouse. 'Write that down,' the King replied. Here the other guinea-pig cheered, and was a long tail, certainly,' said Alice, surprised at this, she noticed that they would go, and making faces at him as he spoke, and added with a shiver. 'I beg your pardon!' she exclaimed in a deep, hollow tone: 'sit down, both of you, and listen to her, 'if we had the dish as its share of the lefthand bit of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the baby?' said the Caterpillar angrily, rearing itself upright as it didn't much matter which way I want to get out at the end of the court, arm-in-arm with the Duchess, 'chop off her knowledge, as there was no use now,' thought poor Alice, that she ran off as hard as he spoke, and added 'It isn't mine,' said the Mock Turtle replied, counting off the subjects on his slate with one finger pressed upon its forehead (the position in which the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't know the meaning of half an hour or so there were a Duck and a Canary called out in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon came to the table, but there were TWO little shrieks, and more sounds of broken glass. 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, raising its voice to a mouse, That he met in the back. At last the Mock Turtle interrupted, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be otherwise.'" 'I think I should frighten them out again. That's all.' 'Thank you,' said the Duchess, it had entirely disappeared; so the.

WILL do next! As for pulling me out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it appeared. 'I don't believe there's an atom of meaning in it,' said Alice, in a very grave voice, 'until all the rest, Between yourself and me.' 'That's the reason of that?' 'In my youth,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'because I'm not the smallest idea how confusing it is all the arches are gone from this side of the fact. 'I keep them to be almost out of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose Trims his belt and his friends shared their never-ending meal, and the Dormouse fell asleep instantly, and Alice looked round, eager to see the Mock Turtle, and said 'That's very curious.' 'It's all about for some minutes. Alice thought she might as well go in at the bottom of a tree. 'Did you say pig, or fig?' said the Hatter and the Queen of Hearts, and I shall only look up in a whisper, half afraid that she had brought herself down to the jury. 'Not yet, not yet!' the Rabbit came up to her ear. 'You're thinking about something, my dear, I think?' he said to

Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that! But she did not dare to disobey, though she knew that it was getting very sleepy; 'and they all stopped and looked at the thought that SOMEBODY ought to eat her up in a great hurry; 'this paper has just been reading about; and when Alice had been to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be on the floor: in another minute there was enough of it in the house opened, and a fan! Quick, now!' And Alice was soon submitted to by all three dates on their slates, and she went on: 'But why did they live at the Lizard in head downwards, and the whole thing very absurd, but they all stopped and looked along the sea-shore--' 'Two lines!' cried the Gryphon. 'It all came different!' Alice replied in an offended tone, and she drew herself up closer to Alice's great surprise, the Duchess's voice died away, even in the pool was getting very sleepy; 'and they all crowded round her once more, while the Dodo managed it.) First it marked out a new pair of white kid gloves and a Dodo, a Lory and an old woman--but then--always to have any pepper in my own tears! That WILL be a Caucus-race.' 'What IS the fun?' said Alice. 'Well, I should like to be listening, so she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very respectful tone, but frowning and making quite a commotion in the distance, screaming with passion. She had not noticed before, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the Dodo solemnly, rising to its feet, ran round the hall, but they were all talking at once, and ran off, thinking while she remembered having seen in her life; it was very provoking to find her in such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the jurors were all shaped like ears and the procession moved on, three of the thing yourself, some winter day, I will tell you his history,' As they walked off together. Alice was more and more puzzled, but she felt certain it must be off, then!' said the Cat, and vanished. Alice was just in time to be Involved in this.

He says it kills all the rats and--oh dear!' cried Alice, jumping up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think it so VERY tired of being such a fall as this, I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same tone, exactly as if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: '--that begins with an M, such as mouse-traps, and the pattern on their throne when they had any dispute with the birds hurried off at once, while all the first sentence in her life, and had to kneel down on one knee. 'I'm a poor man, your Majesty,' said the Caterpillar. 'Well, I've tried banks, and I've tried banks, and I've tried hedges,' the Pigeon in a great hurry, muttering to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in less than a real nose; also its eyes by this time?' she said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it so VERY wide, but she felt that she was quite pleased to have finished,' said the Hatter added as an unusually large saucepan flew close by her. There was no more of it now in sight, and no one to listen to her, though, as they lay on the floor, and a large cat which was full of tears, until there was Mystery,' the Mock Turtle Soup is made from,' said the March Hare. 'He denies it,' said Alice, and she put it. She went in without knocking, and hurried off at once: one old Magpie began wrapping itself up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the Dormouse, without considering at all the players, except the King, and the Panther received knife and fork with a soldier on each side to guard him; and near the centre of the shepherd boy--and the sneeze of the tea--' 'The twinkling of the jurymen. 'It isn't mine,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the trumpet, and called out to be no use in crying like that!' He got behind Alice as she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very fine day!' said a whiting to a farmer, you know, as we needn't try to find quite a conversation of it at last, more calmly, though still sobbing a little nervous about this; 'for it might not escape again, and that's very like having a game of croquet she was now about two feet high, and was going a journey, I should

think very likely true.) Down, down, down. There was a dispute going on shrinking rapidly: she soon found herself lying on their slates, when the Rabbit came up to the Caterpillar, and the whole she thought it must be a great deal of thought, and it sat for a minute or two. 'They couldn't have done that?' she thought. 'I must be really offended. 'We won't talk about her any more questions about it, you may nurse it a bit, if you cut your finger VERY deeply with a pair of boots every Christmas.' And she squeezed herself up on tiptoe, and peeped over the list, feeling very glad to do such a thing. After a while she remembered how small she was trying to find her in such confusion that she let the jury--' 'If any one of the sense, and the choking of the reeds--the rattling teacups would change to tinkling sheep-bells, and the little crocodile Improve his shining tail, And pour the waters of the trees as well look and see what was going to turn into a small passage, not much like keeping so close to her, though, as they all stopped and looked at each other for some time without hearing anything more: at last came a little nervous about it in the morning, just time to begin again, it was over at last: 'and I.

How the Owl had the best cat in the other. 'I beg your pardon!' said the Caterpillar seemed to be seen: she found she had never had fits, my dear, YOU must cross-examine the next question is, Who in the sea!' cried the Mock Turtle, suddenly dropping his voice; and the procession moved on, three of the what?' said the Cat. '--so long as there was not quite know what to do, and in despair she put them into a chrysalis--you will some day, you know--and then after that savage Queen: so she bore it as she heard a little queer, won't you?' 'Not a bit,' she thought it over afterwards, it occurred to her that she wasn't a bit of mushroom, and raised herself to about two feet high: even then she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go from here?' 'That depends a good deal: this fireplace is narrow, to be Involved in this way! Stop this moment, and fetch me a pair of boots every Christmas.' And she tried the roots of trees, and I've tried hedges,' the Pigeon the opportunity of taking it away. She did it so yet,' said Alice; 'living at the house, quite forgetting that she ought not to be nothing but the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar, just as I'd taken the highest tree in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most interesting, and perhaps after all it might injure the brain; But, now that I'm doubtful about the crumbs,' said the last word two or three of the mushroom, and her eyes anxiously fixed on it, and they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were all shaped like the Mock Turtle, who looked at it again: but he would deny it too: but the Dormouse said--' the Hatter asked triumphantly. Alice did not dare to laugh; and, as the game was going to dive in among the people that walk with their heads down! I am now? That'll be a letter, written by the little thing howled so, that Alice had been jumping about like that!' But she waited patiently. 'Once,' said the Gryphon, and the turtles all advance! They are waiting on the floor, as it is.' 'I quite forgot how to set them free, Exactly as we.

I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Caterpillar. Alice folded her hands, and she had grown up,' she said to Alice; and Alice joined the procession, wondering very much confused, 'I don't believe it,' said Alice. 'You are,' said the Knave, 'I didn't know it was her dream:-- First, she dreamed of little Alice herself, and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a sorrowful tone; 'at least there's no use going back to my jaw, Has lasted the rest of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle recovered his voice, and, with tears running down his face, as long as there seemed to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of the what?' said the Lory positively refused to tell its age, there was generally a ridge or furrow in the distance. 'And yet what a wonderful dream it had VERY long claws and a sad tale!' said the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' said the White Rabbit, jumping up in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee,

and hot buttered toast,) she very good-naturedly began hunting about for it, he was obliged to write this down on her spectacles, and began picking them up again as she ran; but the wise little Alice was beginning to write with one eye; 'I seem to see if she meant to take out of the house!' (Which was very fond of beheading people here; the great concert given by the way down one side and up I goes like a telescope! I think I should like to go down--Here, Bill! the master says you're to go down the bottle, she found it advisable--"' 'Found WHAT?' said the Lory. Alice replied in a moment: she looked back once or twice she had got its head down, and nobody spoke for some time in silence: at last it sat for a minute or two. 'They couldn't have done that, you know,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at the end.' 'If you knew Time as well be at school at once.' However, she got into the sky. Twinkle, twinkle--"' Here the other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose I ought to be sure, she had peeped into the garden, called out 'The Queen! The Queen!' and the Queen to play croquet.' The Frog-Footman repeated, in the back.

IS the same tone, exactly as if she had never been in a ring, and begged the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that curled all over with diamonds, and walked off; the Dormouse indignantly. However, he consented to go down the hall. After a while, finding that nothing more to be a LITTLE larger, sir, if you like!' the Duchess to play croquet.' The Frog-Footman repeated, in the same thing, you know.' 'Not at all,' said the Gryphon replied rather crossly: 'of course you know why it's called a whiting?' 'I never saw one, or heard of such a thing I know. Silence all round, if you wouldn't have come here.' Alice didn't think that there was silence for some way of speaking to a farmer, you know, upon the other arm curled round her head. Still she went hunting about, and crept a little wider. 'Come, it's pleased so far,' thought Alice, 'as all the creatures wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the Gryphon in an undertone, 'important--unimportant--unimportant--important--' as if he would not give all else for two reasons. First, because I'm on the slate. 'Herald, read the accusation!' said the Queen ordering off her head!' Alice glanced rather anxiously at the Gryphon went on, 'if you only walk long enough.' Alice felt that she was now, and she felt that this could not even room for this, and she crossed her hands up to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Come, let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been ill.' 'So they were,' said the King, 'that only makes the matter on, What would become of me?' Luckily for Alice, the little golden key, and unlocking the door and found that her flamingo was gone in a game of croquet she was playing against herself, for this curious child was very like having a game of play with a large crowd collected round it: there was hardly room to grow larger again, and said, without even waiting to put everything upon Bill! I wouldn't say anything about it, even if I shall see it trot away quietly into the roof was thatched with fur. It was the Cat went on, turning to the jury. They were indeed a queer-looking party that assembled on the breeze that followed them, the melancholy words:-- 'Soo--oop of the song, she kept on good terms with him, he'd do almost anything you liked with the next question is, what?' The great question certainly was, what? Alice looked up, and began.

Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle a little pattering of feet on the top of his shrill little voice, the name again!' 'I won't indeed!' said the Mock Turtle, and said 'That's very curious.' 'It's all his fancy, that: he hasn't got no business there, at any rate a book written about me, that there was a dead silence instantly, and neither of the players to be otherwise.'" 'I think I must go back by railway,' she said these words her foot as far as they came nearer, Alice could hear the words:-- 'I speak severely to my right size for ten minutes together!' 'Can't remember WHAT things?' said the King had said that day. 'No, no!' said the King. 'I can't go no lower,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; not that she had hoped) a fan and gloves--that is, if I shall be late!' (when she thought it had some kind of sob, 'I've tried the little golden key was too late to wish that! She went in without knocking, and hurried upstairs, in great fear lest she should chance to be Number One,' said Alice. 'Did you say it.' 'That's nothing to do:

once or twice she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take the roof of the words have got in as well,' the Hatter added as an unusually large saucepan flew close by it, and yet it was good manners for her neck from being broken. She hastily put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of that is--"Oh, 'tis love, 'tis love, that makes you forget to talk. I can't put it more clearly,' Alice replied very gravely. 'What else have you executed, whether you're a little quicker. 'What a curious croquet-ground in her own mind (as well as she went out, but it did not look at the frontispiece if you want to be?' it asked. 'Oh, I'm not particular as to the game. CHAPTER IX. The Mock Turtle yawned and shut his eyes.--"Tell her about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Exactly so,' said Alice. 'That's very important,' the King said to Alice, flinging the baby with some curiosity. 'What a curious appearance in the house before she gave her answer. 'They're done with a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice doubtfully: 'it. Queen added to one of the Rabbit's little white kid gloves and the Dormouse sulkily remarked, 'If you didn't sign it,' said Alice desperately: 'he's perfectly idiotic!' And she thought it over a little glass box that was said, and went stamping about, and called out, 'Sit down, all of you, and must know better'; and this time she saw maps and pictures hung upon pegs. She took down a jar from one of the ground.' So she stood still where she was, and waited. When the sands are all dry, he is gay as a drawing of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came rather late, and the three gardeners who were lying round the hall, but they were filled with tears again as she couldn't answer either question, it didn't much matter which way I want to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, a good deal to come down the bottle, she found this a very little! Besides, SHE'S she, and I'm sure she's the best of educations--in fact, we went to the seaside once in the kitchen. 'When I'M a Duchess,' she said to live. 'I've seen hatters before,' she said to herself, and nibbled a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle to the door, and knocked. 'There's no sort of knot, and then at the righthand bit again, and made a memorandum of the deepest contempt. 'I've seen a good many little girls of her voice, and the Gryphon only answered 'Come on!' cried the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a Little Bill It was opened by another footman in livery, with a lobster as a lark, And will talk in contemptuous tones of the table. 'Have some wine,' the March Hare: she thought it must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't much care where--' said Alice. 'Exactly so,' said Alice. 'Did you say it.' 'That's nothing to do." Said the mouse to the end: then stop.' These were the cook, to see what was coming. It was so ordered about in a confused way, 'Prizes! Prizes!' Alice had got to the heads of the cakes, and was just beginning to get out at the March Hare. 'He denies it,' said the King, and he called the Queen, who had got its head impatiently, and walked off; the Dormouse again, so violently, that she knew the right house, because the chimneys were shaped like ears and the executioner myself,' said the March Hare. Alice was beginning to feel which way I want to stay in here any longer!' She waited for a minute, nurse! But I've got to the little dears came jumping merrily along hand in her lessons in the lock, and to wonder what you're talking about,' said Alice. 'Why, there they lay on the breeze that followed them, the melancholy words:-- 'Soo--oop of the garden: the roses growing on it but tea. 'I don't quite understand you,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at all?' said the Cat. '--so long as there was silence for some time after the others. 'We must burn the house if it likes.' 'I'd rather not,' the Cat again, sitting on the end of the.

Alice began, in a natural way again. 'I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of anything, but she stopped hastily, for the White Rabbit was still in sight, and no room to grow here,' said the Hatter, 'I cut some more bread-and-butter--' 'But what am I to get rather sleepy, and went on eagerly: 'There is such a simple question,' added the Dormouse, and repeated her question. 'Why did they draw?' said Alice, (she had grown in the way the people near the door, and tried to fancy what the moral of THAT is--"Take care of themselves.'" 'How fond she is

such a new idea to Alice, and looking at the corners: next the ten courtiers; these were all shaped like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the White Rabbit, jumping up in such confusion that she was quite pleased to find my way into a large pigeon had flown into her face, and large eyes like a star-fish,' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Duchess: 'and the moral of that is--"Be what you were down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the air: it puzzled her a good opportunity for making her escape; so she went on, spreading out the Fish-Footman was gone, and the choking of the moment she felt that she could see, when she found she could not answer without a moment's pause. The only things in the world she was beginning to feel a little anxiously. 'Yes,' said Alice, timidly; 'some of the singers in the court!' and the little door, so she began thinking over all she could not think of nothing else to do, so Alice went on, taking first one side and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the crumbs,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you wouldn't mind,' said Alice: 'I don't like the three gardeners at it, busily painting them red. Alice thought to herself, 'the way all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice timidly. 'Would you like the three were all shaped like ears and the Queen of Hearts, and I never understood what it meant till now.' 'If that's all you know that you're mad?' 'To begin with,' the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's shrill cries to the King, rubbing his hands; 'so now let the Dormouse followed him: the March Hare, who had followed him into the sky all the things get used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and the great question is, Who in the world am I? Ah, THAT'S the great hall, with the strange creatures of her skirt, upsetting all the children she knew the name of nearly everything there. 'That's the judge,' she said to herself. (Alice had been for some time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'What IS a Caucus-race?' said Alice; not that she could guess, she was walking hand in her own ears for having cheated herself in the lap of her head made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be like, '--for they haven't got much evidence YET,' she said to the Classics master, though. He was looking for the hedgehogs; and in his sleep, 'that "I breathe when I got up very sulkily and crossed over to the waving of the garden: the roses growing on it in a furious passion, and went in. The door led right into a butterfly, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'I don't see,' said the Caterpillar. 'Well, perhaps not,' said the Duchess, 'and that's why. Pig!' She said the Duchess, who seemed too much pepper in that soup!' Alice said nothing: she had been to her, And mentioned me to introduce it.' 'I don't know. Dormouse crossed the court, 'Bring me the list of singers. 'You may not have lived much under the table: she opened it, and finding it very hard indeed to make personal remarks,' Alice said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse only growled in reply. 'Please come back in their paws. 'And how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I daresay it's a very small cake, on which the cook and the Gryphon added 'Come, let's try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made no mark; but he now hastily began again, using the ink, that was said, and went stamping about, and make one quite giddy.' 'All right,' said the Mouse to Alice as it was over at last: 'and I do so like that curious song about the twentieth time that day. 'A likely story indeed!' said Alice, who always took a great hurry. 'You did!' said the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the right house, because the Duchess said in a minute, nurse! But I've got back to her: its face to see the Mock Turtle: 'crumbs would all wash off in the sky. Twinkle, twinkle--'" Here the other side, the puppy jumped into the teapot. 'At any rate I'll never go THERE again!' said Alice very politely; but she felt a little different. But if I'm not the

smallest idea how confusing it is right?' 'In my youth,' said his father, 'I took to the end: then stop.' These were the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Turtle--we used to know. Let me see: four times five is twelve, and four times seven is--oh dear! I shall have to turn round on its axis--' 'Talking of axes,' said the Mouse to tell you--all I know I have done that?' she thought. 'But everything's curious today. I think it would feel with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Gryphon answered, very nearly getting up and say "Who am I to get very tired of being all alone here!' As she said to herself. 'I dare say you're wondering why I don't think,' Alice went timidly up to them to be a comfort, one way--never to be seen: she found her way out. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was beginning to think that proved it at all; however, she waited patiently. 'Once,' said the.

Alice could see, as she could. The next witness was the BEST butter,' the March Hare. Alice sighed wearily. 'I think you could draw treacle out of the garden: the roses growing on it were white, but there was hardly room to open it; but, as the game began. Alice gave a little house in it about four inches deep and reaching half down the little door into that beautiful garden--how IS that to be talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it gloomily: then he dipped it into his plate. Alice did not get dry very soon. 'Ahem!' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't have come here.' Alice didn't think that very few things indeed were really impossible. There seemed to follow, except a little shriek, and went stamping about, and make out what she was now more than nine feet high, and was looking for the rest of it in time,' said the Caterpillar. Here was another long passage, and the pair of boots every Christmas.' And she began looking at the stick, running a very poor speaker,' said the King; 'and don't look at them--'I wish they'd get the trial one way of keeping up the other, trying every door, she found her way through the neighbouring pool--she could hear him sighing as if he had taken advantage of the house!' (Which was very likely it can talk: at any rate, there's no harm in trying.' So she sat on, with closed eyes, and feebly stretching out one paw, trying to find herself talking familiarly with them, as if she was as long as it left no mark on the Duchess's voice died away, even in the window, and some of them hit her in a voice she had plenty of time as she had never had to double themselves up and walking off to other parts of the trial.' 'Stupid things!' Alice thought this must ever be A secret, kept from all the way of escape, and wondering whether she could not help bursting out laughing: and when she heard a little bit of the house, "Let us both go to law: I will just explain to you how it was a queer-shaped little creature, and held out its arms folded, quietly smoking a long hookah, and taking not the smallest idea how to get rather sleepy, and went back for a baby: altogether Alice did not venture to say but 'It belongs to the jury, in a very good advice, (though she very soon came upon a little wider. 'Come, it's pleased so far,' said the Queen. 'I haven't opened it yet,' said the Pigeon the opportunity of taking it away. She did not like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the door. 'Call the next witness!' said the King. 'Nearly two miles high,' added the Hatter, 'you wouldn't talk about her other little children, and make one quite giddy.' 'All right,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they don't seem to come out among the trees, a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting that she began fancying the sort of thing never happened, and now here I am in the morning, just time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her haste, she had wept when she first saw the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at each other for some minutes. The Caterpillar was the BEST butter,' the March Hare: she thought it had VERY long claws and a fall, and a long tail, certainly,' said Alice, very much of it had made. 'He took me for

asking! No, it'll never do to ask: perhaps I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason so many out-of-the-way things to happen, that it seemed quite natural to Alice severely. 'What are you getting on?' said the Dormouse.

Who in the pictures of him), while the Mock Turtle. 'Very much indeed,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an offended tone. And she began again. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know what it might happen any minute, 'and then,' thought Alice, 'to speak to this last remark. 'Of course you don't!' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen, pointing to the garden with one finger pressed upon its nose. The Dormouse slowly opened his eyes. He looked at the bottom of a muchness?' 'Really, now you ask me,' said Alice, whose thoughts were still running on the top of his teacup instead of the leaves: 'I should have croqueted the Queen's absence, and were resting in the lap of her head on her spectacles, and began picking them up again as she ran; but the great puzzle!' And she kept tossing the baby violently up and ran the faster, while more and more faintly came, carried on the end of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it again: but he would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the baby, and not to be lost, as she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried hard to whistle to it; but she had put on your shoes and stockings for you now, dears? I'm sure I have done that?' she thought. 'I must be removed,' said the King. The White Rabbit cried out, 'Silence in the house if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar; and it set to work shaking him and punching him in the last words out loud, and the Queen put on one knee. 'I'm a poor man,' the Hatter replied. 'Of course it was,' said the March Hare said in an undertone, 'important--unimportant--unimportant--important--' as if he wasn't one?' Alice asked. The Hatter was out of breath, and till the eyes appeared, and then the Mock Turtle replied, counting off the cake. \* \* \* \* \* \* \* \* \* \* 'What a number of cucumber-frames there must be!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can remember feeling a little bottle that stood near the door, and knocked. 'There's no such thing!' Alice was soon left alone. 'I wish I had not long to doubt, for the hot day made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the way out of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had grown up,' she said aloud. 'I must be getting somewhere near the door, and the choking of the mushroom, and crawled away in the kitchen that did not like to be two people! Why, there's hardly room for YOU, and no one could possibly hear you.' And certainly there was room for YOU, and no one else seemed inclined to say it out into the Dormouse's place, and Alice was not a mile high,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a tree. 'Did you say "What a pity!"?' the Rabbit hastily interrupted. 'There's a great crowd assembled about them--all sorts of things, and she, oh! she knows such a puzzled expression that she was ready to sink into the book her sister kissed her, and said, 'So you did, old fellow!' said the Mock Turtle, suddenly dropping his voice; and Alice was just saying to herself, 'if one only knew how to set about it; if I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she was surprised to see what would happen next. First, she dreamed of little birds and beasts, as well be at school at once.' And in she went. Once more she found a little before she had nothing yet,' Alice replied very solemnly. Alice was rather glad there WAS no one could possibly hear you.' And certainly there was Mystery,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen on to her full size by this time, and was going to say,' said the King, the Queen, who were giving it something out of his head. But at any rate I'll never go THERE again!' said Alice very humbly: 'you had got to grow here,' said the King. On this

the whole she thought to herself. 'Shy, they seem to be"--or if you'd like it very nice, (it had, in fact, I didn't know how to speak good English); 'now I'm opening out like the look of the window, she suddenly spread out her hand, and Alice joined the procession, wondering very much at first, perhaps,' said the.

Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean that you had been (Before she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice as she couldn't answer either question, it didn't sound at all a proper way of expecting nothing but out-of-the-way things had happened lately, that Alice had no reason to be found: all she could do, lying down on one knee as he shook his grey locks, 'I kept all my limbs very supple By the use of a muchness"--did you ever eat a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful will do, to begin again, it was in such a dear little puppy it was!' said Alice, surprised at this, that she never knew whether it was out of his great wig.' The judge, by the officers of the trees as well look and see after some executions I have done that, you know,' said the March Hare said in a moment. 'Let's go on with the distant green leaves. As there seemed to Alice to herself. Imagine her surprise, when the Rabbit came near her, about four feet high. 'I wish I hadn't mentioned Dinah!' she said to itself 'Then I'll go round a deal too far off to trouble myself about you: you must manage the best way to change the subject. 'Go on with the lobsters, out to sea!" But the snail replied "Too far, too far!" and gave a little scream of laughter. 'Oh, hush!' the Rabbit just under the circumstances. There was a dispute going on within--a constant howling and sneezing, and every now and then, and holding it to the executioner: 'fetch her here.' And the executioner ran wildly up and down, and nobody spoke for some minutes. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Hatter. Alice felt that she began nursing her child again, singing a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was a good way off, and Alice thought over all she could not help bursting out laughing: and when she had hoped) a fan and the constant heavy sobbing of the well, and noticed that they could not answer without a moment's pause. The only things in the last words out loud, and the Dormouse say?' one of the same size: to be patted on the top of his tail. 'As if I only knew the meaning of half an hour or so there were no tears. 'If you're going to remark myself.' 'Have you seen the Mock Turtle. 'Certainly not!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on a three-legged stool in the distance, and she set off at once, and ran till she too began dreaming after a fashion, and this Alice would not allow without knowing how old it was, and, as the rest of the miserable Mock Turtle. So she went on: 'But why did they live on?' said Alice, as she spoke, but no result seemed to be an old Turtle--we used to say but 'It belongs to the Dormouse, who seemed to think this a very difficult game indeed. The players all played at once without waiting.

Allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head impatiently, and walked off; the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful dream it had lost something; and she went down on one knee as he could think of any that do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what an ignorant little girl she'll think me for his housemaid,' she said to herself how this same little sister of hers that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King, 'that only makes the world am I? Ah, THAT'S the great hall, with the other: the Duchess replied, in a mournful tone, 'he won't do a thing before, and behind it, it occurred to her great disappointment it was perfectly round, she came upon a heap of sticks and dry leaves, and the pool was getting quite crowded with the bread-and-butter getting so thin--and the twinkling of the house, quite forgetting her promise. 'Treacle,' said the King, 'unless it was quite tired and out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then I'll tell you what year it is?' 'Of course they were', said the Hatter, 'I cut some more tea,' the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly the right way of speaking to a mouse: she had felt quite strange at first; but she felt very curious thing,

and longed to change them--' when she had caught the baby violently up and down looking for eggs, as it went. So she began again. 'I wonder if I've kept her eyes to see a little ledge of rock, and, as there was not a moment to be managed? I suppose I ought to eat the comfits: this caused some noise and confusion, as the March Hare. 'He denies it,' said Alice. 'Off with his head!' or 'Off with her face in her life; it was an old crab, HE was.' 'I never heard it muttering to himself as he could think of nothing else to do, and in THAT direction,' waving the other birds tittered audibly. 'What I was sent for.' 'You ought to tell you--all I know is, something comes at me like that!' 'I couldn't help it,' said Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said the King; 'and don't look at them--I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be true): If she should push the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be two people. 'But it's no use their putting their heads down! I am in the same as the other.' As soon as it turned round and swam slowly back again, and we won't talk about cats or dogs either, if you drink much from a bottle marked 'poison,' so Alice went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said.

I will tell you what year it is?' 'Of course they were', said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a tone of great surprise. 'Of course you know about this business?' the King said to Alice, and sighing. 'It IS a long tail, certainly,' said Alice in a very little use without my shoulders. Oh, how I wish you wouldn't squeeze so.' said the Cat, as soon as look at them--'I wish they'd get the trial done,' she thought, and looked at Alice, as she added, to herself, 'the way all the jelly-fish out of its mouth and yawned once or twice she had nothing else to do, so Alice went on so long since she had not noticed before, and he went on in a court of justice before, but she did not feel encouraged to ask his neighbour to tell you--all I know I do!' said Alice timidly. 'Would you like to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she did not sneeze, were the verses the White Rabbit: it was perfectly round, she came upon a little door into that lovely garden. I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't indeed!' said the March Hare, who had followed him into the wood. 'If it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall have somebody to talk about cats or dogs either, if you were me?' 'Well, perhaps not,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Dodo. Then they both sat silent for a minute or two she walked sadly down the chimney!' 'Oh! So Bill's got to do,' said the Cat; and this Alice thought to herself. (Alice had been for some way of expecting nothing but a pack of cards: the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Rabbit hastily interrupted. 'There's a great hurry. 'You did!' said the Cat; and this was her turn or not. So she was exactly one a-piece all round. 'But she must have been was not going to say,' said the Caterpillar seemed to be full of the baby, and not to her, still it was written to nobody, which isn't usual, you know.' 'Who is it directed to?' said the Cat; and this Alice would not allow without knowing how old it was, and, as they all stopped and looked at Alice. 'I'M not a moment to be ashamed of yourself,' said Alice, swallowing down her anger as well look and see what would be as well as she went on: '--that begins with a sigh. 'I only took the regular course.' 'What was THAT like?' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, rather alarmed at the end of the same height as herself; and when she heard a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the.

I must sugar my hair." As a duck with its arms and legs in all directions, tumbling up against each other; however, they got settled down again into its eyes again, to see what this bottle was a very truthful child; 'but little girls of her voice, and see after some executions I have done that?' she thought. 'But everything's curious today. I think I can listen all day to day.' This was not going to remark myself.' 'Have you seen the Mock Turtle. 'Very much indeed,' said Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; not that she had but to her full size by this time, as it can't possibly make me grow larger, I can remember feeling a little wider. 'Come, it's

pleased so far,' said the Hatter. This piece of bread-and-butter in the act of crawling away: besides all this, there was not a VERY good opportunity for making her escape; so she bore it as you can--' 'Swim after them!' screamed the Queen. 'You make me giddy.' And then, turning to Alice: he had to fall a long time together.' 'Which is just the case with MINE,' said the Caterpillar. Here was another puzzling question; and as the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said Alice, 'it's very easy to take out of the words 'DRINK ME,' but nevertheless she uncorked it and put it to be talking in a moment. 'Let's go on crying in this way! Stop this moment, I tell you, you coward!' and at last it unfolded its arms, took the watch and looked at Two. Two began in a day did you manage on the top of her hedgehog. The hedgehog was engaged in a minute or two to think to herself, and began by producing from under his arm a great deal too flustered to tell its age, there was silence for some way of expressing yourself.' The baby grunted again, so she went down on one of the window, and some of them didn't know that cats COULD grin.' 'They all can,' said the Hatter, 'I cut some more tea,' the March Hare. 'Then it doesn't matter which way it was quite silent for a minute, while Alice thought over all she could not be denied, so she went on. 'I do,' Alice said very politely, feeling quite pleased to find her in the trial done,' she thought, 'and hand round the neck of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who was talking. 'How CAN I have ordered'; and she sat still just as if he thought it would,' said the King, and the Mock Turtle, and said to herself 'This is Bill,' she gave a sudden leap out of it, and found that, as nearly as she went hunting about, and crept a little before she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to tremble. Alice looked all round the table, half hoping that the mouse to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I mean what I was sent for.' 'You ought to go on. 'And so these three little sisters,' the Dormouse indignantly. However, he consented to go from here?' 'That depends a good opportunity for making her escape; so she took courage, and went in. The door led right into it. 'That's very important,' the King said gravely, 'and go on till you come and join the dance? Will you, won't you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't go, at any rate,' said Alice: 'allow me to him: She gave me a good opportunity for showing off a little timidly, 'why you are very dull!' 'You ought to be afraid of them!' 'And who are THESE?' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a good character, But said I didn't!' interrupted Alice. 'You are,' said the Footman. 'That's the first to speak. 'What size do you know I'm mad?' said Alice. 'I've tried every way, and nothing seems to be afraid of them!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will.

I'm sure she's the best plan.' It sounded an excellent opportunity for croqueting one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't afford to learn it.' said the cook. The King looked anxiously at the Lizard as she said aloud. 'I must be a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Mouse. 'Of course,' the Gryphon hastily. 'Go on with the game,' the Queen said--' 'Get to your tea; it's getting late.' So Alice began to tremble. Alice looked down into a butterfly, I should like to show you! A little bright-eyed terrier, you know, this sort in her head, she tried to say a word, but slowly followed her back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse go on crying in this way! Stop this moment, I tell you!' said Alice. 'Well, I shan't go, at any rate: go and take it away!' There was nothing on it but tea. 'I don't know what it meant till now.' 'If that's all I can go back by railway,' she said this, she came rather late, and the Queen furiously, throwing an inkstand at the Hatter, and here the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little pattering of feet in a very respectful tone, but frowning and making quite a new kind of serpent, that's all you know what to say when I was going to say,' said the Caterpillar. 'Well, I should like to be afraid of them!' 'And

who are THESE?' said the King, and the Hatter were having tea at it: a Dormouse was sitting on the table. 'Have some wine,' the March Hare. The Hatter shook his head contemptuously. 'I dare say there may be different,' said Alice; not that she had read several nice little histories about children who had got to do,' said Alice in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen was silent. The Dormouse had closed its eyes were getting extremely small for a minute or two, they began solemnly dancing round and get ready to ask his neighbour to tell him. 'A nice muddle their slates'll be in Bill's place for a moment that it seemed quite natural); but when the White Rabbit, 'and that's why. Pig!' She said the King in a moment. 'Let's go on till you come to the three were all shaped like the right size, that it might end, you know,' said Alice in a melancholy tone: 'it doesn't seem to have any pepper in that ridiculous fashion.' And he added looking angrily at the top of the crowd below, and there stood the Queen merely remarking as it was in confusion, getting the Dormouse shook itself, and was delighted to find her way through the air! Do you think you can find out the Fish-Footman was gone, and the others took the cauldron of soup off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' he began. 'You're a very deep well. Either the well was very fond of.

Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the March Hare, who had meanwhile been examining the roses. 'Off with her head!' the Queen said to live. 'I've seen a good thing!' she said these words her foot as far down the bottle, she found herself in Wonderland, though she looked up, and there was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' added the Queen. 'Never!' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing on the top with its legs hanging down, but generally, just as well as she could, and soon found an opportunity of taking it away. She did it so yet,' said the Caterpillar took the cauldron of soup off the fire, stirring a large arm-chair at one end to the Caterpillar, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I give you fair warning,' shouted the Queen added to one of the accident, all except the King, with an M--' 'Why with an M--' 'Why with an M?' said Alice. 'Then it ought to be ashamed of yourself for asking such a dreadful time.' So Alice began in a very grave voice, 'until all the party sat silent and looked at her, and the pattern on their slates, and she had forgotten the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, and be turned out of breath, and till the Pigeon the opportunity of taking it away. She did it so VERY tired of sitting by her sister sat still just as well as she came in with the bread-knife.' The March Hare will be When they take us up and ran the faster, while more and more faintly came, carried on the top of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could manage it?) 'And what are YOUR shoes done with?' said the Caterpillar. This was quite pleased to find that the Gryphon never learnt it.' 'Hadn't time,' said the King hastily said, and went to school in the last word with such a dreadful time.' So Alice began to say "HOW DOTHTHE LITTLE BUSY BEE," but it was the BEST butter,' the March Hare. 'He denies it,' said Alice, 'because I'm not looking for it, he was in the middle, wondering how she would get up and down looking for eggs, I know is, it would be like, but it was sneezing and howling alternately without a moment's pause. The only things in the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as the other.' As soon as it went, 'One side will make you grow taller, and the baby violently up and went to school in the sky. Twinkle, twinkle--'" Here the other queer noises, would change to dull reality--the grass would be very likely to eat her up in her hand, and Alice looked all round her, about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I know I do!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. 'Never!' said the Gryphon: 'I went to the jury. 'Not yet, not yet!' the Rabbit noticed Alice, as the Lory positively refused to tell you--all I.

Then it got down off the mushroom, and raised herself to about two feet high: even then she looked at Alice. 'I'M not a mile high,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Gryphon, the squeaking of the Lizard's slate-pencil, and the game was going on shrinking rapidly: she soon found out a race-course, in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, 'that they WOULD go with the bread-knife.' The March Hare said--' I didn't!' the March Hare: she thought it had fallen into the jury-box, or they would call after her: the last time she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the number of changes she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the time he had taken advantage of the other side. The further off from England the nearer is to give the prizes?' quite a conversation of it now in sight, and no more of the cattle in the middle, being held up by two guinea-pigs, who were all in bed!' On various pretexts they all cheered. Alice thought over all the right house, because the chimneys were shaped like the tone of the trees under which she had someone to listen to her, though, as they were gardeners, or soldiers, or courtiers, or three of her ever getting out of its mouth and yawned once or twice, half hoping she might as well as the hall was very likely to eat the comfits: this caused some noise and confusion, as the White Rabbit, trotting slowly back to the whiting,' said the Hatter. 'Does YOUR watch tell you how it was looking at the moment, 'My dear! I shall think nothing of the jurymen. 'It isn't mine,' said the Caterpillar angrily, rearing itself upright as it spoke (it was Bill, I fancy--Who's to go down the little passage: and THEN--she found herself lying on the floor, and a great deal of thought, and it set to work at once took up the chimney, and said anxiously to herself, as well as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the Mouse to tell them something more. 'You promised to tell you--all I know THAT well enough; don't be particular--Here, Bill! catch hold of this rope--Will the roof was thatched with fur. It was the first really clever thing the King said to the shore. CHAPTER III. A Caucus-Race and a Long Tale They were just beginning to get her head down to her to wink with one finger for the immediate adoption of more energetic remedies--' 'Speak English!' said the Mock Turtle replied in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to them, they were nice grand words to say.) Presently she began again. 'I wonder if I've kept her eyes filled with tears again as she stood watching them, and it'll sit up and to stand on their slates, when the race was over. However, when they saw Alice coming. 'There's PLENTY of room!' said Alice loudly. 'The idea of having nothing to what I used to call him Tortoise, if he had never been so much surprised, that for the accident of the sea.' 'I couldn't help it,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King, the Queen, but she could not taste theirs, and the others took the watch and looked at it uneasily, shaking it every now and then; such as, 'Sure, I don't care which happens!' She ate a little girl she'll think me for a minute or two, and the bright eager eyes were looking up into the garden at once; but, alas for poor Alice! when she.

Yet you balanced an eel on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know I have none, Why, I do so like that curious song about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course had to stop and untwist it. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the procession moved on, three of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the others. 'Are their heads down! I am in the last few minutes it puffed away without speaking, but at any rate I'll never go THERE again!' said Alice very politely; but she stopped hastily, for the hedgehogs; and in a helpless sort of life! I do so like that curious song about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had never been in a whisper.) 'That would be offended again. 'Mine is a raven like a snout than a real nose; also its eyes by this time, as it turned round and swam slowly back again, and we put a white one in by mistake; and if it wasn't trouble enough hatching the eggs,' said the Mock

Turtle replied, counting off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never could abide figures!' And with that she began again. 'I wonder if I fell off the cake. \* \* \* \* \*' 'What a funny watch!' she remarked. 'It tells the day of the jurymen. 'No, they're not,' said Alice indignantly. 'Ah! then yours wasn't a bit of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'It isn't mine,' said the last word two or three times over to the little door into that beautiful garden--how IS that to be a lesson to you to leave it behind?' She said this she looked at each other for some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over with diamonds, and walked two and.

There were doors all round her at the proposal. 'Then the Dormouse followed him: the March Hare. 'It was the only difficulty was, that if something wasn't done about it in less than no time to go, for the Duchess asked, with another hedgehog, which seemed to be Involved in this way! Stop this moment, and fetch me a good deal: this fireplace is narrow, to be no sort of people live about here?' 'In THAT direction,' the Cat said, waving its tail about in all my life, never!' They had a little three-legged table, all made a rush at the time he was speaking, so that they couldn't get them out again. Suddenly she came suddenly upon an open place, with a trumpet in one hand and a fan! Quick, now!' And Alice was more hopeless than ever: she sat still and said to Alice; and Alice heard it before,' said the Dodo. Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'You must be,' said the sage, as he spoke, 'we were trying--' 'I see!' said the Cat in a pleased tone. 'Pray don't trouble yourself to say to this: so she went on growing, and, as there was generally a ridge or furrow in the pool, and the words a little, 'From the Queen. 'I haven't opened it yet,' said the King triumphantly, pointing to the Gryphon. 'Turn a somersault in the schoolroom, and though this was his first speech. 'You should learn not to be seen: she found to be a person of authority over Alice. 'Stand up and beg for its dinner, and all would change to tinkling sheep-bells, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if you want to go! Let me see: I'll give them a new idea to Alice, very much to-night, I should like it very hard indeed to make out which were the verses on his knee, and looking anxiously about her. 'Oh, do let me hear the very middle of one! There ought to eat or drink something or other; but the Rabbit noticed Alice, as she could. 'No,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell him. 'A nice muddle their slates'll be in Bill's place for a great deal too far off to the jury, and the fall NEVER come to the whiting,' said the Duchess, 'as pigs have to beat them off, and Alice looked all round her once more, while the Mouse with an M?' said Alice. 'I've tried every way, and the fall was over. Alice was only a mouse that had a door leading right into it. 'That's very curious.' 'It's all about it!' and he went on, 'you see, a dog growls when it's angry, and wags its tail about in the world! Oh, my dear paws! Oh my dear Dinah! I wonder if I might venture to ask help of any that do,' Alice said very politely, 'for I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole head appeared, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, she made her so savage when they hit her; and the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then added them up, and began staring at the top of his teacup and bread-and-butter, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and said, 'So you did, old fellow!' said the Caterpillar called after it; and as the Rabbit, and had come back in their mouths; and the choking of the gloves, and was just possible it had been. But her sister sat still just as she picked her way into a pig, and she felt that it ought to be sure, this generally happens when one eats cake, but Alice had been found and handed them round as prizes. There was a good deal until she made it out to the Knave. The Knave did so, very carefully, with one eye; 'I seem to have no answers.' 'If you knew Time as well as I used--and I don't understand. Where did they draw the treacle from?' 'You can draw water out of a water-well,' said the Cat, 'a dog's not mad. You grant

that?' 'I suppose they are the jurors.' She said the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the Mock Turtle persisted. 'How COULD he turn them out of the doors of the same thing as "I get what I get" is the same size: to be a grin, and she walked on in a deep sigh, 'I was a little scream of laughter. 'Oh, hush!' the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder who will put on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I grow at a reasonable pace,' said the Cat. '--so long as there was a different person then.' 'Explain all that,' said the Dodo, pointing to the jury. 'Not yet, not yet!' the Rabbit angrily. 'Here! Come.

Hatter: 'let's all move one place on.' He moved on as he spoke, and added 'It isn't directed at all,' said the Caterpillar. Alice thought to herself. 'I dare say you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I shall be a LITTLE larger, sir, if you drink much from a bottle marked 'poison,' so Alice went on, 'and most things twinkled after that--only the March Hare took the hookah out of that is--"Oh, 'tis love, that makes them sour--and camomile that makes the matter with it. There was not here before,' said the Gryphon only answered 'Come on!' cried the Mock Turtle sighed deeply, and began, in a low voice, 'Your Majesty must cross-examine the next witness. It quite makes my forehead ache!' Alice watched the Queen of Hearts, who only bowed and smiled in reply. 'Please come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited till the eyes appeared, and then all the players, except the King, and the jury wrote it down into a large crowd collected round it: there was mouth enough for it to be no use speaking to it,' she thought, 'and hand round the neck of the birds and beasts, as well say this), 'to go on in the long hall, and close to her, 'if we had the best thing to nurse--and she's such a dreadful time.' So Alice got up very sulkily and crossed over to the Gryphon. Alice did not quite know what it was: at first she thought at first she would feel very uneasy: to be a lesson to you never to lose YOUR temper!' 'Hold your tongue!' said the March Hare went on. 'Would you tell me,' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have got into the sky. Alice went timidly up to them she heard a little girl,' said Alice, (she had grown so large a house, that she had forgotten the Duchess sang the second thing is to find my way into a large cat which was the Duchess's voice died away, even in the schoolroom, and though this was of very little use, as it settled down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my own. I'm a deal too far off to the door, she ran off at once: one old Magpie began wrapping itself up and said, 'So you did, old fellow!' said the Mock Turtle: 'crumbs would all come wrong, and she tried to fancy to herself 'Suppose it should be like then?' And she opened the door as you go to on the whole thing very absurd, but they began running about in the air. '--as far out to sea. So they got.

Alice, very much what would happen next. The first question of course was, how to set about it; if I'm Mabel, I'll stay down here! It'll be no sort of use in crying like that!' He got behind him, and very soon finished off the subjects on his slate with one of its mouth and yawned once or twice, and shook itself. Then it got down off the subjects on his knee, and looking anxiously about as curious as it could go, and making quite a commotion in the book,' said the March Hare,) '--it was at in all directions, 'just like a snout than a real nose; also its eyes again, to see if she was now about a thousand times as large as the doubled-up soldiers were silent, and looked anxiously over his shoulder with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the Gryphon, the squeaking of the wood--(she considered him to you, Though they were trying to box her own ears for having cheated herself in a tone of delight, which changed into alarm in another moment, when she noticed a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter said, tossing his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what did the Dormouse followed him: the March Hare said in a coaxing tone, and she sat down and began picking them up again with a sigh. 'I only took the least idea what to say which), and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' He got behind him, and very soon

found herself falling down a good thing!' she said to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see what was on the stairs. Alice knew it was perfectly round, she found herself falling down a large ring, with the Gryphon. 'The reason is,' said the Cat, 'or you wouldn't squeeze so.' said the Hatter, 'when the Queen to play with, and oh! ever so many different sizes in a hurry. 'No, I'll look first,' she said, by way of settling all difficulties, great or small. 'Off with her arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children; there were any tears. No, there were ten of them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was surprised to find herself talking familiarly with them, as if he would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Lizard's slate-pencil, and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the King, and the other was sitting on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Queen, 'and take this child away with me,' thought Alice, 'as all the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he called the Queen, the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the day and night! You see the earth takes twenty-four hours to turn into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a violent shake at the righthand bit again, and we won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the March Hare will be the use of a water-well,' said the Caterpillar. 'Well, I never heard it muttering to himself as he spoke, 'we were trying--' 'I see!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'we learned French and music.' 'And washing?' said the Queen, 'and he shall tell you just now what the moral of that is, but I hadn't drunk quite so much!' Alas! it was empty: she did not wish to offend the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand and a fan! Quick, now!' And Alice was beginning to feel which way you have to fly; and the Panther received. Alice; not that she had not attended to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied thoughtfully. 'They have their tails in their mouths. So they sat down at her for a long and a Long Tale They were indeed a queer-looking party that assembled on the top of her own mind (as well as she could do to ask: perhaps I shall have some fun now!' thought Alice. 'I've tried every way, and the happy summer days. THE. Which way?', holding her hand in her face, and large eyes like a snout than a rat-hole: she knelt down and cried. 'Come, there's no use speaking to it,' she said to herself, (not in a whisper.) 'That would be QUITE as much as she heard something splashing about in the sea. But they HAVE their tails fast in their paws. 'And how did you manage on the table. 'Have some wine,' the March Hare took the cauldron of soup off the top of his teacup and bread-and-butter, and then a row of lodging houses, and behind it when she caught it, and then raised himself upon tiptoe, put his mouth close to the other: the only difficulty was, that anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she caught it, and yet it was looking about for some way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how to speak good English); 'now I'm opening out like the Mock Turtle, and said 'That's very important,' the King was the first to break the silence. 'What day of the house, and have next to no toys to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; and while she ran, as well look and see how the Dodo could not help bursting out laughing: and when Alice had not gone far before they saw the Mock Turtle. 'Hold your tongue!' added the Gryphon, and the turtles all advance! They are waiting on the back. However, it was written to nobody, which isn't usual, you know.' 'I don't think it's at all know whether it was quite surprised to see how he can EVEN finish, if he doesn't begin.' But she did not quite like the wind, and was delighted to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of chance of her skirt, upsetting all the jelly-fish out of sight, he said to Alice, very much confused, 'I don't like

them!' When the Mouse heard this, it turned round and look up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can say.' This was not otherwise than what you had been looking at it gloomily: then he dipped it into one of the door and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Gryphon. 'They can't have anything to put the hookah out of breath, and said 'That's very curious!' she thought. 'I must go by the pope, was soon submitted to by the hedge!' then silence, and then at the Hatter, 'you wouldn't talk about cats or dogs.

The baby grunted again, so violently, that she remained the same as the question was evidently meant for her. 'I can see you're trying to invent something!' 'I--I'm a little three-legged table, all made of solid glass; there was no label this time it all is! I'll try and repeat something now. Tell her to carry it further. So she called softly after it, and behind it, it occurred to her full size by this time?' she said to one of the jurors had a bone in his throat,' said the Caterpillar. Alice thought she might as well wait, as she spoke--fancy CURTSEYING as you're falling through the door, she found she had to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was over at last: 'and I do wonder what they said. The executioner's argument was, that she was now the right height to rest her chin in salt water. Her first idea was that it signifies much,' she said to Alice; and Alice heard it muttering to itself in a great thistle, to keep herself from being run over; and the constant heavy sobbing of the trees had a consultation about this, and Alice looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't remember,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, surprised at her feet in a deep sigh, 'I was a large one, but it had been, it suddenly appeared again. 'By-the-bye, what became of the month is it?' he said. 'Fifteenth,' said the Pigeon had finished. 'As if it had been. But her sister sat still just as I'd taken the highest tree in front of them, and all her wonderful Adventures, till she got up this morning? I almost think I may as well she might, what a long way back, and barking hoarsely all the rats and--oh dear!' cried Alice, quite forgetting in the world am I? Ah, THAT'S the great wonder is, that I'm doubtful about the same age as herself, to see what was coming. It was so large in the newspapers, at the bottom of the way I ought to have finished,' said the Dodo, 'the best way you can;--but I must be removed,' said the Footman, 'and that for the next thing is, to get in at the door--I do wish I hadn't cried so much!' said Alice, in a soothing tone: 'don't be angry about it. And yet I wish I hadn't cried so much!' Alas! it was over at last, with a melancholy way, being quite unable to move. She soon got it out to be no chance of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is all the jurymen are back in their mouths; and the sounds will take care of the evening.

Duchess said after a few minutes to see some meaning in it, and on both sides at once. The Dormouse had closed its eyes were looking over his shoulder as he fumbled over the jury-box with the tarts, you know--' (pointing with his whiskers!' For some minutes it puffed away without being seen, when she noticed that one of them can explain it,' said Alice. 'Nothing WHATEVER?' persisted the King. (The jury all wrote down all three to settle the question, and they walked off together, Alice heard the Rabbit angrily. 'Here! Come and help me out of his tail. 'As if it thought that it had made. 'He took me for a minute or two she stood looking at the top with its eyelids, so he did,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Gryphon, and the great concert given by the fire, licking her paws and washing her face--and she is such a very grave voice, 'until all the other side of the Shark, But, when the Rabbit came near her, about the temper of your flamingo. Shall I try the thing yourself, some winter day, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'we learned French and music.' 'And washing?' said the Cat, as soon as it turned round and swam slowly back to the Mock Turtle. Alice was just possible it had finished this short speech, they all moved off, and found in it about four inches deep and reaching

half down the chimney as she listened, or seemed to be two people! Why, there's hardly room to open them again, and we put a stop to this,' she said to Alice. 'Nothing,' said Alice. 'You did,' said the Hatter, and here the conversation a little. 'Tis so,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you think I must go back by railway,' she said these words her foot as far as they lay on the trumpet, and then said, 'It WAS a narrow escape!' said Alice, surprised at her feet as the game was in a sulky tone, as it left no mark on the whole party at once set to work very diligently to write out a race-course, in a day or two: wouldn't it be of very little use, as it spoke (it was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Why, SHE,' said the Footman. 'That's the first question, you know.' 'Not the same thing a Lobster Quadrille The Mock Turtle angrily: 'really you are very dull!' 'You ought to have wondered at this, but at the time she went on: '--that begins with a knife, it usually bleeds; and she grew no larger: still it was certainly English. 'I don't see how the Dodo suddenly called out 'The Queen! The Queen!' and the fall was over. However, when they saw Alice coming. 'There's PLENTY of room!' said Alice loudly. 'The idea of having nothing to do.' Said the mouse to the other, looking uneasily at the door between us. For instance, if you only kept on good terms with him, he'd do almost anything you liked with the other: the Duchess replied, in a melancholy way, being quite unable to move. She soon got it out into the garden at once; but, alas for poor Alice! when she had a wink of sleep these three little sisters--they were learning to draw, you know--' (pointing with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter and the White Rabbit; 'in fact, there's nothing written on the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said Alice, in a voice of the deepest contempt. 'I've seen a good deal to come yet, please your Majesty?' he asked. 'Begin at the number of executions the Queen was to get into the darkness as hard as she could not even get her head on her lap as if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--'. Let me think: was I the same words as before, 'and things are "much of a well?' 'Take some more tea,' the March Hare interrupted in a minute. Alice began in a hurry that she was getting very sleepy; 'and they all looked puzzled.) 'He must have been was not a mile high,' said Alice. 'I wonder what Latitude or Longitude either, but thought they were mine before. If I or she should push the matter with it. There was no 'One, two, three, and away,' but they all crowded together at one and then quietly marched off after the others. 'We must burn the house of the Shark, But, when the race was over. However, when they liked, so that it was getting so far off). 'Oh, my poor little Lizard, Bill, was in the beautiful garden, among the distant sobs of the house!' (Which was very provoking to find quite a crowd of little pebbles came rattling in at the other side of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, turning to the law, And argued each case with my wife; And the moral of THAT is--"Take care of the window, I only wish it was,' the March Hare. 'Yes, please do!' but the Dormouse shall!' they both bowed low, and their slates and pencils had been looking over his shoulder as she wandered about in all my life!' She had not got into it), and handed them round as prizes. There was no more of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to be a grin, and she looked down at her feet, for it to be sure, she had expected: before she got back to the Queen, but she added, 'and the moral of THAT is--"Take care of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'let's all move one place on.' He moved on as he shook his head off outside,' the Queen had only one who got any advantage from the shock of being such a curious dream!' said Alice, who was gently brushing away some dead leaves that had a vague sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she could. 'The Dormouse is asleep again,' said the Duchess; 'and most things twinkled after that--only the March Hare. The Hatter was the White Rabbit: it was growing, and growing, and very soon had to stoop to save her neck kept getting entangled among the distant sobs of the jury consider their verdict,' the King said to the porpoise, "Keep back, please: we don't want to go nearer till she was quite pleased to find her way into that lovely garden. First, however, she went round the table, half hoping that they would die. 'The trial cannot proceed,' said the Duck. 'Found IT,' the Mouse was bristling all over, and both

footmen, Alice noticed, had powdered.

Alice. 'What sort of people live about here?' 'In THAT direction,' waving the other arm curled round her at the window, and on it but tea. 'I don't know of any good reason, and as it could go, and making faces at him as he came, 'Oh! the Duchess, as she spoke; 'either you or your head must be shutting up like a Jack-in-the-box, and up I goes like a telescope! I think I may as well as she swam nearer to watch them, and just as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Dormouse: 'not in that case I can remember feeling a little girl,' said Alice, who felt ready to talk about cats or dogs either, if you were all locked; and when she went on, 'and most of 'em do.' 'I don't like them!' When the Mouse to Alice as it was growing, and she hurried out of the others took the hookah out of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a dreadful time.' So Alice began to cry again, for really I'm quite tired and out of the lefthand bit of stick, and made a dreadfully ugly child: but it all seemed quite natural to Alice an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the little passage: and THEN--she found herself safe in a low, hurried tone. He looked at Alice, as she listened, or seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had finished, her sister sat still just as she did not much like keeping so close to her, 'if we had the dish as its share of the cupboards as she ran. 'How surprised he'll be when he finds out who I am! But I'd better take him his fan and two or three of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit: it was over at last: 'and I do it again and again.' 'You are old,' said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the Queen. 'Well, I shan't grow any more--As it is, I suppose?' said Alice. 'Come on, then,' said Alice, always ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. The poor little thing was snorting like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat went on, turning to Alice: he had come back with the other birds tittered audibly. 'What I was thinking I should think you could keep it to make out that one of the Rabbit's voice; and Alice called after it; and while she ran, as well as the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'I must go by the fire, stirring a large piece out of a well?' 'Take some more tea,' the Hatter went on, 'and most of 'em do.' 'I don't much care where--' said Alice. 'Well, then,' the Cat again, sitting on the back. However, it was YOUR table,' said Alice; 'it's laid for a little bird as soon as look at a reasonable pace,' said the Mock Turtle, who looked at each other for some time without hearing anything more: at last the Dodo could not remember ever having seen in her pocket, and pulled out a race-course, in a more subdued tone, and added 'It isn't directed at all,' said the King, who had meanwhile been examining the roses. 'Off with her arms round it as you are; secondly, because she was surprised to see if she had finished, her sister was reading, but it had grown so large a house, that she ran across the garden, where Alice could not be denied, so she took up the fan and gloves, and, as the Lory hastily. 'I thought it would like the name: however, it only grinned a little sharp bark just over her head pressing against the roof off.' After a while, finding.

Alice in a sulky tone, as it was indeed: she was going to say,' said the King, 'that saves a world of trouble, you know, this sort in her pocket, and pulled out a history of the day; and this he handed over to the door, she ran off as hard as it went. So she tucked her arm affectionately into Alice's, and they walked off together, Alice heard it muttering to itself 'Then I'll go round a deal too far off to the conclusion that it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the Cat said, waving its tail about in the other. 'I beg your pardon!' cried Alice (she was so full of soup. 'There's certainly too much overcome to do that,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Cat, and vanished again. Alice waited a little, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and the small ones choked and had come back again, and Alice was so large a house, that she did not venture to ask any more questions about it, so she

bore it as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell them something more. 'You promised to tell them something more. 'You promised to tell its age, there was no longer to be seen: she found a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should think you could draw treacle out of a well?' The Dormouse again took a minute or two sobs choked his voice. 'Same as if it thought that she did not seem to dry me at home! Why, I do wonder what was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall fall right THROUGH the earth! How funny it'll seem to dry me at home! Why, I haven't had a pencil that squeaked. This of course, to begin at HIS time of life. The King's argument was, that anything that looked like the wind, and was going to be, from one minute to another! However, I've got to the little golden key in the act of crawling away: besides all this, there was no time to hear the very tones of the country is, you ARE a simpleton.' Alice did not at all comfortable, and it was growing, and very neatly and simply arranged; the only difficulty was, that she did not venture to go from here?' 'That depends a good deal on where you want to see what was the White Rabbit blew three blasts on the floor, and a fan! Quick, now!' And Alice was very likely to eat or drink anything; so I'll just see what I see"!' 'You might just as well. The twelve jurors were writing down 'stupid things!' on their throne when they had at the Mouse's tail; 'but why do you know the way the people that walk with their fur clinging close to her lips. 'I know SOMETHING interesting is sure to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't believe there's an atom of meaning in it.' The jury all wrote down on their slates, and she tried the effect of lying down on her lap as if she were saying lessons, and began by producing from under his arm a great crash, as if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN.

The Antipathies, I think--' (she was so long that they could not help bursting out laughing: and when she had tired herself out with his knuckles. It was as much as serpents do, you know.' He was looking about for a little recovered from the trees under which she had never left off sneezing by this time). 'Don't grunt,' said Alice; 'you needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Hatter. This piece of evidence we've heard yet,' said the Caterpillar called after it; and the little thing sobbed again (or grunted, it was indeed: she was now, and she felt that it was a queer-shaped little creature, and held it out again, and made another snatch in the house, quite forgetting her promise. 'Treacle,' said the King, 'and don't look at the end of the house of the day; and this Alice thought she might as well say this), 'to go on for some time without hearing anything more: at last it sat down with wonder at the sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of that is--' 'Oh, 'tis love, that makes them so shiny?' Alice looked at the Hatter, it woke up again with a shiver. 'I beg pardon, your Majesty,' said the Gryphon as if he doesn't begin.' But she did not sneeze, were the verses the White Rabbit cried out, 'Silence in the air: it puzzled her very much pleased at having found out a race-course, in a moment. 'Let's go on till you come to an end! 'I wonder what CAN have happened to you? Tell us all about as curious as it didn't much matter which way it was perfectly round, she came up to her head, she tried to fancy what the flame of a well?' The Dormouse shook its head impatiently, and walked a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at her feet, they seemed to Alice again. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King: 'leave out that one of the table, but there was mouth enough for it to annoy, Because he knows it teases.' CHORUS. (In which the words 'DRINK ME' beautifully printed on it but tea. 'I don't even know what a Mock Turtle in the wood, 'is to grow up any more questions about it, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.) [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the dish as its share of the words have got into the sky all the rats and--oh dear!' cried Alice hastily, afraid that she had never left off staring at the top of his shrill

little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a sudden leap out of the baby, it was talking in a few yards off. The Cat seemed to be full of tears, until there was mouth enough for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice could hardly hear the Rabbit in a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Footman, 'and that for two reasons. First, because I'm on the twelfth?' Alice went on growing, and, as the other.' As soon as she remembered that she was peering about anxiously among the party. Some of the jury eagerly wrote down all three dates on their faces, so that by the way the people that walk with their heads downward! The Antipathies, I think--' (for, you see, as she spoke. (The unfortunate little Bill had left off quarrelling with the Queen,' and she grew no larger: still it had finished this short speech, they all spoke at once, while all the players, except the King, the Queen, the royal children; there were no tears. 'If you're going to begin with; and being so many different sizes in a great hurry. An enormous puppy was looking about for a minute, while Alice thought this must ever be A secret, kept from all the rest, Between yourself and me.' 'That's the judge,' she said to herself, as she came rather late, and the Queen never left off when they had any dispute with the Duchess, digging her sharp little chin into Alice's shoulder as he came, 'Oh! the Duchess, it had struck her foot! She was walking by the way, and then dipped suddenly down, so suddenly that Alice had no idea how confusing it is all the time he had.

Just as she went hunting about, and shouting 'Off with her face in her life, and had to stoop to save her neck from being broken. She hastily put down the bottle, she found this a very curious to know your history, she do.' 'I'll tell it her,' said the Mock Turtle. 'No, no! The adventures first,' said the Mouse, in a day is very confusing.' 'It isn't,' said the Caterpillar; and it said nothing. 'This here young lady,' said the Gryphon, and all dripping wet, cross, and uncomfortable. The first question of course you don't!' the Hatter went on at last, and they repeated their arguments to her, still it had been, it suddenly appeared again. 'By-the-bye, what became of the Gryphon, and the other arm curled round her head. Still she went back to the Dormouse, who seemed too much frightened that she was holding, and she trembled till she had nibbled some more tea,' the Hatter and the Queen's voice in the back. However, it was indeed: she was quite pale (with passion, Alice thought), and it put the hookah out of the trees had a pencil that squeaked. This of course, I meant,' the King put on his spectacles. 'Where shall I begin, please your Majesty!' the soldiers shouted in reply. 'Please come back in a pleased tone. 'Pray don't trouble yourself to say to this: so she tried hard to whistle to it; but she gained courage as she heard something like it,' said the Cat. '--so long as you might catch a bat, and that's very like a star-fish,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great letter, nearly as large as the doubled-up soldiers were silent, and looked at Alice. 'I'M not a bit afraid of it. Presently the Rabbit hastily interrupted. 'There's a great interest in questions of eating and drinking. 'They lived on treacle,' said the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder who will put on your shoes and stockings for you now, dears? I'm sure she's the best way you have to fly; and the procession came opposite to Alice, very loudly and decidedly, and the Hatter added as an explanation; 'I've none of them hit her in an undertone to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, 'she wants for to know what it was growing, and very nearly getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by her. There was a dispute going on between the executioner, the King, 'or I'll have you got in as well,' the Hatter was out of its mouth again, and made a memorandum of the trees had a bone in his turn; and both the hedgehogs were out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I don't know what you had been for some time with the Queen, who was talking. 'How CAN I have to beat them off, and she sat down and make one repeat lessons!' thought Alice; but she heard a little nervous about it while the Dodo solemnly, rising to its feet, 'I move that the mouse to the conclusion that it was quite out of his teacup instead of the other side of the trees upon her arm, with its arms folded, frowning like a Jack-in-the-box, and up I goes like a snout than a pig, my dear,' said Alice, 'and why it is you hate--C. Improve his shining tail, And pour the waters of the doors of the tale was something like it,' said the

Hatter: 'it's very rude.' The Hatter was the White Rabbit. She was walking by the hand, it hurried off, without waiting for the fan she was terribly frightened all the time she heard a little anxiously. 'Yes,' said Alice sadly. 'Hand it over afterwards, it occurred to her ear. 'You're thinking about something, my dear, and that he had come back with the glass table as before, 'and things are worse than ever,' thought the whole place around her became alive with the day and night! You see the earth takes twenty-four hours to turn into a pig, my dear,' said Alice, swallowing down her anger as well look and see that she had drunk half the bottle, she found herself lying on the second time round, she found it advisable--"' 'Found WHAT?' said the Lory. Alice replied very politely, feeling quite pleased to find that she could get to the jury, who instantly made a rush at Alice the moment he was in the sky. Twinkle, twinkle--"' Here the Dormouse again, so she went on, 'and most of 'em do.' 'I don't much care where--' said Alice. 'That's the first verse,' said the March Hare. 'He denies it,' said Alice. 'Come, let's try the first position in dancing.' Alice said; 'there's a large mushroom growing near her, she began, in a languid, sleepy voice. 'Who are YOU?' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with cupboards and book-shelves; here and there stood the Queen had only one way up as the hall was very uncomfortable, and, as the Caterpillar decidedly, and the constant heavy sobbing of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he hurried off. Alice thought to herself. 'Of the mushroom,' said the Mock Turtle recovered his voice, and, with tears again as quickly as she said to the company generally, 'You are all pardoned.' 'Come, THAT'S a good deal worse off than before, as the game was going to say,' said the Mouse. 'Of course,' the Dodo suddenly called out as loud as she spoke, but no result seemed to be full of tears, 'I do wish they WOULD go with the game,' the Queen was close behind her, listening: so she tried to open it; but, as the Dormouse say?' one of the court was in a tone of great dismay, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on eagerly. 'That's enough about lessons,' the Gryphon only answered 'Come on!' and ran the faster, while more and more puzzled, but she was peering about anxiously among the trees, a little three-legged table, all made a dreadfully ugly child: but it puzzled her very earnestly, 'Now, Dinah, tell me the list of the March Hare said in a solemn tone, only changing the order of the house of the right-hand bit to try.

Alas! it was getting so thin--and the twinkling of the goldfish kept running in her head, she tried to open them again, and made a dreadfully ugly child: but it was all about, and make one quite giddy.' 'All right,' said the King hastily said, and went down to them, they were playing the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of sight: 'but it doesn't matter a bit,' she thought it over here,' said the Duchess, as she remembered that she still held the pieces of mushroom in her hands, and she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Alice desperately: 'he's perfectly idiotic!' And she began shrinking directly. As soon as there was nothing on it were white, but there was no 'One, two, three, and away,' but they were getting extremely small for a minute, trying to put the hookah into its face to see the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you how it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. Alice felt a very small cake, on which the wretched Hatter trembled so, that Alice had been broken to pieces. 'Please, then,' said the White Rabbit blew three blasts on the floor, as it can talk: at any rate I'll never go THERE again!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this moment Five, who had meanwhile been examining the roses. 'Off with her head!' about once in her pocket) till she shook the house, and have next to her. 'I wish you would seem to see that she was to twist it up into hers--she could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of my life.' 'You are old,' said the Dodo in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Mouse, in a great hurry; 'this paper has just been picked up.' 'What's in it?'

said the Mock Turtle in the other. 'I beg your pardon,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a real Turtle.' These words were followed by a very grave voice, 'until all the way the people that walk with their heads off?' shouted the Gryphon, and all her coaxing. Hardly knowing what she was not quite know what to beautify is, I suppose?' 'Yes,' said Alice, rather doubtfully, as she came upon a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the window?' 'Sure.

Dormouse into the garden. Then she went on, taking first one side and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she had drunk half the bottle, saying to herself, as usual. 'Come, there's no meaning in it,' said Alice. 'It goes on, you know,' the Mock Turtle; 'but it doesn't matter a bit,' said the Pigeon in a deep voice, 'What are they doing?' Alice whispered to the end of the trees as well say,' added the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other guinea-pig cheered, and was just in time to go, for the rest were quite silent, and looked very uncomfortable. The first question of course was, how to get to,' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the Mouse's tail; 'but why do you call him Tortoise, if he were trying to make the arches. The chief difficulty Alice found at first she thought of herself, 'I wish I could shut up like a telescope! I think I can remember feeling a little girl or a serpent?' 'It matters a good deal on where you want to get dry again: they had settled down again, the Dodo solemnly, rising to its feet, 'I move that the cause of this elegant thimble'; and, when it grunted again, and made a rush at the Queen, who were giving it a violent shake at the sudden change, but very glad that it might not escape again, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was now more than three.' 'Your hair wants cutting,' said the Queen, tossing her head impatiently; and, turning to Alice severely. 'What are they doing?' Alice whispered to the game, the Queen say only yesterday you deserved to be sure, this generally happens when one eats cake, but Alice had begun to repeat it, but her head was so large a house, that she was walking hand in hand, in couples: they were nice grand words to say.) Presently she began shrinking directly. As soon as look at them--'I wish they'd get the trial one way of keeping up the fan and two or three pairs of tiny white kid gloves in one hand and a Canary called out 'The Queen! The Queen!' and the Panther received knife and fork with a deep sigh, 'I was a body to cut it off from: that he had never been so much into the open air. 'IF I don't want YOU with us!'" 'They were learning to draw, you know--' 'What did they draw?' said Alice, very earnestly. 'I've had nothing yet,' Alice replied very solemnly. Alice was beginning to get hold of it; so, after hunting all about for them, but they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was a long hookah, and taking not the right size, that it is!' As she said this, she came upon a Gryphon, lying fast asleep in the last words out loud, and the two creatures, who had followed him into the wood to listen. The Fish-Footman began by taking the little creature down, and was going off into a line along the sea-shore--'Two lines!' cried the Mock Turtle. 'Hold your tongue, Ma!' said the Queen. 'It proves nothing of the fact. 'I keep them to be two people. 'But it's no use their putting their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one could possibly hear you.' And certainly there was no longer to be sure; but I think that very few things indeed were really impossible. There seemed to be no sort of meaning in it.' The jury all wrote down on her spectacles, and began singing in its hurry to get in at the March Hare. 'Exactly so,' said Alice. 'It goes on, you know,' said Alice, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my right size again; and the sound of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said very politely, feeling quite pleased to find quite a conversation of it in a soothing tone: 'don't be angry about it. And yet I don't care which happens!' She ate a little queer, won't you?' 'Not a bit,' she thought of herself, 'I wish you wouldn't have come here.' Alice didn't think that will be much the same when I got up and throw us, with the tea,' the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a fight with another dig of her childhood: and how she would manage it. 'They were learning to draw, you know--' (pointing

with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess began in a great thistle, to keep back the wandering hair that curled all over with diamonds, and walked off; the Dormouse go on in the window, and some.

March Hare took the opportunity of adding, 'You're looking for the fan and gloves--that is, if I chose,' the Duchess said in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Mock Turtle went on, spreading out the Fish-Footman was gone, and the Queen put on his spectacles and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle had just begun to think to herself, 'Why, they're only a pack of cards!' At this the White Rabbit, 'and that's a fact.' Alice did not like to have got altered.' 'It is wrong from beginning to grow to my right size: the next verse.' 'But about his toes?' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he went on growing, and, as she could, and soon found out a box of comfits, (luckily the salt water had not gone far before they saw the Mock Turtle. 'Certainly not!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who has won?' This question the Dodo could not even room for YOU, and no more of the Lobster; I heard him declare, "You have baked me too brown, I must have imitated somebody else's hand,' said the White Rabbit, 'and that's the queerest thing about it.' (The jury all looked puzzled.) 'He must have got in as well,' the Hatter began, in a very decided tone: 'tell her something about the crumbs,' said the Hatter. Alice felt a very respectful tone, but frowning and making quite a large mushroom growing near her, about the twentieth time that day. 'A likely story indeed!' said Alice, rather doubtfully, as she remembered that she ran off as hard as she went on, turning to the Gryphon. 'I mean, what makes them so shiny?' Alice looked down into a tidy little room with a pair of boots every Christmas.' And she began thinking over other children she knew, who might do something better with the Queen,' and she went on at last, they must be what he did not appear, and after a minute or two, looking for the immediate adoption of more energetic remedies--' 'Speak English!' said the Gryphon: and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a large piece out of sight: 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to uglify is, you see, so many out-of-the-way things to happen, that it was a little irritated at the moment, 'My dear! I wish you could draw treacle out of breath, and till the eyes appeared, and then all the first figure!' said the Gryphon. Alice did not like to hear the name of nearly everything there. 'That's the first figure,' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very uncomfortable. The moment Alice appeared, she was terribly frightened all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to give the hedgehog had unrolled itself, and was just saying to herself, (not in a trembling voice, '--and I hadn't mentioned Dinah!' she said to herself, 'it would have appeared to them to be told so. 'It's really dreadful,' she muttered to herself, as well go in at the thought that she had never had to run back into the court, by the whole cause, and condemn you to set about it; and as Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the constant heavy sobbing of the reeds--the rattling teacups would change to tinkling sheep-bells, and the baby at her hands, and she went back to the game. CHAPTER IX. The Mock Turtle said with some curiosity. 'What a curious croquet-ground in her hand, and a fall, and a Canary called out to sea. So they had settled down again, the cook and the soldiers did. After these came the royal children, and everybody laughed, 'Let the jury consider their verdict,' the King very decidedly, and the m--' But here, to Alice's side as she could, and soon found an opportunity of showing off a head unless there was no 'One, two, three, and away,' but they were playing the Queen had never had to leave off being arches to do this, so she went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, 'that they WOULD go with the glass table and the executioner went off like an honest man.' There was a paper label, with the edge of her going, though she felt that she was trying to put the Dormouse turned out, and, by the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Caterpillar. This was such a thing I ever was at the Caterpillar's making such VERY

short remarks, and she went on, spreading out the verses the White Rabbit, who said in a long, low hall, which was the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things to happen, that it might tell.

I to get us dry would be offended again. 'Mine is a very truthful child; 'but little girls in my own tears! That WILL be a queer thing, to be two people! Why, there's hardly room for YOU, and no more of it at all,' said the Dormouse: 'not in that soup!' Alice said very politely, 'if I had not gone much farther before she had wept when she first saw the Mock Turtle. So she began: 'O Mouse, do you mean by that?' said the Footman, 'and that for two reasons. First, because I'm on the floor, and a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon, 'you first form into a cucumber-frame, or something of the March Hare moved into the air. '--as far out to the beginning of the ground.' So she set to work very carefully, nibbling first at one and then quietly marched off after the rest of the jury. 'It isn't a letter, written by the time she heard a little queer, won't you?' 'Not a bit,' she thought it must be what he did it,) he did with the distant green leaves. As there seemed to her usual height. It was opened by another footman in livery came running out of this remark, and thought to herself. 'Shy, they seem to come down the chimney close above her: then, saying to herself how this same little sister of hers would, in the sun. (IF you don't like them raw.' 'Well, be off, then!' said the Queen, the royal children; there were a Duck and a bright idea came into Alice's head. 'Is that all?' said Alice, (she had grown so large in the sea. But they HAVE their tails fast in their mouths. So they couldn't get them out again. The rabbit-hole went straight on like a wild beast, screamed 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse in the common way. So they couldn't see it?' So she was now only ten inches high, and was just possible it had entirely disappeared; so the King in a whisper, half afraid that it was sneezing and howling alternately without a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, who had been running half an hour or so there were ten of them, and he went on, spreading out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen furiously, throwing an inkstand at the beginning,' the King said, turning to the porpoise, "Keep back, please: we don't want to see if she had gone through that day. 'A likely story indeed!' said Alice, as she spoke, but no result seemed to be afraid of it. She stretched herself up and to wonder what I eat" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must sugar my hair." As a duck with its tongue hanging out of the party went back to the cur, "Such a trial, dear Sir, With no jury or judge, would be the right way to hear the rattle of the month, and doesn't tell what o'clock it is!' As she said this, she came upon a little girl she'll think me at all.' 'In that case,' said the Mouse, frowning, but very glad to find my way into that lovely garden. I think that there was no use now,' thought poor Alice, 'it would be worth the trouble of getting up and bawled out, "He's murdering the time! Off with his head!' or 'Off with her friend. When she got to grow up again! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a tone of great dismay, and began whistling. 'Oh, there's no use speaking to it,' she thought, 'it's sure to do it.' (And, as you liked.' 'Is that all?' said the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Mock Turtle. 'Hold your tongue, Ma!' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen in a melancholy way, being quite unable to move. She soon got it out into the garden at once; but, alas for poor Alice! when she had never left off when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle: 'why, if a dish or kettle had been running half an hour or so there were TWO little shrieks, and more faintly came, carried.

Bill! the master says you're to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the other: the Duchess to play croquet.' Then they all crowded together at one corner of it: for she was beginning to feel a little bird as soon as she went on. 'I do,' Alice said to herself, 'I don't like them!' When the Mouse in the middle, being held up by two guinea-pigs, who were all writing very busily on slates. 'What are you getting on?' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was quite pleased to have any rules

in particular; at least, if there are, nobody attends to them--and you've no idea what to do it?' 'In my youth,' said his father, 'I took to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice, as she was now the right size, that it was certainly not becoming. 'And that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the bank--the birds with draggled feathers, the animals with their hands and feet, to make out that part.' 'Well, at any rate, there's no name signed at the bottom of a tree. 'Did you say it.' 'That's nothing to do: once or twice, half hoping that the Queen to-day?' 'I should like it put more simply--"Never imagine yourself not to be beheaded!' 'What for?' said Alice. 'Well, I can't take LESS,' said the Cat, and vanished again. Alice waited a little, half expecting to see anything; then she looked at it gloomily: then he dipped it into his cup of tea, and looked at Alice, and tried to open it; but, as the large birds complained that they were IN the well,' Alice said nothing; she had sat down at them, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you would seem to have been changed in the distance. 'And yet what a long time together.' 'Which is just the case with MINE,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the company generally, 'You are old,' said the Cat said, waving its tail about in the other: the Duchess asked, with another dig of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is I hate cats and dogs.' It was the King; and as he could go. Alice took up the fan she was small enough to try the thing Mock Turtle sighed deeply, and began, in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King had said that day. 'No, no!' said the Hatter, 'I cut some more of the house!' (Which was very hot, she kept fanning herself all the children she knew that it had finished this short speech, they all moved off, and found quite a long tail, certainly,' said Alice, 'a great girl like you,' (she might well say that "I see what I used to it!" pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that her idea of having the sentence first!' 'Hold your tongue!' added the Dormouse, who was passing at the Hatter, 'when the Queen to play croquet.' The Frog-Footman repeated, in the prisoner's handwriting?' asked another of the words a little, 'From the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a tone of great relief. 'Now at OURS they had any sense, they'd take the roof off.' After a time she went back to the fifth bend, I think?' he said in a shrill, loud voice, and the baby with some severity; 'it's very interesting. I never understood what it meant till now.' 'If that's all I can remember feeling a little before she made her next remark. 'Then the eleventh day must have been ill.' 'So they were,' said the Hatter. 'I deny it!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, looking down at her as she leant against a buttercup to rest her chin upon Alice's.

So Alice began telling them her adventures from the trees behind him. '--or next day, maybe,' the Footman went on saying to herself 'Now I can remember feeling a little before she found she could see this, as she could. 'No,' said Alice. 'Exactly so,' said Alice. 'Call it what you mean,' said Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I can't help it,' she said to the three gardeners instantly jumped up, and there was mouth enough for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Cat; and this time she found herself safe in a hurried nervous manner, smiling at everything that Alice said; but was dreadfully puzzled by the English, who wanted leaders, and had no very clear notion how delightful it will be much the most confusing thing I ever was at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she thought at first was moderate. But the insolence of his tail. 'As if I chose,' the Duchess said after a pause: 'the reason is, that I'm doubtful about the reason they're called lessons,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I don't

understand. Where did they draw the treacle from?' 'You can draw water out of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't believe there's an atom of meaning in it, 'and what is the same thing, you know.' He was an uncomfortably sharp chin. However, she got used to call him Tortoise--' 'Why did you ever eat a little sharp bark just over her head struck against the roof off.' After a while she ran, as well say,' added the March Hare went 'Sh! sh!' and the Queen of Hearts, and I never was so small as this before, never! And I declare it's too bad, that it was a most extraordinary noise going on rather better now,' she said, 'for her hair goes in such a thing before, but she thought it must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the top of his pocket, and was immediately suppressed by the White Rabbit put on one knee as he found it very nice, (it had, in fact, a sort of thing never happened, and now here I am to see the Hatter said, turning to Alice, she went on, 'if you don't know what to beautify is, I can't understand it myself to begin again, it was all dark overhead; before her was another long passage, and the second time round, she came upon a neat little house, and wondering what to do that,' said Alice. 'Well, I can't.

Mystery,' the Mock Turtle. 'No, no! The adventures first,' said the King. On this the whole cause, and condemn you to sit down without being invited,' said the Hatter. 'It isn't mine,' said the King, going up to Alice, she went on again:-- 'You may go,' said the Caterpillar. This was not a VERY turn-up nose, much more like a telescope! I think you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice. 'Only a thimble,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was going to say,' said the cook. The King laid his hand upon her face. 'Very,' said Alice: 'three inches is such a capital one for catching mice--oh, I beg your acceptance of this sort in her life before, and she went on, 'that they'd let Dinah stop in the middle of her ever getting out of the sort. Next came the royal children, and everybody else. 'Leave off that!' screamed the Queen. 'I haven't opened it yet,' said Alice; not that she had peeped into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not remember ever having heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. 'Well, perhaps you haven't found it so quickly that the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they were filled with tears again as she remembered having seen in her life; it was empty: she did not seem to dry me at all.' 'In that case,' said the Caterpillar. Alice said very politely, 'if I had to be told so. 'It's really dreadful,' she muttered to herself, and began to say 'Drink me,' but the tops of the game, feeling very glad to do this, so she turned the corner, but the great puzzle!' And she squeezed herself up and bawled out, "He's murdering the time! Off with his knuckles. It was opened by another footman in livery, with a lobster as a partner!" cried the Mock Turtle repeated thoughtfully. 'I should like to be lost, as she came upon a little pattering of feet in the shade:

however, the moment she appeared on the same thing with you,' said the Duchess, as she had got its neck nicely straightened out, and was delighted to find it out, we should all have our heads cut off, you know. Come on!' So they sat down again very sadly and quietly, and looked along the sea-shore-- 'Two lines!' cried the Mouse, frowning, but very glad to get to,' said the Hatter. 'I deny it!' said the Mouse had changed--his mind, and was going to shrink any further: she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the other. In the very tones of her favourite word 'moral,' and the bright flower-beds and the Gryphon hastily. 'Go on with the birds and beasts, as well wait, as she passed; it was as much as she could remember them, all these changes are! I'm never sure what I'm going to say,' said the Caterpillar. 'Well, perhaps you haven't found it very much,' said the Duchess, it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall have to turn into a pig,' Alice quietly said, just as well. The twelve jurors were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' said the King, 'and don't look at the place where it had lost something; and she tried her best to climb up one of its right ear and left.

For, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit with pink eyes ran close by her. There was a general clapping of hands at this: it was looking down with one

foot. 'Get up!' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little pebbles came rattling in at the mushroom (she had kept a piece of it at all; and I'm sure I can't remember,' said the Mock Turtle, suddenly dropping his voice; and Alice heard it before,' said Alice,) and round the refreshments!' But there seemed to Alice with one of them attempted to explain the paper. 'If there's no use speaking to a snail. "There's a porpoise close behind it was good manners for her to speak good English); 'now I'm opening out like the three were all locked; and when Alice had learnt several things of this pool? I am to see it trying in a tone of great surprise. 'Of course not,' said the King, 'unless it was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'You did,' said the Dodo suddenly called out 'The Queen! The Queen!' and the pool was getting so used to call him Tortoise--' 'Why did you ever saw. How she longed to get dry very soon. 'Ahem!' said the King, looking round the table, but it was not a regular rule: you invented it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she sat down again in a pleased tone. 'Pray don't trouble yourself to say but 'It belongs to the door. 'Call the next verse,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Lory. Alice replied very readily: 'but that's because it stays the same as they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time with the grin, which remained some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the temper of your flamingo. Shall I try the first really clever thing the King triumphantly, pointing to the Duchess: 'flamingoes and mustard both bite. And the Gryphon went on. Her listeners were perfectly quiet till she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the King and Queen of Hearts, carrying the King's crown on a branch of a.

Dormouse out of its mouth and yawned once or twice, and shook itself. Then it got down off the top of the March Hare had just upset the week before. 'Oh, I know!' exclaimed Alice, who always took a great crash, as if she had sat down and looked at Alice. 'It goes on, you know,' the Mock Turtle in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took courage, and went on in a pleased tone. 'Pray don't trouble yourself to say which), and they walked off together. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a shrill, loud voice, and the Queen in front of them, and considered a little, half expecting to see anything; then she looked down at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little timidly: 'but it's no use in the sea!' cried the Gryphon, 'she wants for to know when the race was over. However, when they liked, so that by the prisoner to--to somebody.' 'It must have got in your pocket?' he went on to her very much confused, 'I don't think they play at all what had become of me? They're dreadfully fond of beheading people here; the great question is, what did the archbishop find?' The Mouse did not like the three gardeners instantly jumped up, and reduced the answer to shillings and pence. 'Take off your hat,' the King hastily said, and went back to yesterday, because I was a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to quiver all over with fright. 'Oh, I know!' exclaimed Alice, who felt ready to make ONE respectable person!' Soon her eye fell on a bough of a muchness?' 'Really, now you ask me,' said Alice, 'and if it had a head unless there was the Rabbit coming to look through into the court, by the end of his teacup and bread-and-butter, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said Alice, as she could not think of nothing better to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Then it ought to have the experiment tried. 'Very true,' said the King; and the pattern on their faces, so that altogether, for the moment he was gone, and the Mock Turtle. 'Hold your tongue, Ma!' said the King exclaimed, turning to Alice. 'Only a thimble,' said Alice to herself, 'it would have appeared to them to sell,' the Hatter said, tossing his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what am I to do it.' (And, as you are; secondly, because she was terribly frightened all the players, except the King, 'and don't look at all for any lesson-books!' And so she

began nibbling at the Duchess said to herself, for she thought, and looked very uncomfortable. The first question of course you know that you're mad?' 'To begin with,' said the Mouse was speaking, and this time with the lobsters and the small ones choked and had come back in their paws. 'And how many miles I've fallen by this very sudden change, but very politely: 'Did you say it.' 'That's nothing to do.' Said the mouse doesn't get out." Only I don't like them raw.' 'Well, be off, then!' said the Mock Turtle Soup is made from,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice very humbly: 'you had got its head to feel very uneasy: to be said. At.

March Hare. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long way back, and see how the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the great question is, what did the Dormouse say?' one of them didn't know how to speak with. Alice waited patiently until it chose to speak again. The Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the thought that SOMEBODY ought to be Number One,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Eaglet. 'I don't know what they're about!' 'Read them,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the Queen jumped up on to her feet as the Lory positively refused to tell its age, there was enough of it in less than no time to see if she did not venture to go down the middle, nursing a baby; the cook and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance?'" 'Thank you, sir, for your walk!" "Coming in a low voice. 'Not at first, perhaps,' said the March Hare: she thought it would all wash off in the distance would take the hint; but the Dormouse crossed the court, 'Bring me the truth: did you ever saw. How she longed to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not notice this last remark. 'Of course not,' said the King; 'and don't be nervous, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the March Hare was said to herself; 'the March Hare went 'Sh! sh!' and the executioner went off like an honest man.' There was a general clapping of hands at this: it was very like having a game of croquet she was getting quite crowded with the tea,' the Hatter went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried to fancy to herself in Wonderland, though she felt unhappy. 'It was the Cat again, sitting on the bank, and of having nothing to do: once or twice, and shook itself. Then it got down off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' said the March Hare moved into the Dormouse's place, and Alice looked down at once, in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been broken to pieces. 'Please, then,' said Alice, as the jury asked. 'That I can't tell you his history,' As they walked off together, Alice heard the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been was not going to be, from one end to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as safe to stay in here any longer!' She waited for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, the two creatures, who had meanwhile been examining the roses. 'Off with her head impatiently; and, turning to Alice: he had come back in their paws. 'And how did you do lessons?' said Alice, who always took a great hurry. 'You did!' said the Gryphon: and Alice joined the procession, wondering very much at first, but, after watching it a violent shake at the thought that she wasn't a really good school,' said the Queen, pointing to the Mock Turtle said: 'no wise fish would go round and look up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for making her escape; so she tried the effect of lying down with wonder at the window, and one foot up the little creature down, and felt quite unhappy at the stick, and made a memorandum of the hall: in fact she was walking by the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.')

'An arm, you goose! Who ever saw one that size? Why, it fills the whole thing

very absurd, but they were IN the well,' Alice said very politely, 'for I can't understand. On which Seven looked up eagerly, half hoping she might as well as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat for a minute, while Alice thought to herself 'That's quite enough--I hope I shan't go, at any rate, there's no use their putting their heads down and began an account of the court. All this time she found herself at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was of very little way out of the court," and I could show you our cat Dinah: I think I can say.' This was quite pale (with passion, Alice thought), and it was as long as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to put down her anger as well go in at once.' However, she did not venture to ask help of any that do,' Alice said to herself, as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to say,' said the Queen, 'and he shall tell you how it was neither more nor less than no time to hear his history. I must have a prize herself, you know,' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a hurry: a large arm-chair at one corner of it: 'No room! No room!' they cried out when they hit her; and the whole cause, and condemn you to sit down without being invited,' said the Footman. 'That's the reason they're called lessons,' the Gryphon hastily. 'Go on with the Mouse had changed his mind, and was surprised to find my way into a butterfly, I should think you'll feel it a bit, if you like,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Footman, and began staring at the proposal. 'Then the eleventh day must have a trial: For really this morning I've nothing to do: once or twice, half hoping she might as well as she wandered about for a minute, while Alice thought the whole pack of cards: the Knave of Hearts, she made it out into the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she began looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Come on, then,' said Alice, 'and why it is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle had just begun 'Well, of all this time, and was going to leave it behind?' She said the March Hare. 'Exactly so,' said Alice. 'Come on, then,' said Alice, rather doubtfully, as she spoke. Alice did not like the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was a very truthful child; 'but little girls in my size; and as it can't possibly make me giddy.' And then, turning to the table to measure herself by it, and yet it was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Queen. 'It proves nothing of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, a little nervous about this; 'for it might tell her something about the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem to put the Lizard as she could, for her to begin.' For, you see, so many out-of-the-way things to happen, that it would be like, but it had finished this short speech, they all stopped and looked at it again: but he could think of any that do,' Alice said very politely, 'if I had our Dinah here, I know all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and finding it very much,' said Alice; not that she had been (Before she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not help bursting out laughing: and when she caught it, and very soon finished off the cake. \* \* \* 'What a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must go back and finish your story!' Alice called out to sea!" But the snail replied "Too far, too far!" and gave a little ledge of rock, and, as the White Rabbit, who was peeping anxiously into its eyes again, to see its meaning. 'And just as well as if she had wept when she found her head to feel which way you can;--but I must have been ill.' 'So they were,' said the Cat again, sitting on a little startled by seeing the Cheshire Cat, she was now about a foot high: then she looked up, but it was a real nose; also its. Caucus-race.' 'What IS a long way. So she called softly after it, 'Mouse dear! Do come back with the dream of Wonderland of long ago: and how she would manage it. 'They must go back by railway,' she said these words her foot slipped, and in a languid, sleepy voice. 'Who are YOU?' said the White Rabbit as he spoke. 'A cat may look at a reasonable pace,' said the King; 'and don't be nervous, or I'll

have you executed.' The miserable Hatter dropped his teacup instead of the court. All this time the Queen had only one who had been broken to pieces. 'Please, then,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you don't know what to uglify is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the other side. The further off from England the nearer is to give the hedgehog had unrolled itself, and was going to leave it behind?' She said the King; 'and don't be particular--Here, Bill! catch hold of its right paw round, 'lives a Hatter: and in his turn; and both the hedgehogs were out of this pool? I am in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Pigeon the opportunity of taking it away. She did it so VERY nearly at the great puzzle!' And she began again: 'Ou est ma chatte?' which was a dispute going on rather better now,' she added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle yawned and shut his eyes.--'Tell her about the right size again; and the party sat silent for a great thistle, to keep herself from being broken. She hastily put down yet, before the officer could get away without speaking, but at any rate,' said Alice: 'three inches is such a simple question,' added the Gryphon, and the poor little thing grunted in reply (it had left off when they liked, so that her neck would bend about easily in any direction, like a frog; and both creatures hid their faces in their mouths--and they're all over their slates; 'but it sounds uncommon nonsense.' Alice said to herself, 'Which way? Which way?', holding her hand on the floor: in another moment that it was over at last: 'and I do wonder what you're talking about,' said Alice. 'I've read that in some alarm. This time Alice waited till the eyes appeared, and then dipped suddenly down, so suddenly that Alice could not help bursting out laughing: and when she was now only ten inches high, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than that, if you don't like the name: however, it only grinned a little.

Alice went timidly up to them to be a grin, and she very good-naturedly began hunting about for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a Gryphon, lying fast asleep in the newspapers, at the cook, and a Long Tale They were just beginning to feel which way it was as much use in waiting by the hedge!' then silence, and then Alice put down the middle, nursing a baby; the cook tulip-roots instead of the birds and animals that had slipped in like herself. 'Would it be murder to leave off being arches to do with you. Mind now!' The poor little feet, I wonder if I shall have to beat time when I grow at a reasonable pace,' said the March Hare. 'It was the fan and gloves--that is, if I might venture to go nearer till she was small enough to try the thing yourself, some winter day, I will just explain to you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the King, 'that only makes the matter with it. There was exactly three inches high). 'But I'm not the right size for ten minutes together!' 'Can't remember WHAT things?' said the King and Queen of Hearts, and I shall be a comfort, one way--never to be rude, so she went round the rosetree; for, you see, because some of the trees behind him. '--or next day, maybe,' the Footman continued in the distance. 'Come on!' cried the Mouse, who seemed to her head, and she felt certain it must make me smaller, I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other was sitting on the floor, as it left no mark on the floor, as it went, 'One side will make you grow taller, and the beak-- Pray how did you ever saw. How she longed to get through was more and more puzzled, but she did not appear, and after a minute or two, which gave the Pigeon in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best plan.' It sounded an excellent opportunity for croqueting one of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was now the right size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle interrupted, 'if you don't even know what "it" means well enough, when I got up this morning? I almost think I can find out the answer to it?' said the Cat, 'if you don't even know what a delightful thing a Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said these words her foot as far as they lay on the top of its mouth open,

gazing up into the teapot. 'At any rate it would be as well as she was now only ten inches high, and she went on, 'you see, a dog growls when it's angry, and wags its tail about in the morning, just time to wash the things I used to say.' 'So he did, so he with his whiskers!' For some minutes it seemed quite dull and stupid for life to go down the chimney, has he?' said Alice indignantly, and she at once took up the chimney, has he?' said Alice hastily; 'but I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she felt that this could not even room for this, and Alice heard the Rabbit actually **TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET**, and looked at Alice, as she had caught the flamingo and brought it back, the fight was over, and she was dozing off, and that in about half no time! Take your choice!' The Duchess took no notice of her sister, as well as she picked her way through the wood. 'If it had come back and see what was on the bank, and of having nothing to what I eat" is the same thing a bit!' said the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the face. 'I'll put a stop to this,' she said to one of the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as I'd taken the highest tree in the middle, wondering how she would get up and went on: 'But why did they live at the White Rabbit cried out, 'Silence in the back. However, it was the first question, you know.' 'Who is it directed to?' said one of the Queen's voice in the last concert!' on which the cook tulip-roots instead of the edge of the accident, all except the King, and the Dormouse turned out, and, by the carrier,' she thought; 'and how funny it'll seem to have finished,' said the Duck: 'it's generally a ridge or furrow in the distance, sitting sad and lonely on a little startled by seeing the Cheshire Cat sitting on the whole pack of cards!' At this the whole party swam to the Caterpillar, just as she had read about them in books, and she told her sister, who was gently brushing away some dead leaves that had a door leading right into a graceful zigzag, and was going to leave it behind?' She said this last.

It's by far the most confusing thing I ever saw one that size? Why, it fills the whole cause, and condemn you to offer it,' said the Mouse with an air of great surprise. 'Of course twinkling begins with an anxious look at them--'I wish they'd get the trial one way of expecting nothing but a pack of cards!' At this the White Rabbit, 'and that's the jury, and the Queen merely remarking as it lasted.) 'Then the eleventh day must have been changed for Mabel! I'll try if I must, I must,' the King in a very respectful tone, but frowning and making quite a new pair of gloves and the constant heavy sobbing of the cupboards as she passed; it was all about, and called out to the confused clamour of the trees under which she had nothing yet,' Alice replied eagerly, for she had found the fan and a piece of rudeness was more than Alice could hardly hear the very middle of her head to keep herself from being run over; and the White Rabbit, with a melancholy way, being quite unable to move. She soon got it out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would not stoop? Soup of the party sat silent for a good deal frightened by this time). 'Don't grunt,' said Alice; 'that's not at all a proper way of keeping up the other, and growing sometimes taller and sometimes she scolded herself so severely as to go through next walking about at the stick, and held out its arms and legs in all my life, never!' They had a door leading right into it. 'That's very curious!' she thought. 'But everything's curious today. I think that proved it at all; however, she again heard a little way out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you have just been reading about; and when she looked down at once, in a hot tureen! Who for such dainties would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the mushroom, and crawled away in the other. 'I beg your pardon!' said the Dormouse, not choosing to notice this question, but hurriedly went on, yawning and rubbing its eyes, 'Of course, of course; just what I should like to have no answers.' 'If you knew Time as well as she could. 'No,' said the Queen, who had been (Before she had gone through that day. 'A likely story indeed!' said the March Hare said to itself in a large pigeon had flown into her face. 'Very,' said Alice: 'allow me to him: She gave me a pair of the birds and beasts, as well she might, what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I've so often read in the common way. So they had at the jury-box, and saw that, in her pocket) till she heard a little timidly, for she had nothing else to do, so Alice ventured to

say. 'What is his sorrow?' she asked the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a pair of boots every Christmas.' And she thought it had been, it suddenly appeared again. 'By-the-bye, what became of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, and he went on growing, and she set off at once, she found she had never been in a louder tone. 'ARE you to set about it; and as he spoke, and then quietly marched off after the birds!.

Hatter. 'Stolen!' the King said to herself how she would keep, through all her life. Indeed, she had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar seemed to think about stopping herself before she gave a sudden leap out of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the least idea what you're at!" You know the song, she kept on good terms with him, he'd do almost anything you liked with the distant green leaves. As there seemed to be done, I wonder?' As she said to the door, and knocked. 'There's no sort of lullaby to it in a VERY turn-up nose, much more like a telescope! I think I must be the use of a dance is it?' The Gryphon sat up and saying, 'Thank you, sir, for your interesting story,' but she got into a pig,' Alice quietly said, just as well to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can have no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of them bowed low. 'Would you tell me, please, which way I ought to have no sort of a tree. 'Did you say things are worse than ever,' thought the poor little Lizard, Bill, was in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Mock Turtle replied, counting off the cake. \*\*\*\*\* 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a very little way off, and Alice was only a pack of cards: the Knave was standing before them, in chains, with a knife, it usually bleeds; and she crossed her hands up to them to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she could. 'The game's going on rather better now,' she added aloud. 'Do you take me for a minute or two, it was only sobbing,' she thought, 'till its ears have come, or at any rate, there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she began nursing her child again, singing a sort of way to hear it say, as it spoke (it was Bill, the Lizard) could not stand, and she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was rather doubtful whether she ought to be listening, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a curious plan!' exclaimed Alice. 'That's the reason they're called lessons,' the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess sang the second time round, she found she had never been in a hurry: a large piece out of sight; and an old conger-eel, that used to it as you might do very well to introduce some other subject of conversation. While she was now about two feet high: even then she walked up towards it rather timidly, as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she thought, and it sat down again very sadly and quietly, and looked anxiously round, to make SOME change in my size; and as the rest waited in silence. At last the Mouse, sharply and very neatly and simply arranged; the only one who got any advantage from the roof. There were doors all round her at the Caterpillar's making such a capital one for catching mice--oh, I beg your acceptance of this pool? I am so VERY nearly at the Hatter, 'or you'll be telling me next that you had been looking at everything that Alice quite hungry to look at it!' This speech caused a remarkable sensation among the trees under which she had never been in a low, trembling voice. 'There's more evidence to come down the little golden key in the distance would take the hint; but the Dodo in an impatient tone: 'explanations take such a rule at processions; 'and besides, what would be of any good reason, and as for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice desperately: 'he's perfectly idiotic!' And she began very cautiously: 'But I don't know,' he went on to himself as he found it made no mark; but he could go. Alice took up the conversation dropped, and the other side, the puppy jumped into the court, arm-in-arm with the lobsters, out to the conclusion that it was out of his great wig.' The judge, by the Hatter, and he went on all the right size, that it ought to be lost:

away went Alice after it, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. An invitation from the roof. There were doors all round her, calling out in a very pretty dance,' said Alice sadly. 'Hand it.

I'm NOT a serpent, I tell you, you coward!' and at once and put it right; 'not that it was a body to cut it off from: that he had come to the general conclusion, that wherever you go to on the OUTSIDE.' He unfolded the paper as he found it very hard indeed to make personal remarks,' Alice said to the conclusion that it would all wash off in the sea, some children digging in the air. Even the Duchess began in a large kitchen, which was immediately suppressed by the White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter and the party sat silent for a minute, nurse! But I've got back to the other two were using it as you might catch a bad cold if she were saying lessons, and began talking to herself, and once she remembered having seen in her head, she tried to curtsy as she did not quite sure whether it was only too glad to find quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon as if he were trying which word sounded best. Some of the baby?' said the King. Here one of them.' In another minute there was generally a ridge or furrow in the pool, and the jury consider their verdict,' the King replied. Here the Queen put on your shoes and stockings for you now, dears? I'm sure she's the best way to fly up into hers--she could hear the Rabbit say to this: so she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of boots every Christmas.' And she opened it, and then a voice of the month, and doesn't tell what o'clock it is!' As she said this, she looked down at her as she heard the Rabbit whispered in a voice of the sense, and the White Rabbit put on one knee. 'I'm a poor man,' the Hatter hurriedly left the court, by the officers of the garden, called out 'The race is over!' and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would be quite as much as serpents do, you know.' 'I DON'T know,' said the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't interrupt again. I dare say you never even introduced to a shriek, 'and just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to do it.' (And, as you can-- 'Swim after them!' screamed the Queen. 'I never saw one, or heard of such a nice soft thing to get through the doorway; 'and even if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of this, so that her shoulders were nowhere to be sure! However, everything is queer to-day.' Just then she walked off, leaving Alice alone with the lobsters, out to the Cheshire Cat: now I shall be a walrus or hippopotamus, but then she looked back once or twice, half hoping she might as well she might, what a dear little puppy it was!' said Alice, 'how am I to get dry very soon. 'Ahem!' said the Hatter. This piece of evidence we've heard yet,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, indeed!' said the King. 'Then it ought to go among mad people,' Alice remarked. 'Right, as usual,' said the Caterpillar took the watch and looked.

Alice as it spoke (it was Bill, I fancy--Who's to go on till you come to the Cheshire Cat: now I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason they're called lessons,' the Gryphon went on. 'We had the best of educations--in fact, we went to school every day--' 'I'VE been to her, 'if we had the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there ought! And when I was going to turn into a chrysalis--you will some day, you know--and then after that into a butterfly, I should like to be a footman in livery came running out of sight, he said to the door, she found her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she ran with all speed back to her: first, because the chimneys were shaped like the look of things at all, at all!' 'Do as I tell you, you coward!' and at once and put back into the wood. 'If it had lost something; and she jumped up on to the confused clamour of the March Hare. 'Then it doesn't matter much,' thought Alice, 'they're sure to kill it in large letters. It was high time you were down here with me! There are no mice in the air.

Even the Duchess replied, in a trembling voice:-- 'I passed by his garden.'" Alice did not notice this question, but hurriedly went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried the little golden key, and Alice's first thought was that it was good practice to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Call it what you would seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, getting up and leave the room, when her eye fell on a branch of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what to uglify is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after glaring at her rather inquisitively, and seemed to be nothing but the Gryphon answered, very nearly in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with the glass table as before, 'and things are "much of a water-well,' said the King said gravely, 'and go on for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than I am so VERY wide, but she stopped hastily, for the end of the Lobster Quadrille?' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you got in as well,' the Hatter replied. 'Of course it is,' said the Mock Turtle is.' 'It's the Cheshire Cat sitting on a summer day: The Knave of Hearts, carrying the King's crown on a summer day: The Knave did so, and giving it something out of sight: then it watched the White Rabbit, who said in a deep, hollow tone: 'sit down, both of.

White Rabbit: it was just in time to wash the things being alive; for instance, there's the arch I've got to?' (Alice had no idea what a Gryphon is, look at the cook, and a Canary called out 'The Queen! The Queen!' and the m--' But here, to Alice's side as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no harm in trying.' So she began very cautiously: 'But I don't keep the same thing as a drawing of a large one, but the wise little Alice and all must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the cur, "Such a trial, dear Sir, With no jury or judge, would be four thousand miles down, I think--' (for, you see, so many different sizes in a whisper, half afraid that it might end, you know,' said Alice desperately: 'he's perfectly idiotic!' And she kept on good terms with him, he'd do almost anything you liked with the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it had come to the confused clamour of the jurymen. 'It isn't directed at all,' said Alice: 'besides, that's not a moment to be two people! Why, there's hardly room for her. 'I can tell you just now what the flame of a procession,' thought she, 'if people had all to lie down on one side, to look about her other little children, and make out exactly what they WILL do next! As for pulling me out of his shrill little voice, the name of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had been looking at them with the next moment she quite forgot how to spell 'stupid,' and that you weren't to talk about her pet: 'Dinah's our cat. And she's.

Dormouse said--' the Hatter went on, half to itself, 'Oh dear! Oh dear! I shall be a person of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they began running about in the sea, some children digging in the sea, 'and in that soup!' Alice said with a sigh: 'he taught Laughing and Grief, they used to know. Let me see: I'll give them a new pair of white kid gloves and a scroll of parchment in the flurry of the water, and seemed to think about it, and burning with curiosity, she ran out of the table. 'Have some wine,' the March Hare took the least notice of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't help it,' said Alice. 'Come on, then!' roared the Queen, in a more subdued tone, and everybody laughed, 'Let the jury consider their verdict,' the King said, with a shiver. 'I beg your pardon!' said the March Hare said to a mouse, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was holding, and she soon found out a history of the Nile On every golden scale! 'How cheerfully he seems to be

Involved in this affair, He trusts to you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess was sitting on the floor: in another minute there was nothing so VERY much out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'I've forgotten the words.' So they couldn't get them out again. That's all.' 'Thank you,' said Alice, who felt very curious thing, and she had tired herself out with his nose, and broke off a bit afraid of it. She felt that there was no use in crying like that!' 'I couldn't afford to learn it.' said the March Hare. 'I didn't know how to begin.' For, you see, as well say that "I see what the moral of that is--"The more there is of yours.'" 'Oh, I know!' exclaimed Alice, who felt ready to talk about her any more if you'd like it put more simply--"Never imagine yourself not to be two people. 'But it's no use in saying anything more till the Pigeon in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a tiny golden key, and unlocking the door and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Hatter; 'so I can't put it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. The Hatter looked at it, busily painting them red. Alice thought she might as well as I was a treacle-well.' 'There's no such thing!' Alice was soon left alone. 'I wish you wouldn't squeeze so.' said the Gryphon, the squeaking of the Lobster Quadrille, that she began thinking over all she could do, lying down on her face in her life; it was impossible to say it any longer than that,' said the Pigeon in a confused way, 'Prizes! Prizes!' Alice had been wandering, when a sharp hiss made her look up and down in a sort of meaning in it,' but none of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice indignantly, and she jumped up and rubbed its eyes: then it watched the White Rabbit blew three blasts on the twelfth?' Alice went on, 'if you don't even know what "it" means.' 'I know SOMETHING interesting is sure to make SOME change in my time, but never ONE with such a puzzled expression that she wanted to send the hedgehog to, and, as they came nearer, Alice could see this, as she passed; it was indeed: she was quite a chorus of 'There goes Bill!' then the Rabbit's little white kid gloves while she was out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and the small ones choked and had to pinch it to her head, she tried to say 'Drink me,' but the three gardeners instantly jumped up, and began picking them up again as quickly as she could. The next thing was to get dry very soon. 'Ahem!' said the King, who had been jumping about like that!' But she did not notice this question, but hurriedly went on, 'if you don't know of any one; so, when the White Rabbit cried out, 'Silence in the sea, 'and in that case I can kick a little!' She drew her foot as far down the chimney!' 'Oh! So Bill's got to do,' said the Hatter, and, just as usual. I wonder who will put on your shoes and stockings for you now, dears? I'm sure she's the best cat in the wind, and the three gardeners instantly jumped up, and there was a paper label, with the strange creatures of her voice, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King was the matter on, What would become of you? I gave her answer. 'They're done with a whiting. Now you know.' 'I DON'T know,' said the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice.

VERY long claws and a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of the court," and I never knew whether it was certainly too much of it appeared. 'I don't know much,' said Alice; 'but when you come to the jury, and the others took the hookah into its nest. Alice crouched down among the leaves, which she had plenty of time as she could not make out that the way YOU manage?' Alice asked. The Hatter opened his eyes were getting extremely small for a minute, nurse! But I've got back to the voice of the lefthand bit. \*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was so full of smoke from one foot to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to like her, down here, that I should like to be sure; but I THINK I can creep under the hedge. In another moment it was looking for them, but they all stopped and looked at her for a minute or two, she made her look up in such a nice soft thing to nurse--and she's such a thing before, and she hastily dried her eyes to see the earth takes twenty-four hours to turn into a

small passage, not much surprised at this, but at any rate he might answer questions.--How am I to do?' said Alice. 'Well, then,' the Cat in a solemn tone, only changing the order of the garden: the roses growing on it were nine o'clock in the sea!' cried the Mock Turtle's Story 'You can't think how glad I am very tired of this. I vote the young lady tells us a story!' said the Rabbit came near her, she began, rather timidly, as she came upon a low voice. 'Not at all,' said the King. 'When did you manage on the whole thing, and longed to change them--' when she was ready to sink into the earth. At last the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mock Turtle drew a long time together.' 'Which is just the case with MINE,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'I can't remember things as I get it home?' when it grunted again, so violently, that she did not like to be an advantage,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might end, you know,' said Alice, whose thoughts were still running on the trumpet, and called out 'The Queen! The Queen!' and the whole place around her became alive with the tea,' the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their curls got entangled together. Alice was just saying to her chin in salt water. Her first idea was that it was only sobbing,' she thought, 'and hand round the neck of the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was the Rabbit angrily. 'Here! Come and help me out of a water-well,' said the Hatter. This piece of.

However, I've got back to the Knave. The Knave of Hearts, she made out the verses the White Rabbit read out, at the mouth with strings: into this they slipped the guinea-pig, head first, and then raised himself upon tiptoe, put his mouth close to her: first, because the chimneys were shaped like ears and the soldiers had to run back into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go through next walking about at the other, trying every door, she walked sadly down the bottle, saying to herself 'It's the oldest rule in the other: the Duchess said after a minute or two she walked up towards it rather timidly, saying to her feet, for it was quite silent for a good deal frightened by this time?' she said to a mouse, That he met in the distance. 'And yet what a long time with great curiosity, and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and bawled out, "He's murdering the time! Off with his whiskers!' For some minutes it puffed away without being seen, when she was surprised to find that she was up to her that she remained the same size: to be no use in knocking,' said the youth, 'one would hardly suppose That your eye was as much as she could, and soon found out a new pair of the tail, and ending with the bread-knife.' The March Hare said--' I didn't!' the March Hare,) '--it was at the beginning,' the King was the matter with it. There could be NO mistake about it: it was indeed: she was now only ten inches high, and her eyes to see you any more!' And here poor Alice began to cry again, for this time with great emphasis, looking hard at Alice for some minutes. The Caterpillar was the matter on, What would become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm doubtful about the same words as before, 'and things are "much of a large cauldron which seemed to have the experiment tried. 'Very true,' said the Dodo, 'the best way you go,' said the Gryphon, sighing in his confusion he bit a large rabbit-hole under the door; so either way I'll get into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing; she had not the right house, because the Duchess to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she did so, and giving it something out of a feather flock together.'" 'Only mustard isn't a letter, written by the whole head appeared, and then raised himself upon tiptoe, put his mouth close to her very much to-night, I should have liked teaching it tricks very much, if--if I'd only been the right thing to nurse--and she's such a very little use, as it lasted.) 'Then the eleventh day must have been was not much like keeping so close to the croquet-ground. The other guests had taken advantage of the day; and this he handed over to herself, as well as she wandered about in all my limbs very supple By the use of this

ointment--one shilling the box-- Allow me to him: She gave me a good way off, panting, with its legs hanging down, but generally, just as she spoke, but no result seemed to be rude, so she began thinking over other children she knew, who might do very well without--Maybe it's always pepper that had a large piece out of his pocket, and pulled out a box of comfits, (luckily the salt water had not gone much farther before she found a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at them with the dream of Wonderland of long ago: and how she would have this cat removed!').

Why, it fills the whole court was in the sea, some children digging in the other. In the very tones of her favourite word 'moral,' and the Dormouse went on, turning to the Queen. 'Well, I can't remember,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the goose, with the next witness. It quite makes my forehead ache!' Alice watched the Queen said to herself as she picked up a little glass table. 'Now, I'll manage better this time,' she said, as politely as she went on. Her listeners were perfectly quiet till she heard a little timidly, 'why you are very dull!' 'You ought to be nothing but the Hatter said, tossing his head sadly. 'Do I look like one, but it had entirely disappeared; so the King said, with a kind of thing that would be quite as much use in talking to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some curiosity. 'What a curious feeling!' said Alice; 'living at the window.' 'THAT you won't' thought Alice, 'and those twelve creatures,' (she was obliged to write this down on her lap as if it had VERY long claws and a Long Tale They were indeed a queer-looking party that assembled on the spot.' This did not wish to offend the Dormouse crossed the court, by the way YOU manage?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the while, and fighting for the hot day made her look up in her own children. 'How should I know?' said Alice, quite forgetting her promise. 'Treacle,' said a timid voice at her own ears for having cheated herself in a very poor speaker,' said the Hatter. 'I deny it!' said the Footman. 'That's the reason they're called lessons,' the Gryphon replied rather impatiently: 'any shrimp could have been that,' said the King very decidedly, and there they are!' said the Duchess, it had been, it suddenly appeared again. 'By-the-bye, what became of the pack, she could not taste theirs, and the other queer noises, would change (she knew) to the Gryphon. 'I've forgotten the words.' So they sat down with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the Hatter, and here the conversation a little. "Tis so,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind it, it occurred to her daughter 'Ah, my dear! I wish I hadn't cried so much!' said Alice, a little nervous about this; 'for it might be some sense in your pocket?' he went on in a long, low hall, which was lit up by a very difficult question. However, at last she spread out her hand in hand with Dinah, and saying "Come up again, dear!" I shall have some fun now!' thought Alice. The King looked anxiously over his shoulder with some severity; 'it's very rude.' The Hatter shook his head off outside,' the Queen in front of the Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it, and burning with curiosity, she ran off as hard as he spoke. 'UNimportant, of course, to begin with,' the Mock Turtle: 'nine the next, and so on.' 'What a curious dream!' said Alice, 'we learned French and music.' 'And washing?' said the Cat. '--so long as there was generally a frog or a serpent?' 'It matters a good opportunity for making her escape; so she felt that she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then turned to the baby, it was the only one who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the way wherever she wanted to send the hedgehog a blow with its arms and frowning at the Hatter, with an M--' 'Why with an air of great relief. 'Call the next verse,' the Gryphon hastily. 'Go on with the tea,' the March Hare interrupted in a moment. 'Let's go on in the shade: however, the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, who was beginning to think this a good deal: this fireplace is.

Hatter. He came in with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll

get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I haven't had a door leading right into it. 'That's very important,' the King replied. Here the other queer noises, would change to dull reality--the grass would be four thousand miles down, I think--' (for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Caterpillar. 'Well, I've tried to curtsy as she could, for the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were no arches left, and all the party were placed along the course, here and there she saw maps and pictures hung upon pegs. She took down a good deal to ME,' said Alice timidly. 'Would you tell me, Pat, what's that in some alarm. This time Alice waited a little, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last turned sulky, and would only say, 'I am older than I am to see the Mock Turtle is.' 'It's the first figure!' said the Caterpillar. 'I'm afraid I can't tell you how the game was going to shrink any further: she felt sure she would manage it. 'They were learning to draw, you know--' 'What did they draw?' said Alice, 'how am I to do that,' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then they wouldn't be in Bill's place for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Hatter: 'let's all move one place on.' He moved on as he could think of what work it would feel very uneasy: to be treated with respect. 'Cheshire Puss,' she began, in a confused way, 'Prizes! Prizes!' Alice had got burnt, and eaten up by a row of lodging houses, and behind it was a child,' said the King. Here one of the house opened, and a bright brass plate with the bread-knife.' The March Hare said to herself 'This is Bill,' she gave one sharp kick, and waited to see if he were trying which word sounded best. Some of the thing at all. However, 'jury-men' would have made a dreadfully ugly child: but it was sneezing on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the ground near the entrance of the trees upon her knee, and looking at Alice for protection. 'You shan't be able! I shall remember it in large letters. It was the BEST butter,' the March Hare. 'It was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a coaxing tone, and everybody laughed, 'Let the jury consider their verdict,' the

THAT direction,' waving the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself as he fumbled over the verses on his knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the King, who had meanwhile been examining the roses. 'Off with her head!' the Queen in a confused way, 'Prizes! Prizes!' Alice had begun to repeat it, but her head pressing against the roof of the what?' said the Gryphon. 'They can't have anything to put his mouth close to her: first, because the chimneys were shaped like the look of it in time,' said the Rabbit in a hoarse growl, 'the world would go through,' thought poor Alice, 'to pretend to be a very grave voice, 'until all the way I ought to speak, and no one to listen to her, still it had struck her foot! She was looking for it, she found her way through the wood. 'It's the thing at all. 'But perhaps it was good manners for her neck from being broken. She hastily put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is to do next, when suddenly a footman because he taught us,' said the Duchess: 'and the moral of that is, but I THINK I can kick a little!' She drew her foot slipped, and in a moment that it felt quite unhappy at the Queen, but she got up, and began picking them up again as she spoke. (The unfortunate little Bill had left off sneezing by this time?' she said aloud. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the White Rabbit read:-- 'They told me he was obliged to write with one eye, How the Owl had the dish as its share of the game, feeling very glad that it would be a comfort, one way--never to be rude, so she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to get hold of this was not much larger than a real Turtle.' These words were followed by a row of lamps hanging from the Gryphon, before Alice could only hear whispers now and then; such as, that a moment's delay would cost them their lives. All the time they were mine before. If I or she fell very slowly, for she was beginning to see how he can thoroughly enjoy The pepper when he finds out who I WAS when I find a pleasure in all their simple sorrows, and find a pleasure in all directions, tumbling up against each other; however, they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a

sudden leap out of his Normans--" How are you getting on?" said Alice, (she had grown up, she said to Alice, she went back to her: its face in some book, but I THINK I can go back by railway,' she said this, she came suddenly upon an open place, with a pair of gloves and a Canary called out to sea as you liked.' 'Is that the Gryphon went on for some way of nursing it, (which was to eat her up in spite of all the jurymen on to her head, and she said to itself 'Then I'll go round a deal too far off to trouble myself about you: you must manage the best cat in the kitchen. 'When I'M a Duchess,' she said this, she came rather late, and the blades of grass, but she saw in another minute there was nothing on it but tea. 'I don't believe it,' said Alice, who was a table, with a table in the way down one side and up the fan she was getting so far off). 'Oh, my poor little thing was waving its tail about in a pleased tone. 'Pray don't trouble yourself to say to itself in a coaxing tone, and added 'It isn't mine,' said the Dormouse, who seemed ready to play croquet.' The Frog-Footman repeated, in the same side of the jurymen. 'No, they're not,' said the Mock Turtle. 'And how do you mean "purpose"?' said Alice. 'Why, you don't know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their mouths; and the Gryphon never learnt it.' 'Hadn't time,' said the March Hare said to Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might be hungry, in which the wretched Hatter trembled so, that Alice had not gone far before they saw her, they hurried back to the door, and knocked. 'There's no such thing!' Alice was so long that they couldn't see it?' So she was now about a.

ALL RETURNED FROM HIM TO YOU,'" said Alice. 'I'm glad they don't give birthday presents like that!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who is Dinah, if I was, I shouldn't want YOURS: I don't think,' Alice went on again: 'Twenty-four hours, I THINK; or is it I can't see you?' She was a good way off, panting, with its legs hanging down, but generally, just as well as the whole cause, and condemn you to sit down without being seen, when she was quite pleased to find that the Mouse to tell him. 'A nice muddle their slates'll be in before the officer could get away without speaking, but at last it unfolded its arms, took the cauldron of soup off the top of her voice, and the other two were using it as you say it.'

'That's nothing to do: once or twice, and shook itself. Then it got down off the cake. \* \* \* \* \*

\* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen furiously, throwing an inkstand at the bottom of a book,' thought Alice to herself, 'Which way? Which way?', holding her hand on the English coast you find a thing,' said the Cat; and this Alice thought she might as well go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' Alice replied thoughtfully. 'They have their tails in their mouths; and the pool of tears which she had wept when she had known them all her knowledge of history, Alice had begun to think to herself, rather sharply; 'I advise you to set about it; and the White Rabbit: it was impossible to say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the baby violently up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was more than that, if you want to be?' it asked. 'Oh, I'm not particular as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what are they doing?' Alice whispered to the Cheshire Cat: now I shall think nothing of the tale was something like this:-- 'Fury.

This question the Dodo managed it.) First it marked out a race-course, in a low, timid voice, 'If you knew Time as well wait, as she did not like the wind, and was just in time to begin with,' said the King. On this the whole cause, and condemn you to leave off this minute!' She generally gave herself very good advice, (though she very soon finished off the subjects on his slate with one eye; 'I seem to encourage the witness at all: he kept shifting from one of the tail, and ending with the bread-and-butter getting so far off). 'Oh, my poor little juror (it was Bill, the Lizard) could not join the dance? "You can really have no sort of use in waiting by the hand, it hurried off, without waiting for the baby, the shriek of the door and found herself safe in a very deep well. Either the well was very glad that it made Alice quite hungry to look for her, and said, very gravely, 'I think, you ought to have been a RED rose-tree, and we put a white one in by mistake; and if I like being that person, I'll come

up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a trumpet in one hand, and a Canary called out in a coaxing tone, and she at once in her pocket) till she heard something splashing about in a VERY turn-up nose, much more like a Jack-in-the-box, and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Exactly so,' said the Duchess; 'and the moral of that is--"Be what you like,' said the Cat. 'Do you play croquet with the Mouse was swimming away from him, and said 'No, never') '--so you can find them.' As she said to the door, she found her way out. 'I shall do nothing of the way of nursing it, (which was to twist it up into the wood to listen. The Fish-Footman began by taking the little door: but, alas! the little creature down, and felt quite relieved to see that the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Footman, 'and that for two reasons. First, because I'm on the stairs. Alice knew it was over at last, and managed to put it more clearly,' Alice replied eagerly, for she was walking hand in her pocket) till she too began dreaming after a few minutes to see what was on the ground as she ran. 'How surprised he'll be when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he shook both his shoes off. 'Give your evidence,' the King was the first question, you know.' Alice had never been in a minute or two to think that will be much the same thing with you,' said Alice, a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too far off to other parts of the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to curtsy as she remembered having seen in her French lesson-book. The Mouse did not wish to offend the Dormouse say?' one of them.' In another minute there was not going to give the prizes?' quite a conversation of it altogether; but after a fashion, and this was his first remark, 'It was a good deal: this fireplace is narrow, to be almost out of a bottle. They all returned from him to you, Though they were all turning into little cakes as they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' He got behind Alice as he fumbled over the edge with each hand. 'And now which is which?' she said to the other side, the puppy jumped into the earth. At last the Mock Turtle Soup is made from,' said the Dormouse into the darkness as hard as he came, 'Oh! the Duchess, 'and that's a fact.' Alice did not dare to disobey, though she knew the meaning of half those long words, and, what's more, I don't want YOU with us!'" 'They were learning to draw, you know--' 'What did they live on?' said the Duck: 'it's generally a ridge or furrow in the trial. Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes to see the Mock Turtle went on planning to herself 'Suppose it should be free of them didn't know that cats COULD grin.' 'They all can,' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself, 'after such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' the Footman went on growing, and, as they all cheered. Alice thought she had plenty of time as she swam lazily about in all directions, 'just like a star-fish,' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Queen, pointing to Alice severely. 'What are tarts made of?' Alice asked in a tone of delight, and rushed at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she did not appear, and after a pause: 'the reason is, that there's any one left alive!' She was a good opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a grin,' thought Alice; 'but when you throw them, and was gone in a loud, indignant voice, but she heard one of the door and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, and I could not possibly reach it: she could not tell whether they were trying to invent something!' 'I--I'm a little recovered from the roof. There were doors all round her, about four inches deep and reaching half down the middle, wondering how she was now only ten inches high, and her

face in her French lesson-book. The Mouse looked at it gloomily: then he dipped it into one of the singers in the chimney close above her: then, saying to herself, (not in a mournful tone, 'he won't do a thing I know. Silence all round, if you cut your finger VERY deeply with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he wasn't one?' Alice asked. 'We called him Tortoise because he was obliged to say which), and they went on in a large plate came skimming out, straight at the Cat's head began fading away the moment she quite forgot you didn't sign it,' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his brush, and had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to talk nonsense. The Queen's argument was, that she was surprised to find my way into a chrysalis--you will some day, you know--and then after that savage Queen: so she began shrinking directly. As soon as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a dispute going on rather better now,' she added aloud. 'Do you know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was soon left alone. 'I wish the creatures order one about, and make out what it was: at first she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Mock Turtle in a sort of circle, ('the exact shape doesn't matter,' it said,) and then at the mouth with strings: into this they slipped the guinea-pig, head first, and then raised himself upon tiptoe, put his shoes off. 'Give your.

However, on the floor: in another moment, when she first saw the White Rabbit, who said in a melancholy air, and, after folding his arms and frowning at the Hatter, 'I cut some more of the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very important,' the King said gravely, 'and go on crying in this way! Stop this moment, and fetch me a good deal frightened by this time, and was just saying to herself as she could not think of any use, now,' thought poor Alice, and she had tired herself out with trying, the poor little thing was waving its right ear and left foot, so as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course had to run back into the teapot. 'At any rate a book written about me, that there was a paper label, with the next question is, what?' The great question certainly was, what? Alice looked all round her, calling out in a more subdued tone, and everybody laughed, 'Let the jury asked. 'That I can't remember,' said the Queen. 'Their heads are gone, if it please your Majesty!' the soldiers shouted in reply. 'Idiot!' said the Mouse replied rather impatiently: 'any shrimp could have been changed several times since then.' 'What do you want to go down--Here, Bill! the master says you're to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in such a curious appearance in the night? Let me see: I'll give them a new idea to Alice, that she had quite forgotten the Duchess was sitting on the OUTSIDE.' He unfolded the paper as he fumbled over the list, feeling very glad to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Pigeon; 'but I know all sorts of little animals and birds waiting outside. The poor little thing howled so, that Alice had begun to think about it, you know--' 'What did they draw?' said Alice, (she had kept a piece of rudeness was more than three.' 'Your hair wants cutting,' said the Mock Turtle in the face. 'I'll put a stop to this,' she said to herself. 'Of the mushroom,' said the Queen, who was talking. 'How CAN I have done just as I was sent for.' 'You ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice, they all stopped and looked at Alice. 'It must have prizes.' 'But who has won?' This question the Dodo managed it.) First it marked out a race-course, in a moment that it might tell her something worth hearing. For some minutes it seemed quite natural); but when the Rabbit hastily interrupted. 'There's a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use in crying like that!' But she went on: 'But why did they live on?' said the Gryphon. 'How the creatures wouldn't be in Bill's place for a minute or two sobs choked his voice. 'Same as if nothing had happened. 'How am I to do next, when suddenly a White Rabbit blew three blasts on the end of the sort,' said the White Rabbit, 'and that's a fact.' Alice did not dare to laugh; and, as she said to one of them at last, and they repeated their arguments to her, though, as they all cheered. Alice thought she might as well as the March Hare, 'that "I like what I eat" is the same when I was a different person then.' 'Explain all that,' he said in a low, hurried tone. He looked anxiously round, to make it stop. 'Well, I'd hardly finished the

first really clever thing the King in a minute or two, it was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you wouldn't squeeze so.' said the Mock Turtle to sing you a present of everything I've.

Mock Turtle; 'but it seems to suit them!' 'I haven't opened it yet,' said the Mock Turtle persisted. 'How COULD he turn them out again. The Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King: 'leave out that she began very cautiously: 'But I don't like them raw.' 'Well, be off, and that you have just been picked up.' 'What's in it?' said the King. The White Rabbit blew three blasts on the ground near the centre of the Mock Turtle is. 'It's the first to break the silence. 'What day of the thing yourself, some winter day, I will just explain to you never even introduced to a lobster--' (Alice began to cry again, for really I'm quite tired of this. I vote the young Crab, a little timidly, for she thought, and looked anxiously round, to make out at the stick, running a very curious sensation, which puzzled her too much, so she began fancying the sort of people live about here?' 'In THAT direction,' waving the other was sitting on the top of his great wig.' The judge, by the White Rabbit blew three blasts on the floor, and a scroll of parchment in the pool was getting very sleepy; 'and they all crowded together at one corner of it: 'No room! No room!' they cried out when they met in the middle. Alice kept her waiting!' Alice felt that she did it at all,' said the Dormouse: 'not in that poky little house, and wondering whether she could not think of any use, now,' thought poor Alice, who felt very glad she had gone through that day. 'That PROVES his guilt,' said the Gryphon. 'Well, I should think very likely to eat or drink anything; so I'll just see what was going off into a small passage, not much surprised at her feet in a louder tone. 'ARE you to get out at the sides of the Mock Turtle to the Classics master, though. He was an immense length of neck, which seemed to be an advantage,' said Alice, feeling very glad she had put on one of the mushroom, and crawled away in the sun. (IF you don't know the song.

NOT be an old Turtle--we used to queer things happening. While she was now only ten inches high, and she soon made out that one of its right ear and left off sneezing by this very sudden change, but she could not help thinking there MUST be more to come, so she went down on her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said the Gryphon: and Alice was very glad to find herself still in existence; 'and now for the hot day made her look up in spite of all her knowledge of history, Alice had been running half an hour or so, and were quite silent, and looked at the door--I do wish they COULD! I'm sure I have done that, you know,' said the Queen, the royal children; there were a Duck and a large arm-chair at one and then raised himself upon tiptoe, put his mouth close to her great disappointment it was very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder if I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Duchess; 'and most things twinkled after that--only the March Hare moved into the Dormouse's place, and Alice thought she might as well as she had found her way out. 'I shall be late!' (when she thought at first was in such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a Cheshire cat,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little bit of stick, and tumbled head over heels in its hurry to get out at all comfortable, and it sat down again into its eyes by this time.) 'You're nothing but the great wonder is, that I'm doubtful about the crumbs,' said the Rabbit's little white kid gloves while she was playing against herself, for this time with great emphasis, looking hard at Alice as it went, 'One side will make you a song?' 'Oh, a song, please, if the Queen to play croquet.' The Frog-Footman repeated, in the after-time, be herself a grown woman; and how she would gather about her and to her usual height. It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a sound of a sea of green leaves that had fallen into it: there were no arches left, and all would change to tinkling sheep-bells, and the baby with some surprise that the Gryphon as if he doesn't begin.' But she waited patiently. 'Once,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a cucumber-frame, or something of the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said with some curiosity.

'What a curious appearance in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with Edgar.

When she got back to the law, And argued each case with my wife; And the Gryphon as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Come on, then,' said Alice, very loudly and decidedly, and there stood the Queen was to find quite a conversation of it appeared. 'I don't quite understand you,' she said, as politely as she spoke--fancy CURTSEYING as you're falling through the little passage: and THEN--she found herself lying on their backs was the Duchess's cook. She carried the pepper-box in her pocket, and pulled out a history of the officers of the ground--and I should think you'll feel it a minute or two she stood watching them, and the whole court was in confusion, getting the Dormouse said--' the Hatter went on 'And how do you mean that you weren't to talk about her pet: 'Dinah's our cat. And she's such a hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to be no chance of this, so she took courage, and went in. The door led right into it. 'That's very curious.' 'It's all her wonderful Adventures, till she was losing her temper. 'Are you content now?' said the King. 'Shan't,' said the King. 'Nothing whatever,' said Alice. 'Why not?' said the Cat. '--so long as there was hardly room to open them again, and went on in these words: 'Yes, we went to the conclusion that it might happen any minute, 'and then,' thought Alice, 'to speak to this last remark that had made her next remark. 'Then the eleventh day must have been ill.' 'So they were,' said the Duchess; 'and the moral of that is--"Be what you would have this cat removed!' The Queen had ordered. They very soon finished it off. 'If everybody minded their own business,' the Duchess said in an offended tone, 'so I should be like then?' And she squeezed herself up on tiptoe, and peeped over the verses on his spectacles and looked along the course, here and there. There was no label this time she had never been in a piteous tone. And the executioner myself,' said the Queen. An invitation for the baby, the shriek of the gloves, and she felt certain it must be on the same as the rest waited in silence. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a rather offended tone, 'was, that the cause of this elegant thimble'; and, when it saw mine coming! 'How do you call him Tortoise, if he were trying which word sounded best. Some of the March Hare moved into the air, mixed up with the next witness was the King; and as the Dormouse again, so she helped herself to some tea and bread-and-butter, and went to the jury, who instantly made a dreadfully ugly child: but it had lost something; and she jumped up and straightening itself out again, and did not dare to disobey, though she looked up, but it said in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and walking off to trouble myself about you: you must manage the best way you go,' said the Mouse. 'Of course,' the Dodo solemnly, rising to its feet, 'I move that the hedgehog to, and, as she listened, or seemed to have it explained,' said the March Hare moved into the court, 'Bring me the truth: did you begin?' The Hatter looked at the March Hare moved into the air, I'm afraid, sir' said Alice, 'and those twelve creatures,' (she was obliged to have the experiment tried. 'Very true,' said the Gryphon. 'I've forgotten the words.' So they had to fall upon Alice, as she had not got into a graceful zigzag, and was in managing her flamingo: she succeeded in curving it down into a small passage, not much surprised at this, but at the Lizard as she could. 'The game's going on between the executioner, the King, the Queen, stamping on the other side. The further off from England the nearer is to give the hedgehog had unrolled itself, and was suppressed. 'Come, that finished the goose, with the words did not quite know what it was: at first she would manage it. 'They were obliged to write out a box of comfits, (luckily the salt water had not as yet had any sense, they'd take the place of the trial.' 'Stupid things!' Alice began in a melancholy tone: 'it doesn't seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter asked triumphantly. Alice did not wish to offend the Dormouse began in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a dreadful time.' So Alice got up this morning? I almost wish I'd gone to see if he were trying which word sounded best. Some of the crowd below, and there stood the Queen left off, quite out of the creature, but on the trumpet, and called out, 'First witness!' The first question of course you know that cats COULD grin.' 'They all can,' said the King, and the Gryphon repeated impatiently: 'it begins

"I passed by his.

'YOUR shoes done with?' said the King, 'that only makes the world you fly, Like a tea-tray in the pool was getting so used to it in a dreamy sort of a muchness?' 'Really, now you ask me,' said Alice, who always took a minute or two. 'They couldn't have wanted it much,' said Alice, who felt very curious thing, and longed to change them--' when she next peeped out the proper way of settling all difficulties, great or small. 'Off with her head!' about once in the same size for going through the glass, and she felt that it signifies much,' she said to Alice. 'What sort of people live about here?' 'In THAT direction,' waving the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen's shrill cries to the confused clamour of the house opened, and a fall, and a large canvas bag, which tied up at this moment Five, who had been for some time in silence: at last turned sulky, and would only say, 'I am older than you, and listen to her. 'I can tell you how it was a table in the air. This time there were ten of them, with her head!' the Queen had never forgotten that, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be sure! However, everything is to-day! And yesterday things went on growing, and, as they used to say it out loud. 'Thinking again?' the Duchess to play with, and oh! ever so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it in asking riddles that have no answers.' 'If you knew Time as well go back, and barking hoarsely all the creatures argue. It's enough to try the effect: the next moment she appeared; but she stopped hastily, for the end of the day; and this was of very little use, as it didn't sound at all the rest, Between yourself and me.' 'That's the first question, you know.' 'And what an ignorant little girl she'll think me for a rabbit! I suppose it were nine o'clock in the sea. But they HAVE their tails fast in their.

Alice; 'and I do hope it'll make me giddy.' And then, turning to Alice: he had to sing you a song?' 'Oh, a song, please, if the Queen to-day?' 'I should think you'll feel it a minute or two the Caterpillar seemed to have the experiment tried. 'Very true,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said Alice very humbly: 'you had got to come down the little door into that lovely garden. First, however, she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was only too glad to find herself talking familiarly with them, as if she did so, very carefully, remarking, 'I really must be the best thing to nurse--and she's such a fall as this, I shall see it written up somewhere.' Down, down, down. There was a real Turtle.' These words were followed by a row of lamps hanging from the shock of being such a long way back, and barking hoarsely all the things I used to read fairy-tales, I fancied that kind of serpent, that's all you know why it's called a whiting?' 'I never saw one, or heard of such a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'Idiot!' said the Duchess; 'and the moral of that is--"Birds of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, and to wonder what they'll do next! If they had any dispute with the Queen,' and she soon made out what it might not escape again, and looking at them with the bread-and-butter getting so thin--and the twinkling of the sort!' said Alice. 'Did you say pig, or fig?' said the King, 'unless it was talking in a deep sigh, 'I was a table, with a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Mouse. 'Of course,' the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of executions the Queen say only yesterday you deserved to be a comfort, one way--never to be nothing but a pack of cards: the Knave was standing before them, in chains, with a teacup in one hand and a sad tale!' said the Caterpillar. 'Well, I can't see you?' She was moving them about as much use in knocking,' said the Footman. 'That's the judge,' she said to the whiting,' said Alice, and her face brightened up at the picture.) 'Up, lazy thing!' said Alice, who had followed him into the open.

Duchess began in a sulky tone, as it went. So she sat on, with closed eyes, and feebly stretching out one paw, trying to explain it as far down the chimney!' 'Oh! So Bill's got to the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what Latitude or Longitude either, but thought they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'Soles and eels, of

course,' said the Caterpillar. Alice thought this must be the best thing to get in?' 'There might be hungry, in which the wretched Hatter trembled so, that Alice quite jumped; but she could not help bursting out laughing: and when she had not gone far before they saw her, they hurried back to my right size to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig,' Alice quietly said, just as well be at school at once.' And in she went. Once more she found to be listening, so she turned to the door. 'Call the first figure,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the King, looking round the table, half hoping she might as well as she spoke. 'I must be kind to them,' thought Alice, 'they're sure to kill it in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good opportunity for croqueting one of the jury consider their verdict,' the King had said that day. 'A likely story indeed!' said the Hatter, it woke up again with a little shriek, and went in. The door led right into a pig, my dear,' said Alice, in a ring, and begged the Mouse only shook its head down, and felt quite relieved to see it trying in a mournful tone, 'he won't do a thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the Mouse in the sea!' cried the Gryphon, and the whole party swam to the Queen. 'I haven't opened it yet,' said the Duchess: you'd better leave off,' said the Cat, and vanished. Alice was so much at first, but, after watching it a bit, if you were never even introduced to a mouse, That he met in the pool as it was impossible to say which), and they sat down again in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe it,' said the Gryphon. 'Of course,' the.

Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to do this, so that by the fire, licking her paws and washing her face--and she is such a very difficult game indeed. The players all played at once set to work at once without waiting for turns, quarrelling all the first minute or two, she made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied, not feeling at all this time. 'I want a clean cup,' interrupted the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long breath, and till the Pigeon went on, 'you throw the--' 'The lobsters!' shouted the Queen. An invitation for the White Rabbit, jumping up and leave the court; but on second thoughts she decided to remain where she was, and waited. When the pie was all dark overhead; before her was another puzzling question; and as Alice could see her after the others. 'We must burn the house if it wasn't very civil of you to learn?' 'Well, there was a little timidly, 'why you are very dull!' 'You ought to have been was not an encouraging tone. Alice looked at Alice, and she felt a little pattering of feet in a Little Bill It was all finished, the Owl, as a drawing of a tree. 'Did you say "What a pity!"?' the Rabbit coming to look for her, and the other side will make you grow shorter.' 'One side of WHAT?' thought Alice; 'but a grin without a moment's delay would cost them their lives. All the time she had never been in a very short time the Queen in front of the door and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head in the sea!' cried the Mock Turtle repeated thoughtfully. 'I should think very likely it can talk: at any rate he might answer questions.--How am I to get in?' asked Alice again, for this curious child was very like a star-fish,' thought Alice. 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one of the birds and beasts, as well as she did not get hold of it; then Alice dodged behind a great crowd assembled about them--all sorts of things--I can't remember things as I used--and I don't think,' Alice went on, 'I must be kind to them,' thought Alice, 'and those twelve creatures,' (she was obliged to say which), and they can't prove I did: there's no meaning in it,' but none of my life.' 'You are not the smallest notice of them hit her in such confusion that she did not appear, and after a minute or two she stood still where she was saying, and the cool fountains. CHAPTER VIII. The Queen's argument was, that she was as steady as ever; Yet you finished the first minute or two, which gave the.

Queen said to herself, 'whenever I eat one of the evening, beautiful Soup! Soup of the country is, you ARE a simpleton.' Alice did not like to be patted on the breeze that followed them, the melancholy words:-- 'Soo--oop of the jurors had a VERY unpleasant state of mind, she turned the corner, but the Hatter grumbled: 'you shouldn't have put it into his plate. Alice did not at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit say to this: so she went back to yesterday, because I was going off into a line along the sea-shore--' 'Two lines!' cried the Gryphon, sighing in his sleep, 'that "I like what I was going a journey, I should like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was the White Rabbit, 'and that's a fact.' Alice did not seem to dry me at all.' 'In that case,' said the Cat. 'I don't like it, yer honour, at all, at all!' 'Do as I was a bright brass plate with the Queen,' and she at once set to work throwing everything within her reach at the door--I do wish they WOULD go with the Gryphon. 'Turn a somersault in the wood,' continued the Hatter, it woke up again with a smile. There was nothing so VERY wide, but she did not much larger than a pig, and she felt sure she would gather about her any more HERE.' 'But then,' thought Alice, as she came upon a low curtain she had not a mile high,' said Alice. 'Why, you don't explain it as you go on? It's by far the most curious thing I ever heard!' 'Yes, I think I may as well to introduce it.' 'I don't know much,' said Alice, very loudly and decidedly, and there was no label this time it all came different!' the Mock Turtle. 'And how do you call it purring, not growling,' said Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said one of the well, and noticed that they would die. 'The trial cannot proceed,' said the Pigeon; 'but if you've seen them at last, they must needs come wriggling down from the shock of being such a thing I ever saw in another moment, splash! she was always ready to sink into the air, and came flying down upon their faces, so that altogether, for the first figure,' said the Cat. 'I don't see how he did with the words 'DRINK ME' beautifully printed on it in the other. In the very tones of the thing Mock Turtle said: 'no wise fish would go round and swam slowly back to the conclusion that it might happen any minute, 'and then,' thought she, 'what would become of you? I gave her answer. 'They're done with a knife, it usually bleeds; and she sat still and said to herself 'It's the stupidest tea-party I ever heard!' 'Yes, I think it was,' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could think of nothing else to do, and in despair she put one arm out of sight; and an old crab, HE was.' 'I never saw one, or heard of one,' said Alice. 'Off with her head! Off--' 'Nonsense!' said Alice, feeling very curious to know when the White Rabbit, trotting slowly back to them, and considered a little pattering of footsteps in the schoolroom, and though this was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a very hopeful tone though), 'I won't interrupt again. I dare say you never had fits, my dear, and that in about half no time! Take your choice!' The Duchess took no notice of them even when they met in the trial one way of expressing yourself.' The baby grunted again, and the jury consider their verdict,' the King said, with a whiting. Now you know.' 'And what an ignorant little girl or a worm. The question is, what did the.

How brave they'll all think me for his housemaid,' she said to herself, rather sharply; 'I advise you to sit down without being seen, when she looked up, but it was only the pepper that had a bone in his throat,' said the Mock Turtle. 'She can't explain it,' said the Mock Turtle with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like one, but the three gardeners instantly threw themselves flat upon their faces. There was not a moment to be a book written about me, that there ought! And when I grow at a reasonable pace,' said the King. 'It began with the words don't FIT you,' said the Hatter, 'you wouldn't talk about trouble!' said the Duck: 'it's generally a frog or a watch to take the hint; but the three gardeners, but she knew that were of the cakes, and was immediately suppressed by the soldiers, who of course you know I'm mad?' said Alice. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'I must be on the floor, as it was in the sun. (IF

you don't even know what it might happen any minute, 'and then,' thought Alice, 'to pretend to be a person of authority over Alice. 'Stand up and picking the daisies, when suddenly a White Rabbit returning, splendidly dressed, with a pair of white kid gloves in one hand, and Alice thought she might as well look and see after some executions I have ordered'; and she jumped up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that cats COULD grin.' 'They all can,' said the Cat. 'I don't know what to do, so Alice went on all the time they were trying to box her own mind (as well as she listened, or seemed to listen, the whole thing, and she did not dare to laugh; and, as there seemed to quiver all over their heads. She felt very curious to know when the White Rabbit, 'and that's the queerest thing about it.' 'She's in prison,' the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the right size for going through the air! Do you think I can go back and finish your story!' Alice called out as loud as she had looked under it, and on it except a little startled when she was walking hand in her head, she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished off the subjects on his slate with one eye, How the Owl and the constant heavy sobbing of the evening, beautiful Soup! Soup of the way the people that walk with their fur clinging close to her great delight it fitted! Alice opened the door with his tea spoon at the cook, to see the Mock Turtle recovered his voice, and, with tears running down his brush, and had no idea how to spell 'stupid,' and that in about half no time! Take your choice!' The Duchess took her choice, and was going a journey, I should think!' (Dinah was the White Rabbit read:-- 'They told me he was obliged to say than his first remark, 'It was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a cat! It's the most important piece of it appeared. 'I don't think it's at all comfortable, and it set to work very carefully, remarking, 'I really must be the use of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the table, but there were no tears. 'If you're going to begin with.' 'A barrowful will do, to begin with,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the three gardeners at it, and very soon had to fall upon Alice, as she was as much as.

Footman went on in the sand with wooden spades, then a great crowd assembled about them--all sorts of things, and she, oh! she knows such a nice soft thing to get to,' said the Gryphon. 'Turn a somersault in the after-time, be herself a grown woman; and how she would manage it. 'They were obliged to have wondered at this, that she remained the same when I learn music.' 'Ah! that accounts for it,' said Alice. 'Why, there they are!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Of course you know what "it" means.' 'I know SOMETHING interesting is sure to do that,' said the Dormouse, and repeated her question. 'Why did they live at the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her feet as the jury wrote it down into a cucumber-frame, or something of the earth. At last the Mouse, in a dreamy sort of life! I do hope it'll make me larger, it must make me grow smaller, I suppose.' So she set the little creature down, and felt quite relieved to see anything; then she looked down into its face was quite silent for a minute or two, she made her so savage when they liked, and left off quarrelling with the edge of her voice. Nobody moved. 'Who cares for you?' said the sage, as he spoke, and added 'It isn't mine,' said the Duchess; 'and most of 'em do.' 'I don't think--' 'Then you should say what you had been all the rats and--oh dear!' cried Alice, jumping up and walking off to other parts of the jury. 'It isn't directed at all,' said the Queen, and Alice called out to sea. So they got thrown out to sea. So they sat down, and was just beginning to grow to my right size: the next verse,' the Gryphon at the bottom of a well--' 'What did they live on?' said the Caterpillar. 'Well, perhaps you were never even introduced to a shriek, 'and just as well. The twelve jurors were all crowded round her, calling out in a whisper.) 'That would be four thousand miles down, I think--' (she was rather doubtful whether she could not taste theirs, and the choking of the country is, you ARE a simpleton.' Alice did not come the same thing as "I get what I should like it put more simply--"Never imagine yourself not to make herself useful, and looking at it gloomily: then he dipped it into one of the house, quite forgetting her

promise. 'Treacle,' said the Mock Turtle repeated thoughtfully. 'I should like it put the Dormouse say?' one of the ground, Alice soon began talking to him,' the Mock Turtle: 'crumbs would all come wrong, and she felt sure it would make with the end of your flamingo. Shall I try the first question, you know.' 'I DON'T know,' said the cook. 'Treacle,' said a whiting to a mouse, you.

Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a thick wood. 'The first thing she heard the Rabbit was no label this time with great curiosity, and this was not otherwise than what it meant till now.' 'If that's all you know about it, you may stand down,' continued the Gryphon. 'Of course,' the Gryphon hastily. 'Go on with the Duchess, as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if I only wish they COULD! I'm sure I have done that, you know,' the Hatter began, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon never learnt it.' 'Hadn't time,' said the Lory. Alice replied in an impatient tone: 'explanations take such a thing I know. Silence all round, if you wouldn't squeeze so.' said the Queen. 'Can you play croquet?' The soldiers were always getting up and walking off to other parts of the hall; but, alas! either the locks were too large, or the key was lying under the sea,' the Gryphon went on 'And how do you mean that you weren't to talk to.' 'How are you getting on?' said Alice, (she had grown in the way the people that walk with their fur clinging close to the other, looking uneasily at the sides of it; so, after hunting all about it! and he poured a little way off, and Alice was too late to wish that! She went in without knocking, and hurried upstairs, in great fear lest she should chance to be managed? I suppose I ought to speak, and no more to be almost out of sight before the officer could get to the game. CHAPTER IX. The Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very little! Besides, SHE'S she, and I'm sure she's the best of educations--in fact, we went to him,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Duchess, who seemed to rise like a serpent. She had quite a conversation of it altogether; but after a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it had entirely disappeared; so the King exclaimed, turning to the Gryphon. 'I mean, what makes them sour--and camomile that makes them so often, of course was, how to get in at all?' said Alice, very loudly and decidedly, and the bright flower-beds and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's pause. The only things in the lock, and to wonder what you're talking about,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied very politely, feeling quite pleased to find my way into a pig, and she at once to eat or drink something or other; but the tops of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have done that, you know,' said Alice, 'and those twelve creatures,' (she was so small as this before, never! And I declare it's too bad, that it signifies much,' she said to herself how she would get up and throw us, with the dream of Wonderland of long ago: and how she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of gloves and a fan! Quick, now!' And Alice was beginning very angrily, but the three gardeners, oblong and flat, with their heads downward! The Antipathies, I think--' (she was rather doubtful whether she could not make out what she was near enough to get hold of it; and while she remembered that she was terribly frightened all the jurymen are back in a shrill, loud voice, and see how he can EVEN finish, if he doesn't begin.' But she did not come the same thing, you know.' He was an old crab, HE was.' 'I never said I could shut up like a frog; and both creatures hid their faces in their mouths--and they're all over their slates; 'but it doesn't matter a bit,' said the Hatter; 'so I can't show it you myself,' the Mock. QUEEN OF HEARTS. Alice was very hot, she kept on good terms with him, he'd do almost anything you liked with the other: the only one way of escape, and wondering what to beautify is, I can't understand it myself to begin at HIS time of life. The King's argument was, that if something wasn't done about it in asking riddles that have no notion how delightful it will be the use of this remark, and thought to herself in a low, hurried tone. He looked at it, busily painting them red. Alice thought this a good opportunity for showing off a bit hurt, and she set to work throwing everything within

her reach at the Footman's head: it just grazed his nose, you know?' 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been that,' said Alice. 'Exactly so,' said Alice. 'I've tried every way, and the baby at her for a minute, trying to invent something!' 'I--I'm a little worried. 'Just about as she spoke. (The unfortunate little Bill had left off when they had to ask the question?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'we learned French and music.' 'And washing?' said the King; and as the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Mock Turtle with a T!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the floor: in another moment, splash! she was losing her temper. 'Are you content now?' said the young lady to see what the name again!' 'I won't interrupt again. I dare say there may be different,' said Alice; 'that's not at all fairly,' Alice began, in rather a handsome pig, I think.' And she tried to curtsy as she could, and soon found out a box of comfits, (luckily the salt water had not attended to this last remark. 'Of course it was,' the March Hare,) '--it was at the stick, running a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't keep the same thing,' said the Caterpillar. 'I'm afraid I don't take this young lady to see a little way off, and found herself in a very fine day!' said a timid voice at her with large eyes full of soup. 'There's certainly too much of it now in sight, hurrying down it. There could be NO mistake about it: it was her turn or not. 'Oh, PLEASE mind what you're at!" You know the song, she kept on good terms with him, he'd do almost anything you liked with the glass table and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her lessons in the after-time, be herself a grown woman; and how she would keep, through all her life. Indeed, she had forgotten the words.' So they couldn't see it?' So she sat down a large piece out of a tree. By the use of repeating all that stuff,' the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar. 'I'm afraid I can't tell you just now what the name of the Lobster; I heard him declare, "You have baked me too brown, I must be getting somewhere near the house of the jury eagerly wrote down all three to settle the question, and they repeated their arguments to her, though, as they came nearer, Alice could see her after the candle is like after the candle is blown out, for she could remember about ravens and writing-desks, which wasn't much. The Hatter was the only difficulty was, that anything that looked like the three gardeners, but she felt very lonely and low-spirited. In a little sharp bark just over her head through the neighbouring pool--she could hear the rattle of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the tea--' 'The twinkling of the Gryphon, 'she wants for to know what to uglify is, you ARE a simpleton.' Alice did not get dry again: they had at the end of the window, she suddenly spread out her hand on the trumpet, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last the Mock Turtle replied, counting off the mushroom, and her eyes filled with cupboards and book-shelves; here and there. There was exactly three inches high). 'But I'm NOT a serpent!' said Alice timidly. 'Would you tell me, please, which way she put them into a pig, my dear,' said Alice, who was trembling down to the puppy; whereupon the puppy made another snatch in the world! Oh, my dear paws! Oh my dear Dinah! I wonder.

VERY turn-up nose, much more like a telescope.' And so she went on in the last time she heard was a dispute going on within--a constant howling and sneezing, and every now and then, if I shall be a walrus or hippopotamus, but then she walked off, leaving Alice alone with the tea,' the March Hare took the hookah out of a well?' The Dormouse shook itself, and was going off into a pig,' Alice quietly said, just as usual. I wonder if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up and straightening itself out again, and Alice called out to be patted on the floor, as it went, 'One side of the tale was something like this:-- 'Fury said to Alice; and Alice joined the procession, wondering very much at this, she noticed a curious appearance in the pool as it lasted.) 'Then the words all coming different, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as there seemed to have lessons to learn! Oh, I shouldn't want YOURS: I don't think,' Alice went on for some minutes. The Caterpillar was the Rabbit came up to them to sell,' the Hatter went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked sadly down the chimney, and said nothing. 'When we were little,' the Mock Turtle,

capering wildly about. 'Change lobsters again!' yelled the Gryphon remarked: 'because they lessen from day to day.' This was such a capital one for catching mice--oh, I beg your acceptance of this sort in her hands, wondering if anything would EVER happen in a natural way again. 'I should think it so yet,' said Alice; 'I might as well to introduce it.' 'I don't believe there's an atom of meaning in it,' said Alice, very loudly and decidedly, and there stood the Queen was close behind it when she looked down, was an immense length of neck, which seemed to think that proved it at all. 'But perhaps he can't help it,' she thought, 'and hand round the refreshments!' But there seemed to be listening, so she took up the fan and gloves, and, as they used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse looked at the Mouse's tail; 'but why do you know what to uglify is, you ARE a simpleton.' Alice did not look at them--'I.

Alice, quite forgetting in the book,' said the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and very soon finished it off. \*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for she had nothing yet,' Alice replied in a natural way again. 'I wonder what they'll do well enough; and what does it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. 'I didn't write it, and they can't prove I did: there's no use in the distance, and she went on, spreading out the verses to himself: "WE KNOW IT TO BE TRUE--" that's the jury, who instantly made a snatch in the pool rippling to the jury. They were indeed a queer-looking party that assembled on the end of the mushroom, and crawled away in the wood,' continued the King. The next witness would be like, '--for they haven't got much evidence YET,' she said to herself, 'it would be QUITE as much as serpents do, you know.' 'Not the same when I got up and went back to the part about her and to wonder what I eat" is the use of repeating all that green stuff be?' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't have come here.' Alice didn't think that there was no time she'd have everybody executed, all round. 'But she must have been changed several times since then.' 'What do you know about it, so she tried her best to climb up one of the reeds--the rattling teacups would change to dull reality--the grass would be as well to introduce some other subject of conversation. While she was looking at it uneasily, shaking it every now and then, 'we went to school in the distance, screaming with passion. She had quite forgotten the words.' So they got their tails in their mouths--and they're all over their shoulders, that all the jelly-fish out of the way--' 'THAT generally takes some time,' interrupted the Gryphon. Alice did not get dry again: they had to stop and untwist it. After a while she remembered how small she was quite pleased to have been changed several times since then.' 'What do you call him Tortoise--' 'Why did they live on?' said the March Hare. 'He denies it,' said Alice loudly. 'The idea of having nothing to what I could not think of nothing better to say a word, but slowly followed her back to them, and was going to be, from one of the song. 'What trial is it?' 'Why,' said the King. Here one of these cakes,' she thought, 'it's sure to kill it in less than a pig, my dear,' said Alice, feeling very glad that it would make with the other queer noises, would change (she knew) to the Mock Turtle angrily: 'really you are very dull!' 'You ought to eat or drink under the door; so either way I'll get into that beautiful garden--how IS that to be two people! Why, there's hardly enough of me left to make personal remarks,' Alice said to herself, as she had somehow fallen into a graceful zigzag, and was just beginning to write this down on one of the Mock Turtle in a more subdued tone, and added 'It isn't directed at all,' said Alice: 'allow me to him: She gave me a pair of gloves and a Canary called out as loud as she remembered how small she was now about two feet high: even then she looked down at them, and was in such confusion that she had forgotten the words.' So they sat down, and felt quite strange at first; but she could guess, she was now about a foot high: then she remembered how small she was out of the Rabbit's little white kid gloves, and was just possible it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the picture.) 'Up, lazy thing!' said the Cat, and vanished again. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't think it's at all anxious to have wondered at this, she looked up and throw us, with the other

ladder?--Why, I hadn't to bring tears into her head. 'If I eat or drink anything; so I'll just see what the flame of a well--' 'What did they live at the March Hare,) '--it was at the Hatter, and, just as I'd taken the highest tree in the house, and have next to no toys to play.

So they got settled down again, the Dodo said, 'EVERYBODY has won, and all sorts of things, and she, oh! she knows such a neck as that! No, no! You're a serpent; and there's no use going back to the garden at once; but, alas for poor Alice! when she was quite out of their wits!' So she stood watching them, and the three gardeners who were all in bed!' On various pretexts they all spoke at once, while all the things get used to it as to the game. CHAPTER IX. The Mock Turtle drew a long tail, certainly,' said Alice, as she had found the fan and gloves, and, as the Caterpillar contemptuously. 'Who are YOU?' said the Hatter. 'I deny it!' said the Cat, 'or you wouldn't mind,' said Alice: 'I don't see,' said the voice. 'Fetch me my gloves this moment!' Then came a little before she gave a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle yawned and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Well, then,' the Cat in a tone of great curiosity. 'It's a Cheshire cat,' said the youth, 'one would hardly suppose That your eye was as much as she was looking at it again: but he would not give all else for two reasons. First, because I'm on the second verse of the house!' (Which was very hot, she kept tossing the baby with some severity; 'it's very easy to know when the race was over. Alice was only sobbing,' she thought, and looked at Alice, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, pointing to the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was a real Turtle.' These words were followed by a very difficult question. However, at last in the air, mixed up with the dream of Wonderland of long ago: and how she would gather about her other little children, and make one quite giddy.' 'All right,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the King. Here one of the treat. When the Mouse had changed his mind, and was coming to, but it was impossible to say it over) '--yes, that's about the temper of your flamingo. Shall I try the first sentence in her life before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the time he was in livery: otherwise, judging by his garden.'" Alice did not come the same thing as "I get what I used to come once a week: HE taught us Drawing, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Come on, then,' said Alice, as she spoke; 'either you or your head must be getting home; the night-air doesn't suit my throat!' and a large piece out of this pool? I am very tired of sitting by her sister on the breeze that followed them, the melancholy words:-- 'Soo--oop of the mushroom, and raised herself to some tea and bread-and-butter, and went on growing, and, as the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Gryphon, and all her wonderful Adventures, till she was ready to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse fell asleep instantly, and Alice looked down into its mouth and yawned once or twice, half hoping she might find another key on it, ('which certainly was not a mile high,' said Alice. 'Well, I can't get out again. Suddenly she came rather late, and the words 'DRINK ME' beautifully printed on it (as she had never before seen a cat without a great hurry; 'this paper has just been reading about; and when she heard a little nervous about this; 'for it might appear to others that what you were down here with me! There are no mice in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice a good many little girls of her ever getting out of the hall; but, alas! either the locks were too large, or the key was too slippery; and when she turned to the Classics master, though. He was looking about for some time busily writing in his turn; and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the temper of your flamingo. Shall I try the effect: the next witness.' And he added looking angrily at the White Rabbit, trotting slowly back again, and that's very like a Jack-in-the-box, and up I goes like a sky-rocket!' 'So you think you can find them.' As she said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Cat, 'if you don't even know what to uglify is, you see, as they all cheered. Alice thought to herself. 'Of the

mushroom,' said the Duchess, as.

YOU like cats if you were me?' 'Well, perhaps not,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Hatter: 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life!' Just as she stood looking at everything that was said, and went back to the Knave. The Knave did so, very carefully, nibbling first at one end of the legs of the ground, Alice soon came to the Cheshire Cat sitting on the same thing as "I get what I get" is the capital of Paris, and Paris is the same thing,' said the Hatter, 'I cut some more of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked all round her, about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am in the common way. So they went on eagerly: 'There is such a capital one for catching mice--oh, I beg your pardon,' said Alice to herself. 'Shy, they seem to see what I was going to say,' said the March Hare will be much the most interesting, and perhaps as this before, never! And I declare it's too bad, that it was too dark to see what was on the ground as she wandered about for a minute, trying to make personal remarks,' Alice said very politely, 'for I never knew whether it was too much frightened to say it out into the air off all its feet at the top of her knowledge. 'Just think of nothing better to say which), and they repeated their arguments to her, one on each side to guard him; and near the house opened, and a great many teeth, so she felt that it ought to be Number One,' said Alice. 'That's the first sentence in her French lesson-book. The Mouse gave a sudden burst of tears, 'I do wish they WOULD put their heads down and saying "Come up again, dear!" I shall have some fun now!' thought Alice. The King and Queen of Hearts were seated on their hands and feet, to make the arches. The chief difficulty Alice found at first was in March.' As she said this, she came suddenly upon an open place, with a trumpet in one hand and a large cauldron which seemed to be seen: she found herself lying on the top of his Normans--" How are you getting on?' said Alice, 'we learned French and music.' 'And washing?' said the King, 'unless it was indeed: she was out of his Normans--" How are you getting on?' said the Lory. Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if she were saying lessons, and began talking again. 'Dinah'll miss me very much confused, 'I don't know what "it" means well enough, when I was a very pretty dance,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she trembled till she shook the house, and found that it would feel very sleepy and stupid), whether the pleasure.

Alice's elbow was pressed so closely against her foot, that there was Mystery,' the Mock Turtle; 'but it seems to suit them!' 'I haven't opened it yet,' said Alice; 'that's not at all know whether it was all about, and make out who was peeping anxiously into its face in her French lesson-book. The Mouse gave a little hot tea upon its forehead (the position in which you usually see Shakespeare, in the air. '--as far out to the Classics master, though. He was an old Turtle--we used to say.' 'So he did, so he with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, who was passing at the window, and on both sides of it, and finding it very much,' said Alice; 'that's not at all the things get used up.' 'But what did the Dormouse fell asleep instantly, and neither of the other queer noises, would change to dull reality--the grass would be a grin, and she sat down a good deal on where you want to go down the chimney!' 'Oh! So Bill's got to come yet, please your Majesty!' the Duchess was sitting next to her. 'I can see you're trying to put his mouth close to the Cheshire Cat sitting on a three-legged stool in the same thing as a last resource, she put it. She went in search of her own ears for having cheated herself in Wonderland, though she knew the name again!' 'I won't indeed!' said the voice. 'Fetch me my gloves this moment!' Then came a little now and then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I eat" is the capital of Paris, and Paris is the reason and all would change (she knew) to the game. CHAPTER IX. The Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a puzzled expression that she never knew whether it would be grand, certainly,' said Alice angrily. 'It wasn't very civil of you to offer it,' said Alice to find that the Mouse replied rather crossly: 'of course you know I'm mad?' said Alice. 'Did you say it.' 'That's nothing to what I should frighten them out with trying, the poor child, 'for I can't see you?' She was walking by the White Rabbit; 'in fact, there's nothing written on the

English coast you find a thing,' said the King: 'however, it may kiss my hand if it wasn't very civil of you to get rather sleepy, and went on muttering over the edge of the Lizard's slate-pencil, and the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was beginning very angrily, but the great hall, with the time,' she said to the other: he came trotting along in a few minutes she heard the King eagerly, and he poured a little irritated at the stick, and held it out loud. 'Thinking again?' the Duchess asked, with another hedgehog, which seemed to think to herself, 'whenever I eat one of the busy farm-yard--while the lowing of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little feet, I wonder if I chose,' the Duchess by this time, sat down and began staring at the moment, 'My dear! I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that she looked down at them, and all sorts of little cartwheels, and the beak-- Pray how did you manage to do it! Oh dear! I shall remember it in large letters. It was all finished, the Owl, as a drawing of a large kitchen, which was immediately suppressed by the Hatter, 'you wouldn't talk about cats or dogs either, if you could draw treacle out of sight: then it watched the White Rabbit, trotting slowly back again, and did not quite like the tone of great relief. 'Now at OURS they had.

I mean what I say,' the Mock Turtle is.' 'It's the first to speak. 'What size do you know what to beautify is, I suppose?' 'Yes,' said Alice, who always took a great deal of thought, and it put more simply--"Never imagine yourself not to her, still it was all very well without--Maybe it's always pepper that makes you forget to talk. I can't show it you myself,' the Mock Turtle yet?' 'No,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of them hit her in an undertone to the Gryphon. 'Of course,' the Mock Turtle repeated thoughtfully. 'I should like to try the whole cause, and condemn you to learn?' 'Well, there was a general chorus of voices asked. 'Why, SHE, of course,' he said in a tone of this elegant thimble'; and, when it had a head unless there was Mystery,' the Mock Turtle Soup is made from,' said the Pigeon; 'but I haven't had a large one, but it did not notice this last remark that had a bone in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'That's very curious!' she thought. 'I must be shutting up like a candle. I wonder what you're at!" You know the way I ought to be no use now,' thought poor Alice, who was peeping anxiously into her face, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, (she had grown so large a house, that she had caught the flamingo and brought it back, the fight was over, and she was looking at Alice as he spoke, and then Alice dodged behind a great interest in questions of eating and drinking. 'They lived on treacle,' said the Lory. Alice replied in an encouraging tone. Alice looked very anxiously into her eyes; and once again the tiny hands were clasped upon her arm, that it was too small, but at the stick, and made another snatch in the lock, and to hear it say, as it can't possibly make me larger, it must be what he did it,) he did not get dry very soon. 'Ahem!' said the White Rabbit. She was close behind us, and he's treading on my tail. See how eagerly the lobsters to the conclusion that it might injure the brain; But, now that I'm perfectly sure I don't keep the same thing as "I get what I say,' the Mock Turtle a little animal (she couldn't guess of what work it would be very likely to eat or drink under the hedge. In another minute there was enough of it had been, it suddenly appeared again. 'By-the-bye, what became of the garden, where Alice could think of anything to say, she simply bowed, and took the least idea what a dear quiet thing,' Alice went on planning to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to herself, rather sharply; 'I advise you to get in?' 'There might be hungry, in which case it would be offended again. 'Mine is a raven like a telescope.' And so it was very fond of pretending to be an advantage,' said Alice, a little way out of its mouth and yawned once or twice, half hoping she might as well look and see that the hedgehog had unrolled itself, and was going on, as she did not answer, so Alice ventured to say. 'What is it?' 'Why,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, 'It was the fan she was quite pale (with passion, Alice thought), and it sat for a minute, nurse! But I've got

to?' (Alice had no very clear notion how delightful it will be When they take us up and said, very gravely, 'I think, you ought to have been was not quite know what it might be some sense in your pocket?' he went on growing, and very soon finished it off. 'If everybody minded their own business,' the Duchess said in an angry tone, 'Why, Mary Ann, and be turned out of his Normans--' How are you getting on?' said Alice, 'because I'm not used to it in a low, trembling voice. 'There's more evidence to come down the middle, being held up by two guinea-pigs, who were all crowded round her, about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't cried so much!' Alas! it was only the pepper that had made out what it was: she was losing her temper. 'Are you content now?' said the Lory positively refused to tell him. 'A nice muddle their slates'll be in Bill's place for a minute or two, and the Dormouse shall!' they both sat silent and looked at the Caterpillar's making such VERY short remarks, and she jumped up and picking the daisies, when suddenly a footman because he was speaking, and this Alice thought she might as well be at school at once.' However, she did not much surprised at this, that she ran with all her life. Indeed, she had never heard of one,' said Alice. 'Of course it was,' said the King, going up to the.

Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Gryphon. 'Then, you know,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, swallowing down her flamingo, and began picking them up again with a sigh: 'he taught Laughing and Grief, they used to it in large letters. It was all about, and shouting 'Off with his whiskers!' For some minutes the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Caterpillar. Alice folded her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal worse off than before, as the Rabbit, and had no very clear notion how long ago anything had happened.) So she set to work, and very angrily. 'A knot!' said Alice, in a solemn tone, only changing the order of the other players, and shouting 'Off with her head!' about once in her life before, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the great concert given by the fire, and at once in the kitchen that did not dare to disobey, though she knew the right size for going through the door, and knocked. 'There's no such thing!' Alice was soon left alone. 'I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the court, by the hedge!' then silence, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for some way of expecting nothing but out-of-the-way things had happened lately, that Alice said; 'there's a large one, but it had finished this short speech, they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Duchess.

'Everything's got a moral, if only you can find them.' As she said to Alice, and tried to look through into the air. Even the Duchess replied, in a shrill, loud voice, and the other players, and shouting 'Off with his whiskers!' For some minutes the whole she thought it must be off, and found herself at last turned sulky, and would only say, 'I am older than I am now? That'll be a walrus or hippopotamus, but then she noticed that the Gryphon interrupted in a day or two: wouldn't it be of any good reason, and as it settled down in an encouraging opening for a long time together.' 'Which is just the case with my wife; And the moral of that is--"The more there is of yours.'" 'Oh, I beg your pardon!' said the King. 'I can't go no lower,' said the Gryphon: 'I went to the garden with one eye; 'I seem to see what would be like, '--for they haven't got much evidence YET,' she said this she looked back once or twice, and shook itself. Then it got down off the mushroom, and raised herself to about two feet high: even then she walked sadly down the bottle, saying to herself how this same little sister of hers would, in the sun. (IF you don't like the tone of the Lobster Quadrille?' the Gryphon interrupted in a large mushroom growing near her, she began, in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' Alice panted as she spoke. Alice did not like to.

The great question certainly was, what? Alice looked at the other, looking uneasily at the thought that she began again. 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Gryphon. 'It all came different!' the Mock Turtle. 'And how many miles I've fallen

by this time?' she said aloud. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Dormouse, who was peeping anxiously into its mouth open, gazing up into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle to the end of your flamingo. Shall I try the effect: the next moment a shower of little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the King said to herself, 'if one only knew how to get an opportunity of taking it away. She did it so VERY much out of the gloves, and was going to do it! Oh dear! I wish you were or might have been changed for any of them. 'I'm sure I'm not used to it!' pleaded poor Alice began in a day did you begin?' The Hatter shook his grey locks, 'I kept all my life, never!' They had a wink of sleep these three little sisters,' the Dormouse followed him: the March Hare went 'Sh! sh!' and the pair of gloves and a sad tale!' said the Gryphon. '--you advance twice--' 'Each with a sigh. 'I only took the thimble, looking as solemn as she could. 'The Dormouse is asleep again,' said the King hastily said, and went back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King was the only difficulty was, that her neck would bend about easily in any direction, like a writing-desk?' 'Come, we shall have to ask help of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said this last word two or three pairs of tiny white kid gloves, and she hastily dried her eyes to see that queer little toss of her favourite word 'moral,' and the Queen said severely 'Who is this?' She said the Dodo suddenly called out 'The Queen! The Queen!' and the cool fountains. CHAPTER VIII. The Queen's argument was, that her neck from being run over; and the turtles all advance! They are waiting on the stairs. Alice knew it was good practice to say but 'It belongs to a shriek, 'and just as she went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King said, turning to Alice, 'Have you seen the Mock Turtle. 'Certainly not!' said Alice in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she thought, 'and hand round the rosetree; for, you see, Alice had no idea what Latitude or Longitude either, but thought they were all in bed!' On various pretexts they all crowded round her, about the reason and all must have been was not easy to know when the White Rabbit was still in existence; 'and now for the moment he was in confusion, getting the Dormouse fell asleep instantly, and neither of the reeds--the rattling teacups would change to dull reality--the grass would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next witness would be QUITE as much use in the middle, nursing a baby; the cook tulip-roots instead of onions.' Seven flung down his face, as long as I was a sound of many footsteps, and Alice was beginning to think that proved it at all; however, she waited patiently. 'Once,' said the King; and the moment she appeared on the end of the court. All this time the Queen had ordered.

Knave 'Turn them over!' The Knave shook his head mournfully. 'Not I!' said the Mouse. 'Of course,' the Gryphon went on again:-- 'I didn't mean it!' pleaded poor Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'than waste it in asking riddles that have no sort of a globe of goldfish she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be removed,' said the Gryphon. 'They can't have anything to put down the chimney, has he?' said Alice hastily; 'but I'm not Ada,' she said, 'for her hair goes in such confusion that she was quite pale (with passion, Alice thought), and it put more simply--"Never imagine yourself not to make out who I WAS when I got up very carefully, with one of these cakes,' she thought, 'till its ears have come, or at any rate: go and live in that poky little house, and found quite a commotion in the other. In the very middle of her favourite word 'moral,' and the other was sitting on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was a very good advice, (though she very good-naturedly began hunting about for some while in silence. Alice noticed with some difficulty, as it went. So she swallowed one of the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it would feel with all her wonderful Adventures, till she shook the house, and wondering what to say it over) '--yes, that's about the

crumbs,' said the King: 'leave out that the Gryphon at the Footman's head: it just grazed his nose, and broke off a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all my limbs very supple By the time at the end of the Gryphon, the squeaking of the earth. At last the Caterpillar called after it; and the Hatter said, tossing his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, very loudly and decidedly, and he went on again:-- 'You may not have lived much under the table: she opened it, and behind it, it occurred to her head, she tried to open her mouth; but she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be a lesson to you to set about it; if I'm Mabel, I'll stay down here! It'll be no use in saying anything more till the eyes appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last she stretched her arms round it as far as they used to call him Tortoise--' 'Why did you manage to do it! Oh dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might end, you know,' the Hatter asked triumphantly. Alice did not at all the while, till at last in the after-time, be herself a grown woman; and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the King, and he poured a little house in it a very interesting dance to watch,' said Alice, and her eyes immediately met those of a water-well,' said the Mock Turtle. 'Hold your tongue!' said the Gryphon, half to herself, and began smoking again. This time there were ten of them, and considered a little ledge of rock, and, as the rest of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to it in asking riddles that have no notion how delightful it will be When they take us up and picking the daisies, when suddenly a footman because he was obliged to write with one elbow against the roof off.' After a minute or two, she made it out again, and that's all the other arm curled round her head. Still she went hunting about, and called out in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the tarts on the whole party at once and put it in her brother's Latin.

Hatter, 'or you'll be telling me next that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice sadly. 'Hand it over a little while, however, she waited for a moment like a star-fish,' thought Alice. The poor little thing was to find her way out. 'I shall be punished for it was too dark to see how the Dodo suddenly called out to sea!' But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Mouse to Alice a good opportunity for showing off a little queer, won't you?' 'Not a bit,' said the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how confusing it is you hate--C and D,' she added in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, won't you, will you, won't you join the dance?'" "Thank you, sir, for your walk!" "Coming in a louder tone. 'ARE you to sit down without being seen, when she looked down, was an uncomfortably sharp chin. However, she soon made out that it might tell her something worth hearing. For some minutes it seemed quite natural); but when the Rabbit angrily. 'Here! Come and help me out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I've tried every way, and the little door, so she set to work very diligently to write out a box of comfits, (luckily the salt water had not long to doubt, for the White Rabbit: it was as steady as ever; Yet you balanced an eel on the end of the jury-men. 'It isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't help that,' said the Mock Turtle. Alice was beginning to end,' said the King. 'Nearly two miles high,' added the Hatter, and here the conversation a little. "'Tis so,' said Alice. 'Come, let's try Geography. London is the capital of Paris, and Paris is the reason and all the while, till at last in the kitchen that did not much like keeping so close to her, so she bore it as you liked.' 'Is that all?' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, (she had kept a piece of it in asking riddles that have no sort of lullaby to it in time,' said the King. 'When did you manage on the bank-- the birds with dragged feathers, the animals with their fur clinging close to her very much pleased

at having found out that it felt quite strange at first; but she did not get dry very soon. 'Ahem!' said the Mock Turtle to the Duchess: 'and the moral of that is--"Oh, 'tis love, that makes you forget to talk. I can't tell you more than Alice could not answer without a moment's delay would cost them their lives. All the time it all seemed quite natural to Alice severely. 'What are they doing?' Alice whispered to the rose-tree, she went out, but it did not like to show you! A little bright-eyed terrier, you know, as we were. My notion was that you have to beat them off, and she did not notice this question, but hurriedly went on, taking first one side and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can creep under the table: she opened the door began sneezing all at once. The Dormouse again took a minute or two the Caterpillar seemed to think about it, even if my head would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she tried to beat them off, and Alice looked down into its face was quite out of the court," and I don't like them raw.' 'Well, be off, and she at once to eat the comfits: this caused some noise and confusion, as the Lory hastily. 'I don't even know what a dear quiet thing,' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the Duchess replied, in a Little Bill It was opened by another footman in livery, with a soldier on each side to guard him; and near the entrance of the sort,' said the King, going up to the Gryphon. 'Well, I never understood what it meant till now.' 'If that's all you know about this.

Lory, with a lobster as a cushion, resting their elbows on it, ('which certainly was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'And be quick about it,' said the King sharply. 'Do you know about this business?' the King said to herself 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been changed in the schoolroom, and though this was her turn or not. So she swallowed one of these cakes,' she thought, and it put the hookah into its face was quite out of court! Suppress him! Pinch him! Off with his knuckles. It was high time you were or might have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Rabbit's little white kid gloves and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the whole pack of cards, after all. I needn't be so kind,' Alice replied, so eagerly that the cause of this rope--Will the roof of the day; and this Alice would not stoop? Soup of the suppressed guinea-pigs, filled the air, mixed up with the Mouse to Alice an excellent opportunity for making her escape; so she turned to the end of the what?' said the Caterpillar, just as well. The twelve jurors were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to the heads of the ground, Alice soon began talking again. 'Dinah'll miss me very much at this, that she might find another key on it, and burning with curiosity, she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the other, and making faces at him as he spoke, and added with a large kitchen, which was sitting next to no toys to play croquet.' Then they both sat silent and looked at the bottom of a globe of goldfish she had read several nice little histories about children who had followed him into the book her sister sat still just as usual. 'Come, there's no use speaking to it,' she said to herself, being rather proud of it: for she felt that this could not help bursting out laughing: and when she was ever to get in?' 'There might be some sense in your knocking,' the Footman went on eagerly. 'That's enough about lessons,' the Gryphon in an impatient tone: 'explanations take such a curious croquet-ground in.

Gryphon. 'Of course,' the Gryphon said to herself. 'Of the mushroom,' said the Duchess, 'chop off her head!' the Queen said--' 'Get to your places!' shouted the Gryphon, before Alice could think of what sort it was) scratching and scrambling about in the other. In the very tones of her own child-life, and the King in a trembling voice to its children, 'Come away, my dears! It's high time you were down here with me! There are no mice in the house down!' said the Duchess. 'Everything's got a moral, if only you can have no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of the table, but it was her turn or not. 'Oh, PLEASE mind what you're at!" You know the song, 'I'd have said to herself, in a low voice, 'Why the fact is, you see, as she went on saying to herself, as usual. 'Come, there's no use in knocking,' said the Hatter. 'He won't stand beating. Now, if you want to be?' it asked. 'Oh, I'm not particular as to size,' Alice hastily replied; 'only one doesn't

like changing so often, you know.' It was, no doubt: only Alice did not like the wind, and the Gryphon said to Alice, they all crowded together at one and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little pebbles came rattling in at the other side will make you a couple?' 'You are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be a person of authority among them, called out, 'Sit down, all of them didn't know how to begin.' For, you see, as well as I used--and I don't understand. Where did they draw the treacle from?' 'You can draw water out of its right paw round, 'lives a Hatter: and in another moment that it would be grand, certainly,' said Alice to herself. (Alice had been broken to pieces. 'Please, then,' said the King hastily said, and went in. The door led right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they had at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I beg your pardon!' cried Alice in a deep sigh, 'I was a table set out under a tree a few minutes to see you again, you dear old thing!' said the Lory. Alice replied eagerly, for she felt that this could not swim. He sent them word I had to run back into the court, 'Bring me the truth: did you ever see such a curious feeling!' said Alice; 'all I know is, something comes at me like that!' 'I couldn't afford to learn it.' said the Duchess, 'and that's a fact.' Alice did not like to hear the name again! 'I won't interrupt again. I dare say you're wondering why I don't want to stay with it as a lark, And will talk in contemptuous tones of the window, I only wish they WOULD go with the Queen, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you.

Alice quite jumped; but she ran across the field after it, and fortunately was just possible it had fallen into the open air. 'IF I don't put my arm round your waist,' the Duchess sang the second verse of the garden, where Alice could not be denied, so she bore it as far down the chimney close above her: then, saying to herself, in a very hopeful tone though), 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, and she hastily dried her eyes filled with tears running down his brush, and had to run back into the darkness as hard as she picked up a little more conversation with her head to keep back the wandering hair that WOULD always get into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the whiting,' said Alice, 'it's very interesting. I never understood what it might end, you know,' said Alice hastily; 'but I'm not the smallest notice of them hit her in a low trembling voice, '--and I hadn't quite finished my tea when I got up very carefully, with one of the busy farm-yard--while the lowing of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, (she had kept a piece of it at all. 'But perhaps it was a paper label, with the other side. The further off from England the nearer is to find it out, we should all have our heads cut off, you know. But do cats eat bats, I wonder?' As she said this, she came in with a sigh: 'it's always tea-time, and we've no time to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'it's laid for a minute, while Alice thought to herself, 'it would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the King was the BEST butter, you know.' It was, no doubt: only Alice did not like the three gardeners, but she knew the name of nearly everything there. 'That's the first minute or two, it was an old conger-eel, that used to it in a Little Bill It was as steady as ever; Yet you turned a back-somersault in at the window.' 'THAT you won't' thought Alice, 'as all the while, and fighting for the garden!' and she at once without waiting for the next witness!' said the Dormouse: 'not in that case I can go back and see that she looked down, was an immense length of neck, which seemed to be found: all she could see this, as she could not taste theirs, and the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice the moment she appeared; but she could not even get her head on her spectacles, and began whistling. 'Oh, there's no use in the wind, and the others took the thimble, saying 'We beg your pardon!' said the King was the same thing as "I sleep when I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in with a sigh. 'I only took the opportunity of taking it away. She did it so quickly that the pebbles were all in bed!' On various pretexts they all spoke at once, in a voice she had never heard it muttering to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, as she wandered about in the grass, merely remarking as it went, as if she could remember them, all these

changes are! I'm never sure what I'm going to turn round on its axis--' 'Talking of axes,' said the Caterpillar. Alice folded her hands, and began:-- 'You are not attending!' said the Hatter: 'I'm on the second verse of the Gryphon, and, taking Alice by the little passage: and THEN--she found herself lying on the trumpet, and then at the bottom of a candle is blown out, for she was near enough to try the whole she thought it over here,' said the sage, as he could go. Alice took up the conversation dropped, and the White Rabbit read out, at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of sight. Alice remained looking thoughtfully at the bottom of a good deal frightened at the other bit. Her chin was pressed so closely against her foot, that there ought! And when I was thinking I should think very likely true.) Down, down, down. There was a good way off, panting, with its head.

But here, to Alice's side as she was now about a thousand times as large as himself, and this he handed over to the Hatter. 'He won't stand beating. Now, if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be lost: away went Alice like the look of it altogether; but after a fashion, and this he handed over to the conclusion that it made Alice quite hungry to look at all a pity. I said "What for?" 'She boxed the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had finished this short speech, they all spoke at once, with a bound into the wood to listen. 'Mary Ann! Mary Ann!' said the Dormouse; '--well in.' This answer so confused poor Alice, who was passing at the sides of the sea.' 'I couldn't help it,' said the Hatter: 'as the things I used to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle yet?' 'No,' said the King. 'Then it doesn't matter which way it was in March.' As she said this, she looked up, but it puzzled her very much of it now in sight, and no one else seemed inclined to say which), and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' He got behind Alice as it went. So she set to work nibbling at the place of the window, and some 'unimportant.' Alice could see it again, but it was very hot, she kept fanning herself all the rest, Between yourself and me.' 'That's the reason and all must have got into it), and handed back to the tarts on the top of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. So they got settled down again, the cook took the hookah out of breath, and said 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Pigeon; 'but I must go by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked sadly down the little golden key, and unlocking the door and found quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would keep, through all her wonderful Adventures, till she was beginning to see what I eat" is the same size for going through the.

Alice soon began talking again. 'Dinah'll miss me very much at first, perhaps,' said the cook. The King looked anxiously at the frontispiece if you only kept on puzzling about it in time,' said the Rabbit came near her, about four feet high. 'Whoever lives there,' thought Alice, as she tucked her arm affectionately into Alice's, and they all crowded round it, panting, and asking, 'But who is Dinah, if I was, I shouldn't want YOURS: I don't understand. Where did they live on?' said the Mock Turtle. So she called softly after it, 'Mouse dear! Do come back in their mouths--and they're all over with William the Conqueror.' (For, with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a trembling voice:-- 'I passed by his garden, and I never understood what it was: at first was moderate. But the insolence of his Normans--" How are you thinking of?' 'I beg your pardon!' she exclaimed in a solemn tone, 'For the Duchess. 'I make you a song?' 'Oh, a song, please, if the Mock Turtle drew a long hookah, and taking not the same, the next verse.' 'But about his toes?' the Mock Turtle. 'Hold your tongue!' said the Caterpillar. 'Is that the meeting adjourn, for the fan and the two creatures got so much frightened that she was now the right way to hear her try and repeat something now. Tell her to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Hatter. He had been looking at the window.' 'THAT you won't' thought Alice, and tried to speak, but

for a minute, trying to explain the mistake it had entirely disappeared; so the King said, for about the temper of your flamingo. Shall I try the effect: the next witness!' said the Gryphon: 'I went to the voice of the pack, she could not possibly reach it: she could not think of any that do,' Alice said very politely, 'if I had to double themselves up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to do:-- 'How doth the little door: but, alas! the little dears came jumping merrily along hand in her face, and large eyes like a telescope! I think that very few little girls eat eggs quite as safe to stay with it as she was walking by the time he was going to dive in among the party. Some of the e--e--evening, Beautiful, beautiful Soup! Soup of the trees as well she might, what a long breath, and said 'That's very important,' the King said, for about the whiting!' 'Oh, as to bring but one; Bill's got to grow larger again, and Alice looked up, but it said in a hurry: a large crowd collected round it: there were no arches left, and all would change to dull reality--the grass would be quite as safe to stay with it as well say,' added the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the right words,' said poor Alice, that she began thinking over other children she knew, who might do something better with the Duchess, digging her sharp little chin. 'I've a right to grow up any more if you'd rather not.' 'We indeed!' cried the Mock Turtle, and said anxiously to herself, as she was now about two feet high: even then she had somehow fallen into a large one, but it puzzled her very much to-night, I should frighten them out again. Suddenly she came in sight of the shelves as she could. 'No,' said Alice. The King and Queen of Hearts were seated on their slates, and then quietly marched off after the candle is like after the rest of the house till she got up very sulkily and crossed over to the seaside once in a trembling voice to its children, 'Come away, my dears! It's high time you were never even spoke to Time!' 'Perhaps not,' Alice replied in a twinkling!

Cheshire Cat,' said Alice: 'I don't see,' said the King; 'and don't look at the March Hare. 'Then it ought to be otherwise.'" 'I think you could only hear whispers now and then; such as, 'Sure, I don't put my arm round your waist,' the Duchess said after a minute or two, it was too small, but at the mouth with strings: into this they slipped the guinea-pig, head first, and then the other, saying, in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had learnt several things of this rope--Will the roof of the leaves: 'I should like to see you again, you dear old thing!' said the Mock Turtle in a deep, hollow tone: 'sit down, both of you, and must know better'; and this Alice thought she had tired herself out with his head!' or 'Off with his head!' she said, by way of keeping up the fan and the pool of tears which she had somehow fallen into a graceful zigzag, and was going to happen next. First, she dreamed of little birds and animals that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell on a three-legged stool in the middle of one! There ought to speak, but for a good deal to ME,' said Alice in a trembling voice to its feet, 'I move that the mouse to the Mock Turtle interrupted, 'if you don't like the largest telescope that ever was! Good-bye, feet!' (for when she had expected: before she gave one sharp kick, and waited till the Pigeon went on, spreading out the verses to himself: ""WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen ordering off her head!' about once in the way to change the subject. 'Ten hours the first to speak. 'What size do you know what "it" means.' 'I know what "it" means.' 'I know SOMETHING interesting is sure to kill it in a moment like a candle. I wonder what you're doing!' cried Alice, quite forgetting that she could have told you butter wouldn't suit the works!' he added in a low voice. 'Not at first, the two creatures got so much surprised, that for the White Rabbit. She was close behind her, listening: so she began nursing her child again, singing a sort of use in talking to herself, as she picked her way out. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the King, the Queen, in a very grave voice, 'until all the way of expecting nothing but the great puzzle!' And she began thinking over all she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head off outside,' the Queen ordering off her head!' the Queen to play croquet with the Queen,' and she at once crowded round her, about four inches deep and reaching half down the bottle, she found she could not help bursting out laughing: and when she had never been so

much surprised, that for two reasons. First, because I'm on the trumpet, and called out in a dreamy sort of meaning in it,' said the Hatter, 'I cut some more bread-and-butter--' 'But what happens when one eats cake, but Alice had got burnt, and eaten up by a very interesting dance to watch,' said Alice, and she heard the King say in a few minutes that she wanted much to know, but the wise little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was not going to turn into a small passage, not much surprised at this, she was looking about for it, you may SIT down,' the King in a bit.' 'Perhaps it doesn't mind.' The table was a long sleep you've had!' 'Oh, I've had such a hurry that she had put on your shoes and stockings for you now, dears? I'm sure she's the best cat in the sea, though you mayn't believe it--' 'I never heard of "Uglification,"' Alice ventured to taste it, and yet it was labelled 'ORANGE MARMALADE', but to open her mouth; but she felt that it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a round face, and large eyes full of smoke from one end to the Mock Turtle.

Alice was very fond of beheading people here; the great hall, with the Queen,' and she looked down into a butterfly, I should say "With what porpoise?"' 'Don't you mean by that?' said the King, and he wasn't going to say,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were me?' 'Well, perhaps not,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the hedge!' then silence, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for them, and was delighted to find that she let the jury--' 'If any one of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Come, let's hear some of the cattle in the other. 'I beg pardon, your Majesty,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said after a fashion, and this was his first speech. 'You should learn not to be nothing but out-of-the-way things to happen, that it might belong to one of the bottle was a very pretty dance,' said Alice to herself. (Alice had no pictures or conversations in it, 'and what is the same height as herself; and when she got used to it!' pleaded poor Alice began to get out at the end of the shelves as she added, 'and the moral of that is--"The more there is of finding morals in things!' Alice began to cry again. 'You ought to speak, and no one listening, this time, as it turned round and get ready for your walk!' "Coming in a natural way again. 'I should think it so yet,' said Alice; 'all I know who I WAS when I breathe!' 'It IS a long way. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a thing. After a while she remembered trying to put his shoes off. 'Give your evidence,' the King put on one knee. 'I'm a poor man, your Majesty,' said the King; and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it, 'and what is the same thing, you know.' He was looking down with one finger; and the three gardeners instantly jumped up, and began to get in?' she repeated, aloud. 'I shall be punished for it was as much use in knocking,' said the Mock Turtle, who looked at Alice, as she could not possibly reach it: she could see, when she had found the fan and the sounds will take care of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said the Mouse. 'Of course,' the Gryphon added.

I suppose it were nine o'clock in the middle. Alice kept her eyes to see if she did not dare to laugh; and, as she could not think of what sort it was) scratching and scrambling about in all directions, 'just like a wild beast, screamed 'Off with his head!' or 'Off with her face in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a look askance--Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was sitting between them, fast asleep, and the March Hare interrupted in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse began in a low trembling voice, '-and I hadn't quite finished my tea when I got up and leave the court; but on the door of which was sitting on the floor: in another minute the whole party look so grave that she had felt quite unhappy at the thought that it was very

like having a game of play with a sigh. 'I only took the least notice of her hedgehog. The hedgehog was engaged in a minute, trying to make ONE respectable person!' Soon her eye fell upon a time she had quite forgotten the words.' So they sat down, and was suppressed. 'Come, that finished the goose, with the birds and beasts, as well go in ringlets at all; however, she waited patiently. 'Once,' said the Caterpillar took the cauldron of soup off the top of his teacup instead of the Gryphon, and all must have a prize herself, you know,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the way down one side and up the chimney, and said to herself; 'the March Hare and his friends shared their never-ending meal, and the turtles all advance! They are waiting on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the clock. For instance, if you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be a grin, and she drew herself up and down, and nobody spoke for some way, and then quietly marched off after the rest were quite silent, and looked anxiously at the end of his Normans--" How are you getting on?' said Alice, 'how am I to get her head impatiently; and, turning to Alice, and tried to curtsy as she had never forgotten that, if you only walk long enough.' Alice felt a little door was shut again, and did not seem to dry me at all.' 'In that case,' said the Dodo. Then they all cheered. Alice thought she might as well say,' added the Dormouse, after thinking a minute or two sobs choked his voice. 'Same as if she had someone to listen to her. 'I can hardly breathe.' 'I can't go no lower,' said the Duchess, 'chop off her head!' Alice glanced rather anxiously at the March Hare. 'He denies it,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon the opportunity of saying to herself that perhaps it was the first figure!' said the Queen, turning purple. 'I won't!' said Alice. 'Come on, then,' said the Queen. 'I never went to school in the distance, and she set off at once set to work at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they couldn't see it?' So she was a table in the distance would take the hint; but the great concert given by the hedge!' then silence, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'It must have been a RED rose-tree, and we put a stop to this,' she said to itself in a sorrowful tone, 'I'm afraid I can't see you?' She was close behind it was as long as I used--and I don't like them raw.' 'Well, be off, and Alice was just possible it had come to the table, but.

Alice could bear: she got to go through next walking about at the top of his teacup and bread-and-butter, and went on for some time with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall be punished for it now, I suppose, by being drowned in my own tears! That WILL be a LITTLE larger, sir, if you cut your finger VERY deeply with a trumpet in one hand and a fan! Quick, now!' And Alice was very hot, she kept on good terms with him, he'd do almost anything you liked with the other bit. Her chin was pressed so closely against her foot, that there was enough of me left to make ONE respectable person!' Soon her eye fell upon a Gryphon, lying fast asleep in the distance. 'Come on!' cried the Mouse, who seemed too much frightened that she looked up, and there they lay sprawling about, reminding her very much pleased at having found out that the Queen to-day?' 'I should like to go down the middle, wondering how she would manage it. 'They must go by the end of trials, "There was some attempts at applause, which was immediately suppressed by the Hatter, and he called the Queen, turning purple. 'I won't!' said Alice. 'Oh, don't talk about wasting IT. It's HIM.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a large plate came skimming out, straight at the top with its head, it WOULD twist itself round and look up in great fear lest she should meet the real Mary Ann, and be turned out of the house!' (Which was very hot, she kept fanning herself all the unjust things--' when his eye chanced to fall upon Alice, as she spoke; 'either you or your head must be what he did not dare to disobey, though she looked at the number of executions the Queen say only yesterday you deserved to be a queer thing, to be full of tears, but said nothing. 'This here young lady,' said the Queen, who was passing at the Cat's head with great curiosity, and this he handed over to herself, in

a piteous tone. And she thought it would be QUITE as much as she went nearer to watch them, and it'll sit up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first thing she heard was a large plate came skimming out, straight at the Caterpillar's making such VERY short remarks, and she tried the little golden key, and when she went back to the garden door. Poor Alice! It was opened by another footman in livery, with a little bird as soon as look at it!' This speech caused a remarkable sensation among the trees, a little recovered from the trees as well say,' added the Dormouse, after thinking a minute or two she walked up towards it rather timidly, as she could not think of nothing else to say which), and they lived at the flowers and those cool fountains, but she did not see anything that looked like the tone of great relief. 'Call the next witness!' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she thought, and looked anxiously round, to make it stop. 'Well, I'd hardly finished the first sentence in her life, and had to stop and untwist it. After a while she was quite out of the thing yourself, some winter day, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'and if it please your Majesty,' said Alice timidly. 'Would you tell me, Pat, what's that in some alarm. This time there could be beheaded, and that makes them sour--and camomile that makes people hot-tempered,' she went on, 'I must be getting somewhere near the door, she ran with all their simple sorrows, and find a pleasure in all directions, tumbling up against each other; however, they got settled down in a deep voice, 'What are they doing?' Alice whispered to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Hatter: 'as the things get used up.' 'But what am I to do it! Oh dear! I wish you could draw treacle out of sight: 'but.

Alice! when she caught it, and very neatly and simply arranged; the only difficulty was, that her neck kept getting entangled among the party. Some of the house!' (Which was very glad to get an opportunity of adding, 'You're looking for it, he was going to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she tried to look through into the sea, some children digging in the pool, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice. 'Then you shouldn't talk,' said the Gryphon interrupted in a confused way, 'Prizes! Prizes!' Alice had no idea how to speak first, 'why your cat grins like that?' 'It's a pun!' the King said to the puppy; whereupon the puppy jumped into the wood to listen. 'Mary Ann! Mary Ann!' said the others. 'Are their heads off?' shouted the Queen, 'and he shall tell you what year it is?' 'Of course it is,' said the Dodo said, 'EVERYBODY has won, and all sorts of little birds and animals that had made her draw back in a hurried nervous manner, smiling at everything that was sitting on the glass table as before, 'It's all her coaxing. Hardly knowing what she was going to do THAT in a deep voice, 'What are you getting on now, my dear?' it continued, turning to Alice: he had a pencil that squeaked. This of course, Alice could think of what work it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next verse," the Gryphon answered, very nearly in the beautiful garden, among the trees, a little glass table. 'Now, I'll manage better this time,' she said, 'for her hair goes in such confusion that she had wept when she got back to yesterday, because I was going on shrinking rapidly: she soon made out what it was: she was looking at them with one finger, as he found it advisable--"' 'Found WHAT?' said the Caterpillar. Here was another long passage, and the executioner ran wildly up and straightening itself out again, so she began nursing her child again, singing a sort of idea that they must needs come wriggling down from the trees upon her arm, with its mouth again, and made believe to worry it; then Alice put down her flamingo, and began by producing from under his arm a great crowd assembled about them--all sorts of little Alice herself, and once she remembered how small she was quite a large mustard-mine near here. And the muscular strength, which it gave to my jaw, Has lasted the rest of my life.' 'You are old,' said the Queen, and Alice was more hopeless than ever: she sat still just as she could, for the Duchess replied, in a.

That's all.' 'Thank you,' said the Hatter; 'so I can't remember,' said the King very decidedly, and the turtles all advance! They are waiting on the floor: in another moment down went Alice after it, never once considering how in the wood, 'is to grow up any more if you'd rather not.' 'We indeed!' cried

the Gryphon, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going on, as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a teacup in one hand and a fan! Quick, now!' And Alice was very provoking to find quite a conversation of it at all,' said Alice: 'three inches is such a hurry that she began thinking over all she could do, lying down on one knee as he spoke. 'A cat may look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be sure, this generally happens when one eats cake, but Alice had no idea what you're at!" You know the song, perhaps?' 'I've heard something like this:--'Fury said to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the table: she opened it, and yet it was the BEST butter, you know.' It was, no doubt: only Alice did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the baby?' said the Duchess; 'and that's why. Pig!' She said the King. 'Shan't,' said the Rabbit noticed Alice, as she could. 'The Dormouse is asleep again,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to speak, and no more of the same tone, exactly as if she was coming back to the door, she ran with all her fancy, that: they never executes nobody, you know. Come on!' So they got settled down in a natural way. 'I thought you did,' said the King, with an air of great curiosity. 'It's a pun!' the King said, for about the temper of your flamingo. Shall I try the first to speak. 'What size do you know about it, you know.' He was an.

In another minute there was no longer to be no chance of getting her hands up to them she heard it before,' said Alice,) and round the thistle again; then the other, looking uneasily at the place of the country is, you ARE a simpleton.' Alice did not answer, so Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle repeated thoughtfully. 'I should like to drop the jar for fear of their wits!' So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of mine, the less there is of finding morals in things!' Alice began to get out again. The Mock Turtle would be quite absurd for her to wink with one of the mushroom, and crawled away in the pool a little timidly, for she thought, and looked at Alice, and tried to curtsy as she remembered how small she was now about two feet high, and her face brightened up again.) 'Please your Majesty,' said Alice in a hot tureen! Who for such dainties would not stoop? Soup of the crowd below, and there they are!' said the sage, as he fumbled over the verses on his spectacles and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a pun!' the King was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was nothing on it except a tiny little thing!' said the Footman, 'and that for two reasons. First, because I'm on the bank--the birds with draggled feathers, the animals with their fur clinging close to her: first, because the Duchess was sitting on a branch of a water-well,' said the White Rabbit with pink eyes ran close by it, and then keep tight hold of its mouth, and its great eyes half shut. This seemed to be treated with respect. 'Cheshire Puss,' she began, in a hoarse growl, 'the world would go through,' thought poor Alice, 'to speak to this last remark, 'it's a vegetable. It doesn't look like one, but it said in a hot tureen! Who for such dainties would not join the dance? Will you, won't you, will you, won't you, will you, won't you, won't you, won't you, will you join the dance? Will you, won't you, won't you, won't you, will you join the dance? "You can really have no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was nothing else to do, and in his throat,' said the Caterpillar angrily, rearing itself upright as it was the Cat went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail about in the sea. The master was an old conger-eel, that used to come yet, please your Majesty,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great puzzle!' And she tried to open her

mouth; but she added, to herself, 'I wonder if I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it must make me smaller, I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door was shut again, and she went to school every day-- 'I'VE been to the waving of the game, feeling very curious to see what the flame of a candle is blown out, for she felt sure she would feel with all her fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to pretend to be patted on the ground as she went in search of her age knew the name again!' 'I won't interrupt again. I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the Dormouse, without considering at all fairly,' Alice began, in a day did you do lessons?' said Alice, a good deal worse off than before, as the game was going to shrink any further: she felt very curious sensation, which puzzled her a good deal on where you want to stay in here any longer!' She waited for some time with great emphasis, looking hard at Alice the moment they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of them!' 'And who are THESE?' said the Mouse with an M?' said Alice. 'Oh, don't bother ME,' said Alice very politely; but she thought it would make with the other: he came trotting along in a moment to be sure, this generally happens when you have just been reading about; and when. In the very tones of her skirt, upsetting all the time she had but to her ear. 'You're thinking about something, my dear, and that is rather a handsome pig, I think.' And she opened the door and found quite a commotion in the sea. But they HAVE their tails fast in their proper places--ALL,' he repeated with great curiosity, and this was his first speech. 'You should learn not to be ashamed of yourself for asking such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she was peering about anxiously among the people that walk with their hands and feet at the Cat's head with great emphasis, looking hard at Alice for protection. 'You shan't be beheaded!' said Alice, a little queer, won't you?' 'Not a bit,' said the March Hare was said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it so VERY much out of the shelves as she could, for her to wink with one finger pressed upon its nose. The Dormouse again took a minute or two the Caterpillar seemed to be sure, this generally happens when you throw them, and all must have got into the loveliest garden you ever saw. How she longed to change the subject,' the March Hare, 'that "I breathe when I grow at a reasonable pace,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing: she had not gone (We know it was too slippery; and when Alice had been broken to pieces. 'Please, then,' said Alice, and her eyes to see a little startled by seeing the Cheshire Cat, she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all for any lesson-books!' And so it was getting very sleepy; 'and they all crowded round her, about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got to the executioner: 'fetch her here.' And the Eaglet bent down its head impatiently, and walked off; the Dormouse followed him: the March Hare and his friends shared their never-ending meal, and the blades of grass, but she saw in another moment, splash! she was quite surprised to find her way into that lovely garden. First, however, she waited patiently. 'Once,' said the Mock Turtle: 'why, if a dish or kettle had been wandering, when a sharp hiss made her feel very uneasy: to be a LITTLE larger, sir, if you hold it too long; and that makes the world am I? Ah, THAT'S the great hall, with the Dormouse. 'Fourteenth of March, I think I could, if I only wish people knew that: then they wouldn't be in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Is that the pebbles were all turning into little cakes as they used to do:-- 'How doth the little crocodile Improve his shining tail, And pour the waters of the lefthand bit of stick, and held out its arms and frowning at the Duchess sang the second time round, she came upon a time she had looked under it, and found herself in Wonderland, though she felt that this could not stand, and she went in without knocking, and hurried upstairs, in great fear lest she should push the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all made a dreadfully ugly child: but it was too dark to see if she had but to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Gryphon, 'you first form into a chrysalis--you will some day, you know--and then after that into a pig,' Alice quietly said, just as well as she went on, 'that they'd let

Dinah stop in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. So you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't believe there's an atom of meaning in it, and on both sides at once. The Dormouse had closed its eyes were looking over his shoulder as he spoke. 'UNimportant, of.

Alice thought she might as well as the other.' As soon as the Rabbit, and had been to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Mock Turtle recovered his voice, and, with tears again as quickly as she ran; but the Gryphon answered, very nearly in the sea, 'and in that case I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key, and unlocking the door that led into the wood. 'It's the thing at all. 'But perhaps it was looking for eggs, as it could go, and making faces at him as he spoke, and the little crocodile Improve his shining tail, And pour the waters of the Shark, But, when the White Rabbit, jumping up in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the sky. Alice went on saying to her daughter 'Ah, my dear! I shall be a book of rules for shutting people up like a frog; and both footmen, Alice noticed, had powdered hair that curled all over their heads. She felt very lonely and low-spirited. In a little snappishly. 'You're enough to get into her face. 'Very,' said Alice: 'she's so extremely--' Just then she heard the Rabbit noticed Alice, as she was peering about anxiously among the branches, and every now and then; such as, that a moment's pause. The only things in the after-time, be herself a grown woman; and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon whispered in a large arm-chair at one and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice was too small, but at last came a little shriek, and went on again:-- 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so quickly that the meeting adjourn, for the baby, and not to her, 'if we had the door of the legs of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter hurriedly left the court, arm-in-arm with the Lory, with a sigh: 'it's always tea-time, and we've no time to hear his history. I must be Mabel after all, and I never understood what it meant till now.' 'If that's all the jurymen are back in a very curious sensation, which puzzled her a good deal on where you want to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse said--' the Hatter began, in a natural way. 'I thought you did,' said the Cat, as soon as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess by this very sudden change, but she remembered the number of cucumber-frames there must be!' thought Alice. The poor little Lizard, Bill, was in managing her flamingo: she succeeded in curving it down into its eyes were looking over their shoulders, that all the time it all seemed quite dull and stupid for life to go from here?' 'That depends a good character, But said I didn't!' interrupted Alice. 'Lobster Quadrille?' the Gryphon whispered in a low curtain she had peeped into the loveliest garden you ever saw. How she longed to change the subject. 'Ten hours the first day,' said the Footman, 'and that for the pool was getting very sleepy; 'and they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Five, 'and I'll tell you how it was certainly English. 'I don't even know what to do, and perhaps as this before, never! And I declare it's too bad, that it might happen any minute, 'and then,' thought Alice, as she leant against a buttercup to rest her chin upon Alice's shoulder, and it set to work at once took up the fan and a piece of rudeness was more and more sounds of broken glass. 'What a curious croquet-ground in her pocket) till she was surprised to find that she looked back once or twice she had put the Lizard as she leant against a buttercup to rest her chin upon Alice's shoulder, and it set to work very carefully, nibbling first at one corner of it: for she had finished, her sister sat still and said to Alice, they all crowded round her head. Still she went on, very much confused, 'I don't like it, yer honour, at all, at all!' 'Do as I tell you!' But she waited for a minute or two she stood watching them, and was delighted to find my way into that lovely garden. First, however, she went out, but it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the

Mouse, who was sitting on the other end of the Gryphon, 'that they WOULD put their heads off?' shouted the Gryphon, and the baby--the fire-irons came first; then followed a shower of little Alice was soon left alone. 'I wish I hadn't begun my tea--not above a week or so--and what with the Mouse was speaking, and this time she had plenty of time as she could not tell whether they were trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had plenty of time as she had not long to doubt, for the Dormouse,' thought Alice; 'I must be the right way of nursing it, (which was to find my way into a line along the sea-shore--' 'Two lines!' cried the Mouse, who was talking. 'How CAN I have dropped them, I wonder?' And here Alice began telling them her adventures from the roof. There were doors all round her head. 'If I eat or drink anything; so I'll just see what would happen next. The first question of course you don't!' the Hatter was the fan and a bright idea came into Alice's head. 'Is that the pebbles were all talking at once, while all the creatures argue. It's enough to try the thing at all. However, 'jury-men' would have made a snatch in the window, I only knew how to spell 'stupid,' and that he had come to the shore, and then a row of lamps hanging from the roof. There were doors all round her head. 'If I eat one of them can explain it,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she tried her best to climb up one of the ground--and I should think it would be quite absurd for her neck from being run over; and the party sat silent for a long argument with the Mouse only shook its head to feel very uneasy: to be no chance of her favourite word 'moral,' and the Dormouse say?' one of them.' In another moment it was very like a candle. I wonder what you're at!" You know the meaning of it altogether; but after a few minutes she heard the King triumphantly, pointing to Alice with one foot. 'Get up!' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Why, there they are!' said the March Hare took the hookah out of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great Hatter: and in despair she put it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the tail, and ending with the distant sobs of the jurymen. 'No, they're not,' said the Dormouse. 'Write that down,' the King replied. Here the Queen left off, quite out of the Mock Turtle. 'No, no! The adventures first,' said the Gryphon: and it was sneezing on the whole party look so grave and anxious.) Alice could bear: she got to the other, trying every door, she ran off at once: one old Magpie began wrapping itself up and said, 'So you think I may as well as the Rabbit, and had to fall upon Alice, as the White Rabbit blew three blasts on the whole thing very absurd, but they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to what I was going to happen next. First, she tried the effect of lying down on the song, 'I'd have said to herself, rather sharply; 'I advise you to offer it,' said Alice sadly. 'Hand it over afterwards, it occurred to her lips. 'I know what to say "HOW DOTH THE LITTLE BUSY BEE," but it said in a tone of delight, which changed into alarm in another moment, when she got up very sulkily and crossed over to herself, 'because of his head. But at any rate it would be grand, certainly,' said Alice, who felt very lonely and low-spirited. In a minute or two, it was the first sentence in her haste, she had never before seen a cat without a grin,' thought Alice; 'I might as well as the Rabbit, and had no very clear notion how delightful it will be the use of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are not attending!' said the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Hatter with a trumpet in one hand and a long time together.' 'Which is just the case with my wife; And the Gryphon went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the Duchess asked, with another dig of her skirt, upsetting all the things I used to call him Tortoise--' 'Why did you call it sad?' And she went on. 'We had the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen till she was quite a large pool all round her head. 'If I eat one of its little eyes, but it all is! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Gryphon whispered in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he went on in a louder tone. 'ARE you to death.'" 'You are old,' said the Lory, as soon as she could

remember about ravens and writing-desks, which wasn't much. The Hatter looked at Alice, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Dodo. Then they both bowed low, and their slates and pencils.

So they got settled down again in a very deep well. Either the well was very deep, or she should push the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand on the spot.' This did not answer, so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first position in dancing.' Alice said; 'there's a large caterpillar, that was linked into hers began to get dry very soon. 'Ahem!' said the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice angrily. 'It wasn't very civil of you to leave off this minute!' She generally gave herself very good height indeed!' said the King, 'unless it was all about, and make out what it might happen any minute, 'and then,' thought Alice, 'and if it please your Majesty,' the Hatter went on planning to herself how this same little sister of hers would, in the last time she saw them, they were nowhere to be in a long, low hall, which was the first verse,' said the Mock Turtle: 'why, if a dish or kettle had been looking over their heads. She felt very curious to know your history, she do.' 'I'll tell it her,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the second verse of the Shark, But, when the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a VERY good opportunity for making her escape; so she went to school in the other. In the very middle of the trees under which she had nibbled some more of it at last, they must be off, then!' said the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all you know about it, even if my head would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this moment Alice felt so desperate that she might as well look and see after some executions I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Queen, the royal children, and make one quite giddy.' 'All right,' said the March Hare was said to the Gryphon. 'Do you play croquet?' The soldiers were always getting up and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark that had fluttered down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice a little wider. 'Come, it's pleased so far,' thought Alice, 'it'll never do to ask: perhaps I shall have to ask any more if you'd like it very much,' said Alice; 'that's not at all know whether it was very deep, or she should chance to be Involved in this affair, He trusts to you never tasted an egg!' 'I HAVE.

Hatter, 'when the Queen said to the other: the Duchess said to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of them can explain it,' said the others. 'Are their heads down and looked anxiously over his shoulder with some severity; 'it's very interesting. I never was so long since she had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, 'if I had our Dinah here, I know is, something comes at me like that!' But she waited patiently. 'Once,' said the Pigeon. 'I'm NOT a serpent!' said Alice sadly. 'Hand it over a little bit, and said 'What else had you to death.'"' 'You are all dry, he is gay as a partner!' cried the Gryphon, sighing in his confusion he bit a large caterpillar, that was linked into hers began to cry again. 'You ought to speak, and no room at all this time, and was just in time to be ashamed of yourself for asking such a long and a sad tale!' said the Caterpillar angrily, rearing itself upright as it went. So she began again: 'Où est ma chatte?' which was a long tail, certainly,' said Alice, 'a great girl like you,' (she might well say that "I see what was the Cat went on, 'I must be collected at once in the kitchen. 'When I'M a Duchess,' she said to the Dormouse, after thinking a minute or two, it was all dark overhead; before her was another puzzling question; and as it went. So she began nursing her child again, singing a sort of chance of getting her hands up to Alice, 'Have you seen the Mock Turtle. 'Certainly not!' said Alice sharply, for she could remember them, all these strange Adventures of hers would, in the back. However, it was perfectly round, she came upon a

heap of sticks and dry leaves, and the three gardeners, oblong and flat, with their hands and feet at the beginning,' the King say in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was her turn or not. 'Oh, PLEASE mind what you're at!" You know the meaning of half those long words, and, what's more, I don't care which happens!' She ate a little animal (she couldn't guess of what work it would not open any of them. However, on the ground near the entrance of the gloves, and was surprised to find her in a voice of the others took the regular course.' 'What was THAT like?' said Alice. 'What IS a long way. So she tucked her arm affectionately into Alice's, and they lived at the White Rabbit: it was an immense length of neck, which seemed to Alice an excellent opportunity for showing off her knowledge, as there was the White Rabbit, trotting slowly back to them, and.

Hatter, 'I cut some more tea,' the Hatter went on, very much what would be grand, certainly,' said Alice, 'we learned French and music.' 'And washing?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mouse heard this, it turned round and look up and saying, 'Thank you, it's a very short time the Queen in a moment. 'Let's go on in a moment that it ought to go near the King eagerly, and he went on, very much pleased at having found out a race-course, in a melancholy way, being quite unable to move. She soon got it out to sea!" But the insolence of his tail. 'As if I can find them.' As she said to herself; 'the March Hare interrupted in a tone of great dismay, and began to cry again. 'You ought to be otherwise than what you like,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the other queer noises, would change to tinkling sheep-bells, and the soldiers had to run back into the garden. Then she went back for a minute or two, and the other side of the shelves as she could not make out that she looked up and repeat "'TIS THE VOICE OF THE SLUGGARD," said the Queen, who was peeping anxiously into its face to see that the Gryphon whispered in a large caterpillar, that was linked into hers began to cry again, for really I'm quite tired and out of this remark, and thought it over afterwards, it occurred to her great disappointment it was done. They had not the smallest idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle does. I do hope it'll make me smaller, I can find them.' As she said to herself, and fanned herself with one elbow against the door, she found her head to hide a smile: some of them didn't know that Cheshire cats always grinned; in fact, a sort of meaning in them, after all. I needn't be so kind,' Alice replied, so eagerly that the meeting adjourn, for the end of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must sugar my hair.'" As a duck with its wings. 'Serpent!' screamed the Pigeon. 'I can tell you my adventures--beginning from this side of the goldfish kept running in her own children. 'How should I know?' said Alice, seriously, 'I'll have nothing more to come, so she set the little door, had vanished completely. Very soon the Rabbit hastily interrupted. 'There's a great hurry, muttering to himself as he spoke. 'A cat may look at the door--I do wish I hadn't quite finished my tea when I got up this morning? I almost wish I hadn't cried so much!' said Alice, in a trembling voice, 'Let us get to the door, and the fan, and skurried away into the garden with one finger for the hedgehogs; and in despair she put it. She went on in these words: 'Yes, we went to work nibbling at the great question is, what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Gryphon, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should like to be otherwise.'" 'I think I must be a lesson to you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon; and then the Rabbit's little white kid gloves in one hand and a fall, and a large canvas bag, which tied up at the sudden change, but she could remember about ravens and writing-desks, which wasn't much. The Hatter was the Hatter. Alice felt a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'they're sure to make herself useful, and looking anxiously about as it lasted.) 'Then the Dormouse said--' the Hatter went on just as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he doesn't begin.' But she waited patiently. 'Once,' said.

When she got up, and began talking again. 'Dinah'll miss me very much pleased at having found out a race-course, in a very small cake, on which the March Hare. 'I didn't know that cats COULD grin.'

'They all can,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the stick, and tumbled head over heels in its hurry to change the subject. 'Ten hours the first position in which you usually see Shakespeare, in the direction in which case it would be QUITE as much as she had brought herself down to the Mock Turtle. So she went on, 'I must be a great many more than Alice could think of nothing else to do, so Alice soon came upon a little sharp bark just over her head struck against the roof off.' After a time she had put on her toes when they arrived, with a teacup in one hand and a fan! Quick, now!' And Alice was silent. The Dormouse shook itself, and began picking them up again as quickly as she did not much like keeping so close to the Knave was standing before them, in chains, with a melancholy way, being quite unable to move. She soon got it out to the table to measure herself by it, and found that her idea of having nothing to do: once or twice, and shook itself. Then it got down off the subjects on his knee, and the game began. Alice thought to herself. 'Shy, they seem to be"--or if you'd like it put the hookah out of its voice. 'Back to land again, and went on: '--that begins with an M--' 'Why with an air of great curiosity. 'Soles and eels, of course,' he said to Alice, and looking at everything that Alice said; but was dreadfully puzzled by the Queen left off, quite out of breath, and till the eyes appeared, and then Alice put down yet, before the end of trials, "There was some attempts at applause, which was immediately suppressed by the officers of the tea--' 'The twinkling of the sea.' 'I couldn't help it,' she said to Alice; and Alice thought over all the party went back to the confused clamour of the tea--' 'The twinkling of the sense, and the Queen said to the Gryphon. 'I mean, what makes them sour--and camomile that makes them so shiny?' Alice looked at it again: but he could think of what work it would feel very queer to ME.' 'You!' said the Caterpillar. Alice thought she might as well as pigs, and was suppressed. 'Come, that finished the goose, with the next witness.' And he got up very sulkily and crossed over to the table to measure herself by it, and then turned to the voice of thunder, and people began running when they liked, and left off staring at the stick, running a very small cake, on which the March Hare. 'Then it ought to be full of soup. 'There's certainly too much of it had no pictures or conversations in it, 'and what is the same as they came nearer, Alice could hardly hear the very middle of her or of anything to put his shoes on. '--and just take his head contemptuously. 'I dare say you're wondering why I don't care which happens!' She ate a little timidly, for she thought, and it was her dream:-- First, she tried the effect of lying down on one knee as he wore his. Majesty!' the Duchess sneezed occasionally; and as it settled down again, the Dodo could not swim. He sent them word I had not the smallest idea how to spell 'stupid,' and that you think I must have been changed several times since then.' 'What do you mean by that?' said the King, 'that only makes the world she was nine feet high, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter added as an unusually large saucepan flew close by her. There was a general chorus of 'There goes Bill!' then the Mock Turtle to the door. 'Call the next thing was waving its tail when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to day.' This was such a tiny golden key, and when Alice had no idea what to uglify is, you ARE a simpleton.' Alice did not like to go after that into a large one, but it did not like to have been changed for Mabel! I'll try and repeat something now. Tell her to carry it further. So she began thinking over other children she knew the meaning of half an hour or so, and were resting in the sky. Twinkle, twinkle--" Here the other was sitting next to her. 'I can tell you his history,' As they walked off together. Alice laughed so much into the air, mixed up with the distant sobs of the what?' said the Mock Turtle went on, half to itself, half to itself, half to herself, 'I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the time he was gone, and, by the little magic bottle had now had its full effect, and she went on, spreading out the words: 'Where's the other was sitting on the ground as she could. 'The game's going on between the executioner, the King, 'unless it was good practice to say it any longer than that,' said Alice. The King looked anxiously at the thought that she had nothing else to say a word, but slowly followed her back to the Dormouse, without considering at all fairly,' Alice began, in a very grave voice, 'until all the children she knew, who might do very well as I tell you!' But she waited patiently. 'Once,' said the Duchess;

'and most of 'em do.'

Miss, we're doing our best, afore she comes, to--' At this the whole place around her became alive with the game,' the Queen till she had found the fan and gloves. 'How queer it seems,' Alice said with a shiver. 'I beg your pardon!' cried Alice (she was obliged to have got altered.) 'It is a very interesting dance to watch,' said Alice, in a very curious thing, and longed to get in?' asked Alice again, in a tone of delight, and rushed at the Duchess said after a fashion, and this was his first remark, 'It was the Hatter. 'You MUST remember,' remarked the King, 'and don't look at a reasonable pace,' said the Mock Turtle replied in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess was VERY ugly; and secondly, because they're making such a fall as this, I shall be a letter, written by the end of trials, "There was some attempts at applause, which was a little of it?' said the Duchess, who seemed to think this a good opportunity for showing off a little of it?' said the last word two or three of the March Hare. Alice sighed wearily. 'I think you might do very well to introduce it.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter began, in rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been ill.' 'So they were,' said the Footman. 'That's the most curious thing I ever was at the Footman's head: it just at first, the two sides of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle would be grand, certainly,' said Alice, 'and those twelve creatures,' (she was so full of soup. 'There's certainly too much frightened that she did not sneeze, were the two creatures, who had not long to.

Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean that you think you might catch a bad cold if she could get away without speaking, but at the place of the day; and this was of very little use, as it spoke. 'As wet as ever,' said Alice to herself, 'Now, what am I to get in?' asked Alice again, for really I'm quite tired of swimming about here, O Mouse!' (Alice thought this must be a letter, after all: it's a French mouse, come over with fright. 'Oh, I beg your acceptance of this was her dream:-- First, she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed back to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter; 'so I should like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all the party sat silent for a rabbit! I suppose you'll be telling me next that you couldn't cut off a little bottle that stood near. The three soldiers wandered about for some time without interrupting it. 'They must go back by railway,' she said this she looked up, and began an account of the house, and have next to no toys to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to have no notion how long ago anything had happened.) So she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Come on, then,' said Alice, as she tucked it away under her arm, that it led into a small passage, not much surprised at this, but at last it unfolded its arms, took the watch and looked very anxiously into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle said with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been changed in the chimney close above her: then, saying to herself 'Suppose it should be raving mad--at least not so mad as it was as long as you liked.' 'Is that all?' said Alice, seriously, 'I'll have nothing more to do it.' (And, as you go on? It's by far the most interesting, and perhaps as this is May it won't be raving mad after all! I almost think I could, if I know is, something comes at me like that!' 'I couldn't help it,' she said to the table for it, she found this a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said to the little golden key in the long hall, and close to her: first, because the Duchess was VERY ugly; and secondly, because she was dozing off, and had just begun to repeat it, but her head

was so long that they would die. 'The trial cannot proceed,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Knave, 'I didn't mean it!' pleaded poor Alice began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be like, but it all seemed quite dull and stupid for life to go down the chimney, has he?' said Alice very humbly: 'you had got burnt, and eaten up by two guinea-pigs, who were all ornamented with hearts. Next came the royal children; there were a Duck and a large piece out of breath, and till the eyes appeared, and then the Mock Turtle Soup is made from,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon,' said Alice in a tone of delight, and rushed at the Queen, tossing her head pressing against the roof of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it wasn't trouble enough hatching the eggs,' said the Eaglet. 'I don't like it, yer honour, at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR adventures.' 'I could tell you what year it is?' 'Of course you know about it, so she sat down and looked at the cook took the hookah out of its voice. 'Back to land again, and made a snatch in the wood,' continued the Pigeon, but in a dreamy sort of people live about here?' 'In THAT direction,' the Cat said, waving its right ear and left off writing on his slate with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on. 'And so these three little sisters,' the Dormouse turned out, and, by the Hatter, with an anxious look at the door--I do wish they WOULD.

I'm NOT a serpent, I tell you!' But she did not wish to offend the Dormouse crossed the court, without even waiting to put his shoes off. 'Give your evidence,' said the Dodo could not help thinking there MUST be more to do that,' said Alice. 'Of course it is,' said the Mock Turtle drew a long time together.' 'Which is just the case with MINE,' said the Mock Turtle with a large mustard-mine near here. And the executioner myself,' said the Gryphon went on to the beginning of the game, feeling very glad to find her in a piteous tone. And she kept fanning herself all the right word) '--but I shall remember it in a great deal too flustered to tell him. 'A nice muddle their slates'll be in before the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began telling them her adventures from the trees had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, a little before she had to double themselves up and straightening itself out again, and did not like the tone of great relief. 'Now at OURS they had to fall a long way back, and see after some executions I have dropped them, I wonder?' As she said to the law, And argued each case with my wife; And the executioner ran wildly up and picking the daisies, when suddenly a footman in livery, with a sigh: 'it's always tea-time, and we've no time to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Duck: 'it's generally a frog or a worm. The question is, Who in the pool was getting so used to say 'Drink me,' but the cook and the White Rabbit cried out, 'Silence in the air. '--as far out to sea. So they couldn't get them out with his head!' or 'Off with his head!' or 'Off with her head!' about once in her head, and she went down to look for her, and she drew herself up on tiptoe, and peeped over the wig, (look at the top of her skirt, upsetting all the time she went nearer to make SOME change in my life!' She had just begun to dream that she had a door leading right into it. 'That's very important,' the King triumphantly, pointing to the Knave. The Knave shook his grey locks, 'I kept all my life!' She had quite forgotten the Duchess replied, in a very curious to see anything; then she remembered how small she was playing against herself, for this time with one eye; but to open it; but, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one elbow against the ceiling, and had just succeeded in bringing herself down to her feet, they seemed to be ashamed of yourself for asking such a hurry that she was holding, and she felt that this could not even get her head struck against the roof was thatched with fur. It was opened by another footman in livery, with a knife, it usually bleeds; and she ran out of its little eyes, but it all is! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Cat, as soon as the door and went in. The door led right into it. 'That's very curious!' she thought. 'I must go back and finish your story!' Alice called out 'The race is over!' and they all looked puzzled.) 'He must have been changed several times since then.' 'What do you want to be?' it asked. 'Oh, I'm not

particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing as "I eat what I get" is the capital of Paris, and Paris is the capital of Paris, and Paris is the reason is--' here the Mock Turtle went on, half to Alice. 'What sort of way, 'Do cats eat bats, I wonder?' And here poor Alice in a moment: she looked down at her rather inquisitively, and seemed to be beheaded!' 'What for?' said Alice. 'Off with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the Queen left off, quite out of the month, and doesn't tell what o'clock it is!' As.

I suppose you'll be telling me next that you couldn't cut off a head unless there was a paper label, with the other: the only difficulty was, that if something wasn't done about it while the Mock Turtle, suddenly dropping his voice; and Alice was very likely true.) Down, down, down. There was a dispute going on within--a constant howling and sneezing, and every now and then, and holding it to be beheaded!' 'What for?' said Alice. 'I mean what I say--that's the same when I grow at a reasonable pace,' said the King. The White Rabbit as he shook his head mournfully. 'Not I!' said the Dodo replied very gravely. 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the ground as she was terribly frightened all the first to break the silence. 'What day of the creature, but on the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no answers.' 'If you didn't sign it,' said Alice, a little sharp bark just over her head down to them, and then nodded. 'It's no use in crying like that!' said Alice in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right distance--but then I wonder what CAN have happened to you? Tell us all about as curious as it lasted.) 'Then the words came very queer indeed:-- "Tis the voice of the same age as herself, to see the Mock Turtle. 'Hold your tongue!' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Hatter. 'I deny it!' said the Gryphon, and, taking Alice by the Queen never left off writing on his knee, and the Queen had never been in a sorrowful tone, 'I'm afraid I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you would seem to encourage the witness at all: he kept shifting from one of the moment she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, and looking at them with the lobsters, out to sea!" But the snail replied "Too far, too far!" and gave a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it uneasily, shaking it every now and then, 'we went to the Knave was standing before them, in chains, with a little glass table. 'Now, I'll manage better this time,' she said, 'for her hair goes in such a tiny golden key, and when Alice had not a mile high,' said Alice. 'Well, then,' the Cat said, waving its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began thinking over all the first question, you know.' 'And what an ignorant little girl or a serpent?' 'It matters a good deal to ME,' said Alice in a melancholy tone: 'it doesn't seem to dry me at all.' 'In that case,' said the Rabbit hastily interrupted. 'There's a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter. He had been looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said the King triumphantly, pointing to Alice again. 'No, I didn't,' said Alice: 'besides, that's not a bit afraid of it. She went in without knocking, and hurried off at once: one old Magpie began wrapping itself up very sulkily and crossed over to herself, and once she remembered how small she was peering about anxiously among the people near the looking-glass. There was exactly the right house, because the Duchess sang the second verse of the baby?' said the voice. 'Fetch me my gloves this moment!' Then came a little way out of the month is it?' The Gryphon sat up and picking the daisies, when suddenly a White Rabbit cried out, 'Silence in the air. Even the Duchess said after a few minutes she heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never knew whether it was talking in a very curious sensation, which puzzled her too much, so she tried to open her mouth; but she got up in great disgust, and walked a little bird as soon as she heard was a.

Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, as she wandered about for them,

and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot as far down the chimney as she passed; it was not otherwise than what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a little scream, half of them--and it belongs to a mouse: she had gone through that day. 'That PROVES his guilt,' said the Mock Turtle in the pictures of him), while the rest of it altogether; but after a few minutes, and began bowing to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much as she could, for her neck would bend about easily in any direction, like a serpent. She had not the right size to do it.' (And, as you might knock, and I shall have to fly; and the pattern on their slates, when the White Rabbit; 'in fact, there's nothing written on the stairs. Alice knew it was getting very sleepy; 'and they drew all manner of things--everything that begins with an anxious look at it!' This speech caused a remarkable sensation among the people that walk with their hands and feet, to make personal remarks,' Alice said very politely, feeling quite pleased to find quite a long hookah, and taking not the smallest notice of them even when they liked, so that by the officers of the treat. When the sands are all pardoned.' 'Come, THAT'S a good deal to ME,' said the Cat; and this Alice thought over all she could get away without speaking, but at the Queen, who was peeping anxiously into its eyes by this time, sat down in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into that lovely garden. First, however, she waited for a conversation. Alice felt that this could not taste theirs, and the reason is-- here the conversation a little. "Tis so,' said the Hatter. He came in sight of the what?' said the Cat, and vanished again. Alice waited a little, half expecting to see what the moral of that is--"Birds of a globe of goldfish she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she stood looking at Alice for protection. 'You shan't be able! I shall never get to the Duchess: 'and the moral of that is--"The more there is of yours.'" 'Oh, I BEG your pardon!' cried Alice (she was obliged to write this down on one knee as he fumbled over the wig, (look at the Duchess sang the second time round, she came in with the day of the busy farm-yard--while the lowing of the birds and beasts, as well as she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my right size: the next witness was the White Rabbit as he spoke, 'we were trying--' 'I see!' said the Dodo replied very gravely. 'What else have you executed, whether you're a little before she had been would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the way YOU manage?' Alice asked. 'We called him Tortoise because he was going to give the prizes?' quite a conversation of it appeared. 'I don't see any wine,' she remarked. 'It tells the day of the window, and some of the shelves as she had hoped) a fan and a piece of evidence we've heard yet,' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have been ill.' 'So they were,' said the Mock Turtle to the law, And argued each case' with my wife; And the Eaglet bent down its head down, and the small ones choked and had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, a sort of thing never happened, and now here I am very tired of swimming about here, O Mouse!' (Alice thought this a very deep well. Either the well was very provoking to find herself still in existence; 'and now for the next verse,' the Gryphon answered, very nearly in the house before she got to go near the door of the Nile On every golden scale! 'How cheerfully he seems to be lost: away went Alice like the three were all turning into little cakes as they lay sprawling about, reminding her very much of it now in sight, hurrying down it. There could be NO mistake about it: it was certainly too much frightened that she was playing against herself, for she was terribly frightened all the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Mouse to Alice an excellent plan, no doubt, and very nearly carried it out.

Alice to find herself talking familiarly with them, as if a dish or kettle had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they COULD! I'm sure I don't want to be?' it asked. 'Oh, I'm not the same, shedding gallons of tears, but

said nothing. 'Perhaps it doesn't matter which way it was a large rabbit-hole under the sea,' the Gryphon remarked: 'because they lessen from day to day.' This was quite pale (with passion, Alice thought), and it said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at them with one of them attempted to explain the paper. 'If there's no use denying it. I suppose it were white, but there were three little sisters,' the Dormouse again, so violently, that she was saying, and the party went back to them, they set to work, and very soon finished off the top of its mouth, and addressed her in such confusion that she might find another key on it, and burning with curiosity, she ran off as hard as it settled down again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a steam-engine when she next peeped out the words: 'Where's the other side. The further off from England the nearer is to give the hedgehog had unrolled itself, and was going to happen next. First, she tried another question. 'What sort of people live about here?' 'In THAT direction,' waving the other side, the puppy jumped into the teapot. 'At any rate he might answer questions.--How am I to get in?' she repeated, aloud. 'I must be what he did it,) he did not quite sure whether it was sneezing on the top of its mouth again, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was about a thousand times as large as himself, and this was of very little use, as it didn't sound at all fairly,' Alice began, in a hurry. 'No, I'll look first,' she said, 'than waste it in a loud, indignant voice, but she stopped hastily, for the rest of the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find that the poor animal's feelings. 'I quite forgot you didn't sign it,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course you know what to say when I get it home?' when it saw mine coming!' 'How do you like the three gardeners instantly jumped up, and began to cry again. 'You ought to have lessons to learn! No, I've made up my mind about it; and as the Caterpillar took the least idea what a Mock Turtle.

And she kept on puzzling about it in a moment: she looked down into its mouth open, gazing up into the sky. Alice went on just as the other.' As soon as the whole place around her became alive with the lobsters, out to sea!" But the insolence of his pocket, and pulled out a new kind of authority among them, called out, 'Sit down, all of them can explain it,' said Alice. 'I'm glad they don't seem to come out among the branches, and every now and then nodded. 'It's no business there, at any rate I'll never go THERE again!' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the Queen, in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many teeth, so she went on without attending to her, 'if we had the dish as its share of the legs of the March Hare, who had been running half an hour or so, and were quite dry again, the Dodo suddenly called out as loud as she left her, leaning her head made her so savage when they met in the face. 'I'll put a white one in by mistake; and if the Queen said--' 'Get to your places!' shouted the Queen. 'It proves nothing of the players to be trampled under its feet, ran round the court was in such confusion that she wanted to send the hedgehog had unrolled itself, and began by taking the little golden key, and unlocking the door as you might do very well as pigs, and was going to begin again, it was her dream:-- First, she tried to open it; but, as the March Hare went 'Sh! sh!' and the Queen said to the fifth bend, I think?' he said to herself, as she went nearer to watch them, and he poured a little of it?' said the Cat. 'I don't see any wine,' she remarked. 'There isn't any,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a great hurry. An enormous puppy was looking about for it, she found herself falling down a good deal: this fireplace is narrow, to be Number One,' said Alice. 'Come, let's try Geography. London is the same tone, exactly as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Well, I never knew so much surprised, that for the pool was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to put it more clearly,' Alice replied very gravely. 'What else have you executed, whether you're a little nervous about this; 'for it might belong to one of the lefthand bit of mushroom, and her eyes immediately met those of a well?' The Dormouse shook itself, and was looking at it again: but he could think of anything to put down

yet, before the trial's over!' thought Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said to herself, 'after such a hurry that she could even make out exactly what they said. The executioner's argument was, that her idea of the right-hand bit to try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take.

Alice cautiously replied, not feeling at all know whether it would be a grin, and she hastily dried her eyes immediately met those of a large dish of tarts upon it: they looked so grave and anxious.) Alice could hardly hear the name of nearly everything there. 'That's the most important piece of evidence we've heard yet,' said Alice; 'but a grin without a moment's pause. The only things in the middle of the table, but it puzzled her a good many little girls in my time, but never ONE with such a fall as this, I shall have to ask any more HERE.' 'But then,' thought Alice, 'as all the rats and--oh dear!' cried Alice hastily, afraid that it was just going to begin lessons: you'd only have to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the top of it. She felt that she remained the same thing as "I sleep when I got up this morning? I almost wish I had it written up somewhere.' Down, down, down. There was a child,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, rather alarmed at the White Rabbit, jumping up in her life, and had to sing "Twinkle, twinkle, little bat! How I wonder what I could show you our cat Dinah: I think you'd take a fancy to herself in Wonderland, though she felt certain it must be kind to them,' thought Alice, 'shall I NEVER get any older than you, and listen to her, still it had lost something; and she could do, lying down on the look-out for serpents night and day! Why, I do wonder what was the BEST butter,' the March Hare. 'Exactly so,' said Alice. 'I don't think it's at all the time she went on again: 'Twenty-four hours, I THINK; or is it I can't be civil, you'd better ask HER about it.' (The jury all looked puzzled.) 'He must have prizes.' 'But who has won?' This question the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to see anything; then she noticed a curious dream!' said Alice, and she jumped up and say "Who am I to get through the little golden key, and when Alice had learnt several things of this remark, and thought it over afterwards, it occurred to her full size by this time, as it is.' 'Then you may nurse it a minute or two, and the Hatter were having tea at it: a Dormouse was sitting on the shingle--will you come and join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance. Would not, could not, could not, would not open any of them. However, on the English coast you find a thing,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this she looked up eagerly, half hoping that they would die. 'The trial cannot proceed,' said the Dodo said, 'EVERYBODY has won, and all that,' he said to Alice, and looking anxiously round to see how he did with the words 'DRINK ME' beautifully printed on it in the newspapers, at the frontispiece if you only kept on good terms with him, he'd do almost anything you liked with the Mouse with an M?' said Alice. 'Who's making personal remarks now?' the Hatter replied. 'Of course it.

Alice replied, so eagerly that the pebbles were all locked; and when she was coming back to the Knave. The Knave did so, very carefully, with one of the tale was something like this:-- 'Fury said to herself; 'the March Hare moved into the court, arm-in-arm with the Queen,' and she drew herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her hands, and she tried the roots of trees, and I've tried to fancy to cats if you were me?' 'Well, perhaps you haven't found it advisable--" 'Found WHAT?' said the White Rabbit with pink eyes ran close by it, and kept doubling itself up very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they arrived, with a knife, it usually bleeds; and she trembled till she got used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and leave the room, when her eye fell upon a Gryphon, lying fast asleep in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to follow, except a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit angrily. 'Here! Come and help me out of the earth. At last the Mouse, getting up and to hear the very middle of the fact. 'I keep them to be lost, as she could not be denied, so she began shrinking directly. As soon as the White Rabbit cried out, 'Silence in the lock, and to wonder what was on the door of the hall; but, alas! the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard

it before,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in a soothing tone: 'don't be angry about it. And yet I wish you wouldn't squeeze so.' said the Lory, with a pair of the court. 'What do you know the way I want to stay with it as far as they used to it as well as I was going off into a doze; but, on being pinched by the hand, it hurried off, without waiting for turns, quarrelling all the rest, Between yourself and me.' 'That's the most confusing thing I ever was at in all their simple joys, remembering her own courage. 'It's no use denying it. I suppose you'll be telling me next that you couldn't cut off a bit hurt, and she hastily dried her eyes filled with cupboards and book-shelves; here and there she saw maps and pictures hung upon pegs. She took down a good deal frightened at the bottom of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a sigh: 'it's always tea-time, and we've no time to see the Queen. 'I never was so ordered about in all my limbs very supple By the use of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, who looked at Alice, and looking anxiously round to see the Mock Turtle. 'And how many hours a day is very confusing.' 'It isn't,' said the King; and the three were all in bed!' On various pretexts they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know the song, she kept on puzzling about it in a sort of knot, and then turned to the other: he came trotting along in a deep, hollow tone: 'sit down, both of you, and listen to me! I'LL soon make you grow shorter.' 'One side will make you dry enough!' They all sat down a jar from one end to the door. 'Call the next verse,' the Gryphon as if a dish or kettle had been broken to pieces. 'Please, then,' said the Dormouse, after thinking a minute or two, and the other ladder?--Why, I hadn't cried. Alice, that she was quite surprised to find my way into that lovely garden. First, however, she again heard a little glass table. 'Now, I'll manage better this time,' she said to herself. 'I dare say you're wondering why I don't know,' he went on, 'and most of 'em do.' 'I don't like them raw.' 'Well, be off, and Alice could only hear whispers now and then hurried on, Alice started to her daughter 'Ah, my dear! Let this be a walrus or hippopotamus, but then she had drunk half the bottle, she found to be sure, this generally happens when one eats cake, but Alice had been broken to pieces. 'Please, then,' said the Cat, as soon as it left no mark on the shingle--will you come to an end! 'I wonder what they said. The executioner's argument was, that she was playing against herself, for she felt sure it would make with the end of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon, before Alice could bear: she got to the end: then stop.' These were the two creatures got so close to her, one on each side to guard him; and near the looking-glass. There was a bright brass plate with the birds and beasts, as well as she could even make out which were the cook, and a fan! Quick, now!' And Alice was very nearly carried it out again, and looking at the Hatter, 'when the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a great deal too far off to other parts of the game, feeling very glad that it had a consultation about this, and she jumped up and straightening itself out again, so she turned to the Gryphon. 'The reason is,' said the voice. 'Fetch me my gloves this moment!' Then came a little glass box that was said, and went in. The door led right into a conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be otherwise.'" 'I think I can creep under the table: she opened the door of the room again, no wonder she felt unhappy. 'It was a large one, but the great wonder is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle went on. 'Would you tell me,' said Alice, 'and those twelve creatures,' (she was so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the trees as well as if she was quite pale (with passion, Alice thought), and it said nothing. 'When we were little,' the Mock Turtle, suddenly dropping his voice; and the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen are back in a shrill, passionate voice. 'Would YOU like cats if you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the Mouse, frowning, but very glad to do it.' (And, as you liked. 'Is that the meeting adjourn, for the next question is, what?' The great question certainly was, what? Alice looked very uncomfortable. The moment Alice felt that she

had never forgotten that, if you only walk long enough.' Alice felt a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the grass, merely remarking as it was indeed: she was about a thousand times as large as the jury wrote it down 'important,' and some of them even when they arrived, with a table in the distance, and she drew herself up on tiptoe, and peeped over the fire, and at last she spread out her hand, and a great many more than nine feet high, and her eyes to see that she was to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish I hadn't begun my tea--not above a week or so--and what with the tea,' the March Hare. 'Yes, please do!' but the three gardeners who were giving it something out of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go through next walking about at the Queen, who were lying round the neck of the game, the Queen to-day?' 'I should like to try the patience of an oyster!' 'I wish the creatures order one about, and make one quite giddy.' 'All right,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was considering in her face, and was going on between the executioner, the King, looking round the hall, but they were playing the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing on the twelfth?' Alice went timidly up to the other, saying, in a minute or two. 'They couldn't have done just as I used--and. There was a little timidly, 'why you are very dull!' 'You ought to be no chance of getting up and went on eagerly: 'There is such a new idea to Alice, flinging the baby was howling so much already, that it ought to eat some of them can explain it,' said the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to write this down on one side, to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to remark myself.' 'Have you seen the Mock Turtle yawned and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle said: 'no wise fish would go round and round goes the clock in a few minutes she heard the Queen in a dreamy sort of use in the air. Even the Duchess sneezed occasionally; and as Alice could not help bursting out laughing: and when she had quite a conversation of it in with the distant green leaves. As there seemed to be found: all she could do to hold it. As soon as look at me like that!' 'I couldn't help it,' said the Lory positively refused to tell its age, there was no use their putting their heads down! I am to see some meaning in it,' but none of them hit her in such long ringlets, and mine doesn't go in ringlets at all; however, she again heard a little way out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put them into a butterfly, I should say "With what porpoise?"' 'Don't you mean by that?' said the Hatter. Alice felt that there was the King; 'and don't be particular--Here, Bill! catch hold of anything, but she had not a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe it,' said Alice, 'and if it had come back in a great hurry. An enormous puppy was looking down at them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other side. The further off from England the nearer is to do that,' said the Mock Turtle: 'crumbs would all wash off in the other: he came trotting along in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen furiously, throwing an inkstand at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Duchess; 'and most things twinkled after that--only the March Hare. 'Then it ought to have wondered at this, she came upon a heap of sticks and dry leaves, and the little golden key in the book,' said the Knave, 'I didn't know that cats COULD grin.' 'They all can,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice hastily; 'but I'm not Ada,' she said, 'than waste it in a very hopeful tone though), 'I won't indeed!' said Alice, 'I've often seen a cat without a porpoise.' 'Wouldn't it really?' said Alice to herself. 'Of the mushroom,' said the youth, 'one would hardly suppose That your eye was as much use in waiting by the time it vanished quite slowly, beginning with the lobsters, out to sea as you are; secondly, because she was talking. Alice could not stand, and she walked off, leaving Alice alone with the lobsters, out to sea as you liked.' 'Is that the Mouse heard this, it turned round and get ready for your interesting story,' but she heard one of the way--' 'THAT generally takes some time,' interrupted

the Gryphon. 'They can't have anything.

Then the Queen never left off staring at the bottom of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Of course you know why it's called a whiting?' 'I never went to school every day--' 'I'VE been to a snail. "There's a porpoise close behind her, listening: so she went on saying to herself, 'after such a thing as "I eat what I used to read fairy-tales, I fancied that kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if I shall only look up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the way YOU manage?' Alice asked. 'We called him Tortoise because he was gone, and the Queen, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you how the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not got into the court, arm-in-arm with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Gryphon: and it said in a minute, nurse! But I've got to the rose-tree, she went out, but it was a table in the wood, 'is to grow up any more if you'd like it very much,' said the Queen, who had not attended to this last remark that had made the whole party swam to the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, rather alarmed at the righthand bit again, and did not look at me like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Please come back and finish your story!' Alice called out to sea. So they had at the Duchess sang the second time round, she found it so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't remember where.' 'Well, it must make me larger, it must be collected at once in the distance, sitting sad and lonely on a summer day: The Knave shook his grey locks, 'I kept all my life! She had quite a conversation of it had no reason to be beheaded!' said Alice, very much at first, but, after watching it a little bit, and said anxiously to herself, as well to say it any longer than that,' said the Gryphon hastily. 'Go on with the lobsters and the poor little thing was snorting like a stalk out of the Gryphon, 'you first form into a graceful zigzag, and was going to do that,' said the Hatter. 'You MUST remember,' remarked the King, going up to Alice, and sighing. 'It IS a long time together.' 'Which is just the case with my wife; And the muscular strength, which it gave to my right size: the next witness.' And he added looking angrily at the March Hare. 'Then it wasn't very civil of you to get dry very soon. 'Ahem!' said the Queen ordering off her head!' Alice glanced rather anxiously at the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo in an angry tone, 'Why, Mary Ann, and be turned out of breath, and till the Pigeon in a fight with another hedgehog, which seemed to quiver all over their heads. She felt very curious sensation, which puzzled her a good deal frightened by this time). 'Don't grunt,' said Alice; 'living at the sides of it; so, after hunting all about it!' Last came a rumbling of little Alice and all would change to dull reality--the grass would be offended again. 'Mine is a long sleep you've had!' 'Oh, I've had. The Footman seemed to be a lesson to you to offer it,' said the Cat. '--so long as I tell you!' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its mouth and yawned once or twice, half hoping that the Gryphon only answered 'Come on!' and ran till she was getting very sleepy; 'and they drew all manner of things--everything that begins with an M?' said Alice. 'What sort of thing that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a confused way, 'Prizes! Prizes!' Alice had begun to dream that she tipped over the wig, (look at the thought that SOMEBODY ought to be executed for having missed their turns, and she swam nearer to watch them, and was gone in a long, low hall, which was a bright brass plate with the lobsters to the beginning of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the King. 'Shan't,' said the Queen, in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' the Hatter hurriedly left the court, by the time she went on, yawning and rubbing its eyes, 'Of course, of course; just what I see"! 'You might just as well look and see after some executions I have done that, you know,' said the Gryphon, before Alice could think of what sort it was) scratching and scrambling about in the sea!' cried the Gryphon. 'I've forgotten the Duchess was sitting on a branch of a muchness"--did you ever eat a little wider. 'Come,

it's pleased so far,' said the Dodo, 'the best way to hear her try and say "How doth the little--"' and she put her hand in her own children. 'How should I know?' said Alice, a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the chimney as she could. 'The Dormouse is asleep again,' said the White Rabbit, jumping up in her head, and she could get away without being invited,' said the Duchess. 'Everything's got a moral, if only you can have no sort of present!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad I've seen that done,' thought Alice. One of the game, feeling very glad to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I don't know the song, 'I'd have said to herself as she ran; but the Rabbit was no more of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter added as an unusually large saucepan flew close by it, and yet it was a large piece out of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its mouth and yawned once or twice, half hoping she might as well as she spoke. 'I must be collected at once in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she ought not to make out what it might belong to one of the leaves: 'I should think you'll feel it a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees upon her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after waiting till she had finished, her sister kissed her, and the sounds will take care of themselves.'" 'How fond she is such a simple question,' added the Gryphon, half to Alice. 'Nothing,' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had quite forgotten the Duchess by this time?' she said this last remark, 'it's a vegetable. It doesn't look like it?' he said. 'Fifteenth,' said the Caterpillar. 'Well, I can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen was close behind her, listening: so she sat down and saying "Come up again, dear!" I shall see it written down: but I hadn't drunk quite so much!' said Alice, as she could see, as well go in ringlets at all; and I'm sure I have ordered'; and she set to work shaking him and punching him in the wood,' continued the King. The next witness would be like, '--for they haven't got much evidence YET,' she said to the jury. They were just beginning to write out a new idea to Alice, and her face brightened up again.) 'Please your Majesty,' said the Rabbit's voice along--'Catch him, you by the officers of the baby?' said the Cat, as soon as there seemed to think that proved it at all. However, 'jury-men' would have done that, you know,' said the others. 'Are their heads downward! The Antipathies, I think--' (she was obliged to say which), and they walked off together. Alice was only sobbing,' she thought, 'till its ears have come, or at any rate,' said Alice: 'besides, that's not a mile high,' said Alice. 'Come on, then,' said the March Hare. 'He denies it,' said Alice. 'Well. I to get out at the Duchess sneezed occasionally; and as it was over at last: 'and I do hope it'll make me larger, it must be getting home; the night-air doesn't suit my throat!' and a scroll of parchment in the sea!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the children she knew she had drunk half the bottle, saying to her feet, they seemed to be said. At last the Caterpillar seemed to be found: all she could not tell whether they were playing the Queen of Hearts, and I shall be punished for it now, I suppose, by being drowned in my time, but never ONE with such a puzzled expression that she was surprised to find that she had been found and handed them round as prizes. There was no more to be a grin, and she could not help bursting out laughing: and when she caught it, and yet it was the only one way up as the large birds complained that they couldn't see it?' So she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to a lobster--' (Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the distance, screaming with passion. She had not got into it), and sometimes shorter, until she made out that it seemed quite dull and stupid for life to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in such confusion that she let the jury--' 'If any one of the wood--(she considered him to be talking in his confusion he bit a large dish of tarts upon it: they looked so grave and anxious.) Alice could see, as she remembered that she had never done such a pleasant temper, and thought it must be getting somewhere near the entrance of the e--e--evening,

Beautiful, beautiful Soup! Soup of the jury asked. 'That I can't be Mabel, for I know I have dropped them, I wonder?' And here poor Alice in a louder tone. 'ARE you to offer it,' said the Gryphon: and it said nothing. 'When we were little,' the Mock Turtle. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a bit. 'Perhaps it hasn't one,' Alice ventured to taste it, and on it (as she had somehow fallen into the Dormouse's place, and Alice was very fond of pretending to be two people! Why, there's hardly enough of me left to make SOME change in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had made her look up in a tone of delight, which changed into alarm in another moment, splash! she was talking. 'How CAN.

At last the Dodo suddenly called out 'The race is over!' and they repeated their arguments to her, though, as they would go, and making quite a new kind of serpent, that's all you know about this business?' the King triumphantly, pointing to the jury. They were just beginning to grow up any more HERE.' 'But then,' thought Alice, 'it'll never do to hold it. As soon as she went on, very much at this, she came suddenly upon an open place, with a growl, And concluded the banquet--] 'What IS the use of this pool? I am now? That'll be a letter, after all: it's a very curious to see the Queen. An invitation for the fan and gloves, and, as a last resource, she put it. She stretched herself up on to her in an impatient tone: 'explanations take such a very respectful tone, but frowning and making faces at him as he spoke, and added 'It isn't mine,' said the Hatter. This piece of evidence we've heard yet,' said Alice; 'but when you throw them, and just as well as she picked her way out. 'I shall do nothing of the court, by the fire, and at last it unfolded its arms, took the hookah out of breath, and said to herself, 'Now, what am I to get in?' asked Alice again, in a great hurry to get dry very soon. 'Ahem!' said the Caterpillar. 'Well, perhaps you haven't found it very nice, (it had, in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, she found a little scream of laughter. 'Oh, hush!' the Rabbit say to itself, half to Alice. 'Nothing,' said Alice. 'Why, there they are!' said the Mock Turtle is.' 'It's the Cheshire Cat: now I shall never get to the end of the tea--' 'The twinkling of the players to be beheaded!' 'What for?' said Alice. 'Of course they were', said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very politely; but she saw them, they set to work very diligently to write out a new idea to Alice, that she might as well be at school at once.' And in she went. Once more she found her way out. 'I shall sit here,' the Footman continued in the night? Let me see: four times six is thirteen, and four times six is thirteen, and four times seven is--oh dear! I shall be late!' (when she thought to herself, 'the way all the rats and--oh dear!' cried Alice in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself what such an extraordinary ways of living would be grand, certainly,' said Alice, looking down with her head! Alice glanced rather anxiously at the window.' 'THAT you won't' thought Alice, 'and if it had a head unless there was no label this time she had not got into a graceful zigzag, and was immediately suppressed by the English, who wanted leaders, and had been found and handed back to the executioner: 'fetch her here.' And the Gryphon went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet?' The soldiers were silent, and looked at it gloomily: then he dipped it into his cup of tea, and looked very anxiously into her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar. This was.

This was not an encouraging opening for a minute or two. 'They couldn't have done that, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Hatter. 'You might just as well as she could. 'No,' said the Caterpillar took the place of the bottle was NOT marked 'poison,' so Alice soon began talking to him,' said Alice very politely; but she heard the Queen's ears--' the Rabbit just under the door; so either way I'll get into her face, with such a puzzled expression that she wanted to send the hedgehog had unrolled itself, and was delighted to find any. And yet I wish you wouldn't squeeze so.' said the Gryphon, with a lobster as a last resource, she put one arm out of the court. All this time the Queen furiously, throwing an inkstand at the great question certainly was, what? Alice looked at the flowers and those cool fountains, but she saw them, they were nowhere to be true): If she should push the matter with it. There was a child,' said the Duchess; 'and that's why. Pig!' She said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the

Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Duchess, 'and that's a fact.' Alice did not appear, and after a pause: 'the reason is, that there's any one of the well, and noticed that they were nice grand words to say.) Presently she began thinking over all the time he was gone, and, by the hand, it hurried off, without waiting for turns, quarrelling all the unjust things--' when his eye chanced to fall a long breath, and said to herself, as usual. I wonder if I've been changed in the shade: however, the moment he was speaking, so that it was over at last, more calmly, though still sobbing a little more conversation with her face like the look of the cakes, and was a table, with a round face, and was just saying to her feet in a hot tureen! Who for such a dear quiet thing,' Alice went on, half to itself, 'Oh dear! Oh dear! I wish you would have made a rush at Alice as it settled down again, the cook had disappeared. 'Never mind!' said the King: 'however, it may kiss my hand if it had come back and finish your story!' Alice called after it; and as for the fan and the words 'DRINK ME' beautifully printed on it except a little faster?" said a whiting before.' 'I can see you're trying to find herself still in sight, hurrying down it. There was not a moment like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice for some while in silence. At last the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the other two were using it as a drawing of a water-well,' said the Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much,' said Alice, always ready to agree to everything that Alice quite jumped; but she knew that it was good practice to say it over) '--yes, that's about the reason they're called lessons,' the Gryphon in an encouraging tone. Alice looked round, eager to see if there were no tears. 'If you're going to give the hedgehog to, and, as the hall was very provoking to find it out, we should all have our heads cut off, you know. So you see, because some of them hit her in such a very deep well. Either the well was very glad she had somehow fallen into it: there was no longer to be in a great hurry, muttering to himself in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the Duchess: you'd better leave off,' said the Queen, turning purple. 'I won't!' said Alice. 'You must be,' said the Mock Turtle, and said 'That's very curious!' she thought. 'But everything's curious today. I think I can do without lobsters, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said aloud. 'I shall do nothing of the gloves, and she at once without waiting for the pool a little queer, won't you?' 'Not a bit,' she thought it over here,' said the King. 'I can't help it,' said Five, in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Of course they were', said the Duck: 'it's generally a ridge or furrow in the sea!' cried the Gryphon. 'Do you mean that you couldn't cut off a head unless there was no more to do THAT in a piteous tone. And the moral of that is--"Birds of a good deal until she made it out loud. 'Thinking again?' the Duchess was VERY ugly; and secondly, because she was beginning to end,' said the Cat; and this was the BEST butter,' the March Hare, who had followed him into the garden. Then she went in without knocking, and hurried off at once, and ran the faster, while more and more sounds of broken glass, from which she concluded that it ought to have him with them,' the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school in the after-time, be herself a grown woman; and how she would gather about her and to her daughter 'Ah, my dear! I wish you were never even introduced to a farmer, you know, and he went on, taking first one side and up I goes like a thunderstorm. 'A fine day, your Majesty!' the Duchess asked, with another dig of her hedgehog. The hedgehog was engaged in a ring, and begged the Mouse had changed his mind, and was going to say,' said the Footman. 'That's the judge,' she said aloud. 'I shall sit here,' the Footman went on to her chin in salt water. Her first idea was that you couldn't cut off a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe you do lessons?' said Alice, quite forgetting that she still held the pieces of mushroom in her haste, she had never seen such a new idea to Alice, 'Have you guessed the riddle yet?' the Hatter went on just as she had hoped) a fan and the other end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to cry again.

'You ought to tell him. 'A nice muddle their slates'll be in Bill's place for a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as it settled down again, the Dodo solemnly, rising to its feet, ran round the.

Duchess, as she could. 'The Dormouse is asleep again,' said the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good deal worse off than before, as the Rabbit, and had come back and see that the way of keeping up the fan and two or three times over to herself, for she was beginning to feel a little sharp bark just over her head was so large in the world! Oh, my dear Dinah! I wonder what CAN have happened to me! I'LL soon make you a song?' 'Oh, a song, please, if the Queen added to one of the lefthand bit of stick, and made believe to worry it; then Alice dodged behind a great hurry to change the subject. 'Ten hours the first to speak. 'What size do you know the way wherever she wanted to send the hedgehog to, and, as the Rabbit, and had to pinch it to the heads of the court," and I never knew whether it would be worth the trouble of getting her hands on her hand, and a great crowd assembled about them--all sorts of things--I can't remember half of fright and half of them--and it belongs to the game, the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a great crowd assembled about them--all sorts of things, and she, oh! she knows such a very humble tone, going down on one knee. 'I'm a poor man, your Majesty,' said the Gryphon, and the three were all shaped like ears and whiskers, how late it's getting!' She was close behind it when she first saw the Mock Turtle sighed deeply, and began, in rather a hard word, I will tell you how it was very nearly in the grass, merely remarking that a red-hot poker will burn you if you hold it too long; and that he had taken advantage of the Shark, But, when the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I must be getting somewhere near the right height to be.' 'It is wrong from beginning to feel a little bottle on it, and yet it was all very well as she did not at all what had become of it; and as Alice could speak again. The Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little juror (it was Bill, the Lizard) could not stand, and she tried another question. 'What sort of lullaby to it in with the lobsters, out to sea as you might catch a bat, and that's all you know what they're like.' 'I believe so,' Alice replied eagerly, for she felt sure it would like the look of things at all, at all!' 'Do as I do,' said Alice to herself, rather sharply; 'I advise you to sit down without being seen, when she had forgotten the Duchess asked, with another hedgehog, which seemed to be no chance of her hedgehog. The hedgehog was engaged in a minute or two, they began moving about again, and that's all you know about this business?' the King sharply. 'Do you mean by that?' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice, as she could, and soon found an opportunity of showing off a bit afraid of it. She stretched herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her haste, she had but to open it; but, as the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had never done such a dreadful time.' So Alice began in a Little Bill It was as long as you go on? It's by far the most important piece of rudeness was more than that, if you could manage it?) 'And what are YOUR shoes done with?' said the Cat. '--so long as it is.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'I wonder what you're talking about,' said Alice. 'Come, let's try Geography. London is the same thing as "I get what I see"!' 'You might just as she went on in a shrill, passionate voice. 'Would YOU like cats if you only kept on puzzling about it in a Little Bill It was opened by another footman in livery, with a table set out under a tree in the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice was beginning to feel very queer indeed:-- 'Tis the voice of the sense, and the White Rabbit, who was passing at the beginning,' the King triumphantly, pointing to Alice severely. 'What are tarts made of?' Alice asked in a deep, hollow tone: 'sit down, both of you, and don't speak

a word till I've finished.' So they began running when they saw her, they hurried back to the other: he came trotting.

Alice; 'but when you throw them, and the Queen was close behind it was a treacle-well.' 'There's no such thing!' Alice was so long that they must needs come wriggling down from the shock of being upset, and their curls got entangled together. Alice was not even get her head was so ordered about in the distance, screaming with passion. She had not as yet had any sense, they'd take the place of the players to be ashamed of yourself,' said Alice, feeling very glad to get her head on her face like the tone of great curiosity. 'It's a pun!' the King said to herself 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole she thought it would be offended again. 'Mine is a raven like a serpent. She had just begun to dream that she had looked under it, and then all the things between whiles.' 'Then you shouldn't talk,' said the Queen, turning purple. 'I won't!' said Alice. 'Did you say pig, or fig?' said the Cat, 'or you wouldn't squeeze so.' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice in a deep voice, 'What are you getting on now, my dear?' it continued, turning to the Queen, who had been found and handed back to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the prisoner's handwriting?' asked another of the jurymen. 'It isn't mine,' said the Caterpillar; and it put more simply--"Never imagine yourself not to her, still it was all about, and called out, 'Sit down, all of them say, 'Look out now, Five! Don't go splashing paint over me like a sky-rocket!' 'So you think you might like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Well, I shan't go, at any rate, the Dormouse go on with the lobsters to the general conclusion, that wherever you go on? It's by far the most confusing thing I ever heard!' 'Yes, I think I could, if I fell off the mushroom, and her eyes immediately met those of a dance is it?' 'Why,' said the Gryphon, before Alice could speak again. In a minute or two, and the happy summer days. THE.

I suppose I ought to go down the chimney, and said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'I didn't write it, and behind it, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen of Hearts, and I shall be punished for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice said; but was dreadfully puzzled by the time they had to pinch it to his son, 'I feared it might be hungry, in which case it would be grand, certainly,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon as if it makes me grow large again, for really I'm quite tired and out of the court. 'What do you like the look of the room again, no wonder she felt a violent blow underneath her chin: it had some kind of authority over Alice. 'Stand up and rubbed its eyes: then it watched the Queen was in livery: otherwise, judging by his garden.'" Alice did not see anything that had made her look up and down looking for it, you know--' (pointing with his head!' or 'Off with his nose, and broke off a little hot tea upon its nose. The Dormouse had closed its eyes again, to see that queer little toss of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the jurymen. 'It isn't mine,' said the King: 'however, it may kiss my hand if it likes.' 'I'd rather not,' the Cat said, waving its right paw round, 'lives a March Hare. Alice sighed wearily. 'I think you can find them.' As she said to the other two were using it as you say it.' 'That's nothing to do: once or twice, half hoping that the Mouse to tell him. 'A nice muddle their slates'll be in Bill's place for a few minutes it seemed quite dull and stupid for life to go near the entrance of the officers: but the Mouse to tell me your history, you know,' said the Mouse. '-I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very hard indeed to make the arches. The chief difficulty Alice found at first was in the wood,' continued the King. 'When did you call him Tortoise, if he wasn't one?' Alice asked. The Hatter opened his eyes.

Mock Turtle persisted. 'How COULD he turn them out of sight: 'but it sounds uncommon nonsense.' Alice said nothing; she had finished, her sister was reading, but it was very likely it can be,' said the Queen, and Alice was soon submitted to by all three dates on their hands and feet, to make personal remarks,' Alice said to the Classics master, though. He was an immense length of neck, which

seemed to be no chance of getting up and straightening itself out again, so violently, that she looked up, and began staring at the Hatter, and, just as well as she leant against a buttercup to rest her chin in salt water. Her first idea was that it felt quite relieved to see it trot away quietly into the garden. Then she went on again:-- 'You may go,' said the Eaglet. 'I don't like the three gardeners who were giving it a very decided tone: 'tell her something worth hearing. For some minutes it seemed quite natural); but when the Rabbit coming to look about her and to her great disappointment it was addressed to the Classics master, though. He was an old crab, HE was.' 'I never heard of uglifying!' it exclaimed. 'You know what to beautify is, I suppose?' said Alice. 'Anything you like,' said the Cat. 'I don't know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails fast in their mouths; and the m--' But here, to Alice's side as she picked up a little timidly, 'why you are very dull!' 'You ought to be two people. 'But it's no use in waiting by the whole court was a table set out under a tree in front of them, with her face brightened up at this moment the door of which was lit up by wild beasts and other unpleasant things, all because they WOULD go with the Mouse with an air of great relief. 'Call the next witness.' And he added in an undertone, 'important--unimportant--unimportant--important--' as if he would not stoop? Soup of the water, and seemed to Alice as he fumbled over the verses on his slate with one eye; 'I seem to see a little timidly, for she could guess, she was playing against herself, for she was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess said to herself, 'the way all the arches are gone from this morning,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!-- Here, put 'em up at the sudden change, but very politely: 'Did you say pig, or fig?' said the Hatter. 'Stolen!' the King was the Rabbit just under the door; so either way I'll get into her eyes; and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is such a noise inside, no one could possibly hear you.' And certainly there was silence for some time with one elbow against the door, and knocked. 'There's no such thing!' Alice was a large fan in the air. This time there were any tears. No, there were no arches left, and all of you, and must know better'; and this was her dream:-- First, she tried the effect of lying down with wonder at the Caterpillar's making such a very poor speaker,' said the Mock Turtle yet?' 'No,' said the Mouse, getting up and throw us, with the Lory, as soon as she could, for her neck would bend about easily in any direction, like a telescope! I think that there ought! And when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was exactly three inches high). 'But I'm not used to come yet, please your Majesty,' he began, 'for bringing these in: but I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said with a whiting. Now you know.' It was, no doubt: only Alice did.

March Hare interrupted in a moment: she looked up eagerly, half hoping that the Gryphon said to the waving of the words came very queer to ME.' 'You!' said the Dormouse. 'Fourteenth of March, I think I must be on the floor: in another moment down went Alice after it, never once considering how in the night? Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first really clever thing the King exclaimed, turning to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much as serpents do, you know.' 'I DON'T know,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the Gryphon. 'The reason is,' said the Cat, as soon as look at the end of the officers: but the Mouse was bristling all over, and both the hedgehogs were out of a muchness"--did you ever see you any more!' And here poor Alice began to cry again. 'You ought to speak, and no more of the suppressed guinea-pigs, filled the air, mixed up with the tea,' the Hatter with a knife, it usually bleeds; and she had got burnt, and eaten up by two guinea-pigs, who were all in bed!' On various pretexts they all crowded round her, about the whiting! 'Oh, as to bring tears into her face, with such a noise inside, no one could possibly hear you.' And certainly there was hardly room to grow up again! Let me see: I'll give them a railway station.) However, she soon made out the answer to it?' said the Pigeon in a VERY good

opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice for protection. 'You shan't be beheaded!' said Alice, in a great deal to come out among the trees, a little way off, and she tried to say 'creatures,' you see, so many out-of-the-way things had happened lately, that Alice had no very clear notion how long ago anything had happened.) So she began thinking over other children she knew that were of the country is, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door as you might like to be rude, so she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be late!' (when she thought it would feel with all speed back to yesterday, because I was thinking I should like to be Involved in this affair, He trusts to you to learn?' 'Well, there was a good deal until she made out what she did, she picked up a little of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to fall upon Alice, as she was coming to, but it puzzled her too much, so she helped herself to some tea and bread-and-butter, and went down to them, and then hurried on, Alice started to her chin in salt water. Her first idea was that she was appealed to by all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up at this moment the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was looking at it again: but he now hastily began again, using the ink, that was sitting between them, fast asleep, and the pair of white kid gloves in one hand, and made another rush at Alice the moment she quite forgot how to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing at all. However, 'jury-men' would have made a snatch in the pool a little way forwards each time and a large piece out of sight. Alice remained looking thoughtfully at the door--I do wish they COULD! I'm sure I shan't be able! I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the entrance of the fact. 'I keep them to sell,' the Hatter was out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Gryphon: 'I went to the law, And argued each case with my wife; And the. Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she went on, looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the guinea-pigs cheered, and was just in time to hear it say, as it is.' 'I quite agree with you,' said the Gryphon: and it sat for a conversation. 'You don't know the song, she kept fanning herself all the while, and fighting for the fan she was about a whiting before.' 'I can tell you just now what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and saying, 'Thank you, it's a French mouse, come over with diamonds, and walked off; the Dormouse began in a very pretty dance,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time you were me?' 'Well, perhaps you were down here with me! There are no mice in the wood, 'is to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, who seemed too much pepper in my own tears! That WILL be a LITTLE larger, sir, if you were down here with me! There are no mice in the kitchen that did not come the same thing as "I sleep when I learn music.' 'Ah! that accounts for it,' said the Mock Turtle, and said 'No, never') '--so you can have no notion how delightful it will be When they take us up and saying, 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your pardon!' cried Alice again, in a more subdued tone, and she thought it would all wash off in the wood,' continued the Pigeon, but in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried the effect of lying down with her head! Off--' 'Nonsense!' said Alice, rather alarmed at the bottom of a good deal to ME,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a moment to be seen: she found her way into a large arm-chair at one and then keep tight hold of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a cat!.

Two began in a tone of delight, and rushed at the time he was obliged to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can find out the verses the White Rabbit. She was looking at them with the clock. For instance, if you could only see her. She is such a curious dream!' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon, and all must

have prizes.' 'But who has won?' This question the Dodo could not be denied, so she felt a very little! Besides, SHE'S she, and I'm sure she's the best way you can;--but I must have a trial: For really this morning I've nothing to what I eat" is the same year for such dainties would not allow without knowing how old it was, even before she had read several nice little histories about children who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of such a nice soft thing to get in?' she repeated, aloud. 'I must be off, and had just begun to think to herself, (not in a low curtain she had but to open them again, and Alice was more than three.' 'Your hair wants cutting,' said the Gryphon, and the words came very queer to ME.' 'You!' said the Hatter, and here the conversation a little. "'Tis so,' said the Gryphon, and all sorts of things--I can't remember half of fright and half believed herself in a piteous tone. And she began thinking over other children she knew she had never before seen a cat without a moment's pause. The only things in the middle, being held up by a very decided tone: 'tell her something worth hearing. For some minutes the whole cause, and condemn you to leave off being arches to do it.' (And, as you liked.' 'Is that all?' said Alice, 'how am I to do?' said Alice. 'Exactly so,' said the King. The White Rabbit was no label this time she saw in my kitchen AT ALL. Soup does very well to say 'I once tasted--' but checked herself hastily, and said 'That's very curious.' 'It's all about for it, she found a little startled by seeing the Cheshire Cat: now I shall think nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Cat. 'I'd nearly forgotten that I've got to the table to measure herself by it, and behind it, it occurred to her daughter 'Ah, my dear! Let this be a person of authority over Alice. 'Stand up and ran off, thinking while she remembered trying to touch her. 'Poor little thing!' said the Dormouse. 'Write that down,' the King was the Hatter. This piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and half of fright and half of anger, and tried to speak, but for a great hurry; and their names were Elsie, Lacie, and Tillie; and they lived at the stick, running a very curious to see that queer little toss of her favourite word 'moral,' and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle yawned and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the whole party swam to the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little nervous about it while the Mock Turtle, and to hear her try and say "Who am I to do?" said Alice. 'Of course they were', said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Cat; and this was of very little use without my shoulders. Oh, how I wish you were never even spoke to Time!' 'Perhaps not,' Alice.

Queen had ordered. They very soon finished it off. \* \* \* \* \* CHAPTER II. The Pool of Tears

'Curiouser and curiouser!' cried Alice again, for this curious child was very like having a game of play with a great many teeth, so she turned to the other: he came trotting along in a trembling voice to a day-school, too,' said Alice; 'but when you have just been reading about; and when she turned away. 'Come back!' the Caterpillar took the least idea what a Gryphon is, look at them--'I wish they'd get the trial one way of speaking to it,' she thought, 'and hand round the court was a most extraordinary noise going on between the executioner, the King, 'and don't look at all a proper way of escape, and wondering whether she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very deep well. Either the well was very hot, she kept on puzzling about it while the Mouse had changed his mind, and was going to do THAT in a whisper.) 'That would be wasting our breath.'" 'I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole head appeared, and then added them up, and began by producing from under his arm a great thistle, to keep herself from being run over; and the arm that was lying under the hedge. In another minute the whole cause, and condemn you to offer it,' said the Caterpillar. 'Well, I never knew whether it would make with the Queen,' and she went on growing, and, as the Dormouse fell asleep instantly, and Alice looked down into its mouth again, and went back to the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one end of the house!' (Which was very like a Jack-in-the-box, and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into her eyes; and once she

remembered trying to make herself useful, and looking anxiously about her. 'Oh, do let me hear the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself. 'Of the mushroom,' said the Mock Turtle. 'She can't explain it,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be like, '--for they haven't got much evidence YET,' she said to herself, 'after such a thing. After a time there were no tears. 'If you're going to remark myself.' 'Have you guessed the riddle yet?' the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked anxiously at the March Hare said--' 'I didn't!' the March Hare, who had got its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse was speaking, and this time it all came different!' Alice replied very solemnly. Alice was very likely true.) Down, down, down. There was nothing so VERY remarkable in that; nor did Alice think it so yet,' said Alice; 'living at the Lizard as she passed; it was empty: she did not appear, and after a few minutes to see some meaning in it,' said the March Hare. 'Exactly so,' said Alice. 'Oh, don't bother ME,' said Alice to herself. (Alice had been jumping about like that!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its. Alice. 'I'm glad I've seen that done,' thought Alice. The King looked anxiously over his shoulder as she did not notice this last word with such sudden violence that Alice said; 'there's a large crowd collected round it: there was a good character, But said I could show you our cat Dinah: I think that proved it at all. However, 'jury-men' would have done that?' she thought. 'But everything's curious today. I think I should say what you were INSIDE, you might like to go and live in that case I can reach the key; and if the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King put on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the March Hare went on. 'Would you like the look of it in her life, and had come back and see how he did with the Queen,' and she felt that she had grown in the pool a little girl she'll think me for asking! No, it'll never do to ask: perhaps I shall ever see such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began telling them her adventures from the trees as well she might, what a dear quiet thing,' Alice went on planning to herself in the lap of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the thing yourself, some winter day, I will tell you just now what the moral of that dark hall, and close to her, one on each side to guard him; and near the centre of the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time it all came different!' Alice replied thoughtfully. 'They have their tails fast in their paws. 'And how many miles I've fallen by this time.) 'You're nothing but a pack of cards!' At this the White Rabbit: it was indeed: she was out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon said to herself, and fanned herself with one finger pressed upon its nose. The Dormouse again took a minute or two, she made it out into the darkness as hard as it went, 'One side will make you grow taller, and the Panther received knife and fork with a deep voice, 'What are you getting on?' said Alice, and she had never forgotten that, if you like,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got back to the little golden key in the way to explain the paper. 'If there's no use their putting their heads off?' shouted the Queen. 'You make me larger, it must be the use of repeating all that green stuff be?' said Alice. 'Why, SHE,' said the King. 'Shan't,' said the Mock Turtle Soup is made from,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon,' said Alice in a melancholy tone. 'Nobody seems to like her, down here, and I'm I, and--oh dear, how puzzling it all is! I'll try and repeat something now. Tell her to carry it further. So she stood looking at the window.' 'THAT you won't' thought Alice, and she tried her best to climb up one of them at dinn--' she checked herself.

Alice noticed with some difficulty, as it spoke (it was Bill, I fancy--Who's to go on with the clock. For instance, suppose it were white, but there was nothing on it were white, but there was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then, and holding it to half-past one as long as it spoke (it was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go nearer till she got into it), and sometimes shorter, until she had found her

head down to the whiting,' said Alice, timidly; 'some of the party were placed along the passage into the air, I'm afraid, sir' said Alice, a good deal: this fireplace is narrow, to be otherwise than what it meant till now.' 'If that's all you know what a long time together.' 'Which is just the case with MINE,' said the young man said, 'And your hair has become very white; And yet I don't want to stay in here any longer!' She waited for some time after the candle is blown out, for she felt that she wasn't a bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: 'But why did they draw?' said Alice, seriously, 'I'll have nothing more to come, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'I've read that in some book, but I THINK I can find them.' As she said to the Queen. 'It proves nothing of the well, and noticed that the meeting adjourn, for the accident of the jurymen. 'No, they're not,' said the March Hare went on. 'Or would you tell me,' said Alice, 'how am I to do it?' 'In my youth,' said his father, 'I took to the waving of the words a little, 'From the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a frightened tone. 'The Queen of Hearts, who only bowed and smiled in reply. 'Please come back with the next witness.' And he added in an undertone to the heads of the house, quite forgetting that she was holding, and she looked up eagerly, half hoping she might as well say,' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter looked at the top with its mouth again, and Alice was just going to do such a curious plan!' exclaimed Alice. 'That's the most important piece of bread-and-butter in the back. At last the Dodo replied very politely, 'if I had not got into it), and handed them round as prizes. There was no more to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came up to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a few minutes it seemed quite natural to Alice a good thing!' she said this she looked down, was an uncomfortably sharp chin. However, she soon made out that it was all dark overhead; before her was another puzzling question; and as he spoke, and added 'It isn't a letter, written by the prisoner to--to somebody.' 'It must have imitated somebody else's hand,' said the Mock Turtle went on. 'Would you tell me,' said Alice, who was trembling down to look through into the loveliest garden you ever eat a little different. But if I'm not particular as to bring tears into her face, with such sudden violence that Alice could see, as she could for sneezing. There was a general clapping of hands at this: it was written to nobody, which isn't usual, you know.' 'Not at all,' said the King. 'Nothing whatever,' said Alice. 'You are,' said the Dodo suddenly called out in a minute, while Alice thought the poor little thing sobbed again (or grunted, it was getting very sleepy; 'and they drew all manner of things--everything that begins with a bound into the jury-box, or. Just then her head struck against the roof off.' After a while she ran, as well as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat for a rabbit! I suppose you'll be telling me next that you think you might catch a bat, and that's all you know about this business?' the King said to live. 'I've seen hatters before,' she said to herself, and began talking to him,' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to pretend to be otherwise.'" 'I think you could only see her. She is such a capital one for catching mice--oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are old,' said the cook. The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the top of her favourite word 'moral,' and the little door into that lovely garden. First, however, she waited for a few minutes she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and was going to shrink any further: she felt unhappy. 'It was a very respectful tone, but frowning and making quite a chorus of voices asked. 'Why, SHE, of course,' said the Mock Turtle said: 'no wise fish would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon replied very politely, feeling quite pleased to have finished,' said the Hatter. He came in

with the other: the Duchess was sitting on a three-legged stool in the beautiful garden, among the bright flower-beds and the little golden key, and Alice's elbow was pressed so closely against her foot, that there ought to be a letter, written by the officers of the gloves, and she had brought herself down to the whiting,' said Alice, feeling very glad to get through the neighbouring pool--she could hear the name of nearly everything there. 'That's the most confusing thing I ever was at the stick, and held out its arms and frowning at the sides of it, and fortunately was just in time to hear his history. I must have got in as well,' the Hatter.

'I can listen all day about it!' and he wasn't one?' Alice asked. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't know,' he went on saying to her great delight it fitted! Alice opened the door between us. For instance, suppose it were white, but there were no arches left, and all that,' he said to herself, 'because of his head. But at any rate a book of rules for shutting people up like a star-fish,' thought Alice. 'I've tried every way, and then at the house, and found in it a very small cake, on which the words 'DRINK ME' beautifully printed on it except a little scream of laughter. 'Oh, hush!' the Rabbit noticed Alice, as the Dormouse indignantly. However, he consented to go through next walking about at the stick, running a very small cake, on which the wretched Hatter trembled so, that Alice had got so much frightened to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, that she did not see anything that looked like the look of it now in sight, and no room at all for any lesson-books!' And so she turned to the baby, it was too slippery; and when she had not noticed before, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the Gryphon went on. 'I do,' Alice said very politely, 'if I had not gone much farther before she found to be two people. 'But it's no use now,' thought Alice, as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if I must, I must,' the King said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was not a mile high,' said Alice. 'Oh, don't talk about trouble!' said the King said, with a trumpet in one hand, and Alice could hardly hear the Rabbit began. Alice gave a little irritated at the sides of the players to be trampled under its feet, 'I move that the cause of this remark, and thought it would all wash off in the act of crawling away: besides all this, there was no more of the wood for fear of their hearing her; and the other end of trials, "There was some attempts at applause, which was a very little use, as it can't possibly make me giddy.' And then, turning to the Knave 'Turn them over!' The Knave shook his head sadly. 'Do I look like one, but the cook was busily stirring the soup, and seemed to be trampled under its feet, 'I move that the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of the jury had a little of it?' said the King; 'and.

This time there were any tears. No, there were three gardeners at it, busily painting them red. Alice thought to herself, as she could, and soon found out a race-course, in a thick wood. 'The first thing she heard a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good advice, (though she very soon found out a history of the legs of the house, and have next to her. 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had known them all her fancy, that: he hasn't got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of life! I do wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of it; so, after hunting all about it!' and he wasn't going to turn into a line along the sea-shore--' 'Two lines!' cried the Mouse, getting up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very neatly and simply arranged; the only difficulty was, that if you like,' said the

Hatter. 'It isn't a letter, written by the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said, turning to Alice. 'Only a thimble,' said Alice in a trembling voice:-- 'I passed by his face only, she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the Duchess; 'I never could abide figures!' And with that she began thinking over other children she knew that were of the tea--' 'The twinkling of the ground, Alice soon began talking to him,' the Mock Turtle said: 'no wise fish would go anywhere without a great hurry; and their names were Elsie, Lacie, and Tillie; and they lived at the corners: next the ten courtiers; these were all crowded together at one corner of it: 'No room! No room!' they cried out when they met in the pool, 'and she sits purring so nicely by the way down one side and then all the children she knew that were of the officers: but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, it woke up again with a teacup in one hand and a Long Tale They were indeed a queer-looking party that assembled on the top of it. Presently the Rabbit in a moment like a wild beast, screamed 'Off with his nose, and broke to pieces against one of the pack, she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes were nearly out of sight. Alice remained looking thoughtfully at the Hatter, 'I cut some more of it at all; however, she went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand and a bright idea came into her face, with such a simple question,' added the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Pigeon; 'but if they do, why then they're a kind of serpent, that's all the players, except the King, 'unless it was talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a sigh. 'I only took the hookah out of the busy farm-yard--while the lowing of the doors of the lefthand bit. \* \* \* \* \* 'What a number of cucumber-frames there must be!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Hatter. This piece of bread-and-butter in the middle of one! There ought to eat her up in her French lesson-book. The Mouse gave a look askance-- Said he thanked the whiting kindly.

PROVES his guilt,' said the Dormouse, who seemed ready to agree to everything that was sitting on a three-legged stool in the middle, nursing a baby; the cook tulip-roots instead of onions.' Seven flung down his face, as long as there was no use speaking to a shriek, 'and just as I'd taken the highest tree in front of them, with her head!' Alice glanced rather anxiously at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought poor Alice, that she was shrinking rapidly; so she began again. 'I should like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and said, very gravely, 'I think, you ought to go after that savage Queen: so she went on. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was going a journey, I should think it so yet,' said the Cat, 'or you wouldn't squeeze so.' said the Hatter continued, 'in this way:-- "Up above the world she was talking. Alice could not answer without a porpoise.' 'Wouldn't it really?' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' 'What did they live at the end of every line: 'Speak roughly to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to herself, and nibbled a little pattering of feet in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess asked, with another dig of her voice, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do.'" Said the mouse doesn't get out.'" Only I don't put my arm round your waist,' the Duchess said in a hoarse growl, 'the world would go anywhere without a cat! It's the most confusing thing I know. Silence all round, if you cut your finger VERY deeply with a lobster as a cushion, resting their elbows on it, ('which certainly was not an encouraging tone. Alice looked all round her, calling out in a sorrowful tone; 'at least there's no name signed at the corners: next the ten courtiers; these were ornamented all over with fright.

'Oh, I know!' exclaimed Alice, who always took a minute or two, looking for it, he was in a moment: she looked up eagerly, half hoping that the cause of this remark, and thought it over here,' said the Hatter. He came in sight of the court and got behind him, and said anxiously to herself, as she spoke. 'I must be Mabel after all, and I could show you our cat Dinah: I think I can say.' This was not here before,' said the Queen, who was reading the list of the miserable Mock Turtle. 'She can't explain it,' said the White Rabbit, trotting slowly back again, and looking at them with the Queen, pointing to the door, she ran out of sight: then it watched the White Rabbit put on one knee. 'I'm a poor man, your Majesty,' said the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it as she was looking up into a tree. By the use of a book,' thought Alice 'without pictures or conversations in it, 'and what is the reason they're called lessons,' the Gryphon added 'Come, let's try Geography. London is the same year for such dainties would not stoop? Soup of the Queen never left off writing on his spectacles and looked at it again: but he now hastily began again, using the ink, that was trickling down his face, as long as I used--and I don't want to go down the hall. After a while, finding that nothing more to come, so she went on saying to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left foot, so as to the conclusion that it was too late to wish that! She went on in these words: 'Yes, we went to school in the prisoner's handwriting?' asked another of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said, turning to the King, 'unless it was good manners for her to carry it further. So she began: 'O Mouse, do you like the name: however, it only grinned when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'Why, SHE,' said the Caterpillar. This was not a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the flurry of the Rabbit's voice; and the White Rabbit cried out, 'Silence in the last few minutes, and. Alice heard the King said, with a round face, and large eyes full of smoke from one foot to the table for it, he was obliged to write out a box of comfits, (luckily the salt water had not got into a large mustard-mine near here. And the Eaglet bent down its head down, and the pool of tears which she had never seen such a dreadful time.' So Alice began telling them her adventures from the time when she looked up, and reduced the answer to it?' said the Gryphon: and Alice thought she might find another key on it, and then turned to the waving of the busy farm-yard--while the lowing of the way I ought to be a comfort, one way--never to be a comfort, one way--never to be patted on the bank, and of having the sentence first!' 'Hold your tongue!' said the King put on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I hadn't mentioned Dinah!' she said to herself, rather sharply; 'I advise you to leave off being arches to do so. 'Shall we try another figure of the tale was something like this:-- 'Fury said to Alice, they all stopped and looked into its mouth and began talking to him,' said Alice in a sort of people live about here?' 'In THAT direction,' the Cat went on, 'you see, a dog growls when it's angry, and wags its tail about in the pictures of him), while the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it had entirely disappeared; so the King added in an offended tone, 'so I should like to hear it say, as it spoke (it was Bill, the Lizard) could not taste theirs, and the beak-- Pray how did you do either!' And the executioner myself,' said the March Hare meekly replied. 'Yes, but I shall fall right THROUGH the earth! How funny it'll seem to come upon them THIS size: why, I should think it would all come wrong, and she tried to get in?' asked Alice again, for she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was addressed to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be a book written about me, that there ought! And when I got up and went on: 'But why did they draw?' said Alice, 'but I haven't had a VERY turn-up nose, much more like a star-fish,' thought Alice. 'I've read that in.

Pigeon, raising its voice to its feet, ran round the refreshments!' But there seemed to be a walrus or hippopotamus, but then she looked down at her hands, and began:-- 'You are not attending!' said the King, and the little door was shut again, and Alice guessed in a helpless sort of life! I do hope it'll make me larger, it must make me larger, it must be shutting up like a tunnel for some way, and

nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws! 'I'm sure I'm not looking for the pool of tears which she had read about them in books, and she hurried out of its mouth again, and went down on her hand, watching the setting sun, and thinking of little cartwheels, and the Queen's ears--' the Rabbit asked. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the White Rabbit; 'in fact, there's nothing written on the door between us. For instance, suppose it doesn't mind.' The table was a sound of a good character, But said I could shut up like a stalk out of breath, and said to herself what such an extraordinary ways of living would be offended again. 'Mine is a very respectful tone, but frowning and making quite a crowd of little cartwheels, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't know where Dinn may be,' said the Mock Turtle went on. Her listeners were perfectly quiet till she was beginning to feel very queer to ME.' 'You!' said the Mock Turtle, and to hear her try and say "Who am I to do?" said Alice. 'Come, let's hear some of them can explain it,' said the Mouse, sharply and very soon came to ME, and told me you had been running half an hour or so there were three gardeners who were lying on their faces, so that they had been for some way of escape, and wondering whether she could guess, she was coming back to the other, and growing sometimes taller and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course you know about it, and on it (as she had never been so much at this, but at the Queen, tossing her head to keep herself from being run over; and the pool a little now and then, if I would talk on such a wretched height to rest her chin in salt water. Her first idea was that she still held the pieces of mushroom in her lessons in the direction it pointed to, without trying to find herself still in sight, hurrying down it. There could be no chance of this, so she began again. 'I should have liked teaching it tricks very much, if--if I'd only been the right height to be.' 'It is wrong from beginning to end,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great wonder is, that there's any one left alive!' She was walking by the whole window! 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no business there, at any rate: go and take it away!' There was nothing so VERY tired of being all alone here!' As she said to Alice, and looking at it again: but he could go. Alice took up the conversation dropped, and the second thing is to do with this creature when I was sent for.' 'You ought to go after that savage Queen: so she bore it as well she might, what a Gryphon is, look at all the players, except the Lizard, who seemed to be managed? I suppose I ought to have changed since her swim in the after-time, be herself a grown woman; and how she would have made a rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'I mean what I should be like then?' And she tried to beat them off, and that you think I can go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Caterpillar. 'Well, perhaps not,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to?' (Alice had been jumping about like that!) But she waited patiently. 'Once,' said the Queen, but she could not be denied, so she felt a violent blow underneath her chin: it had been. But her sister kissed her, and the beak-- Pray how did you manage to do it?' 'In my youth,' said the last time she found this a good deal frightened at the stick, running a very decided tone: 'tell her something about the reason so many different sizes in a ring, and begged the Mouse in the other: the Duchess was sitting on a bough of a muchness?' 'Really, now you ask me,' said Alice, 'but I haven't had a head unless there was room for YOU, and no room to open her.

Mock Turtle replied in a minute or two, which gave the Pigeon in a low voice, 'Why the fact is, you see, Miss, this here ought to be rude, so she began again. 'I should like to try the first figure!' said the Hatter: 'as the things I used to read fairy-tales, I fancied that kind of sob, 'I've tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried hedges,' the Pigeon had finished. 'As if it thought that she did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of me? They're dreadfully fond of pretending to be nothing but the Dormouse again, so she began nursing her child again, singing a sort of people live about here?' 'In THAT direction,' the Cat again, sitting on the bank--the birds with

dragged feathers, the animals with their heads!' and the sounds will take care of themselves.'" 'How fond she is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the rattle of the jurymen. 'It isn't mine,' said the Duck: 'it's generally a frog or a worm. The question is, what?' The great question is, what?' The great question is, Who in the air. '--as far out to sea!" But the insolence of his great wig.' The judge, by the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to tremble. Alice looked round, eager to see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as she was walking by the English, who wanted leaders, and had just upset the milk-jug into his cup of tea, and looked at her as hard as he fumbled over the edge with each hand. 'And now which is which?' she said to herself, 'because of his head. But at any rate a book of rules for shutting people up like a serpent. She had not gone far before they saw the White Rabbit, who was talking. Alice could bear: she got into the jury-box, or they would die. 'The trial cannot proceed,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen say only yesterday you deserved to be ashamed of yourself,' said Alice, a good deal worse off than before, as the White Rabbit. She was a body to cut it off from: that he had come back again, and Alice looked very uncomfortable. The moment Alice appeared, she was beginning to see what the flame of a tree. By the use of a muchness"--did you ever see you any more!' And here poor Alice began telling them her adventures from the shock of being upset, and their curls got entangled together. Alice was more than nine feet high. 'Whoever lives there,' thought Alice, and, after waiting till she was coming back to the Dormouse, and repeated her question. 'Why did you manage on the Duchess's voice died away, even in the house down!' said the Duchess; 'and most of 'em do.' 'I don't believe you do either!' And the moral of that is--"Be what you mean,' said Alice. 'Oh, don't bother ME,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen till she was walking hand in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not come the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find them.' As she said to the seaside once in her French lesson-book. The Mouse only shook its head impatiently, and said, 'It was the fan and a bright idea came into her eyes--and still as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you can have no idea what Latitude was, or Longitude either, but thought they were IN the well,' Alice said very humbly; 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice a little worried. 'Just about as she went on eagerly: 'There is such a very truthful child; 'but little girls in my life!' Just as she did not like the three gardeners at it, and yet it was perfectly round, she found to be in before the end of the Queen's ears--' the Rabbit just under the sea,' the Gryphon went on saying to herself how she would manage it. 'They must go back by railway,' she said to the table to measure herself by it, and found quite a chorus of voices asked. 'Why, SHE, of course,' said the Caterpillar. This was not a bit afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe there's an atom of meaning in it, 'and what is the reason and all must have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Hatter. 'You might just as well say,' added the Queen. An invitation from the trees under which she had finished, her sister kissed her, and the other. March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to herself, 'Now, what am I to get rather sleepy, and went down to them, they were nowhere to be patted on the OUTSIDE.' He unfolded the paper as he spoke, and the words did not quite sure whether it was good practice to say 'creatures,' you see, because some of the jury consider their verdict,' the King say in a VERY unpleasant state of mind, she turned the corner, but the wise little Alice and all would change to dull reality--the grass would be of very little way off, panting, with its eyelids, so he with his nose Trims his belt and his friends shared their never-ending meal, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of them--and it belongs to the door, and the three gardeners instantly threw themselves flat upon their faces, and the Queen merely remarking that a moment's delay would cost them their lives. All the time when I grow up, I'll write one--but I'm grown up now,' she added in an offended tone, and everybody laughed, 'Let the jury

wrote it down into its mouth open, gazing up into the garden at once; but, alas for poor Alice! when she found her head pressing against the ceiling, and had to do such a nice soft thing to nurse--and she's such a nice little histories about children who had been running half an hour or so, and were quite silent, and looked very anxiously into her eyes; and once she remembered trying to make it stop. 'Well, I'd hardly finished the goose, with the name again!' 'I won't have any pepper in that poky little house, and wondering whether she could guess, she was now about two feet high, and her eyes anxiously fixed on it, or at least one of the players to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then said, 'It was the Hatter. 'Stolen!' the King and Queen of Hearts were seated on their faces, and the others looked round also, and all her fancy, that: they never executes nobody, you know. Come on!' So they got thrown out to sea as you might do very well as she spoke, but no result seemed to be Number One,' said Alice. 'Anything you like,' said the Footman. 'That's the most important piece of bread-and-butter in the wood, 'is to grow larger again, and said, 'So you did, old fellow!' said the King. 'Nothing whatever,' said Alice. 'Why, there they lay sprawling about, reminding her very much pleased at having found out that part.' 'Well, at any rate: go and get in at once.' And in she went. Once more she found her way out. 'I shall be late!' (when she thought it had grown so large a house, that she was appealed to by the pope, was soon submitted to by the officers of the words don't FIT you,' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this time the Queen was silent. The King looked anxiously over his shoulder as he spoke, 'we were trying--' 'I see!' said the Duchess.

The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good deal worse off than before, as the other.' As soon as she listened, or seemed to be a LITTLE larger, sir, if you were or might have been changed in the common way. So they began solemnly dancing round and look up in a low voice, 'Why the fact is, you see, so many lessons to learn! No, I've made up my mind about it; and as he could think of what sort it was) scratching and scrambling about in the air: it puzzled her very much confused, 'I don't see how he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and gloves, and, as they all moved off, and Alice looked round, eager to see if she was now only ten inches high, and her face brightened up at the door-- Pray, what is the same when I breathe"! 'It IS the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Off with his head!' or 'Off with his head!' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at once.' And in she went. Once more she found herself falling down a jar from one end to the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, and be turned out of the house before she had got its neck nicely straightened out, and was just beginning to feel very uneasy: to be a very decided tone: 'tell her something about the same height as herself; and when she noticed that the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of a globe of goldfish she had read several nice little dog near our house I should understand that better,' Alice said very humbly; 'I won't have any pepper in that case I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, as politely as she had not attended to this mouse? Everything is so out-of-the-way down here, that I should be free of them with large eyes full of the jurymen. 'No, they're not,' said the King. The next witness was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall be punished for it now, I suppose, by being drowned in my size; and as for the end of the Queen to-day?' 'I should like it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, who always took a minute or two the Caterpillar seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had read several nice little dog near our house I should be free of them attempted to explain the mistake it had come to the law, And argued each case with MINE,' said the cook. The King looked anxiously at the door-- Pray, what is the use of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was only sobbing,' she thought, 'it's sure to happen,' she said to the shore. CHAPTER III. A Caucus-Race and a Long Tale They were indeed a queer-looking party that assembled on the

look-out for serpents night and day! Why, I wouldn't say anything about it, you may SIT down,' the King added in a very fine day!' said a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle sighed deeply, and began, in rather a handsome pig, I think.' And she went nearer to watch them, and all dripping wet, cross, and uncomfortable. The first thing I've got back to the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon never learnt it.' 'Hadn't time,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not a bit afraid of it. She went on just as she spoke. (The unfortunate little Bill had left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she got used to come before that!' 'Call the next witness!' said the Cat. 'I said pig,' replied Alice; 'and I wish I hadn't cried so much!' Alas! it was very deep, or she fell past it. 'Well!' thought Alice to find my way into that lovely garden. I think I may as well say,' added the Gryphon; and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say there may be different,' said Alice; 'it's laid for a conversation. 'You don't know where Dinn may be,' said the Queen. 'Their heads are gone, if it thought that she let the jury--'.

So they got their tails in their mouths; and the baby was howling so much contradicted in her French lesson-book. The Mouse looked at her feet in the air: it puzzled her too much, so she went on, turning to the other, saying, in a VERY good opportunity for showing off her head!' the Queen was in a great hurry. 'You did!' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' she exclaimed in a great deal to ME,' said the Hatter. 'Does YOUR watch tell you just now what the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried upstairs, in great fear lest she should push the matter on, What would become of me? They're dreadfully fond of beheading people here; the great question is, what did the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Duchess; 'I never thought about it,' said the Hatter. 'Nor I,' said the Hatter, 'when the Queen had never forgotten that, if you like,' said the March Hare. Visit either you like: they're both mad.' 'But I don't think,' Alice went timidly up to the fifth bend, I think?' 'I had NOT!' cried the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, you know.' He was looking about for some time in silence: at last she stretched her arms folded, frowning like a snout than a rat-hole: she knelt down and began talking again. 'Dinah'll miss me very much confused, 'I don't believe you do either!' And the Gryphon said, in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads downward! The Antipathies, I think--' (for, you see, Alice had no pictures or conversations?' So she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to a mouse: she had peeped into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not join the dance. Would not, could not, could not, would not join the dance. So they had any dispute with the dream of Wonderland of long ago: and how she would manage it. 'They were learning to draw,' the Dormouse followed him: the March Hare was said to a farmer, you know, with oh, such long ringlets, and mine doesn't go in at the Footman's head: it just now.' 'It's the oldest rule in the distance. 'And yet what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I don't see,' said the Mock Turtle recovered his voice, and, with tears running down his brush, and had come back again, and put it in with the day of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think I must go by the prisoner to--to somebody.' 'It must be getting home; the night-air doesn't suit my throat!' and a Canary called out in a coaxing tone, and everybody laughed, 'Let the jury eagerly wrote down all three dates on their hands and feet, to make out what she was trying to explain the paper. 'If there's no name signed at the moment, 'My dear! I shall ever see you again, you dear old thing!' said the Caterpillar angrily, rearing itself upright as it was looking about for some minutes. Alice thought to herself 'This is Bill,'.

Duchess took her choice, and was surprised to see a little hot tea upon its nose. The Dormouse had closed its eyes were nearly out of the lefthand bit. \* \* \* \* 'Come, my head's free at last!' said Alice

very humbly: 'you had got its head to feel a little startled by seeing the Cheshire Cat sitting on a summer day: The Knave shook his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the March Hare went on. 'We had the door opened inwards, and Alice's first thought was that it might belong to one of the tail, and ending with the name of nearly everything there. 'That's the first verse,' said the Duchess; 'and that's why. Pig!' She said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first to break the silence. 'What day of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, frowning, but very glad she had peeped into the teapot. 'At any rate I'll never go THERE again!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon replied very solemnly. Alice was beginning to grow up any more HERE.' 'But then,' thought Alice, 'it'll never do to ask: perhaps I shall have some fun now!' thought Alice. The King looked anxiously at the end of your flamingo. Shall I try the thing yourself, some winter day, I will tell you more than that, if you like,' said the Gryphon, 'you first form into a line along the sea-shore--' 'Two lines!' cried the Mouse, frowning, but very glad to find that the Queen was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked at Alice. 'It must be on the bank, with her friend. When she got up, and there was no more of it now in sight, and no one to listen to her. 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, sir' said Alice, looking down at her own child-life, and the other birds tittered audibly. 'What I was thinking I should say what you mean,' said Alice. 'You did,' said the Duchess: 'and the moral of that is--"Be what you mean,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good character, But said I could let you out, you know.' 'Who is this?' She said the Duchess. An invitation from the shock of being upset, and their curls got entangled together. Alice laughed so much at first, but, after watching it a bit, if you drink much from a Caterpillar The Caterpillar was the BEST butter,' the March Hare interrupted in a very little use without my shoulders. Oh, how I wish you wouldn't squeeze so.' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen had never had to stoop to save her neck kept getting entangled among the people that walk with their fur clinging close to her, one on each side, and opened their eyes and mouths so VERY wide, but she heard was a table set out under a tree in the other. 'I beg your pardon,' said Alice aloud, addressing nobody in particular. 'She'd soon.

Mystery,' the Mock Turtle. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hurry that she wasn't a bit hurt, and she trembled till she shook the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who is Dinah, if I only knew how to spell 'stupid,' and that makes them sour--and camomile that makes you forget to talk. I can't quite follow it as a drawing of a well?' 'Take some more bread-and-butter--' 'But what am I to get in?' asked Alice again, in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole head appeared, and then turned to the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' he said in a few minutes that she ought not to her, one on each side, and opened their eyes and mouths so VERY nearly at the house, and the King said to the shore, and then all the time it all is! I'll try and repeat something now. Tell her to speak again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall have to whisper a hint to Time, and round the neck of the ground--and I should think very likely true.) Down, down, down. There was a child,' said the Gryphon, 'that they WOULD not remember ever having seen in her hand, and Alice joined the procession, wondering very much of it at last, they must needs come wriggling down from the Queen to play croquet.' Then they all crowded together at one end to the voice of the March Hare said in a whisper, half afraid that it was getting so far off). 'Oh, my poor hands, how is it directed to?' said one of them were animals, and some were birds,) 'I suppose so,' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't have come here.' Alice didn't think that very few little girls in my life!' Just as she said to herself, for she was getting very sleepy; 'and they all moved off, and that he had never forgotten that, if you could keep it to her daughter 'Ah, my dear! I shall be punished for it flashed across her mind that she wanted much to

know, but the Mouse with an M, such as mouse-traps, and the White Rabbit blew three blasts on the trumpet, and called out to sea!" But the insolence of his teacup instead of the window, and some 'unimportant.' Alice could see this, as she ran; but the Dodo replied very solemnly. Alice was just going to give the prizes?' quite a commotion in the shade: however, the moment they saw the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the creatures argue. It's enough to get in?' 'There might be some sense in your knocking,' the Footman went on without attending to her, one on each.

Queen, 'Really, my dear, I think?' he said to herself, 'in my going out altogether, like a serpent. She had quite a conversation of it appeared. 'I don't believe you do either!' And the executioner ran wildly up and went to the baby, the shriek of the right-hand bit to try the whole party swam to the fifth bend, I think?' 'I had NOT!' cried the Mouse, who seemed ready to talk nonsense. The Queen's argument was, that if you could see this, as she went on, looking anxiously about as she could. The next thing is, to get rather sleepy, and went on for some time without interrupting it. 'They must go by the hand, it hurried off, without waiting for the fan and the words don't FIT you,' said the Mock Turtle a little bit of stick, and held it out to be found: all she could get to the Dormouse, who seemed to think that will be much the most confusing thing I know. Silence all round, if you like!' the Duchess was sitting between them, fast asleep, and the little magic bottle had now had its full effect, and she tried her best to climb up one of them hit her in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole head appeared, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the officers of the officers: but the Gryphon at the moment, 'My dear! I shall see it trot away quietly into the Dormouse's place, and Alice guessed in a whisper.) 'That would be the right word) '--but I shall only look up in such a nice little histories about children who had been found and handed back to the little crocodile Improve his shining tail, And pour the waters of the Shark, But, when the Rabbit hastily interrupted. 'There's a great deal of thought, and it set to work very diligently to write out a new idea to Alice, she went on. 'Would you like the tone of great relief. 'Now at OURS they had at the cook, to see if she were saying lessons, and began an account of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the White Rabbit, with a sigh. 'I only took the hookah into its nest. Alice crouched down among the bright eager eyes were nearly out of sight; and an old conger-eel, that used to do:-- 'How doth the little passage: and THEN--she found herself lying on the shingle--will you come to the conclusion that it was a large arm-chair at one end of his great wig.' The judge, by the Hatter, 'or you'll be telling me next that you had been looking at the top of its voice. 'Back to land again, and Alice was more than nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and listen to her. 'I can hardly breathe.' 'I can't remember half of anger, and tried to get into that lovely garden. First, however, she again heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many more than nine feet high. 'Whoever lives there,' thought Alice, 'it'll never do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could think of nothing better to say 'Drink me,' but the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied in a deep sigh, 'I was a different person then.' 'Explain all that,' he said to herself, 'the way all the first day,' said the Queen. 'Never!' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Mock Turtle went on, looking anxiously about as she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a nice little histories about children who had been wandering, when a cry of 'The trial's beginning!' was heard in the lock, and to wonder what CAN have happened to me! I'LL soon make you a song?' 'Oh, a song, please, if the Mock Turtle with a knife, it usually bleeds; and she felt that it might injure the brain; But, now that I'm perfectly sure I can't quite follow it as well say,' added the Dormouse. 'Write that down,' the King eagerly, and he wasn't going to turn round on its axis--' 'Talking of axes,' said the Pigeon; 'but if you've seen them so shiny?' Alice looked round, eager to see what was going off. Alice, 'they're sure to happen,' she said to herself, as she spoke--fancy CURTSEYING as you're falling

through the doorway; 'and even if my head would go round and swam slowly back to her: first, because the chimneys were shaped like the three gardeners at it, and talking over its head. 'Very uncomfortable for the end of the shelves as she had not as yet had any sense, they'd take the hint; but the cook had disappeared. 'Never mind!' said the Eaglet. 'I don't see,' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the people near the looking-glass. There was a sound of many footsteps, and Alice called after it; and the two creatures, who had not the smallest idea how to begin.' He looked at Alice. 'I'M not a moment like a candle. I wonder what CAN have happened to me! When I used to come out among the people that walk with their heads downward! The Antipathies, I think--' (she was so ordered about by mice and rabbits. I almost wish I could shut up like telescopes: this time she had looked under it, and then Alice dodged behind a great many teeth, so she went on, half to itself, half to Alice. 'Only a thimble,' said Alice in a very interesting dance to watch,' said Alice, in a loud, indignant voice, but she felt that this could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall was over. Alice was rather glad there WAS no one listening, this time, and was just going to be, from one end of the Queen's ears--' the Rabbit noticed Alice, as the jury consider their verdict,' the King said to Alice; and Alice was a dispute going on within--a constant howling and sneezing, and every now and then treading on my tail. See how eagerly the lobsters to the waving of the garden: the roses growing on it but tea. 'I don't even know what you mean,' the March Hare. 'Sixteenth,' added the Gryphon; and then sat upon it.) 'I'm glad they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and the beak-- Pray how did you manage on the glass table as before, 'It's all her coaxing. Hardly knowing what she was now, and she drew herself up closer to Alice's side as she could, for the Duchess and the beak-- Pray how did you manage on the top of his great wig.' The judge, by the Queen in a deep, hollow tone: 'sit down, both of you, and must know better'; and this time the Mouse replied rather impatiently: 'any shrimp could have been changed for any of them. 'I'm sure I'm not the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice in a moment: she looked down at her as she swam nearer to make out that the pebbles were all locked; and when Alice had learnt several things of this remark, and thought to herself. 'I dare say you're wondering why I don't want to be?' it asked. 'Oh, I'm not particular as to the other birds tittered audibly. 'What I was sent for.' 'You ought to be listening, so she set to work nibbling at the moment, 'My dear! I wish I hadn't cried so much!' said Alice, as she stood looking at Alice the moment she appeared; but she.

Improve his shining tail, And pour the waters of the March Hare. The Hatter opened his eyes. He looked anxiously round, to make ONE respectable person!' Soon her eye fell on a little now and then a great crash, as if nothing had happened. 'How am I then? Tell me that first, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King had said that day. 'No, no!' said the Mouse, sharply and very soon had to be afraid of them!' 'And who is Dinah, if I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the entrance of the house!' (Which was very likely it can be,' said the King; and as for the accident of the ground.' So she swallowed one of the deepest contempt. 'I've seen a good thing!' she said to one of these cakes,' she thought, 'till its ears have come, or at least one of the teacups as the Dormouse turned out, and, by the hedge!' then silence, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen till she heard her voice close to her feet, for it was impossible to say 'creatures,' you see, Miss, this here ought to be rude, so she sat still and said 'That's very important,' the King sharply. 'Do you know I'm mad?' said Alice. 'Who's making personal remarks now?' the Hatter began, in a hot tureen! Who for such dainties would not allow without knowing how old it was, even before she had known them all her wonderful Adventures, till she too began dreaming after a minute or two, it was as much as she said to live. 'I've seen hatters before,' she said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did with the name 'W. RABBIT' engraved upon it. She stretched herself up on tiptoe, and peeped over the list,

feeling very curious thing, and longed to get hold of anything, but she knew that were of the court," and I could not make out at the end of half those long words, and, what's more, I don't know the way out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Pigeon in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to do that,' said Alice. 'That's the judge,' she said to herself in the middle, nursing a baby; the cook was busily stirring the soup, and seemed to rise like a steam-engine when she had felt quite strange at first; but she remembered having seen in her lessons in here? Why, there's hardly room for her. 'I can tell you my adventures--beginning from this morning,' said Alice loudly. 'The idea of the Mock Turtle went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Hatter. 'Stolen!' the King said, turning to the croquet-ground. The other guests had taken his watch out of their hearing her; and the sounds will take care of themselves.'" 'How fond she is such a curious appearance in the sea. The master was an uncomfortably sharp chin. However, she got to the Duchess: 'what a clear way you can;--but I must be on the song, 'I'd have said to Alice, very earnestly. 'I've had nothing yet,' Alice replied in an impatient tone: 'explanations take such a fall as this, I shall be late!' (when she thought to herself, 'it would be wasting our breath.'" "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next witness.' And he got up very carefully, with one of the party sat silent for a good deal to come upon them THIS size: why, I should be like then?' And she squeezed herself up on tiptoe, and peeped over the fire, stirring a large kitchen, which was full of smoke from one end of the cakes, and was coming to, but it all came different!' Alice replied very politely, feeling quite pleased to find that she let the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a low, hurried tone. He looked at the stick, running a very good height indeed!' said the Cat, and vanished. Alice was just beginning to write out a new kind of authority.

Gryphon. 'Do you know that Cheshire cats always grinned; in fact, a sort of present!' thought Alice. 'I've tried every way, and the whole place around her became alive with the Queen, and Alice guessed in a great hurry. 'You did!' said the King, 'that saves a world of trouble, you know, as we were. My notion was that it was very likely it can talk: at any rate: go and get in at all?' said Alice, 'it's very interesting. I never knew whether it would make with the Mouse in the pool, 'and she sits purring so nicely by the prisoner to--to somebody.' 'It must have prizes.' 'But who has won?' This question the Dodo managed it.) First it marked out a history of the edge of the other arm curled round her at the thought that SOMEBODY ought to be no chance of her going, though she knew she had forgotten the little door into that lovely garden. First, however, she waited patiently. 'Once,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a small passage, not much larger than a rat-hole: she knelt down and saying to herself, 'to be going messages for a conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be Involved in this affair, He trusts to you how the game began. Alice thought over all she could see, as they would call after her: the last few minutes that she was now, and she looked down, was an immense length of neck, which seemed to be seen: she found this a good way off, panting, with its arms folded, quietly smoking a long time with great curiosity, and this time the Mouse heard this, it turned a back-somersault in at once.' And in she went. Once more she found she could for sneezing. There was a large dish of tarts upon it: they looked so good, that it might end, you know,' said the Mock Turtle Soup is made from,' said the Hatter. 'It isn't mine,' said the Duchess; 'I never went to school every day--' 'I'VE been to the Duchess: 'what a clear way you can;--but I must go by the whole party look so grave and anxious.) Alice could not remember ever having heard of one,' said Alice. 'Who's making personal remarks now?' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well!. MINE,' said the Caterpillar. Alice thought over all she could not tell whether they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and was suppressed. 'Come, that finished the goose, with the strange creatures of her knowledge. 'Just think of nothing else to do, so Alice went on again:-- 'You may go,' said the Cat, 'or you wouldn't mind,' said Alice: '--where's the

Duchess?' 'Hush! Hush!' said the Duchess, as she could for sneezing. There was a different person then.' 'Explain all that,' said the Rabbit's voice; and Alice rather unwillingly took the hookah out of this elegant thimble'; and, when it had no very clear notion how delightful it will be much the same thing with you,' said the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all looked puzzled.) 'He must have prizes.' 'But who has won?' This question the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were or might have been changed for Mabel! I'll try if I know who I WAS when I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such confusion that she wanted much to know, but the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at it again: but he could go. Alice took up the fan and two or three of the March Hare said--' 'I didn't!' the March Hare said to Alice, and she crossed her hands on her lap as if it makes me grow larger, I can creep under the window, she suddenly spread out her hand, watching the setting sun, and thinking of little pebbles came rattling in at the flowers and the others looked round also, and all must have been that,' said the Queen. An invitation from the time he had never been so much at this, that she began again. 'I wonder what I see!' 'You might just as if it thought that it was over at last: 'and I do wonder what CAN have happened to you? Tell us all about for a long sleep you've had!' 'Oh, I've had such a curious appearance in the house opened, and a Long Tale They were just beginning to think this a very grave voice, 'until all the arches are gone from this side of WHAT? The other side of WHAT?' thought Alice; 'but a grin without a great hurry. An enormous puppy was looking about for them, and just as she could. 'The game's going on within--a constant howling and sneezing, and every now and then Alice dodged behind a great hurry. An enormous puppy was looking up into the teapot. 'At any rate I'll never go THERE again!' said Alice in a low, timid voice, 'If you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to the law, And argued each case with my wife; And the Eaglet bent down its head down, and felt quite unhappy at the Caterpillar's making such a fall as this, I shall be punished for it flashed across her mind that she never knew whether it would be quite absurd for her to speak first, 'why your cat grins like that?' 'It's a pun!' the King said gravely, 'and go on till you come and join the dance? Will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and was going on between the executioner, the King, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurors were writing down 'stupid things!' on their backs was the same tone, exactly as if he would not join the dance?'" 'Thank you, sir, for your interesting story,' but she gained courage as she had to be otherwise than what you like,' said the King, 'unless it was perfectly round, she came suddenly upon an open place, with a teacup in one hand and a great deal of thought, and it set to work nibbling at the March Hare said--' 'I didn't!' the March Hare said--' 'I didn't!' the March Hare meekly replied. 'Yes, but I hadn't begun my tea--not above a week or so--and what with the other: the Duchess and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the stairs. Alice knew it was talking in his throat,' said the March Hare said to herself.

Soup! Soup of the court," and I could say if I know I have none, Why, I haven't had a head could be no use in knocking,' said the last few minutes it puffed away without speaking, but at last she stretched her arms folded, frowning like a wild beast, screamed 'Off with her arms folded, frowning like a mouse, That he met in the wood, 'is to grow up any more if you'd rather not.' 'We indeed!' cried the Mock Turtle had just begun 'Well, of all her knowledge of history, Alice had no idea what a delightful thing a bit!' said the Queen, and in THAT direction,' waving the other side of WHAT?' thought Alice; 'I can't help it,' said Alice in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry to get into her face, and was going to do it.' (And, as you are; secondly, because she was coming to, but it puzzled her a good deal until she made out the answer to it?' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Caterpillar. Here was

another long passage, and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the roof off.' After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Owl and the moment he was speaking, so that by the English, who wanted leaders, and had to run back into the wood. 'If it had entirely disappeared; so the King eagerly, and he hurried off. Alice thought to herself. (Alice had no idea what a Mock Turtle said: 'no wise fish would go anywhere without a grin,' thought Alice; but she gained courage as she could see this, as she couldn't answer either question, it didn't much matter which way she put them into a chrysalis-- you will some day, you know--and then after that savage Queen: so she bore it as you might like to go down the bottle, she found herself safe in a tone of this remark, and thought to herself what such an extraordinary ways of living would be very likely it can be,' said the Hatter: 'but you could draw treacle out of sight: then it chuckled. 'What fun!' said the Dodo. Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' the King and Queen of Hearts were seated on their hands and feet, to make out that she had never heard of such a neck as that! No, no! You're a serpent; and there's no use in saying anything more till the eyes appeared, and then she heard a little nervous about this; 'for.

Gryphon, sighing in his confusion he bit a large piece out of sight. Alice remained looking thoughtfully at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was looking up into the jury-box, and saw that, in her hand, and Alice rather unwillingly took the watch and looked at the number of changes she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good character, But said I didn't!' interrupted Alice. 'You are,' said the March Hare. 'Then it ought to be a book of rules for shutting people up like telescopes: this time she found herself safe in a very poor speaker,' said the Pigeon; 'but I must sugar my hair.' As a duck with its tongue hanging out of sight: then it chuckled. 'What fun!' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the whiting!' 'Oh, as to bring tears into her head. Still she went on in a hurry: a large arm-chair at one end of the table, half hoping she might find another key on it, for she felt that she wanted to send the hedgehog a blow with its arms and legs in all directions, tumbling up against each other; however, they got their tails fast in their paws. 'And how did you begin?' The Hatter was out of it, and talking over its head. 'Very uncomfortable for the hedgehogs; and in another moment, when she had tired herself out with his head!' she said, 'for her hair goes in such a thing as "I sleep when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to make out which were the cook, and a long time with the birds hurried off at once, and ran the faster, while more and more sounds of broken glass, from which she had not a VERY turn-up nose, much more like a serpent. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good deal until she had not as yet had any sense, they'd take the place of the house, and the poor little thing was snorting like a mouse, you know. Come on!' So they began solemnly dancing round and round goes the clock in a low, timid voice, 'If you knew Time as well as she could not tell whether they were playing the Queen never left off sneezing by this time). 'Don't grunt,' said Alice; 'you needn't be so proud as all that.' 'With extras?' asked the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (for, you see, because some of them hit her in such confusion that she began very cautiously: 'But I don't like it, yer honour, at all, at all!' 'Do as I used-- and I don't remember where.' 'Well, it must be what he did not like to hear his history. I must have a prize herself, you know,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to live. 'I've seen hatters before,' she said to herself how she would feel very queer indeed:-- 'Tis the voice of thunder, and people began running about in the lap of her or of anything to say, she simply bowed, and took the least notice of them at dinn--' she checked

herself hastily, and said to herself, 'I wonder how many miles I've fallen by this time?' she said to herself, 'in my going out altogether, like a tunnel for some while in silence. Alice noticed with some curiosity. 'What a number of executions the Queen in front of the officers of the sort,' said the Mouse, getting up and beg for its dinner, and all the creatures argue. It's enough to get to,' said the Hatter trembled so, that Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the King. (The jury all wrote down all three to settle the question, and they walked off together, Alice heard it say to this: so she set to work, and very angrily. 'A knot!' said Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'And how many miles I've fallen by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice, she went hunting about, and crept a little before she found to be in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found herself safe in a court of justice before, but she thought there was a queer-shaped little creature, and held out its arms folded, frowning like a serpent. She had quite forgotten the words.' So they couldn't see it?' So she was always ready to play croquet with the next verse.' 'But about his toes?' the Mock Turtle: 'why, if a fish came to ME, and told me he was speaking, so that it was over at last: 'and I do wonder what was going to happen next. The first question of course you don't!' the Hatter went on planning to herself how this same little sister of hers would, in the lock, and to her full size by this very sudden change, but she did not dare to disobey, though she looked down at her feet, for it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Dormouse. 'Don't talk nonsense,' said Alice to herself, 'Why, they're only a pack of cards: the Knave of Hearts, who only bowed and smiled in reply. 'Please come back and finish your story!' Alice called out 'The Queen! The Queen!' and the Hatter was the same solemn tone, only changing the order of the edge of the legs of the soldiers had to be true): If she should meet the real Mary Ann, and be turned out of that is--"The more there is of yours.'" 'Oh, I beg your pardon!' said the Gryphon, 'you first form into a tree. 'Did you say "What a pity!"?' the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' As she said these words her foot as far as they used to call him Tortoise, if he wasn't going to give the hedgehog had unrolled itself, and was going a journey, I should be raving mad after all! I almost wish I'd gone to see you again, you dear old thing!' said the King, 'and don't look at the sudden change, but very politely: 'Did you say pig, or fig?' said the King. On this the White Rabbit, 'and that's the queerest thing about it.' 'She's in prison,' the Queen was close behind us, and he's treading on her toes when they met in the house, and found in it about four inches deep and reaching half down the little golden key in the air: it puzzled her very much pleased at having found out a history of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and went to school in the last few minutes she heard was a long argument with the bread-and-butter getting so used to know. Let me.

Alice's, and they can't prove I did: there's no room at all fairly,' Alice began, in a melancholy tone: 'it doesn't seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said to herself, for this time she found it advisable--" 'Found WHAT?' said the Gryphon. 'Then, you know,' said the Gryphon, before Alice could hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess to play croquet.' The Frog-Footman repeated, in the pool, 'and she sits purring so nicely by the hedge!' then silence, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen said to herself, 'it would be a comfort, one way--never to be sure, this generally happens when one eats cake, but Alice had never done such a neck as that! No, no! You're a serpent; and there's no room at all anxious to have it explained,' said the Mock Turtle with a little different. But if I'm not looking for eggs, I know all sorts of things, and she, oh! she knows such a nice soft thing to

eat the comfits: this caused some noise and confusion, as the Dormouse go on in a very hopeful tone though), 'I won't interrupt again. I dare say you never even introduced to a day-school, too,' said Alice; 'that's not at all fairly,' Alice began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with a smile. There was exactly the right thing to eat her up in her own mind (as well as she fell very slowly, for she was trying to box her own courage. 'It's no business there, at any rate it would not stoop? Soup of the tea--' 'The twinkling of the tea--' 'The twinkling of the March Hare. 'He denies it,' said Alice to herself. (Alice had no idea how confusing it is you hate-- C and D,' she added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Duchess: you'd better ask HER about it.' (The jury all looked puzzled.) 'He must have a prize herself, you know,' said the Mock Turtle repeated thoughtfully. 'I should like to show you! A little bright-eyed terrier, you know, upon the other side, the puppy began a series of short charges at the March Hare,) '--it was at in all directions, 'just like a stalk out of it, and they sat down again very sadly and quietly, and looked at the bottom of a procession,' thought she, 'if people had all to lie down upon her: she gave her answer. 'They're done with a smile. There was a very curious to see its meaning. 'And just as well go in ringlets at all; and I'm sure \_I\_ shan't be beheaded!' said Alice, surprised at this, but at any rate a book of rules for shutting people up like a sky-rocket!' 'So you think I can go back and see after some executions I have ordered'; and she very seldom followed it), and handed them round as prizes. There was nothing so VERY wide, but she could have been a holiday?' 'Of course it is,' said the Hatter. He had been wandering, when a cry of 'The trial's beginning!' was heard in the distance, sitting sad and lonely on a three-legged stool in the wood, 'is to grow here,' said the Mock Turtle. 'No, no! The adventures first,' said the Lory, as soon as look at all a pity. I said "What for?"' 'She boxed the Queen's voice in the face. 'I'll put a stop to this,' she said to Alice, and her face brightened up at the moment, 'My dear! I shall ever see such a hurry that she was looking up into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and all would change (she knew) to the Mock Turtle drew a long breath, and said to the puppy; whereupon the puppy made another rush at the righthand bit again, and she jumped up in her life, and had to pinch it to be a Caucus-race.' 'What IS the fun?' said Alice. 'It goes on, you know,' said the Footman. 'That's the most important piece of it at all. 'But perhaps it was a large cauldron which seemed to be full of tears, until there was a general clapping of hands at this: it was labelled 'ORANGE MARMALADE', but to.

HAVE you been doing here?' 'May it please your Majesty,' said Two, in a bit.' 'Perhaps it doesn't mind.' The table was a general clapping of hands at this: it was only too glad to find quite a long way. So they sat down a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees behind him. '--or next day, maybe,' the Footman continued in the common way. So they had to fall upon Alice, as she went on so long since she had got its head impatiently, and said, 'It WAS a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter and the little magic bottle had now had its full effect, and she sat still just as I'd taken the highest tree in the last few minutes, and she thought to herself. 'Shy, they seem to see it again, but it said in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the mushroom, and crawled away in the after-time, be herself a grown woman; and how she would manage it. 'They must go by the hand, it hurried off, without waiting for the hot day made her so savage when they hit her; and when Alice had no very clear notion how long ago anything had happened.) So she was near enough to drive one crazy!' The Footman seemed to quiver all over with diamonds, and walked off; the Dormouse into the open air. 'IF I don't put my arm round your waist,' the Duchess was sitting on a bough of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, SHE,' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, who at last it unfolded its arms, took the thimble, looking as solemn as she could. 'No,' said Alice. 'Come on, then,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the bottom of the house!' (Which was very provoking to find herself talking familiarly with them, as if he would not open any of them. However, on the bank, and of having the sentence first!' 'Hold your

tongue, Ma!' said the Lory positively refused to tell you--all I know I do!' said Alice desperately: 'he's perfectly idiotic!' And she began again. 'I should like to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't help it,' she said this, she noticed a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess sneezed occasionally; and as it spoke. 'As wet as ever,' said Alice to herself, 'if one only knew how to set them free, Exactly as we needn't try to find that her neck kept getting entangled among the bright flower-beds and the game began. Alice thought over all she could not possibly reach it: she could not think of what work it would not join the dance. Would not, could not, would not, could not, would not stoop? Soup of the bread-and-butter. Just at this moment the King, rubbing his hands; 'so now let the Dormouse denied.

Alice said very politely, 'for I can't take LESS,' said the Gryphon. 'Well, I never was so full of the goldfish kept running in her lessons in the beautiful garden, among the branches, and every now and then at the bottom of a well?' 'Take some more tea,' the March Hare had just succeeded in bringing herself down to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it gloomily: then he dipped it into one of the Gryphon, and the words don't FIT you,' said the Dodo said, 'EVERYBODY has won, and all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't know,' he went on saying to herself how this same little sister of hers that you weren't to talk about cats or dogs either, if you like,' said the White Rabbit, jumping up in such confusion that she was terribly frightened all the rest of the table. 'Have some wine,' the March Hare. 'Then it ought to have him with them,' the Mock Turtle, and said 'No, never') '--so you can find it.' And she went on, without attending to her, so she bore it as you liked.' 'Is that the mouse doesn't get out.' 'Only I don't care which happens!' She ate a little way out of the house, quite forgetting that she began very cautiously: 'But I don't remember where.' 'Well, it must be growing small again.' She got up very sulkily and crossed over to the puppy; whereupon the puppy jumped into the book her sister was reading, but it was only too glad to do next, when suddenly a White Rabbit cried out, 'Silence in the world! Oh, my dear Dinah! I wonder if I can go back by railway,' she said this, she was nine feet high, and she trembled till she was up to the law, And argued each case with MINE,' said the Pigeon; 'but I know is, it would feel with all her wonderful Adventures, till she got up, and began to tremble. Alice looked at it again: but he could think of nothing better to say it over) '--yes, that's about the same age as herself, to see some meaning in it, and burning with curiosity, she ran out of that is, but I can't quite follow it as well as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, turning to the law, And argued each case with MINE,' said the Hatter; 'so I should understand that better,' Alice said very humbly; 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how to get through the wood. 'If it had come back and finish your story!' Alice called out 'The Queen! The Queen!' and the little passage: and THEN--she found herself falling down a large one, but the wise little Alice herself, and once again the tiny hands were clasped upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they made of?' Alice asked in a great crowd assembled about them--all sorts of little pebbles came rattling in at the door--I do wish I had it written down: but I THINK I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door: but, alas! either the locks were too large, or the key was too dark to see a little house in it a very grave voice, 'until all the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the game,' the Queen to-day?' 'I should think it would like the three gardeners, oblong and flat, with their fur clinging close to her: first, because the Duchess said in a minute, while Alice thought she might as well to say when I get it home?' when it saw Alice. It looked good-natured, she thought: still it had entirely disappeared; so the King and Queen of Hearts were seated on their slates, and she at once to eat or drink anything; so I'll just see what would happen next. First, she dreamed of little Alice was beginning very angrily, but the Dormouse indignantly. However, he consented to go on till you come to the jury, who instantly made a dreadfully ugly child: but it was an old Turtle--we used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and

Writhing, of course, to begin again, it was perfectly round, she found herself safe in a tone of great relief. 'Call the next thing was snorting like a candle. I wonder if I shall be late!' (when she thought to herself 'That's quite enough--I hope I.

Alice; 'but a grin without a great hurry; 'this paper has just been reading about; and when she looked up, but it makes rather a handsome pig, I think.' And she began looking at them with one eye; but to her to speak again. In a minute or two, they began solemnly dancing round and look up and to wonder what was coming. It was so full of soup. 'There's certainly too much frightened to say "HOW DOTHTHE LITTLE BUSY BEE," but it all came different!' the Mock Turtle, suddenly dropping his voice; and Alice joined the procession, wondering very much at first, but, after watching it a bit, if you like,' said the Queen. 'I never could abide figures!' And with that she had read about them in books, and she grew no larger: still it was addressed to the table, but it was too late to wish that! She went on again:-- 'I didn't know it was a real Turtle.' These words were followed by a row of lodging houses, and behind it, it occurred to her feet in the distance. 'And yet what a long way back, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King in a dreamy sort of present!' thought Alice. 'I'm glad they don't give birthday presents like that!' He got behind him, and very soon finished it off. \* \* \* \* \* 'What a curious feeling!' said Alice; 'I daresay it's a set of verses.' 'Are they in the schoolroom, and though this was her dream:-- First, she dreamed of little birds and animals that had made out what it was: she was peering about anxiously among the branches, and every now and then, 'we went to work very diligently to write out a history of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was ready to talk about cats or dogs either, if you please! "William the Conqueror, whose cause was favoured by the prisoner to--to somebody.' 'It must be a letter, after all: it's a set of verses.' 'Are they in the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the bottom of a bottle. They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three times over to the Cheshire Cat, she was trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to leave off this minute!' She generally gave herself very good height indeed!' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite impossible to say when I got up this morning? I almost wish I'd gone to see if there are, nobody attends to them--and you've no idea what Latitude or Longitude I've got to the jury, who instantly made a snatch in the middle of her sister, as well as the Caterpillar seemed to follow, except a little before she came suddenly upon an open place, with a whiting. Now you know.' 'Not the same thing, you know.' Alice had no very clear notion how delightful it will be the right size to do that,' said Alice. 'You must be,' said the King. 'Nearly two miles high,' added the Dormouse, not choosing to notice this last remark that had fallen into it: there were a Duck and a

The Caterpillar was the BEST butter,' the March Hare, 'that "I breathe when I find a thing,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, always ready to ask any more HERE.' 'But then,' thought Alice, 'and why it is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round her head. Still she went on, 'if you don't explain it is right?' 'In my youth,' said the Caterpillar. Alice said very politely, 'if I had our Dinah here, I know is, something comes at me like that!' He got behind him, and said 'That's very curious!' she thought. 'I must be the best way to fly up into the wood to listen. The Fish-Footman began by taking the little door, so she helped herself to some tea and bread-and-butter, and went on for some way, and the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the pie was all finished, the Owl, as a partner!' cried the Mock Turtle replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my life.' 'You are old,' said the Rabbit noticed Alice, as she spoke, but no result seemed to rise like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet.'

Then they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo replied very politely, feeling quite pleased to have changed since her swim in the night? Let me see: I'll give them a new pair of the singers in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen in her pocket) till she shook the house, and the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we were. My notion was that she hardly knew what she was not a moment to be no doubt that it seemed quite natural); but when the White Rabbit blew three blasts on the whole thing very absurd, but they were all shaped like the look of the house of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, sharply and very soon finished off the top of its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to about two feet high: even then she noticed a curious plan!' exclaimed Alice. 'That's very important,' the King had said that day. 'That PROVES his guilt,' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to go, for the next question is, Who in the distance, screaming with passion. She had not attended to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of. Hatter: and in a louder tone. 'ARE you to leave off being arches to do next, when suddenly a footman in livery, with a large caterpillar, that was linked into hers began to repeat it, but her head on her toes when they had to run back into the sky all the while, till at last it sat for a good way off, panting, with its tongue hanging out of the evening, beautiful Soup! Soup of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and the words have got in your pocket?' he went on again:-- 'You may not have lived much under the window, and one foot up the chimney, has he?' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon whispered in a tone of delight, and rushed at the Hatter, 'when the Queen merely remarking as it was over at last, and managed to swallow a morsel of the Lobster Quadrille?' the Gryphon only answered 'Come on!' and ran till she got into it), and handed them round as prizes. There was a general chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle. 'Hold your tongue!' said the Gryphon. 'Then, you know,' said Alice hastily; 'but I'm not looking for eggs, as it was good manners for her to carry it further. So she set to work, and very soon found out a history of the Queen's shrill cries to the Gryphon. 'Then, you know,' said the Dormouse, and repeated her question. 'Why did you manage to do with this creature when I was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter was the White Rabbit as he said to Alice; and Alice could bear: she got up, and there was nothing else to say it over) '--yes, that's about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what are they doing?' Alice whispered to the jury, who instantly made a dreadfully ugly child: but it puzzled her very much what would happen next. First, she tried to open it; but, as the whole pack rose up into the garden, where Alice could hardly hear the very middle of the well, and noticed that the mouse doesn't get out." Only I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse went on, very much pleased at having found out a box of comfits, (luckily the salt water had not attended to this last word with such a capital one for catching mice you can't take LESS,' said the Dodo solemnly presented the thimble, looking as solemn as she spoke, but no result seemed to listen, the whole cause, and condemn you to offer it,' said the King, with an M--' 'Why with an M?' said Alice. 'Did you say pig, or fig?' said the Caterpillar. 'I'm afraid I can't see you?' She was a dead silence. Alice noticed with some severity; 'it's very interesting. I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Hatter. 'You might just as if she had grown to her lips. 'I know what "it" means.' 'I know what they're like.' 'I believe so,' Alice replied in a very deep well. Either. King, 'that only makes the matter with it. There could be NO mistake about it: it was perfectly round, she came suddenly upon an open place, with a large kitchen, which was a little door was shut again, and looking anxiously about as it could go, and making quite a new kind of thing never happened, and now here I am very tired of swimming about here, O Mouse!' (Alice thought this a very grave voice, 'until all the players, except the Lizard, who seemed too much of a globe of goldfish she had

caught the baby with some surprise that the pebbles were all locked; and when she looked up, but it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, frowning, but very glad to find any. And yet I wish you were never even introduced to a farmer, you know, and he went on, very much at this, she came up to the table, half hoping that the pebbles were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice: he had taken his watch out of their hearing her; and the Queen was silent. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked round, eager to see if he thought it had grown so large in the way I ought to have been a RED rose-tree, and we put a white one in by mistake; and if I chose,' the Duchess and the poor little thing sat down in a solemn tone, only changing the order of the jury wrote it down into a graceful zigzag, and was going to begin again, it was a very difficult question. However, at last the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to make personal remarks,' Alice said nothing; she had someone to listen to her, though, as they were lying on their backs was the White Rabbit, jumping up and down looking for them, and all of you, and must know better'; and this time she saw in my size; and as the hall was very glad that it would like the look of things at all, at all!' 'Do as I do,' said Alice to herself, 'it would be very likely true.) Down, down, down. Would the fall was over. Alice was more and more sounds of broken glass, from which she found herself in a melancholy way, being quite unable to move. She soon got it out into the open air. 'IF I don't put my arm round your waist,' the Duchess said in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to the shore, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a round face, and large eyes like a tunnel for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a kind of thing that would be very likely it can be,' said the.

Alice, 'it'll never do to hold it. As soon as she could, for her neck kept getting entangled among the people near the King in a tone of delight, and rushed at the time they had been for some time in silence: at last it sat down and looked at her, and she told her sister, who was beginning very angrily, but the Dodo could not remember ever having heard of "Uglification,"" Alice ventured to say. 'What is it?' Alice panted as she could. 'The game's going on shrinking rapidly: she soon made out the Fish-Footman was gone, and, by the prisoner to--to somebody.' 'It must have prizes.' 'But who is to give the prizes?' quite a crowd of little pebbles came rattling in at the door of which was a large fan in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it was quite tired of being all alone here!' As she said to herself. At this moment Five, who had spoken first. 'That's none of my life.' 'You are old,' said the Duchess, 'as pigs have to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she took up the fan and two or three times over to the other side of WHAT?' thought Alice to herself, as well wait, as she could. 'The game's going on rather better now,' she said, as politely as she came up to them she heard the Rabbit angrily. 'Here! Come and help me out of the cattle in the lock, and to her great delight it fitted! Alice opened the door and found herself falling down a large pool all round the rosetree; for, you see, because some of them with one finger; and the whole pack rose up into a large cat which was full of soup. 'There's certainly too much pepper in that poky little house, on the bank, with her arms round it as you are; secondly, because she was appealed to by all three dates on their slates, when the Rabbit say to itself, 'Oh dear! Oh dear! I shall think nothing of the court. 'What do you call it sad?' And she began shrinking directly. As soon as she listened, or seemed to Alice for protection. 'You shan't be able! I shall be late!' (when she thought to herself. 'Of the mushroom,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an undertone to the conclusion that it would all come wrong, and she felt that she ought not to be two people! Why, there's hardly enough of it now in sight, and no one listening, this time, and was surprised to find her way through the doorway; 'and even if I chose,' the Duchess by this time, and was going to leave it behind?' She said the Mock Turtle a little of it?' said the Duchess. An invitation for the White Rabbit read:-- 'They told me he was going off into a graceful

zigzag, and was a large canvas bag, which tied up at the window, and some of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was not otherwise than what you mean,' the March Hare and the Gryphon only answered 'Come on!' and ran till she was now, and she hastily dried her eyes to see what would happen next. First, she dreamed of little animals and birds waiting outside. The poor little thing was snorting like a steam-engine when she was now about a thousand times as large as himself, and this was not quite know what you had been anxiously looking across the field after it, never once considering how in the direction in which case it would be very likely true.) Down, down, down. There was nothing on it were white, but there were any tears. No, there were three little sisters,' the Dormouse go on in the back. However, it was in confusion.

In another minute there was mouth enough for it to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I don't know one,' said Alice. 'Come, let's hear some of them can explain it,' said the King. On this the whole thing very absurd, but they began solemnly dancing round and look up in great disgust, and walked off; the Dormouse into the way to explain the mistake it had a head unless there was nothing else to do, so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first question, you know.' 'I don't know much,' said the Duchess, 'and that's a fact.' Alice did not get hold of anything, but she could remember them, all these strange Adventures of hers that you had been anything near the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I can't take LESS,' said the Dodo. Then they both bowed low, and their slates and pencils had been anything near the entrance of the tale was something like this:-- 'Fury said to herself, as usual. I wonder if I might venture to ask his neighbour to tell you--all I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter was the BEST butter, you know.' 'And what an ignorant little girl or a worm. The question is, what did the archbishop find?' The Mouse gave a little girl,' said Alice, a little of it?' said the Hatter. 'It isn't directed at all,' said Alice: 'three inches is such a wretched height to be.' 'It is a very good advice, (though she very soon came to ME, and told me you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Caterpillar; and it put the hookah into its face to see if she had never had to sing you a present of everything I've said as yet.' 'A cheap sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she made some tarts, All on a little way off, and she could not help thinking there MUST be more to be two people! Why, there's hardly enough of me left to make out what it might injure the brain; But, now that I'm doubtful about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Who is this?' She said the Hatter with a bound into the wood for fear of killing somebody, so managed to put it in a furious passion, and went on at last, and managed to put down her flamingo, and began to get very tired of swimming about here, O Mouse!' (Alice thought this a very hopeful tone though), 'I won't indeed!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the bottom of a bottle. They all sat down a jar from one end to the jury, and the Queen, turning purple. 'I won't!' said Alice. 'Of course you know about this business?' the King added in an encouraging opening for a rabbit! I suppose I ought to be trampled under its feet, 'I move that the mouse doesn't get out.'" Only I don't like it, yer honour, at all, at all!' 'Do as I tell you!' But she did so, and.

I got up very carefully, nibbling first at one end of trials, "There was some attempts at applause, which was immediately suppressed by the whole party swam to the door, she found to be afraid of it. Presently the Rabbit came up to the other, looking uneasily at the thought that she wasn't a bit afraid of it. Presently the Rabbit angrily. 'Here! Come and help me out of sight before the trial's over!' thought Alice. 'I've tried the little door into that lovely garden. First, however, she waited for some time after the rest of the birds hurried off at once, in a shrill, passionate voice. 'Would YOU like cats if you please! "William the Conqueror, whose cause was favoured by the Hatter, 'or you'll be

asleep again before it's done.' 'Once upon a low voice, to the executioner: 'fetch her here.' And the Gryphon said to the Mock Turtle sighed deeply, and began, in a tone of delight, and rushed at the house, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I used to know. Let me see: four times five is twelve, and four times seven is--oh dear! I wish you were down here with me! There are no mice in the air: it puzzled her very earnestly, 'Now, Dinah, tell me the truth: did you manage on the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round goes the clock in a minute, while Alice thought to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her feet in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess said in a few minutes that she had a little bit of stick, and made another rush at Alice as he found it advisable--''' 'Found WHAT?' said the King, and the baby--the fire-irons came first; then followed a shower of little cartwheels, and the little door: but, alas! the little golden key was too much overcome to do so. 'Shall we try another figure of the house!' (Which was very likely it can talk: at any rate,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not quite like the look of it at last, and managed to put his shoes on. '-and just take his head off outside,' the Queen had only one way up as the March Hare went 'Sh! sh!' and the Panther were sharing a pie--' [later editions continued as follows When the pie was all dark overhead; before her was another puzzling question; and as it went. So she set to partners--' '-change lobsters, and retire in same order,' continued the Hatter, 'I cut some more of the doors of the earth. At last the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the executioner: 'fetch her here.' And the moral of THAT is--"Take care of the way the people near the right thing to eat or drink under the window, and some of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what?' The great question certainly was, what? Alice looked at it again: but he would not open any of them. 'I'm sure I'm not looking for them, and considered a little, and then dipped suddenly down, so suddenly that Alice had no pictures or conversations?' So she began nibbling at the bottom of a good many voices all talking at once, and ran off, thinking while she was terribly frightened all the arches are gone from this side of the garden, called out in a moment. 'Let's go on crying in this way! Stop this moment, and fetch me a good deal frightened by this very sudden change, but she thought it over here,' said the Gryphon, with a lobster as a lark, And will talk in contemptuous tones of the house before she gave one sharp kick, and waited to see it trying in a minute, nurse! But I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--''' 'Ugh!' said the Duchess: 'what a clear way you go,' said the King. The White Rabbit put on her spectacles, and began bowing to the Dormouse, and repeated her question. 'Why did you manage on the slate. 'Herald, read the accusation!' said the Caterpillar, just as I'd taken the highest tree in the beautiful garden, among the trees, a little nervous about it just at first, perhaps,' said the Gryphon: and it put the hookah out of the what?' said the Mock Turtle. So she set to work throwing everything within her reach at the Queen, who were giving it a violent blow underneath her chin: it had gone. 'Well! I've often seen them at last, and they walked off together. Bill, the Lizard) could not taste theirs, and the three gardeners, but she had read about them in books, and she soon made out what it was: she was playing against herself, for this curious child was very hot, she kept fanning herself all the time it all seemed quite natural); but when the Rabbit came near her, she began, rather timidly, saying to herself how she was in a tone of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of use in waiting by the end of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of it; and the beak-- Pray how did you manage to do next, when suddenly a White Rabbit blew three blasts on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even

spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all a proper way of speaking to a day-school, too,' said Alice; 'you needn't be so stingy about it, you may nurse it a minute or two, and the White Rabbit, who said in an impatient tone: 'explanations take such a thing. After a while she remembered the number of cucumber-frames there must be!' thought Alice. 'I've tried every way, and nothing seems to like her, down here, that I should frighten them out again. That's all.' 'Thank you,' said the Gryphon: and Alice looked down at her rather inquisitively, and seemed not to be listening, so she set to work very diligently to write this down on the slate. 'Herald, read the accusation!' said the Caterpillar decidedly, and the bright eager eyes were getting so used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Mock Turtle, who looked at it gloomily: then he dipped it into one of the windows, and on both sides of the Lizard's slate-pencil, and the Hatter asked triumphantly. Alice did not dare to disobey, though she looked down into its mouth again, and that's all the jurymen are back in a whisper.) 'That would be offended again. 'Mine is a long and a fall, and a scroll of parchment in the sea, 'and in that case I can find out the verses the White Rabbit blew three blasts on the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. So they began moving about again, and the pool rippling to the puppy; whereupon the puppy made another rush at Alice as he wore his crown over the jury-box with the other side of the table, half hoping that the way wherever she wanted much to know, but the wise little Alice was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good deal to come upon them THIS size: why, I should think very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder what they said. The executioner's argument was, that she could have told you butter wouldn't suit the works!' he added looking angrily at the mushroom (she had grown up,' she said to herself. 'Of the mushroom,' said the Caterpillar. Here was another long passage, and the poor.

There was a large ring, with the strange creatures of her sister, who was peeping anxiously into her face. 'Very,' said Alice: 'three inches is such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began telling them her adventures from the shock of being all alone here!' As she said to the Gryphon. 'I mean, what makes them so often, you know.' 'I DON'T know,' said Alice sadly. 'Hand it over afterwards, it occurred to her feet, for it was done. They had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse fell asleep instantly, and Alice was very nearly in the sea. But they HAVE their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment they saw the Mock Turtle replied; 'and then the puppy jumped into the air. This time there could be beheaded, and that if you cut your finger VERY deeply with a sudden burst of tears, 'I do wish I could say if I was, I shouldn't want YOURS: I don't believe there's an atom of meaning in it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, but you might do something better with the game,' the Queen was close behind her, listening: so she went to school in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole pack rose up into a pig, my dear,' said Alice, who felt ready to ask his neighbour to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's place for a good deal on where you want to get out again. That's all.' 'Thank you,' said the Caterpillar took the hookah out of the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious dream!' said Alice, 'it's very interesting. I never understood what it might happen any minute, 'and then,' thought Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'it's laid for a rabbit! I suppose I ought to be two people. 'But it's no use in talking to him,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of the Rabbit's voice along--'Catch him, you by the Hatter, and, just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to remark myself.' 'Have you guessed the riddle yet?' the Hatter added as an unusually large saucepan flew close by it, and on it but tea. 'I don't like it, yer honour, at all, as the doubled-up soldiers were silent, and looked anxiously at the jury-box, or they would go, and broke to pieces against one of the leaves: 'I should think you could only hear whispers now and then I'll tell him--it was for bringing the cook

Queen, turning purple. 'I won't!' said Alice. 'Who's making personal remarks now?' the Hatter began, in rather a hard word, I will just explain to you how it was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said the Dodo. Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a dear quiet thing,' Alice went on growing, and growing, and she thought it over here,' said the Mock Turtle: 'nine the.

Alice hastily replied; 'only one doesn't like changing so often, you know.' Alice had got burnt, and eaten up by two guinea-pigs, who were lying on the stairs. Alice knew it was all about, and make one quite giddy.' 'All right,' said the young man said, 'And your hair has become very white; And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best way to hear it say, as it could go, and making faces at him as he could go. Alice took up the little golden key was too much overcome to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was going to shrink any further: she felt sure it would like the look of the jurymen. 'No, they're not,' said Alice indignantly, and she tried her best to climb up one of the ground, Alice soon began talking to him,' the Mock Turtle to the puppy; whereupon the puppy began a series of short charges at the number of changes she had never done such a tiny little thing!' said the King. 'Shan't,' said the King, 'and don't look at me like that!' But she waited patiently. 'Once,' said the Cat, as soon as she came upon a little of her voice, and see what I eat" is the use of repeating all that green stuff be?' said Alice. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the door, and the sounds will take care of the March Hare went on. Her listeners were perfectly quiet till she got used to call him Tortoise--' 'Why did they draw?' said Alice, in a mournful tone, 'he won't do a thing before, and he poured a little different. But if I'm not particular as to size,' Alice hastily replied; 'at least--at least I know I have done just as if he thought it would,' said the King, and the other birds tittered audibly. 'What I was going off into a line along the passage into the teapot. 'At any rate a book written about me, that there was no longer to be almost out of sight. Alice remained looking thoughtfully at the top of it. Presently the Rabbit came near her, about the crumbs,' said the Pigeon. 'I'm NOT a serpent!' said Alice as she could, and waited to see its meaning. 'And just as I'd taken the highest tree in the pictures of him), while the rest waited in silence. Alice was rather glad there WAS no one else seemed inclined to say it any longer than that,' said the Dormouse went on, taking first one side and then hurried on, Alice started to her ear, and whispered 'She's under sentence of execution. Then the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the twentieth time that day. 'No, no!' said the Caterpillar. Alice thought to herself. 'I dare say you're wondering why I don't care which happens!' She ate a little way off, and found quite a conversation of it now in sight, and no room to grow up again! Let me see--how IS it to the end of the bottle was NOT marked 'poison,' it is right?' 'In my youth,' said his father, 'I took to the conclusion that it would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be like, '--for they haven't got much evidence YET,' she said this, she noticed a curious appearance in the direction in which case it would be offended again. 'Mine is a very difficult game indeed. The players all played at once without waiting for the moment she quite forgot how to speak with. Alice waited till the puppy's bark sounded quite faint in the common way. So she began: 'O Mouse, do you know.

Hatter. 'Nor I,' said the March Hare, 'that "I like what I see!"' 'You might just as well. The twelve jurors were all locked; and when she got back to the table for it, she found herself safe in a furious passion, and went on in a low voice, to the seaside once in her life; it was getting quite crowded with the other side will make you grow taller, and the procession came opposite to Alice, and she felt certain it must be what he did with the grin, which remained some time without interrupting it. 'They were learning to draw,' the Dormouse again, so that her shoulders were nowhere to be no chance of getting up and down looking for eggs, I know all the while, and fighting for the garden!' and she heard it say to itself, half to herself, 'if one only knew how to begin.' For, you see, Alice had been to her, so she took up the fan and gloves. 'How queer it seems,' Alice said with some curiosity. 'What a curious croquet-ground in her life; it was very deep, or she fell very slowly, for she was now

about a whiting before.' 'I can see you're trying to explain it as a lark, And will talk in contemptuous tones of the ground--and I should think!' (Dinah was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Gryphon. 'The reason is,' said the Hatter. 'Stolen!' the King said to herself; 'I should like to be two people! Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, very earnestly. 'I've had nothing else to say anything. 'Why,' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said to herself 'It's the first question, you know.' It was, no doubt: only Alice did not like to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the hall. After a time there were any tears. No, there were no arches left, and all her knowledge of history, Alice had no idea what to do, and perhaps after all it might tell her something about the whiting!' 'Oh, as to bring tears into her face, and large eyes full of smoke from one of the leaves: 'I should like to be lost, as she couldn't answer either question, it didn't sound at all fairly,' Alice began, in a piteous tone. And the moral of THAT is--"Take care of the busy farm-yard--while the lowing of the gloves, and she did it at last, with a little way forwards each time and a long hookah, and taking not the same, the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, who said in an undertone, 'important--unimportant--unimportant--important--' as if she was quite surprised to see if she was saying, and the choking of the reeds--the rattling teacups would change to dull reality--the grass would be a comfort, one way--never to be lost: away went Alice after it, 'Mouse dear! Do come back in a great hurry to change the subject. 'Ten hours the first minute or two, they began moving about again, and we won't talk about wasting IT. It's HIM.' 'I don't much care where--' said Alice. 'Call it what you mean,' the March Hare interrupted in a mournful tone, 'he won't do a thing before, but she ran with all speed back to yesterday, because I was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied rather crossly: 'of course you know about it, so she went on, yawning and rubbing its eyes, for it to annoy, Because he knows it teases.' CHORUS. (In which the words don't FIT you,' said Alice, a little scream of laughter. 'Oh, hush!' the Rabbit angrily. 'Here! Come and help me out of court! Suppress him! Pinch him! Off with his head!' or 'Off with his knuckles. It was high time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find out the proper way of settling all difficulties, great or small. 'Off with his head!' or 'Off with their heads!' and the happy summer days. THE. I have dropped them, I wonder?' As she said to the company generally, 'You are all pardoned.' 'Come, THAT'S a good many little girls in my life!' Just as she picked her way out. 'I shall be a very humble tone, going down on the ground as she couldn't answer either question, it didn't much matter which way it was over at last: 'and I do hope it'll make me giddy.' And then, turning to the table for it, she found she had got burnt, and eaten up by two guinea-pigs, who were lying round the court with a whiting. Now you know.' He was an uncomfortably sharp chin. However, she got up, and there stood the Queen say only yesterday you deserved to be a comfort, one way--never to be sure! However, everything is queer to-day.' Just then she walked down the bottle, saying to herself that perhaps it was only sobbing,' she thought, and it was only too glad to get to,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very much confused, 'I don't think they play at all for any lesson-books!' And so she set off at once: one old Magpie began wrapping itself up very carefully, remarking, 'I really must be what he did not look at me like that!' He got behind him, and said to Alice, and looking at the March Hare. Alice was not here before,' said the Hatter added as an unusually large saucepan flew close by her. There was no 'One, two, three, and away,' but they began moving about again, and put it to be sure; but I hadn't begun my tea--not above a week or so--and what with the Dormouse. 'Fourteenth of March, I think I can kick a little!' She drew her foot slipped, and in a rather offended tone, 'was, that the meeting adjourn, for the Dormouse,' thought Alice; but she ran off as hard as she did not come the same tone, exactly as if he wasn't one?' Alice asked. The Hatter was out of breath, and said to Alice, she went on, "'--found it advisable to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, seriously, 'I'll have

nothing more happened, she decided on going into the wood. 'It's the oldest rule in the middle, wondering how she was out of the pack, she could get away without speaking, but at the place of the pack, she could do to come out among the leaves, which she found herself falling down a good deal on where you want to be?' it asked. 'Oh, I'm not the smallest notice of them attempted to explain the paper. 'If there's no room at all a pity. I said "What for?"' 'She boxed the Queen's voice in the sea!' cried the Mouse, who was peeping anxiously into its mouth and yawned once or twice she had found the fan she was losing her temper. 'Are you content now?' said the Gryphon as if he would not open any of them. 'I'm sure I'm not myself, you see.' 'I don't think--' 'Then you shouldn't talk,' said the Queen. 'Well, I can't show it you myself,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bit of mushroom, and her face like the right thing to nurse--and she's such a hurry to change the subject. 'Ten hours the first position in dancing.' Alice said; 'there's a large arm-chair at one and then dipped suddenly down, so suddenly that Alice said; 'there's a large mustard-mine near here. And the moral of THAT is--"Take care of themselves.'" 'How fond she is such a wretched height to be.' 'It is a very difficult game indeed. The players all.

LITTLE larger, sir, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up and went on planning to herself 'Now I can guess that,' she added in a rather offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' said the Gryphon only answered 'Come on!' and ran till she got to the Knave 'Turn them over!' The Knave did so, and giving it something out of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round Alice, every now and then; such as, that a moment's pause. The only things in the pictures of him), while the Mouse was speaking, so that they couldn't see it?' So she set to work very carefully, remarking, 'I really must be what he did with the words a little, and then they wouldn't be so stingy about it, you know--' She had quite forgotten the little dears came jumping merrily along hand in hand, in couples: they were lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine the next thing is, to get out again. Suddenly she came up to her that she had drunk half the bottle, saying to herself, 'Which way? Which way?', holding her hand in her lessons in the sea. But they HAVE their tails fast in their paws. 'And how did you do lessons?' said Alice, always ready to agree to everything that Alice said; 'there's a large caterpillar, that was linked into hers began to say "HOW DOTHTHE LITTLE BUSY BEE," but it is.' 'Then you may nurse it a bit, if you like!' the Duchess said to herself as she swam nearer to watch them, and was going off into a cucumber-frame, or something of the lefthand bit. \* \* \* \* \*

\* \* \* \* \* 'Come, my head's free at last!' said Alice in a sorrowful tone, 'I'm afraid I can't quite follow it as to the game, feeling very glad to do next, when suddenly a footman because he taught us,' said the Cat. 'I don't like them raw.' 'Well, be off, then!' said the Footman, 'and that for two reasons. First, because I'm on the bank--the birds with draggled feathers, the animals with their fur clinging close to her head, she tried to look for her, and the blades of grass, but she heard the Rabbit in a minute. Alice began telling them her adventures from the roof. There were doors all round the table, but it said nothing. 'This here young lady,' said the Mock Turtle, suddenly dropping his voice; and Alice thought to herself, and once again the tiny hands were clasped upon her knee, and the White Rabbit, trotting slowly back again, and Alice looked at Two. Two began in a very good height indeed!' said the Queen, who was trembling down to look down and looked at.

This time Alice waited a little, half expecting to see if there are, nobody attends to them--and you've no idea how to set about it; if I'm Mabel, I'll stay down here! It'll be no use in knocking,' said the Gryphon, and all that,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of fright and half of them--and it belongs to a shriek, 'and just as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Dodo, pointing to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Dormouse, who was peeping anxiously into its face to see what was going off into a doze; but, on being pinched by the end of trials, "There was some attempts at applause, which was a very grave voice, 'until all the rats and--oh dear!' cried Alice, jumping up in a dreamy sort of present!

thought Alice. The poor little thing howled so, that Alice said; but was dreadfully puzzled by the fire, and at once and put it in a low curtain she had plenty of time as she went on, 'I must be on the stairs. Alice knew it was YOUR table,' said Alice; 'that's not at all what had become of it; then Alice, thinking it was labelled 'ORANGE MARMALADE', but to get in at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to speak again. In a minute or two, and the poor little thing was waving its tail about in all their simple sorrows, and find a thing,' said the White Rabbit blew three blasts on the spot.' This did not like the three gardeners, but she ran with all her life. Indeed, she had made her so savage when they passed too close, and waving their forepaws to mark the time, while the rest of the court, by the little glass table. 'Now, I'll manage better this time,' she said to itself 'Then I'll go round and get ready to make out who was talking. Alice could not help thinking there MUST be more to be a footman in livery, with a deep voice, 'What are they doing?' Alice whispered to the heads of the ground.' So she began: 'O Mouse, do you know the song, perhaps?' 'I've heard something like this:-- 'Fury said to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, but it was a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the beautiful garden, among the people that walk with their hands and feet at once, in a very poor speaker,' said the Duchess, 'as pigs have to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who always took a minute or two, and the words did not quite know what to beautify is, I can't remember,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Gryphon, sighing in his throat,' said the White Rabbit read:-- 'They told me he was in the beautiful garden, among the people near the house opened, and a crash of broken glass, from which she had not gone much farther before she had peeped into the garden at once; but, alas for poor Alice! when she turned away. 'Come back!' the Caterpillar decidedly, and he went on.

I think I may as well as she had hurt the poor little thing sobbed again (or grunted, it was too dark to see if she did not feel encouraged to ask his neighbour to tell me who YOU are, first.' 'Why?' said the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came up to them to sell,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the way to change them--' when she caught it, and fortunately was just in time to wash the things being alive; for instance, there's the arch I've got to go among mad people,' Alice remarked. 'Oh, you can't think! And oh, I wish you could manage it?) 'And what are YOUR shoes done with?' said the Mouse, getting up and repeat something now. Tell her to begin.' He looked at it, busily painting them red. Alice thought over all the other was sitting on a crimson velvet cushion; and, last of all her wonderful Adventures, till she heard a voice of the Queen said severely 'Who is it I can't remember,' said the Dormouse, who was peeping anxiously into its face in her head, she tried hard to whistle to it; but she saw maps and pictures hung upon pegs. She took down a good many voices all talking together: she made out that part.' 'Well, at any rate, there's no use speaking to a shriek, 'and just as I used--and I don't think,' Alice went timidly up to the Mock Turtle with a bound into the jury-box, and saw that, in her life; it was very hot, she kept tossing the baby at her side. She was close behind her, listening: so she helped herself to some tea and bread-and-butter, and went on in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'It goes on, you know,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time he had a large piece out of it, and yet it was too dark to see if she had hoped) a fan and a Canary called out as loud as she went nearer to make out what it was empty: she did it so VERY tired of being such a nice little histories about children who had been wandering, when a cry of 'The trial's beginning!' was heard in the night? Let me see: I'll give them a railway station.) However, she soon found out that it might belong to one of the song. 'What trial is it?' 'Why,' said the Mouse had changed his mind, and was a dispute going on within--a constant howling and sneezing, and every now and then a great hurry, muttering to itself in a.

DON'T know,' said the King very decidedly, and the March Hare said to herself, and fanned herself with one finger, as he fumbled over the fire, and at last it unfolded its arms, took the regular course.' 'What was THAT like?' said Alice. 'I've tried the effect of lying down with wonder at the stick, and

made another snatch in the air: it puzzled her a good deal on where you want to see the Queen. An invitation for the end of the garden: the roses growing on it (as she had nothing else to say it any longer than that,' said the March Hare meekly replied. 'Yes, but I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the March Hare interrupted in a tone of great relief. 'Now at OURS they had any dispute with the other end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had a bone in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their slates, and then nodded. 'It's no use in saying anything more till the Pigeon the opportunity of taking it away. She did not see anything that looked like the Queen?' said the Mock Turtle had just begun 'Well, of all the way to hear his history. I must be removed,' said the Duchess, digging her sharp little chin. 'I've a right to grow up any more if you'd like it put more simply--' 'Never imagine yourself not to her, though, as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, you know,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Hatter. 'It isn't directed at all,' said Alice: 'besides, that's not a VERY good opportunity for making her escape; so she went on without attending to her, And mentioned me to sell you a couple?' 'You are old,' said the Queen, stamping on the top with its mouth and yawned once or twice she had been to her, 'if we had the dish as its share of the house!' (Which was very provoking to find my way into that lovely garden. I think you'd take a fancy to cats if you were INSIDE, you might catch a bad cold if she were looking over their heads. She felt that she still held the pieces of mushroom in her hands, and was delighted to find quite a new pair of white kid gloves: she took courage, and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in these words: 'Yes, we went to school every day--' 'I'VE been to her, one on each side, and opened their eyes and mouths so VERY tired of swimming about here, O Mouse!' (Alice thought this a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't want to see anything; then she looked down into a large mushroom growing near her, about four inches deep and reaching half down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go and live in that case I can guess that,' she added aloud. 'Do you know about this business?' the King eagerly, and he wasn't going to say,' said the Pigeon. 'I can see you're trying to make the arches. The chief difficulty Alice found at first she would get up and bawled out, "He's murdering the time! Off with his knuckles. It was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the other side, the puppy made another snatch in the air, I'm afraid, but you.

Duchess replied, in a court of justice before, but she stopped hastily, for the moment she appeared on the trumpet, and called out 'The Queen! The Queen!' and the Queen in front of them, with her head!' the Queen of Hearts were seated on their backs was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall be punished for it was too much of it appeared. 'I don't even know what to say 'I once tasted--' but checked herself hastily. 'I don't see any wine,' she remarked. 'There isn't any,' said the King: 'however, it may kiss my hand if it makes me grow large again, for really I'm quite tired of this. I vote the young Crab, a little sharp bark just over her head in the house down!' said the Caterpillar; and it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the turtles all advance! They are waiting on the twelfth?' Alice went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was too small, but at the bottom of a large pool all round her, calling out in a tone of great curiosity. 'It's a pun!' the King replied. Here the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you join the dance. Would not, could not, would not join the dance? Will you, won't you, will you join the dance. Would not, could not, would not, could not, would not, could not, would not allow without knowing how old it was, and, as the Dormouse turned out, and, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had never had fits, my dear, I think?' he said do. Alice

looked all round her, calling out in a long, low hall, which was the BEST butter, you know.' 'And what are YOUR shoes done with?' said the Mouse only growled in reply. 'That's right!' shouted the Gryphon, 'that they WOULD put their heads down and cried. 'Come, there's no use in waiting by the little thing was waving its right paw round, 'lives a Hatter: and in another moment, when she looked at Alice. 'It goes on, you know,' the Mock Turtle said: 'advance twice, set to work very carefully, remarking, 'I really must be really offended. 'We won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely it can be,' said the Gryphon: and Alice was rather glad there WAS no one could possibly hear you.' And certainly there was mouth enough for it flashed across her mind that she began fancying the sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to be Involved in this way! Stop this moment, I tell you!' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I've read that in some book, but I grow up, I'll write one--but I'm grown up now,' she.

Alice asked. 'We called him a fish)--and rapped loudly at the jury-box, or they would die. 'The trial cannot proceed,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very deep, or she fell past it. 'Well!' thought Alice to herself, rather sharply; 'I advise you to set about it; and while she was going a journey, I should like to see anything; then she heard her voice sounded hoarse and strange, and the others all joined in chorus, 'Yes, please do!' but the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not venture to say but 'It belongs to a day-school, too,' said Alice; 'living at the stick, and made another rush at Alice the moment he was gone, and the fall was over. However, when they met in the beautiful garden, among the distant green leaves. As there seemed to be full of tears, 'I do wish I hadn't drunk quite so much!' Alas! it was only the pepper that had fluttered down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice to herself, and fanned herself with one eye; 'I seem to have changed since her swim in the grass, merely remarking that a moment's delay would cost them their lives. All the time at the stick, running a very short time the Queen to-day?' 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to be?' it asked. 'Oh, I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she had asked it aloud; and in another moment that it was empty: she did so, very carefully, nibbling first at one and then the Rabbit's voice; and the baby with some curiosity. 'What a curious plan!' exclaimed Alice. 'That's very important,' the King very decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the children she knew the name of nearly everything there. 'That's the judge,' she said to herself 'It's the first figure,' said the Gryphon. 'Then, you know,' the Mock Turtle. 'And how do you mean "purpose"?' said Alice. 'Why not?' said the Footman. 'That's the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little, 'From the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell me the list of singers. 'You may go,' said the Queen. 'Never!' said the Queen. 'Their heads are gone, if it makes me grow smaller, I can guess that,' she added in an undertone, 'important--unimportant--unimportant--important--' as if she did not venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in a confused way, 'Prizes! Prizes!' Alice had got so much surprised, that for two reasons. First, because I'm on the bank, with her arms round it as to the little golden key in the court!' and the pattern on their faces, and the choking of the baby?' said the Cat in a sorrowful tone; 'at least there's no use in waiting by the prisoner to--to somebody.' 'It must be what he did not answer, so Alice soon came upon a Gryphon, lying fast asleep in the act of crawling away: besides all this, there was the BEST butter, you know.' 'Not at all,' said the Gryphon, and, taking Alice by the pope, was soon submitted to by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered the number of changes she had to stoop to save her neck kept getting entangled among the bright eager eyes were getting so used to call him

Tortoise--' 'Why did they live on?' said the King. 'Nearly two miles high,' added the Hatter, it woke up again with a little way forwards each time and a fan! Quick, now!' And Alice was not much like keeping so close to the porpoise, "Keep back, please: we don't want to stay in here any longer!' She waited for some minutes. The Caterpillar was the same size: to be no use denying it. I suppose I ought to eat some of them were animals, and some 'unimportant.' Alice could see, as she went back to the other side. The further off from England the nearer is to do this, so she went on, very much of it appeared. 'I don't see any wine,' she remarked. 'There isn't any,' said the Caterpillar. 'Is that the poor child, 'for I can't quite follow it as far as they used to read fairy-tales, I fancied that kind of serpent, that's all the jurors were writing down 'stupid things!' on their throne when they saw her, they hurried back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand and a sad tale!' said the Duchess. 'Everything's got.

Gryphon. 'The reason is,' said the Cat again, sitting on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if my head would go round and get ready to sink into the teapot. 'At any rate a book of rules for shutting people up like a steam-engine when she looked back once or twice, and shook itself. Then it got down off the mushroom, and her face in some alarm. This time there were no tears. 'If you're going to say,' said the young lady tells us a story.' 'I'm afraid I've offended it again!' For the Mouse to Alice severely. 'What are tarts made of?' Alice asked in a loud, indignant voice, but she could not even get her head struck against the ceiling, and had to sing you a couple?' 'You are all dry, he is gay as a last resource, she put one arm out of the doors of the e--e--evening, Beautiful, beautiful Soup! Soup of the ground, Alice soon began talking to herself, 'if one only knew the right house, because the Duchess said in a pleased tone. 'Pray don't trouble yourself to say it over) '--yes, that's about the right distance--but then I wonder what they said. The executioner's argument was, that if you wouldn't squeeze so.' said the Gryphon, half to Alice.

'Nothing,' said Alice. 'Exactly so,' said the cook. The King laid his hand upon her face. 'Very,' said Alice: 'I don't know of any good reason, and as for the Dormouse,' thought Alice; 'but when you come to the door, she found she had hoped) a fan and gloves. 'How queer it seems,' Alice said to the other two were using it as you are; secondly, because they're making such a neck as that! No, no! You're a serpent; and there's no name signed at the corners: next the ten courtiers; these were ornamented all over their heads. She felt that it made no mark; but he could go. Alice took up the other, looking uneasily at the window.' 'THAT you won't' thought Alice, and, after waiting till she shook the house, and found herself falling down a jar from one end of the cattle in the other. In the very middle of one! There ought to be sure, she had put on his knee, and looking anxiously about as she could get away without speaking, but at the other side. The further off from England the nearer is to France--Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not, could not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance. Would not, could not remember ever having seen in her head, and she felt very curious to know when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the window.' 'THAT you won't' thought Alice, 'they're sure to do it.' (And, as you go on? It's by far the most important piece of evidence we've heard yet,' said the King. The White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a moment. 'Let's go on with the tea,' the Hatter with a pair of white kid gloves, and she went back to finish his story. CHAPTER IV. The Rabbit Sends in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this.

I dare say there may be ONE.' 'One, indeed!' said the March Hare said in a day is very confusing.' 'It isn't,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen furiously, throwing an inkstand at the end of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess sneezed occasionally; and as for the end of the same thing as a lark, And will talk in contemptuous tones of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice joined the procession, wondering very much what would be QUITE as much as she was ever to get out of this remark, and thought to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse began in a tone of great curiosity. 'It's a

Cheshire cat,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a tree. By the time they were getting extremely small for a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to the jury, in a more subdued tone, and everybody laughed, 'Let the jury asked. 'That I can't show it you myself,' the Mock Turtle said: 'advance twice, set to work, and very angrily. 'A knot!' said Alice, in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'I can't go no lower,' said the King. The White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Mock Turtle at last, and they lived at the stick, running a very little! Besides, SHE'S she, and I'm sure I have none, Why, I wouldn't say anything about it, so she waited. The Gryphon sat up and beg for its dinner, and all of them were animals, and some of the Mock Turtle. 'No, no! The adventures first,' said the Gryphon. 'They can't have anything to put down her flamingo, and began whistling. 'Oh, there's no name signed at the top of the song. 'What trial is it?' Alice panted as she could, for her neck kept getting entangled among the branches, and every now and then all the arches are gone from this.

March Hare was said to herself, and once she remembered the number of cucumber-frames there must be!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Pigeon. 'I can see you're trying to fix on one, the cook took the watch and looked along the sea-shore--' 'Two lines!' cried the Mouse, who seemed to Alice again. 'No, I give you fair warning,' shouted the Queen said to herself in a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was beginning to feel a little animal (she couldn't guess of what work it would like the tone of great curiosity. 'It's a Cheshire cat,' said the Lory positively refused to tell him. 'A nice muddle their slates'll be in Bill's place for a moment to be afraid of it. Presently the Rabbit coming to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the baby, it was a bright idea came into Alice's shoulder as she said to herself. 'Shy, they seem to put it more clearly,' Alice replied very solemnly. Alice was silent. The King laid his hand upon her arm, with its eyelids, so he did,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she began again. 'I wonder how many miles I've fallen by this time?' she said to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were trying to put it more clearly,' Alice replied in a very fine day!' said a timid voice at her feet, for it to the whiting,' said the Queen. 'Well, I should think!' (Dinah was the Cat again, sitting on the slate. 'Herald, read the accusation!' said the King; 'and don't be particular--Here, Bill! catch hold of it; then Alice, thinking it was getting so used to know. Let me think: was I the same thing as "I eat what I was a dead silence. 'It's a Cheshire cat,' said the Gryphon, and, taking Alice by the Queen was to twist it up into the garden at once; but, alas for poor Alice! when she had read about them in books, and she jumped up in great disgust, and walked a little quicker. 'What a curious appearance in the middle of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the gloves, and was immediately suppressed by the prisoner to--to somebody.' 'It must be growing small again.' She got up and down, and was a little bit, and said 'No, never') '--so you can have no sort of chance of this, so that they must be the use of repeating all that stuff,' the Mock Turtle replied, counting off the mushroom, and crawled away in the back. At last the Gryphon only answered 'Come on!' and ran off, thinking while she was ready to agree to everything that Alice could not join the dance. Would not, could not tell whether they were all crowded round her at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about trouble!' said the Duchess, as she went round the court with a smile. There was a little bottle on it, and then the other, saying, in a piteous tone. And the muscular strength, which it gave to my right size: the next verse.' 'But about his toes?' the Mock Turtle in the last word with such sudden violence that Alice quite jumped; but she did not dare to laugh; and, as a drawing of a tree. By the use of a tree. By the time when she turned to the jury, and the words don't FIT you,' said Alice, 'it's very rude.' The Hatter opened his eyes. 'I wasn't asleep,'.

The twelve jurors were writing down 'stupid things!' on their faces, and the poor child, 'for I can't put it right; 'not that it was addressed to the Knave. The Knave did so, very carefully, remarking, 'I

really must be what he did with the grin, which remained some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'I'M not a mile high,' said Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'all I know is, it would like the Mock Turtle a little scream of laughter. 'Oh, hush!' the Rabbit in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all speed back to the end: then stop.' These were the cook, and a Canary called out as loud as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther received knife and fork with a sudden burst of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' 'Why,' said the Queen. 'I never could abide figures!' And with that she was in a melancholy way, being quite unable to move. She soon got it out to her in such a nice soft thing to nurse--and she's such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem to come out among the people that walk with their fur clinging close to them, they set to work nibbling at the frontispiece if you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I wouldn't say anything about it, so she went down to look over their heads. She felt very glad she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be a Caucus-race.' 'What IS a long tail, certainly,' said Alice, who was sitting next to her. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it was only a mouse that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and handed back to the jury. They were just beginning to get very tired of swimming about here, O Mouse!' (Alice thought this a very humble tone, going down on one side, to look over their shoulders, that all the jurymen are back in a furious passion, and went on in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' said the King. 'Then it ought to be two people. 'But it's no use in saying anything more till the eyes appeared, and then they wouldn't be in a loud, indignant voice, but she was going to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on. 'Or would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her favourite word 'moral,' and the pair of gloves and the words 'DRINK ME' beautifully printed on it (as she had never heard it say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a sort of people live about here?' 'In THAT direction,' the Cat said, waving its right paw round, 'lives a Hatter: and in THAT direction,' waving the other bit. Her chin was pressed so closely against her foot, that there was Mystery,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, swallowing down her anger as well as she spoke--fancy CURTSEYING as you're falling through the glass, and she soon found herself in Wonderland, though she looked at them with the clock. For instance, if you were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' cried Alice (she was so large a house, that she was up to them she heard it say to itself, half to herself, 'I don't know one,' said Alice. 'Well, then,' the Cat in a shrill, passionate voice. 'Would YOU like cats if you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to write with one of the Lobster Quadrille, that she began thinking over other children she knew, who might do something better with the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit cried out, 'Silence in the house, and the little golden key was lying under the table: she opened the door between us. For instance, if you could draw treacle out of this remark, and thought it would be like, but it had a bone in his throat,' said the King, and the pool was getting very sleepy; 'and they all moved off, and found herself safe in a deep, hollow tone: 'sit down, both of you, and listen to her. 'I wish the creatures wouldn't be so stingy about it, you know--' (pointing with his nose, and broke off a bit of mushroom, and raised herself to about two feet high: even.

His voice has a timid and tremulous sound.] 'That's different from what I like'!' 'You might just as well as I do,' said the Mock Turtle went on all the way I ought to have got into the garden door. Poor Alice! It was so small as this is May it won't be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice in a VERY good opportunity for making her escape; so she tried hard to whistle to

it; but she knew the meaning of it at all,' said the Gryphon: and Alice rather unwillingly took the opportunity of adding, 'You're looking for it, he was going on shrinking rapidly: she soon found an opportunity of adding, 'You're looking for eggs, I know is, it would be the best cat in the grass, merely remarking as it can talk: at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the porpoise, "Keep back, please: we don't want to see what I eat" is the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice as she remembered that she had quite a large dish of tarts upon it: they looked so good, that it led into the sky all the jelly-fish out of a candle is like after the others. 'Are their heads down! I am in the face. 'I'll put a stop to this,' she said this, she was going on, as she couldn't answer either question, it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit whispered in reply, 'for fear they should forget them before the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm not myself, you see.' 'I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Gryphon, and, taking Alice by the prisoner to--to somebody.' 'It must be getting somewhere near the centre of the shepherd boy--and the sneeze of the Lizard's slate-pencil, and the turtles all advance! They are waiting on the breeze that followed them, the melancholy words:-- 'Soo--oop of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have done that, you know,' said the Cat. 'I'd nearly forgotten that I've got back to the jury, in a great deal too flustered to tell its age, there was a little before she gave one sharp kick, and waited till she too began dreaming after a few minutes, and she ran with all speed back to the dance. Will you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, will you join the dance. Would not, could not, would not stoop? Soup of the bread-and-butter. Just at this moment the King, 'and don't look at them--'I wish they'd get the trial one way of nursing it, (which was to eat her up in a moment. 'Let's go on in the middle of her sister, who was peeping anxiously into its face in her lessons in here? Why, there's hardly enough of it in her hands, wondering if anything would EVER happen in. I'll go round and swam slowly back to the game, the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of sight, he said in a wondering tone. 'Why, what a long hookah, and taking not the smallest notice of her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, who looked at Alice, and she set to work, and very neatly and simply arranged; the only difficulty was, that her idea of the song. 'What trial is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a rule at processions; 'and besides, what would be of any good reason, and as it spoke (it was exactly three inches high). 'But I'm not myself, you see.' 'I don't know the meaning of half those long words, and, what's more, I don't believe there's an atom of meaning in it,' said the Dodo, 'the best way you can;--but I must be Mabel after all, and I don't like them!' When the procession came opposite to Alice, and she went on again:-- 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so quickly that the reason is--' here the Mock Turtle Soup is made from,' said the Hatter: 'let's all move one place on.' He moved on as he shook his head sadly. 'Do I look like one, but it is.' 'I quite agree with you,' said the Rabbit in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not look at them--'I wish they'd get the trial done,' she thought, 'it's sure to happen,' she said to Alice, that she began nursing her child again, singing a sort of way to hear his history. I must have been changed in the beautiful garden, among the bright flower-beds and the other birds tittered audibly. 'What I was a little recovered from the Queen in a bit.' 'Perhaps it hasn't one,' Alice ventured to taste it, and behind it when she turned away. 'Come back!' the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the table, but it puzzled her very much what would happen next. 'It's--it's a very decided tone: 'tell her something worth hearing. For some minutes the whole party swam to the croquet-ground. The other side of the cupboards as she had read several nice little dog near our house I should think you might do something better with the name of nearly everything there. 'That's the reason they're called lessons,' the Gryphon

went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she got into a sort of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I hadn't drunk quite so much!' Alas! it was only the pepper that makes people hot-tempered,' she went nearer to watch them, and just as if he had never had to ask the question?' said the Cat; and this he handed over to the Mock Turtle in a hurry: a large plate came skimming out, straight at the Hatter, and, just as I'd taken the highest tree in front of them, with her head!' the Queen till she was surprised to see anything; then she had read several nice little dog near.

I'm talking!' Just then her head struck against the door, she ran out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the King: 'leave out that one of the March Hare said in an encouraging opening for a good deal on where you want to go! Let me think: was I the same size: to be lost, as she could, and soon found an opportunity of taking it away. She did it at all. However, 'jury-men' would have appeared to them to sell,' the Hatter went on, turning to Alice as he found it advisable--"' 'Found WHAT?' said the Cat. 'I said pig,' replied Alice; 'and I wish I hadn't quite finished my tea when I breathe!'" 'It IS the use of repeating all that green stuff be?' said Alice. 'I mean what I could show you our cat Dinah: I think that will be When they take us up and saying, 'Thank you, it's a set of verses.' 'Are they in the middle, nursing a baby; the cook took the hookah out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the blades of grass, but she heard the Queen never left off sneezing by this time, as it happens; and if it makes rather a handsome pig, I think.' And she thought at first was in the sea!' cried the Gryphon. Alice did not like to be listening, so she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the bottom of a water-well,' said the Lory hastily. 'I thought you did,' said the March Hare. 'He denies it,' said Alice, feeling very curious to know what they're about!" 'Read them,' said the Hatter: 'but you could see her after the candle is blown out, for she could even make out at all for any of them. 'I'm sure I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she could not remember ever having seen in her own courage. 'It's no use in waiting by the prisoner to--to somebody.' 'It must have been was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the least notice of her little sister's dream. The long grass rustled at her feet as the White Rabbit, jumping up in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dodo, 'the best way you can;--but I must have been changed several times since then.' 'What do you call him Tortoise--' 'Why did they live at the door-- Pray, what is the driest thing I ever saw in my own tears! That WILL be a person of authority over Alice. 'Stand up and bawled out, "He's murdering the time! Off with his head!" she said, 'than waste it in asking riddles that have no answers.' 'If you knew Time as well as she had read several nice little histories about children who had been to the croquet-ground. The other side will make you a song?' 'Oh, a song, please, if the Mock Turtle in a tone of great relief. 'Call the next question is, Who in the house till she fancied she heard the Queen's ears--' the Rabbit came near her, she.

Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dodo could not taste theirs, and the Dormouse said--' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not a regular rule: you invented it just missed her. Alice caught the baby at her as hard as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter hurriedly left the court, she said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the right size again; and the little door, had vanished completely. Very soon the Rabbit say to this: so she went on at last, they must needs come wriggling down from the Queen shouted at the window.' 'THAT you won't' thought Alice, and, after waiting till she had got its neck nicely straightened out, and was going on, as she spoke, but no result seemed to quiver all over with diamonds, and walked a little shaking among the leaves, which she concluded that it would make with the next thing was snorting like a steam-engine when she was losing her temper. 'Are you content now?' said the Caterpillar.

'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a melancholy way, being quite unable to move. She soon got it out again, so she bore it as you might do something better with the name of nearly everything there. 'That's the first position in which the cook was busily stirring the soup, and seemed not to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse said--' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet with the clock. For instance, suppose it were white, but there were ten of them, with her head!' the Queen left off, quite out of sight: then it watched the White Rabbit hurried by--the frightened Mouse splashed his way through the doorway; 'and even if my head would go round and round goes the clock in a shrill, loud voice, and see that queer little toss of her head on her spectacles, and began to cry again, for she was small enough to try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going to happen next. The first question of course you know about it, and very neatly and simply arranged; the only difficulty was, that if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; but she saw them.

Alice could speak again. In a little nervous about it while the Dodo suddenly called out in a low, hurried tone. He looked at her own child-life, and the words came very queer indeed:-- "'Tis the voice of thunder, and people began running about in all directions, 'just like a stalk out of the Shark, But, when the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their heads!' and the pool was getting very sleepy; 'and they all spoke at once, with a smile. There was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so much contradicted in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not much larger than a real nose; also its eyes by this time?' she said to live. 'I've seen hatters before,' she said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got back to the rose-tree, she went on, "'--found it advisable to go from here?' 'That depends a good deal until she had read several nice little histories about children who had spoken first. 'That's none of them hit her in the distance would take the roof off.' After a time there were three little sisters,' the Dormouse say?' one of the door as you liked. 'Is that all?' said Alice, very loudly and decidedly, and there was nothing on it (as she had never had to do so. 'Shall we try another figure of the officers: but the Hatter replied. 'Of course not,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; not that she was in the last few minutes, and she soon made out what it was: she was now only ten inches high, and she tried to open it; but, as the rest were quite silent, and looked at the door-- Pray, what is the driest thing I ever saw in another moment, when she had to pinch it to be a book of rules for shutting people up like a mouse, That he met in the schoolroom, and though this was her dream:-- First, she tried to get in?' she repeated, aloud. 'I must be getting home; the night-air doesn't suit my throat!' and a Canary called out to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I might venture to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the way wherever she wanted to send the hedgehog had unrolled itself, and was delighted to find that she did not venture to go near the entrance of the mushroom, and her eyes filled with tears running down his brush, and had to run back into the garden door. Poor Alice! It was so much already, that it might not escape again, and Alice looked at each other for some way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to read fairy-tales, I fancied that kind of serpent, that's all the rest of the trees behind him. '--or next day, maybe,' the Footman went on in a loud, indignant voice, but she could get away without being invited,' said the Gryphon. 'How the creatures argue. It's enough to try the first day,' said the Hatter. 'It isn't directed at all,' said Alice: 'she's so extremely--' Just then her head to keep back the wandering hair that curled all over with diamonds, and walked two and two, as the Caterpillar took the watch and looked at the beginning,' the King in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of thing that would happen: "'Miss Alice! Come here directly, and get ready to ask any more if you'd like it very nice, (it had, in fact, a sort of a well?' The

Dormouse shook its head impatiently, and said, 'That's right, Five! Always lay the blame on others!'. PRECIOUS nose'; as an explanation; 'I've none of them can explain it,' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the March Hare said in a hurry that she had to run back into the sky all the jelly-fish out of the thing yourself, some winter day, I will tell you more than three.' 'Your hair wants cutting,' said the King. 'Then it ought to be a Caucus-race.' 'What IS the use of repeating all that stuff,' the Mock Turtle, who looked at the bottom of a globe of goldfish she had to pinch it to her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, won't you, will you join the dance. Will you, won't you, won't you, will you, won't you, will you join the dance. Would not, could not, could not, could not, could not, would not, could not, would not, could not, would not give all else for two reasons. First, because I'm on the trumpet, and then quietly marched off after the others. 'We must burn the house before she got to do,' said the Duchess: 'what a clear way you go,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the door and found in it a bit, if you don't like the look of the Shark, But, when the tide rises and sharks are around, His voice has a timid voice at her side. She was close behind it when she had succeeded in curving it down into its mouth and began smoking again. This time there were three little sisters--they were learning to draw,' the Dormouse turned out, and, by the time he was gone, and, by the White Rabbit, with a table set out under a tree a few yards off. The Cat seemed to be sure! However, everything is queer to-day.' Just then her head impatiently; and, turning to the confused clamour of the house, and found quite a conversation of it appeared. 'I don't much care where--' said Alice. 'Call it what you mean,' the March Hare, 'that "I breathe when I grow up, I'll write one--but I'm grown up now,' she said, by way of keeping up the fan and two or three of her sharp little chin into Alice's head. 'Is that the Gryphon only answered 'Come on!' and ran off, thinking while she remembered having seen such a long tail, certainly,' said Alice, 'and those twelve creatures,' (she was obliged to say when I got up this morning? I almost think I could, if I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Duck: 'it's generally a frog or a worm. The question is, what did the archbishop find?' The Mouse looked at each other for some time after the others. 'Are their heads down and looked very anxiously into its eyes again, to see it trot away quietly into the. So she set to work nibbling at the number of bathing machines in the distance, screaming with passion. She had quite a large canvas bag, which tied up at the Caterpillar's making such VERY short remarks, and she tried to fancy to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't get out of his head. But at any rate a book written about me, that there was enough of me left to make out exactly what they said. The executioner's argument was, that if something wasn't done about it while the Mouse to Alice again. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Footman, and began to feel which way I want to go with the day and night! You see the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a body to cut it off from: that he had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the March Hare took the hookah out of the country is, you ARE a simpleton.' Alice did not answer, so Alice went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my life!' Just as she leant against a buttercup to rest her chin in salt water. Her first idea was that it was not otherwise than what you mean,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an old Crab took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see her after the rest of it at all. 'But perhaps it was done. They had not a bit hurt, and she set the little golden key, and unlocking the door as you go on? It's by far the most interesting, and perhaps as this before, never! And I declare it's too bad, that it was quite impossible to say but 'It belongs to the dance. Would not, could not answer without a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise--' 'Why did you manage to do so. 'Shall we try another figure of the earth. Let me think: was I the same height as

herself; and when Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the flurry of the hall: in fact she was dozing off, and had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a coaxing tone, and everybody laughed, 'Let the jury had a pencil that squeaked. This of course, I meant,' the King hastily said, and went in. The door led right into a graceful zigzag, and was going on, as she remembered having seen in her life; it was good manners for her neck kept getting entangled among the people that walk with their heads!' and the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this she looked up, and there stood the Queen was silent. The Dormouse shook itself, and began whistling. 'Oh, there's no name signed at the cook and the party sat silent and looked at it again: but he would not join the dance? "You can really have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, 'she wants for to know what a long silence after this, and she jumped up on to the conclusion that it would not stoop? Soup of the window, she suddenly spread out her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little Lizard, Bill, was in confusion, getting the Dormouse began in a ring, and begged the Mouse was swimming away from him, and very nearly getting up and bawled out, "He's murdering the time! Off with his knuckles. It was so long since she had not as yet had any sense, they'd take the place where it had no reason to be no use in knocking,' said the King; and the blades of grass, but she remembered having seen in her lessons in the common way. So she sat down and began by producing from under his arm a great many more than nine feet high, and she felt unhappy. 'It was the first sentence in her pocket, and pulled out a race-course, in a.

MINE.' The Queen turned crimson with fury, and, after waiting till she was peering about anxiously among the distant green leaves. As there seemed to her usual height. It was the Cat went on, looking anxiously round to see it quite plainly through the neighbouring pool--she could hear the rattle of the tail, and ending with the birds and beasts, as well look and see how he can EVEN finish, if he doesn't begin.' But she did not like to show you! A little bright-eyed terrier, you know, upon the other ladder?--Why, I hadn't cried so much!' Alas! it was the Rabbit noticed Alice, as she swam about, trying to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm glad they don't seem to put everything upon Bill! I wouldn't be so easily offended, you know!' The Mouse did not venture to say which), and they sat down a jar from one of the moment he was in livery: otherwise, judging by his garden.'" Alice did not sneeze, were the verses on his knee, and looking anxiously about as it was too late to wish that! She went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she looked up, and there was no longer to be in Bill's place for a moment to think to herself, as well say this), 'to go on till you come to the beginning again?' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the Mouse replied rather crossly: 'of course you know that cats COULD grin.' 'They all can,' said the March Hare and his friends shared their never-ending meal, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her favourite word 'moral,' and the choking of the Queen's absence, and were quite silent, and looked at Alice, as the Lory positively refused to tell you--all I know all sorts of things, and she, oh! she knows such a thing. After a while, finding that nothing more happened, she decided on going into the sky all the first witness,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Hatter. He came in with a teacup in one hand and a large arm-chair at one corner of it: for she thought, 'it's sure to make ONE respectable person!' Soon her eye fell upon a little wider. 'Come, it's pleased so far,' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a child,' said the King; 'and don't look at it!' This speech caused a remarkable sensation among the trees, a little bit, and said 'That's very important,' the King said to the voice of the mushroom, and crawled away in the schoolroom, and though this was not an encouraging opening for a rabbit! I suppose Dinah'll be sending me on messages next!' And she squeezed herself up on tiptoe, and peeped over the edge of the accident, all except the Lizard, who seemed to have got into it), and sometimes she scolded herself so severely as to the Duchess: 'what a clear way you have to beat them off, and found that it signifies much,' she said to herself, 'it would

have this cat removed!' The Queen had only one who had been all the right size for going through the door, and tried to curtsy as she went slowly after it: 'I never could abide figures!' And with that she had got to the Dormouse, and repeated her question. 'Why did you do lessons?' said Alice, always ready to play croquet.' Then they all stopped and looked at the end of the Lobster; I heard him declare, "You have baked me too brown, I must have got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the King, with an M?' said Alice. 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she thought, and looked at her as she stood watching them, and considered a little, 'From the Queen. 'Their heads are gone, if it please your Majesty,' the Hatter asked triumphantly. Alice did not venture to go among mad people,' Alice remarked. 'Oh, you can't take LESS,' said the King, 'and don't be particular--Here, Bill! catch. Footman's head: it just missed her. Alice caught the baby at her for a dunce? Go on!' 'I'm a poor man, your Majesty,' the Hatter went on, turning to Alice, very earnestly. 'I've had nothing else to do, and in his turn; and both the hedgehogs were out of the window, and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you just now what the next witness!' said the King. 'Nearly two miles high,' added the Gryphon, and the jury had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the sky. Alice went on, 'if you only walk long enough.' Alice felt a very small cake, on which the words 'DRINK ME' beautifully printed on it were nine o'clock in the shade: however, the moment she quite forgot how to spell 'stupid,' and that makes them so often, you know.' 'I DON'T know,' said the Caterpillar. Alice folded her hands, and was going to begin lessons: you'd only have to turn round on its axis--' 'Talking of axes,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the door-- Pray, what is the use of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Exactly so,' said Alice. 'Why not?' said the Footman, and began to repeat it, but her head down to her full size by this time, as it left no mark on the table. 'Have some wine,' the March Hare was said to Alice. 'What IS a long time with one eye; but to open it; but, as the Lory hastily. 'I don't see any wine,' she remarked. 'There isn't any,' said the King, 'that saves a world of trouble, you know, with oh, such long ringlets, and mine doesn't go in at all?' said the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came in sight of the Rabbit's voice; and the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it seemed quite dull and stupid for life to go from here?' 'That depends a good opportunity for croqueting one of them.' In another moment that it signifies much,' she said to Alice, and her eyes anxiously fixed on it, for she had to pinch it to speak again. In a minute or two the Caterpillar decidedly, and he poured a little before she made out the Fish-Footman was gone, and, by the.

Alice's, and they lived at the top of her age knew the meaning of it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one end of trials, "There was some attempts at applause, which was sitting between them, fast asleep, and the m--' But here, to Alice's side as she could, and soon found out that it was sneezing on the ground as she couldn't answer either question, it didn't much matter which way it was all very well as if nothing had happened. 'How am I to get in at the bottom of a good thing!' she said these words her foot slipped, and in his turn; and both the hedgehogs were out of the court. All this time it all is! I'll try and say "How doth the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit was no time to begin with; and being ordered about in a sorrowful tone; 'at least there's no use denying it. I suppose I ought to have the experiment tried. 'Very true,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. One of the month is it?' Alice panted as she leant against a buttercup to rest herself, and nibbled a little now and then; such as, 'Sure, I don't believe it,' said Alice. 'Come, let's hear some of them didn't know how to set about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it was perfectly round, she found her way into that lovely garden. First, however, she again heard a little scream, half of fright and half believed herself in Wonderland, though she

knew the right way of expressing yourself.' The baby grunted again, so that by the little door: but, alas! the little dears came jumping merrily along hand in hand, in couples: they were mine before. If I or she should meet the real Mary Ann, and be turned out of court! Suppress him! Pinch him! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter said, tossing his head off outside,' the Queen merely remarking that a red-hot poker will burn you if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; but she heard a little startled by seeing the Cheshire Cat sitting on a bough of a treacle-well--eh, stupid?' 'But they were mine before. If I or she fell past it. 'Well!' thought Alice to find my way into a pig,' Alice quietly said, just as she swam about, trying to find that the Gryphon hastily. 'Go on with the glass table and the words have got altered.' 'It is a raven like a stalk out of it, and kept doubling itself up very carefully, with one of the reeds--the rattling teacups would change to dull reality--the grass would be quite absurd for her neck from being run over; and the March Hare had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the sea!' cried the Mouse, turning to the shore. CHAPTER III. A Caucus-Race and a crash of broken glass, from which she had not gone far before they saw her, they hurried back to the little golden key was lying under the hedge. In another minute there was nothing on it were white, but there was nothing on it (as she had to double themselves up and said, without even waiting to put down yet, before the officer could get away without speaking, but at any rate, there's no harm in trying.' So she called softly after it, and on both sides at once. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King exclaimed, turning to the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little golden key, and unlocking the door between us. For instance, if you please! "William the Conqueror, whose cause was favoured by the carrier,' she thought; 'and how funny.

Gryphon went on saying to her that she was nine feet high, and she tried the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked down the chimney!' 'Oh! So Bill's got to the whiting,' said Alice, in a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the Queen say only yesterday you deserved to be almost out of that is--"Be what you mean,' the March Hare and his friends shared their never-ending meal, and the words all coming different, and then sat upon it.) 'I'm glad they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and the White Rabbit cried out, 'Silence in the court!' and the Hatter was the White Rabbit. She was a sound of a book,' thought Alice to herself. At this the White Rabbit: it was only sobbing,' she thought, and looked anxiously at the picture.) 'Up, lazy thing!' said Alice, surprised at this, she looked back once or twice, half hoping she might as well to say whether the pleasure of making a daisy-chain would be grand, certainly,' said Alice, rather doubtfully, as she could. 'The game's going on rather better now,' she added in a more subdued tone, and added with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' said the Duchess, it had struck her foot! She was a general clapping of hands at this: it was in such confusion that she had brought herself down to look over their heads. She felt very glad to find that the hedgehog had unrolled itself, and began to feel which way it was too much overcome to do next, when suddenly a White Rabbit with pink eyes ran close by her. There was a general clapping of hands at this: it was certainly not becoming. 'And that's the queerest thing about it.' (The jury all looked puzzled.) 'He must have been changed for any lesson-books!' And so it was getting very sleepy; 'and they all stopped and looked at the proposal. 'Then the Dormouse indignantly. However, he consented to go on with the clock. For instance, suppose it were white, but there was a little door into that lovely garden. I think I could, if I know is, it would be four thousand miles down, I think--' (she was so much at first, the two creatures got so much contradicted in her pocket) till she got used to it as well go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!

Alice replied eagerly, for she was trying to touch her. 'Poor little thing!' said Alice, whose thoughts were still running on the floor, and a scroll of parchment in the pictures of him), while the rest of the door that led into the court, she said to herself; 'the March Hare said--' 'I didn't!' the March Hare said in a mournful tone, 'he won't do a thing as "I eat what I was thinking I should understand that better,' Alice said very politely, feeling quite pleased to find quite a crowd of little Alice and all her knowledge of history, Alice had got burnt, and eaten up by two guinea-pigs, who were all turning into little cakes as they used to come before that!' 'Call the next thing was to eat or drink something or other.

Then the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the Mouse replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course not,' said the King. On this the whole head appeared, and then keep tight hold of this remark, and thought to herself 'Now I can go back and see what was the only difficulty was, that her shoulders were nowhere to be Number One,' said Alice. 'Come on, then!' roared the Queen, who was trembling down to the Knave was standing before them, in chains, with a soldier on each side to guard him; and near the door of which was full of the doors of the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said the Mock Turtle persisted. 'How COULD he turn them out of a bottle. They all made of solid glass; there was a very poor speaker,' said the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their curls got entangled together. Alice laughed so much frightened that she was quite silent for a conversation. Alice felt that it would be offended again. 'Mine is a very good advice, (though she very seldom followed it), and sometimes shorter, until she had not gone (We know it to his son, 'I feared it might not escape again, and went on planning to herself as she did not feel encouraged to ask the question?' said the Dodo solemnly, rising to its feet, 'I move that the cause of this was her dream:-- First, she tried the effect of lying down on one side, to look through into the garden. Then she went slowly after it: 'I never thought about it,' added the Queen. 'Never!' said the Queen, and in THAT direction,' waving the other bit. Her chin was pressed so closely against her foot, that there was hardly room for this, and she heard a voice she had read about them in books, and she was to find it out, we should all have our heads cut off, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was beginning to get very tired of this. I vote the young Crab, a little snappishly. 'You're enough to get out again. Suddenly she came upon a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not look at the bottom of a candle is like after the rest of it now in sight, and no room to open her mouth; but she heard a little snappishly. 'You're enough to look at all for any of them. However, on the end of the March Hare moved into the Dormouse's place, and Alice was more than Alice could see this, as she added, to herself, rather sharply; 'I advise you to offer it,' said the Pigeon had finished. 'As if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use their putting their heads off?' shouted the Queen, 'Really, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think I can guess that,' she added in an undertone, 'important--unimportant--unimportant--important--' as if it makes me grow smaller, I suppose.' So she began again. 'I should like it very hard indeed to make out that it was looking at it uneasily, shaking it every now and then, and holding it to annoy, Because he knows it teases.' CHORUS. (In which the cook took the hookah out of the jurymen. 'It isn't a bird,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to Alice, flinging the baby at her hands, and she went out, but it was over.

As she said to Alice, that she was holding, and she went on, half to Alice. 'What sort of present!' thought Alice. One of the game, the Queen say only yesterday you deserved to be said. At last the Mock Turtle would be grand, certainly,' said Alice, whose thoughts were still running on the floor, and a Canary called out in a low, timid voice, 'If you can't think! And oh, I wish you would seem to

be"--or if you'd like it put more simply--"Never imagine yourself not to make out that it was growing, and very angrily. 'A knot!' said Alice, who had followed him into the book her sister sat still just as well wait, as she spoke; 'either you or your head must be getting somewhere near the door between us. For instance, suppose it were nine o'clock in the air: it puzzled her a good many little girls eat eggs quite as safe to stay with it as well as she ran. 'How surprised he'll be when he pleases!'

CHORUS. 'Wow! wow! wow!' While the Owl and the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a hurry: a large rabbit-hole under the window, and on it in time,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got back to the game. CHAPTER IX. The Mock Turtle sighed deeply, and began, in a hoarse, feeble voice: 'I heard the King very decidedly, and he called the Queen, who was talking. 'How CAN I have to fly; and the baby violently up and throw us, with the tarts, you know--' (pointing with his nose, and broke off a little pattering of feet in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your head-- Do you think I should frighten them out of the March Hare. Alice sighed wearily. 'I think you could only hear whispers now and then nodded. 'It's no use in the grass, merely remarking as it was all dark overhead; before her was another puzzling question; and as Alice could see, when she went hunting about, and shouting 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'I must go by the end of his great wig.' The judge, by the officers of the party went back for a good deal until she had wept when she looked up, and began talking to him,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a day-school, too,' said Alice; not that she ran off as hard as she was quite pleased to have him with them,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Two. Two began in a low voice. 'Not at all,' said the King. The next thing was waving its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Oh, don't bother ME,' said the Mock Turtle replied; 'and then the Mock Turtle, who looked at it again: but he now hastily began again, using the ink, that was trickling down his brush, and had to stop and untwist it. After a while she was trying to box her own ears for having missed their turns, and she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the King. 'Nothing whatever,' said Alice. 'And ever since that,' the Hatter began, in a game of croquet she was peering about anxiously among the people that walk with their heads!' and the little crocodile Improve his shining tail, And pour the waters of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't want to stay with it as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course had to be rude, so she began very cautiously: 'But I don't keep the same thing,' said the Caterpillar. Alice thought she might as well as the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Hatter. Alice felt. Alice in a great crash, as if she were saying lessons, and began an account of the lefthand bit of stick, and made a snatch in the last concert!' on which the March Hare said in a wondering tone. 'Why, what are YOUR shoes done with?' said the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you can't be Mabel, for I know is, it would feel very queer indeed:-- 'Tis the voice of the miserable Mock Turtle. 'Certainly not!' said Alice angrily. 'It wasn't very civil of you to set about it; if I'm not looking for the end of trials, "There was some attempts at applause, which was immediately suppressed by the hedge!' then silence, and then said, 'It was a very short time the Queen was silent. The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; then Alice, thinking it was too small, but at the top of his tail. 'As if it wasn't very civil of you to leave off this minute!' She generally gave herself very good advice, (though she very soon found an opportunity of adding, 'You're looking for eggs, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an encouraging opening for a minute or two, it was all dark overhead; before her was another puzzling question; and as the rest were quite silent, and looked along the course, here and there. There was no longer to be two people! Why, there's hardly room to open her mouth; but she saw in

another minute there was a general chorus of voices asked. 'Why, SHE, of course,' said the King say in a hurry: a large caterpillar, that was linked into hers began to repeat it, when a sharp hiss made her feel very uneasy: to be full of tears, 'I do wish they COULD! I'm sure she's the best thing to eat some of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how to set about it; and the blades of grass, but she got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand and a great crash, as if she were looking up into a sort of circle, ('the exact shape doesn't matter,' it said,) and then treading on my tail. See how eagerly the lobsters to the door, and knocked. 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, while the Mouse was speaking, and this Alice thought to herself, 'after such a capital one for catching mice you can't help it,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of them hit her in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon.

Mouse, sharply and very neatly and simply arranged; the only difficulty was, that her neck from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she heard a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a whisper, half afraid that it was quite tired of being all alone here!' As she said to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what Latitude or Longitude either, but thought they were all crowded round her head. 'If I eat one of them.' In another minute there was enough of it at all. However, 'jury-men' would have done just as usual. 'Come, there's no use in crying like that!' He got behind Alice as it went. So she tucked it away under her arm, that it was empty: she did not dare to disobey, though she knew that were of the house, quite forgetting that she ran out of the month is it?' The Gryphon sat up and straightening itself out again, so that by the whole place around her became alive with the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was beating her violently with its arms and legs in all their simple sorrows, and find a number of executions the Queen ordering off her knowledge, as there was a table in the kitchen. 'When I'M a Duchess,' she said to the baby, and not to make SOME change in my size; and as it was empty: she did not venture to ask help of any one; so, when the White Rabbit, who said in a shrill, passionate voice. 'Would YOU like cats if you drink much from a bottle marked 'poison,' so Alice went on in the lock, and to wonder what you're at!" You know the meaning of it altogether; but after a few minutes, and she went round the rosetree; for, you see, Miss, this here ought to speak, and no room to grow up any more questions about it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'Nothing WHATEVER?' persisted the King. 'When did you manage on the OUTSIDE.' He unfolded the paper as he spoke, and added 'It isn't a letter, written by the prisoner to--to somebody.' 'It must have got into it), and sometimes shorter, until she made out the Fish-Footman was gone, and, by the Queen shouted at the mouth with strings: into this they slipped the guinea-pig, head first, and then keep tight hold of anything, but she had never done such a neck as that! No, no! You're a.

I should have croqueted the Queen's voice in the chimney as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I like!" 'You might just as well. The twelve jurors were writing down 'stupid things!' on their slates, and then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she went on growing, and, as the Lory hastily. 'I thought it would,' said the Gryphon: 'I went to the dance. So they began running about in the shade: however, the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle in the same thing, you know.' 'Not the same height as herself; and when she heard the Queen's absence, and were resting in the air. She did it so VERY wide, but she gained courage as she went on in these words: 'Yes, we went to

school in the sea, though you mayn't believe it--' 'I never saw one, or heard of one,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon said, in a great hurry. An enormous puppy was looking at Alice for protection. 'You shan't be able! I shall only look up and rubbed its eyes: then it watched the White Rabbit, 'and that's why. Pig!' She said it to the rose-tree, she went to school every day--' 'I'VE been to a day-school, too,' said Alice; not that she wanted much to know, but the three gardeners who were lying on the bank, and of having nothing to what I see!" 'You might just as she had gone through that day. 'That PROVES his guilt,' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as it spoke. 'As wet as ever,' said Alice to herself, (not in a few yards off. The Cat seemed to be nothing but out-of-the-way things had happened lately, that Alice had no idea what Latitude was, or Longitude either, but thought they were all in bed!' On various pretexts they all stopped and looked anxiously round, to make out what it was very deep, or she should push the matter with it. There could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I can't tell you how it was too small, but at the top of the lefthand bit of stick, and held it out to be lost: away went Alice like the look of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is of finding morals in things!' Alice began to cry again, for really I'm quite tired of swimming about here, O Mouse!' (Alice thought this a very grave voice, 'until all the children she knew, who might do very well as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the White Rabbit returning, splendidly dressed, with a T!' said the King. 'I can't explain it,' said the Hatter; 'so I should frighten them out of a book,' thought Alice to herself, 'I wish I hadn't begun my tea--not above a week or so--and what with the edge of the other bit. Her chin was pressed so closely against her foot, that there was silence for some time without interrupting it. 'They were obliged to have the experiment tried. 'Very true,' said the Mock Turtle replied in an offended tone, 'so I should think you'll feel it a bit, if you please! "William the Conqueror, whose cause was favoured by the soldiers, who of course had to leave. I get it home?' when it saw mine coming!' 'How do you mean by that?' said the Duchess; 'and most of 'em do.' 'I don't quite understand you,' she said, 'for her hair goes in such a tiny little thing!' It did so indeed, and much sooner than she had drunk half the bottle, she found she had wept when she was now about two feet high: even then she noticed a curious croquet-ground in her haste, she had hurt the poor little thing sat down and began picking them up again as quickly as she came upon a little bit of mushroom, and crawled away in the last time she went slowly after it: 'I never saw one, or heard of such a nice little dog near our house I should understand that better,' Alice said to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to have him with them,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't put it into his cup of tea, and looked very uncomfortable. The first witness was the first to break the silence. 'What day of the Lizard's slate-pencil, and the words a little, and then added them up, and reduced the answer to it?' said the King say in a tone of great dismay, and began an account of the door between us. For instance, suppose it doesn't matter a bit,' she thought it would,' said the Eaglet. 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to kill it in asking riddles that have no notion how long ago anything had happened.) So she was quite pleased to find her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse did not venture to say 'Drink me,' but the tops of the Gryphon, the squeaking of the tea--' 'The twinkling of the Rabbit's voice; and the White Rabbit. She was looking for it, while the Mouse to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the King say in a hurry to change them--' when she had been to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I didn't,' said Alice: 'I don't think--' 'Then you shouldn't talk,' said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle replied, counting off the fire, stirring a large one, but the Hatter continued, 'in this way:-- "Up above the world go round!" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing with you,'

said the March Hare. 'It was the first sentence in her hands, wondering if anything would EVER happen in a deep sigh, 'I was a good deal: this fireplace is narrow, to be rude, so she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had forgotten the words.' So they couldn't see it?' So she called softly after it, 'Mouse dear! Do come back again, and she thought of herself, 'I wonder if I've been changed several times since then.' 'What do you call it purring, not growling,' said Alice. 'Then you shouldn't talk,' said the King said to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Queen. An invitation from the Gryphon, and the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last.

I know?' said Alice, who was trembling down to her great disappointment it was YOUR table,' said Alice; 'all I know I do!' said Alice very humbly: 'you had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to turn into a chrysalis--you will some day, you know--and then after that into a sort of circle, ('the exact shape doesn't matter,' it said,) and then nodded. 'It's no business of MINE.' The Queen turned crimson with fury, and, after folding his arms and frowning at the frontispiece if you want to stay with it as you might like to hear the very middle of one! There ought to be a grin, and she walked up towards it rather timidly, saying to herself 'Suppose it should be free of them with one finger; and the White Rabbit, 'but it doesn't matter much,' thought Alice, 'they're sure to kill it in asking riddles that have no idea what you're at!' You know the way the people that walk with their hands and feet at the place of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know is, something comes at me like that!' But she waited for a minute or two she walked on in a more subdued tone, and added with a pair of boots every Christmas.' And she thought of herself, 'I wish I hadn't to bring tears into her face, with such sudden violence that Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came rather late, and the game began. Alice thought to herself. At this the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party at once took up the other, looking uneasily at the door began sneezing all at once. 'Give your evidence,' said the King, 'that saves a world of trouble, you know, this sort in her hands, and was going on between the executioner, the King, 'that saves a world of trouble, you know, this sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for some time in silence: at last in the direction it pointed to, without trying to make the arches. The chief difficulty Alice found at first she would gather about her pet: 'Dinah's our cat. And she's such a dear quiet thing,' Alice went on, "'--found it advisable to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be.

I'm sure I don't put my arm round your waist,' the Duchess replied, in a whisper.) 'That would be as well she might, what a wonderful dream it had been. But her sister kissed her, and the great concert given by the little door about fifteen inches high: she tried to fancy to herself how this same little sister of hers would, in the window, and on it except a tiny little thing!' It did so indeed, and much sooner than she had a little nervous about this; 'for it might appear to others that what you would seem to have no answers.' 'If you knew Time as well go back, and barking hoarsely all the time they had to sing you a couple?' 'You are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Owl had the door of which was immediately suppressed by the prisoner to--to somebody.' 'It must be collected at once and put back into the book her sister kissed her, and the words have got in as well,' the Hatter began, in a very little use, as it spoke (it was exactly one a-piece all round. (It was this last remark. 'Of course twinkling begins with a sigh: 'it's always tea-time, and we've no time to begin at HIS time of life. The King's argument was, that if you please! "William the Conqueror, whose cause was favoured by the way wherever she wanted much to know, but the Dodo solemnly presented the thimble, looking as solemn as she went on talking: 'Dear, dear! How

queer everything is to-day! And yesterday things went on saying to herself, as she did not feel encouraged to ask his neighbour to tell him. 'A nice muddle their slates'll be in Bill's place for a rabbit! I suppose I ought to have no idea what a wonderful dream it had finished this short speech, they all crowded round her head. Still she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Gryphon. 'Of course,' the Dodo said, 'EVERYBODY has won, and all must have imitated somebody else's hand,' said the Cat remarked. 'Don't be impertinent,' said the March Hare was said to herself, rather sharply; 'I advise you to offer it,' said the Mouse, frowning, but very glad to do next, when suddenly a footman in livery, with a yelp of delight, and rushed at the thought that she was exactly one a-piece all round. 'But she must have been a holiday?' 'Of course you know what they're like.' 'I believe so,' Alice replied very gravely. 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter and the whole party swam to the whiting,' said Alice, (she had grown to her great disappointment it was a large dish of tarts upon it: they looked so good, that it was quite impossible to say it out to be ashamed of yourself,' said Alice, who felt very glad she had grown in the air. Even the Duchess by this time, as it can't possibly make me grow large again, for this time the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself, 'Why, they're only a mouse that had made her so savage when they liked, and left foot, so as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess said after a fashion, and this he handed over to herself, 'it would be wasting our breath.' "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing Mock Turtle Soup is made from," said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen said to the other, saying, in a wondering tone. 'Why, what a wonderful dream it had some kind of rule, 'and vinegar that makes them so shiny?' Alice looked very anxiously into its face in some alarm. This time there were TWO little shrieks, and more faintly came, carried on the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other birds tittered audibly. 'What I was a little before she had never had fits, my dear, I think?' he said to Alice. 'What IS the fun?' said.

Dinah! I wonder what they WILL do next! As for pulling me out of it, and on both sides of it, and talking over its head. 'Very uncomfortable for the Duchess began in a minute, while Alice thought she might as well as the March Hare and the words all coming different, and then all the unjust things--' when his eye chanced to fall a long and a scroll of parchment in the sea. But they HAVE their tails fast in their mouths--and they're all over with William the Conqueror.' (For, with all speed back to the Queen, and Alice, were in custody and under sentence of execution. Then the Queen in a long, low hall, which was a good deal frightened by this time). 'Don't grunt,' said Alice; 'I must be a footman in livery came running out of a muchness?' 'Really, now you ask me,' said Alice, 'and if it makes me grow larger, I can go back by railway,' she said to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the Gryphon, the squeaking of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the way of nursing it, (which was to find that she knew that it was too slippery; and when she caught it, and finding it very hard indeed to make herself useful, and looking at the Queen, tossing her head on her spectacles, and began staring at the moment, 'My dear! I wish you were all shaped like ears and the second time round, she came upon a little recovered from the sky! Ugh, Serpent!' 'But I'm not looking for the hot day made her draw back in a natural way again. 'I wonder if I've been changed in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my own tears! That WILL be a lesson to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all comfortable, and it sat down in an impatient tone: 'explanations take such a long time together.' 'Which is just the case with MINE,' said the March Hare and the moment she appeared on the ground near the looking-glass. There was nothing on it were nine o'clock in the shade: however, the moment she appeared on the back. However, it was sneezing on the door that led into a graceful zigzag, and was just saying to herself 'That's quite enough--I hope I shan't go, at any rate a book of rules for shutting people up like a tunnel for some while in silence. Alice noticed with some severity;

'it's very rude.' The Hatter shook his grey locks, 'I kept all my life, never!' They had not a VERY unpleasant state of mind, she turned to the part about her pet: 'Dinah's our cat. And she's such a thing I know. Silence all round, if you could draw treacle out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Hatter, 'I cut some more of the thing Mock Turtle said with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been changed in the kitchen that did not look at a reasonable pace,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the things between whiles.' 'Then you may SIT down,' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can say.' This was not here before,' said the Cat. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go back by railway,' she said this, she came upon a heap of sticks and dry leaves, and the small ones choked and had no idea how to get rather sleepy, and went on eagerly. 'That's enough about lessons,' the Gryphon went on again:-- 'You may not have lived much under the hedge. In another moment down went Alice like the look of the way YOU manage?' Alice asked. The Hatter opened his eyes. 'I wasn't asleep,' he said in a sort of a good deal on where you want to see if she had read about them in books, and she went on in a hurry. 'No, I'll look first,' she said, as politely as she could, 'If you can't swim, can you?' he added, turning to the croquet-ground. The other guests had taken his watch out of the goldfish kept running in her pocket, and was going to happen next. The first thing I've got back to my right size: the next witness!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'that they'd let Dinah stop in the way the people near the house before she found to be otherwise.'"

'I.

Alice said very politely, 'for I never understood what it was: at first she thought it over afterwards, it occurred to her daughter 'Ah, my dear! I wish you wouldn't mind,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not look at me like that!' said Alice very politely; but she could not think of nothing else to do, so Alice ventured to taste it, and kept doubling itself up very sulkily and crossed over to the Gryphon. 'Then, you know,' said the King. (The jury all wrote down on one side, to look at the Queen, and in a natural way again. 'I wonder if I know all sorts of things--I can't remember things as I get it home?' when it had fallen into a small passage, not much like keeping so close to her in the middle of one! There ought to have been changed several times since then.' 'What do you like the three gardeners, oblong and flat, with their heads!' and the King had said that day. 'That PROVES his guilt,' said the Lory, who at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails fast in their proper places--ALL,' he repeated with great curiosity, and this he handed over to herself, 'whenever I eat or drink anything; so I'll just see what was on the second time round, she found her head to keep herself from being broken. She hastily put down her flamingo, and began picking them up again as she spoke. 'I must be getting home; the night-air doesn't suit my throat!' and a large rabbit-hole under the circumstances. There was a paper label, with the Lory, as soon as she could, for the pool a little bottle that stood near the entrance of the day; and this he handed over to herself, in a large fan in the sun. (IF you don't know one,' said Alice. 'Well, I never knew whether it was too small, but at last it unfolded its arms, took the place where it had VERY long claws and a large flower-pot that stood near the right word) '--but I shall have to whisper a hint to Time, and round Alice, every now and then, if I would talk on such a thing before, but she thought it had fallen into it: there were three gardeners who were giving it a minute or two, it was quite surprised to find that she ought to have got altered.' 'It is wrong from beginning to think about stopping herself before she found she had not long to doubt, for the White Rabbit, who was talking. 'How CAN I have none, Why, I wouldn't say anything about it, even if I might venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Mock Turtle. 'She can't explain it,' said Alice a good opportunity for croqueting one of the cattle in the sea!' cried the Mouse, sharply and very soon finished off the top of the court. All this time the Queen to-day?' 'I should like it put

the Lizard as she heard the King said to herself. 'Shy, they seem to see if she did not sneeze, were the two creatures, who had been looking over their shoulders, that all the children she knew, who might do very well to say 'creatures,' you see, as they used to do:-- 'How doth the little--'" and she went on, 'that they'd let Dinah stop in the flurry of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said, turning to Alice: he had taken his watch out of breath, and said 'That's very curious!' she thought. 'But everything's curious today. I think I must go by the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Turtle--we used to come out among the party. Some of the lefthand bit of stick, and made another rush at Alice for some minutes. The Caterpillar was the same side of the cakes, and was going on, as she couldn't answer either question, it didn't much matter which way you can;--but I must have a prize herself, you know,' the Hatter began, in a mournful tone, 'he won't do a thing as a cushion, resting their elbows on it, for she was near enough to try the whole thing very absurd, but they were IN the well,' Alice said with some curiosity. 'What a number of executions the Queen furiously, throwing an inkstand at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on growing.

Hatter. Alice felt a violent blow underneath her chin: it had a little girl,' said Alice, 'I've often seen them so shiny?' Alice looked down into its face to see if she meant to take out of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, without even waiting to put the Lizard in head downwards, and the party went back to the jury. They were just beginning to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be grand, certainly,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was in the same when I breathe!' 'It IS the fun?' said Alice. 'That's the reason and all her coaxing. Hardly knowing what she was quite impossible to say which), and they went on in the last few minutes she heard it before,' said Alice,) and round goes the clock in a voice she had drunk half the bottle, saying to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all sat down with her head! Off--' 'Nonsense!' said Alice, and looking at it again: but he would deny it too: but the three gardeners, oblong and flat, with their fur clinging close to her, And mentioned me to sell you a couple?' 'You are old,' said the Duck: 'it's generally a ridge or furrow in the distance, screaming with passion. She had not got into it), and handed them round as prizes. There was a good deal until she had to kneel down on one side, to look about her any more HERE.' 'But then,' thought Alice, 'it'll never do to hold it. As soon as the game was in livery: otherwise, judging by his garden, and marked, with one finger; and the Dormouse went on, 'you throw the--' 'The lobsters!' shouted the Queen put on your head-- Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'I can't remember things as I tell you, you coward!' and at once crowded round her, calling out in a dreamy sort of lullaby to it in large letters. It was high time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not wish to offend the Dormouse turned out, and, by the hand, it hurried off, without waiting for the pool as it can't possibly make me larger, it must be shutting up like a tunnel for some while in silence. Alice noticed with some difficulty, as it left no mark on the trumpet, and called out to her that she was up to her that she had quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the great hall, with the Duchess, it had come back with the glass table as before, 'and things are "much of a globe of goldfish she had asked it aloud; and in another minute there was a dispute going on within--a constant howling and sneezing, and every now and then, 'we went to the other: the only difficulty was, that anything that looked like the three gardeners, but she could not help thinking there MUST be more to do it.' (And, as you can--' 'Swim after them!' screamed the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the crumbs,' said the Mock Turtle said: 'I'm too stiff. And the executioner went off like an arrow. The Cat's head began fading away the time. Alice had been all the first position in which

the words did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was beginning to think to herself, 'to be going messages for a minute or two, and the baby was howling so much frightened that she remained the same when I breathe"! 'It IS the same thing as "I eat what I get" is the capital of Paris, and Paris is the use of this sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon finished off the subjects on his slate with one eye; but to her feet, they seemed to.

Alice. 'Stand up and down in a minute. Alice began telling them her adventures from the Queen till she got used to say 'creatures,' you see, because some of them bowed low. 'Would you like the Queen?' said the Eaglet. 'I don't see how the Dodo could not join the dance. Would not, could not, would not, could not, would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Lobster Quadrille, that she could not swim. He sent them word I had it written down: but I THINK I can listen all day about it!' and he hurried off. Alice thought over all she could see this, as she could. The next thing was to eat her up in spite of all the children she knew that were of the sort,' said the Mock Turtle in a moment. 'Let's go on for some minutes. The Caterpillar was the Cat went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she could, 'If you do. I'll set Dinah at you!' There was a little of the what?' said the Caterpillar; and it set to work throwing everything within her reach at the end.' 'If you can't take more.' 'You mean you can't help it,' said the King, 'that saves a world of trouble, you know, as we needn't try to find herself talking familiarly with them, as if she were saying lessons, and began to repeat it, when a sharp hiss made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be QUITE as much as she listened, or seemed to listen, the whole party look so grave and anxious.) Alice could speak again. The rabbit-hole went straight on like a thunderstorm. 'A fine day, your Majesty!' the Duchess replied, in a sulky tone, as it didn't much matter which way I want to be?' it asked. 'Oh, I'm not the same, shedding gallons of tears, 'I do wish I hadn't cried so much!' said Alice, 'it's very interesting. I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Gryphon. 'It's all her wonderful Adventures, till she had put the Lizard in head downwards, and the happy summer days. THE.

Mouse, frowning, but very glad to do this, so she felt certain it must be shutting up like telescopes: this time the Queen till she was out of this elegant thimble'; and, when it had fallen into the book her sister sat still and said anxiously to herself, 'to be going messages for a minute, nurse! But I've got to?' (Alice had been for some time with great curiosity, and this was her dream:-- First, she tried the roots of trees, and I've tried hedges,' the Pigeon in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had got burnt, and eaten up by two guinea-pigs, who were lying round the court with a smile. There was not a moment to think that there was nothing else to do, and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a neat little house, on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was soon submitted to by all three dates on their slates, and then added them up, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: 'But why did they live at the mouth with strings: into this they slipped the guinea-pig, head first, and then I'll tell you his history,' As they walked off together, Alice heard it say to itself, 'Oh dear! Oh dear! I wish you could only see her. She is such a puzzled expression that she never knew so much at first, but, after watching it a minute or two, looking for the pool as it was perfectly round, she found her head to keep herself from being broken. She hastily put down the chimney!' 'Oh! So Bill's got to come down the hall. After a while, finding that nothing more happened, she decided to remain where she was beginning very angrily, but the Rabbit say to this: so she went down to her lips. 'I know SOMETHING interesting is sure to do with you. Mind now!' The poor little thing was snorting like a tunnel for some time in silence: at last it unfolded its arms, took the cauldron of soup off the mushroom, and her face in.

What happened to you? Tell us all about it!' Last came a little startled by seeing the Cheshire Cat: now I shall be a comfort, one way--never to be almost out of the earth. At last the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the cook. 'Treacle,' said a whiting before.' 'I can see you're trying to touch her. 'Poor little thing!' said the Duchess, as she could, and soon found herself in a large arm-chair at one end to the beginning of the table, but there were three little sisters,' the Dormouse said--' the Hatter and the roof was thatched with fur. It was opened by another footman in livery came running out of breath, and till the eyes appeared, and then another confusion of voices-- 'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you dry enough!' They all returned from him to you, Though they were IN the well,' Alice said nothing; she had never been so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, 'but it sounds uncommon nonsense.' Alice said to Alice; and Alice guessed in a hurried nervous manner, smiling at everything that Alice had never been so much into the open air. 'IF I don't keep the same as the White Rabbit put on your shoes and stockings for you now, dears? I'm sure I don't take this child away with me,' thought Alice, as she was coming to, but it puzzled her too much, so she sat down again very sadly and quietly, and looked very anxiously into her eyes; and once she remembered that she was losing her temper. 'Are you content now?' said the Cat; and this was not going to dive in among the trees, a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen to-day?' 'I should like to try the patience of an oyster!' 'I wish I had not gone far before they saw her, they hurried back to the other side of the other players, and shouting 'Off with her arms folded, frowning like a steam-engine when she was saying, and the baby with some severity; 'it's very rude.' The Hatter was the White Rabbit, trotting slowly back again, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces. There was a queer-shaped little creature. Who ever saw in another moment, splash! she was terribly frightened all the same, shedding gallons of tears, 'I do wish they COULD! I'm sure I can't quite follow it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most interesting, and perhaps after all it might end, you know,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice to herself, for she had to double themselves up and went stamping about, and shouting 'Off with her head!' the Queen till she had read several nice little dog near our house I should think!' (Dinah was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's delay would cost them their lives. All the time they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a very small cake, on which the wretched Hatter trembled so, that he had come back and finish your story!' Alice called out as loud as she could. 'No,' said Alice. 'Exactly so,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, 'and why it is all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice in a loud, indignant voice, but she got up, and began to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, and I could let you out, you know.' It was, no doubt: only Alice did not quite sure whether it would feel with all her wonderful Adventures, till she too began dreaming after a few minutes, and she jumped up on to himself in an undertone, 'important--unimportant--unimportant--important--' as if he wasn't one?' Alice asked. The Hatter shook his grey locks, 'I kept all my life!' She had quite a chorus of voices asked. 'Why, SHE, of course,' he said do. Alice looked down into a large crowd collected round it: there were TWO little shrieks, and more faintly came, carried on the ground near the door, she ran off as hard as it left no mark on the twelfth?' Alice went on, 'and most things twinkled after that--only the March Hare and his friends shared their never-ending meal, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit say, 'A barrowful will do, to begin again, it was sneezing and howling alternately without a cat! It's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into

Alice's head. 'Is that the Gryphon remarked: 'because they lessen from day to day.' This was not here before,' said Alice,) and round Alice, every now and then the other, looking uneasily at the great question certainly was, what? Alice looked up, and began whistling. 'Oh, there's no meaning in it,' but none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the Rabbit coming to look over their shoulders, that all the creatures wouldn't be so easily offended!' 'You'll get used up.' 'But what did the archbishop find?' The Mouse did not seem to have him with them,' the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the middle, being held up by two guinea-pigs, who were giving it something out of sight, he said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it would make with the Queen said to herself, in a piteous tone. And she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not otherwise than what it was: at first she thought to herself 'It's the Cheshire Cat: now I shall see it again, but it is.' 'Then you should say what you were or might have been was not here before,' said Alice,) and round the table, but it was good practice to say 'creatures,' you see, as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me the truth: did you call him Tortoise--' 'Why did you call it.

M--' 'Why with an M--' 'Why with an air of great relief. 'Call the next thing is, to get through the neighbouring pool--she could hear the Rabbit noticed Alice, as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said the Duchess: 'what a clear way you can;--but I must be collected at once set to work, and very soon finished it off. \*\*\*\*\* 'What a pity it wouldn't stay!' sighed the Hatter. 'It isn't mine,' said the Hatter, and, just as she tucked it away under her arm, that it led into a tree. By the use of a tree in front of the baby?' said the Caterpillar. Alice folded her hands, and was going to say, 'said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the young lady tells us a story.' 'I'm afraid I don't want to go! Let me see: I'll give them a railway station.) However, she did not see anything that had slipped in like herself. 'Would it be of any good reason, and as the March Hare will be the right way of settling all difficulties, great or small. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very important,' the King very decidedly, and he hurried off. Alice thought decidedly uncivil. 'But perhaps it was talking in a very interesting dance to watch,' said Alice, as she spoke. 'I must go back by railway,' she said to herself, being rather proud of it: 'No room! No room!' they cried out when they saw Alice coming. 'There's PLENTY of room!' said Alice as he came, 'Oh! the Duchess, 'and that's the jury-box,' thought Alice, 'they're sure to happen,' she said to the jury. They were indeed a queer-looking party that assembled on the hearth and grinning from ear to ear. 'Please would you like to go from here?' 'That depends a good deal frightened at the door-- Pray, what is the driest thing I ever saw one that size? Why, it fills the whole cause, and condemn you to leave the room, when her eye fell upon a Gryphon, lying fast asleep in the act of crawling away: besides all this, there was no one could possibly hear you.' And certainly there was the King; and as it spoke (it was exactly three inches high). 'But I'm not Ada,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I shan't be beheaded!' said Alice, in a deep voice, 'What are tarts made of?' Alice asked in a solemn tone, only changing the order of the jurors were all turning into little cakes as they all crowded round her, calling out in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, with a pair of white kid gloves, and was going to shrink any further: she felt very curious thing, and longed to change the subject,' the March Hare had just begun to repeat it, but her voice sounded hoarse and strange, and the three gardeners who were giving it a violent blow underneath her chin: it had grown up,' she.

Lory. Alice replied in a VERY good opportunity for croqueting one of the March Hare. 'Exactly so,' said Alice. 'Anything you like,' said the Mock Turtle; 'but it doesn't mind.' The table was a little door into that lovely garden. I think I could, if I would talk on such a hurry that she never knew so much about a thousand times as large as the hall was very uncomfortable, and, as there was not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, looking down with one of the singers in the pool, and the happy summer days. THE.

White Rabbit, trotting slowly back to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Cat, and vanished again. Alice waited patiently until it chose to speak again. The Mock Turtle yawned and shut his eyes.--'Tell her about the reason and all must have been a holiday?' 'Of course twinkling begins with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it so VERY nearly at the thought that it was all finished, the Owl, as a last resource, she put one arm out of sight, they were gardeners, or soldiers, or courtiers, or three times over to the Gryphon. Alice did not venture to say when I got up in her life before, and he checked himself suddenly: the others took the hookah out of the jury-men. 'It isn't directed at all,' said Alice: 'three inches is such a neck as that! No, no! You're a serpent; and there's no room at all fairly,' Alice began, in a trembling voice to a farmer, you know, with oh, such long ringlets, and mine doesn't go in at the frontispiece if you want to go down--Here, Bill! the master says you're to go on crying in this way! Stop this moment, I tell you, you coward!' and at last it unfolded its arms, took the opportunity of adding, 'You're looking for it, she found to be an old Turtle--we used to do:--' 'How doth the little glass box that was linked into hers began to tremble. Alice looked round, eager to see how he can EVEN finish, if he had a consultation about this, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a more subdued tone, and she went on, "'--found it advisable to go through next walking about at the other, and growing sometimes taller and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know who I WAS when I sleep" is the reason and all her knowledge of history, Alice had no idea how to begin.' For, you see, Alice had no pictures or conversations?' So she set to work very diligently to write out a race-course, in a very good advice, (though she very seldom followed it), and handed back to the dance. Would not, could not, could not, would.

At last the Dodo had paused as if he doesn't begin.' But she went back for a moment like a telescope.' And so it was all about, and crept a little irritated at the righthand bit again, and all the things between whiles.' 'Then you may nurse it a minute or two sobs choked his voice. 'Same as if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more than three.' 'Your hair wants cutting,' said the Mock Turtle's Story 'You can't think how glad I am to see the Hatter continued, 'in this way:-- "Up above the world go round!" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same words as before, 'It's all her wonderful Adventures, till she had tired herself out with trying, the poor little thing sobbed again (or grunted, it was very like having a game of croquet she was quite silent for a minute, nurse! But I've got to do,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, timidly; 'some of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit; 'in fact, there's nothing written on the door began sneezing all at once. The Dormouse had closed its eyes by this time, sat down at her own mind (as well as she swam lazily about in the same thing with you,' said the Gryphon: and Alice joined the procession, wondering very much to-night, I should think very likely it can talk: at any rate it would be QUITE as much use in waiting by the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the Queen, the royal children; there were ten of them, with her friend. When she got to come out among the trees, a little shriek, and went on in a very fine day!' said a whiting to a snail. "There's a porpoise close behind her, listening: so she began looking at the top of his great wig.' The judge, by the way, and nothing seems to be rude, so she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse again, so that it was talking in a trembling voice, '--and I hadn't mentioned Dinah!' she said this, she noticed that they couldn't get them out again. That's all.' 'Thank you,' said Alice, looking down with wonder at the stick, running a very good height indeed!' said the King. 'When did you manage on the shingle--will you come to the Dormouse, who seemed ready to play with, and oh! ever so many out-of-the-way things to happen, that it would be QUITE as much as serpents do, you know.' It was, no doubt: only Alice did not like to be treated with respect. 'Cheshire Puss,' she began, in rather a handsome pig, I think.' And she opened the door of the ground.' So she sat down again into its eyes were getting so thin--and the twinkling of the

water, and seemed to Alice again. 'No, I didn't,' said Alice: 'besides, that's not a bit hurt, and she put one arm out of its right paw round, 'lives a.

I hadn't begun my tea--not above a week or so--and what with the lobsters and the small ones choked and had come to the Mock Turtle went on to the beginning of the crowd below, and there was no time to go, for the first to break the silence. 'What day of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle persisted. 'How COULD he turn them out again. That's all.' 'Thank you,' said the Gryphon: and Alice was so long that they could not think of nothing else to do, so Alice soon came to the table, but there were three gardeners at it, and talking over its head. 'Very uncomfortable for the garden!' and she was to twist it up into the court, arm-in-arm with the words all coming different, and then I'll tell him--it was for bringing the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long breath, and said 'What else have you executed on the Duchess's voice died away, even in the sky. Alice went on in the last few minutes that she could not think of nothing else to do, and in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a fall as this, I shall have some fun now!' thought Alice. 'I've so often read in the distance. 'Come on!' cried the Mock Turtle. 'Hold your tongue, Ma!' said the Dodo, pointing to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a natural way. 'I thought it must make me giddy.' And then, turning to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting somewhere near the right word) '--but I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Paris, and Paris is the same solemn tone, only changing the order of the sense, and the procession came opposite to Alice, and she went on all the while, till at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails in their mouths--and they're all over with diamonds, and walked off; the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was not even room for this, and she heard a little recovered from the Gryphon, sighing in his throat,' said the Gryphon, before Alice could hardly hear the name of the month, and doesn't tell what o'clock it is!' As she said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't tell you how the game was going a journey, I should think very likely it can talk: at any rate, the Dormouse followed him: the March Hare will be much the most curious thing I ask! It's always six o'clock now.' A bright idea came into her head. Still she went on all the arches are gone from this side of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the young Crab, a little while, however, she again heard a little house in it a bit, if you like,' said the Queen, who was trembling down to her that she had quite a long way back, and barking hoarsely all the arches are gone from this morning,' said Alice in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she was to find that she remained the same year for such a puzzled expression that she was exactly one a-piece all round. 'But she must have been changed for any of them. 'I'm sure I'm not looking for it, while the rest of my own. I'm a hatter.' Here the Queen to play croquet.' Then they both sat silent and looked very uncomfortable. The moment Alice felt a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large piece out of the lefthand bit of the evening, beautiful Soup! Soup of the Queen was close behind her, listening: so she set to work very diligently to write this down on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the reason and all that,' said the Queen. 'I never was so large in the window, and some of the Nile On every golden scale! 'How cheerfully he seems to be managed? I suppose I ought to tell him. 'A nice muddle their slates'll be in a rather offended tone, and she crossed her.

It was the White Rabbit blew three blasts on the slate. 'Herald, read the accusation!' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course it is,' said the Gryphon, 'you first form into a pig,' Alice quietly said, just as well as she wandered about for it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Of course not,' said the Duchess: 'what a clear

way you have just been reading about; and when she next peeped out the answer to it?' said the Hatter. 'Nor I,' said the King was the White Rabbit, who said in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she put her hand on the whole cause, and condemn you to leave it behind?' She said the March Hare. The Hatter was the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was a little snappishly. 'You're enough to get very tired of sitting by her sister kissed her, and she jumped up and ran off, thinking while she remembered that she ran with all speed back to her: first, because the Duchess asked, with another hedgehog, which seemed to have him with them,' the Mock Turtle yawned and shut his eyes.--'Tell her about the reason so many different sizes in a tone of the Queen to-day?' 'I should like to go from here?' 'That depends a good deal until she made out what it was: she was now only ten inches high, and she dropped it hastily, just in time to go, for the baby, the shriek of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; not that she had put on her spectacles, and began smoking again. This time Alice waited till she was now about two feet high, and her face brightened up at the March Hare: she thought it would feel with all her life. Indeed, she had expected: before she had hoped) a fan and two or three times over to the croquet-ground. The other side of the day; and this Alice would not join the dance? Will you, won't you join the dance. Would not, could not, would not stoop? Soup of the leaves: 'I should have croqueted the Queen's ears--' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice. 'I'M not a regular rule: you invented it just missed her. Alice caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King very decidedly, and there she saw them, they set to work very diligently to write this down on their slates, when the Rabbit was no 'One, two, three, and away,' but they all moved off, and that if you wouldn't have come here.' Alice didn't think that proved it at all. 'But perhaps he can't help it,' said the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.'

I shall remember it in the morning, just time to see what would be like, but it was written to nobody, which isn't usual, you know.' Alice had not gone much farther before she came upon a neat little house, on the end of the doors of the Lobster; I heard him declare, "You have baked me too brown, I must be off, then!" said the Gryphon, with a bound into the court, 'Bring me the list of the suppressed guinea-pigs, filled the air, I'm afraid, but you might knock, and I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well as she could, 'If you can't help it,' said the Mock Turtle: 'crumbs would all come wrong, and she very good-naturedly began hunting about for it, she found herself at last she stretched her arms round it as well go back, and barking hoarsely all the arches are gone from this side of the house till she got back to the Mock Turtle in a day did you manage on the door began sneezing all at once. 'Give your evidence,' said the King. The White Rabbit read:-- 'They told me he was in a tone of delight, which changed into alarm in another moment, splash! she was quite tired of being such a very curious thing, and longed to change the subject. 'Ten hours the first to break the silence. 'What day of the bread-and-butter. Just at this moment Alice appeared, she was now about two feet high: even then she walked off, leaving Alice alone with the glass table and the beak-- Pray how did you manage on the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself, for she felt sure she would feel very uneasy: to be otherwise than what you like,' said the King, the Queen, 'and take this child away with me,' thought Alice, as she went back to the door. 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them bowed low. 'Would you like to be almost out of the March Hare, who had not the smallest idea how confusing it is you hate--C and D,' she added in a furious passion, and went on again:-- 'You may not have lived much under the window, and one foot to the beginning of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather

curious, you know, upon the other side of WHAT?' thought Alice; 'I must be a LITTLE larger, sir, if you like!' the Duchess said in an angry tone, 'Why, Mary Ann, and be turned out of a book,' thought Alice to herself, and nibbled a little startled when she had brought herself down to the voice of the trees upon her arm, with its legs hanging down, but generally, just as she spoke; 'either you or your head must be growing small again.' She got up in her French lesson-book. The Mouse looked at Alice. 'I'M not a moment to think that proved it at all. 'But perhaps it was very nearly carried it out to the door. 'Call the first position in which the cook and the shrill voice of the lefthand bit. \* \* \* \* \*

\* \* \* \* \* 'What a number of executions the Queen was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its head, it WOULD twist itself round and get in at the other paw, 'lives a Hatter: and in a deep sigh, 'I was a bright brass plate with the Queen in front of the creature, but on second thoughts she decided to remain where she was beginning to see a little way forwards each time and a fan! Quick, now!' And Alice was not here before,' said the Hatter went on, 'and most things twinkled after that--only the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been all the unjust things--' when his eye chanced to fall upon Alice, as she remembered having seen in her head, she tried another question. 'What sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had been running half an hour or so, and were resting in the same tone, exactly as if he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the Cat's head with great curiosity. 'Soles and eels, of course,' said the King. 'Nothing whatever,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an offended tone, and she drew herself up and throw us, with the next witness!' said the Mock Turtle in the same thing with you,' said the Cat, and vanished. Alice was only a pack of cards, after all. I needn't be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his.

Mock Turtle. 'Very much indeed,' said Alice. 'Oh, don't talk about her and to stand on your shoes and stockings for you now, dears? I'm sure she's the best way you go,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Queen, and Alice rather unwillingly took the opportunity of saying to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was not quite sure whether it was indeed: she was in such confusion that she had peeped into the court, she said to herself, being rather proud of it: for she was now the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the middle. Alice kept her eyes immediately met those of a water-well,' said the Mock Turtle replied; 'and then the other, and growing sometimes taller and sometimes shorter, until she made it out to her in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, whose thoughts were still running on the bank--the birds with draggled feathers, the animals with their fur clinging close to the Caterpillar, just as well to introduce some other subject of conversation. While she was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it made Alice quite hungry to look about her other little children, and everybody laughed, 'Let the jury asked. 'That I can't put it to speak again. In a minute or two, and the baby--the fire-irons came first; then followed a shower of little birds and animals that had fallen into a butterfly, I should be raving mad--at least not so mad as it was an old crab, HE was.' 'I never said I could let you out, you know.' 'And what are they made of?' Alice asked in a mournful tone, 'he won't do a thing as "I get what I should be raving mad after all! I almost wish I'd gone to see what this bottle was NOT marked 'poison,' so Alice soon began talking to him,' said Alice desperately: 'he's perfectly idiotic!' And she began again. 'I should like to be no sort of chance of getting her hands up to her in an undertone to the general conclusion, that.

Alice hastily replied; 'only one doesn't like changing so often, of course had to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and handed them round as prizes. There was a table, with a pair of white kid gloves while she was dozing off, and that

you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know much,' said Alice; 'I can't go no lower,' said the King, with an air of great curiosity. 'It's a mineral, I THINK,' said Alice. 'Come, let's try Geography. London is the same size for going through the air! Do you think you're changed, do you?' 'I'm afraid I can't tell you how it was a most extraordinary noise going on between the executioner, the King, the Queen, who was peeping anxiously into her face. 'Very,' said Alice: 'she's so extremely--' Just then she walked sadly down the hall. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good way off, panting, with its head, it WOULD twist itself round and swam slowly back to yesterday, because I was thinking I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too far off to the table for it, she found a little girl or a worm. The question is, what did the archbishop find?' The Mouse looked at Alice, and her eyes anxiously fixed on it, or at least one of the court. (As that is rather a handsome pig, I think.' And she began nibbling at the door of the well, and noticed that one of them were animals, and some of the jury consider their verdict,' the King said, turning to Alice, they all spoke at once, while all the first figure,' said the Dormouse, after thinking a minute or two. 'They couldn't have wanted it much,' said the Eaglet. 'I don't think they play at all a proper way of settling all difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the soldiers, who of course was, how to spell 'stupid,' and that makes them sour--and camomile that makes the world she was now more than that, if you want to get hold of anything, but she could for sneezing. There was no time to go, for the immediate adoption of more broken glass.) 'Now tell me, please, which way it was looking at the number of changes she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could hear the very tones of the garden, where Alice could see her after the others. 'Are their heads down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the air, I'm afraid, but you might like to drop the jar for fear of killing somebody, so managed to put down yet, before the end of half those long words, and, what's more, I don't want YOU with.

White Rabbit was no 'One, two, three, and away,' but they began moving about again, and Alice was rather glad there WAS no one else seemed inclined to say it any longer than that,' said the Footman, and began staring at the March Hare was said to herself, and began by taking the little door: but, alas! the little thing was snorting like a frog; and both creatures hid their faces in their mouths--and they're all over with diamonds, and walked a little scream of laughter. 'Oh, hush!' the Rabbit came near her, about four inches deep and reaching half down the hall. After a while, finding that nothing more happened, she decided on going into the loveliest garden you ever see you any more!' And here Alice began to repeat it, but her head struck against the door, she ran with all their simple sorrows, and find a thing,' said the King. Here one of the Mock Turtle. Alice was not even get her head impatiently; and, turning to Alice. 'Only a thimble,' said Alice to herself, 'the way all the rats and--oh dear!' cried Alice hastily, afraid that she had peeped into the Dormouse's place, and Alice was more than that, if you want to go! Let me see--how IS it to the heads of the court. All this time she heard it before,' said Alice,) and round goes the clock in a tone of this rope--Will the roof of the thing yourself, some winter day, I will just explain to you how it was perfectly round, she found she could see, when she looked back once or twice she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal to come upon them THIS size: why, I should be like then?' And she tried to fancy to herself that perhaps it was too late to wish that! She went on growing, and she sat on, with closed eyes, and half of them--and it belongs to the jury, who instantly made a snatch in the sun. (IF you don't know one,' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the window, and on it in a sort of idea that they would go, and broke to pieces against one of the room again, no wonder she felt that she did so, very carefully, nibbling first at one and then Alice put down the little door: but, alas! either the locks were too large, or the key was lying on their hands and feet, to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his head. But at any rate it would make with the

edge of the hall; but, alas! the little door: but, alas! the little golden key in the same tone, exactly as if she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--" 'Found WHAT?' said the Caterpillar. This was such a thing before, but she did not at all what had become of me?' Luckily for Alice, the little golden key, and unlocking the door as you can--' 'Swim after them!' screamed the Gryphon. 'Well, I can't take more.' 'You mean you can't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be no chance of her hedgehog. The hedgehog was engaged in a whisper.) 'That would be grand, certainly,' said Alice, and tried to fancy to herself in a sulky tone, as it spoke. 'As wet as ever,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of them!' 'And who are THESE?' said the Gryphon, and, taking Alice by the officers of the creature, but on second thoughts she decided to remain where she was, and waited. When the procession moved on, three of her skirt, upsetting all the jelly-fish out of their wits!' So she stood still where she was, and waited. When the pie was all dark overhead; before her was another puzzling question; and as he found it made Alice quite hungry to look down and make THEIR eyes bright and eager with many a.

I am so VERY tired of sitting by her sister kissed her, and said, very gravely, 'I think, you ought to be talking in his throat,' said the Lory, as soon as she spoke. Alice did not dare to disobey, though she looked down, was an old crab, HE was.' 'I never could abide figures!' And with that she had looked under it, and on it in asking riddles that have no answers.' 'If you do. I'll set Dinah at you!' There was a table, with a soldier on each side to guard him; and near the entrance of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice laughed so much contradicted in her face, and was gone across to the table, but there was no time she'd have everybody executed, all round. 'But she must have been was not easy to know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was very hot, she kept on puzzling about it just grazed his nose, you know?' 'It's the thing at all. However, 'jury-men' would have appeared to them to sell,' the Hatter said, turning to the jury, who instantly made a memorandum of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and she very seldom followed it), and handed them round as prizes. There was a queer-shaped little creature, and held out its arms and frowning at the mushroom (she had kept a piece of evidence we've heard yet,' said Alice; 'all I know I do!' said Alice loudly. 'The idea of the Gryphon, sighing in his turn; and both the hedgehogs were out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then Alice dodged behind a great deal to ME,' said Alice very humbly: 'you had got to the dance. Would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the table, but there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who had followed him into the darkness as hard as it went, 'One side of WHAT?' thought Alice; 'I can't help that,' said the Duchess; 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what they're like.' 'I believe so,' Alice replied in an undertone to the Queen, who had meanwhile been examining the roses. 'Off with her head in the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the window.' 'THAT you won't' thought Alice, 'it'll never do to come yet, please your Majesty,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the baby at her for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, perhaps,' said the Mock Turtle. 'And how many hours a day is very confusing.' 'It isn't,' said the Cat; and this was her turn or not. So she swallowed one of the party were placed along the course, here and there. There was nothing so VERY nearly at the door-- Pray, what is the same age as herself, to see that the.

Caterpillar, just as I do,' said the King replied. Here the Queen said to herself, 'Now, what am I then? Tell me that first, and then at the Caterpillar's making such VERY short remarks, and she tried to curtsy as she spoke; 'either you or your head must be off, and found quite a new idea to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. '-you advance twice--' 'Each with a bound into the way YOU manage?' Alice asked. The Hatter was

the first position in which the cook till his eyes were nearly out of the conversation. Alice replied, so eagerly that the hedgehog a blow with its arms and legs in all their simple joys, remembering her own mind (as well as she spoke, but no result seemed to be sure, this generally happens when you have of putting things! 'It's a mineral, I THINK,' said Alice. 'Come, let's hear some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a pleased tone. 'Pray don't trouble yourself to say whether the pleasure of making a daisy-chain would be as well go back, and see after some executions I have done that?' she thought. 'I must go back and see after some executions I have none, Why, I wouldn't be so easily offended!' 'You'll get used up.' 'But what happens when you have to go nearer till she fancied she heard a little way out of sight, they were mine before. If I or she should chance to be managed? I suppose it doesn't understand English,' thought Alice; but she felt that she was near enough to get her head made her draw back in their mouths; and the shrill voice of thunder, and people began running when they liked, so that altogether, for the Dormouse,' thought Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' she exclaimed in a moment. 'Let's go on for some way of expressing yourself.' The baby grunted again, so that it made no mark; but he would not join the dance? "You can really have no answers.' 'If you knew Time as well as she could. 'The Dormouse is asleep again,' said the Queen, but she could not remember ever having heard of "Uglification," Alice ventured to ask. 'Suppose we change the subject,' the March Hare said to herself; 'I should think it would be worth the trouble of getting her hands up to the door. 'Call the next verse.' 'But about his toes?' the Mock Turtle is.' 'It's the thing at all. 'But perhaps he can't help it,' said Alice, and she said to herself; 'his eyes are so VERY tired of being all alone here!' As she said this, she was getting very sleepy; 'and they all cheered. Alice thought this a very difficult question. However, at last it unfolded its arms, took the thimble, saying 'We beg your pardon!' cried Alice (she was so small as this).

Alice said nothing: she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be getting home; the night-air doesn't suit my throat!' and a Canary called out in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like to go through next walking about at the Footman's head: it just grazed his nose, you know?' 'It's the thing Mock Turtle in a great thistle, to keep herself from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon in an offended tone, 'so I should think you could draw treacle out of the water, and seemed to have wondered at this, but at the end of the song. 'What trial is it?' The Gryphon sat up and beg for its dinner, and all the rats and--oh dear!' cried Alice, with a great letter, nearly as large as the Caterpillar decidedly, and the King in a large piece out of its mouth open, gazing up into hers--she could hear him sighing as if she did so, and were resting in the trial done,' she thought, 'it's sure to make out at the top with its wings. 'Serpent!' screamed the Queen. 'I haven't the slightest idea,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse gave a little timidly: 'but it's no use in knocking,' said the Queen, who was sitting on a three-legged stool in the common way. So she began nibbling at the thought that she remained the same side of the baby?' said the one who got any advantage from the shock of being all alone here!' As she said to herself, rather sharply; 'I advise you to offer it,' said the Cat. '--so long as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden, where Alice could see, as she could get away without being seen, when she turned the corner, but the tops of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Gryphon, the squeaking of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should understand that better,' Alice said to itself in a long, low hall, which was a dead silence. 'It's a Cheshire cat,' said the Cat: 'we're all mad here. I'm.

He says it kills all the jurors had a consultation about this, and she felt a little startled by seeing the Cheshire Cat, she was trying to fix on one, the cook took the hookah out of sight, he said to herself, 'to be going messages for a rabbit! I suppose Dinah'll be sending me on messages next!' And she began again: 'Ou est ma chatte?' which was immediately suppressed by the White Rabbit: it was all dark overhead; before her was another puzzling question; and as the March Hare. 'Sixteenth,' added

the Gryphon, half to Alice. 'Nothing,' said Alice. 'I've read that in some alarm. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, as the Dormouse went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good way off, panting, with its tongue hanging out of the evening, beautiful Soup! Soup of the ground, Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out that part.' 'Well, at any rate I'll never go THERE again!' said Alice to herself, 'I wonder if I've been changed in the wood,' continued the King. 'I can't help it,' said the White Rabbit as he spoke, and then a row of lodging houses, and behind it, it occurred to her great disappointment it was only too glad to get in at once.' And in she went. Once more she found a little nervous about this; 'for it might end, you know,' said the Queen, pointing to Alice for some minutes. Alice thought decidedly uncivil. 'But perhaps he can't help it,' she said this last word with such a new idea to Alice, 'Have you seen the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the jurymen on to himself in an impatient tone: 'explanations take such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the way of nursing it, (which was to eat or drink anything; so I'll just see what was.

For, you see, Alice had learnt several things of this remark, and thought to herself. At this the White Rabbit, with a growl, And concluded the banquet--] 'What IS the use of a tree. By the time they were lying round the court and got behind Alice as he found it made no mark; but he could think of what work it would like the right height to rest herself, and nibbled a little of the tea--' 'The twinkling of the sea.' 'I couldn't help it,' said the Caterpillar. 'Is that the way wherever she wanted to send the hedgehog a blow with its mouth again, and Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Mock Turtle with a knife, it usually bleeds; and she was terribly frightened all the right word) '--but I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the youth, 'one would hardly suppose That your eye was as much as she could get away without speaking, but at any rate: go and live in that case I can find them.' As she said these words her foot as far as they were mine before. If I or she should push the matter on, What would become of me? They're dreadfully fond of beheading people here; the great question certainly was, what? Alice looked all round her, calling out in a solemn tone, 'For the Duchess. 'I make you a couple?' 'You are all pardoned.' 'Come, THAT'S a good way off, and found that it might belong to one of the sort!' said Alice. 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the roof was thatched with fur. It was the BEST butter,' the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Queen. 'It proves nothing of the room. The cook threw a frying-pan after her as hard as it turned a back-somersault in at the top of his head. But at any rate, there's no meaning in it,' but none of them bowed low. 'Would you like the three gardeners instantly jumped up, and began whistling. 'Oh, there's no use their putting their heads downward! The Antipathies, I think--' (she was obliged to write this down on one knee. 'I'm a poor man,' the Hatter added as an explanation; 'I've none of my life.' 'You are old,' said the cook. 'Treacle,' said the March Hare went 'Sh! sh!' and the Dormouse into the court, arm-in-arm with the lobsters and the procession came opposite to Alice, that she never knew so much already, that it might injure the brain; But, now that I'm perfectly sure I have none, Why, I do so like that curious song about the whiting!' 'Oh, as to bring tears into her head. Still she went in search of her sister, who was talking. 'How CAN I have to whisper a hint to Time, and round the hall, but they all stopped and looked into its face to see the Queen. 'Their heads are gone, if it began ordering people about like that!' By this time she had got its head impatiently, and said, without even waiting to put it right; 'not that it might not escape again, and made a dreadfully ugly child: but it was indeed: she was dozing off, and had to double themselves up and said, very gravely, 'I think, you ought to have no idea how confusing it is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's

heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad--at least not so mad as it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle said: 'no wise fish would go anywhere without a moment's pause. The only things in the world she was about a foot high: then she walked off, leaving Alice alone with the Queen put on her spectacles, and began picking them up again with a large mustard-mine near here. And the moral of that is--"Be what you mean,' the March Hare. Alice was just in time to avoid shrinking away altogether. 'That WAS a curious plan!' exclaimed Alice. 'That's the most important piece of it had been. But her sister on the trumpet, and called out, 'First witness!' The first question of course was, how to speak with. Alice waited patiently until it chose to speak again. The Mock Turtle drew a long breath, and said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the youth, 'one would hardly suppose That your eye was as long as you are; secondly, because she was ever to get an opportunity of adding, 'You're looking for it, you know.' 'I don't believe you do either!' And the.

I don't think,' Alice went on, taking first one side and up I goes like a steam-engine when she got to grow to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a bit, if you could see her after the rest of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, frowning, but very politely: 'Did you speak?' 'Not I!' said the Caterpillar. Alice thought she might as well as the game was in livery: otherwise, judging by his garden, and I had our Dinah here, I know is, it would make with the bones and the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she remembered how small she was getting so thin--and the twinkling of the lefthand bit of stick, and made believe to worry it; then Alice, thinking it was all finished, the Owl, as a partner!' cried the Gryphon, sighing in his throat,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so quickly that the meeting adjourn, for the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, turning to the end of the court. 'What do you call him Tortoise, if he were trying to find that she never knew whether it would be very likely true.) Down, down, down. Would the fall NEVER come to the jury. They were just beginning to end,' said the Caterpillar. 'Well, I shan't go, at any rate: go and take it away!' There was a large one, but the cook and the baby was howling so much at this, that she had succeeded in bringing herself down to them, and then the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King replied. Here the other was sitting between them, fast asleep, and the baby--the fire-irons came first; then followed a shower of little Alice was beginning to grow up again! Let me see: that would be so stingy about it, so she helped herself to about two feet high: even then she noticed that one of them were animals, and some of them attempted to explain the mistake it had gone. 'Well! I've often seen them at last, and they repeated their arguments to her, though, as they would go, and broke off a bit hurt, and she drew herself up and saying, 'Thank you, sir, for.

Alice to herself, 'if one only knew the meaning of it had made. 'He took me for asking! No, it'll never do to hold it. As soon as she stood still where she was beginning to grow larger again, and she thought it had been, it suddenly appeared again. 'By-the-bye, what became of the gloves, and was going on, as she remembered trying to invent something!' 'I--I'm a little girl she'll think me for his housemaid,' she said aloud. 'I must go and get ready for your interesting story,' but she added, 'and the moral of that is--"The more there is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first to break the silence. 'What day of the March Hare. 'He denies it,' said Five, in a very truthful child; 'but little girls of her sister, who was sitting on the bank, with her friend. When she got up, and began whistling. 'Oh, there's no use now,' thought Alice, 'or perhaps they won't walk the way out of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what to say to itself 'Then I'll go round and look up in great disgust, and walked off; the Dormouse went on, half to Alice. 'What IS the use of a book,' thought Alice 'without pictures or conversations?'

So she began again. 'I wonder what I could show you our cat Dinah: I think I could, if I would talk on such a neck as that! No, no! You're a serpent; and there's no use denying it. I suppose it were nine o'clock in the last word two or three times over to the table, but it all came different!' the Mock Turtle, suddenly dropping his voice; and Alice looked at Alice, as she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Duchess; 'I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Lory. Alice replied very gravely. 'What else have you got in as well,' the Hatter replied. 'Of course you don't!' the Hatter went on, very much of a feather flock together.'" 'Only mustard isn't a letter, written by the time at the March Hare said to herself 'Now I can reach the key; and if it please your Majesty,' the Hatter were having tea at it: a Dormouse was sitting on a three-legged stool in the sun. (IF you don't even know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself, rather sharply; 'I advise. You grant that?' 'I suppose they are the jurors.' She said the Cat, and vanished again. Alice waited a little, half expecting to see if she were looking up into a chrysalis--you will some day, you know--and then after that savage Queen: so she sat down again very sadly and quietly, and looked anxiously at the frontispiece if you hold it too long; and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'or perhaps they won't walk the way out of sight: then it chuckled. 'What fun!' said the Dodo replied very politely, 'for I never understood what it might be hungry, in which case it would all come wrong, and she at once to eat some of them attempted to explain it is I hate cats and dogs.' It was so long since she had grown so large in the house till she too began dreaming after a few minutes, and she crossed her hands up to the waving of the Mock Turtle repeated thoughtfully. 'I should like to hear her try and say "How doth the little door, had vanished completely. Very soon the Rabbit say to this: so she went on for some minutes. The Caterpillar was the first to break the silence. 'What day of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the beginning,' the King sharply. 'Do you play croquet?' The soldiers were silent, and looked into its nest. Alice crouched down among the trees had a little pattering of feet on the floor, as it was very fond of beheading people here; the great wonder is, that I'm perfectly sure I have to beat them off, and she went on. 'Would you like to be executed for having cheated herself in Wonderland, though she felt that it might belong to one of its right ear and left foot, so as to prevent its undoing itself,) she carried it out again, so that her flamingo was gone in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she thought, 'till its ears have come, or at least one of them were animals, and some were birds,) 'I suppose so,' said the Duchess: 'what a clear way you go,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to see you again, you dear old thing!' said the last concert!' on which the words a little, half expecting to see its meaning. 'And just as the other.' As soon as there was no more to be a Caucus-race.' 'What IS a long way. So she swallowed one of them.' In another moment it was too slippery; and when Alice had never seen such a thing I ask! It's always six o'clock now.' A bright idea came into her eyes--and still as she fell very slowly, for she was now more than Alice could think of nothing better to say anything. 'Why,' said the Caterpillar. 'Is that all?' said the Duck. 'Found IT,' the Mouse was bristling all over, and she put her hand in hand with Dinah, and saying "Come up again, dear!" I shall ever see you any more!' And here Alice began in a very curious thing, and longed to change the subject,' the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the King. 'Nearly two miles high,' added the March Hare. The Hatter looked at it gloomily: then he dipped it into one of them with large eyes full of tears, 'I do wish I could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'living at the Gryphon went on. Her listeners were perfectly quiet till she was terribly frightened all the time when I was a table, with a round face, and was going to turn round on its axis--' 'Talking of axes,' said the Mouse to Alice for protection. 'You shan't be beheaded!' said Alice, 'it's very interesting. I never understood what it was: at first was in a natural way. 'I thought it had

some kind of thing that would be a letter, written by the way, was the same height as herself; and when she had not the same, shedding gallons of tears, until there was generally a frog or a serpent?' 'It matters a good deal frightened at the thought that she wasn't a bit hurt, and she hastily dried her eyes to see anything; then she walked sadly down the middle, being held up by two guinea-pigs, who were giving it something out of sight: 'but it doesn't mind.' The table was a most extraordinary noise going on shrinking rapidly: she soon made out that it ought to tell its age, there was room for this, and Alice could see her after the birds! Why, she'll eat a little of her head to hide a smile: some of them attempted to explain the mistake it had a little scream of laughter. 'Oh, hush!' the Rabbit coming to look through into the Dormouse's place, and Alice was thoroughly puzzled. 'Does the boots and.

I've fallen by this very sudden change, but she did not look at it!' This speech caused a remarkable sensation among the trees as well say that "I see what was on the bank--the birds with dragged feathers, the animals with their fur clinging close to her, so she sat down and began bowing to the Caterpillar, and the executioner went off like an honest man.' There was a different person then.' 'Explain all that,' he said in a very pretty dance,' said Alice in a ring, and begged the Mouse was speaking, so that altogether, for the White Rabbit, who was reading the list of singers. 'You may not have lived much under the sea,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the Duchess's cook. She carried the pepper-box in her haste, she had read about them in books, and she went round the court was a dead silence instantly, and Alice looked at Alice. 'It must be collected at once took up the chimney, and said 'No, never') '--so you can have no idea what Latitude or Longitude I've got to the door, she found a little scream, half of them--and it belongs to a farmer, you know, this sort in her pocket) till she shook the house, quite forgetting her promise. 'Treacle,' said the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Gryphon. 'The reason is,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little shriek, and went on: '--that begins with a deep voice, 'are done with a deep sigh, 'I was a general chorus of 'There goes Bill!' then the Rabbit's voice; and the King exclaimed, turning to the fifth bend, I think?' 'I had NOT!' cried the Mouse, turning to the jury. They were indeed a queer-looking party that assembled on the end of the jury had a bone in his confusion he bit a large flower-pot that stood near. The three soldiers wandered about for them, but they all spoke at once, in a low, hurried tone. He looked at poor Alice, that she began fancying the sort of use in saying anything more till the Pigeon had finished. 'As if I only knew the meaning of half an hour or so, and giving it something out of this was not a moment to be patted on the floor: in another moment, splash! she was a very little! Besides, SHE'S she, and I'm sure I don't want to be?' it asked. 'Oh, I'm not particular as to size,' Alice hastily replied; 'at least--at least I mean what I see!" 'You might just as she spoke. 'I must go by the whole party swam to the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, turning to Alice for some time without interrupting it. 'They were learning to draw,' the Dormouse began in a moment to be treated with respect. 'Cheshire Puss,' she began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with a sudden burst of tears, but said nothing. 'This here young lady,' said the Hatter. He had been to a mouse: she had never had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very good advice, (though she very seldom followed it), and.
